

CONGRESSMAN JOHN BARROW'S

Grants Assistance Information Newsletter

GEORGIA'S 12TH DISTRICT

April 2011 – Issue 2

Important News for Georgia's 12th District

Barrow Announces Upcoming Events in the District

Congressman John Barrow (GA-12) will be holding several events in the district this week, including Mortgage Workshops that will help folks who are struggling to make payments and keep their homes; an opportunity to speak with students about the importance of saving money; and a series of his recurring Congress on the Corner meetings.

A complete schedule of events appears below. All events are free and open to the public.

Wednesday, April 20

Teach Children to Save

1:00pm - 2:00pm

Sego Middle School

3420 Julia Ave, Augusta

Thursday, April 21

Savannah Mortgage Workshop

3:00pm - 7:00pm

Savannah Civic Center

301 West Oglethorpe Avenue, Savannah

Friday, April 22

Augusta Mortgage Workshop

11:00am - 2:00pm

Glenn Hills High School

2840 Glenn Hills Drive, Augusta

CFDA Number(s):	10.580 -- Supplemental Nutrition Assistance Program, Outreach/Participation Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments

Additional Information on Eligibility:

Agency Name

Food and Nutrition Service

Description

The Food and Nutrition Act of 2008 authorized the Food and Nutrition Service (FNS) to award \$5 million dollars in grants to State agencies*; public health or educational entities; or private nonprofit entities such as community-based or faith-based organizations, food banks, or other emergency feeding organizations, for projects aimed at simplifying the Supplemental Nutrition Assistance Program (SNAP) application and eligibility determination systems or improving access to SNAP benefits by eligible households. The purpose of this grant competition is to support efforts by State agencies and their community-based and faith-based partners to develop and implement simple SNAP application and eligibility determination systems; or measures to improve access to SNAP benefits by eligible applicants.

Additional Information on Eligibility:

Which LEAs are eligible for an award under the SRSA program? An LEA (including a public charter school that is considered an LEA under State law) is eligible for an award under the SRSA program if-- (a) The total

number of students in average daily attendance at all of the schools served by the LEA is fewer than 600, or each county in which a school served by the LEA is located has a total population density of fewer than 10 persons per square mile; and (b) All of the schools served by the LEA are designated with a school locale code of 7 or 8 by the Department's National Center for Education Statistics (NCES), or the Secretary has determined, based on a demonstration by the LEA and concurrence of the State educational agency, that the LEA is located in an area defined as rural by a governmental agency of the State. The school locale codes are the locale codes determined on the basis of the NCES school code methodology in place on the date of enactment of section 6211(b) of the Elementary and Secondary Education Act of 1965, as amended. Which eligible LEAs must submit an application to receive an FY 2011 SRSA grant award? An eligible LEA must submit an application to receive an FY 2011 SRSA grant award if that LEA has never submitted an application for SRSA funds in any prior year. All eligible LEAs that need to submit an application to receive an SRSA grant award in a given year are highlighted in yellow on the SRSA eligibility spreadsheets, which are posted annually on the SRSA program Web site at <http://www2.ed.gov/programs/reapsrsa/eligibility.html>.

Agency Name

Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Under the Small, Rural School Achievement (SRSA) program, the U.S. Department of Education (Department) awards grants on a formula basis to eligible local educational agencies (LEAs) to address the unique needs of rural school districts. In this notice, we establish the deadline for submission of fiscal year (FY) 2011 SRSA grant applications. Catalog of Federal Domestic Assistance (CFDA) Number: 84.358A. An eligible LEA that is required to submit an application to receive FY 2011 SRSA funds must submit an electronic application by June 30, 2011, 4:30:00 p.m., Washington, DC time. If it submits its application after this deadline, the LEA will receive a grant award only to

the extent that funds are available after the Department awards grants to other eligible LEAs under the program. Submission of an electronic application involves the use of the Department's G5 system. You can access the electronic application for the SRSA Program at: <http://www.g5.gov>. When you access this site, you will receive specific instructions regarding the information to include in your application.

