Project Information

Name of Project: Transportation of Second Privately Owned Vehicle (POV) from OCONUS on PCS

Project Description: With the services focusing on retaining families and supporting spouse careers at unprecedented levels, the need to permit families to ship two vehicles only from non-foreign OCONUS locations upon a permanent change in duty station has become more pressing. Military commands have addressed this need as a quality of life issue. The requested provision would authorize only the shipment of an additional privately-owned vehicle on a change of permanent station from an OCONUS duty station.
