

Project Name: Centerville (Section 206)

Request Amount: \$150,000

Intended Recipient: U.S Army Corps of Engineers, Nashville District

Full Street Address of the Intended Recipient: P.O. Box 1070, Nashville, Tennessee 37202

Explanation of the request: The park includes several acres of level floodplain used as soccer fields, a walking trail and a boat launch ramp to the Duck River. River bank erosion and storm water run-off from downtown Centerville are two threats to the quality of the Duck River watershed. Successful bank stabilization and wetland establishment within the city limits would improve water quality and thereby provide environmental benefits.
