DEPARTMENT OF THE NAVY

Memorandum 6240 NREAD

DATE: 16 Apr 87

 FROM: Environmental Control Specialist, Natural Resources and Environmental Affairs Division, Marine Corps Base, Camp Lejeune
 TO: Supervisory Ecologist, Natural Resources and Environmental Affairs Division, Marine Corps Base, Camp Lejeune

SUBJ: MEMORANDUM OF CHEMICAL SPILL - CENTRAL HEATING PLANT

1. On 1 April 1987 at approximately 1620, Mr. David Southerland, Utilities Branch, contacted NREAD regarding a chemical spill located outside the Central Heating Plant at the chemical storage tanks. Ms. Glenee Smith, NREAD, advised Mr. Southerland that the Steam Generation Section should call the Base Fire Department to report the spill.

The source of the spill was a vertical polyethylene tank with 2. a storage capacity of 5600 gallons. The tank contained approximately 4000 gallons of a neutralizing amine composed of 40% cyclohexylamine, 40% morpholine, and 20% water, which is an extremely caustic and flammable material. The cause of the spill appeared to be equipment failure, in that the coupling, behind the shut-off valve which attached the site-glass to the tank, had broken off. Mr. Ernest Humphrey, Boiler Plant Operator Leader, was exposed to fumes and physical contact with the chemical during his successful attempt to stop the leak. The chemical is extremely hazardous if it comes in contact with skin or if the fumes are inhaled. Mr. Humphrey was advised by supervisor to report at the Naval Regional Medical Center to be examined by doctors. The spilled chemical was initially prevented from being discharged to the surrounding area by a spill containment basin. The chemical was diluted with approximately 6000 gallons of water and discharged to the sanitary sewer, at a ph of 8, on 1 April 1987.

3. Ms. Glenee Smith and Mr. Ken Warren, NREAD, reported to the spill scene in accordance with the phone call placed by Mr. Southerland. The Fire Department was on the scene of the spill when NREAD arrived.

4. During the incident, NREAD representatives made the following observations:

a. There was not a suitable pump available to transfer the concentrated liquid to containers. This resulted in the use of large quantities of water to dilute the chemical and discharging it into the sanitary sewer. It greatly increased the time required to resolve emergency, and the situation would have become even more critical if the leak had not been initially stopped by Mr. Humphrey.

6240 NREAD 16 Apr 87

Subj: MEMORANDUM OF CHEMICAL SPILL - CENTRAL HEATING PLANT

b. A spill reporting sign, in accordance with Base Order 11090.1B, enclosure (2), page 2, paragraph 1c, was not installed at the site.

c. The containment basin was defective in that significant quantities of chemical leaked out of the basin. This required that the chemical be discharged to the sanitary sewer immediately rather than waiting until the next day when the situation could have been handled under better circumstances.

Glenée Smith

1. This memorandum is in follow-up to enclosure (1). Enclosure (2) provides the subject contractor's denial of responsibility for the subject spill. It must be assumed that the requirements of enclosure (3) to allow the contractor the opportunity to clean up the spill have been satisfied. Enclosure (3) was provided by Base Purchasing and Contracting.

2. Accordingly, Base Maintenance Officer should proceed to clean up the spilled product and repair damage to the tank as soon as possible. Further, it is recommended you confer with Purchasing and Contracting and Natural Resources and Environmental Affairs Division Representatives and decide if a claim against the contractor should be pursued.

