

## EXPLANATORY STATEMENT

### DIVISION A, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT FISCAL YEAR 2010

Following is an explanation of the effects of Division A, which makes appropriations for the Department of Defense for fiscal year 2010. As provided in Section 8124 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and the implementation of this as if it were a joint explanatory statement of a committee of the conference.

The recommendation on the Department of Defense Appropriations Act, 2010, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 111-230 and Senate Report 111-74 should be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

The Senate amendment deleted the entire House bill after the enacting clause and inserted new language. The recommendation includes revised language.

#### DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2010, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: for the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2011, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2011.

## CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

## CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional special interest items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

## REPROGRAMMING GUIDANCE

The Department of Defense is directed to follow the reprogramming guidance for acquisition accounts as contained herein under titles III and IV. For operation and maintenance accounts, the Department shall follow the reprogramming guidelines contained herein under title II. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III and IV of this Act. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both the program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming as made by any adjustment action. Therefore, if the combined value of transfers into or out of operation and maintenance (O-1), a procurement (P-1) or research, development, test and evaluation (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in these materials.

## FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the table.

JOINT SURVEILLANCE-TARGET ATTACK RADAR SYSTEM (JSTARS)  
PROGRAM

The Department of Defense decision to proceed with the JSTARS re-engining program is supported in the recommendation. It is noted that the JSTARS program has been used as a source of funds

for reprogrammings in the past. The Air Force is encouraged to restore those prior year funds if additional resources are needed. The recommendation provides, \$115,900,000, an increase of \$46,000,000, in the Research, Development, Test and Evaluation funding and provides \$54,000,000 in the Aircraft Procurement, Air Force appropriation.

The recommendation does not include language that restricts the obligation of funds for the JSTARS re-engining program, as provided in the Senate report.

In addition, the Air Force is not directed to transfer a SYERS-3 sensor to complete the SYERS Demonstration Program. The Air Force should have the sensor for an adequate time, and the necessary financial resources have already been appropriated to ensure completion of the demonstration program. The Secretary of the Air Force is directed to submit a written notification to the congressional defense committees on the status of the demonstration program not later than 60 days after the enactment of this Act.

#### COMBAT AIR FORCE RESTRUCTURE

The lack of detail and analysis provided to the Congress regarding the Air Force's Combat Air Force restructure plan that would retire 248 legacy F-15, F-16 and A-10 aircraft is concerning. Therefore, it is directed that the reports stipulated in Sec. 1075 of the Conference Report accompanying the National Defense Authorization Act of Fiscal Year 2010 also be transmitted to the Committees on Appropriations of the House and Senate.

Additionally, there is concern with the personnel costs and potential acquisition costs associated with the Air Force proposal to remove the training of F-15 pilots and related personnel from Tyndall Air Force Base. The Secretary of the Air Force is directed to provide a cost-benefit analysis of this proposal regarding Tyndall Air Force Base and Kingsley Field in Klamath Falls which shall include an analysis of factors impacting F-15 training quantity and quality at each location, to include training synergies, airspace access and availability. The report shall identify and explain the justification for where F-15 Basic Crew Chief Training, Air Control Squadron Training and Intelligence Formal Training will be established and maintained. The report shall include analysis on simulator and ancillary training access, expected effect on the quality and experience of the instructor base, future military construction requirements and special considerations and costs required due to the differing training environments and climatology at each base.

Moreover, the Department is requested to identify airfields that share runways for both Air Force and commercial operations within the continental United States. The Department is requested to include Air Force policy on and analysis of the training and operational mission impacts at bases with shared runways.

Additionally, the Secretary of the Air Force is directed to conduct an independent review by a Federally Funded Research and Development Center (FFRDC) on the impact of the restructure on the Nation's combat air forces. The Secretary of the Air Force is directed to provide the three described reports on April 1, 2010. The Secretary of the Air Force is further directed that no funds may be obligated on executing the Combat Air Force restructure until sub-

mission to the congressional defense committees of all directed reports.

#### CONTRACTING FRAUD

The numerous reports and allegations of defense contractors defrauding the government is concerning. Therefore, the Secretary of Defense is encouraged to strengthen policies and safeguards against such abuse. The Secretary of Defense is directed, in coordination with the Department of Defense Inspector General, to report to the congressional defense committees on contracting fraud. The report shall include an assessment of the total value of Department of Defense contracts entered into with contractors that have been indicted for, settled charges of, been fined by any Federal department or agency for, or been convicted of fraud in connection with any contract or other transaction entered into with the Federal Government over the past ten years. The report shall also include recommendations on how to penalize contractors who are repeatedly involved in contract fraud allegations. Finally, the report shall describe the actions taken to strengthen Department policies and safeguards against contractor fraud. The report should be submitted not later than March 15, 2010.

#### 2001 NUCLEAR POSTURE REVIEW

Section 1041(c) of P.L. 106-398, the National Defense Authorization Act for Fiscal Year 2001, required the Secretary of Defense to submit to Congress, in unclassified and classified forms as necessary, a report on the results of the 2001 Nuclear Posture Review. The Secretary of Defense is encouraged to provide the unclassified report of the 2001 Nuclear Posture Review to the congressional defense committees as soon after submission of the 2009 Nuclear Posture Review as is possible.

#### SENIOR MENTORS PROGRAM

There is deep concern over the Department of Defense's Senior Mentors Program. The Department spends millions of dollars each year to place retired general officers on contract to act as advisors and mentors. It is of concern that the Department uses large defense industry firms as the prime contractor to serve as third party "go betweens." There is also concern that the contracts and task orders appear to be written almost as personal services contracts. Therefore, the Department of Defense Inspector General is directed to review the Senior Mentors Program and report to the congressional defense committees no later than March 31, 2010.

#### INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

Senate Report 111-20 directed the Secretary of Defense to submit a report to the congressional defense committees on the strategy to transition the responsibilities of the Intelligence, Surveillance and Reconnaissance (ISR) Task Force. Although the report was supposed to have been submitted no later than October 1, 2009, the Department has only recently begun to address this reporting requirement.

The recommendation reiterates the concerns leading to the reporting requirement, and the Secretary of Defense is directed to submit the report within 30 days of enactment of this Act.

Furthermore, over the past two years, Congress has approved significant increases in ISR collection, processing, and dissemination in support of overseas contingency operations. The Secretary of Defense is directed to provide a classified report to the congressional defense committees within 90 days of enactment of this Act that describes the deployment of additional ISR capabilities, particularly tactical signals intelligence and full motion video, to support combat operations in Afghanistan. The report should address the adequacy of these capabilities to support troop commitments to Afghanistan as well as the plans to correct any shortfalls.

**TITLE I - MILITARY PERSONNEL**

For Military Personnel, funds are to be available for fiscal year 2010,

as follows:

(In thousands of dollars)

## CASH INCENTIVES

The recommendation supports the services' use of cash incentives to meet the extraordinary recruiting and retention challenges they have faced since September 11, 2001. The services are commended for their successful efforts to grow and maintain the finest fighting force in the world under very difficult circumstances. Because the services are generally meeting or exceeding their recruitment and retention goals, it is the belief that now is an opportune time to examine whether the use and size of these cash incentives can be reduced to maximize their manning utility while lowering costs. Therefore, the Secretary of Defense is directed to provide a report to the Committee on Appropriations of both the House of Representatives and the Senate that describes these cash incentives, to include the number of cash incentives used for recruiting and retention, the average amount provided for each Military Occupational Specialty (MOS), and the length of contract when these incentive options are accepted by recruits and those reenlisting. This report shall also include a quantitative analysis of the optimal size of these incentives and an actuarially-based estimate of the impact on recruiting and retention of a 10 percent and a 20 percent reduction of the amounts provided per incentive. This report shall be submitted no later than 120 days after the enactment of this Act.

## MILITARY PERSONNEL, ARMY

For Military Personnel, Army, funds are to be available for fiscal year

2010, as follows:

(In thousands of dollars)

UNDISTRIBUTED REDUCTIONS BASED ON HISTORICAL  
UNDEREXECUTION

Both the House and Senate recommend execution reductions to the operation and maintenance accounts. The House's adjustment is based on the Government Accountability Office's analysis of historical budget execution trends. The Senate's adjustment is based on the historical difference between the request and obligations for restoration and modernization, citing data that the execution of appropriated funds was significantly different than what was requested for certain budget line items. Since the issues behind these recommendations are so similar, the recommendation includes an undistributed reduction to each of the operation and maintenance accounts based on historical underexecution. This reduction shall be applied to any budget line item with the exception of Facilities Sustainment, Restoration and Modernization lines.

FINANCIAL IMPROVEMENT AND AUDIT READINESS

It is concerning that the Department of Defense is not placing enough emphasis on improving financial management processes, internal controls and audit readiness capability. The Department should continue to develop and implement the Financial Improvement and Audit Readiness (FIAR) plan to correct financial management deficiencies and meet audit readiness objectives. Such actions would likely result in significant programmatic savings, increased efficiencies, and an improved ability to properly spend and account for the Department's critical assets and resources. The recommendation supports the Department of Defense's FIAR planning and financial improvement programs.

OPERATION AND MAINTENANCE REPROGRAMMINGS

The recommendation includes a provision identical to the provision enacted in fiscal year 2009 that requires the Department to submit the DD Form 1414, Base for Reprogramming Actions, for each of the fiscal year 2010 appropriations accounts within 60 days after the enactment of this Act. This provision prohibits the Department from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and the Senate Committees on Appropriations.

With respect to the Services' operation and maintenance accounts, the Department shall submit prior approval reprogramming requests to the congressional defense committees for proposed transfers of funds in excess of \$15,000,000 to or from the levels specified for budget activities. In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Operation and Maintenance, Army:

Land Forces Depot Maintenance

Operation and Maintenance, Navy:

Aircraft Depot Maintenance

Ship Depot Maintenance

Operation and Maintenance, Marine Corps:

Depot Maintenance

Operation and Maintenance, Air Force:

- Air Operations Depot Maintenance
- Mobility Operations Depot Maintenance
- Basic Skills/Training Depot Maintenance
- Logistics Operations Depot Maintenance

In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

- Other Personnel Support/Recruiting and Advertising

Further, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 from the following budget sub-activities:

Operation and Maintenance, Army:

- Maneuver Units
- Modular Support Brigades
- Land Forces Operations Support
- Force Readiness Operations Support
- Base Operations Support
- Facilities, Sustainment, Restoration and Modernization

Operation and Maintenance, Navy:

- Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Marine Corps:

- Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Air Force:

- Primary Combat Forces
- Combat Enhancement Forces
- Combat Communications
- Facilities Sustainment, Restoration and Modernization

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures. In addition, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 or 20 percent, whichever is less, from the following line items identified in the Operation and Maintenance, Defense-Wide project level table contained in this Act:

Defense Legal Services Agency

Office of the Secretary of Defense:

- Acquisition, Technology, and Logistics Programs
- Personnel and Readiness
- Comptroller and Chief Financial Officer
- Under Secretary of Defense (Intelligence)
- Under Secretary of Defense (Policy)
- Director, Program Analysis and Evaluation
- Assistant Secretary for Defense (Networks and Information Integration)

A congressional interest item contained in Operation and Maintenance, Defense-Wide is defined only as a specified increase provided in this Act.

#### OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Secretary of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution

data. Such data should be provided not later than 45 days past the close of each quarter for the fiscal year, and shall be provided for each 0–1 budget activity, activity group, and sub-activity group for each of the active, defense-wide, reserve and National Guard components. For each 0–1 budget activity, activity group, and sub-activity group, these reports shall include: the budget request and actual obligations; the Department of Defense distribution of unallocated congressional adjustments to the budget request; all adjustments made in establishing the Base for Reprogramming (DD Form 1414) report; all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

#### FEDERAL GOVERNMENT CONTRACTING PROCEDURES

Section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84) included a provision amending Federal government contracting procedures for 8(a) Native American sole source Federal contracts. The provision requires that any 8(a) Native American contracts in excess of \$20,000,000 will now be subject to an additional level of review through the Justification and Approval process. The effect that this additional requirement will have on the efficiency of the contracting process and the competitiveness of Native American companies is unknown. Therefore, the Secretary of Defense is directed to submit a report 90 days after the implementation of the new contracting procedures. This report shall detail the impact of the provision on the selection of Native American companies for large dollar contracts; discuss how the provision is affecting the contracting process, whether an excessive administrative burden has been placed on contracting personnel; and provide recommendations for how the provision can be amended to mitigate any unintended negative consequences.

#### MILITARY TIRES

As part of the Tire Commodity Management Privatization initiative, undertaken in compliance with the Base Realignment and Closure Act of 2005, the Department of Defense shifted responsibility for tire supply, storage, and distribution from the Defense Logistics Agency to a contractor who would be in charge of procuring and distributing all ground and air military tires worldwide for the Department and the military services. It is recognized that the intent of this initiative was to lower costs and streamline the process of getting tires to the warfighter and that the current prime contractor has exceeded expectations. However, having a tire manufacturer as the manager as well as the vendor creates a perception of a lack of competition.

The Secretary of Defense is directed to award new military ground vehicle and aircraft tire management contracts when the existing base contract expires. The new contract should prohibit any tire manufacturer from acting as a prime contractor for the management of the contract. The existing Navy aircraft tire contracts are exempted provided the Department of the Navy certifies that these contracts represent the best value to the government.

## INFORMATION OPERATIONS

The Department of Defense must improve both budgetary and policy oversight of its strategic communications and information operations programs. The Department's leadership has only recently become aware of the variety, scope, and magnitude of funding associated with these programs across the services and at all levels within the combatant commands. Fiscal year 2010 Department of Defense budget justification materials provided to the Congress initially indicated the request included nearly one billion dollars across the Department of Defense and within the services for information operations programs. However, after the congressional defense committees made several inquiries during the budget review process, it was determined by the Department that the budget request for these activities was actually \$626,200,000 for fiscal year 2010, \$360,000,000 less than originally indicated.

As part of its own efforts, the Department has improved its ability to account for the vast sums of dollars that have been spent on these programs in the past, and those being requested in the current budget submission. However, throughout the budget review process of the House and Senate Appropriations Committees, repeated questions to the Department about the execution of appropriated funds and the proposed use of requested funding were too often answered with varied responses or admissions of uncertainty. The Congress cannot be expected to continue supporting programs which lack accountability and clear direction.

The Department of Defense should formulate, coordinate, operate and account for its strategic communications and information operations programs within an enterprise-wide architecture. This should include designating an individual or individuals with authority to ensure that the programs support national security policies and strategies, that they are properly coordinated with other government departments and agencies, and that appropriated dollars are obligated, expended, and accounted for in accordance with the intent justified and communicated to the Congress, and for the purposes appropriated. In this regard, the recommendation concurs with the reporting requirement included in the National Defense Authorization Act for Fiscal Year 2010 regarding the Department's efforts to develop enterprise-wide oversight and coordination mechanisms for military strategic communications and information operations programs. This report should also include an evaluation of proposals to establish or empower an office within the Secretary of Defense with Executive Agent authority over military strategic communications and information operations programs.

