109TH CONGRESS 1ST SESSION

H. R. 585

AN ACT

To require Federal land managers to support, and to communicate, coordinate, and cooperate with, designated gateway communities, to improve the ability of gateway communities to participate in Federal land management planning conducted by the Forest Service and agencies of the Department of the Interior, and to respond to the impacts of the public use of the Federal lands administered by these agencies, and for other purposes.

1 Be it enacted by the Senate and House of Representa-2 tives of the United States of America in Congress assembled, 3 SECTION 1. SHORT TITLE. This Act may be cited as the "Gateway Communities 4 Cooperation Act". SEC. 2. IMPROVED RELATIONSHIP BETWEEN FEDERAL 7 LAND MANAGERS AND GATEWAY COMMU-8 TO SUPPORT COMPATIBLE LAND **NITIES** 9 MANAGEMENT OF BOTH FEDERAL AND ADJA-10 CENT LANDS. 11 (a) FINDINGS.—Congress finds the following: 12 (1) Many communities that abut or are near 13 Federal lands, including units of the National Park 14 System, units of the National Wildlife Refuge Sys-15 tem, units of the National Forest System, and lands 16 administered by the Bureau of Land Management, 17 are vitally impacted by the management and public 18 use of these Federal lands. 19 (2) Some of these communities, commonly 20 known as gateway communities, fulfill an integral 21 part in the mission of the Federal lands by providing 22 necessary services, such as schools, roads, search 23 and rescue, emergency service, medical support, 24 logistical support, living quarters, and drinking

water and sanitary systems for visitors to the Fed-

- eral lands and employees of Federal land management agencies.
 - (3) Provision of these vital services by gateway communities is an essential ingredient for a meaningful and enjoyable experience by visitors to the Federal lands because Federal land management agencies are unable to provide, or are prevented from providing, these services.
 - (4) Many gateway communities serve as an entry point for persons who visit the Federal lands and are ideal for establishment of visitor services, including lodging, food service, fuel, auto repairs, emergency services, and visitor information.
 - (5) Development in some gateway communities may impact the management and protection of these Federal lands.
 - (6) The planning and management decisions of Federal land managers can have unintended consequences for gateway communities and the Federal lands when the decisions are not adequately communicated to, or coordinated with, the elected officials and residents of gateway communities.
 - (7) Experts in land management planning are available to Federal land managers, but persons with technical planning skills are often not readily avail-

- able to gateway communities, particularly small
 gateway communities.
- 3 (8) Gateway communities are often affected by 4 the policies and actions of several Federal land man-5 agement agencies and the communities and the 6 agencies would benefit from greater interagency co-7 ordination of those policies and actions.
- 8 (9) Persuading gateway communities to make 9 decisions and undertake actions in their communities 10 that would also be in the best interest of the Federal 11 lands is most likely to occur when such decision-12 making and actions are built upon a foundation of 13 cooperation and coordination.
- 14 (b) Purpose.—The purpose of this section is to re-15 quire Federal land managers to communicate, coordinate, 16 and cooperate with gateway communities in order to—
 - (1) improve the relationships among Federal land managers, elected officials, and residents of gateway communities;
 - (2) enhance the facilities and services in gateway communities available to visitors to Federal lands when compatible with the management of these lands, including the availability of historical and cultural resources; and