24 MARCH

6280/4 NREAD 17 Apr 87

From: Director, Natural Resources and Environmental Affairs Division, Marine Corps Base, Camp Lejeune

To: Assistant Chief of Staff, Logistics, Marine Corps Base, Camp Lejeune (Attn: Purchasing and Contracting Division)

- Via: Base Maintenance Officer, Marine Corps Base, Camp Lejeune
- Subj: NO. 6 FUEL OIL SPILL

Ref: (a) FONECON btwn Base Fire Dispatcher and Sammy Gwynn, NREAD, on 15 Apr 1987

Encl: (1) Pictures of 15 April 1987 Oil Spill at S-4154 (2) Excerpts from Bulk Fuel Contract

1. As per the reference, on 15 April 1987, at approximately 1607 pm, a fuel oil spill occurred at tank S-4154, NCAS, New River, see enclosure (1). An employee from ATC Petroleum Cooperation was refueling a 100,000-gallon tank with No. 6 fuel oil when approximately 50 gallons spilled from the top of the tank onto the ground. Based on information provided by Base Utilities personnel, the driver left the pumping operation unattended (i.e., sat in cab of truck). The spill was caused -by contractor negligence.

2. It is requested that the contractor be given an opportunity per enclosure (2) to clean up spilled oil, restore disturbed area, and clean and repaint surface of tank. Removal and disposal of oil residue should be completed not later than 24 April 1987. Repainting of tank should be accomplished within a reasonable period for that type of work. If the contractor cannot or refuses to meet these requirements, Base Maintenance will make repairs and contractor will be billed for costs.

Ms. Pat Parker Contracting Division Camp LeJeune P. O. Box 8368 Camp LeJeune, North Carolina 28542

Dear Ms Parker: .

With regard to the recent incident of tank overflow of No. 6 Residual Oil at your Bldg. 4151 tank farm, I have visited the site and reviewed the circumstances of this incident in the company of our Carrier Owner, Mr. Lloyd Caylor of Tidewater Fuels.

CHITC LOIRING.

We regret the incident very much, but I must deny any responsibility for this situation on the part of both ATC and our Carrier.

My on-site review of the circumstances reveals that all normal and required procedures were performed by the Carrier as they have routinely done for quite some time. Before unloading, the Carrier's Driver stopped at Bldg. 4151, presented the Operator on duty with the loading ticket indicating the number of gallons to be unloaded, and was given clearance to proceed. He then drove to the unloading area, some distance away, and began delivery. I am told that it was raining at the time, and oversight of the tank farm, given the distance, the trees in between, and the weather, would have been difficult.

It is not a function of the Carrier, nor is he authorized to manipulate valves in the tank farm area, which might have allowed product to be safely delivered into alternate tankage. He must rely on the Duty Operator's advice that he can off-load the full amount ordered. In this instance, the Driver had no indication from anyone at the site that full delivery could not or might not be accomplished. The overflow was apparently detected by your Operator at some point who caused the Driver to cease unloading while there was some 1000 gallons remaining on the truck.

Apparently, a contributing factor to this occurence is the receipt at this site of quantities of oil from a government facility in Norfolk, which is kept in segregated storage - thereby resulting in a disruption in the flow of purchased No. 6 at off-loading from the norm. As I understand it product normally would flow - or simultaneously fill - three tanks, and this is now restricted to flow into two tanks. Flow rate from Tank 3 is slower than equalizing flow into other tankage from this one, so a higher possibility of overflow of Tank 3 would-exist if this tank level is already abnormally high. This may have been the case on the date of the overflow.

Once given clearance to unload, I see no way the Driver could have known that an overflow was possible. He has to rely on the advice of the Operators and plant personnel that the site can receive the quantity ordered. Again, I regret the accident, but do not feel that we or our Carrier are responsible.

> J. E. Lanier, General Manager 502 Market Street Telephone TWX Telecopler A subsidiary of PO. Box 0628 Office 919 763-0838 510 937-0209 919 762-5680 A. Johnson & Co., Inc. Wilmington, NC 28401

Sincerely

1182 NONCONFORMING SUPPLIES AND SERVICES (DFSC 1982 MAR)

(a) It is the policy of the Government that supplies or services which do not conform in all respects to the contract requirements should be rejected. However, there may be circumstances when acceptance of such monconforming supplies or services is in the interest of the Government. No deviation will be granted unless specifically approved by the Contracting Officer or his duly authorized representative.

