1500

The image shows a hand-drawn technical sketch of a stepped shaft on the left side of a page. The shaft has a total length of 1500 units, as indicated by the handwritten number '1500' at the bottom left. The shaft consists of several distinct sections: a top section with a larger diameter, a section with a smaller diameter, a section with a diameter similar to the top section, and a bottom section with a diameter similar to the middle section. The drawing is a simple line sketch, and the rest of the page is blank.
