

EXPLANATORY STATEMENT SUBMITTED BY MR. OBEY,
CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS,
REGARDING THE AMENDMENT OF THE HOUSE OF REPRESENTATIVES TO
THE SENATE AMENDMENT TO H.R. 2638

Following is an explanation of the amendment of the House of Representatives to the amendment of the Senate to H.R. 2638, the Department of Homeland Security Appropriations Act, 2008, including disclosure of congressional earmarks and congressionally directed spending items as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate.

Section 4 of the House amendment specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this Continuing Appropriations Act as if it were a joint explanatory statement of a committee of conference.

The House amendment strikes the text of the Senate amendment and inserts language continuing appropriations for fiscal year 2009, making emergency supplemental appropriations for fiscal year 2008, and covering 3 regular fiscal year 2009 appropriations bills, each in a separate division, as follows:

- Division A—Continuing Appropriations Resolution, 2009;
- Division B—Disaster Relief and Recovery Supplemental Appropriations Act, 2008;
- Division C—Department of Defense Appropriations Act, 2009
- Division D—Department of Homeland Security Appropriations Act, 2009;
- Division E—Military Construction and Veterans Affairs Appropriations Act, 2009;

Section 1 of the bill provides that the bill as a whole may be referred to as the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. Section 3 states that, unless expressly provided otherwise, any reference to “this Act” or “this joint resolution” contained in any division of the bill shall be treated as referring only to the provisions of that division.

In the following explanations, the legislation resulting from the House amendment is generally referred to simply as the “bill”.

DIVISION A—CONTINUING APPROPRIATIONS RESOLUTION, 2009

Division A provides continuing appropriations for all agencies and activities that would be covered by the regular fiscal year 2009 appropriations bills, until enactment of the applicable regular appropriations bill or until March 6, 2009, whichever occurs first.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Neither the legislative text of division A nor the accompanying explanatory statement contains any congressional earmarks, congressionally directed spending items, limited tax benefits or limited tariff benefits (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively).

DIVISION B—DISASTER RELIEF AND RECOVERY SUPPLEMENTAL APPROPRIATIONS ACT, 2008

Division B makes emergency supplemental appropriations for relief and recovery from hurricanes, floods, and other disasters. The following table summarizes the appropriations made by this division:

DIVISION B - DISASTER RELIEF AND RECOVERY SUPPLEMENTAL
APPROPRIATIONS ACT, 2008
(Amounts in thousands)

Bi11

TITLE I

RELIEF AND RECOVERY FROM NATURAL DISASTERS

CHAPTER 1

DEPARTMENT OF AGRICULTURE

Office of the Inspector General

Salaries and expenses (emergency)..... 5,000

Agricultural Research Service

Buildings and facilities (emergency)..... 5,000

Animal and Plant Health Inspection Service

Salaries and expenses (emergency)..... 5,000

Natural Resources Conservation Service

Emergency watershed protection program (emergency).... 100,000

Farm Service Agency

Emergency conservation program (emergency)..... 115,000

Rural Development Programs

Rural development disaster assistance fund (emergency) 188,000

Total, Chapter 1..... 418,000

CHAPTER 2

DEPARTMENT OF COMMERCE

Economic Development Administration

Economic development assistance programs (emergency).. 400,000

National Oceanic and Atmospheric Administration

Operations, research and facilities (emergency)..... 86,000

Procurement, acquisition, and construction (emergency) 6,000

Total, National Oceanic and Atmospheric
Administration..... 92,000

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Exploration capabilities (emergency)..... 30,000

Total, Chapter 2..... 522,000

CHAPTER 3

DEPARTMENT OF DEFENSE - CIVIL

DEPARTMENT OF THE ARMY

Corps of Engineers - Civil

Construction (emergency)..... 1,538,800

Mississippi River and tributaries (emergency)..... 82,400

Operation and maintenance (emergency)..... 740,000

Flood control and coastal emergencies (emergency)..... 415,600

Total, Chapter 3..... 2,776,800

DIVISION C

DEPARTMENT OF DEFENSE

APPROPRIATIONS ACT

FISCAL YEAR 2009

~~JOINT EXPLANATORY STATEMENT~~

Following is an explanation of the effects of division C, which makes appropriations for the Department of Defense for fiscal year 2009. As provided in section 4 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this division as if it were a joint explanatory statement of a committee of conference.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2009, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by Congressional action. The following exception to the above definition shall apply: for the Military Personnel and the Operation and Maintenance accounts, for which

(1c)

(1c)

(1)

the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits his budget for fiscal year 2010, the Department of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2010.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on

the DD Form 1414 at the stated amount, as specifically addressed in these materials.

REPROGRAMMING GUIDANCE

The Department of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (H.Rept. 110-279). For operations and maintenance accounts, the Department of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008, which are also reiterated herein under title II. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense, Comptroller, is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III and IV of this Act. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research,

(House

uc

(H. Rept. 110-279)

uc

Act.

development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of operation and maintenance (O-1), a procurement (P-1) or research, development, test and evaluation (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in these materials.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

TITLE I - MILITARY PERSONNEL

For Military Personnel, funds are to be available for fiscal year 2009,

STOP LOSS

The Department of Defense continues to involuntarily extend the service commitments of active duty and selected reserve servicemembers. These extensions, known as stop loss, are used to retain servicemembers an average of six months beyond their initial end-of-term-of-service date. Although the Secretary of Defense has tried to minimize the use of this practice, the Army continues to use stop loss for its active and reserve components, arguing that it allows the Service to maintain unit integrity. However, the continued use of stop loss remains a concern as it may undermine the morale of the Nation's servicemembers and the voluntary nature of the Armed Forces.

Therefore, the Secretary of Defense and the Services are directed to provide stop loss data as part of the end-strength portion of the fiscal year 2010 military personnel budget justification material and a report to the congressional defense committees that examines the impact, if any, stop loss has had on recruiting and any correlations between extended deployments, often involving stop-lossed servicemembers, and domestic assaults, sexual assaults and alcohol offenses. This report shall be submitted no later than 180 days after enactment of this Act. Furthermore, the Secretary of Defense shall submit to the congressional defense committees a report containing the

results of a study evaluating the feasibility and costs of providing a special pay, in the manner authorized by section 8116, to all members of the Army, Navy, Air Force, and Marine Corps, including former and retired members, who at any time during the period beginning on October 1, 2001, and ending on September 30, 2008, served on active duty while the member's enlistment or period of obligated service was extended, or whose eligibility for retirement was suspended. This report shall be submitted no later than 60 days after enactment of this Act.

CASH INCENTIVES

The Department has initiated many programs that rely solely on cash incentives when enlisting new recruits and retaining current personnel. While these cash incentives have enhanced recruitment and retention efforts and helped the Services meet their end-strength goals, there is concern that the Services have increased both the size and scope of these cash incentives without performance metrics to determine whether these bonuses are cost effective and necessary in light of the other, improved personnel benefits now being provided. Accordingly, the Secretary of Defense is directed to provide a report to the congressional defense committees that describes these cash incentives, specifically to include: the number of cash incentives used

for recruitment and retention; the average amount provided for each military occupational specialty; the length of contract required for each type of enlistment and reenlistment bonus; and the performance metrics used to determine the effectiveness of, and requirement for, various levels of bonus compensation. This report shall be submitted not later than February 1, 2009.

REALIGNMENT OF FUNDS

Funds were realigned within the Military Personnel, Air Force, account to support Air Force efforts to halt its personnel drawdown. The Air Force had been on course to drawdown end strength from 329,563 to 316,600 in fiscal year 2009. However, they have recently changed course to support a manning level of 326,000 airmen and grow to 330,000 in fiscal year 2010. This newly planned personnel growth, along with readjusted cost calculations, has led to savings in officer voluntary separation pay and permanent change of station expenses and has created additional costs in enlisted personnel pay and allowances. The majority of these savings have been realigned to fund the enlisted personnel increase. The remainder of the savings was not realigned as the Air Force, which is already below its

planned end-strength, will likely not achieve its end-strength goal of 326,000.

DWELL TIME

The Army and Marine Corps active duty and reserve personnel have experienced reduced dwell time due to an accelerated deployment cycle. This reduction in dwell time has placed a significant strain on servicemembers, their families, and the employers of reservists. In addition, the frequent and extended deployments of National Guard and Reserve personnel have left our Nation more vulnerable during national emergencies, such as forest fires and hurricane disaster evacuation and response. Reduced dwell time has further contributed to reduced opportunities to train for the full spectrum of combat missions. Although the Services expect to return to more normal deployment lengths at the end of fiscal year 2008, the Secretary of Defense is directed to provide a report on the unit rotation cycle (i.e., the patch report) to the congressional defense committees within 30 days of the end of each quarter.

HEALTH PROFESSIONS SCHOLARSHIP PROGRAM

Personnel shortages in numerous medical specialties across the Services remain a concern. Recruiting and retaining these specialized personnel has proven to be challenging. The health professions scholarship program has been a successful tool in recruiting military medical personnel and, for this reason, it is disappointing that the Army and Air Force health professions scholarship programs are significantly underfunded in the budget request. To support continued efforts to recruit military medical personnel, an additional \$18,400,000 in Reserve Personnel, Army, and \$13,000,000 in Reserve Personnel, Air Force are included for the health professions scholarship program. This additional funding shall be used solely for this purpose. The Services are expected to fully fund this program in fiscal year 2010.

RESERVE COMPONENT PARTICIPATION RATE AND MOBILIZATION

ASSUMPTIONS

When constructing reserve personnel budgets, planners must project what percentage of reservists is likely to participate in annual training and weekend drills. Since operations began in Afghanistan and Iraq, participation levels have varied widely based on the number of mobilized reservists who are unavailable to drill and the number of reservists using

extra drill periods to perform pre-mobilization training. Some Services have incorporated these factors into their projections, while others have not. Currently, there is no Department-wide guidance on the assumptions and methodology that should be used when budgeting for future-year annual training and weekend drill participation rates. This lack of guidance has led to unjustified growth in the Pay Group A and B accounts for several reserve components. For fiscal year 2009, funding has again been shifted from these activities to other activities within the same account where shortfalls were identified.

The deployment of Active Guard and Reserve (AGR) personnel has also complicated the process of budgeting for full time personnel costs. Deployed AGRs from some reserve components are paid from reserve personnel accounts, while AGRs from other reserve components are paid from active duty accounts. It is not clear that these reserve components have accurately incorporated AGR deployment assumptions and the corresponding personnel savings into their AGR cost analysis.

The Secretary of Defense is directed to work with the Services to establish guidelines for what assumptions and methodology should be used when constructing future-year training participation rate and AGR cost projections. The Department is directed to provide a report to the

congressional defense committees that details the guidance issued to the Services. This report shall be submitted not later than February 15, 2009.

RESERVE COMPONENT BUDGET STRUCTURE

In fiscal year 2008, Congress extended testing of a consolidated budget structure for the reserve components' military personnel accounts. Since that time, the single budget activity format has provided additional spending flexibility to the reserve components. Therefore, the consolidated budget structure shall be made permanent with the understanding that the Department will submit quarterly reports to the congressional defense committees showing all transfers between activities and sub-activities of each reserve personnel appropriation. The reports shall provide separate explanations for all transfers that equal, exceed, or cumulate to \$2,000,000; and a beginning and ending total by line item. The report shall be due 30 days following the end of each quarter.

GOVERNMENT ACCOUNTABILITY OFFICE UNOBLIGATED BALANCE AND END-STRENGTH REPORTS

The Government Accountability Office is requested to continue its annual analysis of military personnel unobligated balances and end-strength

levels. These reports serve as an important resource for Congress' budgetary analysis. The reports should be submitted to the congressional defense committees not later than May 15th of each year.

BOOTS-ON-THE-GROUND AND COST OF WAR REPORTING

There remains a continuing need for accurate and timely information on actual/estimated costs and deployment numbers associated with Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF). Therefore, not later than the 10th day of each month following the enactment of this Act, the Secretary of Defense is directed to submit to the congressional defense committees:

- (1) a "Boots-on-the-Ground" report providing, for the most recent month for which data is available, the total number of troops deployed in support of OIF and OEF, further delineated by service and component (active, Reserve, or National Guard) and a monthly estimate for the three-month period following the date such report is submitted of the total number of troops expected to be deployed in support of OIF and OEF, further delineated by service and component (active, Reserve, or National Guard). This report may be submitted in classified form; and

(2) a monthly report of funds obligated in support of OIF and OEF covering the most recent period for which data are available, by month and fiscal year. This report shall be delineated and summarized by operation, by military service, by component (active, ~~Reserve~~, or National Guard), and by appropriations account.

(16)

MILITARY PERSONNEL, ARMY

For Military Personnel, Army, funds are to be available for fiscal year
2009, as follows:

(IN THOUSANDS OF DOLLARS)

| | BUDGET REQUEST | RECOMMENDED | CHANGE FROM REQUEST |

DIRECTED TRANSFER OF WORKING CAPITAL FUND CASH

Section 8119 reduces funding to the Operation and Maintenance accounts to reflect cash balance adjustments in the Defense Working Capital Funds. The Department is directed to transfer \$823,000,000 from Defense Working Capital Fund, Army, to Operation and Maintenance, Army, and transfer \$36,000,000 from the Defense Working Capital Fund Air Force, to Operation and Maintenance, Air Force.

“SOFT” POWER AND INTER-AGENCY BURDEN SHARING

The current inter-agency allocation of resources and responsibilities does not support an appropriate balance of the civilian and military instruments of national security. The Department of Defense has learned in recent years that successful security and stability operations require not only military action, but also sustained application of the diplomatic, development and economic tools that are the traditional responsibilities of the Department of State and the U.S. Agency for International Development (USAID). Reflecting the importance of these non-military national security assets, the Secretary of Defense has repeatedly called for a dramatic increase in U.S. spending on diplomacy, foreign assistance, civic action, and economic development and reconstruction.

The Department has often assumed responsibility for development and reconstruction activities reluctantly and because the civilian agencies are either unable or unwilling to carry them out. However, significant increases were requested for several programs that duplicate efforts traditionally carried out by the Department of State and USAID, notably, the global train and equip and global security and stability programs; the new humanitarian relief aspect of the Combatant Commander's Initiative Fund; and a thirty-percent increase in the funds requested for the Commander's Emergency Response Program (CERP).

This apparent consolidation of U.S. security assistance, foreign aid, and humanitarian assistance and development programs within the Department of Defense is concerning. Neither the Nation's nor the Department's interests are well served by this institutional shift of responsibility for traditional elements of "soft power" from U.S. civilian agencies to the military. Given the tremendous strains the services face in the current operational environment, the Department should refrain from assuming additional soft power roles and work with Congress and the next Administration toward a more rational balance of inter-agency burden sharing and resource allocation.

FAMILY ADVOCACY PROGRAM

The bill provides a total of \$410,000,000 for family advocacy programs in fiscal year 2009. The additional funding provided herein will enhance the activities of the Family Advocacy Program (FAP) and provide for children and families managing the difficult challenges of military service. The concern about the growing need for family members to have access to professional counseling to help alleviate the mental stresses associated with deployments continues as stress on families reaches unprecedented levels. Current challenges facing today's military families include multiple and lengthy deployments, frequent moves, a shortage of child care nationwide, a wide range of financial complexities, the need for a two-income family and family reintegration. The loss of the daily presence of a parent—or parents—in the home and the worry about the safety of a deployed parent is a difficult burden for children. The activities provided by FAP products and services help mitigate the disruption and stress in the military family when facing a variety of stressors, such as relocation, deployment, shifts in family responsibility, and the loss or injury of loved ones.

The Department is taking action to create a Military OneSource Center to develop cutting-edge quality of life support for the military's

emerging needs including deployment, mobilization, and reintegration. The Center will promote the readiness of military families throughout the military life cycle, from recruitment, relocation, deployment and mobilization, to retirement.

Therefore, a family advocacy program line has been created within the Operation and Maintenance, Defense-Wide account to enable better execution of the funding provided and to enable the Military OneSource Center to conduct appropriate evaluation and development of cost-effective quality of life resources that can be made available to all servicemembers and their families. The Family Advocacy Program should continue umbrella programs to include Military OneSource call center, counseling (financial and family), and other outreach programs that are most efficiently resourced at the Department level and any other missions deemed necessary that demonstrate a benefit to the servicemembers and their families. The Center will institutionalize the support that has been provided to servicemembers and their families since the beginning of the Global War on Terror.

JOINT TASK FORCE GUANTANAMO/DETAINEE OPERATIONS

The Secretary of Defense has indicated that he favors closing the detention facilities at Guantanamo Bay, Cuba. The June 12, 2008 decision

by the United States Supreme Court that detainees at Guantanamo are entitled to the procedural protection of habeas corpus undermines the rationale to continue holding detainees offshore. Therefore, the Secretary is directed to develop options for the disposition of the Guantanamo Bay detention facility (to include potential closure), and the relocation of its population to alternative detention facilities; and to provide a report on such options, including the potential cost, schedule and disposition of detainees to the congressional defense committees within 180 days of enactment of this Act.

FACILITIES SUSTAINMENT, RESTORATION AND MODERNIZATION

The Department of Defense has not directed sufficient management attention to maintaining and repairing facilities and the Department is deferring maintenance on barracks and other facilities affecting the quality of life of Service personnel. Early this year, the deplorable living conditions that servicemembers had to endure upon returning from deployment came to light. Billions of dollars have been provided over the years for facilities repair; however, these funds are often used as funding sources for other operation and maintenance year-of-execution funding requirements. The bill provides an additional \$493,500,000 for sustainment, restoration and

modernization of barracks. In order to ensure that these funds are obligated and expended for sustainment, restoration and modernization of barracks, these funds shall be treated as a congressional interest item and should be so designated on the DD Form 1414.

Further, to focus management attention on the condition of barracks, the Department is directed to survey barracks at all Defense installations and document the extent to which barracks meet the established Department standards; reasons why such facilities fail to meet such standards; and estimate the funding required by fiscal year for each Military Service to bring barracks into compliance with the Department's standards. The Secretary of Defense is to provide the results of this survey to the congressional defense committees not later than February 27, 2009.

De

OPERATION AND MAINTENANCE REPROGRAMMINGS

The bill includes a provision identical to the provision enacted in fiscal year 2008 that requires the Department to submit the DD Form 1414, Base for Reprogramming Actions, for each of the fiscal year 2009

5) appropriations account within 60 days after the enactment of this Act. This provision prohibits the Department from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the

aforementioned report is submitted to the House and the Senate Committees on Appropriations.

With respect to the Service's operation and maintenance accounts, the Department shall submit prior approval reprogramming requests to the congressional defense committees for proposed transfers of funds in excess of \$15,000,000 to or from the levels specified for budget activities. In addition, the Department should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget subactivities:

Operation and Maintenance, Army:

Land Forces Depot Maintenance

Operation and Maintenance, Navy:

Aircraft Depot Maintenance

Ship Depot Maintenance

Operation and Maintenance, Marine Corps:

Depot Maintenance

Operation and Maintenance, Air Force:

Air Operations Depot Maintenance

Mobility Operations Depot Maintenance

Basic Skills/Training Depot Maintenance

Logistics Operations Depot Maintenance

Further, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 from the following budget subactivities:

Operation and Maintenance, Army:

- Maneuver Units
- Modular Support Brigades
- Land Forces Operations Support
- Force Readiness Operations Support
- Base Operations Support
- Facilities, Sustainment, Restoration and Modernization

Operation and Maintenance, Navy:

- Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Marine Corps:

- Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Air Force:

- Primary Combat Forces
- Combat Enhancement Forces
- Combat Communications
- Facilities Sustainment, Restoration and Modernization

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures. In addition, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 or 20 percent, whichever is less, from the following line items identified in the Operation and Maintenance, Defense-Wide project level table contained in this Act:

Defense Legal Service Agency

Office of the Secretary of Defense

- Acquisition, Technology, and Logistics Programs
- Personnel and Readiness
- Comptroller and Chief Financial Officer
- Under Secretary of Defense (Intelligence)
- Under Secretary of Defense (Policy)

Director, Program Analysis and Evaluation
Assistant Secretary for Defense (Networks and Information
Integration)

A congressional interest item contained in Operation and Maintenance, Defense-Wide is defined only as a specified increase provided in this Act.

OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Department of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than forty-five days past the close of each quarter for the fiscal year, and shall be provided for each O-1 budget activity, activity group, and subactivity group for each of the active, defense-wide, reserve and National Guard components. For each O-1 budget activity, activity group, and subactivity group, these reports shall include: the budget request and actual obligations; the Department of Defense distribution of unallocated congressional adjustments to the budget request; all adjustments made in establishing the Base for Reprogramming (DD Form 1414) report; all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

ELECTRICAL FIRES AT MILITARY BASES IN IRAQ

There is concern with the number and severity of electrical fires at military bases in Iraq. In a single six month period, 283 fires destroyed or damaged military facilities in Iraq. More than a dozen servicemembers have been electrocuted in Iraq since the beginning of the war, with many more injured, some seriously. This is unacceptable. The Secretary is directed, within 60 days of enactment of this Act, to provide a report to the congressional defense committees that details the extent and causes of the problem, and what mitigating and corrective actions the Department plans.

GROUND COMBAT HELMET PADS

The frequency of traumatic brain injury among ground combat forces due to accidents and combat operations, including attacks by improvised explosive devices and explosively formed penetrators, is a matter of great concern. The Army and Marine Corps should leverage all available technology to provide combat helmets that offer the best possible protection against traumatic brain injury. Reportedly, the Army may be exploring the possibilities of adapting certain aspects of padding used in protective helmets worn in professional sports to better protect soldiers against concussions, and the Army and the Marine Corps may accept helmet padding that meets minimum standards when better performing padding may

be available, albeit at a greater cost. The Army and Marine Corps are encouraged to aggressively pursue all available advances in protection against head injuries among ground combat soldiers.

The Government Accountability Office is directed to provide a report and recommendations to the congressional defense committees within 120 days of enactment of this Act on the padding used in ground combat helmets by the Army and Marine Corps. The report shall address the materials in use and improved products that may be available for use for shock absorption, all weather performance, maintainability and overall best value attributes.

ALASKAN COMMAND DEPLOYMENT SUPPORT

In light of the recent and projected deployment of military forces from Alaska in support of the Global War on Terror, the significant hardships encountered by many families and spouses during these lengthy deployments are recognized. Considering that two Army brigades and an Air Expeditionary Force will be deployed at the same time in 2009, the stress of these deployments on families will be significant. During a servicemembers' absence, military spouses are solely responsible for caring for children, maintaining employment, and managing household finances.

Accordingly, \$6,000,000 is provided to support the needs of these families, of which \$2,000,000 is specifically intended for child care support services.

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

The Secretary of Defense notified the House and the Senate Committees on Appropriations of a number of urgent Intelligence, Surveillance and Reconnaissance needs for fiscal year 2009 that were not contained in the President's budget request. In order to respond to these emerging requirements, an increase of \$750,000,000 is provided in operation and maintenance, procurement, and research, development, test and evaluation accounts. The following table includes operation and maintenance funds provided in support of this initiative.

(In thousands of dollars)

| Line | Account | Item | |
|-------|---------|--|--------|
| 140 | OM,A | O&M for 8 MARSS multi-INT Aircraft..... | 65,600 |

ARMY CONTINUING EDUCATION SYSTEM

It is important to provide returning soldiers and wounded warriors with opportunities to engage in retraining and vocational education programs. Community college systems throughout the Nation can readily provide these opportunities without duplicating the military's efforts. Therefore, \$19,000,000 is provided for the Army's off-duty and voluntary education retraining programs under the Army Continuing Education System to provide increased opportunity for soldiers and wounded warriors to acquire technical, vocational or advanced training and re-training. The Army is directed to work with accredited community colleges to build upon existing programs and develop new pilot re-training programs in high demand career occupations, including rehabilitation, nursing, medical technology and other health care occupations.

SMART CONTRACTING

For the past several years, significant attention and resources have been focused on the Department's acquisition process and its workforce. There is commitment to providing the tools and resources to facilitate smarter contracting processes. The Secretary of the Army is directed to submit a report to the congressional defense committees no later than 60

days after enactment of this Act, detailing the Army's progress in implementing the key recommendations of the Gansler Commission.

OPERATION AND MAINTENANCE, NAVY

For Operation and Maintenance, Navy, funds are to be available for
fiscal year 2009, as follows:

COMBATANT COMMANDER RESIDUAL FUNDING

In the fiscal year 2009 budget request, each Service created two new budget line items to track combatant commander (COCOM) resources. According to the fiscal year 2008 budget, COCOM funding for the Navy to support Joint Forces Command and Pacific Command was budgeted in line 1C6C Combat Support Forces in the amount of \$398,000,000 for fiscal year 2009. However, the fiscal year 2009 budget only transferred \$378,000,000 to the new budget lines. Therefore, line 1C6C Combat Support Forces is overstated and is reduced by \$20,000,000. The reduction shall not be applied to COCOM resources.

NAVAL SHIPYARD WORKFORCE DEVELOPMENT PROGRAMS

There is concern about the challenges to recruit and retain qualified personnel at the Navy shipyards. It is becoming increasingly difficult to attract and retain engineers into the public sector primarily because of the benefits offered to engineers in the private sector and because the shipyards do not have the necessary programs and incentives to groom executive management and leadership skills to further workforce development. There is strong support for the Naval Apprenticeship Program, which has the potential to contribute to the workforce in other positions if provided

opportunities and incentives. Therefore, the Navy is directed to establish programs to provide opportunities and financial incentives for top performers to receive ~~4~~^{e/four}-year engineering degrees, executive management training certificates, and business school degrees. Programs similar to the apprenticeship program can help stave off the impending steep decline in personnel at the shipyards and ensure a more stable workforce. The Navy is directed to work with each shipyard and the respective local educational institutions to craft these programs and report to the House and the Senate Committees on Appropriations by April 30, 2009, on a plan for implementation.

NAVAL SHIPYARD APPRENTICE PROGRAM

During fiscal year 2009, the Navy shall induct classes of no fewer than 100 apprentices, respectively, at each of the naval shipyards. The Navy is directed to include the costs of the fiscal year 2010 class of apprentices in its budget request.

U.S. COAST GUARD

Department of Defense regulations currently restrict mission appropriated activities from offering reimbursable rates to non-Department

of Defense agencies. This restriction forces the Navy to charge the U.S. Coast Guard fully-burdened rates for drydocking services at Navy shipyards rather than reimbursable rates. Therefore, the Navy may use funds appropriated under ~~O~~peration and ~~M~~aintenance to pay the cost to dry dock U.S. Coast Guard ships at Naval shipyards.

GRAND FORKS AIR FORCE BASE, NORTH DAKOTA, INFRASTRUCTURE

The January 2008 United States Air Force Weapons Systems

Roadmap anticipates a future KC-X tanker mission at Grand Forks Air Force Base after the departure of the base's current fleet of KC-135R tankers. Thus, the Air Force is directed to prepare a report which recommends the best way to keep the base and its associated infrastructure viable until the potential arrival of KC-X tanker aircraft so it does not have to rebuild or recreate facilities and capabilities that now exist. This report shall be provided to the House and the Senate Committees on Appropriations within 90 days of enactment of this Act.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For Operation and Maintenance, Defense-Wide, funds are to be available for fiscal year 2009, as follows:

U.S. AFRICA COMMAND

A stable, secure Africa is strategically important to the United States and our allies. The creation of U.S. Africa Command (AFRICOM) is a first-step in developing a persistent, cohesive U.S. policy toward that continent. However, AFRICOM's current funding, staffing and organizational configuration place a disproportionate burden of U.S. policy in Africa on the Department of Defense (DoD).

While armed conflict, terrorism, piracy and trafficking pose real security threats to African stability that can be mitigated by closer military ties between the U.S. and our African partners, many of the challenges facing Africa today require diplomatic, economic, humanitarian and development tools of other, non-DoD U.S. agencies. Calming political unrest, building civil society, consolidating democratic achievements, expanding economic growth, addressing humanitarian crises, preventing the spread of HIV/AIDS and caring for its victims require a robust inter-agency and international approach.

Some of the U.S. partners in Africa have also signaled their discomfort with the military-first approach embodied by AFRICOM. Of the dozen nations asked to host AFRICOM's headquarters or one of the five planned Regional Integration Team (RIT) offices, few have expressed public

interest. Despite repeated assurances from the Secretary of Defense, the people and governments of friendly African nations believe that AFRICOM potentially represents a permanent U.S. military presence on the continent.

While the creation of AFRICOM is a crucial first-step in establishing a strategic U.S. policy toward Africa, the current inter-agency division of labor is not optimal for meeting U.S. long term goals. The Department of Defense should work within the inter-agency process to correct the alignment of U.S. human and financial resources to more effectively support the emergence of a stable, secure, successful and democratic Africa. The Department of State and the U.S. Agency for International Development should also play a more significant role in this new organization supported with the appropriate funding and manpower required.

In the mean time, the Secretary of Defense, in coordination with the Secretary of State and the Administrator of the U.S. Agency for International Development, is directed to provide a report, no later than April 1, 2009, to the congressional defense committees, on how AFRICOM's mission, staffing, and inter-agency composition can be optimized to create an organization better equipped to meet these policy objectives. The report should also include current thinking on AFRICOM's presence in Africa and

any plans related to the permanent location of AFRICOM assets or personnel on the continent.

MILITARY TIRES

The Department of Defense Appropriations Act, 2008 (Public Law 110–116) directed the Defense Logistics Agency (DLA) to ensure that the military tire market remains a fair and competitive marketplace as DLA implements the tire privatization initiative required by the 2005 Base Realignment and Closure Act. Specifically, the conferees directed DLA to “ensure that all tire manufacturers are on an equal footing in the competitive market with respect to information on tire demand and that, to the extent practicable under the existing contracts, new tire types are subject to fair and equal competition among qualified manufacturers.” There is concern that the DLA has not sufficiently complied with these requirements and the need to ensure that all tire manufacturers are provided access to the Government’s forecasts for future tire needs. Therefore, the Secretary of Defense is directed to report to the congressional defense committees by April 15, 2009, on what steps are being taken to maintain a fair and competitive marketplace for military tires.

DEFENSE CONTRACT MANAGEMENT AGENCY

In fiscal year 2008, Congress provided an additional \$14,000,000 to the Defense Contract Management Agency (DCMA) to eliminate planned reductions in full-time staff. This additional funding, which was designated a “congressional item of interest,” was nevertheless inappropriately subjected to an across-the-board funding reduction imposed by the Under Secretary of Defense, Comptroller. The Secretary of Defense is directed to provide a report to the congressional defense committees within 60 days of enactment of this Act addressing the following: the justification (if any) for this reduction; the impact of this reduction on the number of full-time DCMA staff; and the Department’s plan for restoring any full-time staff that may have been lost as a result of the Department’s failure to carry out the directive.

An additional \$52,000,000 was also provided to DCMA in the Fiscal Year 2008 Emergency Supplemental Appropriations Act for the purpose of hiring 250 full-time contract-management personnel. The Secretary is directed to include in the aforementioned report a spend plan for this additional funding, an assessment of future additional staffing requirements DCMA will have in order to ensure proper oversight and management of

anticipated contracting work load, and a workforce plan for achieving the necessary staffing levels.

GLOBAL TRAIN AND EQUIP PROGRAM

For the Global Train and Equip Program, \$350,000,000 is provided under the Defense Security Cooperation Agency. This limited authority was designed as a pilot project to enhance our ongoing programs to train and equip allied nations' counterterrorism efforts. Normally, the Department of State is tasked to perform this critical function, but the Department of Defense requested the ability to augment these efforts due to the Global War on Terror. Increasing the Nation's counterterrorism efforts around the globe is strongly supported but the responsibility to train and equip foreign military forces should rest with the Department of State. The Administration should request funds for this purpose in the Department of State's budget when this authority expires.

FEDERAL PRISON INDUSTRIES

The Bureau of Prisons considers Federal Prison Industries (FPI) an important correctional tool that plays a critical role in reducing inmate recidivism and idleness. To ensure the success of the FPI program, United

States Code (USC) Title 18, Chapter 307 requires Federal departments and agencies to purchase products from FPI “as meet their requirements and may be available”. However, Congress has expressed concern that this provision of law could impose on the Department of Defense a requirement to procure products that do not meet the needs of the Department in terms of price, quality and timeliness of delivery. To meet this concern, section 827 of the National Defense Authorization Act of Fiscal Year 2008 (Public Law 110–181) requires the Secretary to use competitive procedures for the procurement of certain products offered for sale by the FPI. The Secretary is directed to report to the congressional defense committees no later than 45 days after the enactment of this Act on a plan to implement this new requirement, consistent with the requirements of USC Title 18, Chapter 307, Section 4124(d).

OIL REFINERIES

When making public contract announcements regarding the refining of fuel by U.S. companies, the U.S. Department of Defense should not provide the name of the country for which the fuel is being refined or the location of the facility that will refine the fuel.

TROOPS TO PILOTS DEMONSTRATION PROGRAM

In 2007, Congress directed the Federal Aviation Administration to increase the mandatory retirement age for commercial airline pilots from age 60 to 65, temporarily alleviating the onset of a national pilot shortage.

Although this action improved and maintained a legitimate working number of pilots in the civil industry, there remains a growing shortage of new pilots to take over for those who look to retire over the next decade. A potential option for replenishing the dwindling number of experienced aviators in the country would be to utilize retiring or discharged military aviators from military service to civil pilots. The Department of Defense has similar programs designed to ease service members' transition to civilian life, such as Troops to Teachers, Troops to Nurses, and Helmets to Hardhats.

Accordingly, \$2,500,000 is included for a demonstration program that will train and recruit retiring or discharged military aviators who wish to pursue a career in civilian aviation. This program should be conducted in a state that has a high per capita number of pilots as well as a sizeable military aviation presence. The program should also take into account heavy geographic reliance on aviation along with a robust aviation infrastructure, including academic institutions with expertise in piloting and aviation technology.

OPERATION AND MAINTENANCE, ARMY RESERVE

For Operation and Maintenance, Army Reserve, funds are to be available for fiscal year 2009, as follows:

(IN THOUSANDS OF DOLLARS)

 AIR FORCE
 POLICY UNIT

OVERSEAS CONTINGENCY OPERATIONS TRANSFER ACCOUNT

For the Overseas Contingency Operations Transfer Account, no funds are provided for fiscal year 2009.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

For the United States Court of Appeals for the Armed Forces, \$13,254,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, ARMY

For Environmental Restoration, Army, \$457,776,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, NAVY

For Environmental Restoration, Navy, \$290,819,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, AIR FORCE

For Environmental Restoration, Air Force, \$496,277,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

For Environmental Restoration, Defense-Wide, \$13,175,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

UC

For Environmental Restoration, Formerly Used Defense Sites, \$291,296,000 is provided for fiscal year 2009. The Department is urged to support on-going unexploded ordnance remediation programs in Vietnam. The adjustment to the budget for Environmental Restoration, Formerly Used Defense Sites is shown below:

| | |
|--------------------------------------|-------------|
| Unexploded Ordnance Remediation..... | \$8,500,000 |
| Other Unfunded Requirements..... | 25,000,000 |

OVERSEAS HUMANITARIAN, DISASTER AND CIVIC AID

For Overseas, Humanitarian, Disaster, and Civic Aid, \$83,273,000 is provided for fiscal year 2009.

COOPERATIVE THREAT REDUCTION ACCOUNT

For the Cooperation Threat Reduction Account, \$434,135,000 is provided for fiscal year 2009. This appropriation is provided for the same

purposes as prior year appropriations for the "Former Soviet Union Threat Reduction" account. The name change is being made to reflect the new, broader focus of the program.

TITLE III – PROCUREMENT

For Procurement, funds are to be available for fiscal year 2009, as follows:

PORTAL

CONGRESSIONAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

ACQUISITION COST

The Department of Defense has exhibited an alarming trend in funding acquisition programs below full cost. In recent years, the Littoral Combat Ship, the Future Combat Systems, the Armed Reconnaissance Helicopter, and the Electromagnetic Aircraft Launching System have all required funds to be reprogrammed in an execution year to correct shortfalls. Additionally, the Joint Strike Fighter, the Future Combat Systems, the Expeditionary Fighting Vehicle, the Global Hawk Unmanned Aerial Vehicle, and the Space Based Infrared Satellite System have all required restructuring by the Department during the budget formulation period. Funds used to correct these shortfalls typically are taken from other

acquisition programs. This trend is disturbing and ultimately reduces overall stability in the Department's acquisition programs.

The causes for this practice are varied and many. In some cases, the Department violates its own policy by not funding programs to the estimate provided by the Department's Cost Analysis Improvement Group (CAIG), which is required by statute to conduct an independent cost estimate on major acquisition programs. In other cases, the cost estimates are flawed, missing key elements of cost. Cost growth or technical challenges are frequently cited as a reason for funding shortfalls, although the fundamental causes can usually be traced back to not funding to the proper estimate from program inception. A major contributor to this problem is that lower than reasonable proposals for programs from contractors are oftentimes accepted by the Department as an opportunity to get major programs started because, once started, history has proven that major programs are rarely terminated.