 (b) The following procedures apply to requests for specification waivers.
 (i) Requests for waivers shall be submitted by the Contractor to the Contracting Officer. In extraordinary situations, requests for waivers may be submitted through the contractor to the contracting officer. In Representative (QAR) to the Contracting Officer or the Contracting Officer's Representative (COR) in the Directorate of Technical Operations, Defense Fuel Supply Center (DFSC). As used in this provision, the term extraordinary situation means when the matter cannot await resolution during the DFSC normal work day 0800 to 1630 hours Monday through Friday.

(ii) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or his representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "DISPUTES".

(iii) If the waiver is granted and the nonconforming supplies accepted, then in no event will consideration be less than two hundred fifty dollars to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary.

(iv) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the waiver. If, however, this consideration exceeds five hundred dollars, a second contract modification shall be issued reducing the Contractor's obligation to five hundred dollars (the administrative cost of issuing the two required modifications).

(c) Repeated tender of nonconforming supplies or services, including those with only minor defects, will be discouraged by appropriate action such as rejecting the supplies or services whenever feasible and documenting the Contractor's performance records.

## ColleGall I 186

(a) The Contractor shall use reasonable care to avoid damaging or contaminating existing buildings, equipment, asphalt pavement, soil or vegetation (such as trees, shrubs and grass) on the Government installation. If the Contractor fails to use reasonable care and damages or contaminates any such buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities, he shall replace the damaged items or repair the damage at no expense to the Government and to the satisfaction of the Government. Further, if as a result of the failure of the Contractor to comply with the requirements of this contract, Government buildings, equipment, asphalt pavement, soil or vegetation or other Government facilities become damaged or destroyed, the Contractor shall replace or repair the damage at no expense to the Government, and to the satisfaction of the Government. Should the Contractor fail or refuse to make such repairs or replacements, the Government may have the said repairs or replacement accomplished, and the Contractor shall be liable for the cost thereof which may be deducted from the amounts which become due under this contract. Informal agreement with the Contractor upon replacement, repairs or costs to be deducted shall first be attempted by the Installation Commander or Ordering Officer. If disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the

disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the Contracting Officer, no costs shall be deducted from amounts due or owing without the Contractor's consent. (b) The Contractor shall take all measures as required to the to present all spills fixed and by Director imited to any spilling, leating, majore provide an tractor of present all spills fixed any spill of the contractor spills of the contractor spills (the Contractor spills of the co

CERTIFICATION OF REQUESTS FOR ADJUSTMENT OR RELIEF EXCEEDING \$100,000 (FEB 1980) 1199(F) (a) Any contract claim, request for equitable adjustment to contract terms, request for relief under Public Law 85-804, or other similar request exceeding \$100,000 shall bear, at the time of submission, the following certificate given by a senior company official in charge at the plant or location involved:

> I certify that the claim is made in good faith, that the supporting data are accurate and complete to the best of my knowledge and belief; and that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable.

## MIP 86-CLNC-140-FAC, WASTE PETROLEUM (FUEL OIL)

1. The subject MIP has been thoroughly investigated, including site surveys and cost estimates to implement. The results of the investigation have revealed that there is a significant problem with waste oil disposal, as delineated in the MIP. Of particular note is that waste oil collection sites have been fairly unregulated and unstructured. This is evidenced by the very fact that 5-gallon cans are being collected and that there are multiple tanks, large and small, at a single location. The "bottom line" reveals that a serious study generating a waste oil collection plan needs to be conducted for GLNC on the problem before the MIP can be fully evaluated. However, we obviously believe the problem addressed in the MIP is genuine.

2. Accordingly, it is recommended that NREAD be tasked with conducting or coordinating a study for waste oil collection and that this MIP be held in abeyance until the study is concluded.

