A handwritten signature in blue ink that reads "Joe Biden".

Senator Biden is committed to honoring the men and women who put their lives on the line to protect our country and the families that support them; this nation has no higher duty than to care for them. Ensuring that all veterans have access to top-notch medical treatment in a fully-funded VA health care system is a non-negotiable issue for the Senator.

We must provide the best possible veterans homes for those who need them and strengthen the GI Bill's educational benefits. Those who have been injured in action, as well as their loved ones and caregivers, must be able to easily access the benefits they have been promised.
