

Office of Inspector General
U.S. House of Representatives
Washington, DC 20515-9990

MEMORANDUM

TO: The Honorable Bob Ney, Chairman
Committee on House Administration

The Honorable John B. Larson, Ranking Minority Member
Committee on House Administration

FROM: 
Steven A. McNamara
Inspector General

DATE: November 3, 2003

SUBJECT: Final Report - Audit Of The Financial Statements For The Year Ended
December 31, 2002 (Report No. 03-HOC-05)

The attached report presents the results of the audit of the U.S. House of Representatives' (House) annual financial statements for the year ended December 31, 2002. The Office of Inspector General contracted with Cotton & Company LLP, Certified Public Accountants, to perform the audit.

The report includes the *Independent Auditor's Report*, which encompasses Cotton & Company LLP's opinion on the *Financial Statements*; the *Independent Auditor's Report on Compliance with Laws and Regulations*; and the *Independent Auditor's Report on Internal Control*. Also included are the House's *Financial Statements*, *Notes to the Financial Statements*, *Supplemental Financial Schedules*, *Management Report on Internal Control*, and the Chief Administrative Officer's (CAO) Response to the 2002 Financial Statement Audit Report. We have highlighted the results of the audit in an executive summary included on page i.

The results of the audit were discussed with the Chief Administrative Officer throughout the audit, and the CAO fully concurred with the reported internal control weaknesses and recommendations for corrective action. The CAO response is included in the Management Comments section of the report, page 65.

cc: Speaker of the House
Majority Leader of the House
Minority Leader of the House
Members, Committee on House Administration

EXECUTIVE SUMMARY

Results Of Audit

The House continued to make progress during the past year in improving its financial management and operations. For the fifth year, the independent auditors expressed an “unqualified opinion” on the House’s financial statements, reporting that the financial statements fairly present, in all material respects, the financial position of the House and the results of its operations and cash flows in conformity with generally accepted accounting principles. In addition, the *Independent Auditor’s Report on Compliance with Laws and Regulations* identified no instances of noncompliance.

The *Independent Auditor’s Report on Internal Control* identified three internal control weaknesses—all of which are reportable conditions. Two of the internal control weaknesses were previously reported for the year ended December 31, 2001. The new weakness Cotton & Company LLP identified in this report addressed issues with year-end review procedures.

During calendar year 2002, the House implemented or initiated corrective actions to address the 18 prior audit recommendations contained in last year’s report. Due to the House’s progress towards improving financial-related activities, we were able to close 15 of the 18 prior recommendations that were fully implemented or otherwise resolved. The three remaining recommendations are associated with payroll and House Information Resources continuity of operations.

Recommendations

The *Independent Auditor’s Report on Internal Control* contains the two remaining internal control weaknesses and one new internal control weakness. This report contains 11 recommendations consisting of 3 prior recommendations, for which corrective actions are in varying stages of implementation, and 8 new recommendations.

Management Response

The CAO responded to the draft *Independent Auditor’s Report on Internal Control* on September 14, 2003. In his response, which is included in its entirety as an appendix to this report, the CAO fully concurred with the reported internal control weaknesses and recommendations for corrective action.

INDEPENDENT AUDITOR'S REPORT

To the Inspector General
U.S. House of Representatives

Cotton & Company LLP has audited the accompanying Consolidated Statements of Financial Position of the U.S. House of Representatives as of December 31, 2002, and 2001, and the related Consolidated Statements of Operations and Cash Flows for the years then ended. These financial statements are the responsibility of the Members and administrative management of the House. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the House as of December 31, 2002, and 2001, and results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. Supplemental schedules are presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of individual entities within the House. Supplemental schedules have been subjected to auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, such information is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued reports dated June 3, 2003, on our consideration of the House's internal control and its compliance with applicable laws, rules,

and regulations. Our reports on internal control and compliance are an integral part of an audit conducted in accordance with *Government Auditing Standards* and, in considering the audit results, those reports should be read together with this report.

Notes to the Financial Statements

NOTE 1 - DESCRIPTION OF THE REPORTING ENTITY

The U.S. House of Representatives (House) is one of two separate legislative chambers that comprise the Congress of the United States. The other is the U.S. Senate (Senate). All lawmaking powers of the Federal government are given to the Congress under Article I of the Constitution of the United States. The House and Senate jointly agree on a budget for the Legislative Branch and submit it to the President of the United States. The Members of the House serve two-year terms of office, which coincide with the sequential numbering of the entire Congress. These financial statements cover the years ended December 31, 2002 and 2001 and reflect the financial activities of the first and second sessions of the 107th Congress.

To help carry out its constitutional duties, the House creates committees of Members and assigns them responsibility for gathering information, identifying policy problems, proposing solutions, and reporting bills to the full chamber for consideration. The House appoints unelected officers to administer both legislative and non-legislative functions, which support the institution and its Members in carrying out its legislative duties. The consolidated comparative financial statements of the House provide financial information on the activities of all entities, which are subject to the authority vested in the House by the U.S. Constitution, public laws, and rules and regulations adopted by the membership of the House.

These financial statements reflect the organizational structure of the House under the 107th Congress. The following is a summary of the entity groupings as they appear in the calendar year 2002 combining financial statements:

House **Members** are elected from congressional districts of approximately equal population. The financial information in the Members column aggregates the accounts and financial transactions of the Members' district and Washington, D.C. offices, and includes 435 Representatives; four Delegates, one each, from the District of Columbia, Guam, Virgin Islands, and American Samoa; and one Resident Commissioner from Puerto Rico. Member transactions primarily comprise expenses for employee and Member salaries, district office space rental, travel, telecommunications, and postage costs, including Franking costs.