> 6280/4 NREAD MAY 11 1987

From: Assistant Chief of Staff, Facilities, Marine Corps Base, Camp Lejeune

To: Base Maintenance Officer, Marine Corps Base, Camp Lejeune

- Subj: CLEANUP OF SPILL OF NO. 6 RESIDUAL OIL AT BLDG 4151, TANK FARM INVOLVING ATC PETROLEUM, INC.
- Encl: (1) DirNREAD ltr 6280/4 NREAD of 17 Apr 87 (2) ATC Petroleum, Inc. 1tr of 28 Apr 87
  - (3) Excerpts from DLA600-86-0004

1. This memorandum is in follow-up to enclosure (1). Enclosure (2) provides the subject contractor's denial of responsibility for the subject spill. It must be assumed that the requirements of enclosure (3) to allow the contractor the opportunity to clean up the spill have been satisfied. Enclosure (3) was provided by Base Purchasing and Contracting.

2. Accordingly, Base Maintenance Officer should proceed to clean up the spilled product and repair damage to the tank as soon as possible. Further, it is recommended you confer with Purchasing and Contracting and Natural Resources and Environmental Affairs Division Representatives and decide if a claim against the contractor should be pursued.

REVIEW OF ENVIRONMENTAL ISSUES: FUEL DRUM AIRDROP Subi:

(a) Mtg btwn Capt Adams, Truck Co., and Mr. Alexander, Ref: MCB Fac, on 13 May 87 (b) BO 11102.1K, para 2003

Following the subject review conducted during reference (a). 1. we have concluded no significant adverse environmental impact is likely to occur. The proposed training includes a parachute drop of two 500-gallon rubber impregnated fabric collapsible fuel drums on 21 July 1987 at DZ Falcon.

As required by reference (b), spill response procedures 2. should be followed in the event of fuel drum leak or rupture. Please contact Mr. Alexander, extension 3034/3035, for further information.

6280/4 NREAD 17 Apr 87

From: Director, Natural Resources and Environmental Affairs Division, Marine Corps Base, Camp Lejeune

- To: Assistant Chief of Staff, Logistics, Marine Corps Base, Camp Lejeune (Attn: Purchasing and Contracting Division) Via: Base Maintenance Officer, Marine Corps Base, Camp Lejeune
- Subj: NO. 6 FUEL OIL SPILL

1 1

- Ref: (a) FONECON btwn Base Fire Dispatcher and Sammy Gwynn, NREAD, on 15 Apr 1987
- Encl: (1) Pictures of 15 April 1987 Oil Spill at S-4154 (2) Excerpts from Bulk Fuel Contract

1. As per the reference, on 15 April 1987, at approximately 1607 pm, a fuel oil spill occurred at tank S-4154, MCAS, New River, see enclosure (1). An employee from ATC Petroleum Cooperation was refueling a 100,000-gallon tank with No. 6 fuel oil when approximately 50 gallons spilled from the top of the tank onto the ground. Based on information provided by Base Utilities personnel, the driver left the pumping operation unattended (i.e., sat in cab of truck). The spill was caused by contractor negligence.

2. It is requested that the contractor be given an opportunity per enclosure (2) to clean up spilled oil, restore disturbed area, and clean and repaint surface of tank. Removal and disposal of oil residue should be completed not later than 24 April 1987. Repainting of tank should be accomplished within a reasonable period for that type of work. If the contractor cannot or refuses to meet these requirements, Base Maintenance will make repairs and contractor will be billed for costs.

I182 NONCONFORMING SUPPLIES AND SERVICES (DFSC 1982 MAR)

(a) It is the policy of the Government that supplies or services which do not conform in all respects to the contract requirements should be rejected. However, there may be circumstances when acceptance of such nonconforming supplies or services is in the interest of the Government. No deviation will be granted unless specifically approved by the Contracting Officer or his duly authorized representative. (b) The following procedures apply to requests for specification waivers. (i) Requests for waivers shall be submitted by the Contractor to the Contracting Officer. In

extraordinary situations, requests for waivers may be submitted through the cognizant Quality Assurance Representative (QAR) to the Contracting Officer or the Contracting Officer's Representative (COR) in the Directorate of Technical Operations, Defense Fuel Supply Center (DFSC). As used in this provision, the term extraordinary situation means when the matter cannot await resolution during the DFSC normal work day 0800 to 1630 hours Monday through Friday.

