The Club for Growth Endorses RSC's *Jobs Through Growth Act*

Club for Growth President Chris Chocola: "Chairman Jordan, Congressman Garrett, and the Republican Study Committee have proposed a pro-growth plan to put America back on a sustainable economic path."

Washington, DC – The Club for Growth today announced its endorsement of the *Jobs Through Growth Act* (H.R. 3400), proposed by members of the conservative Republican Study Committee (RSC). Created by RSC Chairman Jim Jordan (R-OH) along with Congressman Scott Garrett (R-NJ), the *Jobs Through Growth Act* contains many pieces of legislation consistent with the [Club for Growth's mission of achieving growth through economic freedom](#). Specifically, the *Jobs Through Growth Act*:

- Flattens the tax code by implementing just two marginal tax rates.
- Cuts the corporate tax rate to 25%
- Indexes the capital gains tax to inflation
- Permanently eliminates the Death Tax
- Imposes a moratorium on regulation until unemployment falls below 7.7%
- Opens up drilling and expands energy development

A two page summary of the RSC's *Jobs Through Growth Act* can be found by [clicking here](#).

"Chairman Jordan, Congressman Garrett, and the Republican Study Committee have proposed a pro-growth plan to put America back on a sustainable economic path," **said Club for Growth President Chris Chocola**. "House conservatives are

proposing bold solutions to restore economic sanity to Washington, and the Club for Growth supports their efforts.”

The Club for Growth is the nation’s leading group promoting economic freedom through legislative involvement, issue advocacy, research, and education.
