

President George W. Bush
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear Mr. President,

I write to request you take the following action to help drought-affected Americans:

1. Support the comprehensive agriculture disaster assistance package that Senator Tim Johnson worked to include in the most recent agriculture spending bill.
2. Establish a USDA program to help South Dakota producers suffering from drought, which you can do immediately.

We ask that you view this natural disaster just as you did the Katrina hurricane. We ask these actions of you to help us save our communities and our way of life.

Thank you for your immediate attention to the important issue of drought relief.

Sincerely, _____

_____, South Dakota _____