By underfunding programs, the Department lengthens development schedules, costs the taxpayers additional dollars, and delays fielding critical capabilities to our Nation's Armed Forces. The Department must be more accountable and fiscally responsible. Since the Department takes the time and expends the resources to conduct independent cost estimates, it should use that information in formulating budgets for the programs. The

Department is directed to provide a report to the congressional defense committees that shows which Acquisition Category I (ACAT I) programs did not use the CAIG estimate as the official program estimate at a milestone decision and an explanation as to why the CAIG estimate was not used. The report should encompass the period from fiscal year 2004 through fiscal year 2008 and be submitted prior to March 1, 2009.

FUTURE COMBAT SYSTEMS (FCS) RESTRUCTURE

The Future Combat Systems (FCS) remains the Army's top priority modernization program, designed to provide rapidly deployable, highly survivable and lethal forces. While the program has struggled with changing requirements and cost growth in recent years and undergone multiple restructures, support remains strong for the Army's goal to create a more capable and modern force. Most recently, the Army informed Congress of its intent to change the near-term focus of FCS by fielding available capabilities to Infantry Brigade Combat Teams, which are in high demand in the Global War on Terror, and deferring the fielding of these technologies to Heavy Brigade Combat Teams, which were originally slated to first receive the initial FCS spin outs. In support of this program shift, the Army has requested an adjustment to its fiscal year 2009 budget request for FCS from

within program funds. Funding in the bill supports the Army's plan to field proven technologies that provide immediate enhanced capabilities to the warfighter and fully supports the Army's requested program adjustments, as detailed below.

ACQUISITION WORKFORCE DEVELOPMENT FUND

Section 852 of the National Defense Authorization Act for Fiscal Year 2008 established the Department of Defense Acquisition Workforce Development Fund (AWDF) to finance recruiting, training, and retention of acquisition personnel. Funding for the AWDF is generated by taking funds appropriated for other programs. In fiscal year 2008, the planned funding level is approximately \$258,000,000 and it will grow to \$600,000,000 in fiscal year 2011 and thereafter.

There is concern about sustaining a trained, capable and adequately manned acquisition workforce, particularly as the Department faces a wave of retirements over the coming years that may leave the workforce without the most experienced members. However, there are problems with the way the AWDF is currently constituted. These concerns include:

- AWDF funding is not based on an estimate of the program's requirements;
- Projected use of the funding is not provided in advance to Congress;
- The accounting process skews the obligation and expenditure data on appropriations used to finance the AWDF;
- Expiring funds may be used to finance the AWDF thereby extending, or effectively re-appropriating without congressional approval, those funds for up to two years beyond the original life of the appropriation.

The simple and straightforward solution to these problems is to bring the AWDF into the regular appropriations process. The Department is directed to include the funding required for the Acquisition Workforce Development Fund in its fiscal year 2010 budget request.

For each of the past six years, the Government Accountability Office has provided an assessment on a broad range of weapon systems that consists of (1) a macro analysis of how well acquisition programs are performing and reasons for that performance, and (2) specific analyses of individual weapon system programs. The report that results from this annual assessment has proven invaluable as an independent look at cross-cutting acquisition issues and in evaluating the status of individual weapon systems. This work has thus far been conducted under the Comptroller General's own authority. The Comptroller General is directed to perform the annual assessment of selected weapon system programs and to report the results of the assessment to the congressional defense committees by March 30th of each year.

JOINT STRIKE FIGHTER F-136 ENGINE DEVELOPMENT

The fiscal year 2009 budget request included no funding for the continued development of the F-136 engine as an alternate engine within the Joint Strike Fighter program. The bill includes \$430,000,000 for the continued development of this engine within the Navy and Air Force's Joint Strike Fighter development programs and \$35,000,000 for advance procurement items within the Aircraft Procurement, Air Force appropriation.

The Secretary of Defense is once again directed to fully fund the F-136 engine development and procurement efforts in the fiscal year 2010 budget submission.

AIR FORCE ACQUISITION

The Air Force continues to experience significant difficulties in acquiring major acquisition systems in a timely and cost effective manner. From protests upheld by the Government Accountability Office (GAO) to numerous Nunn-McCurdy breaches, it is apparent that the acquisition process is seriously flawed and change is needed. As a starting point, the Air Force needs to ensure that its programs have well-understood requirements, manageable development cycles, realistic cost estimates, and adequate program funding for the entire development cycle. There are a number of remedies that would improve the Air Force's prospects in its acquisitions. Some examples are:

- Disciplined use of tried and true systems engineering practices to ensure that a proposed system's performance requirements are achievable with available resources before beginning an acquisition program;

- Establishing a clear business case for each program that is agreed upon by the warfighter, the comptroller, and the acquisition community;
- Maturing technologies until they are ready for an acquisition program (separating technology development from acquisition programs);
- Continuing to develop a skilled workforce capable of managing requirements trades, source selection, and knowledge-based acquisition strategies;
- Basing programmatic decisions on demonstrated knowledge; and
- Matching program manager tenure with the duration of the system design and demonstration phase of a program, and tailoring career paths and performance management systems to incentivize longer tenures.

The Secretary of Defense is directed to provide a report no later than March 31, 2009, to the congressional defense committees on the Department's plans to reform Air Force acquisition to address the problems that have continued to plague the acquisition process.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the ^{House (H.Rept. 110-279)} report ^{u.c.} accompanying the ~~House~~ version of the ~~Fiscal~~ year 2008 Department of Defense Appropriations ~~bill~~ Act. ~~(H.Rept. 110-279)~~ Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement, and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional interest items are established elsewhere in these materials.

REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of the Department of Defense, Comptroller is directed to continue to provide the congressional defense committees

quarterly, spreadsheet-based DD1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

The Secretary of Defense notified the House and the Senate Committees on Appropriations of a number of urgent Intelligence, Surveillance and Reconnaissance (ISR) needs for fiscal year 2009 that were not contained in the budget request. In order to respond to these emerging requirements, an increase of \$750,000,000 is provided in operation and maintenance, procurement, and research, development, test and evaluation accounts. The following table includes procurement funds provided in support of this initiative.

[In thousands of dollars]

KIOWA WARRIOR

The bill provides an additional \$42,000,000 for safety, performance, and weight enhancements for the Kiowa Warrior. The Army is directed to use these funds on projects which provide the greatest benefit for sustaining the Kiowa Warrior until the Armed Reconnaissance Helicopter is fielded.

FORT KNOX GODMAN ARMY AIRFIELD

Congress provided \$3,200,000 for the Fort Knox Godman Army Airfield Area Surveillance Radar in the Department of Defense Appropriations Act, 2008 (Public Law 110-116). Due to the increasing cost of this initiative, the Army no longer intends to purchase the radar and now plans to purchase comparable air traffic control equipment with the funding. The Army is directed to use the funds for this alternative purpose at Fort Knox Godman Army Airfield.

MISSILE PROCUREMENT, ARMY

For Missile Procurement, Army, funds are to be available for fiscal
year 2009, as follows:

HIGH MOBILITY MULTI-PURPOSE WHEELED VEHICLES (HMMWV)

There is concern with the threat of Soldiers and Marines becoming trapped in overturned HMMWVs. The Army and Marine Corps are encouraged to outfit deployed HMMWVs with a means of rapid emergency egress in the event that the vehicle's doors are inoperable.

LIMITATION ON SINGLE CHANNEL GROUND AND AIRBORNE RADIO SYSTEM (SINGGARS) PROCUREMENT

The bill includes \$87,288,000 for the procurement of SINGGARS radios. However, concerns remain about the ability of the Army to adequately manage contracts to fulfill increased operational requirements for SINGGARS radios. In particular, recent acquisition decisions and justifications by the Department of the Army raise questions about its procurement strategies, especially as they relate to the Joint Tactical Radio System (JTRS). Therefore, none of the funds in this Act shall be used for procurement of SINGGARS radios until the Secretary of Defense certifies to the congressional defense committees that any such procurement of SINGGARS radios will utilize full and open competition that will provide

best value for Army radio requirements including consideration of multi-band, JTRS capable solutions.

SNIPER DEFEAT

There is concern over the Army's slowly evolving approach to providing materiel solutions to the field for Sniper Defeat. To date, the Army has not requested funds for Sniper Defeat in spite of the fact that this issue has been a major concern since the spring of 2006. In February 2007, the Vice Chief of Staff, Army directed that a soldier borne and vehicle/fixed site system be designated as programs of record. As of June 2008, the Army had neither designated a program of record for either the soldier or fixed site program nor had the Army programmed or budgeted any funds for either of these efforts. A notional program schedule for the soldier borne system revealed that initial procurement would not occur until the end of fiscal year 2010 at the earliest. This is an incorrect acquisition approach for what are essentially off the shelf, go to war systems. The Army is expected to budget sufficient funds to ensure all deploying units are equipped with both soldier borne as well as vehicle/fixed site capabilities during pre-deployment training as well as during their deployment.

AIRCRAFT PROCUREMENT, NAVY

For Aircraft Procurement, Navy, funds are to be available for fiscal
year 2009, as follows:

F/A-18 SUPER HORNET

Shortfalls exist in the Navy's strike-fighter inventory caused by the aging of older tactical aircraft and the fact that the F-35 Joint Strike Fighter program will not begin to deliver carrier aircraft in significant quantities for several years. In the most optimistic scenario, the shortfall is approximately 69 aircraft and it could be well above that level. To ensure that the Navy has sufficient aircraft for the fleet, the Navy is encouraged to budget for a third multi-year procurement of Super Hornet aircraft beginning in fiscal year 2010. In addition, cost reduction measures which will yield future savings for this program should be explored.

WEAPONS PROCUREMENT, NAVY

For Weapons Procurement, Navy, funds are to be available for fiscal year 2009, as follows:

MK-54 TORPEDO

The MK-54 Torpedo will combine features of several existing torpedo programs with updated processing and software to provide improved performance against modern day threats. Development and performance issues have significantly delayed the production of this weapon. The Navy has informed the House and the Senate Committees on Appropriations that the program has become backlogged to such a degree that \$23,000,000 of fiscal year 2008 funding will not be used for fiscal year 2008 torpedo production, but provided to another Navy priority. Increasing the lightweight torpedo inventory is the sixth highest unfunded priority of the Navy. Therefore, the Secretary of the Navy is directed to maintain this funding in the program and use it to finance lightweight torpedo requirements once the torpedo contractor demonstrates a proven production method for the MK-54 program.

MOBILE-USER OBJECTIVE SYSTEM (MUOS)

In late June 2008, Congress was informed that the Mobile-User Objective System (MUOS) program was encountering problems that would delay the program and the launch of the MUOS satellites. Due to this delay and the fact that the MUOS program's integration and test plan schedule is

based on an Air Force satellite program that is several years behind schedule, the recommendation reduces the request by \$163,500,000 for the launch vehicle for the second MUOS satellite. However, the Navy has informed the Congress that despite the current delays to the program, funding may still be required in fiscal year 2009 to purchase the launch vehicle for the second satellite. As such, a reprogramming will be entertained if the Department of Defense determines that, despite the current delays, funding is required to procure a launch vehicle in fiscal year 2009.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE

CORPS

For Procurement of Ammunition, Navy and Marine Corps, funds are to be available for fiscal year 2009, as follows:

LITTORAL COMBAT SHIP (LCS)

The bill includes \$1,020,000,000 for two LCS seaframes and a rescission of \$337,000,000 in fiscal year 2008 LCS funding. Additionally, funds and material from fiscal year 2006 can be used to supplement the fiscal year 2009 LCS program. Due to industrial base concerns, the Navy is directed to make contract awards for the two fiscal year 2009 LCS seaframes as soon as practicable.

LPD-17

The bill includes \$933,000,000 for the first year of split funding for the LPD-26. The Navy is directed to budget for the remaining funding requirement in fiscal year 2010.

SURFACE COMBATANT FUNDING

The bill includes \$1,507,603,000 for the first year of split funding for the DDG-1000 program. The Navy is directed to budget for the remaining funding requirement in fiscal year 2010 and to award a construction contract consistent with the ship's current acquisition schedule and the Joint Requirements Oversight Council (JROC) review described in the next section. The bill also includes \$200,000,000 in advance procurement

funding to preserve the option to restart the DDG-51 class destroyer program.

SURFACE COMBATANT REVIEW

The Navy's recent decision to truncate production of the DDG-1000 Zumwalt Class destroyers and restart production of the DDG-51 Arleigh Burke Class destroyers will require a program review by the Joint Requirements Oversight Council (JROC). Therefore, the Department is directed to complete a JROC program review, as expeditiously as possible, that examines the Navy's proposal and addresses the warfighting requirements implications of this decision and revalidates future surface combatant warfighting requirements prior to the obligation of any fiscal year 2009 procurement funds for either destroyer program.

SHIPBUILDING INDUSTRIAL BASE STUDY

The Department's Cost Analysis Improvement Group is conducting a study of the shipbuilding industrial base. The Secretary of Defense is directed to submit the results of that study to the congressional defense committees upon its conclusion.

OTHER PROCUREMENT, NAVY

For Other Procurement, Navy, funds are to be available for fiscal year 2009, as follows:

COMMON AVIATION COMMAND AND CONTROL SYSTEM (CAC2S)

CAC2S is intended to be a modernized, single command and control system designed to replace and consolidate legacy aviation command and air control systems. Since entering the System Design and Demonstration phase in 2002, the program has faced repeated technical hurdles and schedule delays. As a result, the Marine Corps in June altered its acquisition strategy, but did not provide detailed schedules and cost estimates in support of the new acquisition strategy to Congress. The bill provides \$10,000,000 for CAC2S in fiscal year 2009, a reduction of \$39,339,000, and directs that none of those funds may be obligated until 10 days after the Marine Corps provides updated program details to the congressional defense committees, to include cost estimates and program schedules. It is noted that in the interim, significant amounts of prior year funding remain available to continue the upgrade of legacy systems.

AIRCRAFT PROCUREMENT, AIR FORCE

For Aircraft Procurement, Air Force, funds are to be available for
fiscal year 2009, as follows:

MINUTEMAN III MOTOR LIFE EXTENSION PROGRAM

The House and the Senate Committees on Appropriations are awaiting an Air Force report requested in Senate Report 110–155 accompanying the Department of Defense Appropriations Act for Fiscal Year 2008, on the capability of the defense industrial base to maintain, modernize, and sustain the Minuteman III system until 2030, and on the industrial base’s capability to replace the Minuteman III with a follow-on land-based strategic deterrent system after 2030. In the interim, the Air Force is encouraged, at a minimum, to continue a warm line status for Minuteman III propulsion systems and to use funds provided for fiscal year 2009 to initiate a Minuteman III motor life extension program.

PROCUREMENT OF AMMUNITION, AIR FORCE

OTHER PROCUREMENT, AIR FORCE BUDGET JUSTIFICATION DOCUMENTS

During its budget review, the congressional defense committees rely on justification documents. It is critical that these budget justifications adhere to the guidelines set forth in Department of Defense Financial Management Regulations (FMR). The regulations clearly state that all exhibits must include production schedules and, when appropriate, both quantity and unit cost information. The Other Procurement, Air Force (OPAF) justification book for fiscal year 2009 includes few production schedules, and most P-5 forms omit quantity and unit cost information. In order to remedy these omissions, the Air Force is directed to take corrective actions to ensure its justification books fully comply with FMR regulations.

COMBAT MISSION REQUIREMENTS

The Special Operations Command is directed to submit quarterly reports to the congressional defense committees on the use of funds provided in this title for Special Operations Command combat mission requirements.

NATIONAL GUARD AND RESERVE EQUIPMENT

For National Guard and Reserve Equipment, funds are to be available for fiscal year 2009, as follows:

STATE
COMMISSION

NATIONAL GUARD AND RESERVE EQUIPMENT

The bill provides \$750,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$480,000,000 is for the Army National Guard; \$105,000,000 for the Air National Guard; \$52,500,000 for the U.S. Army Reserve; \$37,500,000 for the Navy Reserve; \$37,500,000 for the Marine Corps Reserve; and \$37,500,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year.

The funding provided in the National Guard and Reserve Equipment Account shall be executed by the heads of the Guard and Reserve components with priority consideration for miscellaneous equipment given to items listed in the "Essential 10 Equipment Requirements for National Guard" as identified by the Chief, National Guard Bureau, and as defined as the unfunded priority list for each Reserve component.

(lc)

(the

in

(lc)

This funding will allow the Guard and reserve components to procure high priority items such as: AB-FIST Gunnery Trainer Upgrades; Advanced Targeting Pod Spiral Upgrade Kits; AESA - Scanned Array Radar; AH-64 helicopter conversion from A model to D model; Advanced Mission Extender Device; ARC-220 radios for UH-60 Black Hawks; Ambulance Trucks; AN/AAQ-24 (LAIRCM) for C-17, C-130, and KC-135R; AN/AVS-6; Armored Security Vehicles; Bradley Operation Desert Storm

Situational Awareness (ODS SA) hardware kits; Combat Readiness Training Centers (CRTC); Combined Arms Virtual Trainers; Electronic Flight Information System upgrades and MPRS Modification Programs for KC-135R; EPLRS Microlite; Engine Kits to Modify the F 100-PW to the 220E configuration; Fuel Service tank trucks; Defense Advanced GPS Receivers; F-15 Advanced Radar Warning Receiver (RWR) Subset of Eagle Passive Active Warning Survivability System (EPAWSS); F-15 Embedded GPS/INS (EGI); F-15 Joint Helmet Mounted Cueing System (JHMCS); F-16 Block 42 Engine Upgrades; F-16 Full Combat Mission Trainer (FCMT); Fuel Catalyst Vehicle Retrofit; HC-130 AN/ARS-6v12 Recovery Systems; HC-130 Multi Function Color Display; Heavy Expanded Mobility Truck Wreckers with winch; Infrared Aircraft Deicing systems; HH-60 Blackhawk medical evacuation helicopters; Integrated Mechanical Diagnostic-Health and Usage Monitoring system; Integrated Terrestrial and Satellite Emergency Communications Capability (ITSECC); Joint Threat Emitter (JTE) Production Acceleration; Large Aircraft Infrared Counter-Measures; M1151 Up-Armored HMMHV; M249 Machine Gun; M2.50 Caliber Machine Gun; M777A2 Lightweight 155MM Howitzer; Mine Resistant Ambush Protected Vehicle Virtual Trainers; Minuteman Digitization Demonstration; Panoramic Night Vision for HH-60s; Reset additional

Bradley Fighting Vehicle System (BFVS) M2/3 ODS vehicles to the BFVS M2/3 ODS SA configuration; Rover III Receiver; Small Scale Joint Service Transportable Decontamination System; T56 engine mod kits; Tactical Cargo Trucks; Tandem Tether Parachutes; Tank Gunnery Trainer, Tank Maneuver Trainer and Tabletop Full-fidelity Trainer (TGT, TMT, and TFT) Tabletop Trainers; Technisonic TDFM-6148; UH-60 A to L conversions; Telepresent Rapid Aiming Platform (TRAP); UHF/VHF radios; Upgrade of Eagle Vision VI; VCC+ (Very High Speed Integrated Circuitry Central Computer (VHSICC) Plus); Virtual Convoy Operations Trainers; and Virtual Door Gunner Trainers.

MODERNIZATION PRIORITIES

Each National Guard and reserve component commander shall submit to the congressional defense committees a detailed assessment of that component's modernization priorities, not later than 30 days after enactment of this Act. The National Guard and reserve component commanders should exercise control of the funds provided in this account, to better ensure that the most urgent National Guard and reserve equipment modernization priorities are addressed with the funding provided in this appropriation.

DEFENSE PRODUCTION ACT PURCHASES

For Defense Production Act Purchases, funds are to be available for

CONGRESSIONAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

TECHNOLOGY AND INDUSTRIAL BASE CONSIDERATIONS

Section 2440 of Title 10 of the United States Code specifically addresses the need for consideration of industrial base when developing and implementing acquisition programs. The Secretary of Defense is directed to comply with 10 U.S.C. 2440 as it applies to the consideration of national technology and industrial base in the development and implementation of acquisition plans for each major defense acquisition program. Additionally, the Secretary of Defense is directed to provide a report to the congressional defense committees within 30 days of enactment of this Act on how the Department implements Section 2440 in the major defense acquisition programs.

KC-135 TANKER REPLACEMENT PROGRAM

On September 10, 2008, the Secretary of Defense informed the Congress that he was terminating the solicitation for the KC-135 tanker replacement program. After seven years of deliberation, the Department of Defense is no closer to providing the warfighter with a replacement for the aged KC-135s. The Department's latest decision could delay replacing the tankers for several more years. The timing of the Secretary's notification made it too late for the Congress to undertake a comprehensive review of alternatives and mandate a way forward that would be fair to all parties involved. The Department of Defense needs to address this serious problem as quickly as possible. The Department of Defense should consider any practical option that would enable the replacement of the KC-135s expeditiously to include the possibility of awarding competitive contracts to more than one offeror.

In light of the termination, the bill provides \$62,500,000 in Operation and Maintenance, Air Force for modest upgrades to the KC-135s to ensure continued reliability of the fleet. In addition, funding is provided for program office operations, termination costs, and anticipated claims from the offerors.

RESEARCH, DEVELOPMENT TEST AND EVALUATION (RDT&E) PROGRAM

ELEMENT CODES AND BUDGET JUSTIFICATION DOCUMENTS

Senate Report 110–155, accompanying the Fiscal Year 2008

Department of Defense Appropriations Act, recommended several improvements to enhance the information provided to Congress in the RDT&E budget documentation materials. This includes the provision of specific information about activities conducted and accomplishments achieved with prior year funding; information on planned activities and their costs for the budget year at the project level; the improvement of cross references among projects; provision of schedules that identify key events; updates to narratives that reflect prior years' events; and the implementation of a more informative display of programmatic, schedule and budgetary changes. Improvements to the quality of the RDT&E budget justification documents are expected to be made beginning with the fiscal year 2010 budget submission.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House

House

uc

(H. Rept. 110-279)

261

~~version of the fiscal year 2008 Department of Defense Appropriations bill~~

Act.
UC

~~(H.R. 110-279)~~ Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement, and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this explanatory statement.

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

The Secretary of Defense notified the House and the Senate Committees on Appropriations of a number of urgent Intelligence, Surveillance and Reconnaissance (ISR) needs for fiscal year 2009 that were not contained in the budget request. In order to respond to these emerging requirements, an increase of \$750,000,000 is provided in operation and

maintenance, procurement, and research, development, test and evaluation accounts. The following table includes research, development, test and evaluation funds provided in support of this initiative.

[In thousands of dollar]

| Line | Account | Item | |
|-------|---------|----------------------|--------|
| R-239 | RDDW | Global Observer..... | 40,000 |

(B)

REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of the Department of Defense, Comptroller is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

AERIAL CANOPY SENSOR DELIVERY SYSTEM

The Department of Defense Appropriations Act, 2008, provided in Research, Development, Test and Evaluation, Defense-Wide, \$1,000,000 in Line 27, SO/LIC Advanced Development, for Aerial Canopy Sensor Delivery System. U.S. Special Operations Command and the Army now concur that the proper account for funding this program is Research, Development, Test and Evaluation, Army, Line 45, Electronic Warfare Technology. The Secretary of Defense is directed to initiate a reprogramming action to provide the funds to the Army for proper execution.

WARFIGHTER INFORMATION NETWORK—TACTICAL (WIN-T)

The budget request for fiscal year 2009 contains \$414,357,000 for Warfighter Information Network – Tactical (WIN-T) research and development. Within that amount, \$330,438,000 is to continue research and development efforts for WIN-T Increment 3, full networking on the move. There is concern with the lack of definitized requirements and program costs for Increment 3. Additionally, the revised program acquisition baseline is

not expected to be completed until almost two years after the Nunn-McCurdy breach, creating an uncertain basis for the budget request. Therefore, the amount proposed in the budget request has been reduced by \$20,000,000. Additionally, the Comptroller General is directed to continue his review of the WIN-T program under the guidelines set forth in Senate Report 110-155.

TUNGSTEN/COBALT ALLOY CARCINOGEN STUDY

There is concern with the potential carcinogenic nature of tungsten/cobalt alloys and the Army is encouraged, in conjunction with the research community, to undertake a study to determine if tungsten/cobalt alloys are a probable human carcinogen in either the manufacturing or employment of ammunition and other defense equipment.

ROCK ISLAND ARSENAL

The Rock Island Arsenal is undertaking efforts to demonstrate small scale, clean energy conversion technology to provide an uninterrupted source of energy for potential use at Department of Defense facilities. The Army is encouraged to determine what environmental, economic, and safety benefits might be achieved by this energy initiative.

NEUROTOXIN EXPOSURE TREATMENT PARKINSON'S RESEARCH PROGRAM

The United States Army Medical Research and Materiel Command (USAMRMC) is advancing research in investigating the underlying biologic mechanisms and therapeutic interventions of neuro-degenerative effects caused by deployment, environmental and occupational exposures. Therefore, \$25,000,000 is recommended for the continuation of this vital research and other neurological disorders through collaborative work between the military, a non-profit organization and an academic laboratory with distinguished scientific credentials in this field.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For Research, Development, Test and Evaluation, Navy, funds are to be available for fiscal year 2009, as follows:

BUDGET REQUEST RECOMMENDED CHANGE FROM REQUEST

RESEARCH, DEVELOPMENT, TEST & EVAL, NAVY

MINE WARFARE

The Mine Warfare Mission Modules onboard the Littoral Combat Ships (LCS) will provide a significant portion of the Navy's Mine Warfare capability. Delays in the fielding of the LCS translate to a commensurate delay in fielding the mine warfare capability provided by these platforms. Given that the LCS will not be fully operational in significant numbers until well into the next decade, the Nation cannot afford such a delay to the mine warfare capability provided by the associated mission modules. However, the mine warfare capability provided by the mission modules can provide benefit to the fleet even without the LCS platform. Therefore, \$3,800,000 is provided to the LCS mission module development effort to research and study methods to employ these modules independently of the LCS platform. The Secretary of the Navy is directed to provide a report to the congressional defense committees not later than June 30, 2009, detailing the results of this study and the plan for the operational employment of the mine warfare mission modules independent of the LCS.

ELECTROMAGNETIC AIRCRAFT LAUNCHING SYSTEM (EMALS)

An additional \$24,000,000 is provided to address cost overruns in the Electromagnetic Aircraft Launching System (EMALS) program. Due to

continuing concerns about meeting the schedule for integration into PCU Gerald R. Ford (CVN-78), the Secretary of the Navy is directed to submit a report to the congressional defense committees by April 1, 2009, which shall contain a description of efforts to control cost and schedule, an updated schedule for completion of research and development efforts and integration into CVN-78, and an assessment of aircraft launch system options for CVN-78, including cost estimates of those options, if the EMALS program experiences further delays.

BONE MARROW REGISTRY

The bill includes \$31,500,000 for the Department of the Navy, to be administered by the C.W. Bill Young Marrow Donor Recruitment and Research Program, also known as and referred to within the Naval Medical Research Center as the Bone Marrow Registry. Funds appropriated for the C.W. Bill Young Marrow Donor Recruitment and Research Program shall remain available only for the purposes for which they were appropriated, and may only be obligated for the C.W. Bill Young Marrow Program. This Department of Defense donor center has recruited more than 475,000 Department of Defense volunteers, and provides more marrow donors per week than any other donor center in the Nation. More than 2,880

servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 7,000,000 potential volunteer donors is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the C.W. Bill Young Marrow Donor Recruitment and Research Program in the development and testing of their contingency plans. The Department of Defense form (DD Form 1414) shall show this as a congressional interest item. The Department is further directed to release all the funds appropriated for this purpose to the C.W. Bill Young Marrow Donor Recruitment and Research Program within 60 days of enactment of this Act.

JOINT COUNTER RADIO-CONTROLLED ELECTRONIC WARFARE (JCREW)

The Navy has been designated as the executive agent for JCREW 3.3 to protect personnel from improvised explosive devices (IEDs), and is dependent upon transfer of funds from the Joint IED Defeat Organization for critical science and technology projects. Reliance on other sources of funding is inconsistent with the Navy's role as executive agent for JCREW 3.3. Therefore, the Secretary of the Navy is directed to fund these enabling

science and technology projects within the Research, Development, Test and Evaluation, Navy account in future budget requests.

ELECTRIC PROPULSION TECHNOLOGY FOR SURFACE COMBATANTS

Significant steps have been taken in developing more energy efficient alternatives to the mechanical drive propulsion systems currently powering Navy ships. Funding has been provided for several years to mature electric propulsion technologies to support current and future Navy needs, either as an upgrade to DDG-51 or DDG-1000 class ships, or for the next-generation cruiser. Therefore, due to the increased flexibility, projected fuel savings and performance enhancements provided by such technologies, the Secretary of the Navy is directed to continue the exploration of electric propulsion as an integrated part of its surface combatant design and construction plan. Additionally, the Navy is encouraged to continue the development of all-electric technology by including funding in future Shipboard System Component Development (Program Element 0603513N) budget requests.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For Research, Development, Test and Evaluation, Air Force, funds are to be available for fiscal year 2009, as follows:

~~[insert RDTE, AF Computer Table]~~

| | BUDGET REQUEST | RECOMMENDED | CHANGE FROM REQUEST | |
|---|---|-------------|------------------------|----------|
| RESEARCH, DEVELOPMENT, TEST & EVAL, AIR FORCE | | | | |
| 1 | | | | |

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

| R-1 | Budget Request | Recommendation |
|--|----------------|----------------|
| 1 DEFENSE RESEARCH SCIENCES | 309,926 | 314,726 |
| Center for Microplasma Science and Technology (CMST) | | 2,000 |
| Coal Transformation Laboratory | | 800 |
| Development and Validation of Advanced Design Technologies for Hypersonic Research | | 2,000 |
| 2 UNIVERSITY RESEARCH INITIATIVES | 125,949 | 140,789 |
| Aerodynamic Wind Tunnel Upgrade Initiative | | 1,600 |
| Cyber Security Laboratory at Louisiana Tech University | | 3,000 |
| Institute for Science and Engineering Simulation (ISES) | | 3,360 |
| Lean Management System Research Initiative at Air Mobility Wing MacDill AFB | | 800 |
| Secure Network Centric Operations | | 1,600 |
| Unmanned Aerial Systems Mission Planning and Operation Center | | 400 |
| Battlespace: Reducing Military Decision Cycles | | 1,280 |
| High Temperature Hydrogen Energy Production Facility | | 1,200 |
| Partnership in Innovative Preparation for Educators and Students and the Space Education Consortium | | 800 |
| Rapid Prototyping and Nanotechnology Initiative | | 800 |
| 7 MEDICAL DEVELOPMENT | 0 | 4,900 |
| Biothreat Test Pouch for Film Array System | | 800 |
| Health Surveillance System | | 1,600 |
| Regional Telepathology Initiative at Keesler AFB | | 2,500 |
| 8 MATERIALS | 117,143 | 188,503 |
| Accelerated Insertion of Advanced Materials and Certification for Military Aircraft Structure Material Substitution and Repair | | 3,000 |
| Advance Casting and Coating Technologies for Aircraft Canopies | | 2,800 |
| Advanced Aerospace Heat Exchangers | | 1,600 |
| Advanced Carbon Fiber Research and Test Initiative | | 2,400 |
| Advanced Thermal Control Coatings for Space Applications | | 1,600 |
| Carbon Non-Materials for Advanced Aerospace Applications | | 2,400 |
| Ceramic Matrix Composite Turbine Blade Demonstration | | 4,000 |
| FEL Capabilities for Aerospace Microfabrication | | 1,120 |
| Fire and Blast Resistant Materials for Force Protection | | 1,600 |
| Gallium Nitride RF Power Technology | | 1,600 |
| High Power Broadly Tunable Middle-Infrared Laser Sources | | 2,400 |
| Intelligent Manufacturing Initiative | | 2,400 |
| Large Area, APVT Materials Development for High Power Devices | | 800 |
| Light Weight Organic Photovoltaic Technologies | | 1,200 |
| Liquid Crystal Laser Eye Protection | | 1,600 |
| Nanocomposites for Lightning Protection of Composite Airframe Structures | | 1,200 |
| Next Generation Manufacturing Processes | | 1,200 |
| Optic Band Control Program | | 800 |
| Partnership for Emerging Technologies | | 1,600 |
| Pennsylvania NanoMaterials Commercialization Center | | 2,000 |
| Plasma-Sphere Array for Flexible Electronics | | 2,800 |
| Science for Sustainment | | 1,600 |
| Advanced Military Installations That Integrate Renewable Energy and Advanced Energy Storage Technologies | | 4,000 |
| Air Force Minority Leaders Program | | 8,000 |
| Aircraft Fatigue Modeling and Simulation | | 3,000 |
| Conducting Polymer Stress and Damage Sensors for Composites | | 1,440 |

| R-1 | Budget Request | Recommendation |
|--|----------------|----------------|
| Consortium for Nanomaterials for Aerospace Commerce and Technology | | 2,400 |
| Diamond Substrate for Cooling of Micro-Electronics | | 2,000 |
| LGX High Temperature Acoustic Wave Sensors | | 1,600 |
| Mobile Wind Turbine Systems to Power Forward Bases | | 800 |
| Nano-Composite Structures Manufacturing Technology Development | | 800 |
| ONAMI Safer Nanomaterials and Nanomanufacturing | | 4,000 |
| Tactical Shelters Next Generation Composite Initiative | | 1,600 |
| 9 AEROSPACE VEHICLE TECHNOLOGIES | 122,870 | 126,970 |
| Center for Solar Electricity and Hydrogen | | 3,600 |
| Cognitive UAV | | 500 |
| 10 HUMAN EFFECTIVENESS APPLIED RESEARCH | 82,091 | 95,891 |
| Homeland Emergency Learning and Preparedness (HELP) Center | | 3,000 |
| Imaging Tools for Human Performance Enhancement and Diagnostics | | 2,000 |
| Smart View Program (SVP) | | 800 |
| Tools and Technologies for Incident and Consequence Management | | 800 |
| Component Object Model Attitude Control System Simulation/Trainer | | 1,600 |
| Joint Theater Air Ground Simulation System | | 2,400 |
| Ultra High Resolution Deployable Projector for Simulation | | 3,200 |
| 11 AEROSPACE PROPULSION | 218,049 | 251,109 |
| Advanced Lithium Ion Battery Manufacturing | | 1,600 |
| Advanced Vehicle Propulsion Center | | 1,200 |
| Aerospace Lab Equipment Upgrade | | 800 |
| Affordable Lightweight Power Supply Development | | 1,000 |
| Development and Testing of Advanced Paraffin-Based Hybrid Rockets for Space Applications | | 2,800 |
| Electronics Liquid Cooling for Advanced Military Ground and Aerospace Vehicle Projects | | 1,000 |
| Hydrocarbon Boost Technology Demonstrator | | 1,400 |
| Integrated Power for Aircraft Technologies (INPACT II) | | 3,500 |
| Integrated Aircraft Energy Management | | 2,000 |
| Integrated Electrical Starter/Generator (IES/G) | | 1,600 |
| Integrated Propulsion Analysis Tool | | 2,000 |
| Lithium Ion Domestic Materials Development | | 1,600 |
| Multi-Mode Space Propulsion | | 800 |
| National Test Facility for Aerospace Fuels and Propulsion | | 1,360 |
| WASH.Oxygen Sensor and Cell-Level Battery Controller | | 800 |
| Advanced Fuel Cell Based Power System for Small UAV Applications | | 1,200 |
| Manufacturing of High Energy Superior Lithium Battery Technology | | 6,000 |
| Vortex Low Cost Rocket Engine | | 2,400 |
| 12 AEROSPACE SENSORS | 109,048 | 130,448 |
| Information Quality Tools for Persistent Surveillance Data Sets | | 1,600 |
| Net-Centric Sensors Grid | | 800 |
| Optically Pumped Atomic Laser (OPAL) | | 2,800 |
| Sensor Fusion | | 2,400 |
| Watchkeeper | | 800 |
| Weather Sensors for CoT | | 1,600 |
| Advanced Data Exploitation and Visualization | | 800 |

| R-1 | Budget Request | Recommendation |
|--|----------------|----------------|
| Low Voltage, Wideband Electro-Optic Polymer Modulators | | 3,000 |
| Persistent Sensing Data Processing, Storage and Retrieval | | 1,600 |
| Space Qualification of the Common Data Link | | 1,600 |
| Super-Resolution Sensor System | | 2,000 |
| Wideband Digital Airborne Electronic Sensing Array | | 2,400 |
| 13 SPACE TECHNOLOGY | 117,519 | 135,799 |
| Advanced Modular Avionics for Operationally Responsive Space Use | | 2,400 |
| Center for Responsive Space Systems | | 800 |
| Multicontinuum Technology for Space Structures | | 2,880 |
| Radiation Hardened Non-Volatile Memory Technology | | 1,600 |
| Defensive Counterspace Testbed | | 800 |
| Field Programmable Gate Arrays Mission Assurance Center | | 3,000 |
| Lightweight, High-Efficiency Solar Cells for Spacecraft | | 800 |
| Massively Parallel Optical Interconnects for MicroSatellite Applications | | 1,600 |
| Nuclear Test Seismic Research | | 2,000 |
| Reconfigurable Electronics and Non-Volatile Memory Research | | 2,000 |
| Shielding Rocket Payloads | | 400 |
| 16 COMMAND CONTROL AND COMMUNICATIONS | 109,492 | 114,292 |
| Compact Laser Terminal for Airborne Network Centric Warfare | | 2,800 |
| Cyber Attack Mitigation and Exploitation Laboratory (CAMEL) III | | 2,000 |
| 18 ADVANCED MATERIALS FOR WEAPON SYSTEMS | 41,926 | 65,646 |
| Advanced Nanotube Micro-Munitions Weapon Technology Initiative | | 1,600 |
| EMI Grid Fabrication Technology | | 2,720 |

MAUI SPACE SURVEILLANCE SYSTEM (MSSS)

The bill provides an increase of \$22,000,000 over the budget request for sustainment, investment in new technologies and initiatives, and research and development activities at MSSS. The Air Force is directed to base its overhead charges only on the amount requested. None of the increases provided here shall be subject to Air Force taxes or withholds. Furthermore, research funds should be allocated by Air Force officials on-site to local programs that offer the greatest potential return and merit.