The **Committees** column aggregates accounts and financial transactions of the Standing Committees, Special and Select, of the 107th Congress. Committees are organized at the beginning of each Congress according to their jurisdictional boundaries incorporated in the Rules of the House. The Standing Committees, Special and Select, of the House under the 107th Congress are:

- Committee on Agriculture
- Committee on Appropriations
- Committee on Armed Services
- Committee on the Budget
- Committee on Education and the Workforce
- Committee on Energy and Commerce
- Committee on Financial Services
- Committee on Government Reform
- Committee on House Administration
- Committee on International Relations
- Committee on the Judiciary
- Committee on Resources
- Committee on Rules
- Committee on Science
- Committee on Small Business
- Committee on Standards of Official Conduct
- Committee on Transportation and Infrastructure
- Committee on Veterans' Affairs
- Committee on Ways and Means
- Permanent Select Committee on Intelligence

The House **Leadership Offices** column includes the financial transactions of :

- Speaker of the House
- Majority and Minority Leaders
- Majority and Minority Whips
- Chief Deputy Majority and Minority Whips
- Speaker's Office for Legislative Floor Activities
- Party Steering Committees, Caucus or Conference, which consist of Representatives of the same political party

The **Officers and Legislative Offices** column aggregates the financial transactions of all legislative support and administrative functions provided to Members, Committees, and Leadership offices, including:

- Chaplain
- Chief Administrative Officer
- Clerk of the House
- Corrections Calendar Office
- Office of the General Counsel
- Office of Inspector General
- Office of the Law Revision Counsel
- Office of the Legislative Counsel
- Parliamentarian
- Sergeant at Arms

The **Joint Functions** column includes joint activities of the House and the Senate to the extent

that the House funds these functions in whole or in part.

House administrative management does not exert direct control over the expenditures of these functions. The joint functions in these statements include:

- Attending Physician
- Joint Committee on Taxation, which has members from both the House and the Senate

The **Eliminations** column on the combining financial statements is used to negate the effect of financial transactions between House entities. Consolidated House financial information would be misleading if inter-entity transactions were not eliminated.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Consolidation

The financial statements include the accounts and significant activities of the House. The consolidated financial statements do not include legislative agencies that support the House and that receive separate appropriations. These agencies include:

- Library of Congress
- Congressional Budget Office
- General Accounting Office
- Government Printing Office
- U.S. Botanic Garden
- Architect of the Capitol
- U.S. Capitol Police

Functions jointly shared between the House and the Senate are included in the combining financial statements to the extent their operations are funded by House appropriations. These consist of :

- Attending Physician
- Joint Committee on Taxation, which has members from both the House and the Senate

All significant interoffice balances and transactions have been eliminated to arrive at consolidated financial information.

B. Basis of Accounting

The House, in accordance with generally accepted

accounting principles, utilizes the accrual basis of accounting, which provides for the recognition of events as they occur, as opposed to when cash is received or disbursed. Therefore, revenues are recorded when earned and expenses are recorded when a liability is incurred, without regard to receipt or payment of cash. The accrual basis of accounting contributes significantly to the development of accurate cost information needed to report the financial position and results of operations.

C. Fund Balance with the U.S. Treasury and Cash

Funds available to the House to pay current liabilities and finance authorized purchases are held with the U.S. Treasury.

?? Fund Balance with the U.S. Treasury includes House accounts, as well as the Congressional Use of Foreign Currency account, which is held at the U.S. Treasury and is maintained and administered by the Department of State on behalf of the House.

?? For purposes of the Consolidated Statement of Cash Flows, funds held with the U.S. Treasury are considered cash.

D. Accounts Receivable

Accounts receivable consists of money owed the House by Federal agencies, Members, employees and/or vendors, less an Allowance for Doubtful Accounts.

E. Advances and Prepayments

Advances consist of payments to Federal government entities for contractual services and for mailings that require address corrections or additional postage. Prepayments primarily consist of prepaid subscriptions for publications and data communication services.

F. Inventory

The *Gift Shop* and the *Supply Store* maintain an inventory of goods for sale. These entities are included in the Officers and Legislative Offices column of the supplemental financial schedules. Inventories for sale are valued at the moving weighted average method.

The *Furniture Resource Center*, also included in the Officers and Legislative Offices column, maintains inventories of such items as hardwood, carpet, leather, fabric, furniture components, and repair materials. These items are not for sale and are reflected in the financial statements at an estimated value based on the first in/first out inventory valuation method.

G. Property and Equipment

Property and equipment including computer purchases are capitalized if the unit acquisition cost is equal to or greater than \$25,000 and the item has a useful life greater than one year. Software is capitalized if the unit acquisition cost is equal to or greater than \$10,000 and the item has a useful life greater than one year. The costs of such items are recognized as assets when acquired. An appropriate portion of an asset's value is reduced and an expense recognized over the accounting periods benefited by the asset's use. See Note 7, Property and Equipment, for additional information on property and equipment held by the House.

The House has possession of numerous assets that may be of significant historical and artistic value. The House does not include these assets in the financial statements. The land and buildings occupied and used by Members, officers, and employees in Washington, D.C. are under the custody of the Architect of the Capitol and are not included in the financial statements of the House.