The Congress has a need for better budget justification and execution documentation for congressional oversight of information operations program funds. The classified annex to the Supplemental Appropriations Act for Fiscal Year 2009 included a reporting requirement on Department of Defense strategic communications programs. The Department should submit such a report annually with updated informative materials and data. Accordingly, the Under Secretary of Defense for Policy, in coordination with the Under Secretary of Defense (Comptroller), shall submit a strategic communications and information operations programs report to the

congressional defense committees not later than 30 days after the submission of the President’s annual budget request to Congress. The report shall include supplemental budget justification materials for strategic communication programs to include information operations, psychological operations, and influence activities of the Department of Defense for which base budget, supplemental, or overseas contingency operation funds have been appropriated or requested over the fiscal year 2007 through 2011 period, including: program strategies, target audiences, goals, and measures of effectiveness; budget exhibits at the appropriations account and sub-activity level; spend plans (including positions and other direct costs and locations). The report shall include an annex for necessary explanatory and supporting classified information. Within this annex the Department should specifically designate, and include a comprehensive explanation of, any programs, activities, or operations where the involvement of the United States Government may be anything less than publicly acknowledged.

Finally, funding requested for United States Central Command (CENTCOM) information operations programs in Afghanistan has grown from \$39,900,000 in fiscal year 2008, to a request of \$243,800,000 in fiscal year 2010, a 500 percent increase. Of the \$109,700,000 specifically appropriated for United States Forces—Afghanistan (USFOR-A) information operations programs in fiscal year 2009, only \$63,400,000 was obligated. The remaining \$46,300,000 (42 percent of the appropriation) was used by CENTCOM and the Army for other purposes in Afghanistan. The large increase in the funding requested and the ability of CENTCOM to execute this funding based on its prior year execution is of concern. Accordingly, the Under Secretary of Defense (Comptroller) is directed to provide a classified quarterly report to the congressional defense committees on the obligation and expenditure of those funds requested and appropriated in Title IX of this Act, “Operation and Maintenance, Army” for CENTCOM’s United States Forces—Afghanistan and External Information Program—Afghanistan information operation programs and activities. The report shall identify any of the funds provided that have been obligated or expended for other than information operation activities, or transferred either above or below the reprogramming threshold notification requirements, and the purposes for which the funds were otherwise used.

The recommendation makes the following reductions to the Department of Defense request for information operations and strategic communications programs:

[In thousands of dollars]

Account	Line	Program adjustment	House reduction	Senate reduction	Recommended reduction
Operation and Maintenance, Title II					
O&M Army	134	Information Operations		- 18,800	0

#### ARMY AND AIR FORCE EXCHANGE SERVICE

There is deep concern that Army and Air Force Exchange Service (AAFES) decisions to construct new restaurants will negatively impact locally-owned restaurants of the same franchise in the community. Such actions, especially in areas with economic conditions that cannot support multiple restaurants of the same franchise, are harmful to the community. As partners with the community, the Department should consider these implications when making decisions about building new retail, restaurant or concessions services on an installation. Accordingly, the Department is directed to report to the congressional defense committees within 90 days after enactment of this Act on the decision process to open new AAFES restaurants at Fort Stewart, and what considerations were made to account for the potential impact of such openings on the locally-owned restaurants of the same franchise.

## OPERATION AND MAINTENANCE, ARMY

For Operation and Maintenance, Army, funds are to be available for  
fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
50 OPERATION AND MAINTENANCE, ARMY				
100 BUDGET ACTIVITY 1: OPERATING FORCES				
150 LAND FORCES				
200 MANEUVER UNITS.....	1,020,490	1,031,620	1,020,490	1,026,055
250 MODULAR SUPPORT BRIGADES.....	105,178	116,802	105,178	114,280
300 ECHELONS ABOVE BRIGADES.....	708,038	709,038	708,038	708,838

## ACCOUNTABILITY OF COMMON ACCESS CARDS

House Report 111–230 on the Department of Defense Appropriations Bill, 2010 noted major problems cited by the Department of Defense Inspector General regarding Common Access Card abuses by contractors. A program has been established to provide secure credentials to contractors and is currently being tested at Fort Belvoir, Virginia. These steps to address the force protection deficiencies cited by the Inspector General are encouraging and the Department should work to continue to improve the process for issuing Common Access Cards and to improve the security of Department of Defense facilities.

## JUNIOR RESERVE OFFICERS' TRAINING CORPS

The Junior Reserve Officers' Training Corps (JROTC) helps instill the essential qualities of character, citizenship, and fitness in its participants. The Department is commended for JROTC's proven track record of developing leadership potential, logical thinking and enhanced oral and verbal communication skills. JROTC's valuable role is an outlet through which its participants remain engaged, dedicated and disciplined in their academic and extra-curricular endeavors. JROTC's emphasis on the importance of high school graduation, college attendance, and other advanced educational and employment opportunities which contribute to a successful future is to be applauded. In order to extend and enhance the benefits of this invaluable program, the recommendation provides \$12,000,000 above the budget request only for a pilot program of JROTC units that would expand the scope and availability of this program in localities that desire to participate in such a program.

## OPERATION AND MAINTENANCE, NAVY

For Operation and Maintenance, Navy, funds are to be available for  
fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
-----				
4300 OPERATION AND MAINTENANCE, NAVY				
4350 BUDGET ACTIVITY 1: OPERATING FORCES				
4400 AIR OPERATIONS				
4450 MISSION AND OTHER FLIGHT OPERATIONS.....	3,814,000	3,588,672	3,814,000	3,724,004
4500 FLEET AIR TRAINING.....	120,868	120,868	121,868	121,868
4560 AVIATION TECHNICAL DATA AND ENGINEERING SERVICES.....	52,259	52,259	52,259	52,259
4600 AIR OPERATIONS AND SAFETY SUPPORT.....	121,649	121,649	121,649	121,649
4650 AIR SYSTEMS SUPPORT.....	485,321	485,321	485,321	485,321
4700 AIRCRAFT DEPOT MAINTENANCE.....	1,057,747	1,127,774	1,057,747	1,092,747
4750 AIRCRAFT DEPOT OPERATIONS SUPPORT.....	32,083	32,083	32,083	32,083
4800 SHIP OPERATIONS				
4850 MISSION AND OTHER SHIP OPERATIONS.....	3,320,222	3,320,222	3,300,222	3,300,222
4900 SHIP OPERATIONS SUPPORT AND TRAINING.....	699,581	699,581	699,581	699,581
4950 SHIP DEPOT MAINTENANCE.....	4,296,544	4,298,644	4,291,544	4,293,224
5000 SHIP DEPOT OPERATIONS SUPPORT.....	1,170,785	1,171,785	1,170,785	1,171,585
5050 COMBAT COMMUNICATIONS/SUPPORT				
5100 COMBAT COMMUNICATIONS.....	601,595	601,595	601,595	601,595
5150 ELECTRONIC WARFARE.....	86,019	86,019	86,019	86,019
5200 SPACE SYSTEMS AND SURVEILLANCE.....	167,050	167,050	160,050	160,050
5250 WARFARE TACTICS.....	407,674	439,510	407,674	418,592
5300 OPERATIONAL METEOROLOGY AND OCEANOGRAPHY.....	315,228	310,828	315,228	315,228
5350 COMBAT SUPPORT FORCES.....	758,789	779,289	758,789	768,789
5400 EQUIPMENT MAINTENANCE.....	186,794	186,794	186,794	186,794
5450 DEPOT OPERATIONS SUPPORT.....	3,305	5,705	3,305	5,225
5460 COMBATANT COMMANDERS CORE OPERATIONS.....	167,789	167,789	163,789	163,789
5470 COMBATANT COMMANDERS DIRECT MISSION SUPPORT.....	259,168	259,168	250,438	250,438

(In thousands of dollars)

	Budget	House	Senate	Recommendation
5500 WEAPONS SUPPORT				
5550 CRUISE MISSILE.....	131,895	131,895	131,895	131,895
5600 FLEET BALLISTIC MISSILE.....	1,145,020	1,145,020	1,145,020	1,145,020
5650 IN-SERVICE WEAPONS SYSTEMS SUPPORT.....	64,731	64,731	64,731	64,731

NAVAL AIR STATION, MOFFETT FIELD

The future of the Hanger One site at the former Naval Air Station (NAS) Moffett Field remains uncertain, and the Department of the Navy and the National Aeronautics and Space Administration are encouraged to continue to work with the Office of Management and Budget to reach an expeditious recommendation for the environmental remediation and restoration of the facility.

JOINT POW/ MIA ACCOUNTING COMMAND

The Secretary of Defense is directed that, of the funds available within Operation and Maintenance, Navy, \$67,417,000 shall be for the Joint POW/MIA Accounting Command.

## OPERATION AND MAINTENANCE, MARINE CORPS

For Operation and Maintenance, Marine Corps, funds are to be available for fiscal year 2010, as follows:

(In thousands of dollars)				
	Budget	House	Senate	Recommendation
-----

WATER CONTAMINATION CLAIMS AT CAMP LEJEUNE.

During fiscal year 2010, the Secretary of the Navy may not dispose of claims filed regarding water contamination at Camp Lejeune, North Carolina, until the Agency for Toxic Substances and Disease Registry (ATSDR) fully completes all current, ongoing epidemiological and water modeling studies pending as of the date of the enactment of this Act.

## OPERATION AND MAINTENANCE, AIR FORCE

For Operation and Maintenance, Air Force, funds are to be available  
for fiscal year 2010, as follows:

(In thousands of dollars)				
	Budget	House	Senate	Recommendation
-----				
12000 OPERATION AND MAINTENANCE, AIR FORCE				
12050 BUDGET ACTIVITY 1: OPERATING FORCES				
12100 AIR OPERATIONS				
12150 PRIMARY COMBAT FORCES.....	4,017,156	3,917,156	3,936,996	3,936,996
12250 COMBAT ENHANCEMENT FORCES.....	2,754,563	2,676,863	2,754,563	2,754,563
12300 AIR OPERATIONS TRAINING.....	1,414,913	1,416,413	1,414,913	1,416,113
12400 DEPOT MAINTENANCE.....	2,389,738	2,391,978	2,348,428	2,349,866
12450 FACILITIES SUSTAINMENT, RESTORATION & MODERNIZATION ..	1,420,083	1,420,083	1,420,083	1,420,083
12500 BASE OPERATING SUPPORT.....	2,859,943	2,859,943	2,735,301	2,734,911
12550 COMBAT RELATED OPERATIONS				
12600 GLOBAL C3I AND EARLY WARNING.....	1,411,813	1,411,813	1,411,813	1,411,813
12700 OTHER COMBAT OPERATIONS SUPPORT PROGRAMS.....	880,353	880,353	885,284	884,484
12850 TACTICAL INTELLIGENCE AND SPECIAL ACTIVITIES.....	552,148	552,148	552,148	552,148
12900 SPACE OPERATIONS				
12950 LAUNCH FACILITIES.....	356,367	356,367	356,367	356,367
13050 SPACE CONTROL SYSTEMS.....	725,646	725,646	725,646	725,646
13260 COMBATANT COMMANDERS DIRECT MISSION SUPPORT.....	608,796	608,796	608,796	588,796
13270 COMBATANT COMMANDERS CORE OPERATIONS.....	216,073	198,073	216,073	211,073
13280 UNDISTRIBUTED REDUCTION.....	---	-183,000	---	-183,000
-----				
13300 TOTAL, BUDGET ACTIVITY 1.....	19,607,592	19,232,632	19,366,409	19,159,659

## DEFENSE INFORMATION SYSTEMS AGENCY

Funding for the Senior Leadership Enterprise (SLE), in the amount of \$55,924,000 is restored following a briefing by representatives from the Defense Information Systems Agency (DISA). It is concerning that DISA failed to include any information on SLE in either the classified or unclassified budget justification documents. Further, DISA failed to respond to repeated requests for information on SLE prior to the House mark-up of the fiscal year 2010 Defense Appropriations bill. Because DISA's request for this new program lacked any budget justification or explanation, the House declined to fund the request. The Director, Defense Information Systems Agency is urged to review the organization's legislative affairs operations to ensure more responsive, effective communications with Congress in the future.

SECURITY AND STABILIZATION ASSISTANCE (SECTION 1207  
AUTHORITY)

The recommendation includes \$97,090,000 for the Security and Stabilization Assistance Program. It is not anticipated that additional Department of Defense resources will be provided to this program in the future. The recommendation is \$100,000,000 below the budget request, which is similar to the amount recommended for the Complex Crises Fund and Transitions Initiatives in the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010. The Complex Crises Fund was recently created to provide the United States Agency for International Development (USAID) and the Department of State with increased resources and flexibility to respond to urgent requirements, in much the same manner and for similar purposes as projects funded under section 207. The establishment of the Complex Crises Fund will enable USAID and the Department of State to meet emergent requirements that fall under their purview without relying on the Department of Defense. The \$97,090,000 recommended for Security and Stabilization Assistance is provided as a bridging mechanism until the Complex Crises Fund is fully implemented. Although future Security and Stabilization Assistance projects should be funded in USAID and Department of State budget requests, the Secretary of Defense, the Director, USAID and the Secretary of State are directed to maintain and strengthen the interagency process created from the section 1207 program when formulating, reviewing, and approving future projects that would have been funded through section 1207.

## BRIGADE BASING REMEDIATION

The House report expressed concerns regarding the impact on local communities following a decision by the Secretary of Defense to reverse the planned growth in the number of Army Brigade Combat Teams (BCT) from 45 to 48. The report called for in the House report on efforts by the Department to mitigate the impact of this decision is of great interest, and the Department of Defense is expected to act promptly to prepare this report.

OFFICE OF THE UNDER SECRETARY OF DEFENSE (COMPTROLLER)  
AND CHIEF FINANCIAL OFFICER

The recommendation provides \$2,348,000 for the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer for the costs associated with the recruitment, hiring, training, retention and pay for additional Federal employees to improve fiscal management and oversight. The Department is strongly urged to exempt the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer from internal Department headquarters personnel ceilings if necessary to ensure proper fiscal management and budget oversight.

COMMISSION ON WARTIME CONTRACTING

The recommendation includes an additional \$3,200,000 for the Commission on Wartime Contracting, providing a total of \$12,300,000 for Commission operations in fiscal year 2010.

