From Congressman Joe Sestak

Dear Friends,

I respect the fact that you came here today because you want to work. This recession was not your doing. American workers have consistently been the world's most dedicated. We still have the world's best educated and most capable workforce.

Unfortunately, Wall Street 'deal makers' and the lack of government oversight have caused grave damage to our economic system. Our capital markets are not providing small and medium sized business owners the funds they need to grow. Many Americans are leaving the stock markets because they no longer trust the system. In addition, competition from abroad to bring new technologies to market has never been fiercer. As a result, many Americans have lost their job, benefits, hours, or all three over the past two years.

I am fighting to bring accountability and transparency to Wall Street and to restore America's reputation for honest innovation, prudence, and integrity in finance. This is why I supported H.R. 4173, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. The bill was passed by the House of Representatives on June 30 and it was signed into law by President Obama on July 21. I voted for H.R. 4173 because our financial markets proven to be as un trustworthy as they were in the decade leading up to the Great Depression. I believe the repeal of the Glass-Steagall Act in 1999 removed the referee from the football field, leading to the economic challenges we have faced. During times like this, I believe we must take both immediate actions to mitigate the economic downturn and to implement the proper regulatory reforms to prevent recurrence of the dire conditions that resulted from the lack of oversight and transparency. H.R. 4173 will put the referee back on the field.

Today I have worked hard to bring together 50 organizations that have no less than 475 jobs available. In addition, Pennsylvania CareerLink, JEVS Supports for Independence, and the US Office of Personnel Management are here to help you update your resumes or to help you conduct a wider search for employment.

I understand how painful the past two years have been for you and I have worked hard to ensure assist working families unfairly punished by this recession. On July 22nd, Congress passed, and President Obama signed into law, H.R. 4213, the Unemployment Compensation Extension Act of 2010. The legislation provides for the extension of federal money for Extended Unemployment Compensation and Extended Benefits through the end of November, 2010 and reinstates benefits retroactively for the thousands of Americans who have exhausted their benefits without finding work. This measure, which I supported, is providing badly needed aid to the hundreds of thousands of Pennsylvanians who have lost their jobs during the recession. However, I know these benefits are not what you want or what the Nation needs. We need you back at work and that is why we are here today.

I will not rest until this recession is over and we have programs and policies in place that will prevent the abuses of our economic system that brought so much misery to so many honest, hard working Americans.

Sincerely,

Joe Sestak
Member of Congress

VOTED TO REPORT THE AMERICAN AFFORDABLE HEALTH CHOICES ACT

To aid working families, the bill:

- Establishes an exchange where individuals and small businesses can purchase insurance at the discounted rate large employers currently receive – currently, small businesses pay 18% more for their health insurance than larger employers (Commonwealth Fund, 2008)
- Institutes market reforms to make health insurance fairer by eliminating co-payments for preventative care and preventing insurers from discriminating against individuals with pre-existing conditions or overly favoring healthy individuals
- Includes a public health insurance option to establish real competition in the insurance market and lower prices for families
- Establishes coverage as a shared responsibility between individuals, employers, and the government, requiring that both employers and individuals contribute to health insurance costs while requiring the federal government to ensure it is affordable for all individuals.

AUTHORED/PASSED LEGISLATION TO EXPAND COBRA HEALTH COVERAGE FOR UNEMPLOYED WORKERS

Authored legislation extends COBRA benefits for all Americans - not limited to age or length of employment- from 18 months to 24 months if an employee reaches their 18 month coverage limit within one year of the bill's passage. This subsidy also applies to health care continuation coverage if required by states for small employers.

Notes

About Congressman Joe Sestak

Joe Sestak is a former 3-Star Admiral who successfully ran for Congress in 2006 after completing his 31-year military service to our country. He is the senior military veteran in history to be elected and serve in the U.S. Congress. Joe led a series of operational commands, culminating in command of the *USS George Washington* carrier battle group (30 ships/100 aircraft/15,000 Sailors) that conducted combat operations in Afghanistan and Iraq. Joe served as President Clinton's Director of Defense Policy at the White House and after 9/11, the Navy selected Joe to become the first Director of the Navy's anti- terrorism unit. The son of a first-generation Navy Captain, Joe followed in the footsteps of his father and attended the U.S. Naval Academy where he graduated 2nd in his Class. He later earned a Ph.D. in Political Economy and Government from Harvard University. After his 31-year distinguished military career, Joe returned home to Delaware County, Pennsylvania with his family, where his parents and siblings also live.

Joe ran for Congressional office on the platform that national security begins at home with the economic, health, education, and environment/energy security of our citizens; these four security pillars, along with defense security, provide for our country's overall national security. In Congress, he is a member of the Committee on Education and Labor, where he impacts our need for a skilled, educated workforce; Vice-Chair of the Small Business Committee, addressing the severe economic conditions that face businesses and their employees; the Armed Services Committee, where he continues to enhance our Nation's defense security; and the Subcommittee on Health, Employment, Labor and Pension, where he is working for our Nation's health security.

Joe believes in a 21st Century Agenda for Opportunity that restores the American Dream by ensuring economic, health, defense, environment/energy and education security so that families can get to work restoring their opportunity for a stronger future. It involves securing the middle class by closing income inequalities; creating an economy where entrepreneurship is the norm not the exception; a healthcare system that is not only affordable and accessible, but one that spurs innovation rather than inefficiency; a national security strategy that makes all of our other goals possible; an energy plan that creates jobs and new industries; and an education plan that ensures a young person can expect a more prosperous life than the generation before.
