Subject: FW: Warrant Request

Sir,

The easiest thing to do I suppose is to bring Joe in and have him respond to each of Christy's allegations which will take yet a few more days. Another option would be for me to draft up a letter giving some background and have you send it to the USACE Chief of Staff and ask him to help us out. I would recommend that we do both. I'll bring in Joe and I'll draft something up for you to send COL Walsh.

Sir, your thoughts?

v/r  
Rick

COL Fagan: From our discussion I'm sure that she will accept nothing short of something writing from Joe even if Joe provided the original information. She wants to hear Dale's version and she wants it in writing so she can have documentation on file to support her decision. She wants Joe to address each item in Christy's memo. Terry Kelley pointed out that LTG Flowers can actually issue the warrant even if Bunny refuses. I'm not sure he would do that but we still have that option (to ask) if she refuses.

Paul

Paul,

I will call if it is really necessary. However, my OC did not develop these responses in a vacuum. We had Joe in there they are as much his words as they are Dale's. Joe was aware of everything that Dale said. AND he approved of it - before Dale send it out. This is getting very difficult and frustrating, one person should not have this much control and (power?) Please let Ms. Greenhouse know this (above) and see if it is still necessary that Joe submit something in writing - if he is the one that helped develop what Dale Holmes submitted. Dale's submission was far from a rationalization!!!

Thanks,  
LTC F

COL Fagan: I understand you're not in the office today or tomorrow so you may not get this until next week. COL Rowlette will be here
