

0 6 OCT 2005

REPLY TO ATTENTION OF

Honorable Jerry Lewis Chairman Committee on Appropriations United States House of Representatives Washington, D. C. 20515

Dear Mr. Chairman:

This letter transmits the Army's fourth weekly report on allocations and obligations by the Army Corps of Engineers of the amounts appropriated for Civil Works Operation and Maintenance, General (O&M), and Flood Control and Coastal Emergencies (FCCE) in Public Law 109-62, the Second Emergency Supplemental Appropriations Act to Meet Immediate Needs Arising from the Consequences of Hurricane Katrina, 2005.

Three enclosures provide (1) a summary by state of allocations and obligations covering both accounts; (2) a listing by project or project element of allocations and obligations in the O&M account; and (3) a listing by project or project element of allocations and obligations in the FCCE account. Descriptions of work also are provided. The Corps has allocated \$190 million and obligated \$79 million of the \$200 million appropriated for O&M. The Corps has allocated \$199 million and obligated \$36 million of the \$200 million appropriated for FCCE.

As work proceeds, the allocations among projects and project elements shown in the enclosures will almost certainly change. These changes will be reflected in future weekly reports.

Identical letters are being sent to the Chairmen of the Senate Appropriations Committee and the House and Senate Appropriations Subcommittees on Energy and Water Development.

Very truly yours,

John Paul Woodley Jr. Assistant Secretary of the Army
