SUMMARY OF THE AMENDMENT IN THE NATURE OF A SUBSTITUTE  
TO H.R. 847 PROPOSED TO BE CONSIDERED AS ADOPTED

The amendment in the nature of a substitute provides \$7.4 billion in funding for health claims resulting from the September 11 terrorist attacks. It amends the Public Health Service Act to establish the World Trade Center Health Program (WTC Program) within the National Institute for Occupational Safety and Health to provide (1) medical monitoring and treatment benefits to eligible emergency responders and recovery and cleanup workers (including those who are federal employees) who responded to the September 11, 2001, terrorist attacks; and (2) initial health evaluation, monitoring, and treatment benefits to residents and other building occupants and area workers in New York City who were directly impacted and adversely affected by such attacks. It amends the Air Transportation Safety and System Stabilization Act to: (1) make individuals eligible for compensation under the September 11 Victim Compensation Fund of 2001 for harm as a result of debris removal; (2) extend the deadline for making a claim for compensation for physical harm not discovered before the deadline; (3) cap liability for claims related to debris removal based on the level of insurance available; (4) limit the total payment for compensation for claims filed on or after the regulations are updated pursuant to this Act; and (5) cap the amount that an individual may charge in connection with a claim under such Act, with exceptions. Finally, it amends tax provisions that in some cases allow a U.S. subsidiary of a foreign corporation to avoid U.S. withholding tax on payments to a related subsidiary in a country that has a tax treaty with the United States and changes the timing of estimated corporate tax payments.
