MEMORANDUM 1-85

From: Civilian Personnel Officer, Marine Corps Base, Camp Lejeune
To: All Supervisors of Civil Service Employees

Subj: RECORDING THE USE OF OFFICIAL TIME BY UNION REPRESENTATIVES FOR REPRESENTATIONAL FUNCTIONS

Ref: (a) BO 12711.1A
(b) FPM Ltr 711-161 (NOTAL)

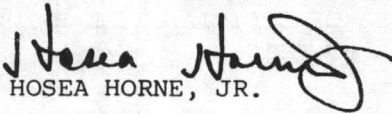

1. Reference (a) provides information and guidance on recording the use of official time for representational functions.
2. Reference (b) provides information and guidance on recording the use of official time in four categories for representational functions.
3. Uniform Job Order Numbers (JON) were assigned to all Fund Administrators in September 1984 to be effective 1 October 1984 for recording subject official time in the appropriate categories required by reference (b).
4. It is apparent after review of the first three monthly reports that official time for authorized representational functions is frequently not being recorded or charged to the proper JON.
5. The following JONs should be used for all official time provided for Union Representational Functions:

JOB ORDER NUMBER	CATEGORY
--- -- 9915 0100	IA Basic Negotiations
9915 0200	IB Midterm Negotiations
9915 0300	II On-going Labor-Management Relations (committees, panels, consultation, FLRA proceedings, labor relations training and formal and Weingarten-type meetings)
9915 0400	Grievances and Appeals (representational time in connection with grievances, arbitrators, adverse actions, EEO complaints, and other complaints and appellate processes)
9915 0500	Travel and Per Diem (associated with representational functions reported above)