H. Leases

The House leases office space, vehicles, computers and other equipment. These leases are generally classified as operating leases. House regulations require that leases entered into by Members for space and vehicles be no longer than the elected term of the Member. The House also enters into leases, which

are structured such that their terms effectively finance the purchase of the item. Such leases convey the benefits and risks of ownership and are classified as capital leases, if the net present value of the minimum lease payments due at lease inception meets House capitalization criteria. Items acquired by capital leases are recorded as House assets. The asset and corresponding liability are recorded at the net present value of the minimum lease payments at lease inception. The portion of capital lease payments representing imputed interest is expensed as interest on capital leases. See Note 8, Lease Commitments, for additional lease information.

I. Revenue from Operations

Revenue is recognized when goods have been delivered or services rendered.

- ?? Sales of goods consist of *Gift Shop* and *Supply Store* sales.
- ?? Sales of services to the public are comprised of photography sales, Child Care fees, and Attending Physician fees.
- ?? Interoffice sales between House entities consist of computer services, telecommunications, office supplies, framing, recording, office equipment, photography, and tape duplication charges and are eliminated on the combining financial statements.
- ?? Other revenue consists of Page School room and board, and vendor commissions.

J. Appropriations to Cover Expenses, Appropriations Receivable, and Appropriations Payable

Like other Federal government organizations, the House finances most of its operations with appropriations. The expenses of Members, Committees, and Leadership offices are entirely financed with appropriations. Other House entities require appropriations to the extent the revenue generated does not cover expenses. Appropriations are considered a financing source, not a revenue, since appropriations do not result from an earnings process.

K. Postage and Delivery

Postage and delivery consists of franked mail expenses and miscellaneous postage expenses. Members' postage includes the use of the Frank, which is charged to the Members' Representational Allowances. Miscellaneous postage expenses include courier charges, stamps, and rental of post office boxes.

L. Repairs and Maintenance

Repairs and maintenance include all expenses related to the maintenance and upkeep of House equipment in both Washington, D.C. and in Members' district offices, as well as related operating lease payments on various types of equipment. In addition, property and equipment purchases below the capitalization thresholds discussed in Note 2G, Property and Equipment, are classified as repairs and maintenance.

M. Depreciation and Amortization

The cost of capital assets is allocated ratably over an asset's useful life as depreciation or amortization expense. The House calculates depreciation and amortization expense based on the straight-line method over an asset's estimated useful life. Depreciation expense is applicable to tangible assets such as furniture, equipment, and vehicles. Amortization expense is applicable to intangible assets such as software and capital leases. Assets acquired under capital leases are generally amortized over the lease term. However, if a lease agreement contains a bargain purchase option or otherwise transfers title of the asset to the House, the asset is amortized on the same basis as similar categories of owned assets.

N. Rent, Utilities, and Communications

Rent and utilities consist primarily of the rental of district offices by Members and any related utility payments. Communications costs consist of charges for news wire services, satellite fees, and external network access services.

O. Telecommunications

Telecommunications expense includes local and long distance telephone service in Washington, D.C. and in Members' district offices.

P. Supplies and Materials

Supplies and materials are expenses by Members, Committees, and other House offices for paper and other office supplies. Supplies and materials also include medical supplies purchased by the Attending Physician. Supplies and materials do not include inventories held for sale by retail entities such as the *Gift Shop* and the *Supply Store*.

Q. Travel and Transportation

Travel and transportation expenses include official travel by Members, Committees, and Leadership offices; travel by other House officers and employees and congressional delegations; freight and shipping costs; and expenses related to the lease and maintenance of vehicles.

R. Contract, Consulting, and Other Services

Contract, consulting, and other services include the cost of management services in House Postal Operations, annual audit fees, the cost of studies and analyses requested by Committees, as well as computer, recording, janitorial, and catering services.

S. Printing and Reproduction

This category primarily includes printing and reproduction of constituent communications. Also included are photography services, and printing and reproduction of items such as informational publications and reference materials.

T. Subscriptions and Publications

Subscriptions and publications include the cost of periodicals and news services.

U. Cost of Goods Sold

Cost of goods sold includes the cost of products sold in the retail operations of the *Gift Shop* and the *Supply Store*, and the cost of services provided to federal and non-federal entities, such as the House postal facility.

V. Loss or Gain on Disposal of Assets

A loss is recognized when the net book value of the asset at the time of disposal exceeds any proceeds received. A gain is recognized when the net book value of the asset at the time of disposal is less than any proceeds received.

W. Annual Leave

Annual leave for the House Officers and their employees is accrued as earned, and the liability is reduced as leave is taken. The accrued annual leave balance as of December 31, 2002 is calculated according to Public Law 104-53, November 19, 1995, 109 Stat. 514. See Note 10, Accrued Payroll and Benefits and Leave, for additional information.

X. Federal Employee and Veterans Benefits

This benefit expense includes the current cost of providing future pension benefits to eligible employees at the time the employees' services are rendered. Also included is the current period expense for the future cost of providing retirement benefits and life insurance to House employees. See Note 15, Benefits, for additional information.

Y. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, as well as the disclosure of contingent assets and liabilities at the date of the financial statements, and

the amount of revenue and expense reported during the period. Actual results could differ from those estimates.

Z. Adjustments

Several minor adjustments have been made to the amounts reported in the House's 2001 financial statements. These adjustments reflect

reclassifications of cash flows on the Statement of Cash Flows and more accurate information obtained on the cash disbursements to other agencies reported in Note 3. Although immaterial to the financial statements taken as a whole, these changes were desirable for a more accurate presentation of the 2002 amounts

NOTE 3 - INTRA GOVERNMENTAL FINANCIAL ACTIVITIES

The House has significant intra governmental financial activities with Executive and Legislative Branch entities. These financial activities include transactions and agreements to purchase goods and services.

