

TOTAL CLAIMS AND PAYMENTS INFORMATION (through September 16)	
<i>This chart includes information on individual and business claims that is being provided by the Gulf Coast Claims Facility</i>	
Gulf Coast Claims Facility Data (provided by GCCF)	
Claims Filed	66,311
Payments since 8/23	\$171,107,601
BP Individual and Business Claims (through 8/23)	
Claims Paid	127,000
Payments	\$395,619,857
BP Government Grants and Claims Payments	
Government Claims	\$3,353,072
Response and Removal Payments (includes federal)	\$816,285,053
Other Damages Payments	\$2,849,360
Other Government Payments/Grants	\$231,150,000
Total	\$1,620,364,943

Response Personnel	–	25,282

Topline

Relief Wells – On Thursday at 4:30 pm CDT, the *Development Driller III* intercepted the Macondo well annulus. Total measured depth of the intercept was 17,977 feet below the surface of the ocean. Operations conducted bottoms up circulation, which returned the contents of the well's annulus to the rig for evaluation. Testing of the drilling mud recovered from the well indicated that no hydrocarbons or cement were present at the intersect point, indicating that the annulus has integrity at that depth. Therefore, no annulus kill is necessary and the annulus cementing will proceed as planned. It is expected that the Macondo well will be completely sealed on Saturday.

Removal of BOP and Capping Stack – The Capping Stack and failed BOP were successfully removed from the Macondo wellhead. The BOP was shipped to a NASA facility at Michoud, LA, where investigation teams will follow agreed upon disassembly protocols. The Capping Stack is onboard the vessel *Enterprise* and being disassembled pursuant to instructions from the Incident Commander.

Claims Transition – BP transitioned the individual and business claims program to the Gulf Coast Claims Facility (GCCF) on August 23. The GCCF comprehensive website is located at: www.gulfcoastclaimsfacility.com. The GCCF has also made current state-by-state claims statistics available at: <http://www.gulfcoastclaimsfacility.com/reports>.

Government Claims – BP's claims team will continue to handle *government* claims and funding requests. The contact information for filing government claims with BP is:

- Online at www.bp.com/governmentclaims
- Email at governmentclaims@worleyco.com
- Mail to: Government Entity Claims and Funding Requests
1905 W. Thomas Street
Suite D-358
Hammond, LA 70401
- Phone 1-877-710-4064
- Fax 1-800-810-5650

State Summaries – Shoreline Operations

LOUISIANA

SHORELINE: Boom recovery and beach cleanups continue. Vessel decontamination continues at multiple sites. Offshore skimmers remain on standby.

BOOM: A net of 44,305 feet of containment boom was recovered in the past 48 hours. 670,073 feet of boom remains deployed.

MISSISSIPPI

SHORELINE: Crews continue manual and mechanical recovery on the barrier islands with increased manpower. Day operations to continue in Hancock County. Respond to oil impacts throughout the area of responsibility. Vessels of opportunity continue submerged oil assessments.

BOOM: Final boom recovery has been completed in Mississippi.

ALABAMA

SHORELINE: Crews continue manual beach cleaning in Baldwin and Mobile counties, and recovery of stranded sorbent boom. Crews continue jetty cleaning in Perdido Pass and Dauphin Island, and mechanical cleaning continues on West Point Island. Vessel decontamination ongoing.

BOOM: Final boom recovery has been completed in Alabama.

FLORIDA

SHORELINE: Strike and Recon teams continue beach cleanup. Mechanical cleanup continues in Perdido beach and Fort Pickens.

BOOM: Final boom recovery has been completed in Florida.