SPACE MAJOR FORCE PROGRAM

In the Fiscal Year 2008 Department of Defense Appropriations Act, the Secretary of Defense was directed to create a major force program category for space for the future years defense program of the Department of Defense. Further clarification toward this intent is required. The virtual major force program has been an established measure for several years and it is considered an acceptable foundation for development of the final space major force program inventory. The current virtual major force program includes space-based assets and the associated non-space, command, control, communications, and intelligence assets supporting the space systems.

Space systems are not just the satellites resident in the exo-atmosphere but also include the associated terminal programs. In the past, these terminal programs were desynchronized from the space platforms due to funding shortfalls and schedule delays. In the future, a tighter coupling of these programs is required. Therefore, these terminal programs must be included in the space major force program inventory. The Department of Defense is directed to implement the final space major force program prior to the submission of the fiscal year 2011 budget. Furthermore, six months after enactment of this Act, the Secretary of Defense is directed to report to the congressional defense committees the status of the population and development of the space major force program.

MISSILE WARNING

The current Defense Support Program constellation of satellites is aging and needs to be replaced. The Air Force has been pursuing the Space Based Infrared Satellite System—geosynchronous (SBIRS—GEO) component for over a decade and the development is almost complete. A sister system, Space Based Infrared Satellite System—highly elliptical orbit (SBIRS—HEO) has launched, successfully initialized, and is providing extraordinary data, well beyond expectations. However, the SBIRS—HEO

component is not fully integrated into the ground system, so the data products are not fully exploited. Therefore, the bill includes \$15,000,000 above the budget request to be used for increased SBIRS–HEO ground integration and data exploitation.

Furthermore, to date the Department of Defense has not planned for additional SBIRS–GEO satellites. In order to avoid a production break and the associated costs, the Department of Defense is directed to begin procurement of the fourth and fifth SBIRS–GEO satellites in the fiscal year 2010 budget request.

NATIONAL SECURITY SPACE OFFICE

The original intent of the National Security Space Office (NSSO) was to provide the Executive Agent for Space with an analysis team that would make recommendations to the priorities, capabilities and budgets of both the Department of Defense and intelligence community space programs. In recent years, the NSSO has lost the support of the National Reconnaissance Office, which has provided no funding for the NSSO, and the Air Force and other Department of Defense organizations have used the NSSO as personal staff. The Secretary of Defense and the Director of National Intelligence are

directed to assess the roles and responsibilities of the NSSO and to report back to the congressional defense oversight committees by May 15, 2009.

COAL TO LIQUID FUELS

The Congress understands that the Air Force is strongly committed to an energy strategy that looks to certify their entire fleet of aircraft on a synthetic fuel blend by 2011, with the intent to purchase 50 percent of their aviation fuel used in the United States in the form of a synthetic fuel blend by 2016. Part of this strategy involves examining the feasibility, cost effectiveness, and environmental impacts of building coal-to-liquid fuel (CTL) plants, utilizing enhanced-use leasing authorities. It is envisioned that these plants would be built in strategic locations, where there are abundant coal and water resources to operate these plants. Consistent with the Air Force vision and availability of resources necessary for a CTL plant, a total of \$10,000,000 is provided only to support Air Force efforts in siting and contracting for such a plant on Eielson Air Force Base. This funding is split between Operation and Maintenance, Air Force, and Research, Development, Test and Evaluation, Air Force accounts.

The Secretary of the Air Force is directed to submit a report to the congressional defense committees no later than April 1, 2009, which provides the framework for a joint partnership between the Department of Defense and a private developer, to include an associated milestone schedule, a preliminary design, engineering studies, and the plan to accomplish any required environmental work.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,
DEFENSE-WIDE

For Research, Development, Test and Evaluation, Defense-Wide,
funds are to be available for fiscal year 2009, as follows:

| | BUDGET REQUEST | RECOMMENDED | CHANGE FROM REQUEST | |

ENERGY STRATEGY FOR THE DEPARTMENT OF DEFENSE

Achieving improved energy efficiency, which includes reduced consumption, expanded sources of supply as well as a reduction in our dependence on foreign oil are possibly the greatest national security challenges facing our nation.

In 2006, according to the Defense Science Board, the Department of Defense consumed 110,000,000 barrels of premium fuel and 3,800,000,000 kilowatt hours of electricity at a cost of \$13,600,000,000. Of this amount, \$10,000,000,000 was spent on fuel for combat and combat-related systems, and another \$3,600,000,000 to power the Department of Defense's infrastructure. The major challenges to fuel efficiency are operational, tactical and fixed based.

The most recent Defense Science Board Task Force is but the latest in a long line of reports addressing the necessity for a reduction in the fuel burden. The 2001 Defense Science Board Task Force report entitled, "More Capable Warfighting through Reduced Fuel Burden," stated that 70 percent of the tonnage the Army ships into battle is associated with fuel logistics and that multiple technologies were available at all levels of maturity that could reduce demand. Furthermore, it advocated "including fuel efficiency as a key performance parameter in all operational requirements documents and

capstone requirements documents.” It was not until 2007 that the Department issued a memorandum making it policy to include the fully burdened cost of delivered energy in trade off analyses conducted for all tactical systems and identified only three pilot programs.

While the Department is the leading consumer of fuel in the U.S., the Air Force is the leading consumer of fuel within the Department. The Air Force has been in the forefront on alternative fuels and is on the path to qualify all Air Force aircraft on a coal-based jet fuel by 2012. The challenge in using coal-based jet fuels is directly dependent upon carbon capture and sequestration to mitigate CO2 emissions.

The Department is provided \$20,000,000 to initiate research into carbon capture and sequestration technology for the future production of coal-based jet fuel. The Department is encouraged to budget for the continued research of this initiative in the fiscal year 2010 request. The Secretary of Defense is directed to provide the congressional defense committees with specific plans for utilizing these funds to include specific details and goals not later than 90 days after enactment of this Act.

Similarly, in the fixed base, there is a near total reliance on the commercial power grid. Efforts to raise the issue and support alternative

and/or renewable energy sources for the Department of Defense have been sporadic at best.

The Department of Defense's scattered efforts to address the energy issue throughout its organization is coupled with minimal centralized policy and oversight. The Defense Science Board Task Force went on to say, "decisions that create energy demand are dispersed organizationally across the Department and throughout the services. There is no unifying vision, strategy, or metrics or governance structure with enterprise-wide energy in its portfolio."

The Department of Defense can no longer rely on such haphazard approaches to energy. Our future national security and military readiness demands swift action guided by a clear mandate.

The Secretary of Defense is encouraged to appoint a senior official to be responsible for energy efficiency. Further, the Department is directed to address comprehensively and submit a report, not later than June 15, 2009, regarding energy efficiency and how it will be given greater importance and weight in all aspects of the Department's resource allocation process.

TRANSFORMATIONAL MEDICAL TECHNOLOGIES INITIATIVE (TMTI)

365

The fiscal year 2009 budget request includes \$240,900,000 for the Transformational Medical Technologies Initiative (TMTI) in program elements 0601384BP, 0602384BP and 0603384BP of the Chemical and Biological Defense Program, an increase of \$105,000,000 over the amount appropriated in fiscal year 2008. Of the amount requested for fiscal year 2009, more than half, or \$123,900,000, is requested for new start projects, an increase of \$78,300,000 over the amount provided for new projects in fiscal year 2008. This growth for new starts is excessive at this juncture in the program and the request for new start projects in fiscal year 2009 is reduced by \$70,000,000. The Special Assistant, Chemical and Biological Defense is directed to provide the annual TMTI report (as detailed in Senate Report 109-292) with the submission of the fiscal year 2010 budget request.

DEFENSE ADVANCED RESEARCH PROJECTS AGENCY (DARPA)

The fiscal year 2009 budget request for DARPA is \$3,285,569,000, an increase of \$326,493,000, more than 10 percent, over the fiscal year 2008 appropriated program of \$2,959,076,000. In recent years, DARPA has repeatedly underexecuted its funded program level, executing a fiscal year 2005 program that was nine percent below the appropriated program and a fiscal year 2006 program that was twelve percent below the appropriated

program. Based on program execution to date, DARPA will likely continue that trend for the fiscal year 2007 and 2008 programs. While DARPA's continued underexecution can partially be explained by its fiscally responsible management approach of withholding funds from projects that fail to demonstrate progress, doubts exist about DARPA's ability to responsibly manage such a large increase. Therefore, the bill provides \$3,142,229,000, a reduction of \$143,340,000 from the request. The Director of DARPA is directed to provide to the congressional defense committees not later than 60 days after enactment of this Act a report that details by program element and project the application of undistributed reductions made in this Act.

The conference reports accompanying the fiscal year 2007 and 2008 Department of Defense Appropriations Acts cited the lack of individual project level detail provided in DARPA's budget justification materials. While the high-risk nature of many DARPA projects makes it hard to pinpoint detailed schedules, there is concern about the lack of detail provided for individual projects regarding their scope, notional schedule and overall funding requirements. Moreover, project funding is often adjusted from one year to the next without justification. DARPA is directed to provide greater programmatic detail for its projects in its justification

materials beginning with the fiscal year 2010 budget request. Further, DARPA is encouraged to continue to pursue transition plans for all of its Advanced Technology Development programs. The Director of DARPA is directed to submit with the fiscal year 2010 budget submission the report on transitions that was initiated in fiscal year 2009.

NEW STARTS IN THE YEAR OF EXECUTION

The fiscal year 2009 budget request includes no less than \$176,770,000 in the Research, Development, Test and Evaluation, Defense-Wide account for new start programs that will be selected and initiated in fiscal year 2009, an increase of \$61,766,000 from the amount above the fiscal year 2007 level. While there is awareness of the need for certain programmatic flexibility to address urgent unfunded requirements, this level of funding is unjustified, particularly in light of the fact that several projects continue to be resourced from these funds over a sustained period of time without transitioning to funded programs of record. Additionally, congressional notification of programs initiated with these funds has been lagging and inconsistent. Therefore, the bill reduces the request for these programs by ten percent.

JOINT REPORT ON COAL-TO-LIQUID FUELS

The Secretary of Defense, in coordination with the Department of Energy's Office of Fossil Energy is directed to submit a report to the congressional defense committees no later than March 31, 2009, on alternatives to reduce the life cycle emissions of coal-to-liquid fuels and potential uses of coal-to-liquid fuels to meet the Department of Defense's mobility energy requirements. The report shall examine, at a minimum, the following: the potential clean energy alternatives for powering the coal-to-liquids conversion processes, including nuclear, solar, and wind energies; the alternatives for reducing carbon emissions during the coal-to-liquids conversion processes; and the military utility of coal-to-liquid fuels for military operations and for use by expeditionary forces compared with the military utility and life cycle emissions of mobile, in-theater synthetic fuel processes.

INFRARED FOCAL PLANE ARRAYS

Infrared Focal Plane Arrays (IFPA) are the key to infrared sensor systems widely used by the military. New and improved military capabilities will require the development of new and more complex arrays. Recent reports reveal that the United States, which has traditionally held the

lead in IFPA technology, is falling behind. This poses the very real threat that the United States government could lose control of this technology. The Department of Defense is directed to review developments in this critical area and report on the status of the United States' competitive position, and if warranted, provide a plan of action to remedy the situation. This report should be submitted no later than 90 days after enactment of this Act.

CLIMATE CHANGE AND NATIONAL SECURITY

Climate change is a key environmental issue that has national security implications. The Department of Defense should assess the impact of climate change on our coasts, water resources, and other geographic and environmental components of the United States national security. The Department of Defense should also establish a baseline set of indicators for assessing climate change and a set of tools for measuring its future impact on those aspects of climate change that could affect our national security.

MISSILE DEFENSE AGENCY (MDA) REPORTING REQUIREMENTS AND JUSTIFICATION MATERIALS

The budget information provided by the MDA does not allow sufficient oversight of the Ballistic Missile Defense programs. The

programs change significantly from the time the budget is submitted to the time funding is appropriated, making it extremely difficult to understand what is actually in the budget on an annual basis. The justification materials should no longer be presented in the block structure format, but rather by fiscal year for each activity within the program element. The documents must provide more detailed schedules, quantities, and break-outs of funding for each activity.

Past Congresses have established a framework of laws that require program and cost reporting to Congress to help exercise this oversight. The MDA is directed to report according to the existing acquisition laws to improve accountability and transparency of the programs.

NEAR-TERM MISSILE DEFENSE PROGRAMS

In order to execute a balanced program, the Missile Defense Agency (MDA) must continue to field the near-term missile defense programs, primarily Ground-Based Missile Defense (GMD), AEGIS Ballistic Missile Defense (BMD), and Theater High Area Altitude Defense (THAAD) programs. Funding for fielding these programs, however, is sacrificed each year to pay for the development of futuristic missile defense programs. Therefore, the bill reduces funding for several of the far-term programs, such

as the Multiple Kill Vehicle, the Airborne Laser, and Space Test Bed and provides an additional \$120,000,000 for enhancements to the GMD, AEGIS and THAAD programs. The MDA is directed to provide a report to the congressional defense committees by December 1, 2008, on how those additional funds will be allocated to the programs.

The Joint Capability Mix (JCM) study, conducted by the Joint Staff, concluded that U.S. combatant commanders need about twice as many Standard Missile-3 and THAAD interceptors as currently planned to meet minimum operational requirements for defending against short and medium-range ballistic missiles. The MDA's highest priority should be to achieve the minimum levels of interceptor inventories identified in the JCM study and the Department of Defense should budget accordingly in its fiscal year 2010 budget submission.

EUROPEAN CAPABILITY—THIRD SITE

Three separate program elements are recommended for the European Missile Defense sites in order to provide adequate visibility of these initiatives and to ensure that funding for the Ground-Based Missile Defense, Sensors, and Command and Control program elements are not adversely impacted by the European sites.

The bill provides \$467,150,000 for European missile defense and development and testing of the two-stage interceptor. The first program element provides \$363,250,000 for the development and testing of the two-stage interceptors and the interceptor site planned for Poland. The bill provides \$182,900,000 for development and testing of the two-stage interceptors; \$19,200,000 for long-lead components for two-stage interceptors; and \$65,500,000 for site planning, design and activation. Due to the delay in ratification of a missile defense agreement with Poland, funding for missile field equipment is reduced by \$82,550,000 and communications by \$13,100,000, half of the request.

The second program element provides \$76,800,000 for the European Midcourse Radar (EMR) to be located in the Czech Republic. The bill provides \$15,800,000 for site planning, design and activation, but reduces funding for sensor equipment by \$15,000,000 and communications by \$6,000,000 due to at least a three month delay in ratification of an agreement with the Czech government in fiscal year 2009.

The third program element provides \$27,100,000 for the European Global Engagement Manager and U.S. Communications for the European sites. Due to the delay in ratifying agreements with the European host sites, the request is reduced by \$14,000,000. The bill provides no funding for the

European Forward Based Radar (AN-TPY-2) since a location has not been determined for the site.

These estimates do not include costs for barracks, family housing or any other costs normally associated with infrastructure of a cantonment area of a military facility. Also, the estimate does not include personnel costs for manning the facilities.

SPACE TRACKING AND SURVEILLANCE SYSTEM (STSS)

It is premature for the Missile Defense Agency to move forward with a follow-on STSS constellation until after a successful launch and thorough analysis of the STSS demonstrator data. No funding is provided to begin work on an STSS follow-on constellation, an STSS gap filler, space sensor research and development, or any other space demonstration program.

FLIGHT TEST DELAYS AND CANCELLATIONS

As one of the largest research, development, test and evaluation programs in the Department of Defense, the Missile Defense Agency (MDA) has established a pattern of cost, schedule and performance problems. Tests were delayed or cancelled in fiscal years 2006, 2007 and 2008 and it is not unreasonable to assume that some of the tests planned for

fiscal year 2009 will likely slip into subsequent fiscal years. The MDA annually conducts operational testing of the Ballistic Missile Defense System through a series of planned tests which are outlined in the Integrated Master Test Plan (IMTP). The numbers reflected in the IMTP only address successful flights of a missile. Rates of delay, cancellations or changes that occur annually in the testing programs and which affect the programming and budgeting of future years are not addressed.

In fiscal years 2006 through 2008, the MDA conducted approximately 85 percent of the planned tests in the same fiscal year as originally scheduled. The MDA's fiscal year 2009 test schedule reflects 13 flight tests with 77 percent of these tests scheduled for the third and fourth quarters of 2009. The fiscal year 2009 test schedule contains two major flight tests to support Ground-Based Midcourse Defense (FTG-05 and FTG-06). Combined, these tests cost approximately \$300,000,000. Department of Defense officials have expressed concern that FTG-06 will not have a target vehicle to support the test within fiscal year 2009. Therefore, the Missile Defense Agency is directed to report to the congressional defense committees by January 15, 2009 on the state of the testing program and what funding shortfalls exist, if any.

TARGETS

The Missile Defense Agency (MDA) has renewed its focus and commitment to the target program and must continue this momentum in order to achieve optimal production and deliveries. In order to ensure that the program office has the proper oversight of all funding for the targets program, the bill transfers the entire request for targets from the individual program elements to the Test and Target program element.

The bill provides an additional \$32,000,000 above the budget request for the flexible family of targets to initiate an inventory build up of critical long lead hardware items. However, there are additional funding shortfalls for targets that need to be addressed in fiscal year 2009. The MDA should submit an above threshold reprogramming to the congressional defense committees to ensure that this important component of missile defense testing is adequately funded. In addition, MDA should adequately address shortfalls in its out-year budget requests for targets to continue inventory buildup to ensure proper support of the rigorous testing program planned beginning in fiscal year 2010.

TERMINAL HIGH ALTITUDE AREA DEFENSE (THAAD)

The bill transfers \$65,000,000 from Program Element 0603881C to Procurement, Defense-Wide, Line 95, as identified by the Missile Defense Agency (MDA) to recover schedule and mitigate production line gaps for Fire Unit #3 and #4. The MDA is directed to identify additional funds to ensure production line continuity.

STANDARD MISSILE-3 (SM-3) INTERCEPTORS

The bill transfers \$57,100,000 from Program Element 0603892C to Procurement, Defense-Wide, Line 95, for advance procurement of SM-3 Block 1A interceptors.

AEGIS BALLISTIC MISSILE DEFENSE

Management of the kill vehicle for the Standard Missile – 3 Block II is being done by the Kill Vehicle program office instead of the AEGIS program. The AEGIS program has had a long history of success working with the Navy to manage the entire development and fielding of the Standard Missile, and any change in management could result in a delay to the program. Therefore, the AEGIS program is directed to manage all current and future Standard Missile development and upgrades for ballistic missile defense, including the kill vehicles.

SPACE-BASED INTERCEPTOR STUDY

The bill provides \$5,000,000 to support the study outlined in section 236 of S. 3001, the National Defense Authorization Act for Fiscal Year 2009.

OPERATIONAL TEST AND EVALUATION, DEFENSE

For Operational Test and Evaluation, Defense, funds are to be available for fiscal year 2009, as follows:

DEFENSE HEALTH PROGRAM REPROGRAMMING PROCEDURES

There is concern regarding the transfer, lack of proper budgeting and the reprogramming of funds from Direct (or In-house) Care to other budget activities within operation and maintenance. To limit transfers and enhance Congressional oversight within the Defense Health Program operation and maintenance account, language is included in the accompanying bill which limits the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying statement should not be interpreted by the Department as limiting the amount of funds that may be transferred to the Direct Care system.

In addition, the services are not properly budgeting for actual execution levels among the budget activity groups. Therefore, the Direct Care System funding will continue to be designated as a congressional special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity shall require the Department of Defense to follow prior approval reprogramming procedures.

The Navy and the Air Force budget requests for In-House Care are in excess of actual requirements. Therefore, funds have been transferred from

Navy and Air Force In-House Care to other budget activities to reflect estimated funding requirements.

In addition, the Department of Defense is directed to review budget execution data for all of the Defense Health Program accounts and to adequately reflect changes to the budget activities requested by the services in future budget submissions beginning in fiscal year 2010.

PRIVATE SECTOR CARE REDUCTION

The bill has reduced the Private Sector Care Budget Activity Group by \$200,000,000 as a result of routine health care for servicemembers and their families returning to the military treatment facilities from private sector care. The actual private sector care funding required in fiscal year 2008 was \$200,000,000 below the budget request, as demonstrated by prior approval reprogramming (FY08–11) submitted to the congressional defense committees by the Department of Defense.

CARRYOVER

The bill provides a one percent carryover for fiscal year 2009 operation and maintenance. The Assistant Secretary of Defense for Health Affairs is directed to submit to the congressional defense committees within

30 days after enactment of this Act a detailed spending plan for the fiscal year 2008 designated carryover funds.

The Assistant Secretary of Defense for Health Affairs is also directed to submit justification to the congressional defense committees not later than January 15, 2009, as to the continuing need to provide carryover in future budgets. In addition, the Department shall, not fewer than 15 days prior to executing the carryover funds, notify the congressional defense committees in writing of the details of any such obligation.

STRATEGIC COMMUNICATIONS

In 2007, the Assistant Secretary of Defense for Health Affairs (ASD(HA)) and the Military Health System (MHS) established an office for MHS Strategic Communications to address and respond to the various issues related to wounded warrior and the MHS. According to the Department of Defense, this new office was created to coordinate with the communications offices within the MHS and the services to serve as a hub for the MHS to respond to questions and interviews from the press, to manage and maintain the MHS web site, and to develop communication products and messages. In addition to creating and staffing this new office, the Department recently awarded a \$3,900,000 contract to provide contracted personnel and to advise

the Director, MHS Strategic Communications office in the execution of the MHS Strategic Communications Plan. There is great concern that the services provided through this contract are duplicative to the roles and responsibilities of the staff employed in this office. Therefore, the Assistant Secretary of Defense for Health Affairs and the Under Secretary of Defense for Personnel and Readiness are directed to provide a report to the congressional defense committees, not later than March 6, 2009, that details the roles, responsibilities, staffing, and resources of the strategic communications office and a detailed justification of this contract. The Department is further restricted from extending this contract without the approval of the defense subcommittees of the Committees on Appropriations of the House and the Senate.

TRAUMATIC BRAIN INJURY AND PSYCHOLOGICAL HEALTH

Traumatic brain injury (TBI) and psychological health issues have emerged as a significant cause of death to the war fighters in Iraq and Afghanistan. Whether mild, moderate or severe brain injury, the level of assessment and standard of care provided to the war fighter is in need of enhancement. Diagnosis, treatment, and rehabilitation must be at a level to ensure the best possible outcome. To this end, the bill includes \$300,000,000

above the budget request to address all levels of brain injury and psychological health issues that servicemembers and their families have experienced during the Global War on Terror. The Department is expected to request any additional resources for these requirements in the upcoming supplemental request for fiscal year 2009.

The Department continues to work diligently to establish a center of excellence to provide specialized treatment and rehabilitation for brain injured troops, but much more is needed and the Department is expected to continue to provide the necessary care and treatment to servicemembers and their families. The vast majority of disabled troops will ultimately return to their home communities, which may be far removed from specialized centers. Therefore, the identification of local services is crucial to an appropriate rehabilitation plan and the Department of Veterans Affairs and military centers should coordinate with civilian centers to guarantee that optimal treatments and assistance are available throughout the country.

The Department is aware of gaps within TBI and psychological treatment methods that need to be addressed. The Department is expected to continue working with the Department of Veterans Affairs, Department of Health and Human Services, academia and industry to focus on the research and treatment necessary to address the gaps that have been identified.

An area of particular interest is the provision of appropriate and accessible counseling to servicemembers and their families who live in locations that are not close to military treatment facilities, other Military Health System health facilities or TRICARE providers. Web-based delivery of counseling has significant potential to offer counseling to personnel who otherwise might not be able to access it. Therefore, the Department is directed to establish and use a web-based Clinical Mental Health Services Program as a way to deliver critical clinical mental health services to servicemembers and their families in rural areas. Further, the Department is directed to report to the congressional defense committees on how they have incorporated a web-based program within the Defense Center of Excellence (DCoE) and its entities by March 16, 2009.

Funding provided in this bill is also to be used for the development and operation of the DCoE and the various centers, programs and initiatives that fall within its purview and resources to support the service medical departments as they continue to build and expand their TBI and psychological health capacity through initiatives and many supportive programs. Other initiatives, such as telehealth, clinical standards supporting TBI and psychological health, and training and education outreach should also be included.

Funding has also been provided to continue medical research and development on TBI and psychological health. The following research topics are recommended for consideration under this program: studies of mental health disorders and Post Traumatic Stress Disorder (PTSD) to include neuropsychiatric studies, biochemical mechanisms that underlie human emotional reactions to combat stress and resulting clinical disorders, metrics for mental health assessment and methods to evaluate and improve PTSD rehabilitation efforts; studies of Traumatic Brain Injury (TBI) including basic research on neural injury treatments, cell replacement and regrowth strategies, specific therapies to prevent and reverse spinal cord and other neuro-traumatic damage, pharmaceutical interventions to stimulate neural circuits, “activity-based” physical therapy, and extended rehabilitation focused on impairments in vision and cognitive functioning; clinical research of blast-related cell damage and the resulting effects on neurological response; 3D models of IED blast waves to develop equipment to mitigate injury to service members; a fully automated, self contained, disposable chip to diagnose TBI at the point of onset; DA-EEG assessment and MRI quantization to allow an accurate assessment of TBI; computational approaches to integrate global transcriptomics and proteomics information to identify the biological networks altered following TBI;

studies of PTSD and/or TBI including basic research in neurorehabilitation, the integration of informatics, and advanced computational research to analyze brain tissue and activities, the use of advanced neuroimaging, behavioral and genetic information to develop biomarkers, diagnostics, and treatments for semi-acute and chronic injury stages. Funding provided for research and development shall incorporate all aspects of research in the areas of TBI and psychological health by conducting basic science and translational research for the purposes of understanding the etiology and developing preventive interventions and new treatments and evaluating the outcomes to arrive at best-practice solutions. This requirement includes incorporating training, combat theater operations, and post deployment evidence-based preventive and early intervention measures, practices, or procedures to reduce the likelihood that personnel in combat will develop PTSD or other stress-related conditions or sustain traumatic brain injuries.

INCREASING THE AVAILABILITY AND ACCESS TO MENTAL HEALTH SERVICES

There is continued concern with the Department of Defense regarding mental health care for servicemembers returning from Operation Enduring Freedom and Operation Iraqi Freedom. Reports outlining gaps in coverage and poor access to care, especially in large rural and urban areas that support

a large population of returning servicemembers are troubling. In addition to the negative impact on servicemembers and their families, the failure to appropriately provide these services places a heavy financial and infrastructure burden on communities and local governments.

Therefore, the Department of Defense is directed to make funds available for projects and programs throughout the United States that (1) serve a high population of returning servicemembers; (2) encompass both large rural and urban areas; and (3) have an existing infrastructure that utilizes a combination of local mental health associations, community support networks, private sector mental health care provider networks, and universities for the purpose of enhancing the local access, delivery, education and outreach of mental health services for servicemembers and their families.

DIABETES RESEARCH

The growth of type I and type II diabetes in the United States, specifically the growing number of children, teens and young adults is of concern. The health care expenditures associated with treatment of this disease are drastically increasing. Without proper medical care, monitoring and patient education, diabetes results in health consequences and eventually

death. Nutrition, early detection, diagnosis and treatment are essential to alleviate this trend.

The bill provides \$15,500,000 for the Air Force Diabetes Program. Of the funds provided, \$4,000,000 shall be for type I diabetes and \$11,500,000 shall be for type II diabetes. Within the \$11,500,000 provided for type II diabetes, \$8,500,000 shall not be obligated until a new strategic plan, including a full estimate of the program by year has been submitted to and approved by the Air Force Surgeon General.

The Air Force Surgeon General is directed to review the Diabetes Program on a monthly basis to ensure that all goals and milestones are reached prior to obligation of funding provided in fiscal year 2009. Prior to obligating funds within the limitation specified above, the Air Force Surgeon General shall submit a report to the congressional defense committees which provides specific details for all funding provided for this program.

Finally, the Diabetes Program is directed to look at new and innovative ways such as metabolic research, physiology and holistic approaches that would be beneficial, while working in conjunction with the current program, to the military and civilian populations.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The bill provides \$16,000,000 for a peer-reviewed cancer research program that would research cancers not addressed in the breast, prostate and ovarian cancer research programs currently executed by the Department of Defense, and specifically the U.S. Army Medical Research and Materiel Command (USAMRMC).

The funds provided are directed to be used to conduct research in the following areas: \$4,000,000 for research of melanoma and other skin cancers as related to deployments of servicemembers to areas of high exposure; \$2,000,000 for research of pediatric brain tumors within the field of childhood cancer research; \$8,000,000 for genetic cancer research and its relation to exposure to the various environments that are unique to a military lifestyle; and \$2,000,000 for non-invasive cancer ablation research into non-invasive cancer treatment including selective targeting with nano-particles.

The funds provided under the Peer-Reviewed Cancer Research Program shall be used only for the purposes listed above. The Department of Defense is directed to provide a report by March 16, 2009, to the congressional defense committees on the status of this new Peer-Reviewed Cancer Research Program as to the relevance of this type of research for servicemembers and their families.

WARRIORS IN TRANSITION

Fiscal year 2008 has proven that the military's system for housing, treating, transitioning and integrating soldiers after injury is extremely challenged. The problems occurred on many levels from failed infrastructure, rehabilitative care, and administrative process, to policy incongruities between the Department of Defense and the services. Warriors in transition are defined as soldiers that meet the qualifications for medical hold, medical holdover or active duty medical extension, and active component soldiers who require a medical evaluation board or have medical needs requiring more than six months of treatment.

It is perplexing that this situation continues despite all of the effort expended to prevent it. Therefore, the bill provides an additional \$240,000,000 to the \$319,000,000 within Base Operations for facilities sustainment, restoration and modernization for the Army, Navy and Air Force, to continue improving the facilities that care for our servicemembers and their families.

The Secretary of Defense is directed to report to the congressional defense committees by March 16, 2009, on how the Department is executing the funding provided and that the funding is being used for the highest priorities as submitted by the services. Additional resources have been

provided to the services in the past and the Department must make adjustments to budget submissions to reflect these requirements of the Military Health System.

The above issues, coupled with the increasing number of soldiers entering the disability process, have adversely affected the capability to timely meet the needs of both the soldiers and the services. The process of warrior transition will continued to be followed and the Secretary of Defense is directed to report quarterly to the congressional defense committees on the status of warrior transition improvements and requirements.

VISION RESEARCH

The Department of the Army is continually assessing new technologies and therapies to address the ocular issues of servicemembers. Current research targets the causes, effects, and treatment of eye damage and diseases that, despite their different mechanisms and pathogenesis, all have a common end result: degeneration of the critical components of the eye and impairment or loss of vision. In order to implement therapeutic strategies to prevent or treat visual problems common to combat soldiers, the Army needs to develop and validate compounds and strategies. Therefore, the bill provides \$4,000,000 for vision research and directs the Army to target the

various causes, effects and treatment of visual injury resulting from exposures to the elements during combat operations, and damage from explosive devices. This type of research will ultimately be used to ensure and sustain combat readiness.

PEER-REVIEWED LUNG CANCER RESEARCH

The bill includes \$20,000,000 for lung cancer research. Lung cancer is the most lethal of all cancers taking more lives each year than all the other major cancers combined. Furthermore, the five-year survival rate for lung cancer remains 15 percent and a major challenge is that 70 percent of the diagnoses are late stage. Military personnel have heightened exposure to lung cancer carcinogens. These funds shall be for competitive research and the establishment of a tissue bank. Priority shall be given to the development of the integrated components to identify, treat and manage early curable lung cancer. The Army is expected to provide a plan for these funds and to include Walter Reed Army Medical Center in the formulation of this plan. The plan shall be submitted to the congressional defense committees 120 days after enactment of this Act.

SPINAL CORD INJURY MEDICAL RESEARCH AND TREATMENT

Spinal cord injuries are one of the many serious wounds resulting from conflicts in Iraq and Afghanistan that require many levels of research and treatment. Significant funding has been provided for research and treatment for neuro-traumatic wounds. However, given the complexity of these types of injuries and the steep learning curve associated with establishing effective treatment regimes, there is much more to be done.

For the coming years, research into regenerating damaged spinal cords and improving rehabilitation therapies offers real promise for enhancing the long-term care of wounded soldiers. The bill provides \$35,000,000 to establish a competitive, peer-reviewed spinal cord injury research and treatment program. The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 120 days after enactment of this Act that describes the criteria to be used to determine how these funds are to be allocated.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The bill provides \$50,000,000 for a Peer-Reviewed Medical Research Program. The Secretary of Defense is directed, in conjunction with the Service Surgeons General, to select medical research projects of clear scientific merit and direct relevance to military health. Research areas

considered under this funding are restricted to: Alcoholism, Autoimmune Diseases, Blood Cancer, Childhood Asthma, Drug Abuse, Epilepsy, Kidney Cancer, Listeria Vaccine for infectious disease and cancer, Lupus, Mesothelioma, Molecular Signatures in Tumors, Neuroblastoma, Osteoporosis and related bone disease, Paget's Disease, Pediatric Cancer, Polycystic Kidney Disease, Social Work Research, Tinnitus, and West Nile Virus Vaccine. Additional funding provided under the Peer-Reviewed Medical Research Program shall be devoted only to the purposes listed above.

U.S. ARMY MEDICAL RESEARCH INSTITUTE FOR INFECTIOUS DISEASES

() [USAMRIID] e ()

The community remains concerned over the Army's planned

expansion of bio-safety level 3 and 4 laboratories at the U.S. Army Medical

() Research Institute for Infectious Diseases, [USAMRIID] e ()

Maryland. Though the Army has completed the National Environmental

Policy Act process to assess the impact of the expansion on the environment,

significant concerns continue to exist in the local community as to whether

the assessments of potential health and safety risks and the strategies to

mitigate those risks are sufficient. The Secretary of the Defense is directed

to enter into an arrangement with the National Academy of Sciences under which the Academy shall carry out a study to evaluate the analyses of health and safety risks to the surrounding community conducted as part of National Environmental Policy Act process for the planned expansion of bio-safety level 3 and level 4 labs of the USAMRIID, to be completed no later than March 1, 2010. The Academy shall submit to the congressional defense committees a report on the study at the same time that such report is submitted to the Secretary of the Defense.

TRI-SERVICE NURSING RESEARCH PROGRAM

The bill includes \$6,400,000 to continue the Tri-Service Nursing Research Program. The Department of Defense is urged to include this program in future budget requests. This program provides funding for peer-reviewed research studies conducted by active duty and reserve military nurses on topics of military nursing that might not be competitive in other funding venues. This program is an essential tool for the retention of our military nurses. The Assistant Secretary of Defense for Health Affairs, in conjunction with the Service Surgeons General and the Nursing Corps Chiefs are directed to provide a report to the congressional defense committees, by April 25, 2009, that details the number and topic areas of

research proposals submitted and funded and a detailed accounting of the entire program, including administrative costs, overhead and travel.

CENTERS OF EXCELLENCE AT WRAMC/WRNMMC

This bill includes \$40,000,000 for the following Centers of Excellence at the current Walter Reed Army Medical Center: Breast Care, Gynecologic, Prostate, Pain and Neuroscience, and Integrated Cardiac Health (Wellness). These Centers are in the forefront in the advancement of modern medical care.

