

**Subcommittee on Energy and Water Appropriations
FY 07 Funding Request Form**

For each and every project that is requested within your Member's letter, please enter the corresponding information on the form below. Each request requires a completed form. Requests will not be considered unless they are documented in an official member letter *and* electronically transmitted via the form below. All member requests are due no later than March 16, 2006. Please follow the numerical steps and enter applicable information relating to your project request. An "***" indicates a required field. Please contact the Appropriations Committee staff at x5-3421 with questions, problems, or concerns about this form.

Please note the Committee requires Members to prioritize all Energy and Water requests. If you choose to submit your requests for the agencies covered under the subcommittee in multiple sessions, the projects must be assigned a unique priority. Failure to prioritize your requests will negatively impact the Committee's ability to review and evaluate Member requests.