NATIONAL SECURITY SPACE OFFICE

The recommendation strongly supports an integrated national security space architecture planning function that provides strategic, senior-level decision-making within the Department of Defense with timely and cogent space system architecture alternatives. Therefore, the recommendation provides \$7,000,000 for the National Security Space Office (NSSO) and transfers the management and tasking to the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD (AT&L)), Space and Intelligence Office (SIO). This new arrangement will accomplish the original intent of the office as the Department of Defense's space architecture planning organization. Therefore, the USD(AT&L)/SIO is directed to revise the NSSO charter and provide a roadmap and goals to the congressional defense committees within 180 days of enactment of this Act on how this office will be used in future space system architecture planning.

MILITARY VOTING

A number of new authorities have been established in the National Defense Authorization Act for Fiscal Year 2010 with regard to military voting. The Department of Defense is expected to use the necessary resources to implement these new requirements and to ensure that uniformed servicemembers, their family members, and overseas citizens have the full opportunity to vote, particularly at a time when so many military personnel are serving in combat areas.

## OPERATION AND MAINTENANCE, ARMY RESERVE

For Operation and Maintenance, Army Reserve, funds are to be available for fiscal year 2010, as follows:

## ARMY NATIONAL GUARD RECRUITING AND ADVERTISING

The Senate reduced funding to Sub-activity Group 434, Other Personnel Support, based on unjustified growth in recruiting and advertising between fiscal year 2009 and fiscal year 2010. Since the time of that proposed reduction, the Army National Guard has adequately justified the budget request for recruiting and advertising. The reason for the skewed original analysis was attributed to the amount of funding the Army National Guard realigns into Sub-activity Group 434 in the year of execution. In fiscal years 2007–2009, the Army National Guard realigned between \$100,000,000 and \$200,000,000 each year into recruiting and advertising. Because the Army National Guard has had flexibility to move a large amount of funding in the past, the recommendation includes an undistributed reduction to Operation and Maintenance, Army National Guard due to the migration of funds from other sources into recruiting and advertising. New prior approval reprogramming guidelines for the Army National Guard are addressed in the operation and maintenance overview.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For Operation and Maintenance, Air National Guard, funds are to be available for fiscal year 2010, as follows:

(In thousands of dollars)

## 194TH REGIONAL SUPPORT WING

In fiscal year 2010, the Air National Guard had planned to eliminate 98 essential billets from the 194th Regional Support Wing. The National Guard Bureau and the Air National Guard 194th Regional Support Wing are currently in negotiations to resolve the matter but have yet to reach final resolution. For this reason, the Secretary of Defense is directed to retain all of the billets that existed in fiscal year 2009 for the remainder of fiscal year 2010. Additionally, the Chief of the Air National Guard is directed to provide a report on the long term plans for those billets that had been proposed for elimination in fiscal year 2010. The report shall be provided to the House and Senate Committees on Appropriations not later than May 15, 2010. The Committees plan to reexamine this issue as part of the fiscal year 2011 budget consideration and urge both the National Guard Bureau and the 194th Regional Support Wing to make a good faith effort to reach a fair and reasonable solution.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER  
ACCOUNT

For the Overseas Contingency Operations Transfer Account, no funds are provided for fiscal year 2010.

UNITED STATES COURT OF APPEALS FOR THE ARMED  
FORCES

For the United States Court of Appeals for the Armed Forces, \$13,932,000 is provided for fiscal year 2010.

## ENVIRONMENTAL RESTORATION, ARMY

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$423,364,000 for Environmental Restoration, Army, instead of \$415,864,000 as proposed by the House and \$430,864,000 as proposed by the Senate.

## ENVIRONMENTAL RESTORATION, NAVY

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$285,869,000 for Environmental Restoration, Navy, as proposed by both the House and the Senate.

## ENVIRONMENTAL RESTORATION, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$494,276,000 for Environmental Restoration, Air Force, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$11,100,000 for Environmental Restoration, Defense-Wide, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$292,700,000 for Environmental Restoration, Formerly Used Defense Sites, instead of \$277,700,000 as proposed by the House and \$307,700,000 as proposed by the Senate. The adjustments to the budget for Environmental Restoration, Formerly Used Defense Sites are shown below:

UXO Remediation .....	\$5,000,000
Other Unfunded Requirements .....	20,000,000

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

For Overseas, Humanitarian, Disaster, and Civic Aid, \$109,869,000 is provided for fiscal year 2010.

COOPERATIVE THREAT REDUCTION ACCOUNT

For the Cooperation Threat Reduction Account, \$424,093,000 is provided for fiscal year 2010.

DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

For the Department of Defense Acquisition Workforce Development Fund, \$100,000,000 is provided for fiscal year 2010.

## TITLE III - PROCUREMENT

For Procurement, funds are to be available for fiscal year 2010, as

follows:

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

## C-130 AVIONICS MODERNIZATION PROGRAM

The recommendation provides no funding in Aircraft Procurement, Air Force for the C-130 Avionics Modernization Program given that the fiscal year 2009 funds have thus far not been put on contract due to a delayed Milestone C decision. Based on these delays, the funding requested for fiscal year 2010 is early to need. The Under Secretary of Defense (Acquisition, Technology, and Logistics) is strongly encouraged to make a decision on the acquisition strategy and proceed expeditiously with the program of record in order to provide this needed capability to Active, Guard, and Reserve C-130 aircraft.

## C-130 FIREFIGHTING CAPABILITY

The Secretary of the Air Force, the Chief of the Air Force Reserve and the Director of the National Guard Bureau, are directed, within 60 days of enactment of this Act, to create an Integrated Working Group (IWG) in conjunction with the United States Department of Agriculture Forest Service (USDAFS) and the Department of the Interior for the purpose of coordinating the joint use of Federal forest firefighting assets, and, within 90 days after formation of the IWG, to submit a report to the congressional defense committees; the House and Senate Committees on Appropriations, Subcommittees on Interior; the House Energy and Commerce Committee and Senate Energy and Natural Resources Committee, detailing the following:

1. The viability of the Air National Guard, the Air Force Reserve, and the USDAFS to jointly operate a fleet of new C-130s procured for the primary purposes of firefighting duties at the request of the USDAFS, and equipped with the latest proven firefighting technology.
2. Any and all prior analyses done in the past ten years by the Department of the Air Force, the National Guard Bureau or the USDAFS concerning the recapitalization of the national firefighting fleet.
3. A new business case analysis which examines the cost and operational effectiveness of procurement of new C-130 aircraft and joint cooperation between the Department of the Air Force, the National Guard Bureau and the USDAFS for the firefighting mission as compared to the present approach of utilizing the current fleet of aging firefighting aircraft available via commercial operator contracts.
4. Any existing legislative impediments to interagency cooperation and joint operation of a dedicated firefighting fleet by the Department of the Air Force, the National Guard Bureau and the USDAFS.

5. An assessment and accounting of public-private property losses as well as taxpayer expenses spent annually fighting forest and wildfires and how such losses can be mitigated by the described joint firefighting business model with respect to the Department of the Air Force, the National Guard Bureau and the USDAFS.

An interim report shall be submitted to Congress not later than 90 days after enactment of this Act detailing the progress made on the final report.

#### NON-INTRUSIVE INSPECTION TECHNOLOGIES

Vehicle and cargo-borne threats to U.S. forward operating bases and unmet requests for fielding non-intrusive inspection (NII) technologies for base access control to detect hidden weapons, explosives and personnel, increase the operating risk for our forces. The Secretary of Defense is directed to prioritize the NII technology needs of the 100 highest-risk bases and submit a schedule for NII technology procurement for these bases to the congressional defense committees not later than 30 days after enactment of this Act.

#### JOINT STRIKE FIGHTER

Concerns persist regarding the progress of the F-35 Joint Strike Fighter (JSF) program. Last year, the Department of Defense established a Joint Estimating Team (JET) to evaluate this program. The JET reported that the program would cost significantly more and take longer to fully develop and test than the Department was then projecting. Although the JET has yet to officially report out for 2009, the initial indications are that cost growth and schedule issues remain. Nevertheless, the Department insists that the program is on track to achieve both the cost and schedule currently reflected in the program of record.

Therefore, the JSF procurement program is provided \$6,840,478,000, and the JSF program is designated as a congressional special interest item. The Secretary of Defense is directed to ensure that all 30 aircraft be procured as requested in the budget. The Under Secretary of Defense for Acquisition, Technology and Logistics is directed to provide the findings of the JET along with recent studies on the test program and causes of cost growth to the congressional defense committees no later than January 15, 2010.

#### REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the initial appropriation as well as any rescissions, supplemental appropriations and approved Department of Defense 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Ap-

ropriations Act (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test, and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test, and evaluation (R–1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming request to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report. This guidance is effective for fiscal year 2010 and forward.

#### REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

#### FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

## AIRCRAFT PROCUREMENT, ARMY

For Aircraft Procurement, Army, funds are to be available for fiscal  
year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation

## BRADLEY FIGHTING VEHICLE

The various versions of the Bradley Fighting Vehicle family have continued to provide excellent performance in combat operations. The Bradleys have assumed a heavy workload in Iraq and have achieved survivability goals second only to the M1 Abrams Tank. However, there are concerns that the termination of the Future Combat Systems manned ground vehicles has created considerable uncertainty regarding the current Bradley. Congress has been consistent in its strong support for robust Bradley programs, providing \$784,600,000 for Bradley reset and remanufacture in the Supplemental Appropriations Act, 2009. The Army is strongly urged to sustain the Bradley industrial base by accomplishing vehicle restoration and reset efforts to the zero hours, zero miles standard plus survivability upgrades.

The recommendation fully supports the fiscal year 2010 budget request for Bradley modifications of \$526,356,000 in base budget funding, plus \$243,600,000 for overseas contingency operations, for a total of \$769,956,000. The Army is expected to apply the funding to sustain the Bradley industrial base, continue upgrades of Bradley Operation Desert Storm (ODS) variants to the ODS Situational Awareness variant, and reset Bradley Fighting Vehicles to the zero hours, zero miles standard, plus survivability enhancements. The Army is encouraged to include Bradley Fighting Vehicles from repositioned equipment sets in the rotation through the reset and remanufacture program.

It is understood that the Army's M-113 divestiture decision will affect approximately 4,100 M-113 type vehicles, including ambulance, mortar, command post and fire support variants. Strong consideration should be given to replacing these vehicles in the Heavy Brigade Combat Teams with a Bradley-based vehicle to leverage the Bradley's track record of proven performance as well as the existing logistics support.

There is a disparity in digital data management between the engineer units in certain Heavy Brigade Combat Teams and the infantry and tank units that they support. The digital brigades have digital Abrams Tanks, matched with digital A3 Bradleys, but the engineers have non-digital Bradley ODS variants, which limits the engineers' ability to be fully integrated into the information network. The Army is urged to procure Bradley A3 variants with digital configuration for engineer units in heavy brigades that have the Bradley A3 and M1A2 System Enhancement Package Abrams tank.

Added survivability enhancements and other improvements have increased the weight of the Bradley Fighting Vehicle and adversely impacted some aspects of performance. The Army is expected to give strong consideration to Space, Weight, and Power improvements with the funds provided in Research, Development, Test and Evaluation, Army and to incorporate these improvements into the fleet at the earliest opportunity.

In addition, the recommendation fully supports the Army's M109 Paladin Howitzer/Field Artillery Ammunition Resupply Vehicle Integrated Management (PIM) program for fiscal year 2010, including a transfer of \$91,500,000 from the procurement request to the

Research, Development, Test and Evaluation, Army appropriation. The Vietnam-era M109 Paladin self-propelled howitzer requires major upgrades in mobility, maintainability and reliability and the PIM program, which incorporated an upgraded turret and fire control system with a Bradley Fighting Vehicle chassis, offers vast improvements in mobility and fire support. The Army is urged to move ahead promptly with the Paladin PIM program.

## PROCUREMENT OF AMMUNITION, ARMY

For Procurement of Ammunition, Army, funds are to be available for  
fiscal year 2010, as follows:

(In thousands of dollars)

Small Caliber Ammunition Production Modernization		5,000		4,000

## AMMUNITION FACILITIES AND EQUIPMENT

The Army is planning to transfer or consolidate government-owned ammunition assets to private ammunition manufacturers. In order to ensure a comprehensive understanding of these plans, the Secretary of the Army is directed to provide a report to the congressional defense committees not later than 60 days after enactment of this Act on any plans to consolidate government-owned ammunition production assets or to transfer by sale, lease, loan or donation government-owned ammunition production equipment or facilities to a private ammunition manufacturer. The report shall include the Secretary of the Army's assessment of the following: a cost-benefit risk analysis for consolidating or transferring government-owned ammunition production equipment or facilities to private ammunition manufacturers, including cost-savings comparisons; a projection of the impact on the ammunition production industrial base in the United States of consolidating or transferring such equipment or facilities to private ammunition manufacturers; a projection of the capability to meet current and future ammunition production requirements by both government-owned and private ammunition manufacturers, as well as a combination of the two sources of production assets; and the potential impact on national security and military readiness.

Furthermore, if additional consolidation or transfers are required during fiscal year 2010 and are not addressed in the report submitted to the congressional defense committees, the Secretary of the Army is directed to certify to the congressional defense committees that the transfer or consolidation will not increase the cost of ammunition procurement or negatively impact national security, military readiness, government ammunition production or the United States ammunition production industrial base.

Finally, there is an existing contract to operate the Milan and Iowa Army Ammunition Plants (AAP) that would transform, at the contractor's expense, the Iowa AAP into a Joint Munitions Load, Assemble and Pack facility and transform the Milan AAP into a Logistics Center of Excellence/Joint Munitions Storage and Distribution Center by 2011. The Secretary of the Army is directed to notify the congressional defense committees not later than 30 days prior to any modification to this contract. In addition, the Government Accountability Office (GAO) is directed to conduct an audit on the amount and sources of funds used in furtherance of this contract.

## OTHER PROCUREMENT, ARMY

For Other Procurement, Army, funds are to be available for fiscal year

2010, as follows:

## ARMY TRUCK PROGRAM

Concerns persist regarding the absence of an overall truck acquisition strategy to guide the Army's plans and programs. It is not clear that the Army has conducted the needed analyses for sound acquisition plans or to reap potential savings. Not later than 180 days after the enactment of this Act, the Secretary of the Army shall provide a report to the congressional defense committees detailing the Army's acquisition strategy for future truck procurement.

## NETWORKED COMMUNICATIONS CAPABILITIES

The recommendation continues to support the overall objectives of the Joint Tactical Radio System (JTRS) program, but concerns remain about the technical risk, cost and availability of the JTRS radios. While the JTRS family of radios and waveforms has successfully tested several variants and demonstrated key networking waveforms, full testing objectives have not been realized. The Secretary of Defense is encouraged to examine lower-risk approaches to bridge the networked communications gap while providing interoperability and moving toward a competitive radio business model. Competition is encouraged between legacy and commercially available radios and waveforms that meet the majority of JTRS approved standards until such time as the JTRS radios are fielded. Additionally, the Assistant Secretary of Defense for Networks and Information Integration is encouraged to examine the cost effectiveness of such an approach and to submit a report to the congressional defense committees not later than March 15, 2010, with recommendations for closing any networked communications capability gap with commercially available and legacy radios and waveforms.

