## **Senate Budget Committee Chairman Gregg Applauds House Passage of FY 07 Budget Resolution**

WASHINGTON – Senate Budget Committee Chairman Judd Gregg today applauded last night’s passage of the Fiscal Year 2007 Budget Resolution by the House of Representatives.

“I commend House Majority Leader Boehner and House Budget Committee Chairman Nussle for their leadership in successfully passing the FY07 budget resolution,” said Chairman Gregg. “The House has passed a budget that reins in federal spending and reduces the federal deficit – important elements to keeping the economy on stable footing and protecting the economic interests of our children and grandchildren.”

“I now look forward to working with Chairman Nussle, as well as my House and Senate Colleagues, as we strive to produce a responsible budget compromise that funds the current priorities of the nation while passing on a manageable government for future generations.”