It is encouraging that the Department has recognized the importance of these Centers to the welfare of our servicemembers and their families and has included them in the construction plans for the new Walter Reed National Military Medical Center.

Therefore, the Secretary of Defense is directed to include funding for these centers beginning with the fiscal year 2010 budget submission.

LIFE-PRESERVING BLOOD TECHNOLOGIES

There are blood technologies that hold great promise to increase survival rates of our wounded military and improve standard of care. The Assistant Secretary of Defense for Health Affairs, in consultation with the

Service Surgeons General, is directed to submit a report to the congressional defense committees no later than March 30, 2009, that provides an assessment of the feasibility and advisability of accelerating research, development, and fielding of blood technologies that will improve the capacity to save lives of members of the Armed Forces receiving combat medical care. The technologies to be addressed by the report shall include, but not be limited to, extended life red blood cells, cryogenic storage of white blood cells, cryo-preserved platelets, hemoglobin-based oxygen carriers, and freeze dried plasma.

COHORT/ACIMS

The COHORT/ACIMS project has the potential to benefit future systems integration within the Military Health System and its connectivity with the Veterans Administration. Continuation and integration of this innovative and timely technology should be made a priority by the Chief Information Officers of the Air Force Surgeon Generals Office and Health Affairs. The Department of Defense is urged to provide the necessary resources to continue this valuable development effort.

MEDICAL CARE IN THE NATIONAL CAPITAL REGION

The construction of “world class” hospitals at both the new Walter Reed National Military Medical Center and Fort Belvoir is a necessity. Servicemembers and their families deserve nothing less. However, there is concern that this is not going to occur under the current approach of the Department of Defense. For example, the high degree of concurrency within the program and the total lack of adequate planning and design have resulted in an increased cost of the new Walter Reed National Military Medical Center from the estimate of \$201,000,000 in May 2005 to \$940,000,000 in early calendar year 2008. Even with these increases the Department of Defense has not included funding for eight items at the new Walter Reed National Military Medical Center, not the least of which are the Warrior Clinic, Warrior in Transition housing, enlisted housing, and parking. Furthermore, the Department of Defense and the community have yet to solve how ingress and egress will be affected to support a facility for which the daily population of patients and staff will increase by over 4,000 individuals.

The number of patient visits per year for the three existing hospitals is currently in excess of 1,500,000. The transition to two new facilities will be a daunting challenge under the best of circumstances. The Secretary of Defense is directed to provide a thorough and detailed milestone schedule

which outlines projected construction completion, move out of the facilities, and transition of staff personnel as well as the care for service members and their families to the congressional defense committees within 120 days of enactment of this Act.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

For Chemical Agents and Munitions Destruction, Defense, funds are to be available for fiscal year 2009, as follows:

SOUTHCOM FUNDING

Funding for numerous systems and activities is shared between SOUTHCOM's operation and maintenance budget and the Department of Defense counternarcotics budget. The Command Management System is one notable example where the division of responsibility is unclear. The Department is urged to reevaluate the methodology SOUTHCOM uses to determine which portion of these systems and activities should be funded through its normal operating budget and which should be funded through counternarcotics funding streams. This evaluation will ensure that SOUTHCOM is taking financial responsibility for its baseline programs similar to other Combatant Commanders which do not have the large counternarcotics funding streams.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

The bill does not provide funding for the Joint Improvised Explosive Device Defeat Organization. The request of \$496,300,000 was addressed in the previously enacted fiscal year 2009 supplemental appropriations.

Additional requirements will be addressed in subsequent supplemental appropriations for fiscal year 2009.

419-420

TERRORIST EXPLOSIVE DEVICE ANALYTICAL CENTER

The Joint IED Defeat Organization (JIEDDO) is to be commended on its work with the Federal Bureau of Investigation's Terrorist Explosive Device Analytical Center (TEDAC) to provide a unified partnership between law enforcement, intelligence, and the U.S. military to technically and forensically exploit IEDs. This relationship is yielding actionable intelligence that contributes to offensive anti-terror missions and to the force protection of the United States and coalition assets around the globe. The JIEDDO is encouraged to maintain and cultivate this relationship in the future.

OFFICE OF THE INSPECTOR GENERAL

For the Office of the Inspector General, \$271,845,000 is provided for

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a separate detailed and comprehensive classified annex. The Intelligence Community, Department of Defense and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2009.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For the Central Intelligence Agency Retirement and Disability Fund, \$279,200,000 is provided for fiscal year 2009.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT (INCLUDING TRANSFER OF FUNDS)

For the Intelligence Community Management Account, \$710,042,000 is provided for fiscal year 2009, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

19,500

44,000

TOTAL, ICMA

685,042

710,042

The bill provides for a transfer of \$44,000,000 to the Department of Justice for the National Drug Intelligence Center to support the Department of Defense's counter-drug intelligence responsibilities, of which \$2,000,000 is for reimbursement for Air Force personnel.

INTELLIGENCE COMMUNITY HIGHLY QUALIFIED EMPLOYEE (HQE)

AUTHORITY

Within 30 days of the enactment of this Act, the Director of National Intelligence is directed to implement the highly-qualified-employee, "HQE" authority throughout the Intelligence Community. The Department of Defense first successfully used this authority to hire a business systems expert to help the Secretary of Defense work toward a clean financial audit opinion on annually appropriated defense funds. The Director of National Intelligence is directed to follow precedence in fiscal year 2009 and use this hiring authority to supplement the Business Transformation Office with at least seven private sector business systems experts. Taking this step will assist the Intelligence Community in implementing tools and techniques

which will improve the National Intelligence Program and the Military Intelligence Program business processes and overall financial management.

INTELLIGENCE COMMUNITY FACILITIES/REAL ESTATE MANAGEMENT

The Director of National Intelligence is directed to develop a coordinated strategy and subsequent Community- wide policy for meeting its future validated infrastructure needs. Further, the Director of National Intelligence is directed to provide the congressional intelligence committees with an Intelligence Community Facilities Management Strategy and a Facilities Condition Index for all Intelligence Community buildings over 20,000 square feet within 180 days of enactment of this Act. Finally, future Intelligence Community infrastructure requests should include a greater influence of “green” or sustainable building practices. The American people expect the Community to be a leader when it comes to cutting edge technologies, and embracing ideas such as “green” buildings should be prominent in all future infrastructure strategy documents.

INTELLIGENCE COMMUNITY CHIEF HUMAN CAPITAL OFFICER

The Intelligence Community Civilian Joint Duty Program has the potential to break down barriers to information sharing and collaboration,

transform the culture of the Intelligence Community, and help the Community achieve its strategic goals. All Intelligence Community elements are directed to participate fully in the program and the Community's senior leadership is expected to support the program, encourage their employees to take rotational assignments, and break down any bureaucratic barriers to the smooth implementation of the program as required by law. Further, that the Intelligence Community has studied other pay-for-performance efforts, both within the Community and the rest of government is encouraging. The executive branch started implementing this effort on September 14, 2008, and therefore the Intelligence Community is directed to ensure that full implementation of the system follows the principles of merit, transparency and fairness in a manner which is deliberate and methodical. Finally, semi-annual updates are expected to be provided to the Committees on Appropriations beginning within 30 days of the enactment of this Act.

CONTROLLED ACCESS PROGRAMS

The Director of National Intelligence shall provide notification of the establishment of National Intelligence Program-funded Controlled Access Programs to the congressional intelligence committees.

NATIONAL DRUG INTELLIGENCE CENTER

The National Drug Intelligence Center's mission includes providing strategic domestic intelligence, supporting the intelligence community's counterdrug efforts and document exploitation. The National Drug Intelligence Center has already been tasked to produce a drug threat assessment which examines the illicit drug trade in Iraq and the threat it poses to United States interests. The National Drug Intelligence Center's document exploitation capability is already recognized throughout the law enforcement community as an invaluable aid to advancing the investigation and prosecution of drug traffickers, money launderers, or any criminal intent on attacking the national security interests of the United States. The Director of National Intelligence is directed to assess the National Drug Intelligence Center's capabilities and report to the congressional intelligence committees on those capabilities within 180 days of enactment of this Act.

TITLE VIII – GENERAL PROVISIONS

The bill includes the following general provisions. A description of each provision follows.

Language is included that provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Language is included that provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Language is included that provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless a greater period of availability is provided elsewhere in the Act.

Language is included that provides a 20 percent limitation on the obligation of funds provided in this Act during the last two months of the fiscal year.

Language is included that provides for the general transfer authority of working capital funds to other military functions.

Language is included specifying that adjustments to programs, projects, and activities included in the “Explanation of Project Level Adjustments” that are increases above the budget are incorporated into law.

Transfers within an appropriation account, among programs, projects and activities do not require general transfer authority as stipulated in Section 8005 of the accompanying Act. However, such transfers are subject to normal prior approval reprogramming procedures if such transfers exceed thresholds described elsewhere in this statement. Transfers between appropriation accounts are subject to the provisions of Section 8005 of the accompanying Act, and are also subject to prior congressional approval.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for fiscal year 2009.

Language is included that provides for upgrades to Air Force Ranges in Alaska.

Language is included that provides for limitations on the use and transfer authority of working capital fund cash balances.

Language is included that provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Language is included that provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts.

Language is included that provides for the use and obligation of funds for humanitarian and civic assistance costs under Chapter 20 of title 10, United States Code.

Language is included that provides that civilian personnel of the Department may not be managed on the basis of end strength or be subject to end strength limitations.

Language is included that prohibits funds made available in this Act from being used to influence congressional action on any matters pending before the Congress.

Language is included that prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Department of Defense Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Language is included that restrict studies and public private competitions regarding converting any activity or function performed by civilian employees of the Department of Defense to contractor performance with certain exceptions.

Language is included that provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Language is included that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Language is included that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

Language is included that provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Language is included that provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Language is included that provides that no funds made available in this Act for the Defense Media Activity may be used for national or international, political or psychological activities.

Language is included that restricts funds from being used to perform cost studies under OMB Circular A-76.

Language is included that provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code.

Language is included that makes funds available for the Civil Air Patrol Corporation.

Language is included that provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers (FFRDC).

Language is included that provides for the Department of Defense to procure carbon, alloy or armor steel plate melted and rolled only in the United States and Canada.

Language is included that defines the congressional defense committees as being the Armed Services Committees and the Subcommittees on Defense of the Committees on Appropriations of the House of Representatives and Senate.

Language is included that provides for competitions between private firms and Department of Defense Depot Maintenance Activities.

Language is included that provides for revocation of blanket waivers of the Buy American Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Language is included that provides for the availability of funds for purposes specified in section 2921(c)(2) of the 1991 National Defense Authorization Act, namely facility maintenance and repair and environmental restoration at military installations in the United States.

Language is included that provides for the conveyance, without consideration, of relocatable housing units located at Grand Forks and Minot Air Force Bases to Indian Tribes located in North and South Dakota, Montana, and Minnesota.

Language is included that provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Language is included that prohibits the use of Working Capital Funds to purchase specified investment items.

Language is included that provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or certain other programs authorized under section 503 of the National Security Act.

Language is included that provides that funds available for the Defense Intelligence Agency may be used for intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

Language is included that provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Language is included that provides for the Department of Defense to comply with the Buy American Act (title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes").

Language is included that provides conditions under which contracts for studies, analyses or consulting services may be entered into without competition on the basis of an unsolicited proposal.

Language is included that provides for the limitations of funds made available in this Act to establish Field Operating Agencies.

Language is included that provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment.

(Rescissions)

Language is included that provides for the rescission of \$1,320,473,000 from the following programs:

2008 Appropriations:

Aircraft Procurement, Army:

Armed Reconnaissance Helicopter..... 174,600,000

Procurement of Ammunition, Army:

Signals..... 69,200,000

Shipbuilding and Conversion, Navy:

Littoral Combat Ship..... 337,000,000

Research, Development, Test and Evaluation, Army:

MILSATCOM Ground Environment (Space) 49,800,000

| | |
|---|-------------|
| Research, Development, Test and Evaluation, Air Force: | |
| Classified Programs..... | 50,000,000 |

| Tanker Replacement..... | 72,000,000 |
| Electronic Warfare Development-MALD Schedule Delay | 14,500,000 |
| Research, Development, Test and Evaluation, Defense-Wide: | |
| DARPA..... | 150,000,000 |
| Tanker Replacement Transfer Fund..... | 239,800,000 |

Language is included that prohibits funds made available in this Act from being used to reduce authorized positions for military (civilian) technicians of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Language is included that provides that none of the funds made available in this Act may be obligated or expended for assistance to the Democratic People’s Republic of Korea unless appropriated for that purpose.

Language is included that provides for reimbursement to the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies and Joint Intelligence Activities.

Language is included that prohibits funds made available in this Act from being used to reduce civilian medical and medical support personnel

assigned to military treatment facilities below the September 30, 2003, level unless the Service Surgeons General certify to the congressional defense committees that it is a responsible stewardship of resources to do so.

Language is included that provides that Defense and Central Intelligence Agencies' drug interdiction and counter-drug activity funds may not be transferred to other agencies unless specifically provided in an appropriations law.

Language is included that prohibits the use of funds appropriated by this Act for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Language is included that provides for the Department of Defense to purchase supercomputers manufactured only in the United States.

Language is included that prohibits the use of funds made available in this or any other Act to transfer administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without expressed authorization of the Congress.

Language is included that provides for prior congressional notification of article transfers to international peacekeeping organizations.

Language is included that prohibits the use of funds made available in this Act for contractor bonuses from being paid due to business restructuring.

Language is included that provides for the transfer of funds to be used to support personnel supporting approved non-traditional defense activities.

Language is included that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Language is included that provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Language is included that provides for the availability of funds provided by this Act to implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community, Germany.

Language is included that provides for the limitation on the use of funds appropriated in Title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Language is included that provides in perpetuity for the use of funds made available in this Act for the transportation of relief supplies to American Samoa and the Indian Health Service.

Language is included that prohibits the use of funds made available in this Act from being used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government.

Language is included that provides for a waiver of the “Buy America” provisions for certain cooperative programs.

Language is included that prohibits the use of funds made available in this Act to support the training of members of foreign security forces who have engaged in gross violations of human rights.

Language is included that provides for the Department to develop, lease or procure T-AKE class ships with main propulsion engines and propulsors manufactured only in the United States by a domestically operated entity.

Language is included that prohibits the use of funds made available in this Act for repairs or maintenance to military family housing units.

Language is included that provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Language is included that provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Language is included that prohibits the use of funds made available to the Department of Defense to provide support to an agency that is more than 90 days in arrears in making payments to the Department of Defense for goods or services provided on a reimbursable basis.

Language is included that provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Language is included that prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as “armor piercing” except for demilitarization purposes.

Language is included that provides for a waiver by the Chief, National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Language is included that prohibits funds made available in this Act from being used to purchase alcoholic beverages.

Language is included that provides for the use of funds made available to the Department of Defense for the Global Positioning System.

Language is included that provides for the transfer of funds made available in this Act under “Operation and Maintenance, Army” to other activities of the Federal Government for classified purposes.

Language is included that provides for the forced matching of disbursement and obligations made by the Department of Defense in fiscal year 2009.

Language is included that provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Language is included that provides the Secretary of Defense, in coordination with the Secretary of Health and Human Services, the authority to distribute surplus dental and medical equipment to Indian Health Service facilities and to federally-qualified health centers.

Language is included that provides funding and transfer authority for the Arrow Missile Defense Program.

Language is included that provides for the transfer of funds to properly complete prior year shipbuilding programs.

Language is included that none of the funds available to the Department of Defense may be obligated to modify command and control

relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific Fleet.

Language is included that provides for the noncompetitive appointments of certain medical occupational specialties, as prescribed by section 7403(g) of Title 38, United States Code.

Language is included that provides that funds made available in this Act are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947.

Language is included that prohibits the use of funds made available in this Act to initiate a new start program without prior written notification.

Language is included that provides authority for the Secretary of the Army to make a grant only to the Center for Military Recruitment, Assessment and Veterans Employment.

Language is included that provides funds for public schools with unusually high concentrations of special needs military dependents.

Language is included which provides the Secretary of Defense the authority to make grants in the amounts specified.

Language is included that directs the financing, development and fielding of the Non-Line-of-Sight Cannon, including the delivery of pre-production prototypes.

Language is included that provides that the budget request for fiscal year 2010 shall include separate budget justification documents for costs of the United States Armed Forces' participation in ~~Operation Iraqi Freedom~~^{contingency operations} ~~(OIF)~~ and Operation Enduring Freedom (OEF) for Military Personnel, ~~O~~peration and ~~M~~aintenance, and ~~P~~rocurement accounts.

Language is included that prohibits funds made available in this Act from being used for the research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

Language is included that permits Operation and Maintenance, Navy funds to be used to repair, maintain and operate flood control systems adjacent to the Pacific Missile Range Facility.

Language is included that prohibits funds made available in this Act from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Language is included that prohibits funds made available in this Act from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Language is included that provides that at the time members of Reserve components of the Armed Forces are called or ordered to active duty, each member shall be notified in writing of the expected period during which the member will be mobilized.

Language is included that provides that the Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation to liquidate costs caused by rate adjustments or other economic factors.

Language is included that provides for the use of current and expired Shipbuilding and Conversion, Navy subdivisions to reimburse the Judgment Fund.

Language is included that prohibits transfer of program authorities relating to current tactical unmanned aerial vehicles (TUAV) from the Army.

Language is included that provides in perpetuity limitations for the reimbursement of any health care provider for inpatient mental health services.

Language is included that provides authorities to the Joint Interagency Training and Education Center, for homeland defense/security and traditional warfighting training.

Language is included that provides authority to the Secretary of Defense to adjust wage rates for civilian employees hired for certain health care occupations.

Language is included that provides permanent authority to conduct a continuing cooperative program in the proviso in title II of Public Law 102-368 under the heading "Research Development, Test and Evaluation, Defense Agencies".

Language is included that provides the U. S. Pacific Command the authority to obligate funds for humanitarian and security assistance within the theater of operation.

Language is included that has been added and limits the obligation authority of funds provided for the Director of National Intelligence to the current fiscal year except for research and technology which shall remain available for the current and the following fiscal years.

Language is included to adjust the budget by Congressional Budget Office inflation indices.

Language is included that provides for the adjustment of obligations within the Shipbuilding and Conversion, Navy appropriation.

Language is included that provides that not more than 35 percent of the funds made available in this Act for environmental remediation may be

obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

Language is included that provides for the creation of a major force program category for space for the Future Year Defense Program of the Department of Defense.

Language is included that prohibits award fees to any defense contractor contrary to the provisions of section 814 of the National Defense Authorization Act, Fiscal Year 2007 (Public Law 109-364).

Language is included that prohibits the use of funds made available in this Act to establish any permanent military installation or base in Iraq.

Language is included that requires the Intelligence Community to submit certain budget exhibits, as described in the Department of Defense Financial Management Regulation, for procurement and research, development, test and evaluation programs.

Language is included that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Language is included that provides limitations on the use of funds made available in this Act to pay negotiated indirect cost rates on

agreements or arrangements between the Department of Defense and nonprofit institutions.

Language is included that directs the Secretary of Defense to maintain on the Department of Defense website a link to Office of the Inspector General of the Department of Defense.

Language is included that prohibits transfers of funds until the Director of National Intelligence submits a baseline for application of reprogramming and transfer authorities.

Language is included that directs the Director of National Intelligence to provide a future-years intelligence program with the President's budget submission to Congress.

Language is included that defines congressional intelligence committees.

Language is included that directs that the Department continue to report incremental contingency operations costs for Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF) on a monthly basis in the Cost of War Execution Report as required by Department of Defense Financial Management Regulation.

Language is included that provides for a transfer of lands, easements, Air Installation Compatible Use Zones, and facilities at NASJRB Willow Grove.

Language is included that provides for stop loss special pay.

Language is included that extends the statute of limitations during wartime.

Language is included that provides for incentives of downblending of highly enriched uranium by the Russian Federation.

Language is included that provides for a reduction of excess cash balances in the Department of Defense Working Capital Funds.

DIVISION D — DEPARTMENT OF HOMELAND SECURITY
APPROPRIATIONS ACT, 2009

The following is an explanation of the effects of Division D, which makes appropriations for the Department of Homeland Security for fiscal year 2009. As provided in section 4 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this division as if it were a joint explanatory statement of a committee of conference. The language and allocations contained in House Report 110-862 and Senate Report 110-396 should be complied with unless specifically addressed to the contrary in the bill or this explanatory statement. When this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Homeland Security and the Senate Subcommittee on Homeland Security.

While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the bill or explanatory statement, the Committees have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly.

In cases where the House or Senate report directs the submission of a report, a briefing shall be provided by January 30, 2009 in lieu thereof unless this statement directs otherwise. If this statement directs the submission of a report, such report shall be provided to the Committees on Appropriations by April 6, 2009 unless otherwise directed.

Last, this explanatory statement refers to the following laws and organizations as follows: Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, is referenced as the 9/11 Act; Security And Accountability For Every Port Act of 2006, Public Law 109-347, is referenced as the SAFE Port Act; the Intelligence Reform and Terrorism Prevention Act of 2004, Public Law 108-458, is referenced as the Intelligence Reform Act; the Department of Homeland Security is referenced as DHS; the Government Accountability Office is referenced as GAO; and the Office of Inspector General of the Department of Homeland Security is referenced as OIG.

CLASSIFIED PROGRAMS

Recommended adjustments to classified programs are addressed in a classified annex accompanying this explanatory statement.

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

The bill provides \$123,456,000 for the Office of the Secretary and Executive Management. Reductions are made to the budget request due to a large number of vacancies and unobligated balances within certain offices. Funding shall be allocated as follows:

| | |
|---|---------------|
| Immediate Office of the Secretary | \$3,140,000 |
| Immediate Office of the Deputy Secretary | 1,400,000 |
| Chief of Staff | 2,693,000 |
| Office of Counternarcotics Enforcement | 3,718,000 |
| Executive Secretary | 7,448,000 |
| Office of Policy | 43,263,000 |
| Office of Public Affairs | 5,991,000 |
| Office of Legislative and Intergovernmental Affairs | 4,997,000 |
| Office of General Counsel | 20,114,000 |
| Office of Civil Rights and Liberties | 17,417,000 |
| Citizenship and Immigration Services Ombudsman | 6,471,000 |
| Privacy Officer | 6,804,000 |
| Total | \$123,456,000 |

Civil

Office of Counternarcotics Enforcement

The bill provides \$3,718,000 for the Office of Counternarcotics Enforcement. The Office of Counternarcotics Enforcement is directed to submit a report to the Committees as outlined in the Senate report. The Office is expected to discontinue its practice of relying on contractors to meet its congressional reporting requirements.

Office of Policy

The bill provides \$43,263,000 for the Office of Policy. Within this amount, \$500,000 has been provided above the budget request to review visa waiver requests to ensure they meet statutory and security criteria. The Office of Policy is directed to submit an expenditure plan to the Committees within 60 days from the date of enactment of this Act as detailed in the Senate report.

As discussed in the House report, the Office of Policy shall brief the Committees on the status of implementing a plan to coordinate all DHS screening and credentialing activities to create a consistent, security risk-based framework; eliminate redundant activities; more effectively use information provided; and improve the experience for individuals applying for these credentials.

The Office of Policy is directed to provide quarterly briefings to the Committees on the status of the Western Hemisphere Travel Initiative beginning not later than 30 days after the date of enactment of this Act, as outlined in the Senate report.

Office of Public Affairs

The bill provides \$5,991,000 for the Office of Public Affairs and transfers funding for the Ready campaign to the Federal Emergency Management Agency (FEMA). FEMA is better positioned to educate the public on how to prepare for and respond to potential emergencies.

Office of General Counsel

The bill provides \$20,114,000 for the Office of General Counsel. Consistent with fiscal year 2008 language, the Office of General Counsel is urged to consider whether it would be more productive to transfer to specific DHS components the legal staff responsible for the ongoing work of those components, while maintaining the affiliation of these staff with the Office of General Counsel. This mechanism may expedite necessary legal reviews because legal staff will specialize in certain areas.

Energy Shortfalls

While the bill fully funds the Department's budget requests for energy costs, fuel prices have skyrocketed since those requests were submitted. For example, the Coast Guard and U.S. Customs and Border Protection currently estimate additional fiscal year 2009 fuel costs of approximately \$90,000,000 and \$40,000,000 above the budget requests, respectively. Department-wide, the current estimate for an increase in energy costs is estimated at almost \$140,000,000. However, despite full acknowledgment of these shortfalls, the President has failed to submit any formal amendment to the fiscal year 2009 budget request. Consequently, DHS will be forced to find savings within its base appropriations to cover these costs, with potentially severe consequences for other ongoing activities. The failure to address such known shortfalls in operational needs in the context of an official budget request is an abdication of the President's budgetary responsibilities. The Secretary is directed to submit a plan by December 1, 2008, that includes estimates of the energy costs for all DHS component agencies in fiscal year 2009 and identifies how these shortfalls will be addressed.

DHS-GAO Relations

The Department's July 2008 guidance on interactions with the GAO does not "significantly streamline" the review process for document and interview requests as required by Public Law 110-161. The DHS guidance limits GAO's direct access to program officials and requested documentation and instead provides for centralized control and review by DHS liaisons and attorneys. The Department shall submit to the Committees and GAO, on a quarterly basis, a report itemizing all instances where DHS did not provide information to GAO within 20 days or did not arrange for interviews within 7 days, including the reasons for not meeting these timeframes. With respect to such quarterly reports, GAO shall provide the Committees its assessment of the validity of the DHS data and analysis. The Department shall provide these reports within 15 days of the end of each quarter, and GAO shall review the reports within 30 days of receiving *seven*

them. The bill withholds \$15,000,000 from obligation until the Secretary submits the second quarterly report.

Distribution of Grant Awards

The bill withholds \$10,000,000 from obligation until the Secretary of Homeland Security, in coordination with the Administrator of FEMA, certifies and reports to the Committees that certain conditions regarding the process to incorporate stakeholder input for grant guidance development and award distribution have been met. DHS and FEMA are expected to ensure that these grants are made in a timely fashion so that known risks can be addressed expeditiously.

Greenhouse Gas Emissions

By September 30, 2009, the Secretary shall provide to Congress a detailed inventory of DHS's greenhouse gas emissions and a plan to reduce these emissions.

Budget Justifications

The congressional budget justifications for the Office of the Secretary and Executive Management for fiscal year 2010 shall include the same level of detail as the table contained at the end of this ~~report~~. All funding and staffing changes for each office must be highlighted and explained and this detail shall include separate discussions for personnel, compensation and benefits; travel; training; and other services. The number of permanent positions and full-time equivalents (FTE) identified in the congressional budget justification should tie to available and requested resources. Finally, all proposals to move programs and funding from one office to another should be clearly outlined in the congressional budget justification.

statement

Working Capital Fund

DHS shall provide a separate fiscal year 2010 budget justification for the Department's working capital fund (WCF) that includes each activity, basis for pricing, FTEs, and an explanation of how DHS is allocating funds in fiscal years 2009 and 2010 to each component. Bill language providing new authority and requirements for the WCF is detailed in Title V of this explanatory statement. All cross-cutting initiatives shall be included within the WCF, unless the omission can be fully justified and explained.

The fiscal year 2008 WCF charges were altered nine months into the fiscal year, causing component agencies to delay expenditures or reprogram funds to cover these unanticipated charges. DHS must notify the Committees more promptly of any additions, deletions, or changes that are made to the WCF during the fiscal year that are subject to section 503 of this Act. DHS should not fund any activities within the WCF that have been disapproved previously.

DHS is in the process of studying the authority, structure, governance, organization, business practices, and management of the WCF. DHS shall provide the Committees with a copy of this study when it is complete and shall address any recommendations regarding cost allocation and billing consistency as part of the fiscal year 2010 budget request.

Quarterly Detailee Reports

DHS shall continue to provide quarterly detailee reports, as required in the Senate report.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

The bill provides \$191,793,000 for the Office of the Under Secretary for Management. Funding shall be allocated as follows:

| | |
|---|------------------|
| Under Secretary for Management | \$2,654,000 |
| Office of Security | 60,882,000 |
| Office of the Chief Procurement Officer | 39,003,000 |
| Office of the Chief Human Capital Officer..... | 28,827,000 |
| Human Resources | 10,000,000 |
| Office of the Chief Administrative Officer..... | 44,427,000 |
| Nebraska Avenue Complex Facilities | <u>6,000,000</u> |
| Total | \$191,793,000 |

Office of the Chief Procurement Officer

The bill provides \$39,003,000 for the Office of the Chief Procurement Officer (OCPO). In the past, funding has been repeatedly increased to hire additional procurement specialists, yet the Office has been slow in filling these positions. As a result, the Committees are dissatisfied with the amount of time it takes the Office of Procurement Operations to review and approve contracts for component agencies and act on procurement recommendations. For fiscal year 2009, DHS shall conduct a two year pilot with the Science and Technology (S&T) Directorate to determine whether assigning more procurement responsibility to S&T will result in more efficient procurements. Under the pilot, S&T will hire its own contracting officers responsible for making procurement recommendations and meeting performance metrics, while the DHS Office of the Chief Procurement Officer will conduct appropriate reviews to ensure that procurement actions are aligned with DHS policies and procedures. The OCPO, in conjunction with S&T, shall brief the Committees on the implementation plan for this pilot within 30 days after the date of enactment of this Act; on the progress of the pilot within six months of enactment; and on the results of the pilot after its completion.

As discussed in the House report, OCPO should identify more opportunities for minority and small business enterprises.

DHS appears to be overly reliant on contractors, as discussed in the Senate report. DHS should consider replacing contractors with full-time government employees and brief the Committees on the directives included in the Senate report no later than March 30, 2009.

Due to the Coast Guard's failure to adequately oversee the Deepwater program, the Secretary shall rescind the delegation of acquisition authority provided to the Coast Guard for Deepwater in order to keep oversight within the OCPO, as recommended by GAO.

Investment Review Process

The Department's Investment Review Board (IRB), established to ensure centralized, robust oversight across large-scale investments, is not performing satisfactorily. It is unclear which investments the IRB will review, how it intends to oversee decisions on large procurements, how its decisions will be monitored, and how necessary follow-up action will be taken. The IRB may only be able to focus on a limited number of critical procurements while DHS attempts to get the investment review process on-track. With this in mind, the Deputy Secretary shall ensure that the IRB reviews and oversees the top 15 DHS investments, measured either by total cost, criticality of the item or service being procured, and/or other means determined by DHS. Within 45 days after the date of enactment of this Act, the Deputy Secretary shall identify and submit to the Committees a list of the investments to be reviewed and a description of the formal investment review processes the IRB will follow.

Office of the Chief Human Capital Officer

The bill provides \$38,827,000 for the Office of the Chief Human Capital Officer. Within the total appropriated is \$10,000,000 for human resources and \$2,500,000 for new learning initiatives. Funding has been reduced due to high unobligated balances in this office. Due to numerous delays in the hiring process administered by this Office, the Chief Human Capital Officer shall provide monthly reports on the amount of time it takes to fill vacancies within DHS, as outlined in the House report.

Office of the Chief Administrative Officer

The bill provides \$50,427,000 for the Office of the Chief Administrative Officer (CAO). Of this total, \$44,427,000 is for the salaries and expenses of the CAO and \$6,000,000 is for facilities costs at the Nebraska Avenue Complex (NAC). This funding level supports 11 additional FTEs to manage the consolidation of DHS components on the St. Elizabeths west campus. Funding for the first phase of the proposed consolidation of DHS headquarters at the St. Elizabeths campus is included within the Coast Guard's "Acquisition, Construction, and Improvements" appropriation.

Since a significant portion of departmental offices are scheduled to move to St. Elizabeths by 2016, with the first moves beginning in 2013, the CAO shall minimize investments and improvements made at the NAC that would need to be replicated at the new headquarters. The CAO is directed to provide semiannual briefings on anticipated spending at the NAC, the first of which shall occur 60 days after enactment of this Act.

the date of

OFFICE OF THE CHIEF FINANCIAL OFFICER

The bill provides \$55,235,000 for the Office of the Chief Financial Officer (CFO). The bill fully funds the CFO's staffing request. Of this total, \$18,189,000 has been provided to the Transformation and Systems Consolidation project, a slight reduction from the requested amount due to delays in this project. The CFO shall brief the Committees on its progress to establish a more reliable acquisition timeline for this consolidation effort. Furthermore, the CFO shall comply with recommendations made by the DHS Inspector General in OIG 08-47, which are intended to improve DHS's strategy to consolidate its financial systems.

Annual Appropriations Justifications

The CFO is directed to submit all of its fiscal year 2010 budget justifications (classified and unclassified) with detailed information by appropriation account and program, project, and activity (PPA) for all components of DHS. The CFO must ensure that the annual appropriations justifications include: (1) explicit information on all reimbursable agreements and uses of the Economy Act; (2) adequate justification for each increase, decrease, and staffing change; (3) a listing of overdue Committee reports; and (4) a detailed table identifying the last year authorizing legislation was provided by Congress for each appropriation account, the amount of the authorization, and the appropriation in the last year of the authorization. Finally, the CFO shall not permit any DHS component to alter the PPAs in the fiscal year 2010 budget submission into any account structure other than that contained in the funding recommendation table.

OFFICE OF THE CHIEF INFORMATION OFFICER

The bill includes \$272,169,000 for the Office of the Chief Information Officer (CIO). Funding shall be allocated as follows:

| | |
|---|---------------|
| Salaries and Expenses | \$86,928,000 |
| Information Technology Activities | 44,945,000 |
| Security Activities | 92,623,000 |
| Homeland Secure Data Network | 47,673,000 |
| Total, Chief Information Officer | \$272,169,000 |

Information Technology Activities

The bill provides \$44,945,000 for Information Technology Activities, \$2,500,000 more than requested. Additional funds shall be used for the CIO's highest priority Enterprise Architecture (EA) projects, including information technology reviews, and to strengthen oversight and Departmental compliance with EA policy. The CIO is directed to ensure that all staff conducting EA oversight are Federal employees.

Security Activities

The bill provides \$92,623,000 for Security Activities, \$22,300,000 more than the amount requested. This increased funding is provided for the National Center for Critical Information Processing and Storage.

to support costs of transition to

CIO-Led Information Technology Acquisitions

The Committee continues an existing requirement that the CIO report on all information technology acquisitions financed directly or managed by the CIO.

Federal Information Security and Management Act

DHS has made progress improving its performance on the Federal Information Security and Management Act scorecard, but must do more to improve its information security. The CIO is directed to brief the Committees no later than April 6, 2009, on the details of its information security priorities and initiatives, as discussed in the Senate report.

ANALYSIS AND OPERATIONS

The bill includes \$327,373,000 for Analysis and Operations. As requested by the Department, the Committee has transferred funding between appropriations for Analysis and Operations and the Office of the Secretary and Executive Management, to reflect the reassignment of the Secretary's briefing staff and counter-terrorism planning staff.

DHS Intelligence Expenditure Plan

As detailed in the Senate report, no later than 60 days after the date of enactment of this Act, the Secretary shall submit a fiscal year 2009 expenditure plan for the Office of Intelligence and Analysis, including balances carried forward from prior years.

State and Local Fusion Centers

The Department's Chief Intelligence Officer is directed to continue quarterly updates to the Committees that detail progress in placing DHS intelligence professionals in State and local fusion centers, as discussed in the Senate report.

Classified Programs

Recommended adjustments to classified programs are addressed in a classified annex accompanying this report. statement

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

The bill provides \$1,900,000 for the Office of the Federal Coordinator for Gulf Coast Rebuilding (OFCGCR). OFCGCR is expected to remain open until at least the end of fiscal year 2009. Of the amount provided, \$50,000 is for OFCGCR to organize a panel of housing experts, disaster response experts, and urban planning experts to develop a framework for developing and sustaining affordable rental housing in affected Gulf Coast Communities. These experts shall be chosen as detailed in the House report. OFCGCR is to report to the Committees on the recommendations of this panel, and to submit a strategy and timeline for implementing the most promising recommendations, by December 30, 2008.

OFFICE OF INSPECTOR GENERAL

The bill provides \$98,513,000 for the Office of Inspector General (OIG). In addition to this direct appropriation, \$16,000,000 may be transferred from the Disaster Relief Fund (DRF) to the OIG to continue and expand audits and investigations related to disasters. The OIG is required to notify the Committees no less than 15 days prior to all transfers from the DRF.

Audit Reports

The OIG is directed to forward copies of all audit reports to the Committees when they are issued and to immediately make the Committees aware of any review that recommends cancellation of, or modification to, any major acquisition project or grant, or that recommends significant budgetary savings. The OIG is directed to withhold any final audit or investigation report requested by the Committees from public distribution for a period of 15 days.

