1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) Maritime vessels are the primary mode of
4 transportation for international trade and they carry
5 over 80 percent of international trade by volume.

6 (2) In 2004, maritime vessels carried approxi-
7 mately 9,700,000 shipping containers into United
8 States seaports at an average of 27,000 containers
9 per day.

10 (3) The security of the international container
11 supply chain and the maritime transportation sys-
12 tem is critical for the prosperity and liberty of all
13 countries.

14 (4) In its final report, the National Commission
15 on Terrorist Attacks Upon the United States noted,
16 “While commercial aviation remains a possible tar-
17 get, terrorists may turn their attention to other
18 modes of transportation. Opportunities to do harm
19 are as great, or greater in maritime or surface
20 transportation.”.

1 (5) In May 2002, the Brookings Institution es-
2 timated that costs associated with United States
3 port closures from a detonated terrorist weapon
4 could add up to \$1 trillion from the resulting eco-
5 nomic slump and changes in our Nation's inability
6 to trade. Anticipated port closures on the west coast
7 of the United States could cost the United States
8 economy \$1 billion per day for the first five days
9 after a terrorist attack.

10 (6) Significant steps have been taken since the
11 terrorist attacks against the United States that oc-
12 curred on September 11, 2001:

13 (A) Congress passed the Maritime Trans-
14 portation Security Act of 2002 on November
15 14, 2002.

16 (B) The Coast Guard issued a comprehen-
17 sive set of port security regulations on October
18 22, 2003.

19 (C) The International Maritime Organiza-
20 tion adopted the International Ship and Port
21 Facility (ISPS) Code in December 2002.

22 (D) The White House issued Homeland
23 Security Presidential Directive-13 in September
24 2005 which lays out requirements for a com-
25 prehensive maritime security policy.

1 (7) Through both public and private projects,
2 the private sector in the United States and overseas
3 has worked with the Department of Homeland Security
4 to improve the security of the movement of
5 cargo through the international supply chain.

6 (8) Despite these steps, security gaps in the
7 maritime transportation system remain, resulting in
8 high-risk container systems not being checked overseas
9 or domestically and ports that are vulnerable to
10 terrorist attacks similar to the attack on the U.S.S.
11 Cole.

12 (9) Significant enhancements can be achieved
13 by applying a multi-layered approach to supply chain
14 security, in a coordinated fashion. Current supply
15 chain programs within the Federal Government have
16 been independently operated, often falling short of
17 gains which could have been made if such programs
18 were operated in a coordinated manner with clear
19 system standards and a framework that creates incentives
20 for security investments.

21 (10) While it is impossible to completely remove
22 the risk of a terrorist attack, security measures in
23 the supply chain can add certainty and stability to
24 the global economy, raise investor confidence, and
25 facilitate trade. Some counterterrorism costs are in-

1 tegral to the price that must be paid to protect soci-
2 ety. However, counterterrorism measures also
3 present an opportunity to increase the efficiency of
4 the global trade system through international har-
5 monization of such measures. These efficiency gains
6 are maximized when all countries adopt such
7 counterterrorism measures.

8 (11) Increasing transparency in the supply
9 chain will assist in mitigating the impact of a ter-
10 rorist attack by allowing for a targeted shutdown of
11 the international supply chain and expedited restora-
12 tion of commercial traffic.

13 (12) International trade is vital to the Nation's
14 economy and the well-being and livelihood of United
15 States citizens.

16 (13) The Department of Homeland Security's
17 missions, including those related to United States
18 and international borders, involve both building se-
19 curity for United States citizens and facilitating le-
20 gitimate trade that is critical to the Nation.

21 (14) In creating the Department of Homeland
22 Security, Congress clearly mandated in section
23 412(b) of the Homeland Security Act of 2002 (6
24 U.S.C. 212(b)) that the customs revenue functions

1 described in paragraph (2) of such section shall not
2 be diminished.

6 section (b) shall include—

7 (1) a risk-based prioritization of United States
8 seaports at which nuclear and radiological detection
9 systems will be deployed;