## MODIFICATION OF IN-SERVICE EQUIPMENT

According to accounting reports, the Army has over \$1,284,000,000 in prior year funding available for Modification of In-Service Equipment, Budget Activity-1. Therefore, the recommendation provides \$2,314,000 for this program in fiscal year 2010, a reduction of \$8,000,000. Additionally, due to the large prior year funding balance, the recommendation includes a reduction of \$195,950,000 in the title IX portion of this program.

## RAPID EQUIPPING FORCE

For fiscal year 2010, the recommendation provides \$13,370,000 for Rapid Equipping Force funding, a reduction of \$35,400,000 from the budget request due to funding available in prior year accounts. There is concern with the Army's demand driven approach in providing Soldier Wearable Acoustic Targeting Systems (SWATS) to soldiers, and a strong belief that the equipment should be made available to all deploying units, not just those units submitting Urgent Needs Statements.

The Supplemental Appropriations Act, 2009 provided \$50,000,000 for SWATS. However, the slow pace of obligating available funding for the life-saving SWATS, and the lack of urgency in

establishing a basis of issue plan and making it a Program of Record causes concern. The Army is expected to correct the situation quickly.

The Secretary of the Army has yet to provide a report on the acquisition objective and basis of issue plan for both vehicular and soldier wearable sniper detection equipment as directed in the Joint Explanatory Statement accompanying the Supplemental Appropriations Act, 2009. The report shall be provided to the congressional defense committees not later than 60 days after enactment of this Act.

## AIRCRAFT PROCUREMENT, NAVY

For Aircraft Procurement, Navy, funds are to be available for fiscal  
year 2010, as follows:

## F-18 AIRCRAFT

The variants of the F-18 aircraft have been the workhorses of the Navy's aviation fleet for a generation. Consistent with the National Defense Authorization Act for Fiscal Year 2010, a multi-year procurement strategy has been approved to complete the procurement of the F-18E/F/G aircraft as the Navy transitions to the Joint Strike Fighter aircraft.

## WEAPONS PROCUREMENT, NAVY

For Weapons Procurement, Navy, funds are to be available for fiscal  
year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
WEAPONS PROCUREMENT, NAVY

## SHIPBUILDING

The fiscal year 2010 shipbuilding budget request from the Department once again falls short of the quantity of ten ships nominally required to reach and maintain the required fleet size of 313 ships. Further, the Department's revised acquisition strategy for the Littoral Combat Ship, solidified after the submission of the budget, has reduced the requested number of ships from a quantity of eight to a quantity of seven. In an effort to position the Department to request additional ship quantities in fiscal year 2011, the recommendation includes an additional \$170,000,000 of advance procurement funding for the LHA (Replacement) helicopter assault ship and \$250,000,000 of additional advance procurement funding for the DDG-51 Guided Missile Destroyer program.

## COMMON HULL FORMS

The Navy has discussed in testimony the use of existing hull forms for the design of future ships in an effort to reduce the cost of these ships. Candidate ships include, but are not limited to the replacement command ship, future dock landing ships, future surface combatant, and hospital ships. Candidate hull forms include, but are not limited to, the LPD-17, T-AKE, National Security Cutter, Patrol Coastal and DDG-51 hull forms all currently in use. This initiative continues to have strong support and the Secretary of the Navy is directed to submit a report that outlines the benefits of using an existing hull form for future ship construction. The report should include candidate hull forms, candidate ship classes (including survivability requirements), potential cost savings (including under multi-year procurement authority), and the timeframe of when the decision would be made to use an existing hull form for future designs. This report should be submitted to the congressional defense committees not later than March 15th, 2010.

## LITTORAL COMBAT SHIP (LCS)

The recommendation includes \$1,080,000,000 for the construction of two Littoral Combat Ships (LCS), a reduction of \$300,000,000 and one ship from the budget request. This adjustment properly prices the program and is consistent with the Navy's revised acquisition strategy for the LCS program which calls for down selecting to a single ship design in fiscal year 2010, versus the two designs that the program has been carrying. The recommendation supports this strategy which should result in reduced program costs as a result of reducing the overhead within the program. Further, the recommendation provides an additional \$60,000,000 to the LCS research and development program for the development of a technical data package that will allow a future second source of the winning LCS design.

Additionally, in compliance with previous congressional direction, the Assistant Secretary of the Navy for Research, Development, and Acquisition (ASN (RDA)) provides the congressional defense committees a monthly progress report on LCS construction costs. Presently, these reports provide cost information only for the first two LCS platforms (LCS-1 and LCS-2). The ASN (RDA) is directed

to provide the same monthly cost reports for LCS-3 and LCS-4 upon enactment of this Act.

#### LEASING OF FOREIGN BUILT SHIPS

There exists strong interest in the impact that the review of future requirements in the Quadrennial Defense Review will have on the Navy's practice of leasing foreign built ships. Therefore, the Secretary of the Navy is directed to update its March 2008 report on the use of such leases and address impacts on American seafarers, sealift capabilities, and naval shipbuilding.

#### DDG-51 GUIDED MISSILE DESTROYER

The recommendation includes \$578,996,000, an increase of \$250,000,000 above the budget request, for advance procurement of components for the two DDG-51 destroyers planned in fiscal year 2011. The recommendation fully supports re-start of the DDG-51 program and provides additional funding in an effort to re-start the program in a more efficient and cost effective manner.

## OTHER PROCUREMENT, NAVY

## SHIP SERVICE TURBINE GENERATOR ROTORS

The budget request includes \$3,330,000 for an Ohio-class submarine Ship's Service Turbine Generator (SSTG) rotor. The recommendation provides no funds for the rotor because the procurement does not result in a usable end item in violation of the full funding policy. The Secretary of the Navy is urged to submit a fiscal year 2010 reprogramming request that fully funds the SSTG rotor in order to support the planned installation schedule.

## WEAPONS RANGE SUPPORT EQUIPMENT

Due to carryover of production engineering funding in the weapons range support equipment program, the recommendation reduces the program by \$1,000,000. This reduction is to be applied only against the fiscal year 2010 production engineering funding and shall not reduce funds available for completion of auxiliary systems in support of Magnetic Silencing Facility military construction.

## PROCUREMENT, MARINE CORPS

For Procurement, Marine Corps, funds are to be available for fiscal  
year 2010, as follows:

(In thousands of dollars)

## C-17 GLOBEMASTER III

The recent actions of the Air Force to address and curtail the wide use of undefinitized contract actions (UCA) are encouraging. To further encourage a sense of urgency to reduce the number of UCAs, bill language has been included that limits obligations for modifications until all C-17 UCAs funded with prior year "Aircraft Procurement, Air Force" funds are definitized or certifications of need are made by the Secretary of the Air Force.

The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) is directed to review contracting procedures within the Air Force and provide a report to the congressional defense committees not later than 90 days after enactment of this Act detailing a strategy to reduce current and minimize further undefinitized contracts in the Air Force. Additionally, the USD(AT&L) is directed to provide to the congressional defense committees a consolidated list of undefinitized contracts within the Department of Defense by November 15 and April 15 of each year.

The recommendation provides an additional \$2,500,000,000 for the procurement of ten C-17 aircraft, associated spares, support equipment and training equipment as required.

OPERATIONAL SUPPORT AND VIP SPECIAL AIRLIFT MISSION  
AIRCRAFT

The recommendation includes \$220,444,000 for operational support and VIP special mission aircraft, which is the amount and quantity requested by the President. The Department of Defense maintains a number of aircraft to provide safe and secure transportation for senior government officials as well as the Combatant Commanders and other senior military leadership. The fleet of aircraft is aging creating maintenance and reliability issues. For example, the Department of Defense grounded the C-9 aircraft within the fleet due to several safety of flight issues. Accordingly, the Secretary of Defense is directed to provide a report on the health of the fleet, inventory requirements and the plans to sustain and upgrade the aircraft in the future to the congressional defense committees, within 90 days after enactment of this Act.

## MISSILE PROCUREMENT, AIR FORCE

For Missile Procurement, Air Force, funds are to be available for

	Classified adjustment		-248,890	-36,500	-21,500

## EVOLVED EXPENDABLE LAUNCH VEHICLE

There is concern that the Air Force has not established a robust process for managing content on the Evolved Expendable Launch Vehicle (EELV) Launch Capabilities contract. Therefore, the Secretary of the Air Force is directed to establish a formal systems engineering process which includes the National Reconnaissance Office as the functional manager for space launch for the Intelligence Community, as a voting member, in order to prioritize and manage all efforts encompassed by the EELV Launch Capabilities contract.

## MULTI-SATELLITE VEHICLE PROCUREMENT STRATEGIES

The language on multi-satellite vehicle procurement strategy as described in House Report 111-230 is supported in the recommendation. In addition to the programs listed in House Report 111-230, the five year investment strategy is also directed to consider Wideband Global Satellite and Advanced Extremely High Frequency satellite systems for future multi-vehicle purchases.

## PROCUREMENT OF AMMUNITION, AIR FORCE

For Procurement of Ammunition, Air Force, funds are to be available  
for fiscal year 2010, as follows:

## BASE INFORMATION INFRASTRUCTURE

The fiscal year 2010 budget request includes \$425,780,000 for the Combat Information Transport System (CITS), an increase of \$88,590,000 from the amount appropriated in fiscal year 2009. This requested increase stemmed from a requirement to modernize the information transport system at stand-alone Air National Guard (ANG) bases. While there is support for funding the ANG requirement, it is recognized that the CITS program has yet to obligate \$126,700,000 in fiscal year 2008 funding, and, despite reallocating over \$90,000,000 away from CITS, the service has yet to obligate an additional \$87,500,000 in fiscal year 2009 funding. Therefore, the Base Information Infrastructure request is reduced by \$100,000,000, and the Secretary of the Air Force is directed to allocate no less than \$100,000,000 of the appropriated amount to Air National Guard modernization.

## PROCUREMENT, DEFENSE-WIDE

For Procurement, Defense-Wide, funds are to be available for fiscal  
year 2010, as follows:

COMBAT MISSION REQUIREMENTS

The Commander, Special Operations Command, is directed to submit quarterly reports to the congressional defense committees on the use of funds provided in this title for Special Operations Command combat mission requirements.

## NATIONAL GUARD AND RESERVE EQUIPMENT

Funding for National Guard and Reserve Equipment is addressed in  
Title IX of this Act.

(In thousands of dollars)

	Budget	House	Senate	Recommendation

## DEFENSE PRODUCTION ACT PURCHASES

For Defense Production Act Purchases, \$150,746,000 is available for  
fiscal year 2010, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS  
(in thousands of dollars)

	Budget Request	House	Senate	Recommendation
BERYLLIUM SUPPLY INDUSTRIAL BASE	19,500	19,500	19,500	19,500
GALLIUM NITRIDE X-BAND MONOLITHIC MICROWAVE INTEGRATED CIRCUITS	2,500	2,500	2,500	2,500
GALLIUM NITRIDE ELECTRONIC WARFARE	120	120	120	120
POWER AND ENERGY SYSTEMS PRODUCTION INITIATIVE	9,086	9,086	9,086	9,086
RADIATION HARDENED MICROELECTRONICS MODERNIZATION	3,000	3,000	3,000	3,000
LITHIUM ION (LI ION) BATTERY PRODUCTION	4,040	6,040	54,040	31,040
Program Increase - Lithium Ion Battery Production		2,000	50,000	27,000
ALUMINUM OXY-NITRIDE AND SPINEL OPTICAL CERAMICS		3,000		2,400
ARMOR AND STRUCTURES TRANSFORMATION INITIATIVE - STEEL TO TITANIUM		8,100		8,100
FLEXIBLE AEROGEL MATERIALS SUPPLIER INITIATIVE		2,000	3,000	2,400
HIGH PERFORMANCE THERMAL BATTERY INFRASTRUCTURE PROJECT		3,000		3,000
INVENTORY FOR DEFENSE APPLICATIONS TO ENSURE RELIABILITY OF SHORT LEAD TIMES		10,000		10,000
LOW COST MILITARY GLOBAL POSITIONING SYSTEM (GPS) RECEIVER		4,000		3,200
METAL INJECTION MOLDING TECHNOLOGICAL IMPROVEMENTS		1,000		800
MILITARY LENS FABRICATION AND ASSEMBLY		4,000		3,200

	Budget Request	House	Senate	Recommendation
NAVY PRODUCTION CAPACITY IMPROVEMENT PROJECT	1,000	4,000		3,200
PRODUCTION OF MINIATURE COMPRESSORS FOR ELECTRONICS AND PERSONAL COOLING	4,500			3,600
RADIATION HARDENED CRYOGENIC READ OUT INTEGRATED CIRCUITS	2,000			1,600
ADVANCED CARBON NANOTUBE VOLUME PRODUCTION FACILITY			3,000	2,400
AUTOMATED COMPOSITE TECHNOLOGIES AND MANUFACTURING CENTER			12,000	9,600
BIO-SYNTHETIC PARAFFINIC KEROSENE PRODUCTION			5,000	4,000
CONDUCTIVE COMPOSITES NANO-MATERIALS SCALE-UP INITIATIVE			3,500	2,800
EXTREMELY LARGE, DOMESTIC EXPENDABLE AND REUSABLE STRUCTURES MANUFACTURING CENTER			9,800	7,840
GOODRICH TERAHERTZ SPECTROMETER			5,000	4,000
HIGH HOMOGENEITY OPTICAL GLASS			4,000	3,200
LIGHTWEIGHT SMALL CALIBER AMMUNITION PRODUCTION INITIATIVE			4,200	3,760
TITANIUM METAL MATRIX COMPOSITE AND NANO- ENHANCED TITANIUM DEVELOPMENT			8,000	6,400
<b>TOTAL DPA</b>	<b>38,246</b>	<b>82,846</b>	<b>149,746</b>	<b>150,746</b>

**TITLE IV - RESEARCH, DEVELOPMENT, TEST AND  
EVALUATION**

For Research, Development, Test and Evaluation, funds are to be  
available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
RECAPITULATION				
RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY.....	10,436,218	11,151,884	10,653,126	11,474,180
RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY.....	19,270,932	20,197,300	19,148,509	20,003,463
RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE.	27,992,827	27,976,278	26,049,015	26,121,985
RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE.....	20,741,542	20,721,723	20,408,968	20,747,081
OPERATIONAL TEST AND EVALUATION, DEFENSE.....	190,770	190,770	190,770	190,770
GRAND TOTAL, RDT&E.....	78,634,289	80,237,955	78,450,388	80,537,479

## JOINT LIGHT TACTICAL VEHICLE

The budget request includes a total of \$90,099,000 to continue technology development for the Joint Light Tactical Vehicle (JLTV). The acquisition strategy involves competitive prototyping of vehicles from three contractors, followed by a down-select to two vehicles in fiscal year 2011 to proceed into the engineering and manufacturing development phase of the program. The recommendation fully supports this development strategy, which shares a number of elements of the reforms that have been written into law by the Weapon Systems Acquisition Reform Act of 2009. However, the program has yet to demonstrate itself as a model for a successful development program despite the reformed acquisition strategy. The funding profile has not changed despite a four month delay in initiating the program. Deficiencies in billings have resulted in the program falling far behind the financial benchmarks established by the Department of Defense. Program management has been complicated due to the different funding strategies pursued by the Army and the Marine Corps. There is great concern that of the \$217,255,000 Congress has approved for JLTV since fiscal year 2007, only \$53,128,000 had been expended through the end of fiscal year 2009. Despite these challenges, information has been provided that the program is proceeding in accordance with its revised schedule, billing errors are being addressed, budget execution is being corrected and prior year funding will be exhausted in 2010. Based upon these assurances, the recommendation contains full funding for the budget request. Careful oversight of program execution and military requirements will continue to ensure the commitment of the Army and Marine Corps to the success of the program.