OIG Website

The Secretary of the Department of Homeland Security is directed to update and maintain the DHS OIG website link as established on the DHS website.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

The bill includes \$7,603,206,000 for U.S. Customs and Border Protection (CBP) Salaries and Expenses. Of this amount, \$1,269,158,000 is for Headquarters, Management and Administration, including an additional \$500,000 for three new positions for conduct and integrity oversight, and an additional \$2,007,000 associated with 58 new positions for trade programs, as specified in the Senate report. Within the total appropriation, \$2,561,099,000 is for Border Security Inspections and Trade Facilitation, including: an additional \$200,000,000 to fund CBP Officer law enforcement retirement costs, as identified by CBP; \$62,800,000, as requested, to support US-VISIT operations and equipment managed by CBP; an additional \$10,000,000 to enhance and expand the Global Entry system; an additional \$8,750,000 for 173 new CBP Officer positions at air ports of entry for the final two months of the fiscal year; an additional \$28,282,000 for 561 new CBP Officer positions for land ports of entry for the final two months of the fiscal year; an additional \$5,100,000 for 100 new Agricultural Specialist positions for the final two months of the fiscal year; an additional \$2,553,000 for 58 new positions for trade programs, as specified in the Senate report; an additional \$4,500,000 for a Joint Information and Intelligence Fusion Center in Bellingham, Washington, of which ~~more than~~ \$2,000,000 shall be available until September 30, 2010, and of which up to \$500,000 may be used for security training and exercises in preparation for the 2010 Winter Olympics. The bill does not require use of prior year unobligated balances of Salaries and Expenses appropriations to fund fiscal year 2009 Inspections, Trade, and Travel Facilitation at Ports of Entry, notwithstanding direction in the House Report.

Within this appropriation \$145,944,000 is for inspection and detection technology investments, reflecting an additional \$30,000,000 for the acquisition of new or replacement large-scale non-intrusive inspection technology and a reduction of \$3,200,000 due to delayed radiation monitor deployments. A total of \$3,501,270,000 is included in this appropriation for Border Security and Control Between Ports of Entry, including an additional \$1,950,000 for the transfer of up to 75 Border Patrol agents to the Northern border, and a reduction of \$16,000,000 from the request due to expected delays in hiring mission support staff. Finally, \$271,679,000 in this appropriation is for Air and Marine Personnel Compensation and Benefits, including an additional \$17,400,000 for 115 positions to staff fully 11 new Marine Enforcement Units.

The following table specifies funding by budget program, project, and activity:

| | |
|--|------------------------|
| Headquarters, Management, and Administration: | |
| Management and Administration, Border Security Inspections and Trade Facilitation..... | \$646,608,000 |
| Management and Administration, Border Security and Control between Ports of Entry..... | 622,550,000 |
| Subtotal, Headquarters Management and Administration..... | 1,269,158,000 |
| Border Security Inspections and Trade Facilitation: | |
| Inspections, Trade, and Travel Facilitation at Ports of Entry..... | 2,093,988,000 |
| Harbor Maintenance Fee Collection (Trust Fund)..... | 3,154,000 |
| Container Security Initiative..... | 149,450,000 |
| Other International Programs..... | 10,984,000 |
| Customs-Trade Partnership Against Terrorism..... | 64,496,000 |
| Free and Secure Trade (FAST)/NEXUS/SENTRI..... | 11,274,000 |
| Inspection and Detection Technology Investments..... | 145,944,000 |
| Automated Targeting Systems..... | 32,550,000 |
| National Targeting Center..... | 24,481,000 |
| Training..... | 24,778,000 |
| Subtotal, Border Security Inspections and Trade Facilitation..... | 2,561,099,000 |
| Border Security and Control between Ports of Entry: | |
| Border Security and Control | 3,426,455,000 |
| Training..... | 74,815,000 |
| Subtotal, Border Security and Control between POEs..... | 3,501,270,000 |
| Air and Marine Personnel Compensation and Benefits..... | 271,679,000 |
| Total..... | \$7,603,206,000 |

Staffing and Resource Reports and Briefings

CBP is directed to: (1) report and brief on Border Patrol hiring and deployment statistics, and (2) share staffing and resource information with port authorities and other stakeholders at airports and land ports of entry, as specified in the House report. In addition, CBP is directed to brief the Committees not later than January 30, 2009, on how incentives such as pay adjustments could be used to recruit and retain Border Patrol agents and CBP Officers with language fluency skills, as outlined in the House report.

Global Entry

CBP is directed to report to the Committees on its findings from Global Entry airport pilots, as outlined in the House report.

Support of US-VISIT

CBP is directed to provide a detailed report, as part of its fiscal year 2010 budget request, on its support of US-VISIT technology and operations, as specified in the House report.

Automated Targeting System – Passenger (ATS-P)

CBP is directed to obligate no funds to enhance ATS-P until the Commissioner certifies such enhancement complies with all applicable laws, as specified in the House report.

Textile Transshipment Enforcement

The bill includes \$4,750,000 for textile transshipment enforcement. CBP is directed to ensure that activities of its Textile and Apparel Policies and Programs Office are maintained at prior year levels, and to report in the fiscal year 2010 budget on execution of its five year plan, as specified in the House report.

Border Patrol Self-Inspection Program

CBP is directed to include in its fiscal year 2010 budget submission a report on results for the annual Border Patrol Self-Inspection Program, including data on processing and treatment of unaccompanied minors encountered by the Border Patrol, as specified in the House report. alien

Invasive Plant Species

CBP is directed to include in its fiscal year 2010 budget submission a plan to eradicate *Arundo donax* and other invasive plants in Texas border areas, as specified in the House report.

Infectious Disease Interdiction and Control

CBP is encouraged to explore with the Centers for Disease Control and Prevention ways to improve CBP Officer training related to infectious disease interdiction and control at ports of entry, as outlined in the House report.

Project SeaHawk

Project SeaHawk is funded at \$2,000,000. CBP is directed to report on the impact of Project SeaHawk to date, and how it will be funded and supported beyond fiscal year 2009, as specified in the House report.

Operational and Mission Support Hiring

CBP has informed the Committees that it is significantly behind schedule for hiring operational and mission support personnel for Border Patrol operations, with 886

Support

Support

positions currently vacant. It therefore appears unlikely that CBP will be able to hire the 441 additional operational and mission support positions requested for fiscal year 2009 or address the current hiring lag. ~~Therefore the bill reduces funding for this purpose by \$16,000,000.~~ CBP is directed to intensify its efforts, as specified in the Senate report, to hire previously funded positions and enable Border Patrol agents to concentrate on their enforcement missions, thus addressing a need made more urgent by the termination of National Guard support under Operation Jump Start. CBP is directed to report on this mission support hiring effort as part of its quarterly hiring briefings to the Committees.

Support
UC

CBP Vehicle Fleet

DHS is directed to include with its fiscal year 2010 budget submission a plan to replace at least 20 percent of the CBP vehicle fleet annually, as well as the funding needed to execute the plan, as specified in the Senate report.

Antidumping and Countervailing Duty Enforcement

The bill includes, within the amounts provided for in this account, sufficient funds to administer the on-going requirements of section 754 of the Tariff Act of 1930 (19 U.S.C. 1675c), referenced in subtitle F of title VII of the Deficit Reduction Act of 2005 (Public Law 109-171; 120 Stat. 154).

CBP is directed to continue to work with the Departments of Commerce and Treasury, and the Office of the United States Trade Representative (and all other relevant agencies) to increase collections, and provide a public report on an annual basis, within 30 days of each year's distributions under the law. The report should summarize CBP's efforts to collect past due amounts and increase current collections, particularly with respect to cases involving unfairly traded U.S. imports from China. The report shall provide the amount of uncollected duties for each antidumping and countervailing duty order, and indicate the amount of open, unpaid bills for each such order. In that report, the Secretary of Homeland Security, in consultation with other relevant agencies, including the Secretaries of Treasury and Commerce, should also advise as to whether CBP can adjust its bonding requirements to further protect revenue without violating U.S. law or international obligations, and without imposing unreasonable costs upon importers.

The Secretary of Homeland Security is directed to work with the Secretary of Commerce to identify opportunities for the Commerce Department to improve the timeliness, accuracy, and clarity of liquidation instructions sent to CBP. Increased attention and interagency coordination in these areas could help ensure that steps in the collection of duties are completed in a more expeditious manner.

Customs Revenue Staffing Shortfalls

CBP is directed to comply with the direction specified in the Senate report regarding customs revenue staffing shortfalls.

Inspection and Detection Technology

CBP has informed the Committees that it does not intend to acquire or refurbish additional large-scale non-intrusive inspection (NII) technology in fiscal year 2008, despite the need to replace at least 36 systems in the CBP inventory that are no longer in operation or fail to meet minimum performance standards set by CBP. In order to ensure that CBP attains the most cost effective technology for inspection and detection missions, the bill includes an additional \$30,000,000 to acquire new or replacement large-scale NII technology. CBP is directed to use competitive acquisition practices to replace, refurbish, or acquire large scale NII systems, and to make all such decisions, regardless of whether they result in new or refurbished systems, based on comparisons of cost and performance for all options.

Container Security Devices

The bill includes language directing the Commissioner to submit to the Committees, not later than 120 days after enactment of this Act, the results of operational field testing of container security devices and a plan for implementation and deployment of such devices, as applicable, in high-risk trade lanes.

the date of

AUTOMATION MODERNIZATION

The bill includes \$511,334,000 for Automation Modernization, as requested. Of this funding, not less than \$316,851,000 is provided for the Automated Commercial Environment (ACE), of which \$16,000,000 is included for the International Trade Data System. Of the total provided for ACE, \$216,851,000 is unavailable for obligation until 30 days after an expenditure plan is submitted to the Committees, as specified in the House report. CBP is directed to continue submitting quarterly reports to the Committees on progress in implementing ACE.

TECS Modernization Expenditure Plan

CBP is directed to comply with direction specified in the House and Senate reports regarding briefings and reports on TECS modernization.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

The bill includes \$775,000,000 for the integrated Border Security Fencing, Infrastructure, and Technology account, as requested. Funds are available until expended. The funding includes \$120,000,000 for Program Management, including \$50,000,000 for environmental and regulatory requirements, and \$70,000,000 for personnel operations and support; \$505,000,000 for Development and Deployment, of which \$30,000,000 is for the Border Interoperability Demonstration Project, and \$40,000,000 is for Northern

(BSFIT)

border security technology investment; and \$150,000,000 for Operations and Support. The latter funding level reflects the Administration's downward revision from the original \$410,000,000 request for Operations and Support.

The bill makes \$400,000,000 unavailable for obligation until the Committees have received and approved an expenditure plan that complies with conditions set forth in the bill, and which has been reviewed by the GAO. The bill also makes no funding available until the ~~Commissioner~~ ^{Secretary} certifies that CBP has complied with legal requirements for consultation with communities, federal agencies and other stakeholders affected by planned deployment of fencing and tactical infrastructure, and also makes no funding available for projects for which the Secretary has exercised statutory authority to waive various environmental and other regulations and laws until 15 days after public notice of such waiver. Finally, the bill makes \$100,000,000 available immediately to CBP for any BSFIT purposes, notwithstanding any other provision in the bill.

Reporting Requirements to the Committees

CBP is directed to include, as part of the quarterly Secure Border Initiative (SBI) reports, a report on technology investment on the Northern border, as specified in the House report. CBP is directed to provide a monthly report on BSFIT obligations and expenditures as specified in the House report. CBP is directed to include, within the fiscal year 2009 expenditure plan and as specified in the House report, an environmental plan and a report on mitigation efforts.

Establishment and Maintenance of Border Barriers

CBP is directed to explain the rationale for its BSFIT operations and maintenance budget, which it significantly reduced from its original budget level. The explanation should be included in the expenditure plan, and should also address the significant shift in technology investment into fiscal years 2009 and 2010, and implications for ongoing operations and maintenance costs.

Vehicles

CBP is directed to fund any requirements for vehicles for the SBI Program Management Office or other activities funded in this account through the CBP Salaries and Expenses appropriation.

Analysis of Alternatives for Border Infrastructure Investment

CBP is directed to comply with specifications in the House report for the conduct of analyses of alternatives for effective control of the border, as well as to ensure that CBP identifies and evaluates alternatives proposed by stakeholders as potential substitutes for tactical infrastructure.

Government Accountability Office (GAO) Review

GAO is directed to review the CBP process for consultation on border infrastructure projects and how CBP carries out such consultation, as specified in the House report.

Tactical Communications

The Commissioner is directed to provide a plan, within 90 days of the date of enactment of this Act, detailing the staffing, equipment, and funding necessary to complete the build out of the Border Patrol Tactical Communications program by the end of fiscal year 2013.

Expenditure Plan Certifications

The fiscal year 2008 BSFIT expenditure plan submitted by the Department did not comply with requirements of the law; specifically, it failed to include required information in support of several certifications or provided only conditional certifications. The Department is directed to ensure that certifications submitted in support of future expenditure plans include all supporting documentation, address current and prospective elements of the program, and not be conditional in nature.

The following table specifies funding by budget program, project, and activity:

| | |
|--|----------------------|
| Development and Deployment | |
| Technology and Infrastructure Investment..... | \$435,000,000 |
| Border Interoperability Demonstration Project..... | 30,000,000 |
| Northern border Technology Investment..... | 40,000,000 |
| Subtotal, Development and Deployment..... | 505,000,000 |
| | |
| Operations and Support (Integrated Logistics)..... | 150,000,000 |
| | |
| Program Management | |
| Personnel Operations and Support..... | 70,000,000 |
| Regulatory and Environmental Requirements..... | 50,000,000 |
| Subtotal, Program Management..... | 120,000,000 |
| | |
| Total, Border Security Fencing, Infrastructure, and Technology..... | \$775,000,000 |

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

The bill includes \$528,000,000 for Air and Marine Interdiction, Operations, Maintenance, and Procurement, as requested. This includes \$380,022,000 for Operations and Maintenance, and \$147,978,000 for Procurement. Within the above amounts are

\$26,600,000 for Northern border air branches and \$5,000,000 for the Wireless Airport Surveillance Platform. The bill makes \$18,000,000 of funding under this heading available only when a concept of operations for the deployment of unmanned aerial systems (UAS) has been established, as required in section 544 of this bill.

Act. to address private aircraft enforcement system in noncompliance

UAS Deployment Plan

CBP is directed to provide the comprehensive report on plans for UAS deployment as specified in the House report.

CONSTRUCTION

The bill includes \$403,201,000 for Construction, including \$39,700,000 for the Advanced Training Center. The bill requires that, beginning with the fiscal year 2010 budget submission and thereafter, CBP shall, in consultation with the General Services Administration, include a five-year plan for all Federal land border port of entry projects. CBP is directed to execute its construction plans as reflected in the table included in the Senate report, or to notify the Committees of any changes, as appropriate, pursuant to the reprogramming and transfer provisions in the bill.

this Act.

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

SALARIES AND EXPENSES

The bill includes \$4,927,210,000 for U.S. Immigration and Customs Enforcement (ICE) Salaries and Expenses. Within the total budget for Salaries and Expenses, \$1,000,000,000 is for efforts to identify individuals illegally present in the United States who have criminal records, whether incarcerated or at-large, and to remove those aliens once they have been judged deportable in immigration court.

The bill also provides \$1,519,208,000 for ICE's domestic investigatory responsibilities, funding nearly all of the program increases requested by the President while also expanding several critical initiatives, as discussed below. Given these significant new resources provided for investigations, ICE is expected to strengthen its ability to demonstrate how these resources are being used effectively.

The bill includes language regarding OIG reviews of 287(g) agreements, use of detention services after a facility has received performance evaluations of less than adequate, and ICE authorities provided under 8 U.S.C. 1101(a)(17).

The following table specifies funding levels by budget activity:

| | |
|--|-------------|
| Headquarters Management and Administration | |
| Personnel Compensation and Benefits, Service, and Other Costs..... | 203,076,000 |

\$

| | |
|---|-----------------|
| Headquarters Managed IT Investment..... | 169,348,000 |
| Subtotal, Headquarters Management and Administration..... | 372,424,000 |
| Legal Proceedings..... | 215,035,000 |
| Domestic Investigations..... | 1,519,208,000 |
| International | |
| International Investigations..... | 106,741,000 |
| Visa Security Program..... | 26,800,000 |
| Subtotal, International..... | 133,541,000 |
| Intelligence..... | 55,789,000 |
| Detention and Removal Operations | |
| Custody Operations..... | 1,721,268,000 |
| Fugitive Operations..... | 226,477,000 |
| Criminal Alien Program..... | 189,069,000 |
| Alternatives to Detention..... | 63,000,000 |
| Transportation and Removal Program..... | 281,399,000 |
| Subtotal, Detention and Removal Operations..... | 2,481,213,000 |
| Additional funding for Comprehensive Identification and Removal of Criminal Aliens (CIRCA)..... | 150,000,000 |
| Total, ICE Salaries and Expenses..... | \$4,927,210,000 |

Prioritizing the Removal of Deportable Criminal Aliens

In the Department of Homeland Security Appropriations Act, 2008, the Congress provided ICE \$200,000,000 to identify aliens convicted of crimes and sentenced to imprisonment, and to remove from the country those individuals judged deportable. Within its plan to carry out this mandate, ICE estimated it would cost between \$900,000,000 and \$1,100,000,000 annually to find and deport the most dangerous and violent criminals judged deportable.

The bill recognizes the complex mix of programs and priorities that ICE faces by providing a significant funding increase for the agency's overall operations. The bill requires that within the resources provided to ICE \$1,000,000,000 shall be to address the compelling need to remove from the United States deportable criminal aliens, whether in custody or at-large. Of this amount, \$150,000,000 is additional funding that was not requested by the President and \$850,000,000 is from within existing ICE programs to strengthen the agency's focus on this challenge.

The bill requires ICE to report to the Committees on exactly how it will allocate the funds provided for this purpose, and to provide quarterly updates on its expenditures

and progress toward identifying and removing all deportable criminal aliens. Within 30 days after the date of enactment of this Act, ICE shall submit a report detailing how the agency will utilize the additional \$150,000,000 provided in the bill, as well as an explicit plan for how ICE will allocate \$850,000,000 of existing program resources to the identification and removal of deportable criminal aliens. As discussed in the House report, ICE should clearly identify activities across the entire range of its programs and explain how they are focused on efforts to identify and remove deportable criminal aliens.

ICE Investigations

The bill provides \$1,519,208,000 for ICE domestic investigations and \$133,541,000 for ICE international investigations. Within these amounts, \$22,100,000 is provided as requested to expand a variety of investigatory programs. Additional resources are allocated to the following programs: \$6,000,000 for transnational gang enforcement; \$8,400,000 for the visa security program, as discussed in the Senate report; and \$3,000,000 for cyber crime investigations.

The budget structure for ICE domestic investigations is reflected at the same aggregate level as in prior appropriations. In the past, ICE has been unable to detail how it allocates resources within the Office of Investigations (OI), sets investigatory priorities, or measures the performance of units within OI. ICE is directed to submit, within 30 days after the date of enactment of this Act, a detailed expenditure plan for the investigations budget that reflects the agency's priorities and resource allocations, and to provide quarterly reports on the execution of this plan within 30 days of the close of each quarter of the fiscal year. In addition, ICE is directed to provide the same level of detail in the ~~Congressional~~ Justification documents for the fiscal year 2010 investigations budget.

lc

The budget for ICE international investigations is split into two separate programs in fiscal year 2009: the visa security program (VSP) and other international investigations. Because of the importance of VSP, and the significant expansion funded in fiscal year 2009, ICE and the Committees need this additional detail to monitor how the agency aligns its resources to mission requirements and operations.

ICE Worksite Enforcement

The bill provides \$126,515,000 for worksite enforcement investigations, an increase of \$34,300,000 over the request level, as discussed in the Senate report.

ICE Resource Allocations

GAO is directed to review ICE resource allocations as discussed in the House report.

Coordination of Budget Submissions for the Immigration System

When DHS implements new civil and criminal immigration enforcement initiatives, other elements of the justice system may not have been able to plan or budget for how these DHS initiatives will impact their own workload and resource needs. An efficient justice system requires coordination between many elements including investigative agents, U.S. Attorneys, U.S. Marshals, the Office of the Federal Detention Trustee, district courts, probation and pretrial services officers, defender services, the Federal Prison System, and the Executive Office of Immigration Review (EOIR). The Administration is expected to improve its budgeting for immigration initiatives to ensure that all elements of the civil and criminal justice system have sufficient resources to implement DHS enforcement programs. Specifically, in order to ensure success of the effort to remove criminal aliens, resource requests for EOIR and ICE must be coordinated.

ICE Intelligence

The bill provides an additional \$2,833,000 for ICE Field Intelligence Groups, as discussed in the Senate report.

Detention Bed Spaces

The bill provides funding for 1,400 additional detention beds and associated staffing at ICE, which will allow the agency to detain up to 33,400 individuals on a daily basis.

Detention Center Medical Services

The bill provides an additional \$2,000,000 for the Office of Professional Responsibility in 2009 for ICE to undertake immediately a review of the medical care provided to people detained by DHS. This review should be carried out as discussed in the House report. In addition, ICE should immediately implement the GAO recommendations to improve its medical services, as discussed in the Senate report.

State and Local Programs

The ~~Committee~~ provides a total of \$99,653,000 for State and local programs, \$2,200,000 more than requested. Within this total, \$54,130,000 is for the 287(g) program, including \$5,000,000 for compliance reviews conducted by the Office of Professional Responsibility. ICE is strongly encouraged to prioritize new 287(g) agreements that will maximize the identification and removal of deportable criminal aliens. As requested, \$11,286,000 is provided for the Forensics Document Laboratory. The bill also provides \$34,237,000 for the Law Enforcement Support Center (LESC), an additional \$2,200,000, which should be used to fund conversion of LESC employees from job category 1802 to job category 1801.

bill

Textile Transshipment Enforcement

As discussed in the Senate report, the bill includes \$4,750,000 for textile transshipment enforcement, as authorized by section 352 of the Trade Act of 2002. Concurrent with its fiscal year 2010 budget submission, ICE should report on this activity as discussed in the House report.

Alternatives to Detention

The bill provides \$63,000,000, \$7,209,000 above the request, for Alternatives to Detention programs.

Inappropriate Treatment of Children in ICE Custody

~~The Office of the Inspector General~~ is directed to review ICE practices for determining the age of those in its custody, and to report to the Committees on Appropriations on any cases in fiscal years 2008 or 2009 where ICE used dental or skeletal examinations to determine a child's age. D/G

Transportation of Unaccompanied Alien ~~Children~~ minors

In conjunction with the Office of Management and Budget (OMB) and the Department of Health and Human Services (HHS), DHS is directed to submit a report to the Committees no later than March 1, 2009, recommending which agency is the most appropriate to fund transportation of unaccompanied alien ~~children~~ minors between DHS and HHS custody. In addition, starting no later than April 6, 2009, ICE, in conjunction with the HHS Office of Refugee Resettlement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the bill provides sufficient resources to DHS to pay for this transportation responsibility.

ICE Headquarters Management and Administration

The bill provides an increase of \$987,000 for ICE Training Consolidation and Integration, and \$7,000,000 for efforts to co-locate ICE field facilities.

Human Rights Law Division

As discussed in the House report, an additional \$500,000 is provided within the budget for the ICE Office of the Principal Legal Advisor to continue expansion of the Human Rights Law Division.

Detention and Removal Reporting

ICE is directed to continue to submit quarterly reports on detention and removal statistics, as discussed in the Senate report.

Special Interest Aliens

Within 45 days after the date of enactment of this Act, ICE is directed to provide a classified briefing on special interest aliens, as discussed in the Senate report.

Student and Exchange Visitor Program

ICE is directed to ensure that additional revenues collected through higher Student and Exchange Visitor Program fees improve customer service for both students and academic institutions, as discussed in the House report.

FEDERAL PROTECTIVE SERVICE

Funding for the Federal Protective Service (FPS) is provided through a security fee charged to all GSA building tenants in FPS-protected buildings. Pursuant to the increased security fees announced on February 28, 2008, the bill estimates that FPS will collect and spend \$640,000,000 in fiscal year 2009, which is \$24,000,000 more than estimated in the budget.

Federal Protective Service Police

The bill includes a provision maintaining FPS police staffing at the levels mandated by the Department of Homeland Security Appropriations Act, 2008. The bill also requires the Director of OMB to certify in writing that fees in fiscal year 2009 will be sufficient to support the FPS police staffing levels.

AUTOMATION MODERNIZATION

The bill provides \$57,000,000 for Automation Modernization, as requested, which funds a variety of ICE technology investments critical to the future of the agency.

TECS Modernization

The bill provides \$15,700,000, as requested, for TECS modernization. As discussed in the Senate report, ICE shall report to the Committees on its efforts in this area.

CONSTRUCTION

The bill provides an additional \$5,000,000 for ICE construction, which funds basic and emergency maintenance at ICE-owned detention facilities.

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

(Including Transfer of Funds)

The bill provides \$4,754,518,000 for Aviation Security. In addition to the amounts appropriated, a mandatory appropriation totaling \$250,000,000 is available through the Aviation Security Capital Fund. Bill language is included to reflect the collection of \$2,320,000,000 from aviation user fees, as authorized. The following table specifies funding by budget activity:

| | |
|---|--------------------------|
| Screener Workforce: | |
| Privatized screening | \$151,272,000 |
| Passenger and baggage screeners, personnel, compensation and benefits | 2,716,014,000 |
| Subtotal, screener workforce | 2,867,286,000 |
| Screening training and other: | 197,318,000 |
| Checkpoint support:..... | 250,000,000 |
| EDS/ETD Systems: | |
| EDS procurement and installation | 294,000,000 |
| Screening technology maintenance and utilities | 305,625,000 |
| Operation integration | 21,481,000 |
| Subtotal, EDS/ETD systems | 621,106,000 |
| Total, screening operations | 3,935,710,000 |
| Aviation Security Direction and Enforcement: | |
| Aviation regulation and other enforcement | 245,268,000 |
| Airport management and support | 401,666,000 |
| Federal flight deck officer and flight crew training | 25,025,000 |
| Air cargo | 122,849,000 |
| Airport perimeter security | 4,000,000 |
| Subtotal, aviation security direction and enforcement | 798,808,000 |
| Implementing Requirements of the 9/11 Act | 20,000,000 |
| Total, Aviation Security | \$4,754,518,000 |

Subtotal
^

Implementing Requirements of the 9/11 Act

The bill includes \$1,119,112,836 within the total appropriation provided to the Transportation Security Administration (TSA) for activities and requirements authorized by the 9/11 Act, including: \$544,000,000 for the procurement and installation of explosives detection systems at airports; \$122,849,000 for air cargo security; \$30,000,000

to expand Visible Intermodal Protection and Response Teams; \$390,663,836 for specialized screening programs (travel document checkers, behavior detection officers, bomb appraisal officers, and officers to randomly screen more airport and airline employees); \$11,600,000 for surface transportation inspectors; and \$20,000,000 to implement regulations and other new activities authorized by the 9/11 Act. TSA shall use the \$20,000,000 to: conduct vulnerability assessments of high risk public transportation agencies, railroads, and over-the-road bus operators; conduct additional security exercises for public transportation, over-the-road bus, and railroad employees; hire additional surface transportation security inspectors; establish and implement an information sharing plan for transportation security and an Information Sharing and Analysis Center for transportation security; conduct security reviews of foreign repair stations; develop procedures and initial implementation of a law enforcement officer biometric credential; and improve security at general aviation airports. TSA shall report to the Committees 90 days after the date of enactment of this Act on the proposed allocation of these funds at the account and PPA level.

Privatized Screening

The bill provides \$151,272,000 for Privatized Screening. TSA is directed to approve applications for those airports that are seeking to participate in the screening partnership program and to provide screener services to airports that become eligible in fiscal year 2009. TSA shall notify the Committees if the agency expects to spend less than the appropriated amount due to situations where no additional airports express interest in converting, either fully or partially, to privatized screening, or where airports currently using privatized screening convert to using federal screeners. TSA shall adjust its PPA line items, and notify the Committees within ten days, to account for any changes in private screening contracts, and screener personnel, compensation and benefits to reflect the award of contracts under the screening partnership program, or the movement from privatized screening into federal screening.

Wait Times

Consistent with prior years, TSA shall continue to submit airport wait time data on a quarterly basis for domestic airports with above-average wait times and for the top 40 busiest airports. As part of these reports, TSA shall explain any dramatic shift in wait times and what is being done to reduce wait times at these airports. TSA shall not alter its current 10 minute standard.

Checkpoint Support

The bill provides \$250,000,000 for Checkpoint Support to deploy a number of emerging technologies to screen airline passengers and carry-on baggage for explosives, weapons, and other threat objects by the most advanced equipment currently under development. TSA is directed to spend funds on multiple whole body imaging technologies including backscatter and millimeter wave as directed in the Senate report. TSA shall provide an expenditure plan not later than 60 days after the date of enactment of this Act, as discussed under Transportation Security Support.

Sterile Area Access

Currently TSA is studying the feasibility of a sterile area access system at three pilot airports and expects these pilots to be concluded in fiscal year 2008. TSA is directed to notify the Committees on the results of these pilots after the agency evaluates whether throughput is improved with separate sterile area screening for airline crews, identifies what problems may occur in real time environments in which crew are screened separately from passengers, and evaluates resource and funding needs. If TSA determines that this program merits expansion, checkpoint support funds may be used for this purpose after notifying the Committees.

Explosives Detection Systems

The bill provides a total of \$544,000,000 for Explosives Detection Systems (EDS) procurement and installation. Within the total funding for EDS procurement and installation, \$294,000,000 is appropriated in this Act and \$250,000,000 is derived from mandatory funding from the Aviation Security Capital Fund. Within the funds provided, not less than \$84,500,000 shall be available to procure and deploy certified EDS at medium- and small-sized airports. The purchase of the screening equipment for medium- and small-sized airports must be competitively awarded. Any award to deploy explosives detection systems must be based on risk, the airports current reliance on other screening solutions, lobby congestion resulting in increased security concerns, high injury rates, airport readiness, and increased cost effectiveness.

TSA shall provide an expenditure plan to the Committees not later than 60 days after enactment of this Act, as discussed under Transportation Security Support. If new requirements occur after the plan is submitted, TSA shall reassess and reallocate funds after notifying the Committees of any change. As discussed in the Senate report, TSA shall provide quarterly updates on EDS and checkpoint expenditures, on an airport-by-airport basis. These updates shall include information on the specific technologies for purchase, project timelines, a schedule for obligation, and a table detailing actual versus anticipated unobligated balances at the close of the fiscal year, with an explanation of any deviation from the original plan.

the date
of

Screening Technology Maintenance and Utilities

The bill provides \$305,625,000 for Screening Technology Maintenance and Utilities, of which \$4,400,000 can be used for costs related to the disposal of screening equipment no longer in service. Because of persistent cost escalations in this area, TSA shall provide a report to the Committees on maintenance and utility costs for screening technologies and identify ways that these costs may be controlled in the future.

Threat Containment Units

TSA is encouraged to review the efficacy of its current inventory of threat containment units (TCUs) and, as necessary, test and evaluate next generation TCU technologies. TSA should report to the Committees on whether TCUs should be part of its explosives detection operations and if so, whether additional units are needed.

General Aviation

As part of its efforts to address vulnerabilities in general aviation security, TSA is directed to report to the Committees on the execution of fiscal year 2008 general aviation training and education program funding.

Air Cargo

The bill provides \$122,849,000 for Air Cargo. Within the funds provided, \$18,000,000 shall be used to expand technology pilots to evaluate the effectiveness of air cargo screening and for auditing indirect air carriers, shippers, and distribution centers participating in the certified shipper program. No later than 60 days after the date of enactment of this Act, TSA shall submit an expenditure plan to the Committees on the allocation of air cargo funds, including carryover. This plan should detail efforts to develop new covert testing protocols, data related to cargo strike team augmentation, the location and number of canine teams deployed, and the specific screening technologies deployed for air cargo. In addition, TSA is directed to brief the Committees on its certified shipper pilot program before it moves to a nationwide rollout. This briefing should detail the processes for securing air cargo through the supply chain, and schedule, milestones, and performance measures for the program.

Within the fiscal year 2007 supplemental appropriation (Public Law 110-28), funding was provided for TSA to assess air cargo vulnerabilities at the largest (Category X) airports. TSA is directed to brief the Committees no later than March 1, 2009, on the results of the completed airport vulnerability assessments, as detailed in the Senate report. If vulnerability assessments have not been completed at all of the largest airports, TSA shall brief the Committees again once all work has been concluded.

SURFACE TRANSPORTATION SECURITY

The bill provides \$49,606,000 for Surface Transportation Security. Within this total, \$24,885,000 is for surface transportation staffing and operations and \$24,721,000 is for rail security inspectors and canines.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

The bill provides a direct appropriation of \$116,018,000 for Transportation Threat Assessment and Credentialing. In addition, TSA anticipates it will collect \$40,000,000 in fees. Funding is provided as follows:

| | |
|--|-------------------------|
| Direct Appropriation: | |
| Secure flight..... | \$82,211,000 |
| Crew and other vetting..... | 33,807,000 |
| Subtotal, direct appropriations..... | 116,018,000 |
| Fee Collections: | |
| Registered traveler..... | 10,000,000 |
| Transportation worker identification credential..... | 9,000,000 |
| Hazardous materials | 18,000,000 |
| Alien flight school (transfer from DOJ)..... | 3,000,000 |
| Subtotal, fee collections..... | \$82,001,000 |

S
A

\$40,000,000

Secure Flight

The bill provides \$82,211,000 for Secure Flight. No funding shall be used for Secure Flight cutover operations until GAO reports that all ten statutory conditions necessary for certification have been met.

Crew and Other Vetting

The bill provides \$33,807,000 for Crew and Other Vetting programs. Within the total appropriation, \$12,500,000 is provided for vetting infrastructure enhancements necessary to perform mandated vetting operations on populations that require access to critical infrastructure. TSA shall report to the Committees about the progress it has made to carry out this mandate, the necessary vetting infrastructure investments to increase capacity, estimated lifecycle costs and timelines. No funds appropriated for crew and other vetting programs may be used to supplement the Secure Flight program beyond the amount specifically appropriated unless TSA submits a reprogramming or transfer request in accordance with section 503 of this Act.

TRANSPORTATION SECURITY SUPPORT

The bill provides \$947,735,000 for Transportation Security Support. Funding is provided as follows:

| | |
|--|---------------|
| Headquarters administration..... | \$234,870,000 |
| Human capital services..... | 218,105,000 |
| Information technology..... | 472,799,000 |
| Intelligence..... | 21,961,000 |
| Subtotal, Transportation Security Support..... | \$947,735,000 |

Total

Expenditure Plans

The bill includes language requiring TSA to submit detailed expenditure plans to the Committees for checkpoint support and explosives detection systems procurement, refurbishment, and installation on an airport-by-airport basis for fiscal year 2009. These plans are due no later than 60 days after the date of enactment of this Act. The bill withholds \$20,000,000 for headquarters administration from obligation until the detailed expenditure plans are received.

Visible Intermodal Protection and Response Teams

The bill provides a total of \$30,000,000 for Visible Intermodal Protection and Response (VIPR) teams. This funding is contained within appropriations for Aviation Security, Surface Transportation Security, and Federal Air Marshals. TSA shall develop and report on performance standards to measure the success of its VIPR teams in detecting and disrupting terrorism. In addition, this report shall identify the methodology used to determine the distribution of VIPR resources and personnel among the various modes of transportation.

Risk Assessments

The Secretary shall submit a report on risk-based priorities based on risk assessments across all transportation modes as discussed in the Senate report. In addition, the Secretary shall submit supporting documentation on how the risk assessments were used to allocate resources for each mode as directed in the Senate report. Both reports can be submitted in a classified or unclassified format.

FEDERAL AIR MARSHALS

The bill provides \$819,481,000 for the Federal Air Marshals, including VIPR activities. Within the total appropriation provided, \$725,081,000 is for management and administration and \$94,400,000 is for travel and training. TSA shall continue to provide quarterly reports on the mission coverage, staffing levels, and hiring rates as directed in previous appropriations Acts.

COAST GUARD

OPERATING EXPENSES

The bill provides \$6,194,925,000 for Operating Expenses (OE). Of this amount, \$340,000,000 is available for defense-related activities; \$3,600,000 is for the Operations System Center; and not to exceed \$20,000 is provided for reception and representation expenses. The bill allows OE funds to be used to purchase small boats. Funding for operating expenses shall be allocated as follows:

S

or lease

| | |
|--|----------------------|
| Military pay and allowances: | |
| Military pay and allowances | \$2,576,170,000 |

gap

uc

Port and Maritime Safety and Security

A total of \$23,500,000 is provided for port and maritime safety and security enhancements. This funding shall be used: for additional watchstanders, boats, and marine inspection staff; to conduct testing of Area Contingency Plans; to increase maritime casualty investigations; to increase armed boat escorts and security boardings; and to increase terminal inspections of Certain Dangerous Cargoes transport and delivery. The Coast Guard is directed to provide a plan no later than 60 days after the date of enactment of this Act on how this funding will be allocated. In addition, the Coast Guard is directed to comply with House report language regarding the Vessel Tracking System and the Ports and Waterways Safety System.