Applications: May 31, 2011.
Archive Date: Jun 30, 2011
Funding Instrument Type: Grant
Category of Funding Activity: Education
Category Explanation:
Expected Number of Awards: 12
Estimated Total Program Funding: \$5,000,000
Award Ceiling:
Award Floor:
CFDA Number(s): 84.382 -- Strengthening
Minority-Serving Institutions
Cost Sharing or Matching Requirement: No

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

1. Eligible Applicants: An IHE is eligible to receive funds under this program if it is a Native American-Serving Nontribal Institution (NASNTI). Native American. The term 'Native American' means an individual who is of a tribe, people, or culture that is indigenous to the United States. As part of the application for a grant, applicants will be required to complete and submit a certification assurance form on which the applicant provides their total undergraduate headcount enrollment and certifies that 10 percent of its enrollment is Native American for the purpose of the NASNTI Part F Program. The form must be submitted and signed by an official with the authority to represent the institution. To qualify as an eligible institution under the NASNTI Part F Program, an institution must, among other requirements-- (1) Be accredited or preaccredited by a nationally recognized accrediting agency or association that the Secretary has determined to be a reliable authority as to the quality of education or training offered; and (2) Be legally authorized by the State in which it is located to be a junior college or to provide an educational program for which it awards a bachelor's degree; Relationship between the Title III, Part F Programs. Note 1: A grantee under the NASNTI Part F Program, the Asian American and Native American Pacific Islander-Serving Institutions (AANAPISI), Hispanic Serving Institutions-STEM and Articulation (HSI-STEM), and Predominantly Black Institutions (PBI)

programs authorized by Title III, Part F, section 371 of the HEA, may apply for a FY 2011 grant under all Title III, Part F programs for which it is eligible. However, a successful applicant may receive only one grant. Note 2: The Department will make grant awards in rank order from the funding slates according to the average score received from a panel of three readers.

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The NASNTI Part F Program provides grants and related assistance to Native American-Serving Nontribal Institutions to enable these institutions to improve and expand their capacity to serve Native Americans and low-income individuals by increasing their self-sufficiency in improving academic programs, institutional management, and fiscal stability. To qualify for funds under the NASNTI Program, an institution of higher education (IHE) must; have an enrollment of undergraduate students that is at least 10 percent Native American at the time of application for a grant; and not be a Tribal College or University under section 316 of the HEA. Catalog of Federal Domestic Assistance (CFDA) Number: 84.382C. Applications for grants under the NASNTI Program, CFDA Number 84.382C, must be submitted electronically using the Government-wide Grants.gov Apply site at <http://www.Grants.gov>. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us. You may access the electronic grant application for NASNTI Part F Program at <http://www.Grants.gov>. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.382, not 84.382C).

Modifications

Educational Opportunity Centers CFDA 84.066A
Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	ED-GRANTS-040611-001
Opportunity Category:	Discretionary
Posted Date:	Apr 06, 2011
Creation Date:	Apr 06, 2011
Original Closing Date for Applications:	May 23, 2011 Applications Available: April 6, 2011. Deadline for Transmittal of Applications: May 23, 2011.
Current Closing Date for Applications:	May 23, 2011 Applications Available: April 6, 2011. Deadline for Transmittal of Applications: May 23, 2011.

Archive Date:	Jun 22, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Education
Category Explanation:	
Expected Number of Awards:	124
Estimated Total Program Funding:	\$46,830,000
Award Ceiling:	\$1,172,000
Award Floor:	\$0
CFDA Number(s):	84.066 -- TRIO Educational Opportunity Centers
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible Applicants: Institutions of higher education; public and private agencies and organizations, including community-based organizations with experience in serving disadvantaged youth; combinations of these institutions, agencies, and organizations; and secondary schools.

Agency Name

Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Purpose of Program: The purpose of the EOC Program is to provide information regarding financial and academic assistance available for individuals who desire to pursue a program of postsecondary education; to provide assistance to these individuals in applying for admission to institutions at which a program of postsecondary education is offered, including assistance in preparing necessary applications for use by admissions and financial aid officers;

and to improve the financial and economic literacy of participants. Applications for grants under the EOC Program, CFDA number 84.066A, must be submitted electronically using the governmentwide Grants.gov Apply site at www.Grants.gov. You may access the electronic grant application for the EOC Program at <http://www.Grants.gov>. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.066, not 84.066A). The telephone number for the Grants.gov Helpdesk is 1-800-518-4726 or e-mail: support@grants.gov.

