MAY 2001

In the event the contractor encounters difficulty in meeting performance requirements, or when he anticipates difficulty in complying with the contract, or whenever the contractor has knowledge that any actual or potential situation is delaying or threatens to delay the timely performance of this contract, the contractor shall immediately notify the customer and the COR by telephone and follow-up in writing to the COR, giving pertinent details; provided, however, that this data shall be informational only in character and that this provision shall not be construed as a waiver by the House of any delivery schedule or date, or any rights or remedies provided under this contract.

F.3 HC.6.007 SUSPENSION AND DEBARMENT

MAY 2001

- a. Suspension of a contractor temporarily disqualifies that contractor from contracting with the House as a prime and/or House-approved subcontractor, in full or in part. The contracting officer initiates suspensions.
- (1) When the contractor and any specifically named affiliates are suspended, the contracting officer shall advise the firm immediately by certified mail, return receipt requested:
- (a) That the firm has been suspended and that the suspension is based on an indictment or other adequate evidence that the contractor has committed irregularities (i) of a serious nature in business dealings with the House or (ii) seriously reflecting on the propriety of further House dealings with the contractor. Any such irregularities shall be described in terms sufficient to place the contractor on notice without disclosing the House's evidence;
- (b) That the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue;
- (c) Of the cause(s) relied upon for imposing suspension;
- (d) Of the extent and effect of the suspension; and
- (e) That, within 30 days after receipt of the notice of suspension, the contractor or its representative may submit, in writing or in person, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over the material facts.
- (2) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings, unless sooner terminated by the suspending official or as provided in this subsection.
- (3) If the investigation is not concluded or legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated.
- b. Debarment refers to action by the CAO to exclude a contractor from future House awards and House-approved subcontracting, in full or in part, for a reasonable, specified period.
- (1) Upon conclusion of the investigation resulting from a suspension, if the contracting officer should determine that debarment is in order, he or she shall prepare a report on the investigation along with such recommendations regarding debarment, for submission to the CAO.

- (e) Of the effect of the issuance of the notice of proposed debarment; and
- (f) Of the potential effect of an actual debarment.
- c. In the event that the CAO makes a determination to impose debarment, the contracting officer shall give the contractor and any affiliates involved prompt notice by certified mail, return receipt requested:
- (1.) Referring to the notice of proposed debarment;
- (2.) Specifying the reasons for debarment;
- (3.) Stating the period of debarment, including effective dates; and
- (4.) Advising that the debarment is effective throughout the House, unless the CAO determines that limited business dealings between the House and the contractor are justified.
- d. The decision of the CAO on the merits of a debarment shall be final. A decision may be appealed by the contractor, in writing, within 10 days of receipt of notification of the decision, to the Committee on House Administration, only in the event that the CAO failed to follow the procedures established herein.

F.4 HC.6.008 LIQUIDATED DAMAGES

MAY 2001

If the contractor fails to perform the services specified in this contract, or any extension, the House may terminate this contract under the Termination clause of the contract. The contractor shall be liable for fixed, agreed and liquidated damages as provided in Section F "Payment for Non-performance", accruing until the time the House may reasonably obtain delivery or performance of similar services.

F.5 HC.6.009 PAYMENT FOR NON-PERFORMANCE

SECTION L -- INSTRUCTIONS, CONDITIONS AND NOTICES TO BIDDERS

L.1 HC.12.002 CONTENT OF PROPOSALS

OCTOBER 2001

Each proposal shall be sufficiently complete and organized to ensure that evaluation can be made on the basis of its content. It is important that the proposal be organized as specified since the score sheet used during the evaluation will parallel the order specified in the solicitation. Offerors are reminded to avoid excessively lengthy or overly extravagant proposals. Proposals that do not address all of the elements and requirements, in the order contained herein, shall be disqualified from further consideration.

Legibility, clarity and coherence are very important. Using the instructions provided below and in consideration of the assessment criteria, provide as specifically as possible the actual methodology you would use for accomplishing these factors. All the requirements specified in the RFP are mandatory. By your proposal submission you are representing that your firm will perform all the requirements within schedule specified in the RFP. Do not merely reiterate the objectives or reformulate the requirements specified in the RFP.