## EJECTION SEATS

The US16E ejection seat was competitively selected as the ejection seat for the F-35 Joint Strike Fighter. The progress made on this ejection seat is encouraging and the program of record is fully supported.

## ENERGETICS

House language noted that the efforts of the military Services as coordinated through the Office of the Secretary of Defense, with the Department of Energy, have led to steady progress in the last decade in advancing the science of energetics and revitalizing the research and development workforce.

However, a report on energetics in the Department of Defense, as directed in House Report 110-652, and which was to be provided to the congressional defense committees not later than March 1, 2009, was completed June 2009, and was finally delivered September 2, 2009.

House language recommended that the Department of Defense capitalize on best practices within the individual Services to advance the state of the energetics field, and directed that no funds be expended for the creation of a new Executive Agent or Executive Director for Advanced Energetics. The Senate included no similar language.

The recommendation includes no language regarding the use of funds for the creation of a new Executive Agent or Executive Director for Advanced Energetics and directs instead that the Secretary of Defense shall provide a report to the congressional defense committees not later than October 1, 2010, on progress being made on the findings and actions in the June 2009 report.

#### DOMESTIC ENERGY PRODUCTION

There is concern that a plan has not been presented to fund continued development and risk mitigation of domestic gas centrifuge enrichment technology during fiscal year 2010. Despite that, there is support for efforts to develop domestic gas centrifuge enrichment technology so that it can move to commercial scale uranium enrichment operations and potentially serve as a domestic source of fuel for nuclear power and the enrichment requirements of the defense community. Therefore, the Secretary of Defense, in consultation with the Department of Energy, is urged to explore utilizing all possible existing statutory authority to fund this important activity and to report to the Committees on Appropriations of both the House and Senate no later than 30 days following enactment of this Act regarding funding options.

#### SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

#### REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the initial appropriation as well as any rescissions, supplemental appropriations and approved Department of Defense 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations Act (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test, and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for re-

programming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test, and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming request to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report. This guidance is effective for fiscal year 2010 and forward.

#### REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

#### FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For Research, Development, Test and Evaluation, Army, funds are to  
be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation

ENHANCED MEDIUM ALTITUDE RECONNAISSANCE AND  
SURVEILLANCE SYSTEM

The fiscal year 2010 budget request includes \$210,035,000 in Research, Development, Test and Evaluation, Army to initiate the restructured Aerial Common Sensor (ACS) program. However, the Department of Defense has advised that the ACS has been terminated as a program of record and established in its place the Enhanced Medium Altitude Reconnaissance and Surveillance System (EMARSS), which provides a fixed-wing, multi-sensor, integrated intelligence, surveillance and reconnaissance capability to the warfighter. Additionally, the fiscal year 2010 Overseas Contingency Operations (OCO) budget request includes \$105,000,000 to procure EMARSS C-12 aircraft and to modify those aircraft with special mission hardware as a quick reaction capability to satisfy theater-based requirements. The Department based its OCO request on the assumption that ACS would not deliver capability to the war fighter for several years. However, with EMARSS selected as a new program of record in lieu of ACS, the EMARSS quick reaction capability request is duplicative of the program of record, and under current schedules, system deliveries for the program of record are expected shortly after deliveries of the so-called quick reaction capability. Accordingly, the recommendation provides no funding in the OCO title for procurement and modification of C-12 aircraft. In order to establish EMARSS as a program of record while fulfilling urgent theater-based fielding requirements, the recommendation includes \$116,035,000 in Research, Development, Test and Evaluation, Army, to fully fund the new EMARSS program of record and to accelerate its fielding while establishing a standardized, sustainable intelligence, surveillance and reconnaissance program.

REPORT ON THE USE OF LIVE PRIMATES IN TRAINING RELATING TO  
CHEMICAL AND BIOLOGICAL AGENTS

The Secretary of Defense is directed to submit to the congressional defense committees, not later than 90 days after the date of the enactment of this Act, a report setting forth a detailed description of the requirements for use by the Department of Defense of live primates at the United States Army Medical Research Institute of Chemical Defense, and elsewhere, to demonstrate the effects of chemical or biological agents or chemical (such as physostigmine) or biological agent simulants in training programs. The report shall include, at a minimum, the following:

- (1) The number of live primates used in the training;
- (2) The average lifespan of primates from the point of introduction into such training programs;
- (3) An explanation as to why the use of primates in such training is more advantageous and realistic than the use of human simulators or other alternatives; and
- (4) An estimate of the cost of converting from the use of primates to human simulators in such training.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For Research, Development, Test and Evaluation, Navy, funds are to  
be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
RESEARCH, DEVELOPMENT, TEST & EVAL, NAVY				
BASIC RESEARCH				
1 UNIVERSITY RESEARCH INITIATIVES.....	99,472	103,472	102,472	102,672
2 IN-HOUSE LABORATORY INDEPENDENT RESEARCH.....	18,076	18,076	18,076	18,076
3 DEFENSE RESEARCH SCIENCES.....	413,743	426,143	423,643	430,903

## PRESIDENTIAL HELICOPTER

The House report directed the Secretary of Defense to report on the use of certain funds for the VH-71 Presidential Helicopter. The Senate report contained no similar language. The recommendation does not retain the House language.

## BONE MARROW REGISTRY

The recommendation includes \$31,500,000 for the Department of the Navy, to be administered by the C.W. Bill Young Marrow Donor Recruitment and Research Program, also known as and referred to within the Naval Medical Research Center as the Bone Marrow Registry. Funds appropriated for the C.W. Bill Young Marrow Donor Recruitment and Research Program shall remain available only for the purposes for which they were appropriated, and may only be obligated for the C.W. Bill Young Marrow Program. This donor center has recruited more than 525,000 Department of Defense volunteers and provides more marrow donors per week than any other donor center in the nation. More than 3,360 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 7,500,000 potential volunteer donors, is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the C.W. Bill Young Marrow Donor Recruitment and Research Program in the development and testing of their contingency plans. The Department of Defense form (DD Form 1414) shall show this as a congressional interest item. The Department of Defense is further directed to release all the funds appropriated for this purpose to the C.W. Bill Young Marrow Donor Recruitment and Research Program within 60 days of the enactment of this Act.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For Research, Development, Test and Evaluation, Air Force, funds are  
to be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
RESEARCH, DEVELOPMENT, TEST & EVAL, AIR FORCE				
BASIC RESEARCH				
1 DEFENSE RESEARCH SCIENCES.....	321,028	323,528	331,028	320,828
2 UNIVERSITY RESEARCH INITIATIVES.....	132,249	140,449	136,949	142,109
3 HIGH ENERGY LASER RESEARCH INITIATIVES.....	12,834	12,834	12,834	12,834
TOTAL, BASIC RESEARCH.....	466,111	476,811	480,811	484,771

## AERIAL REFUELING TANKER PROGRAM

The recommendation includes \$15,000,000 in Research, Development, Test and Evaluation, Air Force for program management and a general provision providing \$291,715,000 in a Tanker Replacement Transfer Fund.

Not later than 10 days after the release of the final request for proposal soliciting bids for an aerial tanker replacement aircraft, the Secretary of the Air Force is directed to submit a report to the congressional defense committees that includes a description of changes from the draft proposal to the final request for proposal and the rationale for each change.

The Secretary of the Air Force is encouraged to pursue tanker recapitalization at a rate of 36 aircraft per year instead of 12 or 15 aircraft in the current plan. This quantity will recapitalize the fleet in one-third the time and allow for a rapid retirement of the aging KC-135 aircraft. Furthermore, a more accelerated procurement strategy will avoid the large sustainment and modernization costs associated with keeping the legacy KC-135 fleet in the inventory longer.

## MODULAR AERIAL SPRAY SYSTEM (MASS) REPLACEMENT

The modular aerial spray system (MASS) is maintained by the Air Force Reserve and is the only fixed-wing aerial spray capability in the Department of the Defense. The current program is over 20 years old and is becoming increasingly difficult to maintain, leading to increased cost and the inability to conduct required missions. There is presently no recapitalization plan to replace the system. The Secretary of the Air Force is encouraged to pursue a recapitalization program in order to maintain this needed capability.

## EVOLVED EXPENDABLE LAUNCH VEHICLE COMMON UPPER STAGE

The recommendation includes \$20,000,000 to study options and begin research and development to achieve a common upper stage between the Atlas and Delta launch vehicle families. The Air Force is urged to develop a process to modify Delta IV RL-10 upper stage engines to the Atlas V RL-10 configuration to enable more efficient use of the existing RL-10 inventory. The study shall also investigate how to modify the upper stage(s) to enable Centaur and the Delta Cryogenic Second Stage to use a common RL-10 engine and other potential modifications to achieve a truly common upper stage.

## EVOLVED EXPENDABLE LAUNCH VEHICLE SUSTAINMENT PLAN

The Secretary of the Air Force, in consultation with the Director of the National Reconnaissance Office, is directed to submit an Evolved Expendable Launch Vehicle sustainment plan as described in House Report 111-230 to the congressional defense committees with the fiscal year 2011 budget submission.

## 15-YEAR SPACE SYSTEM INVESTMENT STRATEGY

The recommendation supports language on a long-term space system investment strategy as described in House Report 111-230.

The investment strategy is directed to span 15 years rather than the originally proposed 30 years. In addition, the Under Secretary of Defense (Acquisition, Technology and Logistics) is directed, in coordination with the Secretary of the Air Force and the Under Secretary of Defense (Intelligence), to deliver this Space System Investment Strategy to the congressional defense committees not later than May 1, 2010. As necessary, the report should contain a classified appendix.

#### NATIONAL POLAR-ORBITING OPERATIONAL ENVIRONMENTAL SATELLITE SYSTEM

There is concern about the executability and management of the National Polar-orbiting Operational Environmental Satellite System (NPOESS) program. Therefore, it is directed that not more than 50 percent of the funds made available to the Department of Defense for the NPOESS program shall be obligated or expended until the Under Secretary of Defense (Acquisition, Technology and Logistics) certifies in writing to the congressional defense committees that the NPOESS program is being executed in support of the requirements, timelines and acquisition policies needed to meet Department of Defense missions.

The Secretary of Defense is directed, in consultation with the National Oceanic and Atmospheric Administration and the National Aeronautics and Space Administration, to perform an independent cost analysis of all recommended programmatic and acquisition alternatives. This analysis shall be submitted to the Committee on Appropriations, Subcommittees on Defense and Commerce, Justice, Science and Related Agencies, of both the House and Senate, in addition to any other congressional oversight committee before any contract changes are signed and any major documents are revised by the government.

#### OPERATIONALLY RESPONSIVE SPACE

The Director of the Operationally Responsive Space program office is urged to provide the congressional defense committees with independent cost, schedule and performance estimates prior to initiating any satellite development activity.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,  
DEFENSE-WIDE

For Research, Development, Test and Evaluation, Defense-Wide,  
funds are to be available for fiscal year 2010, as follows:

## DARPA NEW START PROGRAMS

The Defense Advanced Research Projects Agency's (DARPA's) fiscal year 2010 budget request includes \$135,170,000 for new start programs, a significant increase over the \$28,000,000 executed for new starts in fiscal year 2009 and the \$16,000,000 executed for new starts in fiscal year 2008. The recently appointed Director of DARPA did not have an opportunity to adjust DARPA's fiscal year 2010 budget submission to reflect the new administration's priorities. Additionally, management changes instituted to address DARPA's historic budget execution challenges are likely to require some time before taking effect.

Therefore, the recommendation denies all funding for the requested new start programs. Instead, following the receipt of additional information from the new DARPA Director, the recommendation provides \$85,000,000 in multiple program elements, as requested by the Director, for fiscal year 2010 new starts to be selected by the Director in fiscal year 2010. None of these funds may be obligated until the Director provides details to the congressional defense committees on the programs to be initiated, to include descriptions, program objectives, the expected duration of the DARPA effort and associated out-year funding requirements and planned technology readiness levels to be achieved by DARPA and Service transition partners. This is an exception to conventional budgeting procedures and the Director of DARPA is directed to use established budgeting procedures for its fiscal year 2011 budget submission.

RAPID EXPLOITATION OF INNOVATIVE TECHNOLOGIES IN ALL AREAS  
OF SCIENCE AND TECHNOLOGY

The recommendation provides \$4,500,000 for fiscal year 2010 new starts in Rapid Exploitation of Innovative Technologies (REITS) and directs the Commander, Special Operations Command, to provide quarterly reports to the congressional defense committees on the use of any current fiscal year or prior year funds provided for REITS, to include individual project schedules, cost estimates and transition plans. The Commander, Special Operations Command, is further directed to submit an annual report to the congressional defense committees on the actual cost, schedule to complete and transition to operational use or further development for all projects for which REITS funds were executed.

## GROUND-BASED MISSILE DEFENSE

In addition to the reporting requirements contained in Sections 232 and 233 of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010, the Director of the Missile Defense Agency (MDA) is directed to provide a report on how MDA will utilize the funds in the Ground-based Midcourse Defense (GMD) program in fiscal year 2010 to maintain the Ground-Based Interceptor (GBI) production line. The report shall identify the number of GBIs that are being produced in fiscal year 2010. Furthermore, the report shall include a discussion of MDA's GMD Analysis of Alternatives that was conducted as a result of U.S. Northern Command's Ballistic Missile Defense study that was provided to MDA in October

2008. These reports shall be submitted to the congressional defense committees at the same time the President submits the fiscal year 2011 budget request to Congress.