Increased Operational Hours for Coastal Patrol Boats

A total of \$4,150,000 is provided to increase operational hours of the 87-foot patrol boats. The Coast Guard is directed to brief the Committees on the results of this effort six months after it is put into operation.

Aviation Mission Hour Gap

A total of \$5,000,000 is provided to help address the aviation mission hour gap. The Coast Guard is directed to provide a plan no later than 60 days after the date of enactment of this Act on how this funding will be allocated. In addition, the Coast Guard is directed to provide a report regarding maritime surveillance mission needs in the Air Station Borinquen area of responsibility.

MAGNet

The Coast Guard is directed not to begin operations of the Maritime Awareness Global Network (MAGNet) until the Commandant certifies that this system complies with all applicable laws and such certification is reviewed by the Inspector General.

Maintenance Backlogs

Additional funding of \$5,000,000 is provided to address the Coast Guard's substantial cutter, aircraft, and shore maintenance backlog. The Coast Guard is directed to provide the legacy cutter maintenance cost analysis detailed in the House report.

Training and Recruiting

The Coast Guard is directed to submit its Climate Management Plan to the Committees.

Energy Shortfalls

Due to increasing energy prices since the fiscal year 2009 budget was submitted, the Coast Guard has \$90,562,000 in increased funding requirements for which no funding has been requested. This shortfall will have a considerable impact on Coast Guard operations and the Coast Guard has not been able to tell the Committees how it will deal with this impact. The Coast Guard is directed to update the Committees at regular intervals throughout the year on the impact of high energy costs on its ability to meet mission requirements and on the steps it has taken to minimize these impacts.

Personnel

No funding is included for acquisition personnel within the OE appropriation. Bill language is included to allow the Coast Guard to transfer up to five percent of the OE appropriation to the Acquisition, Construction, and Improvements (AC&I) appropriation for personnel, compensation, and benefits with notice to the Committees within 10 days of the transfer. Similar bill language is included in the AC&I appropriation allowing these funds to be transferred back to the OE appropriation with a 30 day notification to the Committees. The Coast Guard is directed to reprogram funding needed to cover any unbudgeted costs of the military pay raise.

Polar Icebreakers

One of the Coast Guard's missions is to provide the United States with the capability to support national interests in the polar regions. In a report recently submitted, the Coast Guard stated that the United States will need a maritime surface and air presence in the Arctic sufficient to support prevention and response regimes as well as diplomatic objectives. However, no funding has been requested for the Coast Guard's aging icebreaker despite its inability to meet current and projected polar operations mission responsibilities. The Coast Guard is directed to follow House report direction regarding the polar icebreaking operating budget. The Coast Guard should work with ~~NSF~~ ^{the National Science Foundation} in the coming year to renegotiate the existing polar icebreaking agreement in order to return the budget for operating and maintaining its polar icebreakers to the Coast Guard in fiscal year 2010. The AC&I appropriation includes \$30,300,000 to reactivate the USCGC POLAR STAR for an additional 7-10 years of service life.

Operations System Center

The bill provides \$3,600,000 for customized tenant improvements in conjunction with the Operations System Center expansion project, as detailed in the Senate report.

A-76

No funding is provided for the conduct of Coast Guard A-76 studies in fiscal year 2009.

Bay Area Lighthouses

The Coast Guard is directed to comply with House report direction regarding the Bay Area lighthouses.

Bering Sea Patrols

Within the OE appropriation, \$7,600,000 is provided to crew and operate the USCGC ACUSHNET through the end of fiscal year 2009. The Pacific Area Commander expects to lose between 90 and 120 patrol days in fiscal year 2009 based on the President's budget proposal to decommission the vessel after two quarters of operation in fiscal year 2009. This will negatively impact the Coast Guard's ability to patrol the Bering Sea and Aleutian Islands. If the Coast Guard determines that continued operation of the USCGC ACUSHNET is not viable, the funds should be used to sustain patrol hours in the Bering Sea and Aleutian Islands which would be lost by its decommissioning and the Committees on Appropriations should be notified accordingly.

Coast Guard Yard

The Commandant is directed to comply with Senate report direction regarding the Coast Guard Yard.

Financial Management Weaknesses

The bill requires the Commandant to submit, and the OIG to review, a financial management improvement plan. The Coast Guard must have a workable plan to achieve a clean audit and none currently exists today. The Coast Guard shall develop this plan in consultation with the Department's CFO.

Workforce Action Plan

The Coast Guard is directed to comply with Senate report direction regarding a workforce action plan.

Management and Technology Efficiencies

Within six months after the date of enactment of this Act, the Coast Guard is directed to report in detail on how the \$68,117,000 total funding reduction requested due to management and technology efficiencies is being achieved.

Quarterly Acquisition and Mission Emphasis Reports

The Commandant is directed to continue to submit quarterly acquisition and mission emphasis reports. The acquisition report shall include information on small boat purchases made within the OE appropriation.

and leases

ENVIRONMENTAL COMPLIANCE AND RESTORATION

The bill provides \$13,000,000 to help address the current Environmental ~~and~~ Compliance Restoration backlog estimated at \$109,700,000. *and*

RESERVE TRAINING

The bill provides \$130,501,000 for Reserve Training.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

The bill provides \$1,494,576,000 for Acquisition, Construction, and Improvements, as follows:

| | |
|---|-------------|
| Vessels: | |
| Inland river tender recapitalization..... | \$5,000,000 |
| Response boat medium | 108,000,000 |
| Subtotal, Vessels | 113,000,000 |
| Other Equipment: | |
| Automatic Identification System | 8,600,000 |
| Rescue 21..... | 73,000,000 |
| High frequency recapitalization | 2,500,000 |
| Defense messaging system | 4,074,000 |
| Command 21..... | 1,000,000 |
| Subtotal, Other Equipment | 89,174,000 |

| C4ISR | 88,100,000 |
| Technology obsolescence prevention | 1,500,000 |
| Logistics | 37,700,000 |
| System engineering and management | 33,141,000 |
| Government program management | 58,000,000 |
| Subtotal, Integrated Deepwater System | 1,033,994,000 |
| Coast Guard/DHS headquarters..... | 97,578,000 |
| Total, Acquisition, Construction and Improvements | \$1,494,576,000 |

Response Boat-Medium (RB-M)

Recent studies have identified the lack of response boats as an impediment to fully implementing the Coast Guard's mission requirements. A total of \$108,000,000 is provided for RB-Ms in fiscal year 2009 to allow the Coast Guard to purchase 36 boats, 22 above the request.

Deepwater

The bill provides \$1,033,994,000 for the Integrated Deepwater System Program (Deepwater). Of this amount, \$350,000,000 is unavailable for obligation until the Committees receive and approve a plan for expenditure, in accordance with the specified legislative conditions. In submitting its mandated review of this expenditure plan to the Committees, GAO is directed to provide an overall evaluation of the plan's value to the Coast Guard's management of Deepwater, and a qualitative, descriptive assessment of the degree with which the Coast Guard has complied with each legislative requirement.

Long Range Surveillance Aircraft (HC-130J)

The bill provides \$13,250,000 to missionize three HC-130Js. The Coast Guard is directed to provide its finalized HC-130J Remediation Plan to the Committees within 60 days.

National Security Cutter ~~(NSC)~~

after the date of enactment of this Act.

The bill provides \$353,700,000, as requested, for the National Security Cutter. It is questionable whether this amount will be sufficient to purchase the fourth NSC, according to recent information provided by the Coast Guard. This is a concern since, in August 2007, the Coast Guard entered into a Consolidated Contract Action to resolve all outstanding cost overruns incurred by the NSC contractor due to economic and customer changes that have occurred over the past four years. No later than 30 days after the date of enactment of this Act, the Coast Guard is directed to provide the Committees with detailed information on all reasons why there may be nearly a 50 percent increase in the cost of this cutter and how it plans to manage this procurement within the dollars provided. To improve its management of this important program, the Coast Guard is directed to follow House report direction on the visibility of the contractor's earned value management system and Senate report direction regarding information assurance and critical decision points and dates. (NSC)

Replacement Patrol Boat ~~(FRC-B)~~

The bill provides \$115,300,000, as requested, for limited production of the FRC-B. The Coast Guard is directed to take all steps necessary to control costs for this procurement, including conducting a formal design review to ensure that at least 90 percent of the design drawings are complete by the critical design review stage. The projected award date for the FRC-B has been delayed until the first quarter of 2009. The Coast Guard is directed to provide quarterly briefings to the Committees on the status of this procurement, including critical decision points and dates, planned service life extensions of existing 110-foot patrol boats, and patrol boat operational metrics.

Polar Icebreakers

The bill provides \$30,300,000 for the Coast Guard to reactivate the USCGC POLAR STAR.

Deepwater Human Capital

The Coast Guard is directed to brief the Committees within 60 days after the date of enactment of this Act on the results of its workforce forecasting process as detailed in the Senate report. The Coast Guard is also directed to address the three acquisition workforce challenges identified in the House report. 

Coast Guard Academy Pier for USCGC EAGLE

The Coast Guard is directed to expeditiously address the needs of the USCGC EAGLE pier as directed in the Senate report.

ALTERATION OF BRIDGES

The bill provides \$16,000,000 for Alteration of Bridges, with funding allocated as follows:

| | |
|---|--------------|
| Burlington Northern Railroad Bridge in Burlington, Iowa | \$2,000,000 |
| Canadian Pacific Railway Bridge in La Crosse, Wisconsin | 2,000,000 |
| Chelsea Street Bridge in Chelsea, Massachusetts | 2,000,000 |
| Elgin, Joliet, and Eastern Railway Company Bridge in Morris, Illinois.. | 2,000,000 |
| Fourteen Mile Bridge in Mobile, Alabama..... | 4,000,000 |
| Galveston Causeway Bridge in Galveston, Texas..... | 4,000,000 |
| Total..... | \$16,000,000 |

The Coast Guard is encouraged to begin construction of the Elgin, Joliet, and Eastern Railway Company Bridge as expeditiously as possible, as directed in the Senate report.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

The bill provides \$18,000,000 for Research, Development, Test, and Evaluation. This includes \$2,000,000 for the Coast Guard to work with entities conducting ballast water treatment system testing, such as the Great Ships Initiative, to test the efficacy of such systems and methods in both salt and fresh water, as detailed in the House report.

MEDICARE-ELIGIBLE RETIREE HEALTH CARE FUND CONTRIBUTION

GAO is directed to evaluate by June 2009 the process used to determine the amount charged to the Coast Guard for Medicare-eligible retiree health care and the relationship of this amount to the benefits received by Coast Guard retirees.

RETIRED PAY

The bill provides \$1,236,745,000 for Retired Pay.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

The bill provides \$1,408,729,000 for Salaries and Expenses, with funding to be allocated as follows:

| | |
|---|-----------------|
| Headquarters Management and Administration | \$182,104,000 |
| Protection | |
| Protection of Persons and Facilities | 705,918,000 |
| Protective Intelligence Activities | 59,761,000 |
| National Special Security Event Fund | 1,000,000 |
| White House mail screening | 33,701,000 |
| Presidential candidate nominee protection | 41,082,000 |
| Total, Protection | 841,462,000 |
| Investigations | |
| Domestic Field Operations | 241,772,000 |
| International Field Office Administration and Operations..... | 30,000,000 |
| Electronic Crimes Special Agent Program and Electronic Crimes Task Forces..... | 51,836,000 |
| Support for missing and exploited children..... | 8,366,000 |
| Total, Investigations | 331,974,000 |
| Training | |
| Rowley Training Center..... | 53,189,000 |
| Total, U.S. Secret Service | \$1,408,729,000 |

Subtotal

Subtotal

Secret Service Investigations

The bill provides \$331,974,000 for Investigations, \$5,658,000 more than requested. Of the increase, an additional \$4,000,000 is for Secret Service cyber crime investigations, and an additional \$1,658,000 is for International Field Operations.

Post Presidential Detail

The bill includes \$4,500,000, as requested, for the President's post-Presidency protective detail. The bill does not include a requested general provision allowing six

regarding

months of protection for the Vice President after leaving office. The Congress passed separate legislation authorizing this protection.

Discontinued Protective Details

The bill reduces the Secret Service protective budget by \$2,750,000 to account for protective activities the Secret Service no longer performs.

White House Facilities

The bill includes \$33,701,000 for White House mail screening, \$3,000,000 less than requested. The facility to screen White House mail is under construction and will not be complete until well into the fiscal year. The reduction reflects that the Secret Service will not have to pay an entire year of rent for the new building.

The cost to replace locks at the White House should be paid by the General Services Administration, which maintains offices within the White House, or the National Park Service, which maintains the public and residential areas of the complex. However, if the Secret Service believes there is an urgent need to replace White House locks prior to February 1, 2009, it is directed to use funds it had budgeted for security of the White House complex for this purpose.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The bill provides \$4,225,000 for Acquisition, Construction, Improvements and Related Expenses. Within this total, \$250,000 is provided to fund inflationary cost increases and \$250,000 is to fund a perimeter security and noise abatement study for the Rowley training facility.

TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

MANAGEMENT AND ADMINISTRATION

The bill includes \$51,350,000 for Management and Administration of the National Protection and Programs Directorate (NPPD). Given high vacancy levels that have persisted at NPPD throughout fiscal year 2008, the request for additional staff is reduced by \$1,500,000. No funding is provided to move the functions of the Office of Intergovernmental Programs from FEMA to NPPD therefore, this function shall remain within FEMA.

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

The bill includes \$806,913,000 for Infrastructure Protection and Information Security (IPIS). Funding levels by budget activity are as follows:

| | |
|---|----------------------|
| Infrastructure Protection | |
| Identification and Evaluation..... | \$80,603,000 |
| Coordination and Information Sharing..... | 62,367,000 |
| Mitigation Programs..... | 170,830,000 |
| | |
| National Cyber Security Division..... | 313,500,000 |
| | |
| NIPP Security/ Emergency Preparedness Telecom | |
| Priority Telecommunications Services..... | 58,740,000 |
| Next Generation Networks..... | 50,250,000 |
| National Command and Coordination Capability..... | 5,963,000 |
| Programs to Study and Enhance Telecommunications..... | 15,100,000 |
| Critical Infrastructure Protection Programs..... | 11,260,000 |
| | |
| Office of Emergency Communications..... | 38,300,000 |
| | |
| Total, Infrastructure Protection and Information Security..... | \$806,913,000 |

National

Expenditure Plans

Due to the inadequate level of detail provided in the budget justifications and other supporting materials, the bill restricts from obligation half of the funds appropriated for the National Cyber Security Initiative (\$127,462,000) and the Next Generation Networks program (\$25,125,000) until NPPD submits, and the Committees approve, expenditure plans for each of these programs. NPPD is directed to include in these plans the information discussed in the House report.

Chemical Facility Anti-Terrorism Standards and Ammonium Nitrate Regulation

The bill provides \$73,000,000 for implementation of the Chemical Facility Anti-Terrorism Standards and \$5,000,000 to implement ammonium nitrate regulations.

National Infrastructure Protection Plan Management (NIPP)

The bill provides \$30,993,000 for NIPP management and related Critical Infrastructure and Key Resource partnerships.

Vulnerability Assessments

The bill provides an increase of \$6,000,000 above the request to accelerate the pace of critical infrastructure and key resource vulnerability assessments.

Ethanol Transloading Facilities

NPPD is directed to report to the Committees on the results of a recent vulnerability assessment of an ethanol transloading facility in Virginia, as discussed in the House report.

Business Counterintelligence

As discussed in the House report, NPPD is directed to review the federal government's efforts to increase awareness of business counterintelligence and incorporate best practices into its NIPP management activities.

uc

Office of Bombing Prevention

The bill provides \$11,000,000 for the Office of Bombing Prevention, of which \$1,000,000 shall be for the purchase of the IED-Geospatial Analysis Tool Plus, as discussed in the House report.

Philadelphia Video Surveillance

As discussed in the House report, the bill provides \$2,000,000 for NPPD to continue deployment of infrastructure monitoring and crime cameras in the city of Philadelphia.

Underground Critical Infrastructure

The bill provides \$3,000,000 for the Department to pilot methods for securing underground critical infrastructure, as discussed in the House report.

National Infrastructure Simulation and Analysis Center

As discussed in the Senate report, the bill provides \$20,000,000 for the National Infrastructure Simulation and Analysis Center, which is led by Sandia and Los Alamos National Laboratories in New Mexico.

Cyber Security

The bill provides \$313,500,000 for activities of the NPPD National Cyber Security Division (NCSA), including \$254,924,000 for the Department of Homeland Security's share of the Administration's National Cyber Security Initiative (NCSI). This funding includes the requested levels for the US Computer Emergency Response Team and the Cyber Security Information Sharing and Collaboration program. Additional details are contained in the classified annex accompanying this explanatory statement. NPPD is required to submit an expenditure plan providing more details on the purpose and goals of the NCSI and how proposed expenditures will meet them. NPPD is also

directed to conduct a privacy impact assessment for its cyber security initiative and brief the Committees, as discussed in the Senate report.

Priority Telecommunications Services/Next Generation Networks

The bill provides \$58,740,000 for the Priority Telecommunications Service program and \$50,250,000 for the Next Generations Networks (NGN) program. NPPD is required in law to submit an expenditure plan detailing the purpose and goals of the NGN program. S
^

National Command and Coordination Capability

The bill provides \$5,963,000 for the National Command and Coordination Capability (NCCC). NPPD is expected to conduct a comprehensive assessment of the extensive emergency communications investments made by the Federal government since the creation of DHS, and to identify clearly how NCCC will enhance the multiple existing communications systems that connect Federal officials with their State and local counterparts.

Cyber Security Training

The bill provides \$3,500,000 for the continued development and implementation of the Community Cyber Security Maturity Model at the University of Texas at San Antonio, a training program designed to prepare State and local officials for responding to cyber attacks.

Control Systems Security

The bill provides \$22,000,000 for the National Cyber Security Division's efforts to improve security of control systems, of which \$4,000,000 is to establish a power and cyber system protection, analysis and testing program at the Idaho National Laboratory, as discussed in the House report. >
^

Classified Presidential Directives

As discussed in the Senate report, NPPD is strongly encouraged to re-examine policies on classification of Presidential Directives that purport to set government policy or provide critical information affecting State, local, and private sector officials. Given that many individuals not employed by the Federal government are not authorized to access classified documents, it seems problematic that important homeland security directives may not be available to the very people responsible for helping to implement them.

The bill includes \$300,000,000 for United States Visitor Immigrant Status Indicator Technology (US-VISIT). Of this amount, \$75,000,000 may not be obligated until the Committees receive an expenditure plan as specified in the House report, with the exception that neither GAO review nor Committee approval is required.

The bill provides that no funding shall be obligated for implementation of a final air exit solution until the Committees receive a report on air exit pilots, which shall be reviewed by GAO, and test at least two scenarios: (a) where airlines collect and transmit biometric exit data as proposed in the notice of proposed rulemaking (DHS-2008-0039, published on April 24, 2008) and (b) where CBP collects such information at departure gates.

Within the \$300,000,000 appropriated, \$20,000,000 is for identity management and screening services; \$66,368,000 is for the Unique Identity program, and \$25,327,000 is to move US-VISIT operations to a DHS data center, and establish a second disaster recovery site. The remaining \$188,305,000 is available for operations and maintenance, program management, and development and implementation of biometric exit solutions.

Expenditure Plan

In developing its expenditure plan, DHS is directed to ensure that all required certifications address not only prior year program performance, systems, and processes, but also address the elements of the fiscal year 2009 program outlined in the plan as they relate to procurement, risk management, and human resource best practices. In addition, DHS is directed to include in the expenditure plan a schedule for the data center transfers and a description of funding required, as specified in the House report.

Air Exit Pilots

DHS is directed to carry out the air exit pilots as outlined in the House report, with the exception that the pilots should be completed not later than January 31, 2009. There is no requirement for the report to be approved by the Committees. DHS is urged to work cooperatively with the airline industry to design and carry out air exit pilots as soon as possible.

2010 Budget Submission Information

DHS is directed to include with its fiscal year 2010 budget request, as specified in the House report, (1) a report on prospects for implementation of enumeration throughout DHS, and (2) a full description of the internal DHS governance process and steps US-VISIT and DHS have taken to define, manage and coordinate relationships between US-VISIT and other immigration and border management programs.

Expenditure Plan Certifications

The fiscal year 2008 US-VISIT expenditure plan submitted by the Department did not comply with requirements of the law; specifically, it failed to include required information in support of several certifications. Additionally, certifications seem to have been based in part on outdated assessments. DHS is directed to ensure that certifications submitted in support of future expenditure plans include all supporting documentation, and address current and prospective elements of the program.

US-VISIT Must Become a Current-Year Program

Repeated delays in submitting the legislatively required expenditure plans have resulted in US-VISIT becoming a forward-funded program. The fact that the fiscal year 2008 plan was not submitted until June 12, 2008, means that nearly a quarter of the program's budget will carry over into fiscal year 2009. This practice must stop. In prior years, Congress has approved virtually all the funding requested for the program. However, the reduction of \$90,300,000 in this bill is a response to the delay in submitting the expenditure plans and the resulting unobligated balances. DHS is directed to submit expenditure plans on a timely basis in order to ensure that US-VISIT becomes an effective, current-year program.

OFFICE OF HEALTH AFFAIRS

The bill provides \$157,191,000 for Office of Health Affairs (OHA). Of this amount \$29,210,000 is for salaries and expenses. Funds for planning and coordination activities are available as detailed in the House report.

A total of \$111,606,000 is provided for BioWatch. Concerns about the management of the BioWatch program, as detailed in the House report, include uncertainty about the relationship of generation 2.5 systems to generation 3.0 systems; a lack of clarity about how OHA measures the efficiency and effectiveness of the systems; and questions about how BioWatch should fit in with other surveillance efforts. In addition, it has become evident that, due to changes in performance standards and other factors, testing and deployment of the generation 3.0 systems could be delayed for as much as two years. The National Academy of Sciences (NAS) is currently evaluating the BioWatch program to assess its effectiveness and how it might fit in to an enhanced national public health surveillance system that now relies primarily on hospitals and the public health system. The results of the NAS evaluation are expected within a year, and OHA is expected to utilize those results in its BioWatch planning.

In light of the risks associated with biological threats and the ability to detect such threats in the most efficient manner, DHS must strike a careful balance between expediting the deployment of new technologies and ensuring that such technologies have been fully validated. In order to help strike that balance, a total of \$34,498,000 is included for field testing systems beyond generation 2.0 that can be deployed within 12 months. Funding shall be competitively awarded. Field tests should be conducted in high risk urban areas, as determined by the Secretary, and should be

initiated incrementally to ensure that lessons learned and performance data can inform decisions about future pilot deployments. Prior to commencing field testing, OHA shall work with the Science and Technology (S&T) Directorate to determine evaluation metrics. OHA is further directed to notify the Committees 15 days after deployment of any BioWatch device to a new location. OHA shall submit an expenditure plan on the BioWatch base program and an expenditure plan on the BioWatch field testing program within 60 days after the date of enactment of this Act. OHA shall notify the Committees within five days of any deviation from the expenditure plan.

Significant work must be done to better understand environmental exposures following disasters and to develop response protocols and technologies to mitigate health effects. OHA is urged to continue its activities in this area and coordinate a Federal effort to apply exposure science to disaster response by working with other Federal agencies that have expertise related to environmental exposures, public health, and occupational safety.

FEDERAL EMERGENCY MANAGEMENT AGENCY

MANAGEMENT AND ADMINISTRATION

The bill provides \$837,437,000 for FEMA Management and Administration. In addition, up to \$105,600,000 may be transferred from the Disaster Relief fund for disaster support costs, including conversion of FEMA's temporary disaster employees to permanent status. The funding available for transfer is unavailable until the Committees receive and approve an implementation plan, as detailed in the House report. Of the amount provided, no less than \$7,000,000 is for the Emergency Management Institute, no less than \$6,000,000 is for the National Dam Safety Program and no more than \$6,000,000 is for expiring leases of regional offices. Additionally, the Reserve Workforce Credentialing and Recruitment Plan shall be funded at no less than the amount requested in the budget.

The bill provides \$6,342,000 for the Office of National Capital Region Coordination. The bill includes a provision requiring the inclusion of the Governors of the State of West Virginia and the Commonwealth of Pennsylvania in the National Capital Region decision-making and planning process for mass evacuation. The Department is directed to include officials from the counties and municipalities that contain the evacuation routes and their tributaries into the planning process.

Measuring Preparedness

The bill provides \$5,000,000 to accelerate efforts at FEMA to develop tools to measure the achievement and effectiveness of certain grant programs, including how grants increase the capability of States and local communities to respond to all-hazards. GAO is directed to evaluate these grants measurement tools and determine whether the tools are reasonable and effective in measuring how grants increase the preparedness level and capabilities of each grant recipient and reduce risk. FEMA is directed to create

a task force and consult with State and local governments, as specified in the Senate report with regard to this effort.

Nuclear Preparedness

The bill provides \$6,000,000 for a nuclear preparedness effort. To address the shortfall in nuclear preparedness efforts at the Department, Congress provided \$5,500,000 to OHA in the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110-28) to begin modeling the effects of a potential nuclear attack and planning ways to mitigate its effects, including direction to develop effective communications. FEMA is to build on this effort and work with State ~~and local~~, and other relevant Federal agencies on planning efforts, and to continue to develop and test pre-event and post-event communication strategies. FEMA shall work with OHA and the Department of Health and Human Services on health aspects of a nuclear event.

↑ and local officials

Mt. Weather Capital Improvements

The bill provides the budget request for Mt. Weather capital improvements, an increase of \$10,413,000 from fiscal year 2008. FEMA is directed to provide a comprehensive five-year capital improvement plan, as detailed in the House report, for Mt. Weather by April 6, 2009.

Urban Search and Rescue Response System

The bill provides \$32,500,000 for the Urban Search and Rescue Response System. FEMA is directed to provide a report on the feasibility of adding an additional team to the Urban Search and Rescue program, including a recommendation for the geographical location and associated cost estimate if it determines that adding a new team is feasible and warranted, as discussed in the House report.

Emergency Alert System

The bill provides \$35,000,000 for the modernization of the Emergency Alert System (EAS), including the conversion of EAS to digital capability. Up to \$2,000,000 shall be used to validate Radio Broadcast Data System Technology as an effective means of notification of individuals during emergencies, to be competitively awarded. FEMA is directed to provide a plan to the Committees by January 2009 outlining the completion of the conversion to the Integrated Public Alert and Warning System as discussed in the House report.

Ready Campaign

The bill provides no less than \$2,500,000 for the READY campaign, which is transferred to FEMA from the Office of the Secretary and Executive Management. The program is to be combined with FEMA's "Are You Ready?" campaign.

Developing Best Practices

The bill provides \$2,200,000 to develop and implement best practices of all-hazards preparedness and response specific to the unique geographical features and remoteness of the Pacific Area.

Impact of Climate on Future Disasters

S
A

The bill provides \$5,000,000 for the State of North Carolina to perform a risk assessment and mitigation strategy demonstration of the potential impacts of sea level rise in that state associated with long-term climate change, as discussed in the House report. FEMA is directed to use the study results to assess the long-term fiscal implications of climate change as it affects the frequency and impacts of natural disasters, and to disseminate information from the study to other states to inform their climate change mitigation efforts.

UC

Flood Control and Hazard Mitigation Demonstration Program

The bill provides \$2,425,000 to conduct demonstration flood control and hazard mitigation projects with interagency stakeholders, including FEMA, the U.S. Army Corps of Engineers, the U.S. Department of Agriculture, and State and local agencies, as discussed in the House report. Funds are provided to demonstrate a wide range of project solutions across FEMA's multiple disaster preparedness and mitigation programs, including: retrofitting and hardening of existing flood walls and levees; pump refurbishment; land acquisition; transportation infrastructure modifications; and other flood damage reduction projects within the Upper Cumberland and Big Sandy Watershed, Kentucky.

Budget Submissions

The bill continues a provision directing FEMA to submit its fiscal year 2010 budget request by office. Each office and FEMA region shall provide: (1) budget detail by object classification; (2) the number of full-time equivalents on board; (3) the number of full-time equivalent vacancies; and (4) the appropriation account(s) used to support the office and the programs managed by the office.

FEMA is directed to notify the Committees within 15 days if any office receives or transfers more than 10 percent of the total amount allocated to each office. FEMA is expected, as part of the fiscal year 2010 budget request, to contain budget detail for the programs specified in the House report.

First Responder Readiness

FEMA is directed to submit a report, as specified in the House report, regarding the availability of training and an analysis of response capabilities of the U.S. territories.

FEMA is directed to examine major training programs to determine the utility of additional sites for all-hazard first responder training and report to the Committees on its findings.

Stakeholder Involvement

The bill withholds \$10,000,000 until the Secretary of Homeland Security, in coordination with the Administrator of FEMA, certifies and reports to the Committees that certain conditions have been met regarding the process to incorporate stakeholder input for grant guidance development and award distribution. Input from State Administrative Agencies, Regional Working Groups, Federal Preparedness Coordinators, the National Advisory Council, and other stakeholder groups shall be sought for this process, in accordance with Senate report. A similar provision is included within the Office of the Secretary and Executive Management. *the*

Special Populations

FEMA is directed to submit the report specified in the House report regarding Limited English Proficiency populations.

Information Technology

The bill provides the President's budget request for information technology improvements.

Regional Capability

FEMA is not currently using its Federal Medical Contingency Station (FMCS) Type-1. However, FEMA Region IV and the ~~states~~ states within that region have developed a plan for incorporating the FMCS Type-1 into a regional medical response system, in which the FMCS Type-1 would be assigned to a ~~state~~ state in the region but be available for both regional and national medical response via the Emergency Management Assistance Compact. FEMA is directed to transfer FMCS Type-1 to Region IV for this purpose. *lc*
lc

STATE AND LOCAL PROGRAMS

The bill provides \$3,105,700,000 for State and Local Programs. Funding is allocated as follows:

(Including transfer of funds)

| | |
|---|---------------|
| State Homeland Security Grant Program | \$950,000,000 |
| Urban Area Security Initiative | 837,500,000 |
| Regional Catastrophic Preparedness Grants | 35,000,000 |
| Metropolitan Medical Response System | 41,000,000 |
| Citizen Corps Program | 15,000,000 |
| Public Transportation Security Assistance and Railroad Security | 400,000,000 |

Assistance

Counterterrorism and
Cyber Crime Center

| | |
|--|----------------------|
| Assistance | |
| Port Security Grants | 400,000,000 |
| Over-the-Road Bus Security Grants | 12,000,000 |
| Trucking Industry Security Grants | 8,000,000 |
| Buffer Zone Protection Program | 50,000,000 |
| Commercial Equipment Direct Assistance Program | 8,000,000 |
| Interoperable Emergency Communications Grant Program | 50,000,000 |
| Emergency Operations Centers | 35,000,000 |
| National Programs: | |
| Center for Domestic Preparedness | 62,500,000 |
| National Domestic Preparedness Consortium | 102,000,000 |
| Cybercrime and Counterterrorism Training | 1,700,000 |
| National Exercise Program | 40,000,000 |
| Technical Assistance | 11,000,000 |
| Continuing Training Grants | 31,000,000 |
| Evaluations and Assessments | 16,000,000 |
| Subtotal, National Programs | 264,200,000 |
| Total State and Local Programs | \$3,105,700,000 |

Grants

The bill includes provisions (1) allowing the transfer of up to three percent of State and Local programs funding to FEMA’s “Management and Administration” account, and requiring the submission of an expenditure plan within 60 days after the date of enactment of this Act on the use of those administrative funds; (2) designating certain timeframes for grant processing; (3) requiring grantees to provide reports as determined necessary by the Secretary; (4) requiring GAO to report, not later than 45 days after the date of enactment of this Act, on the data, assumptions, and methodology that DHS uses to assess risk and allocate Urban Areas Security Initiative (UASI) and State Homeland Security Grant Program (SHSGP) funds; and (5) providing that the installation of communications towers is not considered construction of a building or other physical facility under the SHSGP and UASI program.

FEMA is directed, in conjunction with the Office of Health Affairs (OHA), to report to the Committees regarding the current state of disaster preparedness capabilities of emergency medical services, as discussed in the House report. FEMA is encouraged to require State and local governments to include Chief Information Officers in planning efforts, as discussed in the Senate report. Further, FEMA is encouraged to consider the need for mass evacuation planning and pre-positioning of equipment for areas potentially impacted by mass evacuations in allocating first responder funds.

Grants Management and Coordination

FEMA is expected to continue to fully engage agencies with subject matter expertise within the Department, when appropriate, in the development of grant guidance and the determination of awards. Such agencies include the Coast Guard, TSA, NPPD,

OHA, S&T, the Law Enforcement Advisor to the Administrator, the Office of Emergency Communications, and the DHS Office of State and Local Law Enforcement.

FEMA is directed to assume all coordination functions of grant programs for the Department and be the primary point of contact for all grantees.

Complying with the 9/11 Act

FEMA is directed to comply with the requirements of the 9/11 Act, as discussed in the House report including ensuring that current and future grantees are aware of and comply with the law, and removing the time limitation for intelligence analysts.

Critical Emergency Supplies

FEMA is directed to allow grant recipients to allocate a reasonable portion of grant funds, as determined by FEMA, for critical emergency provisions such as shelf stable food products, water, and basic medical supplies. FEMA should award funding for this purpose only after certifying that grant applicants have a viable inventory management plan, an effective distribution strategy, sustainment costs for such an effort, and logistics expertise to avoid situations where funds are wasted because supplies are rendered ineffective due to lack of planning. FEMA shall report to the Committees on lessons learned and best practices regarding this newly allowable expense, including how critical supplies and the distribution of them can be coordinated among Federal, State, and local entities for the most efficient and effective response.

State Homeland Security Grant Program

The bill provides \$950,000,000 for the SHSGP. The bill includes a provision directing that the Commonwealth of Puerto Rico shall be considered a State in the allocation of grant funds to local and tribal governments. In accordance with the 9/11 Act, at least 25 percent of SHSGP and UASI funds, shall be used for Law Enforcement Terrorism Prevention (LETPP) activities. FEMA is directed to provide clear guidance to States and urban areas to ensure that the intent of LETPP is fully realized and the program is fully maximized.

Included in the amount provided is \$60,000,000 for Operation Stonegarden. All awards shall be made on a competitive basis to tribal governments and units of local government, including towns, cities, and counties along the border of the U.S. to enhance the coordination between local and Federal law enforcement agencies. Eligible costs for Operation Stonegarden are as described in the House report. Only CBP and FEMA shall make award decisions. No administrative costs shall be deducted by States.

Urban Area Security Grant Program

Initiative

The bill provides \$837,500,000 for UASI grants. Within this funding, \$15,000,000 is provided for grants to non-profit organizations determined by the Secretary to be at high risk of terrorist attack.

Regional Catastrophic Preparedness Grant Program

The bill provides \$35,000,000 for the Regional Catastrophic Preparedness Grant Program. FEMA is directed to award funding as directed in the Senate report.

Metropolitan Medical Response System

The bill provides \$41,000,000 for the Metropolitan Medical Response System.

Public Transportation Security Assistance and Railroad Security Assistance

The bill provides \$400,000,000 for Public Transportation Security Assistance and Railroad Security Assistance. Of this amount \$25,000,000 is provided for Amtrak security needs. The bill includes a provision directing the Department to make grants directly to public transportation agencies. FEMA is directed to notify the States of the grantees at the time of the award to promote state-wide collaboration. The bill also prohibits the Department from requiring a cost share for fiscal year 2008 and fiscal year 2009 funds.

lc

Port Security Grants

The bill provides \$400,000,000 for Port Security grants. The Coast Guard shall make all final grant recommendations for Port Security grants.

Trucking Industry Security Grants

The bill provides \$8,000,000 for Trucking Industry Security Grants, to be competitively awarded, for an anti-terrorism and security awareness program for highway professionals and for an academic evaluation of the effectiveness of the program. FEMA is directed to submit an expenditure plan for the Trucking Industry Security Grant Program to the Committees prior to the obligation of funds.

Buffer Zone Protection Program

Grants

The bill provides \$50,000,000 for the Buffer Zone Protection Program.

Commercial Equipment Direct Assistance Program

The bill provides \$8,000,000 for the Commercial Equipment Direct Assistance Program.

Interoperability Emergency Communications Grants

The bill provides \$50,000,000 for Interoperability Emergency Communications Grants. In fiscal year 2008, FEMA placed priority on leadership and governance, common planning and operational protocols, and skills and capabilities, and the Committees agree with that priority. States and localities should be given flexibility to purchase equipment only if they have made progress in these other areas. Accordingly, the Department is directed to allow such States and local governments to use grant funds to purchase equipment pursuant to requirements in the 9/11 Act.

