Administrator	Michigan's Unemployment Insurance Agency (UIA)
Description	Unemployment insurance (UI) provides temporary unemployment benefits to eligible workers who become unemployed through no fault of their own and who are either looking for new jobs, in approved training, or awaiting recall to employment. In Michigan, some unemployed workers may be eligible for extended benefits under the federal emergency unemployment compensation program until February 28, 2010. This will provide up to an additional 34 weeks of benefits to unemployed workers who have exhausted their state unemployment benefits. Further, because Michigan is considered a high unemployment state, unemployed workers will receive up to 19 weeks of additional benefits for a total of up to 53 weeks of emergency unemployment compensation. In addition, the American Recovery and Reinvestment Act provides federal funding to increase regular and emergency unemployment benefits by \$25 per week through the end of February 28, 2010.

Administrator	Michigan State Housing Development Authority's (MSHDA) Family Self-Sufficiency Program, Wayne Metro CAA
Description	The MSDHA Family Self-Sufficiency Program (FSS) is administered through the Michigan State Housing Development Authority's (MSHDA) Housing Choice Voucher Rental Assistance Program. Through the FSS Program, MSHDA provides housing assistance, an interest-bearing escrow account, and the general coordination of the FSS program. Program participants pay a portion of the housing costs relative to their income and MSHDA subsidizes the balance. When the family's income increases, the family pays more money monthly for rent. Under the FSS program, as the tenant pays more for rent, MSHDA makes a monthly deposit into their account based on the amount their rent changes due to a change in their earned income. At the successful completion of the contract, the head of household receives escrow monies. Escrow funds can be used towards a down payment on a home, educational expenses, or to pay off debt.