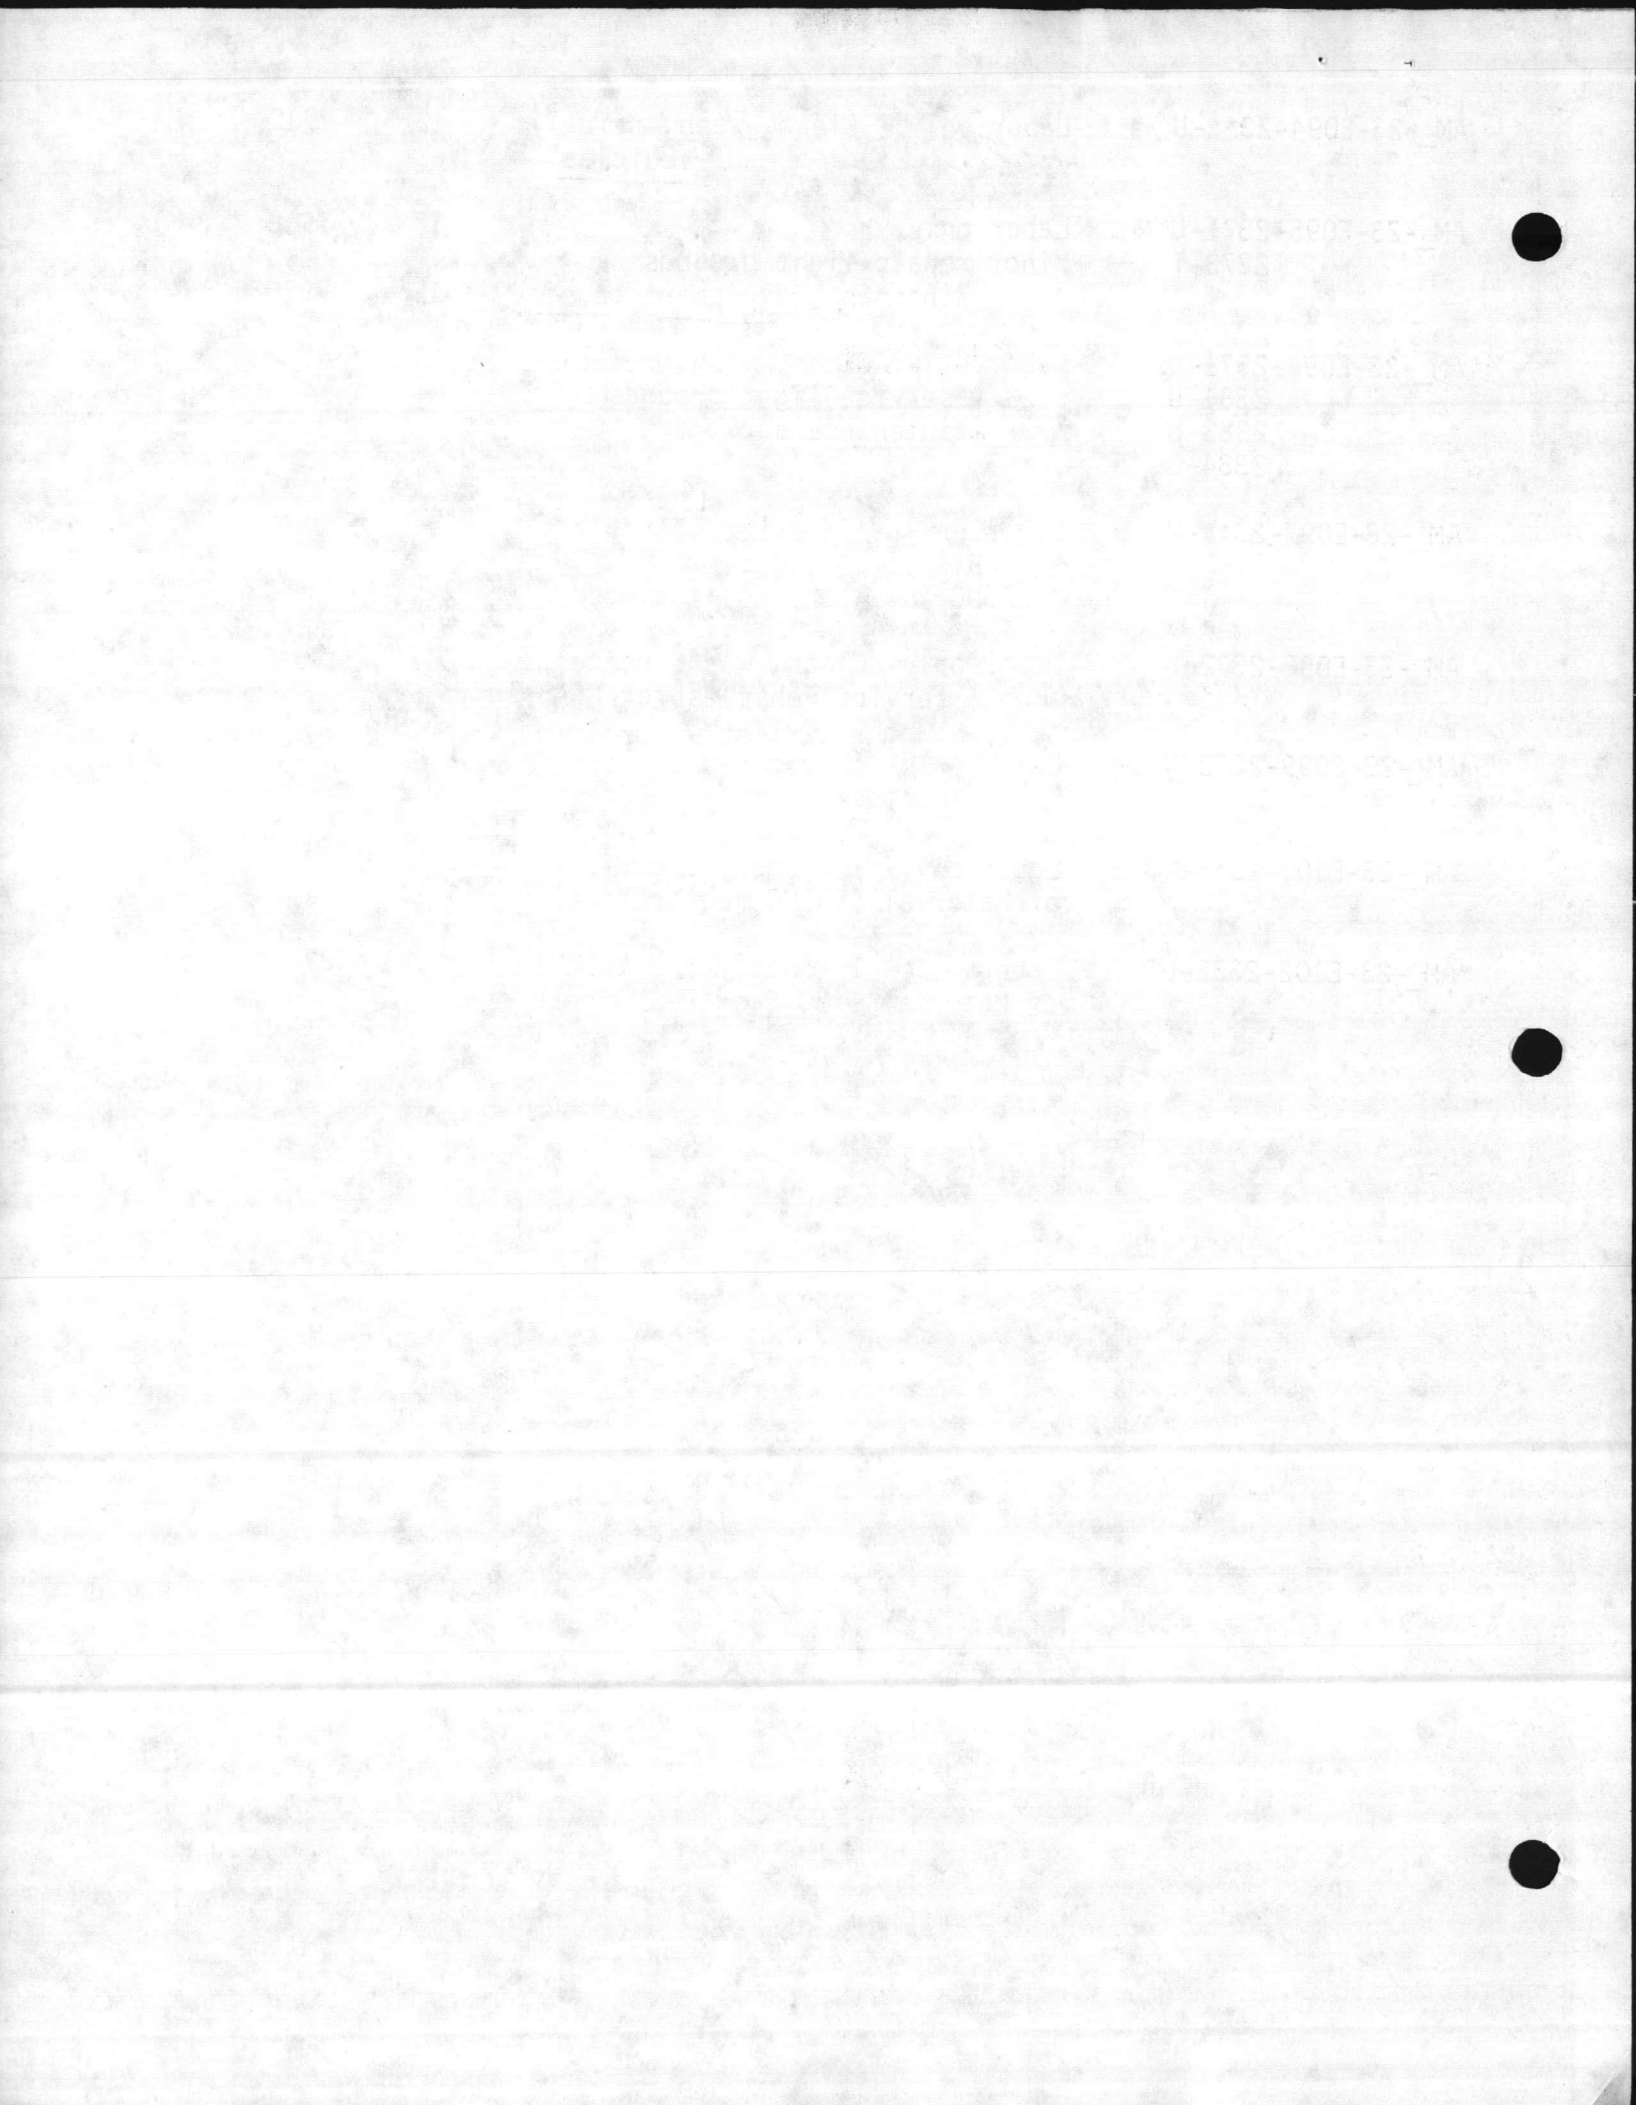

Subj: RECORDING THE USE OF OFFICIAL TIME BY UNION REPRESENTATIVES FOR REPRESENTATIONAL FUNCTIONS

6. You are requested to ensure that official time granted to Union Representatives for authorized representational functions is properly recorded on time cards in accordance with the above. Proper use of the Civilian Employee Pass, MCBCL Form 5512/5, will facilitate proper accounting.