Transactions with Executive Branch Agencies

The House's most significant interagency transactions are with the:

- ?? U.S. Postal Service for postage.
- ?? U.S. Army Corps of Engineers for Services provided for House technical support.
- ?? U.S. Department of Labor (DOL) for unemployment and workers' compensation.
- ?? General Services Administration for the use and upkeep of office space in certain Members' district offices, office supplies, and leased vehicles.
- ?? U.S. Department of the Interior, U.S. Geological Survey, National Business Center for financial system contract and consulting services.
- ?? U.S. Department of Transportation for transit benefits program.
- ?? Other Executive Branch agencies for special studies as requested by House Committees.

Significant cash disbursements to Executive Branch agencies during the years ended December 31, 2002 and 2001 were approximately:

Cash Disbursements to Executive Branch Agencies	2002	2001
U.S. Postal Service	\$ 25,224,000	\$ 16,410,000
U.S. Department of Labor	2,051,000	2,605,000
General Services Administration	5,274,000	5,645,000
U.S. Department of the Interior	49,000	1,147,000
U.S. Army Corps of Engineers	251,000	-
U.S. Department of Transportation	759,000	256,000
Other Executive Branch Agencies	209,000	138,000

The House also reports significant financial transactions with the U.S. Department of State, which maintains and administers the Congressional Use of Foreign Currency account on behalf of Congress. This account, which was established in 1948 and made permanent in 1981, is authorized by legislation codified in Title 22, Sec. 1754 of the United States Code. The funds are available to Congressional Committees and delegations to cover local currency expenses incurred while traveling abroad. The fund balance related to the account is included in the Office of Finance's Fund Balance with U.S. Treasury under Officers and Legislative Offices.

Use of the foreign currency account for Congressional delegations and other official foreign travel of the House is authorized by either the Speaker of the House or the chairman of a Standing, Special and Select, or Joint Committee. Therefore, all foreign currency account financial activity is reported as Committee and Leadership office travel expense.

Foreign Currency Balance with the U.S. Department of State	2002	2001
Beginning Balance	\$ 8,023,281	\$ 3,482,874
Appropriation Received	4,300,000	8,600,000
Travel Expenses:		
Leadership	(931,305)	(628,184)
Committees	(4,231,917)	(3,431,409)
Ending Balance	\$ 7,160,059	\$ 8,023,281

Transactions with Legislative Branch Entities

The House pays for support services provided by other Legislative Branch entities. Some of these services are shared with the Senate. These entities receive their own appropriations and operate autonomously from the House's administrative functions. The House also receives support services from the General Accounting Office, Government Printing Office, Library of Congress, Congressional Budget Office, and U.S. Botanic Gardens.

Significant cash disbursements to Legislative Branch entities during the years ended December 31, 2002 and 2001 were approximately:

Cash Disbursements to Legislative Branch Entities	2002	2001
Library of Congress	\$ 12,000	\$ 5,000
General Accounting Office	277,000	25,000
Architect of the Capitol	297,000	289,000
Government Printing Office	146,000	257,000

The House also receives payments for services provided to the Congressional Budget Office and for

the reimbursement of services shared with other Federal government entities. In 2002, the House shared services with the Library of Congress and the United States Senate. Receipts from the Legislative Branch entities were approximately \$9,462,000. The following were the most significant:

Cash Receipts from Legislative Branch Entities	2002	2001
Library of Congress	\$ 8,204,000	\$ -
United States Senate	1,127,000	-
Congressional Budget Office	105,000	589,000

NOTE 4 - FUND BALANCE WITH THE U.S. TREASURY AND CASH

The House has appropriated and revolving fund balances with the U.S. Treasury. The balances, as of December 31, 2002 and 2001 were:

Fund/Cash Accounts Maintained by the House	2002	2001
Fund Balance with Treasury/Cash	\$ 314,616,724	\$ 880,641,255
Congressional Use of Foreign Currency	7,160,059	8,023,281
Total	\$ 321,776,783	\$ 888,664,536

The Fund Balance with Treasury in 2002 was lower than the Fund Balance with Treasury in 2001 because

the budget for fiscal year 2003 was on a Continuing Resolution as of December 31, 2002. Therefore, the House operated based on the previous year's budget, on a prorated basis, since October 1, 2002, and did not receive full funding until 2003.

Cash on Hand represents deposits in transit and amounts held in a commercial bank account as of December 31, 2002 with a balance of \$1,829.

NOTE 5 - ACCOUNTS RECEIVABLE

Account Receivable balances represent amounts owed the House by Federal agencies, Members, employees, and/or vendors less an allowance for doubtful accounts. The allowance for doubtful accounts was derived from the receivables amount owed to the House for more than one year. The significant increase in Accounts Receivable is due to the amounts owed to the House by the Library of

Congress and the United States Senate for the reimbursement of shared services as of December 31, 2002.