FEMA regional offices are directed to assist in regional integration of State communications plans.

Emergency Operations Centers

The bill provides \$35,000,000 for Emergency Operations Centers. Funding is provided for equipping, upgrading, and constructing EOCs pursuant to section 614 of the Stafford Act. This funding is in addition to funding States and locals may use from other Homeland Security grants for the same purpose. Of the amount provided, \$13,355,000 is available for a competitive program. The remaining funding is provided for the following Emergency Operations Center projects in the following amounts:

| | |
|--|-----------|
| Tensas Parish Police Jury, LA | \$750,000 |
| City of Rialto, CA | 225,000 |
| Village of Poynette, WI | 1,000,000 |
| Sebastian County, AR | 750,000 |
| Lake County, FL | 1,000,000 |
| Sarasota County, FL | 1,000,000 |
| Northumberland County, Department of Public Safety, PA | 1,000,000 |
| City of Detroit, MI | 1,000,000 |
| San Diego Unified School District, San Diego, CA | 400,000 |
| City of Half Moon Bay, CA | 750,000 |
| Chesterfield County, VA | 250,000 |
| Spencer County Commissioners, Rockport, IN | 1,000,000 |
| City of Gladstone, OR | 60,000 |
| City of Coral Springs, FL | 550,000 |
| Snohomish County, WA | 1,000,000 |
| County of Atlantic, NJ | 750,000 |
| City of Rio Vista, CA | 150,000 |
| American Red Cross, Sacramento Sierra Chapter, CA | 35,000 |
| Village of Bellerose, NY | 200,000 |
| Town of Pomona Park, FL | 300,000 |
| San Francisco Police Department, CA | 1,000,000 |
| North Carolina Department of Crime Control and Public Safety, NC | 1,000,000 |
| City of Del Rio, TX | 500,000 |

| | |
|--|-----------|
| City of Bell Gardens, CA | 175,000 |
| City of Cudahy, CA | 50,000 |
| The County of Cook, IL | 1,000,000 |
| Douglas County, GA | 500,000 |
| City of Richmond, Office of Emergency Management, VA | 750,000 |
| Hudson County, NJ | 1,000,000 |
| Marion County, FL | 750,000 |
| City of Miami Beach, FL | 1,000,000 |
| Vermont Emergency Management Agency, VT | 1,000,000 |
| Crittenden County, KY | 750,000 |

Center for Domestic Preparedness

The bill provides \$57,000,000 to continue activities for the Center for Domestic Preparedness and \$5,500,000 to continue activities for the Noble Training Center.

National Domestic Preparedness Consortium

The bill provides \$102,000,000 for the National Domestic Preparedness Consortium. Of the total amount available, \$23,000,000 is for the National Energetic Materials Research and Testing Center, New Mexico Institute of Mining and Technology; \$23,000,000 is for the National Center for Biomedical Research and Training, Louisiana State University; \$23,000,000 is for the National Emergency Response and Rescue Training Center, Texas A&M University; \$23,000,000 is for the National Exercise, Test, and Training Center, Nevada Test Site; \$5,000,000 is for the Transportation Technology Center, Incorporated, in Pueblo, Colorado; and \$5,000,000 is for the National Disaster Preparedness Training Center, University of Hawaii, Honolulu, Hawaii.

Counterterrorism and Cybercrime Training

Crime Center

the

The bill provides \$1,700,000 for counterterrorism and cybercrime training as directed in the Senate report.

Center,

Continuing Training Grants

The bill provides \$31,000,000 for continuing training grants and supports programs which consistently deliver homeland security curricula in the form of executive education programs and accredited Masters Degree education. Full funding is recommended for the graduate-level homeland security education programs the Department currently supports, and the Department is encouraged to leverage these existing programs to meet the growing need for graduate-level education.

National Exercise Program

The bill provides \$40,000,000 for the national exercise program. The Department is directed to report to the Committees as discussed in the House report.

Technical Assistance

The bill provides \$11,000,000 for technical assistance, which provides direct assistance to State, regional, local, and tribal jurisdictions to enhance their capabilities to prevent, protect against, respond to, and recover from major events, and to improve homeland security program management.

Evaluations and Assessments

The bill provides \$16,000,000 for Evaluations and Assessments.

Rural Domestic Preparedness Consortium

The Rural Domestic Preparedness Consortium (RDPC) continues to make progress in meeting its mission to provide training and technical assistance to rural jurisdictions. In recent testimony, FEMA's Deputy Administrator for National Preparedness, stated, "A unique aspect of the RDPC is that it addresses preparedness activities for a broad scope of stakeholders within rural jurisdictions". The Committees recognize the consortium has sufficient funds for continued operations in fiscal year 2009.

FIREFIGHTER ASSISTANCE GRANTS

The bill provides \$775,000,000 for firefighter assistance, including \$565,000,000 for firefighter assistance grants, and \$210,000,000 for firefighter staffing grants, to remain available until September 30, 2010.

FEMA is directed to continue the present practice of funding applications according to local priorities and those established by the United States Fire Administration, and to make \$3,000,000 available for implementation of section 205(c) of Public Law 108-169. FEMA is further directed to encourage applications from multiple fire departments and not restrict the lead applicant from submitting a separate application, as discussed in the House report.

The bill includes a provision allowing up to five percent of grant funds to be used for program administration, and requiring an expenditure plan to be submitted within 60 days after the date of enactment of this Act that details the use of funds.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

The bill provides \$315,000,000 for Emergency Management Performance Grants.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

The bill provides for the receipt and expenditure of fees collected, as authorized by Public Law 105-276.

UNITED STATES FIRE ADMINISTRATION

The bill provides \$44,979,000 for the United States Fire Administration (USFA). Of the amount provided, \$500,000 is to address deferred maintenance needs on the USFA campus. FEMA is directed to submit a master facilities plan, as detailed in the Senate report. Of the amount provided, \$1,179,000 is provided for the implementation of the National Fire Incident Report System.

DISASTER RELIEF

The bill provides \$1,400,000,000 for Disaster Relief, and allows the transfer of \$105,600,000 to FEMA's "Management and Administration" account for disaster support costs, including FEMA's effort to convert temporary disaster employees to permanent status. In addition, the bill allows the transfer of \$16,000,000 to OIG for audits and investigations of disasters.

(Including Transfer of Funds)

The bill continues the requirement for a monthly report and adds a requirement that the report include the amount provided to each Federal Agency for mission assignments. The bill does not specify an amount for disaster readiness and support costs, although it is an allowable expense, but does require FEMA to submit an expenditure plan to the Committees detailing the use of funds for disaster readiness and support costs within 60 days after the date of enactment of this Act. FEMA shall provide a quarterly report detailing obligations against the expenditure plan and a justification for any changes in spending.

le

FEMA is directed to maintain the Florida long-term recovery office as long as there is sufficient work to be done following the 2004 and 2005 hurricanes that struck the State. FEMA shall notify the Committees, as detailed in the House and Senate reports.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

The bill provides \$295,000 for the cost of loans. Administrative costs are provided for in the FEMA "Management and Administration" Account.

le

FLOOD MAP MODERNIZATION FUND

The bill provides \$220,000,000 for the Flood Map Modernization Fund. FEMA is expected to focus on updating, reviewing, and maintaining maps that have already been modernized to ensure that flood maps remain current to accurately reflect flood hazards. The goal shall be to review and, as necessary, update maps that are three years past their modernized dates, and to complete necessary updates no later than five years past their modernized dates to ensure maps are accurately maintained. To support this goal and to leverage the use of Federal resources for this activity, FEMA is directed that no less than 20 percent of the funds provided under this heading be made available for map maintenance conducted by Cooperating Technical Partners that provide a 25 percent cash match and have a strong record of working effectively with FEMA on floodplain mapping activities. Concurrent with the fiscal year 2010 budget submission, FEMA shall submit to the Committees on Appropriations a five-year National Flood Map Maintenance Plan for fiscal years 2010-2014.

FEMA is encouraged to prioritize as criteria the number of stream and coastal miles within the state, the Mississippi River Delta region, and the participation of the state in leveraging non-federal contributions.

NATIONAL FLOOD INSURANCE FUND

The bill provides up to \$49,418,000 for salaries and expenses to administer the National Flood Insurance Fund; up to \$80,000,000 for the severe repetitive loss property mitigation program under section 1361A of the National Flood Insurance Act; \$10,000,000 for the repetitive insurance claims properties under section 1323 of the National Flood Insurance Act; and \$35,700,000 for Flood Mitigation Assistance under section 1366 of the National Flood Insurance Act. No less than \$107,181,000 is available for flood plain management and flood mapping. Funds are available until September 30, 2010, and funding is offset by premium collections.

NATIONAL PREDISASTER MITIGATION FUND

The bill provides \$90,000,000 for the Predisaster Mitigation Fund. The following predisaster mitigation projects are provided in the following amounts:

| | |
|--|--------------|
| City of Rainbow City, AL | \$ 1,000,000 |
| Municipality of Murrysville, PA | 100,000 |
| Bibb County, Emergency Management Agency, AL | 750,000 |
| City of Wynne, AR | 50,000 |
| City of San Diego, CA | 1,000,000 |
| Pinellas County, FL | 1,000,000 |

EMERGENCY FOOD AND SHELTER

The bill provides \$200,000,000 for Emergency Food and Shelter.

CERRO GRANDE FIRE CLAIMS

The bill rescinds \$9,000,000, as requested.

(Rescission of funds)

TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

The bill includes \$101,740,000 for United States Citizenship and Immigration Services (USCIS). The bill funds REAL-ID hub development within Title V.

E-Verify

The bill provides the requested \$100,000,000 for the E-Verify program (previously called Employment Eligibility Verification ~~(EEV)~~ or Basic Pilot).

User Fee Funded Programs

Current estimates of fee collections, which constitute the majority of USCIS resources, are \$2,539,186,000. These revenues support adjudication of applications for immigration benefits and fraud prevention activities, and are derived from fees collected from persons applying for immigration benefits. Within the total fees collected, USCIS is directed to provide no less than \$53,747,000 to support Customer Service Center operations, and to dedicate the entirety of premium processing revenue to business system and information technology transformation. USCIS is directed to provide up to \$28,000,000 for converting immigration records to digital format as planned for fiscal year 2009. No more than \$10,000 of the fees collected shall be used for official reception and representation expenses.

FBI Name Check Backlog

USCIS and the FBI have made significant progress reducing the backlog of immigration applications awaiting FBI background checks. However, as discussed in the Senate report, it is imperative that both agencies remain vigilant to prevent the return of backlogs in the future. DHS is directed to advise the Committees of any resource requirements necessary to avoid the development of new backlogs.

Education
Grants

The bill includes \$1,200,000 for competitively-awarded grants to organizations promoting the rights and responsibilities of citizenship, as discussed in the House report.

Naturalization Ceremonies

USCIS is directed to identify, in the fiscal year 2010 budget submission, funds allocated to naturalization and oath of allegiance ceremonies and to work with local public and private groups to schedule naturalization and oath of allegiance ceremonies as part of Independence Day celebrations, as directed in the House report.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

The bill provides \$246,530,000 for Federal Law Enforcement Training Center (FLETC) Salaries and Expenses. Funding above the President's request shall be allocated as follows: \$2,000,000 for leveraging Department of Defense modeling and simulation technologies; \$2,200,000 for instructors for United States Capitol Police training needs; \$5,640,000 for basic training for additional hiring in CBP and ICE; and \$4,000,000 to implement the Rural Policing Institute as authorized ~~in~~ the 9/11 Act. Additionally, the ~~Committees support the Federal Law Enforcement Training Center naming the FLETC, Artesia campus.~~ *by*

Washington Office

The bill does not eliminate \$730,000 in funding for the Washington, DC office.

Accreditation

The bill requires the Federal Law Enforcement Training Accreditation Board (FLETA) to develop standards that require agencies seeking accreditation of their basic or entry level law enforcement training programs to include comprehensive training on ethics and integrity. The FLETA Board is directed to submit a report to the Committees no later than December 1, 2008, on the implementation of this directive.

Rural Policing Institute

FLETC is directed to provide a business plan to the Committees within 90 days after the date of enactment of this Act as detailed in the Senate report.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The bill provides \$86,456,000 for Acquisitions, Construction, Improvements, and Related Expenses. Within this total, \$40,000,000 is provided to construct a replacement

dormitory on the FLETC Charleston campus and \$3,000,000 is provided to complete construction of training-related facilities at Artesia, New Mexico.

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

The bill provides \$132,100,000 for Management and Administration. This amount includes \$10,000 for official reception and representation. S&T shall notify the Committees pursuant to section 503 of this Act if they assess any program for administrative costs exceeding 5 percent of the total program appropriation.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

The bill provides \$800,487,000 for Research, Development, Acquisition, and Operations. The following table specifies funding by budget activity:

| | |
|--|---------------|
| Border and Maritime Security | \$33,050,000 |
| Chemical and Biological | 200,408,000 |
| Command, Control, and Interoperability | 74,890,000 |
| Explosives | 96,149,000 |
| Human Factors | 12,460,000 |
| Infrastructure and Geophysical | 75,816,000 |
| Innovation | 33,000,000 |
| Laboratory Facilities | 161,940,000 |
| Test and Evaluations/Standards | 28,674,000 |
| Transition | 28,830,000 |
| University Programs | 50,270,000 |
| Homeland Security Institute | 5,000,000 |
| Total | \$800,487,000 |

Border and Maritime Security

The bill provides \$33,050,000 for Border and Maritime Security, including \$2,750,000 for maritime activities. S&T shall brief the Committees on how these funds will be allocated.

Command, Control, and Interoperability

The bill provides \$74,890,000 for Command, Control, and Interoperability. Within this total, not less than \$3,000,000 is to continue the ~~web~~ distributed environment for critical infrastructure decision making exercises and \$9,500,000 is for cyber security

UC

activities above those included in the budget request. S&T shall brief the Committees on how it will allocate the additional cyber security funds.

Infrastructure and Geophysical

The bill provides \$75,816,000 for Infrastructure and Geophysical. Within the funding provided, \$27,000,000 is to continue the Southeast Region Research Initiative and \$11,000,000 is for the National Institute for Hometown Security to support community-based critical infrastructure protection solutions.

Innovation

The bill provides \$33,000,000 for Innovation. Funding has been reduced from the budget request for two reasons. First, the OIG has raised concerns about how projects were selected and managed under this program. Second, it has taken S&T nine months to inform the Committees on how it will spend the funding provided in fiscal year 2008. Consistent with last year, S&T is directed to provide an expenditure plan to the Committees for the fiscal year 2009 appropriation on a project-by-project basis.

New Technologies

New technologies may significantly help the Department as it seeks to secure our homeland. The Department is encouraged to develop a variety of technologies as discussed in both the House and Senate reports.

Laboratory Facilities

The bill provides \$161,940,000 for Laboratory Facilities. Within the total, \$25,000,000 is provided for construction obligations at the Physical Science Facility and refurbishment of building 325 at Pacific Northwest National Laboratory in support of the memorandum of understanding between DHS, the Department of Energy and the National Nuclear Security Administration.

The bill includes a provision requiring a GAO review of the Department's National Bio and ~~Agro~~-defense Facility risk assessment prior to the obligation of construction funding.

Agro

Test and Evaluations/Standards

The bill provides \$28,674,000 for Test and Evaluations/Standards. Within the funds provided, \$5,000,000 shall be to develop an operational test and evaluation program for first responder technologies so that there is a unified effort to objectively evaluate products against minimum requirements as discussed in the House report.

Transition

The bill provides \$28,830,000 for Transition. Within the funds provided, \$2,000,000 shall be used to establish a pilot program to identify and transition advanced technologies and manufacturing processes in the homeland security industrial base. Funding for the Homeland Security Institute is not included in this appropriation as the Committees prefer this activity to remain a separate PPA for budgetary transparency.

research,
develop,

Technologies to Secure the Homeland and Advance Responder Effectiveness (Tech SHARE)

The bill fully funds the budget request of \$9,500,000 for the Tech SHARE program. This program provides funds to ensure continuous operation of the centralized technology clearinghouse for the dissemination of homeland security science and technology to Federal, State, local and tribal agencies, a critical component of implementing Section 313 of the Homeland Security Act.

University Programs

The bill provides \$50,270,000 for University Programs. Within this funding, \$36,720,000 is for the Centers of Excellence and \$2,000,000 is to support the ongoing Memorandum of Agreement with the Naval Postgraduate School. S&T is directed to report to the Committees on how these additional funds will be allocated to the Centers of Excellence by December 15, 2008. As part of this report, S&T should discuss the process used for identifying specific areas of focus for the Centers of Excellence as well as provide a state-by-state breakdown of institutions participating in each of the centers.

Unobligated Balances

For the past few years, S&T has had high unexpended obligations in its Research, Development, Acquisition, and Operations account. S&T has made efforts to reduce these balances and has initiated a quarterly review to identify unused funds for work that has not yet been completed. S&T is directed to brief the Committees on the results of its quarterly validation and verification reviews and the amounts available to deobligate, and to identify how S&T plans to use these funds. The first quarterly brief should occur after the close of the first quarter of fiscal year 2009 and should include appropriate documentation on the unobligated balances. In addition, S&T should submit, as part of its fiscal year 2010 budget justification, a report on its unexpended obligated balances and justify instances where high balances occur.

DOMESTIC NUCLEAR DETECTION OFFICE

MANAGEMENT AND ADMINISTRATION

The bill provides \$37,500,000 for Management and Administration. No funding has been appropriated for new positions as nearly 20 percent of previously approved

positions remain vacant. These vacancies include positions of critical importance, such as the Budget Officer and technical specialists.

lc

RESEARCH, DEVELOPMENT, AND OPERATIONS

The bill provides \$323,200,000 for Research, Development, and Operations. The following table specifies funding by budget activity:

| | |
|---|---------------|
| Systems Engineering and Architecture | \$25,147,000 |
| Systems Development | 108,100,000 |
| Transformational Research and Development | 103,300,000 |
| Assessments | 32,000,000 |
| Operations Support | 37,753,000 |
| National Technical Nuclear Forensics Center | 16,900,000 |
| Total | \$323,200,000 |

Transformational Research and Development

The bill provides \$103,300,000 for Transformational Research and Development. This funding level supports critical ongoing initiatives such as standoff detection and intelligent personal radiation locators but reduces funding for new initiatives. The Domestic Nuclear Detection Office (DNDO) should undertake aggressive efforts within transformational research and development to fund and analyze technologies that can detect shielded highly-enriched uranium.

National Technical Nuclear Forensics Center

The bill provides \$16,900,000 for the National Technical Nuclear Forensics Center. Within this total, \$1,000,000 has been provided for the new fellowship program. This program is funded at an introductory scale and should grow based on performance and participation. As discussed in the Senate report, DNDO shall submit a report on the National Technical Nuclear Forensics Center, its quality assurance program, the results of the National Academy of Sciences study, and steps the Center is taking to implement these recommendations.

Securing the Cities

The bill provides \$30,000,000 for the Securing the Cities pilot, including \$10,000,000 in Research, Development and Operations and \$20,000,000 in Systems Acquisition.

On-Dock Rail Applications

The bill includes \$15,000,000 as requested to develop on-dock rail applications. DNDO, in conjunction with CBP, is encouraged to continue the development, engineering, and testing for both straddle carriers and crane-mounted sensors and portals that can be used in rail and ship yards.

Quarterly Briefings on New Technologies Pilots and Assessments

DNDO shall prioritize its development and deployment of detection equipment based on risk, and as appropriate focus on other cargo and passenger pathways into the country, such as bulk rail, general aviation, small pleasure craft, or other routes it deems the highest risk. As previously required, DNDO shall continue to provide quarterly briefings on new technologies pilots and assessments it is conducting to reduce vulnerabilities at airports, from general aviation aircraft, in the maritime environment, in rail yards, and at non-ports of entry land border crossings.

Cargo Advanced Automated Radiography System

DNDO shall submit a report on the cargo advanced automated radiography system that discusses the ~~agency's~~ progress in developing this system and an explanation of the process used to solicit requests from all eligible applicants, including minority, women, and veteran-owned businesses, as discussed in the House report.

Office's

Nuclear Threat and Resource Allocation

Funds are provided within FEMA to study the effects of a potential nuclear attack and begin planning ways to mitigate its effects. Funds are not provided for an independent study for mitigation measures.

SYSTEMS ACQUISITION

The bill provides \$153,491,000 for Systems Acquisition. The following table specifies funding by budget activity:

| | |
|---|---------------|
| Radiation Portal Monitor Program..... | \$120,491,000 |
| Securing the Cities..... | 20,000,000 |
| Human Portable Radiation Detection Systems Program..... | 13,000,000 |
| Total | \$153,491,000 |

Radiation Portal Monitor Program

The bill provides \$120,491,000 for the Radiation Portal Monitor Program. Within this appropriation, full funding has been provided for DNDO's effort to procure and deploy additional polyvinyl toluene (PVT) based fixed radiation portal monitors to

seaports and land borders and to deploy PVT units in the air cargo environment. A reduction has been made to the advanced spectroscopic portal (ASP) monitor program due to further delays in the development of these technologies. The bill includes a prohibition on full scale procurement of ASP monitors until the Secretary has certified and reported to the Committees that a significant increase in operational effectiveness merits such a decision. If the Secretary is unable to certify that ASP monitors are more effective than the current PVT monitors, then DNDO should use its fiscal year 2009 funding to acquire traditional PVT radiation portal monitors. The bill also requires separate and distinct certifications for primary and secondary deployments in recognition of the inherently unique operational requirements each presents. The bill prohibits high-risk concurrent development and production of mutually dependent software and hardware components of detection systems. This restriction is included to address the acquisition and fiscal risks associated with such concurrency and in response to the testing difficulties DNDO has encountered over the last fiscal year. Finally, the Secretary shall consult with the National Academy of Sciences before making such certification decisions.

TITLE V—GENERAL PROVISIONS

(Including Rescissions of Funds)

Section 501. The bill continues a provision that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. The bill continues a provision that unexpended balances of prior appropriations may be merged with new appropriations accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. The bill continues and modifies a provision that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification of the Committees. A detailed funding table identifying programs, projects, and activities is included at the end of this statement. This table along with funding levels specified in the report required under subsection (e) shall serve as the control level for all reprogrammings. These reprogramming guidelines shall be complied with by all agencies funded by the Department of Homeland Security Appropriations Act, 2009.

The Department shall submit reprogramming requests on a timely basis and provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the

→ S
→ S and

current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Department shall manage its programs and activities within the levels appropriated. The Committees are concerned with the number of reprogramming proposals submitted for consideration by the Department and remind the Department that reprogramming or transfer requests should be submitted only in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request ~~approved~~. dis

The Department is not to submit a reprogramming or transfer of funds after June 30 except in extraordinary circumstances, which imminently threaten the safety of human life or the protection of property. If a reprogramming or transfer is needed after June 30, the notice should contain sufficient documentation as to why it meets this statutory exception. Reprogramming proposals submitted by June 30 can be approved after that date.

Section 504. The bill continues and modifies a provision extending the authorization of the Department's Working Capital Fund in fiscal year 2009. No funds appropriated or otherwise available to the Department may be used to make payment to the Department's WCF, except for activities and amounts allowed in the President's fiscal year 2009 budget. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the contributing component. Any funds paid in advance or reimbursed must reflect the full cost of each service. The WCF shall be subject to the requirements of section 503 of this Act.

Section 505. The bill continues a provision that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2009 from appropriations made for salaries and expenses shall remain available through fiscal year 2010 subject to reprogramming guidelines.

Section 506. The bill continues a provision deeming that funds for intelligence activities are specifically authorized during fiscal year 2009 until the enactment of an Act authorizing intelligence activities for fiscal year 2009.

Section 507. The bill continues and modifies a provision requiring notification of the Committees three business days before any grant allocation, discretionary grant award, discretionary contract award, including Federal Acquisition Regulation-covered contracts, letter of intent, or public announcement of the intention to make such an award totaling in excess of \$1,000,000. If the Secretary determines that compliance would pose substantial risk to health, human life, or safety, an award may be made without prior notification but the Committees shall be notified within five business days.

Additionally, ~~the~~ FEMA is required to brief the Committees five full business days prior to announcing publicly the intention to make an award under the State Homeland Security Grant Program, Urban Area Security Initiative, ~~or~~ Regional Catastrophic Preparedness Grant Program. and

Section 508. The bill continues a provision that no agency shall purchase, construct, or lease additional facilities for Federal law enforcement training without advance approval of the Committees.

Section 509. The bill continues a provision that none of the funds may be used for any construction, repair, alteration, or acquisition project for which a prospectus, otherwise required under chapter 33 of Title 40, United States Code, has not been approved. The bill excludes funds that may be required for development of a proposed prospectus.

Section 510. The bill includes a provision that consolidates and continues by reference prior year statutory bill language into one provision. These provisions relate to reporting requirements of the privacy officer; contracting officer's technical representative training; sensitive security information; federal building performance and requirements outlined in title V of the National Energy Conservation Policy Act or subtitle A of title I of the Energy Policy Act of 2005; use of funds in conformance with section 303 of the Energy Policy Act of 1992; and Executive Order 13149 relating to fleet and transportation efficiency.

Section 511. The bill continues a provision that none of the funds may be used in contravention of the Buy American Act.

Section 512. The bill continues a provision to prohibit the obligation of funds for the Secure Flight program, except on a test basis, until the requirements of section 522 of Public Law 108-334 have been met and certified by the Secretary of DHS and reviewed by the GAO. GAO shall continue to evaluate DHS and TSA actions to meet the ten conditions listed in section 522(a) of Public Law 108-334 and to report to the Committees, either incrementally as the Department meets additional conditions, or when all conditions have been met by the Department. The bill also prohibits the obligation of funds to develop or test algorithms assigning risk to passengers not on government watch lists and for a commercial database that is obtained from or remains under the control of a non-federal entity, excluding Passenger Name Record data obtained from air carriers. Within 90 days after the date of enactment of this Act, TSA shall submit a detailed plan on achieving key milestones and methodology used for certification.

Section 513. The bill continues a provision prohibiting funds to be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448).

Section 514. The bill continues a provision regarding competitive sourcing.

Section 515. The bill continues a provision directing TSA to research, develop, and procure new technologies to inspect and screen air cargo. In the interim, TSA shall utilize existing checked baggage explosive detection equipment and screeners to screen cargo on passenger aircraft when practicable. TSA shall work with air carriers and airports to ensure the screening of cargo carried on passenger aircraft, as required by the 9/11 Act, increases incrementally each quarter. TSA shall take all possible measures to ensure air carriers are submitting data consistent with current security directives, including enforcement actions for non-compliance. TSA is required to report air cargo inspection statistics detailing how incremental progress is being made to the Committees within 45 days of the end of each quarter of the fiscal year.

Section 516. The bill continues a provision directing that any funds appropriated or transferred to TSA "Aviation Security", "Administration", and "Transportation Security Support" in fiscal years 2004, 2005, 2006, and 2007 that are recovered or deobligated shall be available only for procurement and installation of explosives detection systems, for air cargo, baggage, and checkpoint screening systems, subject to notification. Quarterly reports must be submitted identifying any funds that are recovered or deobligated.

Section 517. The bill continues a provision requiring any funds appropriated to Coast Guard for 110-123 foot patrol boat conversions that are recovered, collected, or otherwise received as a result of negotiation, mediation, or litigation, shall be available until expended for the replacement patrol boat program.

Section 518. The bill continues and modifies a provision that prohibits obligation of funds to commence operations at the National Applications Office (NAO) other than those previously carried out under the authorities of the Civil Applications Committee until certain conditions are met. The bill also requires the OIG to audit the operations of the NAO and provide quarterly reports to the Committees, starting six months after the date of enactment of this Act. In addition, the bill includes a provision that prohibits ~~obligation of funds provided in this Act~~ to commence operations of the National Immigration Information Sharing Operation until certain conditions are met. ^{obligation of}

Section 519. The bill continues a provision requiring the Chief Financial Officer to submit monthly budget execution and staffing reports within 45 days after the close of each month.

Section 520. The bill continues a provision relating to undercover investigative operations authority of the Secret Service.

Section 521. The bill continues a provision classifying the functions of instructor staff at FLETC as inherently governmental for purposes of the Federal Activities Inventory Reform Act of 1998.

Section 522. The bill includes a new provision pertaining to the human resource^s management system.

Section 523. The bill continues a provision regarding the enforcement of section 4025(1) of Public Law 108-458 pertaining to butane lighters.

Section 524. The bill continues and modifies a provision prohibiting the Secretary of Homeland Secretary from reducing operations within the Coast Guard's civil engineering program except as specifically authorized in statute after enactment of this Act.

the date of

Section 525. The bill continues and modifies a provision prohibiting the obligation of funds to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, and the Office of the Chief Financial Officer for grants or contracts awarded by any means other than full and open competition. Certain exceptions apply. The bill also requires the OIG to review Departmental contracts awarded noncompetitively and report on the results to the Committees.

or

Section 526. The bill continues a provision that prohibits funding for any position designated as a Principal Federal Official (PFO) during a Stafford Act declared disasters or emergencies.

Section 527. The bill continues a provision prohibiting funding to grant an immigration benefit to any individual unless the results of background checks required in statute to be completed prior to the grant of the benefit have been received by DHS.

Section 528. The bill continues a provision prohibiting use of funds to destroy or put out to pasture any horse or other equine belonging to the Federal government unless adoption has been offered first.

Section 529. The bill continues a provision that precludes DHS from using funds in this Act to carry out reorganization authority.

Section 530. The bill continues a provision regarding the use of the National Center for Critical Information Processing and Storage data center.

Section 531. The bill continues a provision prohibiting funds from being used to reduce the Coast Guard's Operations Systems Center mission or its government-employed or contract staff.

Section 532. The bill continues a provision prohibiting funds to be used to conduct or implement the results of a competition under Office of Management and Budget Circular A-76 with respect to the Coast Guard National Vessel Documentation Center.

Section 533. The bill continues a provision that requires the Secretary to link all contracts that provide award fees to successful acquisition outcomes.

Section 534. The bill continues a provision prohibiting the obligation of funds for the Office of Secretary and Executive Management for any new hires at DHS if they are not verified through the E-Verify system.

Section 535. The bill continues a provision related to prescription drugs.

Section 536. The bill continues a provision prohibiting funds available in this Act from being used to implement a rule or regulation which implements the notice of proposed rulemaking related to Petitions for Aliens to Perform Temporary Nonagricultural Services or Labor (H-2B) set out beginning on 70 Federal Register 3984 (January 27, 2005).

Section 537. The bill continues and modifies a provision relating to other transactional authority of DHS through fiscal year 2009. Language requires the Secretary to issue policy guidance detailing the appropriate use of other transactional authority and provide training to each employee that has authority to handle procurements under this authority. The Secretary shall report on projects that this authority was used for.

Section 538. The bill continues a provision prohibiting funds for planning, testing, piloting or developing a national identification card.

Section 539. The bill continues a provision that requires a report summarizing damage assessment information used to determine whether to declare a major disaster.

Section 540. The bill includes a new provision relating to the liquidation of Plum Island assets if the site is not chosen for the new National Bio and Agro-defense Facility and how the proceeds from this sale may be applied.

Section 541. The bill includes a new provision directing that any official required by this Act to report or certify to the Committees on Appropriation may not delegate ~~any~~ such authority unless expressly authorized to do so in this Act. S

Section 542. The bill includes a new provision requiring the Secretary of Homeland Security, in conjunction with the Secretary of Treasury, to notify the Committees of proposed transfers of surplus balances from the Department of Treasury Forfeiture Fund to any agency within the Department of Homeland Security. No transfers may be obligated until the ~~the~~ committees approve the proposed transfers. uc and their use

Section 543. The bill includes a new provision pertaining to alien flight school training.

Section 544. The bill includes a new provision on unmanned aerial systems.

Section 545. The bill includes a new provision requiring the Assistant Secretary of Homeland Security (TSA) to certify that no security risks will result if any airport does not participate in the basic pilot program.

Section 546. The bill includes a new provision related to disaster assistance payments for police stations, fire stations, or criminal justice facilities that were damaged by Hurricanes Katrina or Rita.

Section 547. The bill includes a new provision providing \$50,000,000 for REAL ID grants and \$50,000,000 for a REAL ID information ~~hub~~.

sharing and verification system.

Section 548. The bill includes a new provision regarding debris removal in Mississippi as a result of Hurricane Katrina.

Section 549. The bill rescinds \$31,000,000 from unobligated balances of prior year appropriations made available for the TSA, ~~Aviation Security~~. Language is included that specifies ~~which accounts~~ cannot be rescinded. TSA shall notify the Committees on the distribution of the rescission prior to its implementation.

to

programs from which funds

Section 550. The bill rescinds \$21,373,000 from unobligated balances of prior year appropriations made available for Analysis and Operations. The Secretary shall notify the Committees on the distribution of the rescission ~~45~~ days after the date of enactment of this Act.

30

Section 551. The bill rescinds \$20,000,000 from unobligated balances of prior year appropriations made available for the Coast Guard "Acquisition, Construction and Improvements". The Coast Guard shall notify the Committees on the distribution of the rescission prior to its implementation.

h

Section 552. The bill includes a new provision on predisaster mitigation.

Section 553. The bill includes new language extending the authority of the Predisaster Mitigation Fund until September 30, 2009.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY
DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION E - MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND
RELATED AGENCIES APPROPRIATIONS ACT, 2009

Following is an explanation of the effect of this division, which makes appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year 2009. As provided in section 4 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this division as if it were a joint explanatory statement of a committee of conference.

Matters Addressed by Only One Committee.-The language and allocations set forth in House Report 110-775 and Senate Report 110-428 should be complied with unless specifically addressed to the contrary in the bill and this explanatory statement. Report language included by the House, which is not changed by the report of the Senate or this explanatory statement, and Senate report language, which is not changed by this explanatory statement, is approved by the Appropriations Committees of both Houses of Congress. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress.

TITLE I

DEPARTMENT OF DEFENSE

ITEMS OF GENERAL INTEREST

Incrementally Funded Projects.-The Appropriations Committees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The Appropriations Committees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The Appropriations Committees have therefore agreed that the following projects will be incrementally funded: Command and Battle Center, Wiesbaden, Germany; Barracks and Dining, Fort Carson, Colorado; and Barracks and Dining, Fort Stewart, Georgia. The Committees fully support the completion of these projects.

Foreign Currency Fluctuations Account Transfers.-The Department of Defense is directed to submit to the Committees on Appropriations of both Houses of Congress a quarterly report on the Foreign Currency Fluctuations, Construction, Defense account. This report shall specify the amount transferred to the Foreign Currency account from each military construction and family housing account, and all other accounts for which

an appropriation is provided in this Act, during the preceding fiscal quarter, and the amounts transferred from the Foreign Currency account to the above accounts during the same period. This report shall be submitted no later than 30 days after the close of each fiscal quarter. In addition, the Department of Defense is directed to notify the Committees on Appropriations within seven days of transferring any amount in excess of \$10,000,000 to or from the Foreign Currency account.

Reprogramming Guidelines.-The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted, except that the Department of Defense may seek reprogrammings for appropriated increments.

The reprogramming criteria that apply to military construction projects (25 percent of the funded amount or \$2,000,000, whichever is less) continue to apply to new housing construction projects and to improvements over \$2,000,000. To provide the services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed. Planning and design costs associated with military construction and family housing projects may also be excluded from these guidelines.

In instances where prior approval to a reprogramming request for a project or account has been received from the Committees on Appropriations, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogrammings and notifications, including the pertinent statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda.

Submission of Overdue Reports.-The Appropriations Committees have previously expressed concern at the Department's frequent failure to comply with deadlines for submitting mandated reports. Again in 2008, a number of reports related to major Department initiatives were not delivered on time, if at all, nor was notice received from the Department as to why the reports were late or when they would be submitted. Many of these reports are planning documents, intended to demonstrate that the Department is adequately coordinating its several ongoing initiatives, such as the Global Defense Posture moves, the Grow the Force initiative, and base realignment and closure. The failure to submit these reports contributes to the Committees' concern that the Department may not have developed a thorough blueprint for some of these programs prior to execution, nor adequately considered all of the infrastructure ramifications of carrying out significant force reorganizations while conducting two wars. Reports that

have been mandated by the Committees are necessary to ensure proper congressional oversight and to inform congressional decisions related to the Department's budget requests; the failure to submit them in a timely manner is unacceptable. The Secretary of Defense and the service secretaries therefore are directed to submit all reports that are currently overdue no later than 30 days after the enactment of this Act, and to assiduously comply with future reporting deadlines. In the event that a deadline is not met, the Department shall submit a written explanation for the failure to deliver the report, and an expected date of delivery, no later than 7 days after the deadline.

