SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides for further consideration of H. Con. Res. 85, the concurrent resolution on the budget for fiscal year 2010, under a structured rule. The concurrent resolution shall be considered as read.

The resolution makes in order only those amendments printed in this report. Each amendment may be offered only in the order printed in this report, may be offered only by a Member designated, and shall be considered as read. The resolution also permits the chair of the Committee on the Budget to offer amendments to achieve mathematical consistency. Finally, the resolution provides that it shall be in order, after adoption of H. Con. Res. 85, for the Speaker to take from the table S. Con. Res. 13 and to consider S. Con. Res. 13 in the House without intervention of any point of order. It shall be in order to move without intervention of any point of order to strike all after the resolving clause of S. Con. Res. 13 and insert in lieu thereof the provisions of H. Con. Res. 85 as passed by the House. If the motion and

Rules Committee record vote No. 58

Date: April 1, 2009.

Measure: H. Con. Res. 85.

Motion by: Mr. Dreier.

Summary of motion: To make in order and provide appropriate waivers for (1) an amendment by Rep. Chaffetz, Jason (UT), #24, which would express the Sense of the House that utility companies should disclose on consumers' utility bills the cost of the Administration's proposed cap-and-trade policy; (2) an amendment by Rep. Lance, Leonard (NJ), #5, which would amend the current policy reserve fund for middle class tax relief in the resolution to include extension of mortgage interest on an individual's primary residence; (3) an amendment by Rep. Kline, John (MN), #10, which would express the Sense of the House that before providing funding for new education programs that are unproven and existing programs that have been proven to be ineffective, Congress should fully fund the Individuals with Disabilities Education Act (IDEA) by ensuring that the Federal share of special education costs reaches 40 percent; (4) an amendment by Rep. Cassidy, Bill (LA), #21, which would establish a point of order in the House against consideration of any measure that would raise taxes and would (a) cause job loss in the domestic oil and natural gas sector or (b) increase the dependence of the United States on foreign oil. It further provides that any bill that would violate the above restrictions would not be considered a reconciliation bill under section 310 of the Congressional Budget Act; (5) an amendment by Reps. Harper, Gregg (MS)/Austria, Steve (OH), #11, which would transfer \$400 million from Function 150, International Affairs, to Function 050, National Defense; (6) an amendment by Rep. Rogers, Mike (MI), #18, which would provide for the elimination of Federal income taxes on (1) unemployment insurance benefits and (2) severance payments made to workers who reside in states with an unemployment rate above the national average; and (7) an amendment by Rep. Brown-Waite, Ginny (FL), #14, which would require that veterans receive health care within 30 days of contacting the Department of Veterans Affairs.

Results: Defeated 2-7.

SUMMARY OF AMENDMENTS TO BE MADE IN ORDER

(Summaries derived from information provided by sponsors.)

1. Woolsey, Lynn (CA) The Progressive Caucus substitute budget provides \$991 billion for non-military discretionary spending in FY10, \$469 billion above President Obama's request; provides \$479

billion as sufficient defense spending level; and reduces the deficit by 58% by FY2012. Savings come from eliminating Cold War era weapons systems, targeting waste, fraud, and abuse at the Pentagon, military redeployment and military contractors out of Iraq, repeal of Bush tax cuts for those making more than \$250,000 a year, crackdown on corporate welfare and reinstating a quarter-cent tax (0.25%) on all stock transactions. Spending increases include health care for all Americans, cutting poverty in half in ten years, additional economic stimulus, increased Foreign Assistance, combating global warming and establishing energy independence, providing comprehensive education, and providing health care to veterans as an entitlement. (40 minutes)

2. Jordan, Jim (OH)/Price, Tom (GA)/Pence, Mike (IN) The RSC substitute budget sets spending levels, revenue levels, and deficit levels at lower amounts than what is projected by the CBO baseline or what is proposed in the President's budget request. The substitute provides defense funding at the President's level and for non-defense discretionary spending, the RSC substitute provides a hard freeze to non-defense discretionary spending, plus a one percent reduction to prior year spending levels, and also assumes other savings from reductions to lower-priority spending. (40 minutes)

3. Lee, Barbara (CA)/Scott, Bobby (VA) The CBC substitute budget builds upon the historic investments made by the President's budget and the Majority's budget. However, the CBC budget builds on these investments by immediately repealing the 2001 and 2003 Bush-era tax cuts that benefit the wealthiest Americans. The CBC budget also adds an extremely modest 0.565% surtax on adjustable gross income exceeding \$500,000 for individuals (\$1 million for joint filers). The CBC budget shifts those savings and additional revenue towards Education, Health Care, Job Training, International Aid, Justice, Transportation, and Veterans, while still producing a five year deficit that is \$67 billion smaller than the Majority's budget. (40 minutes)