Golden Field Office

Description

The objective of this Funding Opportunity Announcement (FOA) is to significantly reduce the balance of system hardware cost component of Photovoltaic (PV) systems. This FOA directly supports the goals of the Department of Energy's (DOE) Office of Energy Efficiency and Renewable Energy (EERE), Solar Energy Technologies Program (SETP) and the SunShot Initiative, which has a goal to reduce the total cost (including installer margin) of solar energy systems by about 75 percent before the end of the decade. Under this FOA, the DOE SETP program is requesting applications for research, development, and demonstration of new components and system designs or the development of new building code language to overcome scientific, technological, and engineering barriers to achieving safe, very low cost, and high reliability balance of system hardware. While this FOA is meant to mainly address hardware and labor costs and not soft costs, advancements in hardware that may result in lower soft costs (permitting, site preparation, etc.) are encouraged. There will be four topics to which an application may be submitted under this FOA: Topic 1: Transformational Building Integrated Photovoltaic (BIPV) Modules Topic 2: Roof and Ground Mount Innovations Topic 3: Transformational Photovoltaic System Designs Topic 4: Development of New Wind Load Codes for PV Systems The full Funding Opportunity Announcement (FOA) is posted on the EERE eXCHANGE website at <http://eere.energy.gov/financing/exchange>. Applications must be submitted through the EERE eXCHANGE website to be considered for award. The applicant must first register and create an account on the EERE eXCHANGE website. A user Guide for the EERE eXCHANGE can be found on the EERE website at: <http://eere.energy.gov/financing/exchange/Manuals.aspx> after logging in to the system. Information on where to submit questions regarding the

content of the announcement and where to submit questions regarding submission of applications is found in the full FOA posted on the EERE eXCHANGE website.

Terabit Networking for Extreme-Scale Science Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DE-FOA-0000523
Opportunity Category:	Discretionary
Posted Date:	Apr 07, 2011
Creation Date:	Apr 07, 2011
Original Closing Date for Applications:	May 23, 2011
Current Closing Date for Applications:	May 23, 2011
Archive Date:	Aug 23, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Science and Technology and other Research and Development
Category Explanation:	
Expected Number of Awards:	10
Estimated Total Program Funding:	\$3,700,000
Award Ceiling:	\$750,000
Award Floor:	\$175,000
CFDA Number(s):	81.049 -- Office of Science Financial Assistance Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

All types of domestic entities are eligible to apply, except other Federal agencies, Federally Funded Research and Development Center (FFRDC) Contractors, and nonprofit organizations described in section 501(c)(4) of the Internal Revenue Code of 1986 that engaged in lobbying activities after December 31, 1995.

Agency Name

Chicago Service Center

Description

The Office of Advanced Scientific Computing Research (ASCR) in the Office of Science (SC) at the U.S. Department of Energy (DOE) hereby invites grant applications to address key challenges in developing, exploiting, or operating federated end-to-end terabit networks that support distributed extreme-scale science. ASCR contributes to the DOE's science mission by supporting leading-edge high-performance networking facilities, which provides DOE scientists and their national and international collaborators with unfettered access to scientific instruments and supercomputing facilities, and by supporting research into tools and services that enhance the use of these facilities. A new generation of science facilities (e.g., National Synchrotron Light Source II - NSLS-II, International Thermonuclear Experimental Reactor - ITER, Large Hadron Collider - LHC, Linac Coherent Light Source - LCLS) scientific research communities using globally distributed tera/petascale class computing environments, and leading edge researchers exploiting exascale class supercomputers to simulate physical processes, will all produce and/or consume large amounts of data. The common element that enables these activities is a federated collection of high-performance networks with unprecedented end-to-end capabilities. Projections show that DOE's Energy Science Network (ESnet) will need to support Tb/sec transmission rates by the 2015-2016. While industry will supply the underlying optical technologies to build the network, DOE will need to develop and deploy the tools and services that will allow scientists to exploit this advanced infrastructure. This Funding Opportunity Announcement (FOA) calls for innovative approaches to develop federated terabit network tools and services that address DOE's emerging network challenges. The major priorities in addressing these challenges include mechanisms that: allow hosts to create/terminate a dynamic circuit; isolate high-impact science

