

Office Congressman Joe Donnelly

Indiana 2nd Congressional District

On February 17, 2009, President Barack Obama signed *The American Recovery and Reinvestment Act*. The \$787 billion package combines tax relief for middle-class families and small businesses with smart investments in infrastructure, education, and energy efficiency programs.

In recent weeks, many of you have contacted my office with questions about how you and your community can benefit from the economic recovery process. In order to help answer these questions and assist you with your search for various programs and investments funded by the recovery package, I have prepared *The American Recovery and Reinvestment Act* Guide Book. The book is a compilation of information on federal and state programs and funding opportunities available to individuals, communities and businesses in Indiana as a result of the economic recovery package.

I have attempted to be as comprehensive as possible, but new information is becoming available on a daily basis. I encourage you to also visit www.recovery.gov, which provides links to each of the federal agencies as well as provides data on how recovery money is allocated. In addition, the State of Indiana has set up www.invest.in.gov to allow Hoosiers to see how the recovery dollars are spent in Indiana.

I will continue to update this document as more information becomes available, but please do not hesitate to contact Andy Boland (andy.boland@mail.house.gov) in my Washington office (202-225-3915) should you have any additional questions.

I hope you find this information helpful. I look forward to continuing our work together to help create jobs, strengthen our communities, and benefit our local economy.

Sincerely,

M

Grant: Fixed Guideway Modernization
Amount: \$750 million was included for transit capital assistance grants.
\$5.85 million will be allocated to the State of Indiana through existing formulas.
Type: Funds are allocated by a statutory formula to urbanized areas with rail systems that have been in operation for at least seven years.
Administrator: Federal Transit Administration / U.S. Department of Transportation
Purpose: These funds will be used for capital projects to modernize or improve existing fixed guideway systems, including purchase and rehabilitation of rolling stock, track, line equipment, structures, signals and communications, power equipment and substations, passenger stations and terminals, security equipment and systems, maintenance facilities and equipment, operational support equipment including computer hardware and software, system extensions, and preventive maintenance.

Grant: Capital Investments Grants (New Starts & Small Starts)

Amount: \$750 million was included for capital investment grants
Type: Distributed on a discretionary basis for New Starts and Small Starts projects that are already in construction or are nearly ready to begin construction
Administrator: Federal Transit Administration - U.S. Department of Transportation
Purpose: For light rail lines, rapid rail (heavy rail), commuter rail, automated fixed guideway system, or bus-way/high occupancy vehicle (HOV) facilities
Website: www.fta.dot.gov/funding/grants/grants_financing_3590.html

Grant: **Transit Capital Assistance-Discretionary Grants**

Amount: \$6.9 billion was included for transit capital assistance grants.
Type: Discretionary grants to public transit agencies to improve energy efficiency and reduce costs and dependence on foreign oil.
Agency: Federal Transit Administration - U.S. Department of Transportation
Website: www.fta.dot.gov/index_9118.html

Grant: **National Surface Transportation System - Discretionary Grants**

Amount: \$1.5 billion was included for discretionary grants for the National Surface Transportation System.
Type: Discretionary grants to be awarded to state and local governments or transit agencies on a competitive basis for projects that will have a significant impact on the nation, a metropolitan area, or a region. Eligible projects include highway and bridge projects, public transportation projects, passenger and freight rail projects, and port infrastructure investments

Environment (Water, Enviro Cleanup, and Army COE)

Grant: Clean Water State Revolving Fund
Amount: \$4 billion included for the Clean Water State Revolving Fund
Type: Funding provided to states is used to makes loans to communities, individuals, and others for high-priority water-quality activities
Administrator: Indiana Finance Authority
Purpose: To provide relief to communities by requiring a greater federal share for local clean and drinking water projects and greater flexibility for states to reach communities that would otherwise not have the resources to repay a loan with interest.
Activities: Loans are used to build or improve wastewater treatment plants; agricultural, rural, and urban runoff control; estuary improvement projects; wet weather flow control, including storm water and sewer overflows; alternative treatment technologies; and water reuse and conservation projects.

