Health Insurance Reform

“I support reform that allows Americans to keep their current health care program, keep their doctors, and keep their hospitals.”

—Congresswoman Giffords, *Arizona Daily Star*, 07/26/2009

- **Ending Unfair Insurance Practices.** Reform must stop insurance companies from denying coverage to people with pre-existing conditions and using “lifetime limits” to refuse care when people need it most.
- **Protecting Small Businesses.** Reform must help our small businesses stay competitive and not impose new taxes or burdens on them.
- **Keeping Your Doctor.** Reform must allow Americans to keep their current health insurance and their doctors if they choose.
- **Controlling Costs.** Reform must foster competition and reduce waste, fraud and abuse in the system. Medical tort reform should also be considered like the measures already proven effective in Arizona.

Watch out for misinformation:

- **“The bill would create ‘death panels.’” FALSE**
- **“Reform would provide health insurance for illegal immigrants.” FALSE**
- **“Health insurance reform will lead to rationed care.” FALSE**
- **“Tricare or Medicare will be threatened.” FALSE**
