Congressman Paul Introduces Bills to Help the Unemployed

Washington, D.C. - Congressman Paul has introduced two pieces of legislation to help the increasing number of unemployed Americans.

HR 1311- the Unemployment Assistance Act, allows the unemployed to make penalty-free withdrawals from their 401(k) accounts.

HR 1312-- the Unemployed Tax Relief Act, makes a laid-off worker's last paycheck tax free.

He urged support of these bills saying, "While we may disagree on the best solutions to the economic crisis, we must all agree that the unemployed need help now."