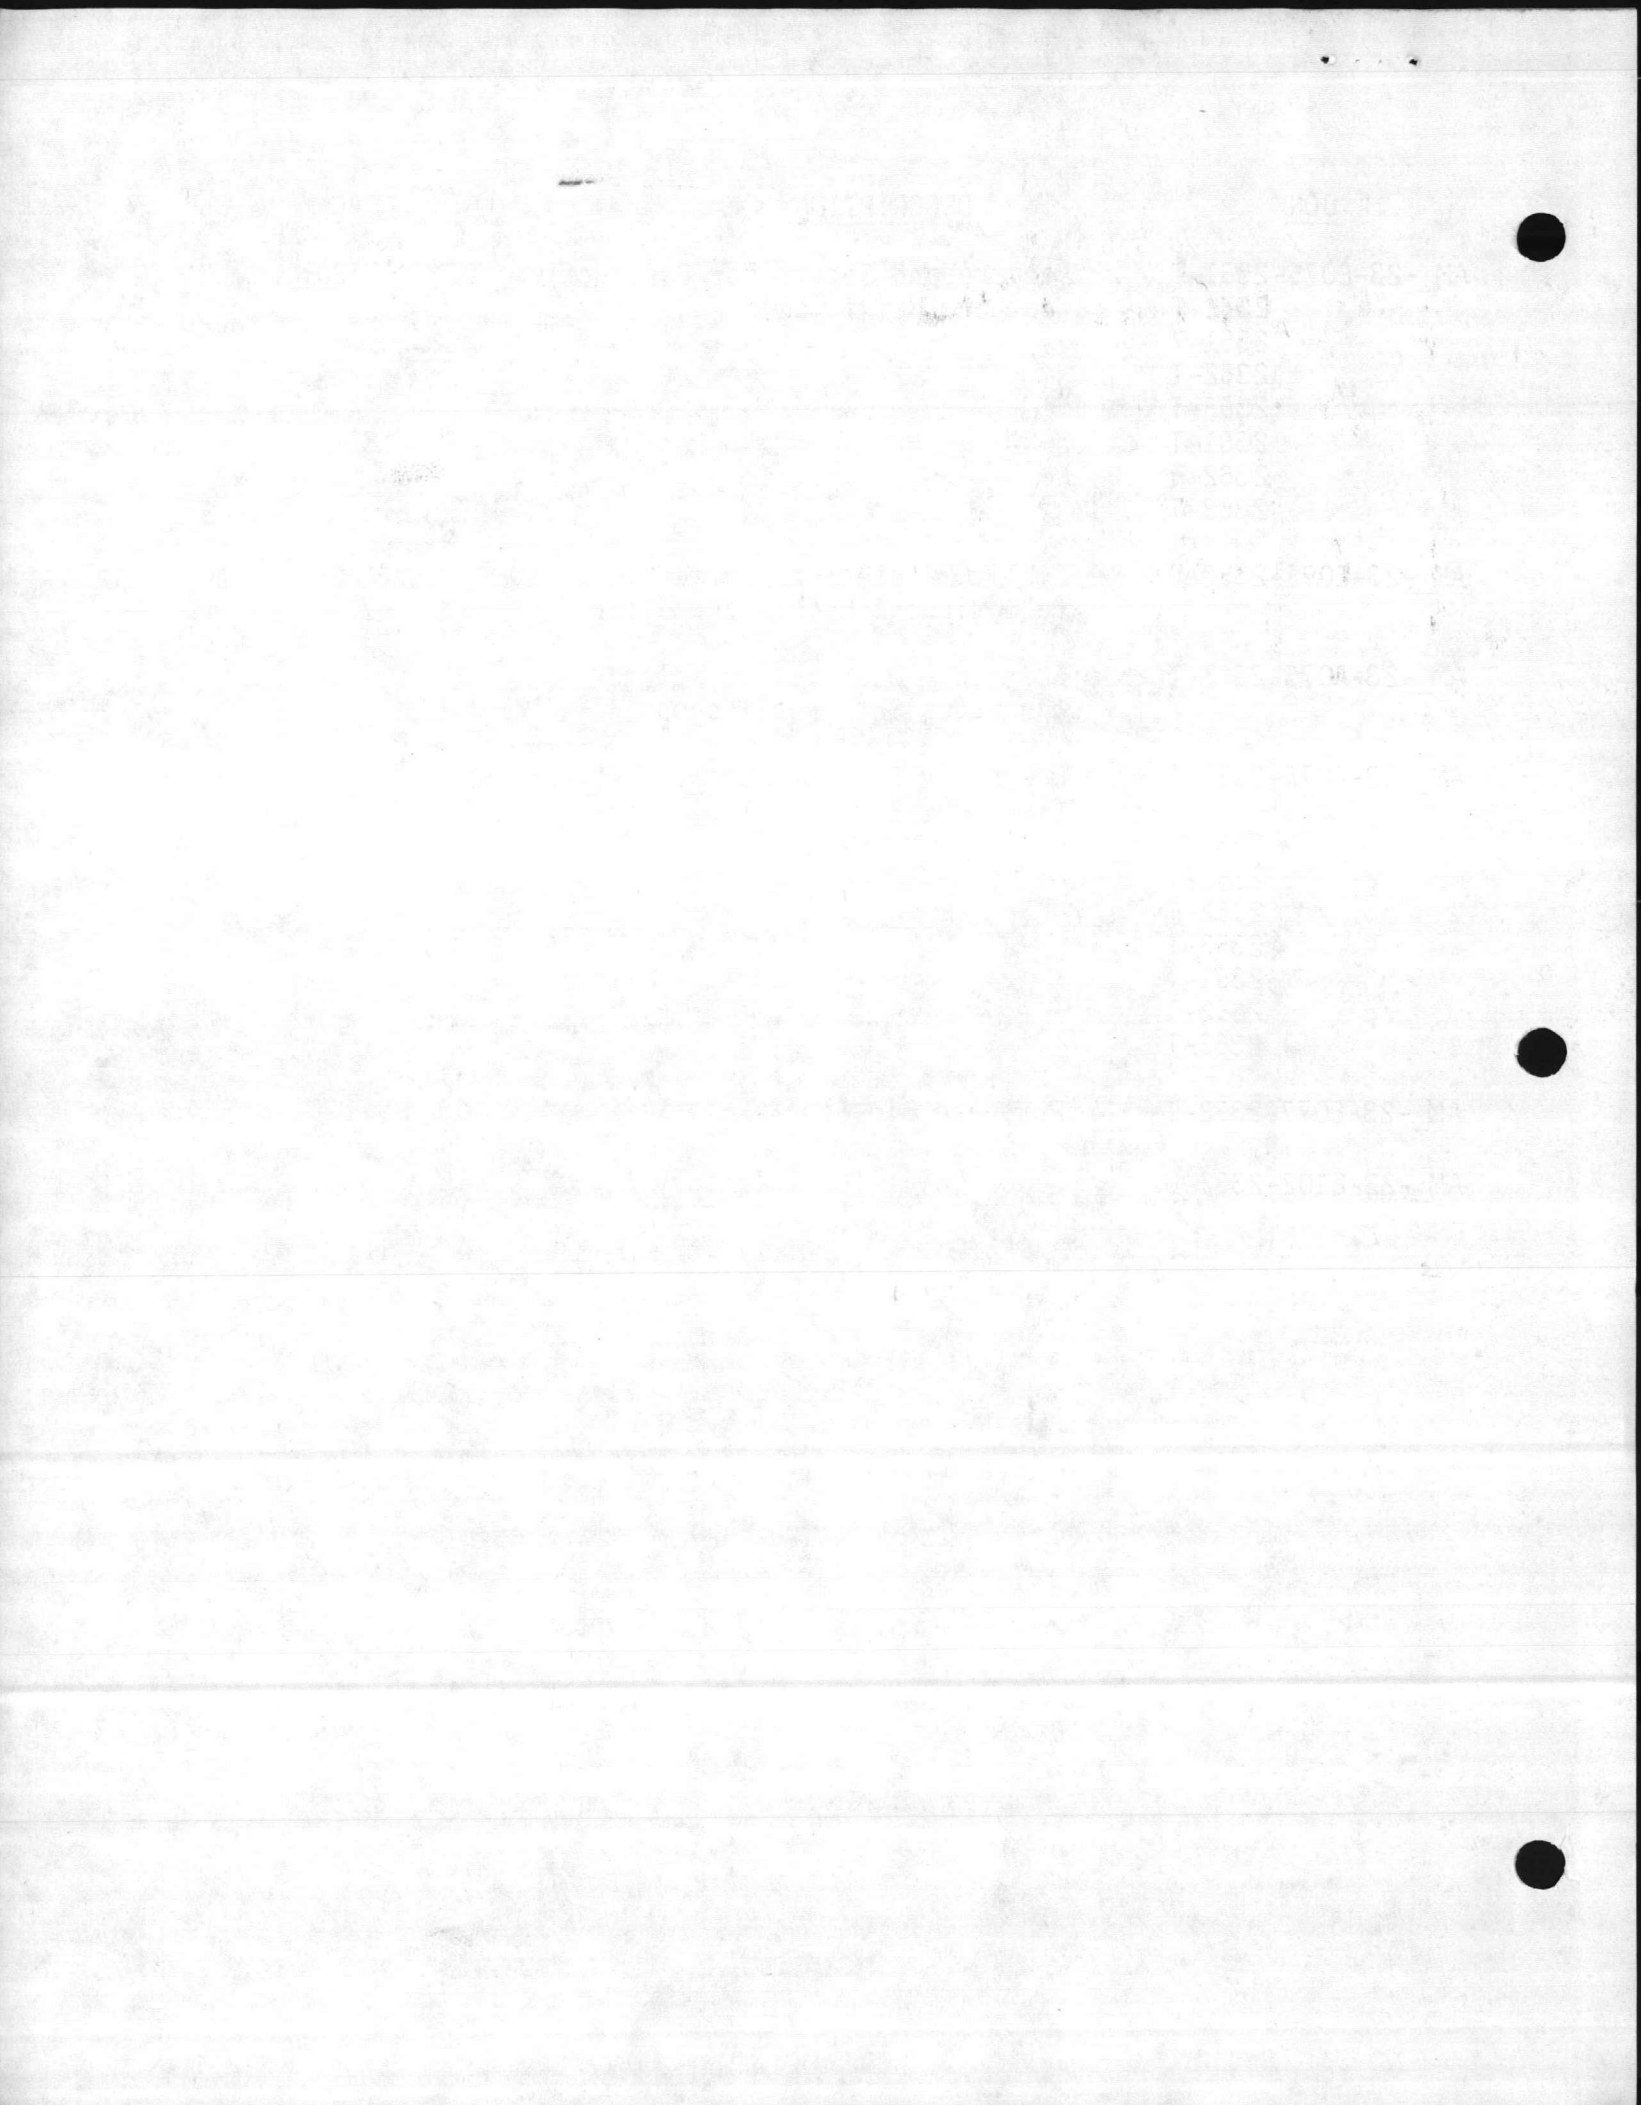

7. Questions concerning official time for Union representational functions may be referred to the Labor Relations Branch, 1458/1579.

Encl: (1) Standing Job Order Manual

1. The enclosure replaces the Standing-Job Order Manual, FY 1983 edition effective upon receipt. The new edition identifies standing job orders with the fiscal year column left blank. In this manner the manual can be used for more than one year with the user inserting the correct fiscal year in the job order number as appropriate.

