

**Project:** Rose Crossing - Morrison Hill

**Amount requested:** \$1,000,000

**Recipient:** City of Kingston/ Roane County

**Address:** 125 West Cumberland, Kingston, TN 37760

**Project description:**

Rose Crossing is a project that promotes growth, development, and community maintenance. The project would address alternate transportation, and would serve to resolve a community separation that has existed in Kingston since Interstate-40 was constructed. I-40 divided the Town without continuity of ingress and egress. The interstate has provided a barrier for traffic, medical services, and tourism.

With the requested funds, this project would alleviate the barrier that was created with the construction of I-40. The community should realize enhanced infrastructure, improved connectivity, multimodal transpiration opportunities, economic growth, and tourism.