flows from normal traffic flows; allow flows to seamlessly move between shared Internet Protocol (IP) and dynamic circuit infrastructures; allow network operators to effectively manage their part of the end-to-end path; perform fault diagnosis and performance prediction; allow flows to operate across domain boundaries; co-schedule components/resources needed by an application; and predict application behavior notifying users/administrators when it falls below a threshold. Projects supported by this FOA may be a combination of algorithms, hardware, software, and/or radical concepts that scale beyond what can be achieved over today's infrastructure. Applications should also address how their solutions could be deployed, tested, and integrated into DOE network infrastructure.

Golden Field Office

Description

This FOA is a joint effort between the U.S. Department of Agriculture (USDA) and the U.S. Department of Energy (DOE) for fiscal year (FY) 2011 BRDI which requires that funded projects integrate all three legislatively mandated technical areas. These areas include (A) Feedstocks development, (B) Biofuels and biobased products development, and (C) Biofuels and biobased products development analysis.

Golden Field Office

Description

The objective of this Funding Opportunity Announcement (FOA) is to fund projects that develop technologies in power electronics that reduce the overall photovoltaic (PV) system costs, allow high penetrations of solar technologies onto the grid (e.g. reactive power, energy storage, advanced functionalities), and enhance the performance, reliability, and safety of the PV system. In addition, projects funded under this FOA will demonstrate the feasibility of these technologies in the field and will directly support the objectives of the SunShot Initiative, which has a goal to reduce the total costs (including installer margin) of solar energy systems by about 75 percent before the end of the decade and to make solar competitive with conventional fossil-fuel sourced generation. The DOE has identified several major areas where significant cost reductions in power electronics can be made including: 1) economies of scale; 2) advanced components; 3) reliability; 4) smart grid integration; and 5) understanding of system implications. The DOE also is considering how changes in power electronics impact the cost of the PV system as a whole. DOE anticipates that the U.S. Solar Industry can reach the aggressive SunShot targets by focusing on both power electronics research and in technologies more specific to grid-connected, photovoltaic systems. There will be two topics to which an application may be submitted under this FOA: Topic 1: Smart-Grid Functionality Topic 2: Using Power

Electronics to Address Balance of System Costs The full Funding Opportunity Announcement (FOA) is posted on the EERE eXCHANGE website at <https://eere-exchange.energy.gov>. Applications must be submitted through the EERE eXCHANGE website to be considered for award. The applicant must first register and create an account on the EERE eXCHANGE website. Description

The U.S. Department of Energy seeks to fund revolutionary, exploratory research to create highly disruptive solar photovoltaic (PV) technologies

that will meet \$1/W and lower installed system cost targets beyond the end of this decade. The Transformational PV Science and Technology: Next Generation Photovoltaics II Funding Opportunity Announcement (FOA) intends to support research into technologies that have the potential for much higher efficiency, lower cost, and/or more reliable performance than existing commercial and near-commercial photovoltaics and their expected incremental progress in future years. As part of the SunShot Initiative, this early-stage applied research program is intended to demonstrate and prove new concepts in materials, processes, and device designs to feed into component development at the laboratory scale, with subsequent component integration, engineering scale-up, and eventual commercial production. Selected projects will have as a goal the proof-of-concept of novel materials, processes, or architectures as applied to a photovoltaic device. This FOA is designed to look beyond incremental near-term innovation and explore transformative concepts with the potential to break through performance barriers as we know them today. The full Funding Opportunity Announcement (FOA) is posted on the EERE eXCHANGE website at <http://eere.energy.gov/financing/exchange>. Applications must be submitted through the EERE eXCHANGE website to be considered for award. The applicant must first register and create an account on the EERE eXCHANGE website. Description

