

Gulf of Mexico Oil Spill Response Update
06/22/2010 – 11:00 PM EDT

BP is working as part of the Unified Command to accomplish three main objectives in the Gulf of Mexico:

1. Offshore - to stop the flow of oil on the sea floor;
2. Offshore – to minimize impacts of the spill on the surface; and
3. Onshore to protect and cleanup the shoreline, inform the public, and compensate impacted people.

Highlights

BP announces the formation of Gulf Coast Restoration Organization

Bob Dudley is appointed President and CEO of the Gulf Coast Restoration Organization. Having grown up in Mississippi, Bob has a deep appreciation and affinity for the Gulf Coast, and believes deeply in BP’s commitment to restore the region.

This new organization will deal with all aspects of the response and ensure BP fulfills our promises to the people of the Gulf Coast, and work to restore the environment. This will include:

- Executing our ongoing clean-up operations, and all associated remediation activities;
- Coordinating with government officials, including the National Incident Commander, Admiral Thad Allen, the Governors and local officials from the Gulf States, to meet our commitments as effectively and efficiently as possible;
- Keeping the public informed;
- Implementing the \$20 billion escrow account established to assure we meet our obligations through the claims process; and
- Understanding the impact of the spill on the environment.

BP’s Gulf States response activities, centered in the Unified Command with the Coast Guard in New Orleans, will now report to Bob.

The establishment of this new organization in no way limits the resources of BP that are available to meet our responsibilities to clean up the spill and restore the Gulf.

- 15,566 barrels of oil captured by the LMRP Cap on June 21.
- Q4000 drilling platform captured and flared 10,270 barrels of oil on June 21.
- More than \$118 million in claims paid as of June 22 – see State Summaries.
- 433 skimmers deployed with 596,837 total barrels of oil/water mix recovered.
- BP to donate proceeds from the sale of oil collected through riser systems to the National Fish and Wildlife Foundation, including \$5 million in immediate funding to help build programs to benefit wildlife affected along the Gulf.

Offshore – Sea Floor

BP’s priority is to contain the oil spill and complete relief wells to kill the flow.

Containment Recovery

- Lower Marine Riser Package (LMRP) Cap – 15,566 barrels of oil were captured through the LMRP cap during the past 24-hour period. Total recovery from the LMRP Cap is 269,010 barrels to date. Oil and natural gas are being carried to the surface through a riser pipe and oil is being stored on the *Discoverer Enterprise*. Captured natural gas is being flared with 34.2 million cubic feet burned on June 21.
- Near Term Containment: Q4000 Direct Connect – This containment system, which is connected directly to the BOP and carries oil and gas through a manifold and hoses to the Q4000 vessel, flared 10,270 barrels of oil and 18.1 million cubic feet of gas on June 21. Because the Q4000 does not have storage capacity, it uses a specialized clean-burning system to flare captured oil and gas. Total oil disposed of through Q4000 to date is 51,830 barrels.
- Longer Term Containment: Permanent Riser Systems – BP is bringing in two additional ships that will be connected to “permanent riser systems.” These systems will be capable of quick disconnect/reconnect in the event of a hurricane. The ships are expected to be at staging areas this week. The first riser has been fabricated and is being installed. The second riser is being fabricated. More information can be found under “Technical Update” on BP’s website at:
<http://www.bp.com/sectiongenericarticle.do?categoryId=9033572&contentId=7061710>
Technical Update slides (dated June 18th):
http://www.bp.com/liveassets/bp_internet/globalbp/globalbp_uk_english/incident_response/STAGING/local_assets/downloads_pdfs/Technical_briefing_061810.pdf

Dispersant injection on the sea floor – dispersant use at the subsea leak source continues, with approximately 14,583 gallons applied on June 21.

Drilling Relief Wells

Drilling continues on both wells. They are situated approximately one-half mile from the Macondo well and will attempt to intercept the existing wellbore at approximately 18,000 feet below sea level. Once intercepted, the Macondo well can be killed via a “bottom kill” by pumping heavy mud and cement into the wellbore. It is estimated the total drilling process for each well will take at least 90 days from the start date.

- The first relief well (work being performed by the *Development Driller III*) is at approximately 16,000 feet below sea level. This well was “spudded” on May 2.
- The second relief well (work being performed by *Development Driller II*) is at approximately 10,000 feet below sea level. Drilling began on May 16.

