BP Gulf of Mexico Incident
Daily Update – August 23, 2010
Produced by BP's Washington, DC Office
Sources: BP and National Incident Command

Topline

Ambient Pressure Testing Complete – On Saturday, BP determined that the ambient pressure test showed no anomalies and that the cement plug has integrity. After running a camera system to identify the pipe segments that are in the BOP stack, BP initiated a “fishing” procedure to recover those pieces of drill pipe. Once recovered, the next step is to remove the failed BOP and replace it with the BOP that was situated over the 2nd relief well.

BP is complying with government directives concerning all recovery of equipment from the Macondo well. We are following Admiral Allen's instruction to bring equipment it to the surface. The U.S. Government will then preserve it at a facility in New Orleans specified by the Marine Board of Investigation. Additionally, we are preparing responses to a recent request from the Department of the Interior that BP and other parties provide input into the types of inspection, testing and analysis that government agencies or others might conduct on the BOP.

Relief Wells – The *Development Driller III* remains onsite and is approximately 50 feet from the intercept point with the Macondo wellbore. The *DDIII* is standing by pending completion of the Macondo BOP recovery activities.

Claims Transition to Gulf Coast Claims Facility Underway – On Monday, BP transitioned its individual and business claims program to the Gulf Coast Claims Facility (GCCF). BP's claims team will continue to handle government claims and funding requests. The contact information for government claims with BP is:

- Online at www.bp.com/governmentclaim;
- Email at governmentclaims@worleyco.com;
- Mail to: Government Entity Claims and Funding Requests
1905 W. Thomas Street
Suite D-358
Hammond, LA 70401;
- Phone 1-877-710-4064; or
- Fax 1-800-810-5650.

The GCCF will administer all new claims, and all claims that were pending as of today. For detailed information on procedures, contact information and office locations, please visit the GCCF website at: <http://www.gulfcoastclaimsfacility.com/>.

State Summaries – Shoreline Operations

LOUISIANA

SHORELINE: Parishes working on revisions to Unified Command transition plan.

BOOM: Recovered 38,600 ft of hard boom yesterday. 1,914,788 feet of boom remains deployed.

MISSISSIPPI

SHORELINE: No new oiling reported. Crews continued beach cleaning.

BOOM: Recovered 15,500 ft of boom yesterday. 88,450 feet of boom remains deployed.

ALABAMA

SHORELINE: No new oiling reported. Crews continued beach cleaning.

BOOM: 36,000 ft of boom recovered yesterday. 23,574 feet of boom remains deployed.

FLORIDA

SHORELINE: No new oiling reported.

BOOM: Final boom recovery has been completed throughout Florida.
