

The Earned Income Tax Credit (EITC) The Federal Tax Credit for Working Families

Dear Neighbor:

Ohio families are missing out on a valuable tax benefit for working Americans. I am committed to changing that.

Almost half of Ohio's individual tax return filers are eligible for the EITC, a federal tax credit that recognizes the economic contributions of working families. But 25% of eligible Ohioans did not claim the EITC in 2000. According to the Internal Revenue Service (IRS), \$181,529,600 that could have been refunded to Ohio families in 2000 stayed in Washington instead. These dollars need to reach the families who deserve them.

If your family earned less than \$38,000 in 2006, you may be eligible. The EITC amount depends on things like earned income, total income, and family size, but the maximum credit for 2006 is \$4,500. Even if you did not claim the EITC in the past, you can amend earlier returns and claim the credit.

Visit my Website (www.house.gov/sherrodbrown) for an instant, online estimate of what the EITC might be worth to you. Then download IRS' *Earned Income Credit* publication (Publication 596), which provides more details. The back of this letter lists IRS contacts who can answer your questions or help you request or download Publication 596.

Feel free to share this information with other Ohio families, and please do not hesitate to call with questions about the EITC. Thank you for your interest in this important tax benefit for working families.

Your Congressman,

Sherrod Brown