(ii) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or his representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "DISPUTES".

(iii) If the waiver is granted and the nonconforming supplies accepted, then in no event will consideration be less than two hundred fifty dollars to cover administrative costs, plus any additional cost of

Consideration be less than two hundred fifty dollars to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary. (iv) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the waiver. If, however, this consideration exceeds five hundred dollars, a second contract modification shall be issued reducing the Contractor's obligation to five hundred dollars (the administrative cost of issuing the two required modifications).

(c) Repeated tender of nonconforming supplies or services, including those with only minor defects, will be discouraged by appropriate action such as rejecting the supplies or services whenever feasible and documenting the Contractor's performance'records.

PROTECTION OF SOLEAN INTERNATION OF AND SHITTER IN CONTRACTOR SOLEAN INTERNATION I186

1199(F)

(a) The Contractor shall use reasonable care to avoid damaging or contaminating existing buildings, equipment, asphalt pavement, soil or vegetation (such as trees, shrubs and grass) on the Government installation. If the Contractor fails to use reasonable care and damages or contaminates any such buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities, he shall replace the damaged items or repair the damage at no expense to the Government and to the satisfaction of the Government. Further, if as a result of the failure of the Contractor to comply with the requirements of this contract, Government buildings, equipment, asphalt pavement, soil or vegetation or other Government facilities become damaged or destroyed, the Contractor shall replace or repair the damage at no expense to the Government, and to the satisfaction of the Government. Should the Contractor fail or refuse to make such repairs or replacements, the Government may have the said repairs or replacement accomplished, and the Contractor shall be liable for the cost thereof which may be deducted from the amounts which become due under this contract. Informal agreement with the Contractor upon replacement, repairs or costs to be deducted shall first be attempted by the Installation Commander or Ordering Officer. If

repairs or costs to be deducted shall first be attempted by the Installation Commander or Ordering Officer. If disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the Contracting Officer, no costs shall be deducted from amounts due or owing without the Contractor's consent. (B) The Contractor shall take all measures as required by law to prevent off spills finefiding, but set initial to can spilling, leaking, numbers, pawing amounts due or owing without the Contractor's consent. (B) The Contractor shall take all measures as required by law to prevent off spills finefiding, but set initial to can spilling, leaking, numbers, pawing, amounts, but not limited to; satoline, diesel fuel water). In the event the Contractor shall be responsible for the containment, clean up and disposal of the call spilled. Shall the Contractor failed a state the appropriate containment, clean up and disposal action the Covernment may do in itself in the contractor shall be response to the containment for all expenses incomedia installing finallevied by federal. State on local Sovernment for all expenses incomedia fuel

CERTIFICATION OF REQUESTS FOR ADJUSTMENT OR RELIEF EXCEEDING \$100,000 (FEB 1980)

(a) Any contract claim, request for equitable adjustment to contract terms, request for relief under Public Law 85-804, or other similar request exceeding \$100,000 shall bear, at the time of submission, the following certificate given by a senior company official in charge at the plant or location involved:

> I certify that the claim is made in good faith, that the supporting data are accurate and complete to the best of my knowledge and belief; and that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable.

OPNAV 5216/144A (Rev. 8-81) 5/N 0107-LF-052-2320

Memorandum

DATE: 2 April 1987

FROM: Supvy Ecologist

10: Director, Natural Resources Division

SUBJ: SPILL AT 1841

1. 10th Marine Regiment is the responsible organization.

2. The G-4 Col Murphy has been involved on scene. 2d Marine Division is giving heavy attention and have recalled cognizant officers from Fort Bragg (and reportedly from England) to supervise cleanup of spilled paint, used oil and batteries. A leaking tank is being removed. Does not appear to be a reportable spill. BMO (Roads and Grounds) and a 2d Marine Division work party are cleaning up spill. Ken Warren is checking on work progress.