Accounts Receivable	2002	2001
Accounts Receivable	\$ 2,331,683	\$ 383,583
Less: Allowance for Doubtful Accounts	(48,260)	-
Accounts Receivable, Net	\$ 2,283,423	\$ 383,583

NOTE 6 - ADVANCES AND PREPAYMENTS

Advances and prepayments are transfers of cash to cover future expenses or the acquisition of assets. These goods and/or services are delivered in increments that span several months. Advance payments are recorded as assets. As the goods and/or services are rendered, the Advance account is drawn down and the appropriate asset or expense is recognized. Prepayments are made for subscriptions and software licenses and are charged as expenses. At year end, all such payments made for the previous,

current, and succeeding years are analyzed to determine the proper expense and prepayment amounts applicable to the current accounting period for financial statement purposes. Advances and Prepayments are:

	2002	2001
Advances	\$ 484,363	\$ 1,005,366
Prepayments	3,279,537	2,901,032
Total	\$ 3,763,900	\$ 3,906,398

NOTE 7 - PROPERTY AND EQUIPMENT

Software and equipment, including computers, are capitalized if their acquisition cost equals or exceeds \$10,000 and \$25,000, respectively. Work in process consists of capitalized costs associated with assets received, but not placed in service as of December 31, 2002. Depreciation and amortization expense is based on the straight-line method over an asset's estimated useful life. Property and equipment as of December 31, 2002 and the related depreciation and amortization expense are:

2002 Classes of Property and Equipment	Service Life (Years)	Estimated Acquisition Value	Accumulated Amortization/ Depreciation	Estimated Net Book Value	Amortization/ Depreciation Expense
Work in Process	N/A	\$ 6,799,719	\$ -	\$ 6,799,719	\$ -
Computer Software, Hardware, and Vehicles	3	58,960,435	43,247,307	15,713,128	7,475,757
Computer Software and Hardware	5	2,172,581	2,172,581	-	-
Equipment and Motor Vehicles	5	29,139,566	18,779,210	10,360,356	3,317,464
Furnishings and Other Equipment	10	2,887,176	2,471,433	415,743	125,249
Assets Under Capital Lease	10	2,170,207	217,020	1,953,187	217,021
Leasehold Improvements	10	6,609,753	289,647	6,320,106	289,647
Total		<u>\$ 108,739,437</u>	<u>\$ 67,177,198</u>	<u>\$ 41,562,239</u>	<u>\$ 11,425,138</u>

Property and equipment as of December 31, 2001 and the related depreciation and amortization expense are:

2001 Classes of Property and Equipment	Service Life (Years)	Estimated Acquisition Value	Accumulated Amortization/ Depreciation	Estimated Net Book Value	Amortization/ Depreciation Expense
Work in Process	N/A	\$ 4,599,105	\$ -	\$ 4,599,105	\$ -
Computer Software, Hardware, and Vehicles	3	55,635,348	47,385,709	8,249,639	4,741,171
Computer Software and Hardware	5	2,172,581	2,172,581	-	-
Equipment and Motor Vehicles	5	31,128,816	23,738,080	7,390,736	3,625,371
Furnishings and Other Equipment	10	2,918,966	2,355,509	563,457	135,184
Assets Under Capital Lease	5	-	-	-	65,231
Leasehold Improvements	10	-	-	-	-
Total		<u>\$ 96,454,816</u>	<u>\$ 75,651,879</u>	<u>\$ 20,802,937</u>	<u>\$ 8,566,957</u>

NOTE 8 - LEASE COMMITMENTS**Capital Leases**

The House enters into leases, which are structured such that their terms effectively finance the purchase of the item. Such leases convey the benefits and risks of ownership and are classified as capital leases, if the net present value of the future minimum lease payments due at lease inception meets House capitalization criteria. Items acquired by capital leases are recorded as House assets. The asset and

corresponding liability are recorded at the net present value of the future minimum lease payments due at lease inception. Assets under capital leases consist solely of building structures.

Future Capital Lease Payments Due as of December 31, 2002:

Year	
2003	\$ 283,788
2004	283,788
2005	283,788
2006	283,788
2007	283,788
Thereafter	1,135,152
Total Future Capital Lease Payments	\$2,554,092
Less: Imputed Interest	(667,673)
Total Capital Lease Liabilities	\$1,886,419
Unfunded Liability	\$1,886,419

Operating Leases

The House enters into various operating leases for temporary usage of office space, vehicles, hardware, and software. Leases that convey the benefits and risks of ownership, but do not meet House capitalization criteria are also recognized as operating leases. Operating lease payments are recorded as expenses. Future operating lease payments are not accrued as liabilities. Members may lease office space in their districts through GSA or may directly lease space from the private sector. The Members' Congressional Handbook states that a Member cannot enter into a lease for office space beyond his/her elected term. Members and officers also enter into leases to rent vehicles for official business

purposes. A Member may lease a vehicle for a period that exceeds the current congressional term, but the Member remains personally responsible for the lease liability if service to the House concludes prior to lease termination. House administration leases hardware and software.

Future Operating Lease Payments Due as of December 31, 2002:

Year	Software and Hardware	Vehicles	Office Space	Total
2003	\$ 29,408	\$ 510,940	\$ 17,660,420	\$ 18,200,768
2004	-	331,769	17,475,712	17,807,481
2005	-	-	-	-
2006				
2007	-	-	-	-
Thereafter	-	-	-	-
Total	\$ 29,408	\$ 842,709	\$ 35,136,132	\$ 36,008,249

Lease expense for office space was \$18,848,893 and \$18,732,818 for the years ended December 31, 2002 and 2001, respectively. Lease expense for vehicles was \$1,096,252 and \$1,139,665 for the years ended December 31, 2002 and 2001, respectively.

NOTE 9 - ACCOUNTS PAYABLE

Accounts Payable balances represent amounts owed for the cost of goods and services received but not yet paid as of December 31, 2002 and 2001. Accounts Payable also includes amounts owed to DOL for unemployment compensation. Vendor Payables during 2001 was substantially higher due to delayed mail deliveries to House offices.

