- a. S. 2868 would amend federal law to allow disaster relief organizations to use the federal supply schedules of the General Services Administration to procure goods and services from private firms for disaster preparedness and response activities. CBO estimates that the increasing the number of purchases would increase offsetting receipts by less than \$500,000 annually. Because those fees can be spent by GSA without further appropriation, the net budgetary impact of the legislation would be negligible.