#### BALLISTIC MISSILE DEFENSE TEST AND TARGETS

There is strong support for a robust testing program for the Missile Defense Agency (MDA). In December of 2008, the Director of MDA initiated a review of the entire Ballistic Missile Defense test program and developed the Integrated Master Test Plan (IMTP) that was signed in late July 2009, well after the submission of the fiscal year 2010 budget request. The IMTP's primary purpose is to establish and document the executable test baseline program from fiscal year 2010 and out to satisfy critical engagement conditions and empirical measurement events data collection requirements.

Since the plan was submitted, it has become known that some tests scheduled for fiscal year 2010 have slipped to fiscal year 2011 and that target synchronization with the new test plan still needs clarification. Furthermore, the fiscal year 2010 budget requests an increase of \$50,000,000 over last year's funding level. However, MDA has not expended over \$500,000,000 of fiscal year 2009 funds and those funds will be carried over into fiscal year 2010 in the test and target program. Therefore, the recommendation reduces the budget request by \$135,800,000 due to a premature request of funding.

#### EARLY INTERCEPTOR

The Director of the Missile Defense Agency (MDA) is conducting a 90-day study on the different components of the early interceptor to evaluate how best to incorporate them into the Integrated Master Test Plan and MDA's new focus on early/ascent-phase intercept. The recommendation includes \$80,000,000 in Line 27, Ballistic Missile Defense Technology, only for the development of the relevant technologies and incorporation of existing technologies to support the early intercept program. Additionally, MDA is urged to use previously appropriated funds in other program elements that would be complimentary or enhance the relevant technologies for early/ascent-phase intercept.

#### TWO-STAGE GROUND-BASED INTERCEPTOR

The Missile Defense Agency (MDA) is encouraged to continue developing and testing the two-stage ground-based interceptor. It is understood that over \$173,000,000 has already been obligated in prior year funding to support development and testing. MDA is encouraged to provide at least \$50,000,000 in fiscal year 2010 funds to continue the two-stage interceptor program.

Furthermore, the Under Secretary of Defense for Policy is directed to submit a report to the congressional defense committees by June 1, 2010. The report shall include a plan for the continuation of the two-stage ground-based interceptor program as well as how MDA plans to leverage the development and testing of the interceptor to modernize the Ground-based Midcourse Defense system. If the report recommends continuation of the two-stage interceptor program, it shall address any options for basing two-stage

interceptors in Europe or the United States to provide enhanced defense in response to future long-range missile threats from Iran. The report shall also include a description of how such a site may be made interoperable with the planned missile defense architecture for Europe and the United States. Finally, the report shall include an independent cost estimate for the two-stage ground-based interceptor plan that is recommended.

#### GLOBAL SUPPLY CHAIN SECURITY

The national security establishment currently relies on electronic and computer components manufactured predominately overseas. The Department of Defense requires a trusted procurement process to provide classified handling, chain of custody, tracking and vital control of mission critical information technology system components. Accordingly, the Department is urged to provide the necessary resources to establish a Secure Procurement Logistics pilot project within the Cyber Security Initiative to perform secure procurement and logistics support for mission critical information technology.

## OPERATIONAL TEST AND EVALUATION, DEFENSE

For Operational Test and Evaluation, Defense, funds are to be available for fiscal year 2010, as follows:

## DEFENSE HEALTH PROGRAM REPROGRAMMING PROCEDURES

There is concern regarding the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the explanatory statement includes language which limits the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying recommendation should not be interpreted by the Department as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, the Services are not properly budgeting for actual execution levels among the budget activity groups and, therefore, the Direct Care System is continued as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures.

## CARRYOVER

For fiscal year 2010, the recommendation includes a one percent carryover authority for the Defense Health Program. The Assistant Secretary of Defense for Health Affairs is directed to submit a detailed spending plan for any fiscal year 2009 designated carryover funds to the congressional defense committees by January 4, 2010. In addition, the Department shall, not fewer than 30 days prior to executing the carryover funds, notify the congressional defense committees in writing of the details of any such obligation. Finally, to address the continuing funding shortfalls in medical information technology, the Department is directed to use available carryover funds to address this deficit.

## MEDICAL INFORMATION TECHNOLOGY

Over the past few years, criticism regarding the Department of Defense and the Department of Veterans Affairs medical information technology has grown. Both Departments developed their current systems and infrastructure independent of one another, primarily using proprietary technology and hardware that is costly, not user-friendly and technologically unsustainable. As such, both Departments have now chosen to modernize their systems and infrastructure to address many of those issues, as well as addressing the issues surrounding interoperability between both Departments and the private sector. These systems must also address new requirements made evident by continuing overseas operations, including the ability to expand based on future technology requirements.

Unfortunately, it appears that both Departments are not sufficiently coordinating their efforts, and that lessons learned are not being used to develop an efficient and cost-effective means for data interoperability and information technology modernization. The recommendation recognizes that each Department has unique system requirements; however, both Departments do have common functions that should result in the development of common tech-

nology solutions and architecture. Areas that should be joint business practices include lab work, pharmacy orders, digital radiology transmittal, third-party collections and patient appointment scheduling. Both Departments are continuing to work on interoperability between their current systems and improving the transmittal of medical records from one system to another. However, there is significant concern that the necessary efforts being made to jointly develop the required future systems are inadequate. Therefore, the Joint Executive Council (JEC) and the Health Executive Council (HEC) are directed to report to the Committees on Appropriations of the House and the Senate not later than January 11, 2010, on a complete and thorough review of the technology requirements of each Department. The report shall detail each requirement, to include those that are deemed unique to each Department, include a justification of why the requirement can or cannot be developed jointly, and identify the path forward to develop such joint technology. In addition, the JEC and the HEC are directed to coordinate this report with the Department of Health and Human Services as it seeks to modernize electronic health records throughout the private sector. If done correctly and efficiently, the efforts of both Departments can be used as an example of how to modernize medical information technology.

#### MILITARY MEDICAL RESEARCH

The recommendation provides \$120,000,000 for Traumatic Brain Injury (TBI) and Psychological Health research and treatment efforts. The fiscal year 2010 budget submission included \$372,000,000 to address numerous unique military medical areas of concern including TBI and Psychological Health. The Department is encouraged to refer to the language in the House and Senate reports regarding gaps in research that need to be addressed within this funding to close those disparities.

It is understood that the Department of Defense is putting pressure on Health Affairs to obligate these funds in an expedited manner during fiscal year 2010 and as a result, Requests for Information (RFI) on grant proposals for this funding have already been published prior to the completion of the Department of Defense Appropriations Act, 2010. These actions are not supported by this recommendation since funding has not been appropriated and the Committees on Appropriations of the House and Senate were never notified of a new start request. Since the submission of the President's budget request, the Department has been repeatedly asked for a distributable list of medical research capability gaps that will be addressed with the additional \$372,000,000. Therefore, the Secretary of Defense is directed to provide a distributable list of medical research capability gaps that will be addressed using these funds not later than 15 days after enactment of this Act.

#### PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The recommendation provides \$50,000,000 for a Peer-Reviewed Medical Research Program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance

to military health. Research areas considered under this funding are restricted to: Blood Cancer, Chronic Migraine and Post-traumatic headache, Dystonia, Drug Abuse, Epilepsy, Fragile X Syndrome, Inflammatory Bowel Disease, Interstitial Cystitis, Kidney Cancer, Lupus, Melanoma, Mesothelioma, Neuroblastoma, Osteoporosis and related bone disease, Padgett's Disease, Pheochromocytoma, Polycystic Kidney Disease, Post Traumatic Osteoarthritis, Scleroderma, Social Work Research, and Tinnitus. The recommendation emphasizes that the additional funding provided under the Peer-Reviewed Medical Research Program shall be devoted only to the purposes listed above.

#### HYPERBARIC OXYGEN THERAPY

The Secretary of Defense, not later than 60 days after enactment of this Act, shall submit to the congressional defense committees a report on the use of hyperbaric oxygen therapy (HBOT). The report shall include the number of members of the Armed Forces, veterans and civilians being treated with HBOT; the types of conditions being treated and the respective success rate for each condition; the current inventory, location, and rate of use for hyperbaric oxygen chambers; and any plans for expanding the use of HBOT for treatment.

#### DIRECT HIRE AUTHORITY

The Secretary of Defense is directed to immediately implement Section 1107 of the National Defense Authorization Act, 2008 (Public Law 110-181) which provides adequate authority for the medical specialty hiring needs of the Department of Defense. The Secretary of Defense is further directed that no later than 30 days after enactment of this Act the Department shall notify the congressional defense committees the action has been taken to implement the direct hire authority across the Department, including the civilian entities.

#### REDUCING SCAR FORMATION

The United States Army Institute of Surgical Research and the Armed Forces Institute of Regenerative Medicine is currently doing research to reduce scarring following battlefield injuries in conjunction with academia. The Surgeon General of the Army is urged to use funds provided for continuation of studies into new methods for wound healing and scar reduction capabilities including proceeding to a clinical study and for further product development.

#### MEDICAL TRANSPORTATION INFRASTRUCTURE

After reviewing the Base Realignment and Closure (BRAC) Health Systems Advisory Subcommittee's (the Committee) review of the design plans for medical centers, including the responses from the Department of Defense and the Committee, there remains deep concern about the state of the master plan to complete world class medical facilities. Failures to implement the recommendations of this plan may lead to degraded medical care for military personnel, their dependents and retirees.

The recommendation includes \$300,000,000 in the Defense Health Program operation and maintenance account for transportation issues stemming from the realignments associated with the 2005 BRAC. The Secretary of Defense is directed to provide a report to the House and Senate Committees on Appropriations detailing the status of the implementation of the BRAC Health Systems Advisory Subcommittee's plan, and on plans for the recommended funding increase, no later than 90 days after the enactment of this Act.

## CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

For Chemical Agents and Munitions Destruction, Defense, funds are  
to be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
CHEMICAL AGENTS & MUNITIONS DESTRUCTION, DEFENSE

## COUNTER-DRUG BUDGET JUSTIFICATION MATERIALS

There is concern that the budget justification materials submitted do not provide sufficient information for appropriate oversight and understanding of program objectives and metrics. Therefore, the Secretary of Defense is directed that beginning with the fiscal year 2011 budget, the budget justification materials shall ensure that each project code include, at a minimum: a detailed explanation of program increases and decreases including displays and explanations of program and price growth; a display showing the number of full-time equivalent (FTE) employees; average grade for government employees and number of contractor FTEs; justification of planned equipment buys for items costing more than \$250,000, including quantities and unit costs; and justification and descriptions of research and development activities, including anticipated program accomplishments, contract awards and a description of government costs.

## JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For the Joint Improvised Explosive Device Defeat Fund, funds are to be available for fiscal year 2010, as follows:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	House	Senate	Recommendation
Attack the Network .....	203,100	183,000	.....	0
Transfer to Title IX .....				- 53,100
Unjustified request .....				- 150,000
Defeat the Device .....	199,100	25,000	.....	0
Transfer to Title IX .....				- 199,100
Train the Force .....	41,100	35,000	.....	0
Transfer to Title IX .....				- 41,100
Staff and Infrastructure .....	121,550	121,550	.....	121,550
Total, Joint Improvised Explosive Device Defeat Fund .....	564,850	364,550	0	121,550

The recommendation provides funds in the base budget for the Staff and Infrastructure line of operation. These funds are provided with the same time limitation as traditional operation and maintenance funds.

The reporting requirements directed under the Supplemental Appropriations Act, 2009 (Public Law 111-32), were not adhered to, but efforts are underway to improve that status. The Director, Joint Improvised Explosive Device Defeat Organization (JIEDDO) is directed to submit monthly commitment, obligation, and expenditure data by line of operation and by year of appropriation to the congressional defense committees. Further, the Director, JIEDDO is directed to submit monthly reports of obligation data on a project-by-project basis by line of operation to the congressional defense committees. The Director, JIEDDO is also directed to follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

## OFFICE OF THE INSPECTOR GENERAL

For the Office of the Inspector General, \$288,100,000 is provided for fiscal year 2010.

[In thousands of dollars]

	Budget	House	Senate	Recommendation
Office of the Inspector General				
Operation and Maintenance .....	271,444	287,100	287,100	287,100

Total, Office of the Inspector General .....	272,444	288,100	288,100	288,100

## TITLE VII—RELATED AGENCIES

For Related Agencies, funds are to be available for fiscal year 2010, as follows:

[In thousands of dollars]

	Budget	House	Senate	Recommendation
TITLE VII—RELATED AGENCIES				
Central Intelligence Agency Retirement and Disability System Fund ...	290,900	290,900	290,900	290,900
Intelligence Community Management Account (ICMA) .....	672,812	611,002	750,812	707,912
Transfer to Department of Justice .....				
Total, title VII, Related agencies .....	963,712	901,902	1,041,712	998,812

## CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a separate detailed and comprehensive classified annex. The Intelligence Community, Department of Defense and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2010.

## CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For the Central Intelligence Agency Retirement and Disability System Fund, \$290,900,000 is provided for fiscal year 2010.

## INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For the Intelligence Community Management Account, \$707,912,000 is provided for fiscal year 2010, as follows:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	House	Senate	Recommendation
Intelligence Community Management Account .....	672,812	672,812	672,812	672,812

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS—Continued

[In thousands of dollars]

	Budget Request	House	Senate	Recommendation
Total, ICMA .....	672,812	611,002	750,812	707,912

## INTELLIGENCE COMMUNITY'S BUSINESS TRANSFORMATION OFFICE

The Director of National Intelligence is directed to submit a report 90 days after the enactment of this Act that: (1) addresses the procurement challenges facing the Business Transformation Office; (2) explains where the most efficient and secure place to store the Community's business data will be for the foreseeable future; and (3) reviews the process for hiring highly qualified experts and provides recommendations that streamline the current bureaucratic process to one that allows the Director of the Business Transformation Office to efficiently build an effective staff. Finally, the report should provide a target date when all National Intelligence Program funds will achieve a sustainable unqualified audit opinion.

## INTELLIGENCE COMMUNITY EDUCATION AND TRAINING STRATEGIC DESIGN

The lack of a strategic plan for the Intelligence Community training programs and professional education curriculum is concerning. The current patchwork of courses, language training efforts and schools is the result of multiple programs and initiatives instead of a coherent strategy. The Director of National Intelligence needs to benchmark successful programs such as the Department of Defense's National Defense University, and develop an appropriate educational and professional development strategy for the Community to create an innovative and competitive 21st century professional intelligence workforce. The Director of National Intelligence is encouraged to take steps to establish the Intelligence Community's capstone school in a manner that takes best advantage of opportunities for learning synergies and a transformative learning environment with other national security students. Further, no later than March 1, 2010, the Director of National Intelligence is directed to submit a report to the intelligence oversight committees on the feasibility of evolving the National Defense Intelligence College to a fee-for-service program.

