

April 28, 2005

Dear Colleague:

## Limited English can really Limit Opportunities

Being limited English proficient means more than not being able to participate in American activities. Without English skills, newcomers to our nation are shut out of higher paying opportunities, leaving themselves and their families struggling to survive in the wealthiest nation in the world. It's time to unite our nation under an official language to ensure that we can all attain the American dream. Co-sponsor H.R. 997 to help all Americans open the want ads. Please contact me or Brenna Findley of my staff at 5-4426.

Sincerely,

Steve King  
Member of Congress
