

Dear, Sirs,

We oppose this bill S. 2324

Do you have an interest in the proposed duty suspension legislation and, if so, do you support, oppose, or are you neutral to S. 2324?

Yes we have an interest and we OPPOSE this

Is there U.S. production of the products described in the bills or U.S. production of a competing product?

Yes there is production in the USA we manufacture these type of units in North Manchester, IN

Could you please let me know if your company (or if you know of any other companies) that manufacture or import a similar or competitive product in the U.S.? If there are imports, what countries are the major sources of imports for this product?

We import the parts for these units and several like components in many sizes and we have to pay duty on the raw materials from India ,eliminating the duty on these and not all these parts would put us at a competitive disadvantage.

Will you benefit from this bill? If so, can you provide me an estimate of the value of imports that will benefit from this bill in each of the next five years? And, if so, do you have any relationship with Bose, the proponent of this bill?

We would not benefit we would suffer from unfair competition. No we do not have a relationship with Bose.

Regards,

John Harwood