## TITLE VIII—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation modifies a general provision proposed by the House specifying that adjustments to programs, projects, and activities included in the "Explanation of Project Level Adjustments" that are increases above the budget are incorporated into law. Transfers within an appropriation account, among programs, projects and activities do not require general transfer authority as stipulated in Section 8005 of the accompanying Act. However, such transfers are subject to normal prior approval reprogramming pro-

cedures if such transfers exceed thresholds described elsewhere in this statement. Transfers between appropriation accounts are subject to the provisions of Section 8005 of the accompanying Act and are also subject to prior congressional approval. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that provides for upgrades to military ranges in Alaska. The House bill contained no similar provision,

The recommendation retains a provision proposed by the Senate that provides for limitations on the use and transfer authority of working capital fund cash balances. The House bill contained a similar provision.

The recommendation retains a provision proposed by the House that provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts. The Senate bill contained a similar provision.

The recommendation retains a provision proposed by the House that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States. The Senate bill included a similar provision.

The recommendation modifies a provision proposed by both the House and Senate that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

The recommendation modifies a provision proposed by the House and Senate that restricts funds from being used to perform cost studies under OMB Circular A-76.

The recommendation modifies a provision proposed by both the House and Senate which provided funding from various appropriations for the Civil Air Patrol Corporation.

The recommendation modifies a provision proposed by both the House and Senate that provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers (FFRDC).

The recommendation retains a provision proposed by the Senate which provides for the conveyance, without consideration, of relocatable housing units. The House bill contained a similar provision.

The recommendation modifies a provision proposed by the House which provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment. The Senate contained no similar provision.

(RESCISSIONS)

The recommendation modifies a provision proposed by both the House and the Senate recommending rescissions. The rescissions agreed to are:

2008 Appropriations:		
Procurement, Defense-Wide:		
ASDS .....		\$2,000,000
2009 Appropriations:		
Procurement of Weapons and Tracked Combat Vehicles, Army:		
Future Combat Systems Advance Procurement .....		26,087,000
Joint Assault Bridge .....		15,000,000

Other Procurement, Army:	
Night Vision Devices .....	131,900,000
Sequoyah Foreign Language Translation System .....	6,339,000
Other Procurement, Navy:

Aerial Targets .....	7,000,000
C-130 Airlift Squadron .....	18,000,000
Logistics Information Technology (LOGIT) .....	10,000,000
RDT&E for Aging Aircraft .....	3,200,000
Research, Development, Test and Evaluation, Defense-Wide:	
HBCU .....	34,457,000
DARPA .....	100,000,000
Kinetic Energy Interceptor .....	20,000,000

The recommendation retains a provision proposed by the House that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that clarifies the military status of World War II Alaska Territorial Guardsmen. The House bill contained no similar provision.

The recommendation retains a provision proposed by both the House and the Senate that prohibits the use of funds made available in this Act from being used to approve or license the sale of the F-22 fighter aircraft. Additionally, the recommendation retains language proposed by the Senate that permits the Department of Defense to conduct studies and design activities to develop a future export version of the aircraft that protects classified and sensitive information. Assuming that there will be an export version of the F-22A, nothing in this provision shall restrict the Department of Defense from sharing information regarding the future export version of the F-22 pursuant to an inquiry from a foreign government that is intended to inform that government's decision regarding whether to pursue purchase of a future export version of the F-22.

The recommendation modifies a provision proposed by the House which provides \$3,750,000 only for the construction and furnishing of additional Fisher Houses. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and Senate which provides funding and transfer authority for the Arrow Missile Defense Program.

The recommendation retains a provision proposed by the Senate that provides for the transfer of funds to properly complete prior year shipbuilding programs. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that none of the funds available to the Department of Defense may be obligated to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific Fleet. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides for the noncompetitive appointments of certain medical occupational specialties, as prescribed by section 7403(g) of Title 38, United States Code. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate which makes available funds for public schools with unusually high concentrations of special needs military dependents enrolled. The House bill contained no similar provision.

The recommendation retains a provision proposed by the House which provides authority for the Secretary of the Army to make a grant only to the Center for Military Recruitment, Assessment and Veterans Employment. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that permits Operation and Maintenance, Navy funds to be used to repair, maintain and operate flood control systems adjacent to the Pacific Missile Range Facility. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and the Senate providing funds for specific grants.

The recommendation retains a provision proposed by the Senate relating to the prohibition on transfer of program authorities relating to current tactical unmanned aerial vehicles (TUAV) from the Army. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides authorities to the Joint Interagency Training and Education Center, for homeland defense/security and traditional warfighting training. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that makes funds available in "Operation and Maintenance, Navy" for the Asia Pacific Regional Initiative Program. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that reduces funding by specified amounts due to updated economic assumptions. The House bill contained no similar provision.

The recommendation retains a provision proposed by the House that provides for the creation of a major force program category for space for the Future Year Defense Program of the Department of Defense. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House that established requirements for Director National Intelligence budget exhibits. The Senate bill contained a similar provision.

The recommendation does not retain a provision proposed by the Senate that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. The House contained the same provision in Title IX. The issue is addressed in Title IX.

The recommendation modifies a provision proposed by the House that prohibits award fees to any defense contractor contrary to the provisions of section 814 of the National Defense Authorization Act, Fiscal Year 2007 (Public Law 109-364). The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House which directs the Secretary of Defense to maintain on the Department of Defense website a link to Office of the Inspector General of the Department of Defense. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the Senate that provides for a reduction of excess cash balances in the Department of Defense Working Capital Funds. The House bill contained no similar provision.

The recommendation modifies a provision proposed by the House which provides for the continuation of stop loss special pay. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House which provides for the use of funds for purchase of armored vehicles for force protection purposes. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and the Senate which authorizes the transfer of funds made available in title II to the Services' central fund established for Fisher Houses and Suites pursuant to section 2493(d) 10 U.S.C.

The recommendation modifies a provision proposed by the House that authorizes the transfer of funds from the Intelligence Community Management Account for the Program Manager for the Information Sharing Environment to other departments and agencies, for certain purposes. The Senate bill contained a similar provision.

The recommendation modifies a provision proposed by the Senate regarding the availability of operation and maintenance funding to make remittances to the Acquisition Workforce Development Fund. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires reports on certain elements of the ballistic missile defense system. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that not less than \$15,000,000 be made available for high priority National Guard counter-drug programs. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that provides an apology to the Native Peoples of the United States. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires a report on the use of live primates in training relating to chemical and biological agents. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that expresses the sense of the Senate on Joint STARS re-engining. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that requires public disclosure of certain reports. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires a report on Federal contracting fraud. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available for Gulf War Illness Research. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that expresses the sense of Congress and requires a report on the Nevada Test Site. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that makes funds available from the Office of the Secretary of Defense for declassification of the 2001 nuclear posture review. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available from Operation and Maintenance, Defense-Wide for a Military and Overseas Voter Empowerment Act. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that restricts funding to dispose of claims filed regarding water contamination. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that work under Logistics Civil Augmentation Program complies with standards. This issue is addressed in Title II of this statement.

The recommendation modifies a provision proposed by the Senate that prohibits any funds to be used for any Federal contract with specified entities if such entities require their employees to sign mandatory arbitration clauses. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that limits the early retirement of tactical aircraft. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that restores funding for the two-stage ground-based interceptor program. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available for the evaluations and analyses of certain laser systems. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House that places restrictions on reprogramming funds provided for the National Intelligence Program. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the House that prohibits the award to a contractor or conversion to performance by a contractor of any functions performed by Federal employees pursuant to a study conducted under OMB circular A-76 as of the date of enactment of this Act. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House authorizing the Secretary of Defense to transfer to the appropriation "Foreign Currency Fluctuations, Defense" unobligated funds appropriated for Operation and Maintenance and Military Personnel. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that reduces amounts appropriated in title II of this Act to reflect excess cash balances in Department of Defense Working Capital Funds. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that prohibits the use of National Intelligence Program funds appropriated in this Act for certain purposes. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that appropriates funds to the "Tanker Replacement Transfer Fund" and authorizes their transfer under certain circumstances for specified purposes.

The recommendation does not retain a provision proposed by the House that provides benefits to any member or former member of the Armed Forces who would have qualified for a day of administrative absence under the Post-Deployment/Mobilization Respite Absence program. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House that provides resettlement support for certain refugees. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and Senate that requires congressional earmarks, when awarded to a for-profit entity, to be awarded under full and open competition.

The recommendation does not retain a provision proposed by the House that reduces amounts appropriated in title II of this Act. The Senate bill contained no similar provision. The issue is addressed in Title IX.

The recommendation does not retain a provision proposed by the House that sets certain criteria for the appointment of members of

integration panels overseeing Congressionally Directed Medical Research programs related to breast cancer. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that prohibits the use of funds to eliminate any personnel positions from the 194th Regional Support Wing of the Air National Guard as of the date of enactment of this Act. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House regarding the release and transfer of detainees from Naval Station Guantanamo Bay, Cuba. The Senate bill contained a similar provision in Title IX. The issue is addressed in Title IX.

The recommendation does not retain a provision proposed by the House that prohibits the use of funds for advance procurement of the F-22 and provides that funds made available in title III under the heading "Aircraft Procurement, Air Force" may be available for other specified purposes. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House which reduces funds for the Defense Health Program in operation and maintenance and increases funds in research, development, test and evaluation. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that prohibits the awarding to a contractor, or convert to performance by a contractor, any function at the United States Military Academy at West Point. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that reduces funds in Operation and Maintenance, Air Force and increases funds in Chemical Agents and Munitions Destruction, Defense. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House that prohibits the privatization of government-owned ammunition production assets. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that requires the Secretary of the Army to certify any transfers to private ammunition manufacturers. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation retains a provision proposed by the Senate that prohibits funding of the Association of Community Organizations for Reform Now. The House bill contained no similar provision. The Senate bill addressed this issue in Title IX.

## TITLE IX—OVERSEAS CONTINGENCY OPERATIONS

### REPORTING REQUIREMENTS

The Secretary of Defense is directed to provide a report to the congressional defense committees within 30 days of the enactment of this Act on the allocation of the funds within the accounts listed

in this title. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this title are no longer available for obligation. This report shall include: a detailed accounting of obligations and expenditures of appropriations provided in this title by program and sub-activity group for the continuation of military operations in Iraq and Afghanistan; and a listing of equipment procured using funds provided in this title.

Additionally, the Secretary of Defense is directed to continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, chapter 23, volume 12. Further, the Secretary of Defense is directed to continue to provide the Cost of War reports to the congressional defense committees that include the following information by appropriation: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations and cumulative fiscal year disbursements.

In order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The Secretary of Defense is directed to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

#### PROGRESS REPORT ON IRAQ

Section 316 of Public Law 111-32, Supplemental Appropriations Act, 2009 directed the Secretary of Defense to submit to Congress on a quarterly basis a report on "Iraq Troop Drawdown Status, Goals and Timetable." Section 316 requires this report to be prepared and submitted every 90 days through September 30, 2010. The recommendation does not repeat section 9010 from the House-passed Department of Defense Appropriations Act, 2010 which repeated this requirement. It is expected that the Department will continue to submit the report as required through September 30, 2010.

#### BUDGET AMENDMENT

The recommendation fully funds an increase in the Army's end strength, as requested by the Department of Defense in a formal budget amendment submitted on August 13, 2009, after the House had already completed consideration of the Department of Defense Appropriations Act, 2010. The budget amendment, which provides \$1,012,600,000 to recruit, retain and support an additional 15,000 soldiers in fiscal year 2010, has been accepted. It is understood that these additional soldiers, and the 7,000 additional soldiers the Department plans to add in fiscal year 2011, are needed temporarily to allow existing Brigade Combat Teams to deploy at full strength. There is a concern about the strain on the Army imposed by the on-going high operations tempo in Iraq and the increased demand in Afghanistan. There is also concern about the Department's decision to fund this temporary growth in end-strength by

reducing funding for much-needed trucks and tactical vehicles. While it is believed that combat units in the theater of operations are being provided with the required quantity of high-quality tactical vehicles, concern remains that the Department is not requesting adequate funding to reset and replenish damaged and worn-out vehicles or addressing vehicle shortages in the National Guard and the reserve forces. Accordingly, the recommendation provides funding of \$1,063,038,000 for High Mobility Multipurpose Wheeled Vehicles (HMMWV), and \$863,357,000 for the Family of Medium Tactical Vehicles. The recommendation provides much needed trucks for the active Army, the Army National Guard and the Army Reserve.

#### MI-17 HELICOPTERS

There is concern with the Department's growing reliance on the Mi-17 helicopter to meet critical tactical lift requirements for Afghanistan, Iraq and Pakistan security forces. This platform has exceptionally-high maintenance requirements. Parts and service are not readily available in the theater of operations. Furthermore, the Mi-17 is in high demand by U.S. forces operating in and training for Afghanistan, but there are only two foreign-owned plants producing new aircraft at this time. Therefore, the Secretary of Defense is directed to report to the congressional defense committees not later than sixty days after the enactment of this Act on the Department of Defense's current and anticipated demand for Mi-17s for U.S., Afghanistan, Iraq and Pakistan security forces, the anticipated availability or shortage of additional airframes, the sustainability of the airframes currently slated for use by Afghanistan and Iraq security forces, an analysis of alternative airframes, and the future costs and funding sources available for procuring Mi-17s.

#### MEDICAL TREATMENT FOR CONTRACTORS

There is concern that American workers are not getting reasonable medical treatment for injuries they have suffered while working in a combat zone. Accordingly, the Department is urged to encourage Federal contractors to provide access to the most effective treatment available for injuries suffered while working outside the United States in support of military operations, including Operation Iraqi Freedom and Operation Enduring Freedom; and encourage Federal contractors performing a Federal contract outside the United States to ensure that American workers performing the contract receive the same benefits for injuries suffered outside the United States that they would receive if they were working within the United States.

#### MILITARY PERSONNEL

For Military Personnel, funds are to be available for fiscal year 2010, as follows:

	Budget request	House	Senate	Recommendation
<b>Military Personnel, Army</b>				
<b>BA-1: PAY AND ALLOWANCES OF OFFICERS</b>

## COMMANDER'S EMERGENCY RESPONSE PROGRAM

The recommendation provides \$1,200,000,000 for the Commander's Emergency Response Program (CERP) in fiscal year 2010, \$300,000,000 below the request. Included in this amount is \$1,000,000,000 for CERP in Afghanistan and \$200,000,000 for CERP in Iraq. The amount provided for CERP in Afghanistan effectively doubles what has been committed in Afghanistan for fiscal year 2009. Additionally, with the redeployment from Iraq and withdrawal from the major cities, CERP requirements in that theater of operations will decrease significantly in fiscal year 2010. Of the funds provided for CERP, \$500,000,000 shall be withheld pending completion and submission of the report described below.