3. I have personally inspected site (1130 today).

Danny Sharpe

SUBJ: OIL AND OTHER HAZARDOUS SUBSTANCE SPILLS

A. BO 11090.18 B. BO 6240.5A

1. REF (A) DUTLINES THE PROCEDURES FOR DIL POLLUTION PREVENTION AND ABATEMENT AND PROVIDES A SPILL CONTINGENCY PLAN FOR DIL AND OTHER HAZARDOUS SUBSTANCES; E.G., HAZARDOUS MATERIAL (HM) AND HAZARDOUS WASTE (HW). REF (P) DUTLINES RESPONSIBILITIES, PROCEDURES AND GUIDANCE FOR HM AND HW DISPOSAL AND RELATED ENVIRONMENTAL PROTECTION.

2. THE PURPOSE OF THIS MESSAGE IS TO CLARIFY PROCEDURES FOR THE REPORTING OF INFORMATION RELATIVE TO SPILLS OF DIL OR HM/HW FOR USE BY THE JOINT PUBLIC AFFAIRS OFFICE (JPAD).

A. THERE MAY BE INCIDENTS OF A SPILL OF DIL OR HM/HW THAT DUE TO ITS NATURE MAY BE NEWSWORTHY. AS THE DEFICIAL AGENT FOR MCB IN RELEASING INFORMATION CONCERNING THE PROBLEM, JPAD MUST HAVE TIMELY AND ACCURATE INFORMATION.

#### UNCLASSIFIED U

B. WHEN A SPILL OF DIL OR OTHER HAZARDOUS SUBSTANCE OCCURS, IT WILL BE REPORTED PROMPTLY TO THE BASE FIFE DEPARTMENT AT EMERGENCY TELEPHONE NUMBER 451-3333. THIS IS THE SAME PROCEDURE DUTLINED IN PARAGRAPH 1C, ENCL (2) OF REF (A). THE BASE FIRE DEPARTMENT WILL RESPOND AS REQUIFED TO ASSIST IN CONTAINMENT AND CLEANUP. FIRE DEPARTMENT PERSONNEL APE ABLE TO HANDLE MOST ROUTINE SPILLS BUT REQUIRE TECHNICAL ASSISTANCE FROM NATURAL RESOURCES AND FNVIRON-MENTAL AFFAIRS DIVISION (NREAD) PERSONNEL ON CERTAIN DIL SPILLS AND HAZARDHUS SUBSTANCE SPILLS.

THE DIRECTOR, NREAD WILL REPORT SPILLS OF A NEWSWORTHY NATURE TO THE AC/S FACILITIES FOR SUBSEQUENT REPORTING TO JPAD AS FOLLOWS:

(1) ALL HAZARDIUS NATERIAL/HAZARDOUS WASTE SPILLS.

(2) CIL SPILLS WHICH ARE REPORTABLE TO STATE OF NC AND U.S. CDAST GUARD.

(3) OTHER SPILLS OF AN UNUSUAL NATURE DEEMED WORTHY OF REPORTING.

D. UNITS WILL NOT NOTIFY THE LOCAL PRESS OR JPAU ON ANY INCIDENTS. ALL INFORMATION WILL BE CHANNELED THROUGH THE AC/S FACILITIES, MCP, AS PUTLINED ABOVE. POC THIS COMMAND IS MR. B. W. ELSTON, DEPUTY #C/S FACILITIES AT 3034/3035.

(3) NAVFACENGCOM ltr N62470-86-R-8740 over 09A2124 dtd 17 Mar 87

1. Request your attendance at a predesign meeting for the subject project scheduled 2 April at 2000 in the Facilities conference room. The purpose of this meeting is to provide information to the A&E firm in order to expedite submission of the A/E fee proposal.

2. Enclosures (1) and (2) provide background information regarding the projects milestones. Enclosure (3) represents the scope of work for the engineering study.

3. Request the Public Works Officer provide a copy of utility location drawings for the consultant's use. These drawings should cover the project area defined in enclosure (3). Request the Logistics Department provide a copy of tank location and piping diagrams for the fuel farm for the consultant's use.
