- 24 (c) Use of Lands Subject to Waiver.—

- 1 (1) In GENERAL.—Notwithstanding any other 2 provision of law, the lands subject to a waiver under 3 subsection (a) shall not be subject to any term, condi-4 tion, reservation, or restriction that would otherwise 5 apply to that land as a result of the conveyance of 6 that land by the United States to the institution of 7 higher education.
 - (2) USE OF LANDS.—An institution of higher education that is issued a waiver under subsection (a) may use revenues derived from the use, operation, or disposal of that land only for weather-related and educational purposes that include benefits for aviation.

(d) Grants.—

(1) In GENERAL.—Notwithstanding any other provision of law, if an institution of higher education that is subject to a waiver under subsection (a) received financial assistance in the form of a grant from the Federal Aviation Administration or a predecessor agency before the date of enactment of this Act, then the Secretary of Transportation may waive the repayment of the outstanding amount of any grant that the institution of higher education would otherwise be required to pay.

1	(2) Eligibility to receive subsequent
2	GRANTS.—Nothing in paragraph (1) shall affect the
3	eligibility of an institution of higher education that
4	is subject to that paragraph from receiving grants
5	from the Secretary of Transportation under chapter
6	471 of title 49, United States Code, or under any
7	other provision of law relating to financial assistance
8	provided through the Federal Aviation Administra-
9	tion.
10	Sec. 344. Section 1105(c) of the Intermodal Surface
11	Transportation Efficiency Act of 1991 (105 Stat. 2032–
12	2033) is amended by striking paragraph (38) and replacing
13	it with the following—
14	"(38) The Ports-to-Plains Corridor from Laredo,
15	Texas to Denver, Colorado as follows:
16	"(A) In the State of Texas the Ports-to-
17	Plains Corridor shall generally follow—

1	"(v) From Sterling City to Lamesa,
2	the Corridor shall follow United States
3	Route 87 and, the corridor shall also follow

19	Sec. 345. Modification of Highway Project in
20	POLK COUNTY, IOWA. The table contained in section 1602
21	of the Transportation Equity Act for the 21st Century is
22	amended in item 1006 (112 Stat. 294) by striking "Extend
23	NW 86th Street from NW 70th Street" and inserting "Con-
24	struct a road from State Highway 141".

1	Sec. 346. Cap Agreement for Boston "Big Dig".
2	No funds appropriated by this Act may be used by the De-
3	partment of Transportation to cover the administrative
4	costs (including salaries and expenses of officers and em-
5	ployees of the Department) to authorize project approvals
6	or advance construction authority for the Central Artery
7	Third Harbor Tunnel project in Boston, Massachusetts,
8	until the Secretary of Transportation and the State of Mas-
9	sachusetts have entered into a written agreement that limits
10	the total Federal contribution to the project to not more
11	than \$8,549,000,000.
12	Sec. 347. Parking Space for Trucks. (a) Find-
13	INGS.—Congress finds that—
14	(1) in 1998, there were 5,374 truck-related high-
15	way fatalities and 4,935 trucks involved in fatal
16	crashes;
17	(2) a Special Investigation Report published by
18	the National Transportation Safety Board in May
19	2000 found that research conducted by the National
20	Highway Traffic Safety Administration suggests that
21	truck driver fatigue is a contributing factor in as
22	many as 30 to 40 percent of all heavy truck accidents;
23	(3) a 1995 Transportation Safety Board Study
24	found that the availability of parking for truck driv-

- 1 ers can have a direct impact on the incidence of fa-2 tique-related accidents;
- 3 (4) a 1996 study by the Federal Highway Ad-4 ministration found that there is a nationwide short-5 fall of 28,400 truck parking spaces in public rest 6 areas, a number expected to reach 39,000 by 2005;
 - (5) a 1999 survey conducted by the Owner-Operator Independent Drivers Association found that over 90 percent of its members have difficulty finding parking spaces in rest areas at least once a week; and
- 11 (6) because of overcrowding at rest areas, truck12 ers are increasingly forced to park on the entrance
 13 and exit ramps of highways, in shopping center park14 ing lots, at shipper locations, and on the shoulders of
 15 roadways, thereby increasing the risk of serious acci16 dents.
- 17 (b) Sense of the Senate.—It is the sense of the Sen-18 ate that Congress and the President should take immediate 19 steps to address the lack of safe available commercial vehicle 20 parking along Interstate highways for truck drivers.
- 21 Sec. 348. Study of Adverse Effects of Idling 22 Train Engines. (a) Study Required.—The Secretary of 23 Transportation shall provide under section 150303 of title
- 24 36, United States Code, for the National Academy of
- 25 Sciences to conduct a study on noise impacts of railroad