Offshore – Surface Response

Skimming Vessels – 433 skimmers designed to separate oil from water are deployed across the Gulf. 596,837 barrels of oil-water mix have been recovered and treated.

Surface Dispersant – 11,217 gallons of surface dispersant were applied on June 21.

In-Situ Burning – 19 additional burns were conducted in the last 24-hour period. 221,900 total barrels are estimated to have been consumed through burns.

BP Environmental Monitoring Program – As part of the response effort, several ongoing sampling and monitoring programs have been implemented based on the type of impact or location and trajectory of the spill. Monitoring and sampling programs are being conducted for:

- air quality
- water quality
- water column sampling
- submerged oil, and
- worker health.

Sampling data can be found at:

<http://www.bp.com/sectiongenericarticle.do?categoryId=9033821&contentId=7062498#>

Interactive Mapping Websites – BP has developed an Interactive Mapping Tool meant to provide a one-stop shop for detailed near-real-time information about the response to the Deepwater Horizon BP oil spill. The tool integrates the latest data on the oil spill’s trajectory, fishery closed areas, wildlife and place-based Gulf Coast resources, locations of oiled shoreline and other data points. The BP mapping tool is located at:

<http://www.gulfofmexicoresponsemap.com>. The U.S. Government has also created a mapping tool that is located at: www.GeoPlatform.gov/gulfresponse.

Spill Response Technology and Offers of Services or Products –

- BP is receiving approximately 5,000 suggestions per day on innovative ways to stop the flow of oil or contain the oil spill. Our team of engineers is reviewing these as quickly as possible. To submit alternative response technology, or offer services or products, call (281) 366-5511, or go online at: www.horizonedocs.com. After forms are received they are reviewed by a team of technical and operational personnel who assess need, technical feasibility and application.
- The U.S. Government has also issued a general call for submission of white papers that cover: oil sensing improvements to response and detection; oil wellhead control and submerged oil response; traditional oil spill response technologies; alternative oil spill response technologies; and oil spill damage assessment and restoration. That announcement can be found online at: https://www.fbo.gov/index?s=opportunity&mode=form&id=6b61794cf96642c8b03fcf9e0c3083eb&tab=core&_cview=1

Onshore – Shoreline Protection and Funding

Donation to National Fish and Wildlife Foundation – On June 22, BP announced it will donate the net revenue it receives from the sale of oil recovered from the MC252 spill to the National Fish and Wildlife Foundation (NFWF). NFWF, whose mission is to preserve and restore America's native wildlife species and habitats, will direct this money to projects that bring the greatest benefit to the wildlife of the affected Gulf Coast States. BP will provide \$5 million to NFWF immediately, to ensure that their work can begin even as initial oil collections

from the Discoverer Enterprise enter the refining process. More information can be found at <http://www.bp.com/genericarticle.do?categoryId=2012968&contentId=7063047>

Boom Update – More than 2.7 million feet of containment boom are deployed or assigned across the Gulf with 787,000 feet in staging areas. More than 4.1 million feet of sorbent boom is deployed with 2 million feet in staging areas.

Volunteers and Training – Volunteers are being trained in five different modules that range from safety for beach clean-up, to wildlife monitoring, handling of hazardous materials and vessel operation for laying boom. 27,106 volunteers were supporting the effort as of June 21. Information about training can be found at www.deepwaterhorizonresponse.com under “volunteers.”

State Specific Websites

- Florida: www.floridagulfresponse.com
- Louisiana: www.louisianagulfresponse.com
- Mississippi: www.mississippigulfresponse.com

Onshore – Claims

\$20 billion Claims Fund – Last week, BP announced it will establish an independent claims facility to be administered by Ken Feinberg. BP remains committed to making sure that everyone who has lost income as a result of the oil spill is compensated. BP is working closely with Mr. Feinberg to establish processes moving forward and to ensure there is no lapse in payments during whatever transition may be necessary.

More than \$118 million in claims paid - BP has paid more than \$118 million to residents along the Gulf Coast for claims filed as a result of the oil spill in the Gulf of Mexico. BP has issued more than 36,800 checks in response to about 69,800 claims to date. A 1,000-member claim team is working around the clock to receive and process claims.