4. Ryan, Paul (WI) The GOP substitute budget spends \$4.8 trillion less than the Obama budget over 10 years. Backs spending down to 20.7% of GDP instead of 24.5% of GDP in the Obama budget. Freezes non-defense/non-veterans spending; the Obama budget increases non-defense spending by over 9%. Borrows \$3.6 trillion less than the Obama budget over 10 years and holds debt to 65% of GDP. Democrats have over 82% of GDP, nearly tripling it over 10-years. Puts forward a long-term budget to bring debt under control. Avoids tax increases in 2010 by permanently extending 2001 and 2003 tax relief. Permanently fixes the Alternative Minimum Tax. Creates 2.1 million more Jobs than the Democrats' Budget. Suspends capital gains taxes through 2010 instead of higher taxes on investment in the Obama budget. Reduces corporate tax rate to 25% (from 35%, 2nd highest in the industrialized world) to make U.S. companies more competitive and create American jobs. Increases over the Obama budget: Defense by \$5 billion; Veterans funding by \$540. Reserves \$50 billion annually for war or unmet defense needs. Provides for health and retirement security by reforming programs to ensure they provide benefits for future beneficiaries. (40 minutes)

TITLE III—CONGRESSIONAL POLICY STATEMENTS

SEC. 301. POLICY STATEMENT ON MEDICARE.

(a) **MEDICARE POLICY.**—It is the policy of this concurrent resolution that Congress will enact legislation to ensure the Medicare benefit continues to provide health care coverage for seniors by establishing a new methodology to make the program solvent and fiscally sustainable. Legislation shall be enacted that:

(1) Expands protections for seniors against catastrophic medical costs, simplifies beneficiary contributions, updates Medicare payments, increases flexibility for hospitals serving unusually high numbers of low-income patients, and reduces the prescription drug benefit subsidy for high-income seniors (household incomes over \$170,000). To ensure that the cost of frivolous litigation is not passed on to beneficiaries, the medical malpractice system is reformed.

(2) Preserves the current Medicare program for individuals 55 and older. For those under 55, the resolution gradually converts the current Medicare program into one in which Medicare beneficiaries receive a premium support payment -- equivalent to 100 percent of the cost of the Medicare benefit -- to purchase health coverage from a menu of Medicare-approved plans, similar to options available to Members of Congress. The premium support payment is risk-adjusted to increase with age and health status, and income-related so low-income seniors receive extra support. Premiums continue to be based on an all-beneficiary average, so the phasing of the younger population into the new program will not increase premiums for the population continuing in the existing program.

(b) **FORCE AND EFFECT OF THE MEDICARE TRIGGER.**—The Medicare trigger as set forth in section 803 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 shall apply during the 111th Congress.

SEC. 302. POLICY STATEMENT ON MEDICAID.

It is the policy of this concurrent resolution that Medicaid—

- (1) is outdated and fiscally unsustainable;
- (2) has a payment error rate of at least 10 percent (as reported by GAO in January 2009);
- (3) without major reform, its recipients' access to health care is in jeopardy;
- (4) must be reformed to make the health care safety net stronger and more reliable for the neediest populations;
- (5) must be modernized by enhancing State flexibility and their sensitivity to spending growth, while allowing States to offer their Medicaid populations more options; and
- (6) recipients, like all other Americans, deserve to make their own health care decisions instead of government bureaucrats dictating them.

SEC. 303. POLICY STATEMENT ON AFFORDABLE AND ACCESSIBLE HEALTH CARE.

It is the policy assumption of this concurrent resolution that legislation should be enacted that reforms the health care market-

place by ensuring universal access to health coverage for every American regardless of pre-existing health conditions. It allows individuals who like their health coverage to keep what they have, and offers those without coverage access health care options similar to what Members of Congress have. The resolution prevents the expansion of entitlements, the creation of government-controlled health plans, and the imposition of new mandates or taxes on businesses. Individuals must have the freedom to choose the health care plan that best meets their needs and freedom from government bureaucrats making their health care decisions. Medical professionals must not be prohibited – either through the use of comparative effectiveness data or otherwise – from providing and/or prescribing care they believe to be medically necessary.

SEC. 304. POLICY STATEMENT ON SOCIAL SECURITY.

(a) FINDINGS.—

(1) More than 30 million Americans depend on Social Security as a key part of their retirement. Since enactment, Social Security has served as a vital leg on the “three-legged stool” of retirement security, which today includes employer provided pensions as well as personal savings.

(2) Every year, the Social Security Trustees report warns of the dire financial straits that Social Security is in. Each year without reform, the financial condition of Social Security becomes more precarious, and the threat to seniors becomes more pronounced—

(A) in 2041, the Trust Fund will be exhausted, and will be unable to pay scheduled benefits; and

(B) with the exhaustion of the Trust Fund in 2041, benefits will be cut 22 percent across the board – hurting all those who rely upon Social Security as a fundamental part of their retirement security; and by 2082, the cuts required would equal 25 percent.

