Shuster Announces \$2.7 Million Funding Package for Infrastructure Improvements to the Borough of Ursina in Somerset County

Washington, DC –**Congressman Bill Shuster** is pleased to announce that he has directly secured \$400,000 and partnered with USDA for an additional \$2.3 million in an overall \$2.7 million funding package for the construction of a new sewage treatment plant in Ursina Borough.

“I am pleased to have been able to secure this funding for the people of Ursina Borough,” Shuster said. “Infrastructure improvements like this are critical to improving overall quality of life for residents and they serve as the foundation for future growth and economic development for the community.”

Shuster secured this \$400,000 through the Army Corps of Engineers and was instrumental in coordinating with the U.S. Department of Agriculture for an additional grant of \$2,342,000 for the construction of the treatment plant. It is estimated that the plant, once complete, will provide sanitary sewer service to close to 132 people.