Accounts Payable	2002	2001
Vendor Payables	\$ 18,416,415	\$ 22,583,169
Unemployment Compensation	131,992	187,363
Total	\$ 18,548,407	\$ 22,770,532

NOTE 10 - ACCRUED PAYROLL AND BENEFITS AND LEAVE

The accrued annual leave balances are calculated according to Public Law 104-53, November 19, 1995, 109 Stat. 514 (i.e., the lesser of the employee's monthly pay or the monthly pay divided by 30 days and multiplied by the number of days of accrued leave). Sick and other types of paid leave are expensed as they are taken. Accrued payroll and benefits include salaries and associated benefits earned in December 2002 and payable in January 2003.

such leave. Leadership offices have also adopted similar policies. While leave is tracked from one pay period to the next, a consistent policy has not been formally adopted by these entities regarding the accrual and payment of leave time. Therefore, an accrued leave liability for Members, Committees, and Leadership offices is estimated on the financial statements. Estimates were not calculated in prior years for Members, Committees and Leadership offices. As a result, the 2002 liability is significantly higher than 2001 liability. Accrued annual leave and accrued payroll and benefits as of December 31, 2002 and 2001 were:

The Members' and Committees' Congressional Handbooks allow offices to adopt personnel policies that provide for the accrual of annual leave and use of

Accrued Leave, Payroll and Benefits, and Workers' Compensation	2002	2001
Funded		
Accrued Payroll and Benefits	\$ 7,118,755	\$ 6,882,011
Unfunded		
Accrued Annual Leave	5,181,695	2,465,032
Accrued Workers' Compensation	2,024,661	1,995,201
Total Unfunded	<u>\$ 7,206,356</u>	<u>\$ 4,460,233</u>

NOTE 11 - UNFUNDED WORKERS' COMPENSATION ACTUARIAL LIABILITY

The Federal Employees' Compensation Act (FECA) provides income and medical cost protection to covered Federal civilian employees injured on the job, employees who have incurred a work-related occupational disease, and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease. Claims incurred for the benefit of House employees under FECA are administered by DOL, which pays the initial claim and obtains reimbursement from the House. The unfunded workers' compensation actuarial liability is an estimate based on actuarial calculations using historical payment patterns to predict what costs will

be incurred in the future. The liability is adjusted annually by applying actuarial procedures. Any upward or downward adjustment to the liability is recorded as an annual increase or decrease to benefits expense. In 2002, the actuarial liability was calculated by DOL using different actuarial assumptions such as life expectancy, age of employee or survivor, and claims incurred but not reported, that caused the significant variance between 2002 and 2001. The projected Unfunded Workers' Compensation Actuarial Liabilities were \$17,468,342 and \$11,458,591 as of December 31, 2002 and 2001, respectively.

NOTE 12 - NET POSITION

The components of Net Position are:

?? Unexpended Appropriations - Appropriations are not considered expended until goods have been received or services have been rendered.

?? Total Cumulative Results of Operations:

Cumulative Results of Operations - The net difference between expenses and revenue and financing sources including appropriations, revenues from operations and imputed financing sources.

Invested Capital - Funds used to finance capital assets such as computer hardware and software, vehicles, equipment, and inventory.

Future Funding Requirements - Known liabilities to be funded by future appropriations for accrued Annual Leave and Workers' Compensation.

The House operated on a Continuing Resolution in October, November and December 2002, thereby resulting in the significant difference in the Fund Balance between calendar years 2002 and 2001.

Unexpended appropriations cancel at the end of the second fiscal year following the year in which appropriated. As required by law, these funds must be returned to the U.S. Treasury general account. Funds that were canceled and returned to the U.S. Treasury during calendar years 2002 and 2001 are:

Appropriations	2002	2001
2000 House Funds	\$ 6,347,524	\$ -
1999 House Funds	-	15,283,061
Total	<u>\$ 6,347,524</u>	<u>\$ 15,283,061</u>

Net Position as of December 31, 2002 and 2001 for Appropriated Funds and Revolving Funds, including the House Recording Studio, Page School, Restaurant, Barber and Beauty Shops, and Office Supply Service revolving funds is shown in the following table:

Net Position	Net Position December 31, 2002 Totals		Net Position December 31, 2001 Totals	
Unexpended Appropriations		\$ 296,177,991		\$855,036,339
Cumulative Results of Operations:				
Cumulative Results of Operations	5,921,604		8,253,205	
Invested Capital	41,304,966		21,902,842	
Future Funding Requirements	(24,674,698)		(15,918,824)	
Total Cumulative Results of Operations		<u>22,551,872</u>		<u>14,237,223</u>
Total Net Position		<u>\$ 318,729,863</u>		<u>\$869,273,562</u>

Changes in net position may include prior period adjustments, excesses or shortages of revenue and financing sources over expenses, and non-operating changes, such as investments in capital assets and inventory. Increases (or decreases) in non-operating changes are primarily the result of the decrease in unexpended appropriations which was caused by the continuing resolution. The increase in Total

Cumulative Results of Operations is primarily the result of purchases of Property, Plant and Equipment.

The Net Position table above reflects an additional cumulative results of operations line which further disaggregates activity other than invested capital or future funding requirements.

NOTE 13 - REVOLVING FUNDS, INTEROFFICE SALES, AND TRANSFERS

Some House entities transfer costs to Members, Committees, and other House offices for goods and services provided. These entities are primarily:

- ?? House Support Services, which transfers costs of equipment to the Members and Committees,
- ?? House Information Resources, which transfers telecommunication charges, and
- ?? Office Supply Service, which transfers office supply purchases and flag sales.