The U.S. Department of Energy (DOE) seeks to fund applied scientific research that provides the technical foundation for significant increases in solar photovoltaic (PV) cell efficiency, to enable commercial and near-commercial PV technologies to achieve one dollar per watt installed system cost targets by the end of the decade. Combined with the technical and funding resources from the National Science Foundation (NSF), this joint Funding Opportunity Announcement (FOA) for the Foundational Program to Advance Cell Efficiency (F-PACE) will identify and fund solar device physics and photovoltaic technology research and development that will improve PV cell performance and reduce module cost for grid-scale commercial applications. Projects funded under this FOA are intended to address identified cost and efficiency barriers through advances in the PV science knowledge base, improved materials and processes for PV cell components, and innovative approaches for closing the gap between production cell efficiency and laboratory cell efficiency, and between laboratory cell efficiency and the theoretical maximum. These goals jointly support the missions of the DOE Office of Energy Efficiency and Renewable Energy's (EERE) Solar Energy Technologies Program (SETP) and the NSF Electrical, Communications and Cyber Systems (ECCS) Division. Through this FOA, ECCS and SETP intend to jointly pursue foundational research into PV cell and sub-cell technology to support the Sunshot initiative, which has a goal to reduce the cost of solar electricity from solar by 75 percent over the next decade to make it competitive with conventional fossil-fuel sourced generation. There will be three topics to which an application may be submitted under this FOA:
Topic 1: Foundational Research on PV Sub-cell Materials and Processes
Topic 2: Foundational PV Cell Research
Topic 3: Barrier Focus Teams
The full Funding Opportunity Announcement (FOA) is posted on the EERE eXCHANGE website at <https://eere-exchange.energy.gov>. Applications must be submitted through the EERE eXCHANGE website to be considered for award. The applicant must first register and create an account on the EERE eXCHANGE website. Department of Housing and Urban Development

Asthma Interventions in Public and Assisted Multifamily Housing Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5500-N-06
Opportunity Category:	Discretionary
Posted Date:	Apr 08, 2011
Creation Date:	Apr 08, 2011
Original Closing Date for Applications:	Jun 09, 2011
Current Closing Date for Applications:	Jun 09, 2011
Archive Date:	Jun 16, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Community Development Housing
Category Explanation:	Because FY2011 full-year funding has not been appropriated for this program, the availability of any such funding for these programs is contingent upon future Congressional action.
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	
CFDA Number(s):	14.914 -- Asthma Interventions in Public and Assisted Multifamily Housing
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Academic and non-profit institutions located in the United States, state and units of general local government and federally recognized Native American tribes are eligible under all existing authorizations. For-profit firms also are eligible; however, they are not allowed to earn a profit from the project. Applications to supplement existing projects are eligible to compete with applications for new awards. Federal agencies are not eligible to submit applications. The FY2011 General Section identifies threshold requirements that must be met for an organization to receive an award. Individuals are not eligible to apply.

Agency Name

Department of Housing and Urban Development

Description

Because FY2011 full-year funding has not been appropriated for this program, the availability of any such funding for these programs is contingent upon future Congressional action. The overall purpose of the program is to fund demonstration projects to improve asthma control among children and others currently residing in federally assisted multifamily housing developments that are administered by local public housing authorities (i.e., public housing) as well as privately owned multifamily housing that is subsidized by HUD (e.g. Project-based Section 8, section 202, and section 811 housing).

Fair Housing Initiative Program Enforcement Testing TA Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5415-N-26
Opportunity Category:	Discretionary
Posted Date:	Apr 14, 2011
Creation Date:	Apr 14, 2011
Original Closing Date for Applications:	May 06, 2011
Current Closing Date for Applications:	May 06, 2011
Archive Date:	May 13, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Housing
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$380,000
Award Ceiling:	
Award Floor:	
CFDA Number(s):	14.420 -- Fair Housing Initiatives Program Enforcement Testing Technical Assistance
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible Applicants are QFHOs, FHOs, and other 501(c)(3) tax-exempt organizations, representing groups of persons protected under Title VIII of the Civil Rights Act of 1968.