(3) The current recession is exacerbating the crisis to Social Security. The most recent March 2009 CBO baseline finds that the cash surplus in 2010 will only be \$3 billion – down \$22 billion from just 3 months ago. Should the recession continue, we may enter into a cash deficit in 2010 – 8 years earlier than expected.

(4) Lower-income Americans rely on Social Security for a larger proportion of their retirement income. Therefore, reforms should take into consideration the need to protect lower-income Americans’ retirement security.

(5) Americans deserve to have their elected Representatives take seriously the issue of Social Security reform. We must work together – in a bipartisan fashion – in order to solve this crisis. In this spirit, this resolution puts forth a reform that was first proposed by the current Director of the Office of Management and Budget.

(b) POLICY ON SOCIAL SECURITY.—It is the policy of this resolution that Congress should begin to act on Social Security. Should the Trustees of the Social Security Trust Fund determine that the Trust Fund would be unable to pay scheduled benefits within five years (currently estimated in 2036); reforms such as the following are recommended to be implemented to mitigate across-the-board cuts in benefit payments:

(1) Provide for a phase in of low-earner benefit enhancement. This would protect lower-income Americans meeting certain requirements by ensuring they receive a benefit of at least 120 percent of the poverty line.

(2) Reduce the 15-percent Primary Insurance Amount bracket by 0.25 percentage points per year, from the date at which SSA finds it cannot meet scheduled benefits within 5 years (currently 2036). Phase in over 20 years.

(3) The spending, revenue, deficit, and debt levels in this concurrent resolution assume current law benefits will be fully paid and do not assume any savings in Social Security.

SEC. 305. POLICY STATEMENT ON ENERGY.

(a) ENERGY POLICY.—It is recognized that: —

(1) energy is recognized as a vital component to our national and economic security.

(2) our dependence on foreign oil, natural gas, and other sources of energy is a threat to our national and economic security;

(3) our dependence on foreign oil, natural gas, and other fuel sources is contributing to a massive transfer of wealth outside of the United States;

(4) increasing production of domestic energy will reduce our dependence on foreign oil, natural gas, and other sources of energy;

(5) high rates of taxes levied upon domestic production of oil and natural gas energy sources will place domestic producers at a competitive disadvantage relative to foreign competitors and will discourage domestic energy production;

(6) a significant amount of oil and natural gas reserves are believed to be located on Federal lands including the Outer Continental Shelf, the Gulf of Mexico, the Arctic National and Wildlife Refuge, the National Petroleum Reserve, the Intermountain West Region;

(7) domestic energy development on Federal lands should comply with environmental laws and regulations and should be conducted in an environmentally responsible manner that minimizes the disruption to fish, plant, insect, and animal wildlife;

(8) alternative forms of energy development including solar, wind, biomass, wave, tidal, hydro, and other forms can produce pollution-free energy with favorable environmental benefits, including the reduction of global green house gas emissions;

(9) increased nuclear energy is an important component to achieving an energy supply free of green house gas emissions;

(10) lower energy prices will do more to promote economic growth, raise living standards, increase incomes, and create jobs than will higher energy prices;

(11) numerous studies on cap and trade conducted by government agencies, universities, think tanks, and industry groups agree that cap and trade will raise energy prices for businesses and consumers; and

(12) revenues, royalties, fees, and taxes raised from developing energy projects located on Federal lands could provide billions of dollars to the Treasury which could be used to fund increased Federal participation and support for alternative, re-

newable, and nuclear energy projects without raising new taxes or increasing energy prices on businesses and consumers.

(b) **STATEMENT ON ENERGY POLICY.**—It is the policy of this concurrent resolution that the energy policy of the United States is to—

(1) support our national and economic security by reducing our dependence on foreign oil, natural gas, and other sources of energy;

(2) support the increased development of energy on Federal lands in an environmentally responsible manner consistent with existing laws and regulations in a manner that minimizes the impact on fish, plant, insect, and animal wildlife;

(3) support the development of alternative, renewable, and nuclear sources of energy that will reduce reliance on foreign oil and contribute to reduced levels of global green house gases;

(4) direct revenues from royalties, bonus bids, fees, rents, and other taxes levied on new energy projects on Federal lands to fund increased Federal participation in research, development, loans, loan guarantees, insurance, tax credits and subsidies, and other assistance that will encourage new development of alternative, renewable, and nuclear sources of energy;

(5) ensure taxes levied on domestic oil and natural gas produces do not place them at a competitive disadvantage relative to foreign competitors, lead to job losses, or encourage a greater dependence on foreign sources of oil, natural gas, or other energy sources; and

(6) pursue policies that keep energy prices low and contribute to economic growth and avoid policies that raise energy prices on American businesses and consumers.

