Alexander Announces Grant Funding for Alexandria International

WASHINGTON, D.C. – U.S. Rep. Rodney Alexander, R-Quitman, today announced that the England Economic and Industrial Development District will receive a U.S. Department of Transportation grant totaling \$8 million.

The funding will be used toward noise mitigation for residences within the area of Alexandria International.

“Alexandria International has led to significant economic growth in Central Louisiana, and making these improvements will ensure the future of this economic engine,” Alexander said.

“AI is Central Louisiana’s link to the rest of the world, and the 5th District is fortunate to have this project.”