2. Changes to the manual will be distributed in the form of page replacements as required. Addressees noting errors or corrections should report them to the Base Maintenance Division, telephone (451-5122).

WORK GENERATOR CODES

<u>Code</u>	<u>Description</u>
01	<u>Emergency Work.</u> Work requiring immediate action to correct or prevent loss or damage to Government property, to restore disrupted essential services, or to eliminate hazards to personnel or property. When emergency work is not completed within the maximum limit of 16 man-hours, the remainder of the work will be authorized on a specific job order.
02	<u>Service Work.</u> Work that is relatively minor in scope, not emergency work by nature, estimated to require 16 man-hours or less to accomplish; involve a maximum involvement of two work centers and labor and material costs totaling less than \$400.00.
03	<u>Standing Job Orders - Not Estimated.</u> Work which consists of miscellaneous tasks which have no identifiable recurring pattern for establishing the frequency of each occurrence or the overall work scope, and tasks which are too small to warrant detailed control.
04	<u>Standing Job Orders - Estimated.</u> Work which consists of recurring tasks which have an identifiable pattern for establishing the scope and frequency and which can be planned and estimated; e.g., preventive maintenance inspection, custodial work, grounds care, cyclic maintenance, refuse collection and utilities operation.
05	<u>Specific Job Orders.</u> Work which is authorized for the accomplishment of a specific amount of work for which individual job costs are desired for financial and performance evaluation.
10	<u>Shop Supervision.</u> Hours expended by civilian and equivalent military personnel within the various work centers of the Maintenance Division. This includes Superintendent, General Foreman, and Foreman.
11	<u>Administrative and Clerical.</u> Hours expended by civilian and equivalent military personnel assigned to management, administrative and clerical duties.
12	<u>Indirect Support.</u> Hours of civilian and military personnel assigned to tasks, such as inspection, planning and estimating, scheduling, shop planning, toolroom attendant, and shop clean-up. Shop and jobsite cleanup directly related to a specific job order may be charged to that job order as productive work.

WORK GENERATOR CODES

- 13 Leave. Hours expended for approved absences such as annual, sick and administrative leave; holidays; jury duty, and blood donations.
- 14 Allowed Time. Nonproductive man-hours expended for rework, delay (awaiting material, transportation and assignment), approved tardiness, shop/safety meetings, training classes and participation in charity campaigns, etc.
- 15 Compensatory Time. Includes work performed on a compensatory basis and leave taken.

PART III
FAMILY HOUSING CONTRACT

Explanation of Job Order Serial Numbering System.

1. All Job Order Serials (JOS) beginning with the letter Y are subject to contract accounting for family housing.
2. The JOS consists of a Y prefix followed by a letter or number which represents a specific housing area and whether the maintenance is a routine or service call. A listing is contained in paragraph 4 denoting the numbers and letters used. The last two numbers in the JOS indicate the type work performed by that Job Order Number. A list of work items is contained in paragraph 5 along with the unit of measurement for each item.
3. To preclude repetitive listings of each job order number for each type work for each housing area, the job order numbers are listed by work item with the second position of the JOS left blank. Users should refer to paragraph 4 below for the correct area code to complete the JON. For example: The JOS for Roof Repairs (Page 6-46) is Y 17. If the repairs are to quarters in the Midway Park area, the completed JOS would be Y617 or YF17 depending on whether it was routine or emergency work. It should be noted that many work items only authorize routine maintenance.

4. Area Codes:

<u>*Emer/Svc</u>	<u>**Routine</u>	<u>Area</u>
A	1	Tarawa Terrace
B	2	Watkins Village
C	3	Capehart, MCB
D	4	Capehart, MCAS
E	5	Paradise Point
F	6	Midway Park

For Knox Trailer Park JON's refer to page 6-54.

*Emergency Service. Includes emergency work and service calls of 16 man-hours or less.

**Routine Maintenance. Includes normal change of occupancy work and other routine or cyclic work performed to preserve the integrity of the dwelling. Excludes all painting, alternations, additions, exterior utilities, moveable equipment and emergency service.