SEC. 306. POLICY STATEMENT ON TAXES.

(a) **IN GENERAL.**—The policies of this concurrent resolution include the following assumptions:

(1) The Federal tax code is needlessly complex and burdensome, and it tends to discourage economic growth and United States competitiveness.

(2) The policies included in this resolution are aimed at addressing these problems.

(b) **TAXES ON INDIVIDUALS.**—This concurrent resolution would give individuals a choice in paying their Federal income taxes. Individuals can choose to pay their Federal taxes under the existing tax code, with all the familiar deductions and schedules, or they could move to a highly simplified income tax system. This simplified tax system broadens the tax base by cleaning out nearly all the existing tax deductions and credits, compresses the tax schedule down to two low rates and retains a generous standard deduction and exemption level. The tax form for this system could fit on a postcard. Within ten years of enactment of this legislation, individuals would choose one of the two tax systems: the current tax code or the simplified system. Individuals are allowed one additional changeover between the two tax systems over the course of their lifetimes. Individuals are also allowed to change tax systems when a major life event (death, divorce, or marriage) alters their filing status. In contrast to the six rates in the current tax code, the simplified tax has just two rates: 10 percent on adjusted gross

income (AGI) up to \$100,000 for joint filers and \$50,000 for single filers; and 25 percent on taxable income above these amounts. These tax brackets are adjusted by a cost-of-living adjustment as measured by the consumer price index. The simplified code eliminates nearly all existing tax deductions, exclusions, and other special provisions, but it retains a generous base exemption amount for all taxpayers. The standard deduction for joint filers is \$25,000 for joint filers and \$12,500 for single filers. The personal exemption amount is \$3,500. This proposal patches the alternative minimum tax (AMT) at the 2009 level for the foreseeable future in order to prevent millions of middle class Americans from being ensnared by an unfair tax hike. This tax system also maintains the current lower rates on capital gains and dividends for all taxpayers.

(c) TAXES ON CORPORATIONS.—The U.S. corporate income tax rate is the second highest in the industrialized world. The tax leads to lower wages for workers, higher prices for consumers, and it also discourages foreign investment in the U.S. This concurrent resolution assumes policies that address these problems by lowering the U.S. corporate tax rate from 35 percent to 25 percent, pushing it into the more competitive range among industrialized countries. In conjunction with this move, the resolution repeals the tax deduction for U.S. production activities (section 199), as companies receiving this benefit will now be taxed at the lower 25-percent rate. It also temporarily suspends the tax on capital gains for the rest of 2009 and 2010. These policies are designed to keep overall Federal tax revenues at approximately 18.3 percent of GDP for the foreseeable future, roughly equivalent to the long-term historical average.

TITLE IV—SHORT-TERM BUDGET ENFORCEMENT

SEC. 401. RESTRICTIONS ON ADVANCE APPROPRIATIONS.

(a) IN GENERAL.—(1) In the House, except as provided in subsection (b), an advance appropriation may not be reported in a bill or joint resolution making a general appropriation or continuing appropriation, and may not be in order as an amendment thereto.

(2) Managers on the part of the House may not agree to a Senate amendment that would violate paragraph (1) unless specific authority to agree to the amendment first is given by the House by a separate vote with respect thereto.

(b) ADVANCE APPROPRIATION.—In the House, an advance appropriation may be provided for the fiscal years 2011 and 2012 for programs, projects, activities, or accounts identified in the joint explanatory statement of managers accompanying this resolution under the heading “Accounts Identified for Advance Appropriations” in an aggregate amount not to exceed \$23,565,000,000 in new budget authority in each year.

(c) DEFINITION.—In this section, the term “advance appropriation” means any new budget authority provided in a bill or joint resolution making general appropriations or any new budget authority provided in a bill or joint resolution making continuing appropriations for fiscal year 2010 that first becomes available for any fiscal year after 2010.

SEC. 402. ROLL CALL VOTE REQUIRED ON INCREASING THE DEBT LIMIT.

With respect to the adoption by the Congress of a concurrent resolution on the budget for fiscal year 2010, the clerk of the House shall not prepare an engrossment of a joint resolution increasing or decreasing, as the case may be, the statutory limit on the public debt.

SEC. 403. BUDGET COMPLIANCE STATEMENTS.

Each report of a committee on a public bill or public joint resolution shall contain a budget compliance statement prepared by the chairman of the Committee on the Budget, if timely submitted prior to the filing of the report, which shall include assessment by such chairman as to whether the bill or joint resolution complies with the requirements of sections 302, 303, 306, 311, and 401 of the Congressional Budget Act of 1974.
