To improve the economy and efficiency of Government operations by requiring the use of recovery audits and recovery activity by Federal agencies.

106TH CONGRESS
2^D SESSION

H. R. 1827

AN ACT

To improve the economy and efficiency of Government operations by requiring the use of recovery audits and recovery activity by Federal agencies.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION. 1. SHORT TITLE.**

2 This Act may be cited as the “Government Waste
3 Corrections Act of 2000”.

4 **SEC. 2. FINDINGS AND PURPOSES.**

5 (a) FINDINGS.—The Congress finds the following:

6 (1) Overpayments are a serious problem for
7 Federal agencies, given the magnitude and com-
8 plexity of Federal operations and documented and
9 widespread financial management weaknesses. Fed-
10 eral agency overpayments waste tax dollars and de-
11 tract from the efficiency and effectiveness of Federal
12 operations by diverting resources from their intended
13 uses.

14 (2) In private industry, overpayments to pro-
15 viders of goods and services occur for a variety of
16 reasons, including duplicate payments, pricing er-
17 rors, and missed cash discounts, rebates, or other al-
18 lowances. The identification and recovery of such
19 overpayments, commonly referred to as “recovery
20 auditing and activity”, is an established private sec-
21 tor business practice with demonstrated large finan-
22 cial returns. On average, recovery auditing and ac-
23 tivity in the private sector identify overpayment
24 rates of 0.1 percent of purchases audited and result
25 in the recovery of \$1,000,000 for each
26 \$1,000,000,000 of purchases.

1 (3) Recovery auditing and recovery activity al-
2 ready have been employed successfully in limited
3 areas of Federal activity. They have great potential
4 for expansion to many other Federal agencies and
5 activities, thereby resulting in the recovery of sub-
6 stantial amounts of overpayments annually. Limited
7 recovery audits conducted by private contractors to
8 date within the Department of Defense have identi-
9 fied errors averaging 0.4 percent of Federal pay-
10 ments audited, or \$4,000,000 for every
11 \$1,000,000,000 of payments. If fully implemented
12 within the Federal Government, recovery auditing
13 and recovery activity have the potential to recover
14 billions of dollars in Federal overpayments annually.

15 (b) PURPOSES.—The purposes of this Act are the fol-
16 lowing:

17 (1) To ensure that overpayments made by the
18 Federal Government that would otherwise remain
19 undetected are identified and recovered.

20 (2) To require the use of recovery audit and re-
21 covery activity by Federal agencies.

22 (3) To provide incentives and resources to im-
23 prove Federal management practices with the goal
24 of significantly reducing Federal overpayment rates
25 and other waste and error in Federal programs.