- 1 operations, including idling train engines on the quality
- 2 of life of nearby communities, the quality of the environ-
- 3 ment (including consideration of air pollution), and safety,
- 4 and to submit a report on the study to the Secretary. The
- 5 report shall include recommendations for mitigation to
- 6 combat rail noise, standards for determining when noise
- 7 mitigation is required, needed changes in Federal law to
- 8 give Federal, State, and local governments flexibility in
- 9 combating railroad noise, and possible funding mechanisms
- 10 for financing mitigation projects.
- 11 (b) Report.—Not later than one year after the date
- 12 of the enactment of this Act, the Secretary of Transpor-
- 13 tation shall transmit to Congress the report of the National
- 14 Academy of Sciences on the results of the study under sub-
- 15 section (a).
- 16 SEC. 349. Within the funds made available in this Act,
- 17 \$10,000,000 shall be for the costs associated with construc-
- 18 tion of a third track on the Northeast Corridor between
- 19 Davisville and Central Falls, Rhode Island, with sufficient
- 20 clearance to accommodate double stack freight cars, to be
- 21 matched by the State of Rhode Island or its designee on
- 22 a dollar-for-dollar basis and to remain available until ex-
- 23 pended; \$2,000,000 shall be for a joint United States-Can-
- 24 ada commission to study the feasibility of connecting the
- 25 rail system in Alaska to the North American continental

- 1 rail system; \$400,000 shall be allocated for passenger rail
- 2 corridor planning activities to fund the preparation of a
- 3 strategic plan for development of the Gulf Coast High Speed
- 4 Rail Corridor; and \$250,000 shall be available to the city
- 5 of Traverse City, Michigan comprehensive transportation
- 6 plan.
- 7 Sec. 350. (a) Findings.—The Senate makes the fol-
- 8 lowing findings:
- 9 (1) The United States Coast Guard in 1999
- saved approximately 3,800 lives in providing the es-
- 11 sential service of maritime safety.
- 12 (2) The United States Coast Guard in 1999 pre-
- vented 111,689 pounds of cocaine and 28,872 pounds
- of marijuana from entering the United States in pro-
- 15 viding the essential service of maritime security.
- 16 (3) The United States Coast Guard in 1999
- 17 boarded more than 14,000 fishing vessels to check for
- 18 compliance with safety and environmental laws in
- 19 providing the essential service of the protection of nat-
- 20 ural resources.
- 21 (4) The United States Coast Guard in 1999 en-
- sured the safe passage of nearly 1,000,000 commercial
- vessel transits through congested harbors with vessel
- 24 traffic services in providing the essential service of
- 25 maritime mobility.

- (5) The United States Coast Guard in 1999 sent international training teams to help more than 50 countries develop their maritime services in providing the essential service national defense.
 - (6) Each year, the United States Coast Guard ensures the safe passage of more than 200,000,000 tons of cargo cross the Great Lakes including iron ore, coal, and limestone. Shipping on the Great Lakes faces a unique challenge because the shipping season begins and ends in ice anywhere from 3 to 15 feet thick. The ice-breaking vessel MACKINAW has allowed commerce to continue under these conditions. However, the productive life of the MACKINAW will end in 2006.
 - (7) Without adequate funding, the United States
 Coast Guard would have to radically reduce the level
 of service it provides to the American public.
 - (8) The allocation to the Committee on Appropriations of the Senate of funds available for the Department of Transportation and related agencies for fiscal year 2001 was \$1,600,000,000 less than the allocation to the Committee on Appropriations of the House of Representatives of funds available for that purpose for that fiscal year. The lower allocation compelled the Subcommittee on Transportation of the

Committee on Appropriations of the Senate to recommend reductions from the funding requested in the President's budget on funds available for the Coast Guard, particularly amounts available for acquisitions, that may not have been imposed had a larger allocation been made, or had the President's budget not included \$212,000,000 in new user fees on the maritime community. The difference between the amount of funds requested by the Coast Guard for the Acquisition, Construction, and Improvements account and the amount made available by the Committee on Appropriations of the Senate for those acquisitions conflicts with the high priority afforded by the Senate to Acquisition, Construction, and Improvements procurements, which are of critical national importance to commerce, navigation, and safety.