The Department of Defense needs to greatly improve its management and oversight of CERP and its justifications of CERP budget requests. Additionally, there is concern that the Department's plan to significantly increase the use of CERP in Afghanistan does not yet include an increase in the number of personnel qualified to conduct proper oversight and management of those funds. Therefore, the Secretary of Defense is directed to conduct a thorough review of CERP and submit a report to the congressional defense committees not later than 180 days after enactment of this Act. This report shall include: the process by which CERP budget requests are generated and justified; existing management and oversight of CERP funds and contracts by the Department of the Army, the Undersecretary of Defense, Comptroller, and U.S. Central Command; the number of personnel required and the number of personnel currently deployed to Afghanistan with Joint Contracting Command and U.S. Forces—Afghanistan specifically in support of CERP; a separate assessment for Iraq and Afghanistan of the goals, purpose and expected requirement for CERP funds in the coming year; the coordination process of projects with other U.S. government agencies and Non-Governmental Organizations carrying out projects in Iraq and Afghanistan; the requirements for the sustainment of projects carried out under CERP; the procedures for ensuring that projects carried out under CERP are coordinated with the host governments and local community leaders; and the process and systems for tracking projects carried out under CERP. Additionally, the Secretary of Defense is directed, as part of the program review, to report on the advisability of establishing a program office for CERP to be responsible for the development of budgets, strategic plans, program controls, requirements for program coordination, and standards for training.

The Secretary of the Army is directed to submit monthly commitment, obligation and expenditure data for CERP in Iraq and Afghanistan to the congressional defense committees not later than 30 days after each month. Finally, the Secretary of Defense is directed to submit the required quarterly report in a searchable database form in addition to the paper report.

## CIVILIAN-MILITARY TRAINING

The Secretary of Defense is directed, in conjunction with the Secretary of State and the Administrator of the United States Agency for International Development, to continue to support the require-

ments for monthly integrated civilian-military training for civilians deploying to Afghanistan at Camp Atterbury, Indiana, including through the allocation of military and civilian personnel, trainers, and other resources for that purpose.

**PROCUREMENT**

For Procurement, funds are to be available for fiscal year 2010, as follows:

P-1		Budget Request	House	Senate	Recommendation
<b>AIRCRAFT PROCUREMENT, ARMY</b>

## UP-ARMORED HMMWVs

The fiscal year 2010 budget request for Overseas Contingency Operations includes funding for the procurement of up-armored HMMWVs. At the request of the Marine Corps, Congress appropriated \$177,200,000 in fiscal year 2009 supplemental funding for the procurement of Frag Kit 4 underbody armor protection for M1114 vehicles in theater. However, it is understood that the Marine Corps has rescinded that requirement due to technical difficulties and will not procure any Frag Kit 4 kits. Therefore, the Commandant of the Marine Corps is directed to apply the funds previously appropriated for the procurement of Frag Kit 4 kits for the procurement of up-armored HMMWVs for contingency operations instead.

## FAMILY OF HEAVY TACTICAL VEHICLES

The recommendation includes \$803,230,000 for the Family of Heavy Tactical Vehicles. The funding provides for the purchase of a variety of heavy trucks, tractors and trailers including Heavy Expanded Mobility Tactical Trucks; Heavy Equipment Transporter Tractors; Heavy Equipment Transporter Trailers; and other heavy transport systems to support line haul, local haul, unit resupply and other missions. These trucks and trailers provide critical support to units in the field. The Army is expected to promptly procure these heavy trucks and trailers as described in budget justification materials.

## COMMON REMOTELY OPERATED WEAPONS STATION

The recommendation provides \$495,000,000 for Common Remotely Operated Weapons Stations (CROWS), which includes the \$235,000,000 in the budget request, a transfer of \$360,000,000 from Other Procurement, Army, and a program reduction of \$100,000,000. Although there is strong support for the CROWS program, this reduction will avoid funding ahead of need. It is understood that funding for CROWS systems is available in the funding lines for other weapons systems and tactical vehicles. Should additional CROWS funding be required in fiscal year 2010, the Army should reprogram internally to meet the demand. The Army is encouraged to make the CROWS System a Program of Record.

## MINE RESISTANT AMBUSH PROTECTED (MRAP) AND MINE RESISTANT AMBUSH PROTECTED ALL TERRAIN VEHICLES (M-ATVs)

The recommendation provides \$6,281,000,000, an increase of \$825,000,000 over the request to address additional M-ATV vehicle requirements, as identified by the Department. The Department shall continue to adhere to the execution and reporting requirements contained in section 8122 of Public Law 110-116.

## TRAINING DEVICES FOR MINE RESISTANT AMBUSH PROTECTED (MRAP) AND MINE RESISTANT AMBUSH PROTECTED ALL TERRAIN VEHICLES (M-ATVs)

In response to the threat of Improvised Explosive Devices (IEDs) to Forces in theater, the Department of Defense has procured more

than 16,000 MRAPs, and recently validated a requirement of more than 6,000 light-weight MRAPs, M-ATVs, for operations in Afghanistan.

Due to the weight of the heavy armor and high center of gravity, the driving characteristics of both the MRAP and M-ATV are considerably different from other vehicles that are in use by the military. Aggressive safety training helps avoid casualties due to roll-overs and other types of accidents. Emergency egress training, including the emergency operation of the heavy armored doors is essential. It is understood that MRAP vehicles and virtual trainers have been provided to home station training facilities for active component, National Guard and Reserve units to prepare service members to operate and maintain these vehicles, which they will receive upon their arrival in the combat theaters. The military services are encouraged to take maximum advantage of these training devices to prepare servicemembers for operations in and around MRAPs and M-ATVs. The Department is expected to use funds available in this Act to procure additional training devices, including virtual vehicle trainers if required.

#### NATIONAL GUARD AND RESERVE EQUIPMENT

The recommendation provides \$950,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$575,000,000 is for the Army National Guard; \$135,000,000 for the Air National Guard; \$85,000,000 for the U.S. Army Reserve; \$55,000,000 for the Navy Reserve; \$45,000,000 for the Marine Corps Reserve; and \$55,000,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year.

This funding will allow the Guard and reserve components to procure high priority equipment that will complement the combined State and Federal missions.

#### MODERNIZATION PRIORITIES

Each National Guard and reserve component Chief shall submit to the congressional defense committees a detailed assessment of that component's modernization priorities not later than 30 days after enactment of this Act. The National Guard and reserve component Chiefs should exercise control of the funds provided in this account, to better ensure that the most urgent National Guard and reserve equipment modernization priorities are addressed with the funding provided in this appropriation.

#### RESEARCH, DEVELOPMENT, TEST AND EVALUATION

For Research, Development, Test and Evaluation, funds are to be available for fiscal year 2010, as follows:

R-1	Budget Request	House	Senate	Recommendation	
<b>RESEARCH, DEVELOPMENT, TEST &amp; EVALUATION, ARMY</b>

## SABER FOCUS

The Saber Focus demonstration program is envisioned to provide a much needed capability to the warfighter. The Congress has provided over \$200,000,000 for this effort, funded entirely outside the normal budgeting process. The Department has been given numerous opportunities to fund this potentially game-changing program in its base budget but has chosen not to do so, largely due to schedule slips with the actual demonstration. The demonstration is currently scheduled in fiscal year 2010 and will utilize funding carried over from fiscal year 2009. Therefore, the recommendation provides \$16,900,000 for the Saber Focus program, a reduction of \$35,000,000, which should be sufficient to finally transition the program to a Program of Record.

## REVOLVING AND MANAGEMENT FUNDS

## DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Fund, \$412,215,000 is provided for fiscal year 2010.

		Budget Request	House	Senate	Recommendation

Train the Force .....	187,000	160,000	161,810	161,810
Transfer from Title VI .....			41,100	41,100
Transfer to Service OCO accounts for proper execution .....			-66,290	-66,290
Staff and Infrastructure .....	0	0	121,550	0
Transfer from Title VI .....			121,550	
Total, Joint Improvised Explosive Device Defeat Fund .....	1,535,000	1,490,000	2,033,560	1,762,010

The Director, Joint Improvised Explosive Device Defeat Organization (JIEDDO) is directed to continue to submit monthly commitment, obligation, and expenditure data by line of operation and by year of appropriation to the congressional defense committees. Further, the Director, JIEDDO is directed to submit monthly reports of obligation data on a project-by-project basis by line of operation to the congressional defense committees. The Director, JIEDDO is also directed to follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

## OFFICE OF THE INSPECTOR GENERAL

For the Office of the Inspector General, \$8,876,000 is provided for fiscal year 2010.

## TITLE IX—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation retains a provision proposed by the Senate that provides for special transfer authority for this title. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides authority for the supervisory and administrative costs associated with construction projects in Afghanistan funded with operation and maintenance funds, that may be obligated when the contract is awarded. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides for the procurement of passenger motor vehicles for the physical security of personnel. The House bill contained a similar provision.

The recommendation modifies a provision proposed by the House and the Senate which provides funding under "Operation and

Maintenance, Army” to fund the Commander’s Emergency Response Program (CERP) and requires quarterly reports to the congressional defense committees.

The recommendation does not retain a provision proposed by the House that provides for a transfer from the Defense Cooperation Account. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that designates funds in this title for overseas deployments and other activities. The House bill contained a similar provision.

The recommendation retains a provision proposed by the House that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. The Senate bill contained the same provision in Title VIII.

The recommendation does not retain a provision proposed by the House that requires a report on the timetable for Iraq troop draw down. The Senate bill contained no similar provision. The issue is addressed elsewhere in this statement.

The recommendation retains a provision proposed by the Senate that provides reporting requirements and reprogramming thresholds for Iraq and Afghanistan Security Forces Funds and Pakistan Counterinsurgency Fund. The House bill contained no similar provision.

The recommendation includes a provision that restricts the transfer or release into the United States of any individual who was detained at Naval Station, Guantanamo Bay, Cuba.

The recommendation does not retain a provision proposed by the Senate that provides funding for fuel requirements. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that prohibits funding of the Association Community Organizations for Reform Now. The House bill contained no similar provision. The issue is addressed in Title VIII.

The recommendation does not retain a provision proposed by the Senate that provides for the support of certain civilian-military training for citizens deploying to Afghanistan. The House bill contained no similar provision. This issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate to hold open and closed hearings on strategy and resources of the United States with respect to Afghanistan and Pakistan. The House bill contained no similar provision.

The recommendation modifies a provision proposed by the Senate that makes available funding for outreach and reintegration services under the Yellow Ribbon Reintegration Program. The House bill contained no similar provision.

#### TITLE X—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation does not retain a provision proposed by the House concerning hyperbaric chambers for treatment of traumatic

brain injury. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

FOOTNOTES:  
1/ Included in Budget under Procurement title.  
2/ Overseas Deployments and Other Activities (OOOA) pursuant to FY 2010 concurrent budget resolution.  
3/ Contributions to Department of Defense Retiree Health Care Fund (Sec. 728, P.L. 108-375)(CBO est)

## DIVISION B—OTHER MATTERS

Section 1001 provides such sums as are necessary for the Supplemental Nutrition Assistance Program (SNAP), to be held in reserve for use in such amounts and at such times as may be necessary to carry out the program. The fiscal year 2010 appropriation for SNAP was based on the latest official projection available to Congress at that time—the Office of Management and Budget’s Mid-Session Review—and can support a large increase in participation over fiscal year 2009. However, increases in participation levels in the latter part of fiscal year 2009 were very high. If those rates of increase continue, the current appropriation level would not be sufficient to meet program participation.

Section 1002 provides \$400,000,000 in additional funding for state administrative expenses under the Supplemental Nutrition Assistance Program, to assist states in dealing with high program participation levels, designated as an emergency requirement.

Section 1003 extends the authorization for compulsory copyright license used by satellite television providers to February 28, 2010. Funding is fully offset.

Section 1004 provides extension to certain provisions of the USA PATRIOT Improvement and Reauthorization Act of 2005 and the Intelligence Reform and Terrorism Prevention Act of 2004 until February 28, 2010.

Section 1005 extends the National Flood Insurance Program through February 28, 2010.

Section 1006 provides \$125,000,000 to the Small Business Administration (SBA), to continue two temporary enhancements to SBA loan guarantee programs made by the American Recovery and Reinvestment Act of 2009 and which are nearly out of funding. One of the enhancements being extended allows the SBA to guarantee 90 percent of certain small business loans, instead of the 75 percent allowed under permanent law (or 85 percent for small loans), thereby encouraging banks to make these loans by reducing the amount they have at risk and the reserves they must hold. The other reduces fees paid by lenders and borrowers. The funding provided in the bill is estimated to be sufficient to continue both items through February 28, 2010. The bill also extends the expiration date of the authorization for the 90 percent loan guarantees from February 17 to February 28, 2010. Funding is fully offset.

Section 1007 will release upon enactment to Swain County, North Carolina \$4,000,000 of previously appropriated funds, with the remaining \$8,800,000 to be made available 120 days after the County, the state of North Carolina, the Interior Department and the Tennessee Valley Authority reach a settlement.

Section 1008 extends the authorization for the highway, transit, highway safety and motor carrier safety programs of the Department of Transportation until February 28, 2010.

Section 1009 provides an extension of expiring UI benefit provisions that were established or continued in the American Recovery and Reinvestment Act, including the Emergency Unemployment Compensation program, 100 percent Federal funding for the Extended Benefits program, and the extra \$25 weekly UI benefit through February 28, 2010.

Section 1010 extends the 65 percent COBRA health insurance subsidy from nine to 15 months for individuals who have lost their jobs. The job lost eligibility date is extended in the provision through February 28, 2010.

Section 1011 delays a scheduled 21.2 percent reduction in Medicare's 2010 physician payments through February 28, 2010.

Section 1012 includes a provision to freeze the Department of Health and Human Services poverty guidelines at 2009 levels in order to prevent a reduction in eligibility for certain means-tested programs, including Medicaid, Supplemental Nutrition Assistance Program (SNAP), and child nutrition, through March 1, 2010.

Section 1013 rescinds funds from the digital television conversion coupon program.

Section 1014 provides that explanatory statement submitted by the Chairman of the Defense Subcommittee shall have the same effect as a joint explanatory statement.

#### DISCLOSURE OF CONGRESSIONAL EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the amended bill or the explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the amended bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House or Senate rules.