The following sections should be included in the proposal:

- (1) Section A of RFP The offeror shall insert Section A of this solicitation with all required/applicable blocks completed.
- (2) **Section B Price Schedules** Offeror shall complete Section B and provide a proposed price which will address all requirements as well as others the offeror may wish to offer

The technical proposal shall describe the capability/technology gap addressed, provide a detailed explanation of the proposed technology, identify deliverables, describe work to be performed, and will describe the offeror's expertise to effect the proposed solution. In order to facilitate the House evaluation of the proposals, the Offeror must provide a complete description of how each requirement will be met. Submitting merely an acknowledgement (e.g. "Read and Understood") may provide insufficient information to effectively evaluate the offered solution and, therefore, may have an adverse impact on Offeror's score. The Offeror's Technical Proposal must provide its approach/solution to all of the requirements stated in the solicitation. The Offeror's responses to the requirements must be arranged in the sequence in which the requirements are referenced, and formatted with responses inserted directly after the requirement or request, unless otherwise specified. Specific answers may be cross-referenced throughout Offeror's response to avoid duplication of material.

- (6) Provide pertinent experience and qualification in conducting similar services as stated in the solicitation, and specifically, corporate stability and sound organizational qualities. Demonstrated financial capability sufficient to provide resources to finance day-to-day operations for legislative branch customers.
- (7) **Risk Management** For this RFP adhering to schedule is paramount therefore it is imperative the offerors' identify those elements of the proposal which are considered to involve technical, schedule, cost and risk.
- High (H) Likely to cause significant, serious disruption of schedule, increase in cost, and/or degradation of performance even with special contractor emphasis and close Government monitoring.

 Moderate (M) Can potentially cause some disruption of schedule, increase in cost, and/or degradation of performance. However, special contractor emphasis and close Government monitoring will probably be able to overcome difficulties. Low (L) Has little potential to cause disruption of schedule, increase in cost, or degradation of performance. Normal

contractor effort and normal Government monitoring will probably be able to overcome difficulties.

SECTION M -- EVALUATION FACTORS FOR AWARD

M.1 HC.13.001 EVALUATION FACTORS FOR AWARD

JULY 2001

The House intends to make a single award to and offeror whose proposal meets the minimum requirements as stated in this RFP. Proposals will be evaluated based on the information provided in HC.12.002 Content of Proposals with Past Performance more important than all other factors:

- (1) Past Performance
- (2) Technical Approach
- (3) Risk Management
- (4) Management Approach
- (5) Corporate Capabilities
- (6) *Price

The award will be made to the contractor whose proposal is the most advantageous to the House.

*The proposal is presumed to represent the offeror's best efforts to respond to the solicitation. Any inconsistency, whether real or apparent between promised performance and price, must be explained in the proposal. For example, if unique and new approaches are the basis for an abnormally low estimate, the nature of these approaches and their impact on price must be explained. Any significant inconsistency, if unexplained, raises a fundamental issue of the offeror's understanding of the nature and scope of the work required. It also may reflect on the offeror's ability to perform the contract within the financial restraints and may be cause for rejection of the proposal. The burden of proof as to price credibility rests with the offeror.

- 1. Risk Assessment. Price proposals will be evaluated to identify and assess potential risks, which may be inherent in the offeror's approach. The estimated costs to correct any deficiencies in the offeror's proposal will also be evaluated.
- 2. Price Realism. Proposed pricing will be evaluated not only to determine if the price is reasonable, realistic, and affordable, but also to determine the offeror's understanding of the requirements.
- 3. Price. Evaluation factors other than price, when combined, are significantly more important than price.

M.2 HC.13.002 CONTRACT AWARD

JULY 2001

- a. The House intends to award a single contract resulting from this solicitation to the responsible offerors whose offer conforms to this solicitation, taking into account the factors contained in M.1 "Evaluation Factors for Award".
- b. The House may:
- (1) reject any or all offers, if such action is its interest,
- (2) waive informalities and minor irregularities in offers received.
- c. The House intends to evaluate proposals and to award a single contract without discussion. Therefore, each initial offer should contain the offeror's best terms. However, the CO reserves the right to conduct discussions if they are later determined to be necessary.