Many expenses incurred by these House entities are not fully charged to Members or Committees,

including certain telecommunication services, Washington D.C. office furnishings, and computer services.

Some House business-like entities operate as revolving funds. A revolving fund is a budgetary structure established by statute that authorizes Federal entities to collect user fees or revenue to finance operating expenses. In 2002, the House operated revolving fund type activities for the House Recording Studio, Page School, Office Supply Service, Restaurant, and Beauty and Barber Shops.

NOTE 14 - APPROPRIATIONS TO COVER EXPENSES

Appropriations Received include current and prior year funds necessary to finance House operating expenses such as personnel and benefits costs, contract services, and travel expenses. The House recognizes appropriations to cover expenses in the same period in which the associated expense is incurred. Appropriations to cover investments in

capital assets and inventory are recognized in the same period in which they are received.

Appropriations Yet To Be Received consist of expenses that are incurred in the current period, but will be funded by future appropriations. Such amounts include accrued annual leave and workers' compensation expenses.

NOTE 15 - BENEFITS

House Members and employees are covered by either the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS). Both

Members and employees are eligible for retirement benefits under CSRS or FERS. A CSRS basic annuity, unreduced for age, debts to the fund, or

survivor's benefits, is calculated by multiplying the highest 3 consecutive years' average salary by a percentage factor which is based on the length of Federal service. However, Members' benefits are different from those of employees. For example, a Member covered by CSRS is eligible to receive unreduced retirement benefits at age 60 if he or she has 10 years of Member service. An employee is eligible to receive reduced benefits at age 50 with 20 years of service or at any age with 25 years of service. The FERS basic benefit plan provides the same benefits for either Members or employees.

CSRS employees contribute a portion of their earnings to the Civil Service Retirement Fund. The House also contributes an amount to this fund. FERS employees, in addition to paying Social Security, contribute a portion of their base earnings to the FERS retirement fund. The House also contributes an amount toward the FERS retirement and Social Security funds.

Both FERS and CSRS employees can contribute to the Thrift Savings Plan (TSP). Effective July 2001, both FERS and CSRS employees' TSP contribution limits increase by one percent each year for five years to a maximum of 15% and 10% of the base pay of FERS and CSRS employees respectively, but not to exceed the IRS limit.

FERS employees also receive an automatic one percent House-paid contribution, as well as an additional House matching TSP contribution up to five percent of their basic pay. CSRS employee contributions to TSP do not receive matching House contributions. FERS employees could receive benefits from FERS, the Social Security System, and TSP. CSRS employees could receive benefits from CSRS and TSP.

Member and Employee Expenses	2002	2001
Retirement Plan Contributions	\$ 102,871,287	\$ 93,836,444
Social Security	37,187,573	34,717,139
Health Insurance	29,474,627	25,216,409
Unemployment and Workers' Compensation	1,491,296	2,166,767
Workers' Compensation Actuarial Adjustment	6,009,751	1,078,848
Life Insurance	900,136	900,327
Federal Employee and Veterans' Benefits	40,195,515	35,669,323
Transit Benefits	770,503	255,435
Death Benefits	771,890	759,271
Annual Leave	2,716,663	155,212
Federal Tort Claims	3,269	4,365
Total	\$ 222,392,510	\$ 194,759,540

Benefits costs for the past 3 years have averaged approximately \$203 million per year.

Federal-employing entities recognize their share of the cost of providing future pension benefits to eligible employees at the time the employees' services are rendered. This cost is included in Federal Employee and Veterans' Benefits expense. The pension expense recognized in the Statement of Operations is the current service cost for House employees less the amount contributed by the employee.

The measurement of the service cost requires the use of actuarial cost methods and assumptions, with the factors applied by the House provided by the Office of Personnel Management (OPM), the federal agency that administers the plan. The excess of the recognized pension expense over the amount contributed by the House represents the amount being financed directly through the Civil Service Retirement and Disability Fund administered by OPM.

The House does not receive an appropriation to fund this expense. Therefore, this portion of the pension expense is considered an imputed financing source to the House, and is included in the Imputed Financing Sources on the Statement of Operations. This amount was \$12,410,254 in 2002 and \$12,654,926 in 2001.

Federal-employing entities also recognize a current period expense for the future cost of post-retirement health benefits and life insurance for its employees while they are still employed. This cost is included in Federal Employee and Veterans' Benefits expense in the Statement of Operations. Employees and the House do not currently make contributions to fund these future benefits, and the House does not receive an appropriation to fund this expense. Therefore, this portion of the post-retirement health benefits and life insurance is considered an imputed financing source to the House, and is included in Imputed Financing Sources on the Statement of Operations. This amount was \$27,785,261 in 2002 and \$23,014,397 in 2001.

Federal Employee and Veterans' Benefits (Imputed Financing Source)	2002	2001
Current Service Cost - Federal Pensions	\$ 12,410,254	\$ 12,654,926
Current Service Cost - Federal Employees Health Benefits	27,697,445	22,932,603
Current Service Cost - Federal Employees Group Life Insurance	87,816	81,794
Total	\$ 40,195,515	\$ 35,669,323

NOTE 16 - EMERGENCY PREPAREDNESS

The House continues to develop contingency plans to ensure the continuation of all House operations in the event of an emergency evacuation.