Agency Name

Department of Housing and Urban Development

Description

FHEO has determined that fair housing testing technical assistance is critical to the Department's Fair Housing Initiative Program's

enforcement effort. Fair housing testing is a vital tool for determining the extent of housing discrimination and is an effective component of a well-investigated complaint. Good testing results can speed up the investigation of complaints and provide a sound basis for documenting discriminatory practices. The Department has recognized the benefits of testing through our FHIP organizations. Additionally, many FHIP organizations have not been provided technical assistance on identifying the best complaints for testing nor on analyzing testing results for their most effective use. By taking the lead in establishing levels of high quality and consistency in testing protocols, the Department can set the standard in testing activities and ensure that the FHIP testing results are beneficial to on-going investigations. To address these issues, this funding will provide training and technical assistance to one or more entities by developing a course on Fair Housing Testing, and by conducting technical assistance to promote a greater and more consistent use of Testing Methodologies among FHIP organizations. Testing represents the most effective investigative tool in uncovering and corroborating claims of unlawful discrimination. Improving the quality and consistency of testing used by FHIP organizations will increase the persuasiveness and acceptance of tests in litigation. This is designed to provide FHIP organizations with the necessary tools to conduct, understand, and analyze testing with the stated goal of contributing to the Department's enforcement efforts.

Non-profits with 501(c)(3) status located in the U.S. c. Academic institutions located in the U.S.

Agency Name

Department of Housing and Urban Development

Description

The Healthy Homes Production Program is part of HUD's overall Healthy Homes Initiative launched in 1999. The program takes a comprehensive approach to addressing multiple childhood diseases and injuries in the home by focusing on housing-related hazards in a coordinated fashion, rather than addressing a single hazard at a time. The program builds upon HUD's successful Lead Hazard Control programs to expand the Department's efforts to address a variety of high-priority environmental health and safety hazards. Because FY2011 full-year funding has not been appropriated for this program, the availability of any such funding for these programs is contingent upon future Congressional action.

Additional Information on Eligibility:

To be eligible to apply for funding under this NOFA, you must be a state, Native American Tribe, city, county/parish, or other unit of local government. Multiple units of a local government (or multiple local governments) may apply as a consortium; however, a principal (lead) applicant must be identified that will be responsible for ensuring compliance with all requirements specified in this NOFA. State government and Native American tribal applicants must have an Environmental Protection Agency (EPA) authorized lead-based paint training and certification program.

Agency Name

Department of Housing and Urban Development

Description

The available funding is subject to enactment of the FY2011 HUD appropriations. The overarching purpose of the Lead Based Paint Hazard Control Program and the Lead Hazard Reduction Demonstration Grant Program is to assist states, Native American Tribes, cities, counties/parishes, or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing, with the exception that the Lead Hazard Reduction Demonstration Grant Program

is targeted for urban jurisdictions with the greatest lead-based paint hazard control needs.

Section 811 Supportive Housing for Persons with Disabilities Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5415-N-39
Opportunity Category:	Discretionary
Posted Date:	Apr 08, 2011
Creation Date:	Apr 08, 2011
Original Closing Date for Applications:	Jun 23, 2011
Current Closing Date for Applications:	Jun 23, 2011
Archive Date:	Jun 30, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Community Development Housing
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$114,000,000
Award Ceiling:	
Award Floor:	
CFDA Number(s):	14.181 -- Supportive Housing for Persons with Disabilities
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Nonprofit organizations that have a section 501(c)(3) tax exemption from the Internal Revenue Service. (See Section III.C.3.m. of the Section 811 Program NOFA for further details and information regarding the formation of the Owner Corporation.)

Agency Name

Department of Housing and Urban Development

Description

This program provides funding for the development and operation of supportive housing for very low-income persons with disabilities who are at least 18 years old. If you receive funding through this program, you must assure that supportive services are identified and available. HUD provides capital advances and contracts for project rental assistance in accordance with 24 CFR part 891. Refer to Section IV. E .3 in the NOFA for additional information on calculating the capital advance amount. Capital advances may be used for the construction or rehabilitation of a structure or acquisition of a structure with or without rehabilitation, to be developed into a variety of housing options described in Section III.C below. Capital advance funds bear no interest and are based on development cost limits in Section IV.E.3 identified in the NOFA. Repayment of the capital advance is not required as long as the housing remains available for occupancy by very low-income persons with disabilities for at least 40 years. PRAC funds are used to cover the difference between the tenants' contributions toward rent and the HUD-approved cost to operate the project.

