> N62470-81-C-1766 9 January 1984

From: Commander, Atlantic Division, Naval Facilities Engineering Command To: Resident Officer in Charge of Construction, Marine Corps Base,

Camp Lejeune

Subj: Contract N62470-81-C-1766 - Public Works Building, Helipad and Landscaping, Naval Regional Medical Center, Camp Lejeune, North

Carolina

(a) Submittal Transmittal No. 59 of 25 Nov 1983 Ref:

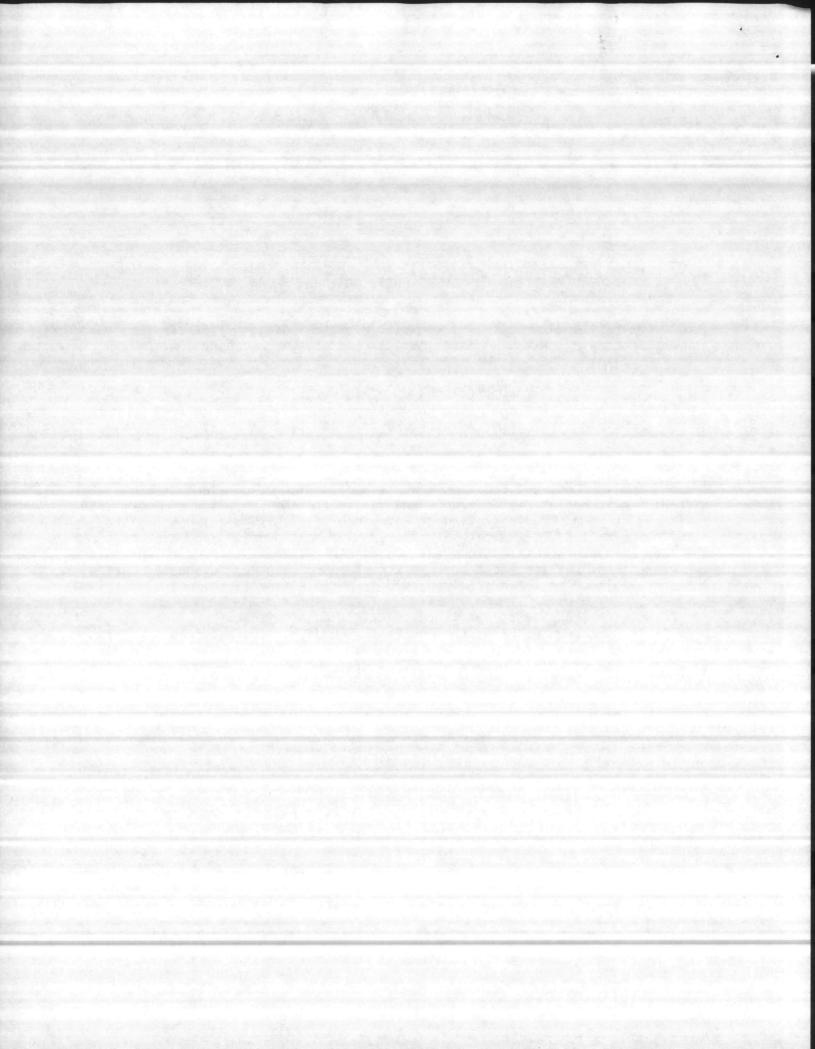

(b) FONECON btwn LANTNAVFACENGCOM(Mr. J. Haste, Code 0525)/and Six Associates (Mr. R. Turner) of 6 Jan 1984

Encl: (1) Government Estimate of 9 Jan 1984

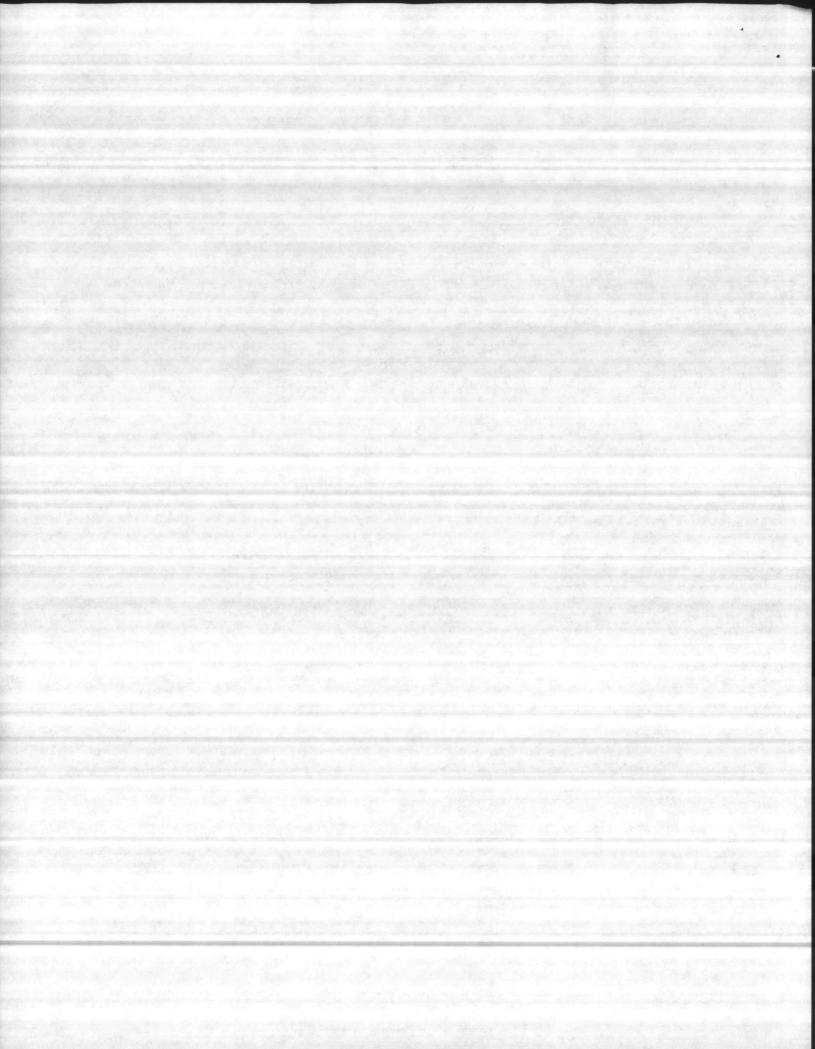

- 1. The subject contract requires provision of an intrusion alarm system with door switches at each entrance and exits with the exception of Door P101A in the Paint Room. During review of reference (a), this omission was discovered. NAVFAC Drawing 4089216 indicates it should have been provided; however, neither the door hardware specifications nor the electrical drawings require the switch. The reasons for omission of a door switch at Door P101A were discussed during reference (b) during which it was agreed to be an unintentional omission.
- Request that an additional intrusion alarm door switch be provided at Door P101A by change order to the contract. Funds will be provided for this change in the amount of \$300 as serial number 6. Enclosure (1) is forwarded for use in negotiating the cost of this additional work.