The House received appropriations of \$13.7 million and \$65.6 million in 2002 and 2001, respectively, to

be used for emergency preparedness and continuity of operations. Approximately \$27.1 million and \$2.7 million were expended in 2002 and 2001, respectively.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH LAWS AND REGULATIONS

To the Inspector General
U.S. House of Representatives

Cotton & Company LLP has audited the Consolidated Statements of Financial Position of the U.S. House of Representatives as of December 31, 2002, and 2001, and the related Consolidated Statements of Operations and Cash Flows for the years then ended. We conducted our audit in accordance with generally accepted auditing standards and with *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance with laws, rules, and regulations is the responsibility of the Members and administrative management of the House. As part of obtaining reasonable assurance about whether the consolidated financial statements are free of material misstatement, we performed tests of House compliance with certain provisions of laws and House rules and regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

Compliance with laws, rules, and regulations for the House is significantly different than for Executive Branch departments and agencies. First, many of the laws that apply to the Executive Branch, such as the Federal Managers' Financial Integrity Act of 1982, the Government Management Reform Act of 1994, and the Chief Financial Officers' Act of 1990, do not apply to the House. Second, Executive Branch departments and agencies are subject to regulations that implement their authorizing statutes and to regulations imposed by other agencies, such as the Office of Management and Budget and Office of Personnel Management; the House is subject to specific laws and its own rules and to regulations contained in its *Members' Congressional Handbook* and *Committees' Congressional Handbook*.

The results of our tests of compliance disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. We limited our tests of compliance to the provisions described in the preceding paragraph and did not test compliance with all applicable laws and regulations. Providing an opinion on compliance with those provisions was not, however, an objective of our audit and, accordingly, we do not express such an opinion.

The sole, official purpose of this report is for informational use by Members of the U.S. House of Representatives, the Office of the Chief Administrative Officer, and the Office of Inspector General. It is not intended to be, and should not be, used by anyone other than these specified parties in an

official capacity. This report is, however, available to the public for informational purposes only.

Independent Auditor's Report on Internal Control

This Page Intentionally Left Blank

333 North Fairfax Street " Suite 401" Alexandria, Virginia 22314 703/836/6701" fax 703/836/0941" www.cottoncpa.com " dcotton@cottoncpa.com

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

To the Inspector General
U.S. House of Representatives

Cotton & Company LLP has examined management's assertion included in the accompanying House of Representatives Management Report on Internal Control. In that report, management asserted that the U.S. House of Representatives maintained effective internal control over financial reporting as of December 31, 2002, based on the *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States. Management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on management's assertion based on our examination.

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) and *Government Auditing Standards*, issued by the Comptroller General of the United States, and, accordingly, obtained an understanding of internal control over financial reporting; tested and evaluated the design and operating effectiveness of internal control; and performed other procedures considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that internal control may become inadequate as the result of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

In our opinion, management's assertion that the House has maintained effective internal control over financial reporting as of December 31, 2002, is fairly stated, in all material respects, based on *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States.

We did note certain matters involving internal control and its operations that we consider reportable conditions under standards issued by AICPA. Reportable conditions are matters coming to our attention relating to significant deficiencies in the design or operation of internal control that, in our judgment, could adversely affect an agency's ability to record, process, summarize, and report financial data consistent with management assertions in the financial statements. These conditions are:

- ?? The staff payroll system is obsolete and needs to be replaced.
- ?? Yearend review procedures can be strengthened.
- ?? Weaknesses over financial information systems reduce the integrity of financial data and reporting.

Material weaknesses are reportable conditions in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements, in an amount that would be material in relation to the financial statement being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We consider none of these reportable conditions to be a material weakness.

Additional details on each of these reportable conditions are attached to this report.

The sole, official purpose for this report is for informational use by Members of the U.S. House of Representatives, Office of the Chief Administrative Officer, and Office of Inspector General. It is not intended to be, and should not be, used by anyone other than these specified parties in an official capacity. This report is, however, available to the public for informational purposes only.

**Management Report on
Internal Control**

The U.S. House of Representatives Management Report on Internal Control

In connection with your examination of our assertion that the U.S. House of Representatives (House) maintained effective internal control over financial reporting as of December 31, 2002, for the purpose of expressing an opinion as to whether the assertion is fairly stated, in all material respects in accordance with standards prescribed by the General Accounting Office in *Standards for Internal Control in the Federal Government*, dated November 1999, we confirm to the best of our knowledge and belief, the following representations made to you during your examination:

- We are responsible for establishing and maintaining effective internal control over financial reporting.
- We have performed an evaluation of the effectiveness of the House's internal control over financial reporting in accordance with standards prescribed by the General Accounting Office in *Standards for Internal Control in the Federal Government*, dated November 1999, the objectives of which include:
 - Effectiveness and efficiency of operations,
 - Reliability of financial reporting, and
 - Compliance with applicable laws and regulations.
- Based on our evaluation, we assert that the House maintained effective internal control over financial reporting as of December 31, 2002, based on the above-specified control criteria.
- We have disclosed to you all significant deficiencies in the design or operation of internal control that could adversely affect the House's ability to record, process, summarize, and report financial data consistent with our assertions in the financial statements.
- We have identified all deficiencies in internal control we believe to be material weaknesses.
- We have not encountered any instances of fraud by either:
 - Management or employees who have significant roles in internal control, or
 - Other employees that could have a material effect on the financial statements.
- Subsequent to the date of our management report, there have been no significant changes to internal control and no other factors have arisen that might significantly affect internal control, including any corrective action taken by the House with regard to significant deficiencies and material weaknesses.
