

To Whom It May Concern:

I write on behalf of the National Textile Association (“NTA”), the oldest and largest association of companies who form, dye, print, or finish woven, knitted, and non-woven textiles in the U.S.

**NTA opposes S.2360 relating to nonmoven fabric consisting of two layers of needleloom felt.**

This product directly competes with one manufactured in the United States by a member company of the National Textile Association who would be harmed by this duty suspension.
