Command, Norfolk, VA 23511-6287 (Code 241B1)

Subj: ADDITIONAL LANE FOR NC HWY 24

Ref: (a) Easement NOy(R)-49273 (Your EO-36)

Encl: (1) Y&D Dwg. 613786 Entitled, "Additional R/W to State of NC,
Route 24 Jacksonville to Main Gate"
(2) Site Plan of Area for Additional Eastbound Lane for NC
HWY 24

1. The reference was established on 21 December 1955 to provide the State of North Carolina an easement over a portion of Government owned land which is shown by enclosure (1). The purpose of this easement was for construction, maintenance and the operation of a public road from the City of Jacksonville to our Main Gate area.

2. At the present time the State is developing plans to add an additional lane within the existing easement area from Bell Fork Road to the Main Gate area which is shown by enclosure (2) to help alleviate some of the traffic congestion along this portion of NC State Hwy. 24.

3. It is requested a determination be provided this Command as to whether the existing easement is sufficient for the establishment of the additional lane or would the requirement be such that a new Grant of Easement would need to be executed between the State and the Government.

4. If a new Grant of Easement would need to be established or if another real estate instrument is required the State has advised that they be contacted as soon as possible if any required information is necessary.