Energy

Grants: State Energy Efficiency Programs
Amount: \$3.1 billion was included for the State Energy Program.
Type: States receive funding through a formula
Description: States use grants to address energy priorities and program funding to adopt emerging renewable energy and energy efficiency technologies
Contact: Indiana Office of Energy Development: 317-232-8939
www.in.gov/oed/

Grants: Weatherization Assistance Program
Amount: \$5 billion was included for the Weatherization Assistance Program. Provisions also expand the eligibility of low-income households for the Weatherization Assistance Program and increasing the funding assistance level per dwelling (from \$2,500 per dwelling to \$6,500)
Type: States receive funding through a formula
Description: Provides energy efficiency measures in the homes of qualifying homeowners free of charge
Purpose: To assist low-income families reduce their energy bills by making their homes more energy efficient
Contact: Applicants should contact their local Community Action Agency. To find your agency, please visit http://incap.org/CAP_agencies.htm

Grants: Energy Efficiency and Conservation Block Grant (EECBG)
Amount: \$3.2 billion was included for EECBG.
Type: Competitive grants to government entities
Office: Energy Efficiency and Renewable Energy (EERE)
Agency: U.S. Department of Energy
Purpose: To reduce fossil fuel emissions, decrease overall energy consumption, improve energy efficiency in the transportation, building, and other energy consuming sectors of the economies of eligible entities
Description: Assists states and local governments in implementing strategies to reduce fossil fuel emissions created as a result of activities within the jurisdictions of the eligible entities and reduce the total energy use. Activities eligible to receive funding include: conducting

residential and commercial building energy audits; establishing financial incentives programs for energy efficiency improvements; grants to non-profits organizations to perform energy efficiency retrofits; developing/implementing programs to conserve energy used in transportation; developing and implementing building codes and inspections services to promote building energy efficiency; installing light emitting diodes (LEDs); and developing, implementing, and installing on or in any government building onsite renewable energy technology that generates electricity from renewable sources.

Grants: Advanced Battery Manufacturing
Amount: \$2 billion was included for Advanced Battery Manufacturing grants to support the manufacturing of advanced vehicle batteries and components
Type: Competitive Grants to domestic manufacturing facilities
Office: Energy Efficiency and Renewable Energy (EERE)
Agency: U.S. Department of Energy

Activities: For the manufacturing of advanced batteries and components; and to provide facility funding to manufacturers of advanced battery systems and vehicle batteries that are produced in the United States, including advanced lithium ion batteries, hybrid electrical systems, component manufacturers, and software designers

Website: www.eere.energy.gov

Grants: **Alternative Fueled Vehicle Pilot Grant Program**

Amount: \$300 million was included for the Alternative Fueled Vehicles Pilot Grant Program

Type: Competitive Grant to state governments, local governments, metropolitan transportation authorities, air pollution control districts, and private or nonprofit entities.

Office: Energy Efficiency and Renewable Energy (EERE) - Clean Cities Program

Agency: U.S. Department of Energy

Purposes: To establish a grant program through the DOE Clean Cities Program to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies.

Activities: Funds used for the acquisition of alternative fueled vehicles, fuel cell vehicles or hybrid vehicles, including buses for public transportation and ground support vehicles at public airports. The installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant also eligible.

Grants: **Fossil Energy Research and Development Program**

Amount: \$3.4 billion was included for Fossil Energy Research and Development Program.

Type: Competitive grants and contracts

Office: Office of Fossil Energy

Agency: U.S. Department of Energy

Description: Research and development programs include pollution control innovations for traditional power plants, including mercury reduction; improved gasification technologies; advanced combustion systems; development of stationary power fuel cells; improved turbines for future coal-based combined cycle plants; and creation of a portfolio of technologies that can capture and permanently store greenhouse gases.

Website: www.fossil.energy.gov

Grants: **Physics Research Science Program**

Amount: \$1.6 billion was included for the science program.

Type: Competitive grants to universities, companies, and national laboratories

Grants: **Advanced Research Projects Agency (ARPA-E)**

Amount: \$400 million included for the Advanced Research Projects Agency (ARPA-E).

Type: Awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers.

Agency: U.S. Department of Energy

Purposes: To support high-risk, high-payoff research to accelerate the innovation cycle for both traditional and alternative energy sources and energy

Website: www.energy.gov

Loan: **Innovative Technology Loan**

Amount: \$6 billion

Type: Loan guarantees to eligible applicants include any firm, corporation, company, partnership, association, society, trust, joint venture, joint stock company, or governmental non-Federal entity that meets specific guidelines

Agency: Department of Energy

Purposes: Loan guarantees for renewable technologies and transmission technologies

Website: www.lgprogram.energy.gov/index.html

Grants: **Nuclear Waste Environmental Cleanup**

Amount: \$5.127 billion

Type: Awards based on priorities established by Dept. of Energy

Agency: Department of Energy

Purpose: Accelerate nuclear waste cleanup at sites contaminated as a result of the nation's past nuclear activities

Website: www.em.doe.gov/pages/siteslocations.aspx?PAGEID=MAIN

Loan: **Transmission Loan Guarantees**

Amount: \$4 billion

Type: Guarantee loans that support early commercial use of advanced technologies

Agency: Department of Energy

Purposes: Loans for renewable energy power generation and transmission projects