(9) Due to shortfalls in funds available for fiscal year 2000 and unexpected increases in personnel benefits and fuel costs on the 2000 operating expenses account, the Commandant of the Coast Guard has announced reductions in critical operations of the Coast Guard by as much as 30 percent in some areas of the United States. If left unaddressed, these shortfalls may compromise the service provided by the Coast Guard to the public in all areas, including drug

1	interdiction and migrant interdiction, aid to naviga-
2	tion, and fisheries management.
3	(b) Sense of Senate.—It is the sense of the Senate
4	that—
5	(1) the committee of conference on the bill H.R.
6	4425 of the 106th Congress, making appropriations
7	for military construction, family housing, and base
8	realignment and closure for the Department of De-
9	fense for the fiscal year ending September 30, 2001,
10	or any other appropriate committee of conference of
11	the second session of the 106th Congress, should ap-
12	prove supplemental funding for the Coast Guard for
13	fiscal year 2000 as soon as is practicable; and
14	(2) upon adoption of this bill by the Senate, the
15	conferees of the Senate to the committee of conference
16	on the bill H.R. 4475 of the 106th Congress, making
17	appropriations for the Department of Transportation
18	and related agencies for the fiscal year ending Sep-
19	tember 30, 2001, provided there is sufficient budget
20	authority, should—
21	(A) recede from their disagreement to the
22	proposal of the conferees of the House of Rep-
23	resentatives to the committee of conference on the
24	bill H.R. 4475 with respect to funding for Acqui-
25	sition, Construction, and Improvements;

1	(B) provide adequate funds for operations of
2	the Coast Guard in fiscal year 2001, including
3	activities relating to drug and migrant interdic-
4	tion and fisheries enforcement; and
5	(C) provide sufficient funds for the Coast
6	Guard in fiscal year 2001 to correct the 30 per-
7	cent reduction in funds for operations of the
8	Coast Guard in fiscal year 2000.
9	Sec. 351. For the purpose of constructing an under-
10	pass to improve access and enhance highway/rail safety and
11	economic development along Star Landing Road in DeSoto
12	County, Mississippi, the State of Mississippi may use funds
13	previously allocated to it under the transportation enhance-
14	ments program, if available.
15	Sec. 352. Section 1214 of Public Law 105–178, as
16	amended, is further amended by adding a new subsection
17	to read as follows:
18	"(s) Notwithstanding sections 117 (c) and (d) of title
19	23, United States Code, for project number 1646 in section
20	1602 of Public Law 105–178—
21	"(1) the non-Federal share of the project may be
22	funded by Federal funds from an agency or agencies
23	not part of the United States Department of Trans-
24	portation; and

1	"(2) the Secretary shall not delegate responsi-
2	bility for carrying out the project to a State.".
3	Sec. 353. Additional Sanction for Revenue Di-
4	VERSION. Except as necessary to ensure public safety, no
5	amount appropriated under this or any other Act may be
6	used to fund any airport-related grant for the Los Angeles
7	International Airport made to the City of Los Angeles, or
8	any inter-governmental body of which it is a member, by
9	the Department of Transportation or the Federal Aviation
10	Administration, until the Administration—
11	(1) concludes the investigation initiated in Dock-
12	et 13–95–05; and
13	(2) either—
14	(A) takes action, if necessary and appro-
15	priate, on the basis of the investigation to ensure
16	compliance with applicable laws, policies, and
17	grant assurances regarding revenue use and re-
18	tention by an airport; or
19	(B) determines that no action is warranted.
20	Sec. 354. Hereafter, the New Jersey Transit commuter
21	rail station to be located at the intersection of the Main/
22	Bergen line and the Northeast Corridor line in the State
23	of New Jersey shall be known and designated as the "Frank
24	R. Lautenberg Transfer Station": Provided, That the Sec-
25	retary of Transportation shall ensure that any and all ap-

1	plicable reference in law, map, regulation, documentation,
2	and all appropriate signage shall make reference to the
3	"Frank R. Lautenberg Transfer Station".