Additional Information on Eligibility:

Agency Name

Fish and Wildlife Service

Description

The South Atlantic Landscape Conservation Cooperative (SALCC) is part of a national network of Landscape Conservation Cooperatives (LCCs).

LCCs are applied conservation science partnerships among federal agencies, regional organizations, states, tribes, NGOs, universities and other entities within a geographic area. They are designed to inform resource management decisions in an integrated fashion across landscapes at a broader scale than any individual partner's responsibility. The partnership will consider landscape-scale stressors, including climate change, habitat fragmentation, invasive species, and water scarcity as it attempts to provide a vision for a landscape capable of sustaining healthy populations of fish, wildlife, plants and cultural resources. The SALCC crosses six states, from southern Virginia to northern Florida. For 2011, the SALCC is soliciting proposals from interested groups and individuals that address high priority science needs within the SALCC. This announcement lists SALCC priorities for FY2011 and provides information about the format and timetable for submitting proposals. We are encouraging broad participation from groups and individuals concerned with natural and cultural resource issues in the SALCC. NOTE: SF 424, SF424A and 424B are to be submitted with any proposal submissions. <http://www.southatlanticlcc.org/events/deadline-for-salcc-request-for>

Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

Eligible to individuals, groups, and agencies involved in voluntary conservation efforts to benefit species listed as endangered, threatened, (or proposed for listing), candidate species or other at-risk species on private lands within the U.S.

Agency Name

Fish and Wildlife Service

Description

The Service will award grants for actions and activities that protect and restore habitats that benefit federally listed, proposed, or candidate species, or other at-risk species. The Service will make selections for funding based upon species benefits to be accrued, the significance of those benefits in assisting with species recovery, cost-sharing percentages, and proposed measures to quantify success. All projects to be considered must benefit species that occur within the Great Lakes watershed.

Additional Information on Eligibility:

Agency Name

Office of Violence Against Women

Description

Since the enactment of the Violence Against Women Act (VAWA), groundbreaking work has taken place in communities as victim advocates, police officers, prosecutors, and judges forge relationships with each other to address violence against women. VAWA has fundamentally changed the way that criminal justice agencies, victim advocacy organizations, and service providers within local communities address victim safety and offender accountability. Grants to State Sexual Assault and Domestic Violence Coalitions Program (State Coalitions Program) State coalitions have played a critical role in advancing the goals of VAWA, serving as a collective voice to end violence against women through collaboration with Federal, State, and local organizations, including faith-based and community organizations. Statewide sexual assault coalitions provide direct support to member rape crisis centers through funding, training and

technical assistance, public awareness activities, and public policy advocacy (e.g., state coalitions might work with law enforcement, prosecution, faith-based and community organizations to enhance their responses to victims of sexual assault). Statewide domestic violence coalitions provide comparable support to member battered women's shelters and other domestic violence victim service providers. This grant program supports the enhancement of coalitions by funding specific projects. For approximately one-third of States and Territories, these support services are provided through a single or dual sexual assault and domestic violence coalition. For the small number of States where more than one State sexual assault and/or domestic violence coalition exist, only those who meet statutory eligibility requirements will be eligible (See OVW's website for a current list of eligible State sexual assault and dual coalitions, <http://www.ovw.usdoj.gov/statesexual.htm>, and eligible State domestic violence and dual coalitions, <http://www.ovw.usdoj.gov/statedomestic.htm>). The Sexual Assault Services to State Coalitions Program The Sexual Assault Services to State Coalitions Program (SASP) was created by the Violence Against Women and Department of Justice Reauthorization Act of 2005 (VAWA 2005) 42 U.S.C.14043g, and is the first Federal funding stream solely dedicated to the provision of direct intervention and related assistance for victims of sexual assault. Overall, the purpose of SASP is to provide intervention, advocacy, accompaniment, support services, and related assistance for adult, youth, and child victims of sexual assault, family and household members of victims, and those collaterally affected by the sexual assault. Congress, OVW, and victim advocates recognized the need to focus on sexual assault in order to address the national prevalence of sexual assault, lack of available direct intervention and related assistance services, and the unique aspects of sexual assault trauma from which victims must heal. The SASP will support such services through the establishment, maintenance, and expansion of state and territorial sexual assault coalitions and other programs and projects to assist those victimized by sexual assault.

