**S. 3374
Cleanfields Investment Act**

*As ordered reported by the Senate Committee on Environment and Public Works
on May 20, 2010*

SUMMARY

S. 3374 would authorize the Environmental Protection Agency to provide grants to nonprofit organizations, units of local government, and other eligible entities for locating renewable energy facilities (including renewable energy manufacturing facilities) on brownfield sites. This legislation would authorize the appropriation of \$50 million annually over the 2011-2015 period for such grants. Assuming appropriation of the necessary amounts, CBO estimates that implementing S. 3374 would cost \$195 million over the 2011-2015 period.

Pay-as-you-go procedures would not apply to this legislation because it would not affect direct spending or revenues.

S. 3374 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.