Military Quality of Life Initiative.-The Appropriations Committees include funding to provide additional quality of life facilities for military personnel and their families, continuing an initiative that began in fiscal year 2008. Through hearings, field visits, and briefings from the Department, Army and Marine Corps trainee and recruit housing, and medical treatment facilities, have been identified as priority requirements in need of greater funding. The bill therefore includes \$122,200,000 for three additional Army and Marine Corps barracks projects, and \$110,735,000 for additional medical treatment facility design and construction. The medical treatment facility funding will provide \$57,900,000 to renovate the hospital at Camp Lejeune, which will add 7,410 marines under the Growing the Force initiative, and \$52,835,000 to accelerate planning and design for a hospital replacement at Fort Bliss, which will receive four additional brigades by 2012 under Army plans for Base Realignment and Closure and global restationing. 

Air National Guard Initiative.-The Air National Guard has a large unfunded requirement for fire stations at flying locations, yet in the past two budget submissions, the Administration has requested no funding for Air National Guard fire stations. In congressional testimony on the fiscal year 2009 budget request, the Air Force acknowledged that it was accepting "manageable risk" in facilities and infrastructure funding to help finance the recapitalization of its aging air and space force. The Air National Guard military construction budget request for fiscal year 2009 was \$34,374,000, a 60 percent decrease from the previous year's request. Due to the critical need for firefighting capability at Air National Guard flying locations, the bill includes \$28,000,000 to expedite the construction of Air National Guard fire stations.

Army National Guard Initiative.-The Director of the Army National Guard has identified emerging facility requirements needed to support the growth of Army National Guard missions vital to homeland security and the ongoing war on terrorism, including aircraft maintenance, unit training, and interagency training. The bill includes \$147,000,000 to expedite construction of facilities needed to support these emerging requirements.

MILITARY CONSTRUCTION, ARMY

(INCLUDING RESCISSIONS OF FUNDS)

The bill appropriates \$4,692,648,000 for Military Construction, Army. Within this amount, the bill provides \$178,685,000 for study, planning, design, architect and engineer services, and host nation support.

The bill rescinds \$51,320,000 from funds previously appropriated to this account due to bid savings and cancellations as follows:

| Public Law / location | Project title | Final Bill |
|-------------------------------|---|-------------|
| PL 110-5 (FY 2007) | | |
| NC: Fort Bragg..... | Digital Multipurpose Range Complex..... | -20,000,000 |

| | Subtotal, PL 110-161 | -16,600,000 |
| Total..... | | -51,320,000 |

Hatfield Gate Expansion, Fort Myer, Virginia.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$300,000 be made available for the design of this facility.

Installation Chapel Center, Fort Campbell, Kentucky.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$630,000 be made available for the design of this facility.

Soldier Readiness Processing Center, Fort Leonard Wood, Missouri.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$648,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The bill appropriates \$3,333,369,000 for Military Construction, Navy and Marine Corps. Within this amount, the bill provides \$246,528,000 for study, planning, design, architect and engineer services.

Dry Dock #3 Waterfront Support Facility, Portsmouth NSY, Maine.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,450,000 be made available for the design of this facility.

Submarine Payloads Integration Laboratory, Newport Naval Station, Rhode Island.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$750,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, AIR FORCE

(INCLUDING RESCISSION OF FUNDS)

The bill appropriates \$1,117,746,000 for Military Construction, Air Force. Within this amount, the bill provides \$93,436,000 for study, planning, design, architect and engineer services.

The bill rescinds \$20,821,000 from funds previously appropriated to this account due to bid savings as follows:

| Public Law / location | Project title | Final Bill |
|------------------------|--|--------------------|
| PL 110-161 (FY 2008) | | |
| AK: Elmendorf AFB..... | F-22A Taxiway, Taxilanes & Arm/De-Arm Apron..... | -12,741,000 |
| CA: Travis AFB..... | C-17 Road Improvements..... | -1,980,000 |
| FL: Tyndall AFB..... | Repair Airfield..... | -6,100,000 |
| Total..... | | <u>-20,821,000</u> |

Centralized Administrative Processing Center, Sheppard AFB, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,314,000 be made available for the design of this facility.

F-22A Consolidated Munitions Maintenance, Holloman AFB, New Mexico.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$495,000 be made available for the design of this facility.

Fire and Rescue Station, Randolph AFB, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$972,000 be made available for the design of this facility.

Joint Intelligence Technical Training Facility, Goodfellow AFB, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,656,000 be made available for the design of this facility.

Logistics Readiness Center, Mountain Home AFB, Idaho.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,800,000 be made available for the design of this facility.

Missile Service Complex, F.E. Warren AFB, Wyoming.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$810,000 be made available for the design of this facility.

Repair Runway Pavement, Luke AFB, Arizona.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,755,000 be made available for the design of this facility.

Security Forces Building, Phase 1, Lackland AFB, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$900,000 be made available for the design of this facility.

Student Officer Quarters, Phase 2, Laughlin AFB, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,440,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The bill appropriates \$1,695,204,000 for Military Construction, Defense-Wide. Within this amount, the bill provides \$186,060,000 for study, planning, design, architect and engineer services.

The bill provides \$90,000,000 for the Energy Conservation Investment Program. The Appropriations Committees strongly support the Department of Defense's efforts to promote energy conservation and investment in renewable energy resources, but believe that a more aggressive and broad-based program, with an increased emphasis on applying renewable energy resources to enhance energy security at military installations, is warranted. The Department therefore is directed to allocate the \$10,000,000 in funding provided above the request for this program to planning, analysis, and design work associated with the development of multi-megawatt renewable energy and multi-building energy efficiency projects on and near military lands, with first priority given to projects that will mitigate risk to critical assets and promote energy efficiency and independence at military installations.

The bill also provides \$5,000,000 for contingency construction.

The bill rescinds \$3,589,000 from funds previously appropriated to this account due to a cancellation as follows:

| Public Law / location | Project title | Final Bill |
|-----------------------|-----------------------------|-------------------|
| PL 108-324 (FY 2005) | | |
| VA: Oceana NAS..... | Bulk Fuel Storage Tank..... | -3,589,000 |
| Total..... | | <u>-3,589,000</u> |

Hospital Replacement, Fort Bliss, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$52,835,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

(INCLUDING RESCISSION OF FUNDS)

The bill appropriates \$736,317,000 for Military Construction, Army National Guard.

The bill rescinds \$1,400,000 from funds previously appropriated to this account due to bid savings as follows:

| Public Law / location | Project title | Final Bill |
|------------------------|------------------------------|-------------------|
| PL 110-161 (FY 2008) | | |
| AR: Camp Robinson..... | Ammunition Supply Point..... | -1,400,000 |
| Total..... | | <u>-1,400,000</u> |

Combined Support Maintenance Shop, Pittsburgh, Pennsylvania.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$3,250,000 be made available for the design of this facility.

Combat Vehicle Training Facility, Fort Indiantown Gap, Pennsylvania.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$620,000 be made available for the design of this facility.

Field Maintenance Shop, Las Vegas, Nevada.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$2,058,000 be made available for the design of this facility.

Hangar 1001 Improvement, Fairchild AFB, Washington.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$766,000 be made available for the renovation of this facility.

Infantry Platoon Battle Course, Fort Chaffee, Arkansas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$204,000 be made available for the design of this facility.

Infrastructure Improvements, Arden Hills ATS, Minnesota.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,005,000 be made available for the design of this facility.

Paint Booth, Northern Nevada Military Department, Nevada.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,500,000 be made available for the construction of this facility.

Readiness Center Addition/Alteration, Dundalk, Maryland.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$579,000 be made available for the design of this facility.

Readiness Center Addition/Alteration, Laredo, Texas.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,165,000 be made available for the construction of this facility.

Readiness Center, Dallas Armory, Oregon.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,681,000 be made available for the design of this facility.

Readiness Center, The Dalles, Oregon.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$682,000 be made available for the design of this facility.

Readiness Center Addition/Alteration, Honesdale, Pennsylvania.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$504,000 be made available for the design of this facility.

Readiness Center, York, Pennsylvania.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$880,000 be made available for the design of this facility.

Readiness Center, Sumter, South Carolina.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$382,000 be made available for the design of this facility.

Readiness Center, Ethan Allen Range, Vermont.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$323,000 be made available for the design of this facility.

Readiness Center and NGB Conference Center, Fort Belvoir, Virginia.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,085,000 be made available for the design of this facility.

Training Complex, Camp Butner, North Carolina.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,376,000 be made available for the design of this facility.

Tri-State Armory Addition, Kenova, West Virginia.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$2,000,000 be made available for the construction of this facility.

Westminster Zero Range, Westminster Training Site, Vermont.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,789,000 be made available for the construction of this facility.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The bill appropriates \$242,924,000 for Military Construction, Air National Guard.

C-5 Taxiway Upgrades, Martinsburg Air Base, West Virginia.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$850,000 be made available for the design of this facility.

C-130 Squadron Operations Center, Greater Peoria RAP, Illinois.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$400,000 be made available for the design of this facility.

Combat Arms Training Simulator/Maintenance Facility, Hector Field, North Dakota.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,500,000 be made available for the construction of this facility.

Combat Communications Training Complex, Springfield-Beckley Air National Guard Base, Ohio.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,100,000 be made available for the design of this facility.

Conventional Munitions Shop, Joe Foss Field, South Dakota.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,900,000 be made available for the construction of this facility.

Replace Control Tower, Quonset State AP, Rhode Island.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$600,000 be made available for the design of this facility.

Security Gate, Rickenbacker Airport ANG Base, Ohio.-Of the funds provided for unspecified minor construction in this account, the Appropriations Committees direct that \$1,600,000 be made available for the construction of this facility.

TFI Digital Ground Station FOC Beddown, Otis ANGB, Massachusetts.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$1,700,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, ARMY RESERVE

The bill appropriates \$282,607,000 for Military Construction, Army Reserve.
Reserve Center, Bryan, Texas.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$920,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, NAVY RESERVE

The bill appropriates \$57,045,000 for Military Construction, Navy Reserve.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

The bill appropriates \$36,958,000 for Military Construction, Air Force Reserve.
Joint Services Lodging Facility, Westover ARB, Massachusetts.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$943,000 be made available for the design of this facility.

Joint Services Lodging Facility, Youngstown Air Reserve Station, Ohio.-Of the funds provided for planning and design in this account, the Appropriations Committees direct that \$900,000 be made available for the design of this facility.

NORTH ATLANTIC TREATY ORGANIZATION
SECURITY INVESTMENT PROGRAM

The bill appropriates \$230,867,000 for the North Atlantic Treaty Organization Security Investment Program.

Notification on Delaying the Authorization or Funding of Projects.-The Department of Defense is directed to notify the Committees on Appropriations of both Houses of Congress within 14 days of the U.S. taking action to delay temporarily the authorization of projects, or to withhold temporarily funds from previously authorized projects, due to shortfalls in U.S. obligation authority.

FAMILY HOUSING CONSTRUCTION, ARMY

The bill appropriates \$646,580,000 for Family Housing Construction, Army.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The bill appropriates \$716,110,000 for Family Housing Operation and Maintenance, Army.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The bill appropriates \$380,123,000 for Family Housing Construction, Navy and Marine Corps.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY
AND MARINE CORPS

The bill appropriates \$376,062,000 for Family Housing Operation and Maintenance, Navy and Marine Corps.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

The bill appropriates \$395,879,000 for Family Housing Construction, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The bill appropriates \$594,465,000 for Family Housing Operation and Maintenance, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The bill appropriates \$49,231,000 for Family Housing Operation and Maintenance, Defense-Wide.

DEPARTMENT OF DEFENSE FAMILY HOUSING IMPROVEMENT FUND

The bill appropriates \$850,000 for the Department of Defense Family Housing Improvement Fund.

~~DEPARTMENT OF DEFENSE HOMEOWNERS ASSISTANCE FUND~~

The bill appropriates \$4,500,000 for the ~~Department of Defense Homeowners Assistance Fund.~~

CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE

The bill appropriates \$144,278,000 for Chemical Demilitarization Construction, Defense-Wide.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 1990

The bill appropriates \$458,377,000 for the Department of Defense Base Closure Account 1990. The bill includes an increase of \$65,000,000 above the budget request, of which \$15,000,000 is provided for the Army and \$50,000,000 is provided for the Navy. The Appropriations Committees direct the Army and Navy to submit an expenditure plan for the additional funds provided no later than 30 days following the enactment of this Act.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 2005

The bill appropriates \$8,765,613,000 for the Department of Defense Base Closure Account 2005. The decrease from the request is a general reduction. The Appropriations Committees note that \$1,749,076,000 was requested for operation and maintenance and "other" activities within this account, and urge the Department to first consider applying the reduction to these activities rather than to construction. The Department is directed to continue notifying the Appropriations Committees of any above-threshold cost or scope variation in projects, any cancellation of projects, or any transfer of funds among accounts and construction projects associated with the BRAC 2005 program.

Administrative Provisions

The bill includes section 101 limiting the use of funds under a cost-plus-a-fixed-fee contract.

The bill includes section 102 allowing the use of construction funds in this title for hire of passenger motor vehicles.

The bill includes section 103 allowing the use of construction funds in this title for advances to the Federal Highway Administration for the construction of access roads.

The bill includes section 104 prohibiting construction of new bases in the United States without a specific appropriation.

The bill includes section 105 limiting the use of funds for the purchase of land or land easements that exceed 100 percent of the value.

The bill includes section 106 prohibiting the use of funds, except funds appropriated in this title for that purpose, for family housing.

The bill includes section 107 limiting the use of minor construction funds to transfer or relocate activities.

The bill includes section 108 prohibiting the procurement of steel unless American producers, fabricators, and manufacturers have been allowed to compete.

The bill includes section 109 prohibiting the use of construction and family housing funds available to pay real property taxes in any foreign nation.

The bill includes section 110 prohibiting the use of funds to initiate a new installation overseas without prior notification.

The bill includes section 111 establishing a preference for American architectural and engineering services for overseas projects.

The bill includes section 112 establishing a preference for American contractors in certain locations.

The bill includes section 113 requiring congressional notification of military exercises where construction costs exceed \$100,000.

The bill includes section 114 limiting obligations in the last two months of the fiscal year.

The bill includes section 115 allowing funds appropriated in prior years for new projects authorized during the current session of Congress.

The bill includes section 116 allowing the use of lapsed or expired funds to pay the cost of supervision for any project being completed with lapsed funds.

The bill includes section 117 allowing military construction funds to be available for five years.

The bill includes section 118 requiring an annual report on actions taken to encourage other nations to assume a greater share of the common defense burden to include a classified report option, if necessary.

The bill includes section 119 allowing the transfer of proceeds between BRAC accounts.

The bill includes section 120 allowing the transfer of funds from Family Housing Construction accounts to the Family Housing Improvement Fund.

The bill includes section 121 requiring congressional notification prior to issuing a solicitation for a contract with the private sector for family housing.

The bill includes section 122 allowing transfers to the Homeowners Assistance Fund.

The bill includes section 123 limiting the source of operation and maintenance funds for flag and general officer quarters.

The bill includes section 124 extending the availability of funds in the Ford Island Improvement Fund.

The bill includes section 125 placing limitations on the expenditure of funds for projects impacted by BRAC 2005.

The bill includes section 126 allowing the transfer of expired funds to the Foreign Currency Fluctuation, Construction, Defense account.

The bill includes section 127 prohibiting the use of funds for any action that is related to or promotes the expansion of the boundaries or size of the Pinon Canyon Maneuver Site, Colorado.

The bill includes section 128 allowing for the reprogramming of military construction funds among projects and activities.

The bill includes section 129 transferring funds to the American Battle Monuments Commission for an engineering study of the Lafayette Escadrille Memorial. This section shall not be construed to indicate the Appropriations Committees intend to provide future appropriations for the restoration, preservation, maintenance, or operation of this private memorial.

The bill includes section 130 rescinding funds from Public Law 110-5 due to the cancellation of military family housing construction at the Defense Supply Center, Richmond, Virginia.

The bill includes section 131 providing an additional \$28,000,000 to the Air National Guard for a fire safety initiative.

The bill includes section 132 providing an additional \$147,000,000 to the Army National Guard for an emerging requirements initiative.

TITLE II

DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF INTEREST

New GI Bill implementation. - Public Law 110-252 provided \$100,000,000 for salaries and expenses and \$20,000,000 for information technology to implement the "Post-9/11 Veterans Educational Assistance Act of 2008". The Department has testified to the Congress their intent to implement this benefit by accelerating the development of The Educational Expert System (TEES) and expect this automated system to be operational by August 1, 2009 when the Act becomes effective. The Committees are greatly concerned that the Department is relying exclusively on the success of this automation to ensure a timely, satisfactory implementation of this program. The Committees agree that veterans should be able to apply for educational benefits electronically but also want to ensure that these veterans are permitted to apply using a non-electronic method. Additionally, the Committees agree that these veterans should be able to obtain assistance from the Department of Veterans Affairs educational benefit employees for any questions or concerns that they may have when filing their application. Further, the Committees also agree that the implementation of this program should not cause the Department to lose ground in improving the timeliness of claims processing for other educational benefits. The Committees direct the Department to report within 30 days of enactment of this Act on the plan to develop and deploy TEES for this program, their contingency plan if delays preclude deployment by August 1, 2009, the process that will allow veterans to file applications by a non-electronic means, the process that will allow veterans to obtain the assistance of educational benefit employees, the metrics that the Department will use to measure veteran satisfaction with claims processing for this program, and the steps the Department will take to ensure that implementation of this benefit does not negatively impact other educational benefits programs. The Committees direct the Department to include in their quarterly status report to the Committees the progress made by the Department to meet the milestones for the implementation of TEES as presented on September 11, 2008, to the Congress, the average days to process educational benefits claims for the other educational benefits programs, the average days to process claims for this program upon implementation, and the amounts executed to implement this program including TEES. In addition, the Committees direct the Office of Inspector General to provide a quarterly report to the Committees to include a review of the Department's success in meeting project milestones, an assessment of the implementation plan, and identification of any issues that may prevent the timely, satisfactory implementation of this program.

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The bill appropriates \$43,111,681,000 for Compensation and Pensions. Of the amount provided, not more than \$26,798,000 is to be transferred to General Operating Expenses, Medical Support and Compliance, and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38.

READJUSTMENT BENEFITS

The bill appropriates \$3,832,944,000 for Readjustment Benefits. The amount appropriated is \$746,000,000 more than the budget request and reflects the partial year cost of the Post-9/11 Veterans Educational Assistance Act of 2008, which becomes effective on August 1, 2009.

VETERANS INSURANCE AND INDEMNITIES

The bill appropriates \$42,300,000 for Veterans Insurance and Indemnities.

VETERANS HOUSING BENEFIT PROGRAM FUND

The bill appropriates such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund. The bill limits obligations for direct loans to not more than \$500,000 and provides that \$157,210,000 shall be available for administrative expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The bill appropriates \$61,000 for the cost of direct loans ~~from~~ the Vocational Rehabilitation Loans Program Account, plus \$320,000 to be paid to the General Operating Expenses account. The bill provides for a direct loan limitation of \$3,180,000. *(for)*

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

The bill appropriates \$646,000 for administrative expenses of the Native American Veteran Housing Loan Program Account.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS VETERANS PROGRAM ACCOUNT

The bill provides up to \$750,000 of the funds available in General Operating Expenses and Medical Support and Compliance to carry out the Guaranteed Transitional Housing Loans for Homeless Veterans Program Account.

VETERANS HEALTH ADMINISTRATION

Health Care Sharing Incentive Fund.-The bill includes language to allow a minimum of \$15,000,000, to be transferred to the Health Care Sharing Incentive Fund to facilitate collaboration between the Departments of Defense and Veterans Affairs. The Appropriations Committees agree the most important area for collaboration and investment between these departments is to ensure a seamless transition for our veterans. While the Appropriations Committees do not intend to preclude the use of this fund for any joint project, the Committees strongly urge that priority for funding be given to improving the continuity of care for our veterans through joint clinics; the development of additional programs for women veterans health issues and the identification and treatment of military sexual trauma; the development of collaborative suicide prevention programs and initiatives; the development of registries for trauma, Post Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI); and the development of joint clinical practice guidelines for polytrauma injury, traumatic brain injury (to include diagnostics), blast injury, mental health/PTSD, burn, and amputee patients based on evidence-based medicine.

Priority 8 Enrollment.- Funding has been provided within the Medical Services; Medical Support and Compliance; Medical Facilities; Construction, Minor Projects; and Information Technology Systems accounts to support increased enrollment for Priority 8 veterans whose income exceeds the current veterans means test and geographic means test income thresholds by 10 percent or less. The Secretary is directed to report to the Committees on Appropriations within 60 days of enactment of this Act on the plan to provide medical care to this segment of Priority 8 veterans.

Innovation.-The Appropriations Committees agree that investing in innovation is a key factor in ensuring a responsive, efficient, quality health care system and commends the Department for providing funds from the National Reserve Fund to finance innovation. The Committees believe that more can be done, however, to test and adopt innovations from the private sector and encourage the Department to increase funding for this program so that additional public/private pilot projects may be implemented in fiscal year 2009. The Committees direct the Department to report to the Committees on Appropriations of both Houses of Congress annually on the funding provided, and from which account, from the National Reserve Fund for innovation for the previous fiscal year by April 1st of each year.

Transfer Authority. – The bill provides the Department with below threshold transfer authority between the Medical Services and Medical Support and Compliance accounts. Transfer authority is included in order for individual medical centers to have the flexibility to address emergent needs. The Secretary is directed to include in the Department’s quarterly reports an accounting, by VISN, of the utilization of this below threshold transfer authority.

MEDICAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

The bill appropriates \$30,969,903,000 for Medical Services. Of the amount provided, \$1,600,000,000 is available for obligation until September 30, 2010.

The bill provides \$375,000,000 to increase Priority 8 enrollment. The bill also includes an additional \$133,000,000 to increase the beneficiary travel reimbursement mileage rate to 41.5 cents per mile while freezing the deductible at current levels; an additional \$200,000,000 to increase fee-based services, to be allocated in a manner not subject to the Veterans Equitable Resource Allocation model; an additional \$250,000,000 for a rural health initiative; an additional \$12,000,000 for Vet Centers; an additional \$7,000,000 for expanded outpatient services for the blind; an additional \$6,900,000 for the military eye injury registry and joint DoD/VA Center of Excellence; an additional \$116,000,000 for new generation prosthetics and sensory aids; an additional \$7,500,000 for Homeless Grant and Per Diem liaisons; an additional \$8,000,000 to restore the Homeless Grant and Per Diem program to the fully authorized level of \$130,000,000; an additional \$30,000,000 for the HUD-Veterans Affairs Supportive Housing Program to address any increase in the number of vouchers authorized and directs the Department to increase the number of case workers as necessary to accommodate the increase in vouchers. The Department is directed to provide at least \$5,000,000 for ease workers if the Department of Housing and Urban Development creates a demonstration program to test methods of homeless prevention among the veteran population. *(Case workers)*

Neurobehavioral Rehabilitation and Recovery. – The Appropriations Committees strongly urge the Department to establish and expand cooperative agreements with public and private entities with neurobehavioral rehabilitation and recovery experience in the treatment of Traumatic Brain Injury (TBI) as recommended in section 1703 of Public Law 110-181.

MEDICAL SUPPORT AND COMPLIANCE

The bill appropriates \$4,450,000,000 for Medical Support and Compliance. Of the amount provided, \$250,000,000 is available for obligation until September 30, 2010.

Third Party Collections. – The Department is directed to report to the Committees on Appropriations of both Houses of Congress on the specific actions taken to improve third party collections by February 26, 2009.

MEDICAL FACILITIES

The bill appropriates \$5,029,000,000 for Medical Facilities. The bill also includes language allowing \$350,000,000 of the funds to be available until September 30, 2010. The bill further specifies that \$300,000,000 for non-recurring maintenance shall be allocated in a manner not subject to the Veterans Equitable Resource Allocation model. The Appropriations Committees are in agreement that the funding provided above the budget request shall be used to address both facility condition assessment deficiencies and other essential requirements.

MEDICAL AND PROSTHETIC RESEARCH

The bill appropriates \$510,000,000 for Medical and Prosthetic Research.

The bill restores the cut proposed in the budget request and provides additional funding for research topics most prevalent in the veteran population such as Polytrauma, *(le)*

sensory loss, Post-Traumatic Stress Disorder, suicide prevention, and women veteran health issues. (5)

NATIONAL CEMETERY ADMINISTRATION

The bill appropriates \$230,000,000 for the National Cemetery Administration. Of the amount provided, \$23,000,000 is available until September 30, 2010.

The bill includes sufficient additional funding so at least \$25,000,000 can be dedicated to correct deficiencies at national cemeteries, including those identified in the 2002 Millennium Act report to Congress. In addition, the Department is directed to undertake gravesite renovation projects to replace turf, repair sunken graves, and raise, realign and clean headstones.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The bill appropriates \$1,801,867,000 for General Operating Expenses. The bill provides not less than \$1,466,095,000 for the Veterans Benefits Administration, an increase of \$94,342,000 to the budget request. Of the amount provided, \$83,000,000 is available for obligation until September 30, 2010.

The bill also provides for a limitation on the purchase of passenger motor vehicles for use in operation by the Veterans Benefits Administration in Manila, Philippines.

Funding Increases. – The bill includes an increase of \$102,000,000 for General Operating Expenses when compared to the President's budget request. The Appropriations Committees agree to provide \$92,342,000 for the hiring of additional claims processors. It is estimated that this increase will enable the Department to hire 1,100 claims processors in addition to over 900 planned for hiring as part of the budget request. In addition, the Appropriations Committees have provided \$2,000,000 for the leasing of office space to house these new employees. As the Department experiences an increase in the number of claims being filed, as well as an increase in the number of appeals, both the Board of Veterans Appeals and the Office of General Counsel will require additional personnel to handle these appeals. Therefore, the bill includes an increase of \$3,838,000 for the Board of Veterans Appeals and \$3,220,000 for the Office of General Counsel. The amount provided also includes an increase of \$600,000 for the Office of Management.

INFORMATION TECHNOLOGY SYSTEMS

The bill appropriates \$2,489,391,000 for Information Technology Systems. The bill directs the Department to submit an expenditure plan to the Committees on Appropriations of both Houses of Congress within 30 days of enactment. The bill also establishes a funding floor of \$48,000,000 for the Financial and Logistics Integrated Technology Enterprise (FLITE) program.

The amount provided includes an increase of \$47,325,000 when compared to the budget request. This increased amount includes \$5,000,000 for IT related to additional claims processors, \$2,000,000 for IT related to the eye injury registry, \$35,000,000 for emergent medical center needs, and \$5,325,000 increase for FLITE.

The Office of Information Technology is directed to provide an IT expenditure report to the Committees on Appropriations on a monthly basis. This report shall include a comparison to the project costs included in the base reprogramming letter submitted to the Congress, and provide an explanation for any differences in excess of \$1,000,000.

OFFICE OF INSPECTOR GENERAL

The bill appropriates \$87,818,000 for the Office of Inspector General. Of the amount provided, \$5,000,000 is available for obligation until September 30, 2010.

The bill is \$11,318,000 above the budget request for the Office of Inspector General. The additional funding includes \$4,500,000 to cover the cost of undertaking a systematic review of community-based outpatient clinics, Vet Centers, and VBA regional offices. The Committees on Appropriations anticipate that the review of regional offices will include an assessment of the quality of benefit claims processing

CONSTRUCTION, MAJOR PROJECTS

The bill appropriates \$923,382,000 for Construction, Major Projects.

The Department is directed to allocate \$401,210,000 of this amount to projects reflected in the VA's 5-Year Capital Plan, which was transmitted as part of the Department's FY 2009 detailed budget justification. This additional funding is to be used to complete the unfunded requirements of ongoing projects and to initiate the planning, design, and construction of new projects to the extent that funding can be executed in fiscal year 2009. The Department is directed to provide the Committees on Appropriations of both Houses of Congress with a detailed list of how these funds will be allocated, within 60 days of enactment of this Act.

The bill funds the following items (\$000):

Veterans Health Administration:

| | |
|---------------------------------|-----------|
| Denver, CO | \$20,000 |
| Orlando, FL | \$120,000 |
| San Juan, PR | \$64,400 |
| Lee County, FL | \$111,412 |
| St. Louis, MO | \$5,000 |
| Bay Pines, FL | \$17,430 |
| Advance Planning Fund | \$40,000 |
| Asbestos/Contaminates Abatement | \$3,000 |
| BRAC Land Acquisition | \$5,000 |
| Claims Analyses | \$2,000 |
| Facility Security Projects | \$11,930 |
| Hazardous Waste Abatement | \$2,000 |

| | |
|---|------------------|
| Judgment Fund | \$10,000 |
| Sustainability and Energy | \$5,000 |
| Previously appropriated projects, Five-Year Capital Plan projects, and cost adjustments | \$401,210 |
| Total, Veterans Health Admin. | \$818,382 |
| National Cemetery Administration: | |
| Puerto Rico National Cemetery | \$33,900 |
| Massachusetts National Cemetery | \$20,500 |
| Calverton, NY National Cemetery | \$29,000 |
| Advance Planning Fund | \$6,000 |
| NCA Land Acquisition | \$5,000 |
| Sustainability and Energy | \$10,600 |
| Total, National Cemetery Admin. | \$105,000 |
| Total, Major Construction | \$923,382 |

Chattanooga National Cemetery. – The Department is directed to provide a report to the Committees on Appropriations of both Houses of Congress by March 31, 2009, on the feasibility of using funds from the NCA land acquisition fund to purchase lands adjacent to the Chattanooga National Cemetery to meet the expansion needs of the facility.

CONSTRUCTION, MINOR PROJECTS

The bill appropriates \$741,534,000 for Construction, Minor Projects. Of the amount provided, the Appropriations Committees agree that not less than \$75,000,000 shall be used for infrastructure improvements for the National Cemetery Administration and not less than \$41,300,000 shall be for minor construction for the Veterans Benefits Administration. The Appropriations Committees are in agreement that the Department shall submit an expenditure plan to the Committees on Appropriations of both Houses of Congress which specifies how the Department intends to execute the funding provided by this bill. In addition, the bill specifies that \$7,000,000 shall be used for the installation of alternative fueling stations at 35 medical facility campuses.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The bill appropriates \$175,000,000 for Grants for Construction of State Extended Care Facilities.

GRANTS FOR CONSTRUCTION OF STATE VETERANS CEMETERIES

The bill appropriates \$42,000,000 for Grants for Construction of State Veterans Cemeteries.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

The bill includes section 201 allowing for transfers among various mandatory accounts.

The bill includes section 202 allowing for the transfer of funds among the three medical accounts for the purpose of perfecting the restructuring of the Veterans Health Administration accounts.

The bill includes section 203 allowing for the use of salaries and expenses funds to be used for other authorized purposes.

The bill includes section 204 restricting the use of funds for the acquisition of land.

The bill includes section 205 limiting the use of funds in the Medical Services account to only entitled beneficiaries or unless reimbursement is made to the Department.

The bill includes section 206 allowing for the use of certain mandatory appropriations accounts for payment of prior year accrued obligations for those accounts.

The bill includes section 207 allowing for the use of appropriations available in this title to pay prior year obligations.

The bill includes section 208 allowing funds for the administration of the National Service Life Insurance Fund, the Veterans' Special Life Insurance Fund, and the United States Government Life Insurance Fund.

The bill includes section 209 allowing for the proceeds from enhanced-use leases to be obligated in the year in which the proceeds are received.

The bill includes section 210 allowing for the use of funds in this title for salaries and other administrative expenses to be used to reimburse the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication.

The bill includes section 211 limiting the use of funds for any lease with an estimated annual rental of more than \$1,000,000 unless approved by the Committees on Appropriations of both Houses of Congress.

The bill includes section 212 requiring the Secretary of the Department of Veterans Affairs to collect third-party payer information for persons treated for non-service connected disability.

The bill includes section 213 allowing for the use of enhanced-use leasing revenues for Construction, Major Projects and Construction, Minor Projects.

The bill includes section 214 allowing for the use of Medical Services funds to be used for recreational facilities and funeral expenses.

The bill includes section 215 allowing for funds deposited into the Medical Care Collections Fund to be transferred to the Medical Services account.

The bill includes section 216 allowing Alaskan veterans to use medical facilities of the Indian Health Service or tribal organizations at no additional cost to the Department of Veterans Affairs or the Indian Health Service. ing

The bill includes section 217 providing for the transfer of funds from the Department of Veterans Affairs Capital Asset Fund to the Construction, Major Projects and Construction, Minor Projects accounts and makes those funds available until expended.

The bill includes section 218 prohibiting the expenditure of funds to replace the current system by which VISNs select and contract for diabetes monitoring supplies and equipment.

The bill includes section 219 prohibiting the use of funds on any policy prohibiting the use of outreach or marketing to enroll new veterans.

The bill includes section 220 requiring the Secretary to submit quarterly reports on the financial status and service level status of the Veterans Health Administration.

The bill includes section 221 allowing for the transfer of funds from various accounts to the Information Technology Systems account.

The bill includes section 222 providing for transfer of funds among projects within the Information Technology Systems account.

The bill includes section 223 allowing for the transfer of any prior year balances and/or credits in the Reinstated Entitlement Program for Survivors account to the Compensation and Pensions account.

The bill includes section 224 extending the effective date of section 1710 of title 38, United States Code which allows for the collection of co-payments for certain services.

The bill includes section 225 extending the effective date of section 1729 of title 38, United States Code which provides for third-party collections.

The bill includes section 226 maintaining funding for Gulf War Illness Research at levels not less than those made available in fiscal year 2008.

The bill includes section 227 authorizing the transfer of not more than \$5,000,000 to the Secretary of Health and Human Services for a Graduate Psychology Education Program which directly benefits veterans.

The bill includes section 228 prohibiting any funds to be used to contract out any function performed by more than ten employees without a fair competition process.

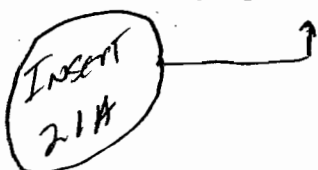

The bill includes section 229 authorizing the lease of a major medical facility.

The bill includes section 230 limiting the amount of non-recurring maintenance funds that can be obligated during the last 2 months of the fiscal year.

The bill includes section 231 amending section 2703 of Public Law 109-234 regarding the transfer of property to the City of Gulfport, Mississippi.

The bill includes section 232 freezing the deductible of the beneficiary travel program at fiscal year 2008 levels.

21#

21A

The bill includes section 233 extending the effective date of section 1703 of title 38, United States Code which allows for recovery audits.

The bill includes section 234 extending the effective date of section 5317 of title 38, United States Code which provides for income verification.

TITLE III

RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

The bill appropriates \$59,470,000 for Salaries and Expenses.

The Appropriations Committees agree that the increase above the budget request shall be used for capital improvements and infrastructure modernization. The Appropriations Committees agree that the Commission shall submit a report to the Committees on Appropriations of both Houses of Congress by February 27, 2009, detailing funding required to correct maintenance and infrastructure deficiencies at all cemeteries and memorials for which the Commission is responsible.

FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

The bill appropriates such sums as necessary, estimated at \$17,100,000, for the Foreign Currency Fluctuations Account.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

The bill appropriates \$30,975,000 for the Salaries and Expenses account. The amount provided includes \$1,700,000 for the pro bono program.

The bill includes \$7,000,000 for the cost of advance planning and design associated with construction of a new Veterans Courthouse and Justice Center. The Appropriations Committees anticipate that the Court will transfer these funds to the General Services Administration for execution of the project.

DEPARTMENT OF DEFENSE – CIVIL

CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

The bill appropriates \$36,730,000 for Salaries and Expenses.

The Appropriations Committees agree that the increase of \$5,500,000 above the budget request shall be used to continue the program to realign government-issued headstones and accelerate the Millennium project.

ARMED FORCES RETIREMENT HOME

TRUST FUNDS

The bill appropriates \$63,010,000 for the Armed Forces Retirement Home (AFRH). The bill further specifies that \$8,025,000 shall remain available until expended for construction and renovation of the physical plants at both Washington, DC and Gulfport, MS campuses.

TITLE IV

GENERAL PROVISIONS

The bill includes section 401 prohibiting the obligation of funds in the Act beyond the current fiscal year unless expressly so provided.

The bill includes section 402 requiring pay raises to be absorbed within the levels appropriated in the Act.

The bill includes section 403 prohibiting the use of the funds in this Act for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

The bill includes section 404 prohibiting the use of funds in the Act to support or defeat legislation pending before Congress.

The bill includes section 405 encouraging all Departments to expand their use of "E-Commerce".

The bill includes section 406 prohibiting the transfer of funds to any instrumentality of the United States Government without authority from an appropriations Act.

The bill includes section 407 specifying the congressional committees that are to receive all reports and notifications.

The bill includes section 408 prohibiting the use of funds to modify the standards applicable to the determination of the entitlement of veterans to special monthly pensions.

The bill includes section 409 prohibiting the use of funds for a project or program named for a serving Member, Delegate, or Resident Commissioner of the Congress.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY
DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.