Filing Claims – The contact number for claims is (800) 440-0858. In person claims can be filed at office locations listed below. Claims can also be filed online at: www.bp.com/claims. For detailed information about filing claims, including information about government claims, business claims, documentation requirements and where translators are located, visit BP’s web site at: <http://www.bp.com/sectiongenericarticle.do?categoryId=9033791&contentId=7062345>
Note: No person asserting a claim or receiving payment for interim benefits will be asked or required to sign a release or waive any rights to assert additional claims, to file an individual legal action, or to participate in other legal actions associated with the Deepwater Horizon incident.

State-by-State Claims Summary as of June 22

Alabama Counties	Claims Paid
Mobile	\$13,905,420

Baldwin	\$5,986,031
Monroe	\$114,000
Montgomery	\$64,700
Covington	\$62,500
Clarke	\$52,475
Jefferson	\$45,959
Escambia	\$34,446
Tuscaloosa	\$30,438
Madison	\$29,039
Wilcox	\$27,000
Marengo	\$26,400
Walker	\$25,000
Dale	\$23,424
Greene	\$23,170
Washington	\$21,958
Chilton	\$20,000
Shelby	\$18,600
Etowah	\$12,645
Conecuh	\$12,500
Other Counties	\$424,195
Alabama Total	\$20,959,900

Florida Counties	Claims Paid
Escambia	\$3,297,781
Franklin	\$3,274,135
Okaloosa	\$2,840,656
Bay	\$2,334,862
Santa Rosa	\$1,450,688
Wakulla	\$652,595
Gulf	\$502,453
Walton	\$402,349
Orange	\$232,361
Duval	\$127,690
Pasco	\$124,257
Pinellas	\$63,447
Hillsborough	\$62,626
Liberty	\$54,920
Leon	\$49,325
Washington	\$42,500
Collier	\$25,300
Gadsden	\$23,500
Calhoun	\$21,075
Jackson	\$20,700

Lee	\$20,000
Dixie	\$18,345
Citrus	\$17,500
Broward	\$17,000
Brevard	\$15,630
Other Counties	\$306,780
Florida Total	\$15,998,477

Louisiana Parishes	Claims Paid
Terrebonne	\$12,295,547
Jefferson	\$11,951,650
Plaquemines	\$11,605,155
Lafourche	\$7,282,643
Saint Bernard	\$4,908,454
Saint Tammany	\$2,976,884
Orleans	\$2,950,541
Vermilion	\$1,904,316
Saint Charles	\$1,410,299
Calcasieu	\$1,127,950
Iberia	\$1,057,624
Saint Mary	\$968,333
Cameron	\$699,150
Lafayette	\$544,795
Tangipahoa	\$527,188
East Baton Rouge	\$351,604
Livingston	\$257,585
St John the Baptist	\$172,050
Washington	\$126,900
Assumption	\$119,000
Saint Martin	\$116,800
Jefferson Davis	\$83,500
Saint Landry	\$77,934
Ascension	\$76,900
Saint James	\$70,000
Beauregard	\$63,000
Pointe Coupee	\$52,400
Ouachita	\$30,000
Rapides	\$28,300
Acadia	\$27,850
Concordia	\$25,000
Avoyelles	\$24,300
West Baton Rouge	\$23,000
Caddo	\$20,000

Union	\$15,000
Other Parishes	\$970,364
Louisiana Total	\$64,942,016

Mississippi Counties	Claims Paid
Harrison	\$6,396,629
Jackson	\$3,068,966
Hancock	\$2,040,110
Pearl River	\$206,770
Stone	\$187,364
George	\$115,752
Lamar	\$99,500
Pike	\$36,800
Forrest	\$30,000
Marion	\$25,000
Lawrence	\$20,000
Lincoln	\$15,000
Madison	\$14,300
Jones	\$13,385
Clarke	\$12,500
Hinds	\$12,000
Neshoba	\$11,000
Clay	\$10,000
Covington	\$10,000
Bolivar	\$10,000
Other Counties	\$271,821
Mississippi Total	\$12,606,896

Texas	\$1,968,014
Georgia	\$354,752
Other States	\$1,214,202
Total Claims Paid	\$118,044,258

Claims Offices – 33 Claims Offices are open across the Gulf Coast to provide locations where people can go to file or discuss claims.

There are more than 170 operators answering phones, and 730 claims adjusters are staffing the offices.
