

WHAT OTHERS ARE SAYING ABOUT

Investing in Climate Action and Protection Act

“...gets the science right while protecting working class Americans.”

Sierra Club
Carl Pope, Exec. Director

"...Congressman Markey recognizes that California and 19 other states should be able to have cleaner, more efficient cars."

Governor of California
Arnold Schwarzenegger

"...Congressman Markey is providing sorely needed environmental leadership in our nation's capital.”

Friends of the Earth
Brent Blackwelder, President

“Representative Markey's bill answers America’s call for meaningful action to head off global warming.”

League of Conservation Voters
Gene Karpinski, President

“...a landmark bill that breaks new ground in creating a fair and effective approach to climate change policy.”

Oxfam America
Raymond C. Offenheiser, President

"Its short-term target will get us on the path toward the long-term reductions that scientists say will be necessary to prevent the worst consequences of global warming..."

Union of Concerned Scientists
Alden Meyer

“Congressman Markey’s Investing in Climate Action and Protection Act appears to be the most comprehensive climate bill drafted in the House, and Congress should carefully consider the legislation as it crafts an effective response to climate change.”

EDF National Climate Campaign
Steve Cochran, Directory

“By mobilizing American ingenuity and resources, we can liberate America from its dependence on fossil fuels, reduce pollution and threats to our health, create new economic opportunities, and bring new life to cities and small towns alike. We applaud Chairman Markey for this visionary bill.”