Modifications:

Office of Justice Programs
Office of Juvenile Justice Delinquency Prevention
OJJDP FY 2011 Community-Based Violence Prevention Demonstration Program
Modification 1

Modified Agency Contact Information

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	OJJDP-2011-2967
Opportunity Category:	Discretionary
Posted Date:	Mar 22, 2011
Creation Date:	Apr 08, 2011
Original Closing Date for Applications:	May 23, 2011
Current Closing Date for Applications:	May 23, 2011
Archive Date:	Oct 01, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Law, Justice and Legal Services
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$2,200,000
Award Floor:	\$0
CFDA Number(s):	16.123 -- Community-Based Violence Prevention Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
County governments
City or township governments
Native American tribal governments (Federally recognized)

Additional Information on Eligibility:

Applicants are limited to states (including territories) and units of local government (including federally recognized tribal governments, as determined by the Secretary of the Interior). OJJDP welcomes joint applications from two or more eligible applicants; however, one applicant must be clearly indicated as the primary applicant (for correspondence, award, and management purposes) and the others indicated as co-applicants. Applicants must demonstrate a significant crime and violence problem affecting youth (specifically, high levels of shootings and killings over an extended period of time) to be eligible for this program. OJJDP will give preference to applicants that have high levels of support within local government. Specifically, successful applicants will be those that have signed letters of support from, at a minimum, a mayor or chief executive officer, chief of police, and the local school superintendent and have proven how the implementation of their comprehensive, community-based violence prevention strategy fits into the local government's youth violence prevention plan(s).

Agency Name

Office of Juvenile Justice Delinquency Prevention

Description

A growing number of communities have adopted multi-strategy, multi-disciplinary approaches to reduce the violence that has adversely affected youth, families, and neighborhoods across America. This program provides funding for localities to support federal, state, and local partnerships to replicate proven multi-disciplinary, community-based strategies to reduce violence. This program will be authorized by an Act appropriating funds for the Department of Justice.

Eligible Applicants

State governments
County governments
City or township governments
Special district governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions
of higher education
Nonprofits that do not have a 501(c)(3) status with the IRS, other than
institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

Agency Name

National Endowment for the Humanities

Description

The Humanities Collections and Reference Resources program supports projects that provide an essential foundation for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials, from works that provide basic information quickly to tools that synthesize and codify knowledge of a

subject for in-depth investigation. Applications may be submitted for projects that address one or more of the following activities: arranging and describing archival and manuscript collections; cataloging collections of printed works, photographs, recorded sound, moving images, art, and material culture; providing conservation treatment (including deacidification) for collections, leading to enhanced access; digitizing collections; preserving and improving access to born-digital sources; developing databases, virtual collections, or other electronic resources to codify information on a subject or to provide integrated access to selected humanities materials; creating encyclopedias; preparing linguistic tools, such as historical and etymological dictionaries, corpora, and reference grammars (separate funding is available for endangered language projects in partnership with the National Science Foundation); developing tools for spatial analysis and representation of humanities data, such as atlases and geographic information systems (GIS); and designing digital tools to facilitate use of humanities resources. Because ensuring the longevity of humanities sources is critical to enabling their ongoing use, applicants may request support for implementing preservation measures, such as reformatting (including microfilming), rehousing, or item-level stabilization procedures, in the context of projects that also create or enhance access to humanities collections.

Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$250,000
Award Ceiling:	\$250,000
Award Floor:	\$0
CFDA Number(s):	20.514 -- Public Transportation Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

State and local government agencies, public and private transit agencies, universities, non-profit organizations, consultants, legally constituted public agencies, operators of public transportation services, and private for-profit organizations

Agency Name

DOT/Federal Transit Administration

Description

The scope of this effort is to improve the safety of transit workers, specifically right-of-way safety for rail transit workers through innovative use of new/advanced technologies to reduce the hazards associated with working on or around the right-of-way. FTA seeks applications to demonstrate innovative technologies that support the achievement of this goal and its associated objectives.
