If you have eligible children for this program, please follow the instructions below on how to schedule an appointment for an orphan screening.

Adoptive Parent(s) in the United States

We encourage you to work closely with your Adoption Service Provider if you have one since we frequently provide updated information to them. We strongly discourage parents from traveling to Haiti on their own.

To request an appointment for an orphan screening at the U.S. Embassy in Port au Prince, contact us at HaitianAdoptions@dhs.gov. To ensure your request is processed correctly please follow the instructions below:

1. In the subject line of your email type: "APPOINTMENT REQUEST," Your surname and the name of the orphanage
2. In the body of the e-mail be sure to include:
 - Your child's full name
 - Your child's date of birth
 - Any information you believe we should have in regard to the child's vulnerability (e.g. the child is ill, has special needs, is particularly vulnerable)
 - The name and location of the orphanage where your child is living
 - A point of contact for the orphanage (either in the United States or Haiti)

Please note that your child is likely to be scheduled as part of a larger group, so your response from us may refer to that group as well as to your child. Scheduling all eligible children from a given orphanage together is safer for the children, as they will be able to travel together to the embassy, and ultimately depart from Haiti as a group since all will be authorized and issued their documentation at the same time.

USCIS is actively reaching out to all Haitian orphanages that we are aware of in an effort to schedule appointments. If you know that USCIS is already working with your orphanage, it is not necessary for you to request an appointment, although you are free to do so.

We will make every effort to reply to your message promptly with instructions on when to go to the embassy. You are more likely to get into the embassy and processed quickly if you email us to make the appointment.

It is extremely important that you bring all available adoption documents, identity documents and current photos of your child.

If you cannot e-mail us in advance, you may proceed directly to the embassy with your child and identify yourself to the guards as an adoptive parent with an orphan child in need of orphan screening at the USCIS Field Office. Although the embassy guards have been instructed to bring all such cases immediately to the front of the line and admit them into the embassy, it may be very difficult for you to gain access, particularly if we are unaware that you are coming. You may also have to make several visits or wait for long periods of time, depending on the information we have available about your case.

Orphanage Directors or Other Individuals Caring for Orphan Children

The embassy is scheduling appointments in advance in an effort to pre-process groups of cases. This will allow all children who are eligible in a particular orphanage to be screened at the same time and will only require one trip to the embassy for physical identification. Do not try to enter the embassy without first arranging an appointment, as you may be turned away.

NOTE: We are aware that some orphanages are located a long way from the U.S. Embassy in Port au Prince. We are currently considering how we might make processing available in remote locations, and will provide further information on this at a later time.
