a. Omit new 4" fuel return line associated tees, supports and butterfly valves for fuel tanks 4 & 5.

b. Omit installation of new 2" gravity flow waste line below concrete fuel island.

c. Omit electrical hook-up of tanks #4, 5, 9, and 10 on transfer pump control station noted on Sheet E-3. Reserve these stations for future tank hook-ups.

d. Remove existing abandoned 4" fuel line flush with floor level of the pump house up to the new cross over connection.

e. Remove weights on the two upper loading ramps at the loading island the rebuilding of the ramp for use in swing loading.

f. Extend the 4" fill port sample by providing a stainless steel cylinder to within six inches of the floor of the new sump recirculation tank.

g. Provide T connection to the 4" reclaim fuel fill line at the sump recirculation tank with 2" line connected to 2" line of the receiving side (before sight glass) of the filter separator with check valve upstream of connections.

h. Provide 6" stainless steel ball valve installed after T connection nearest the fuel transfer booster pump station.

i. Provide two inch gravity flow waste line installed to the pump island roof structure with stainless steel piping up to the inlet side of the relief valve, with a four foot square, 6 inch thick concrete waste fuel container slab on grade with a six inch curb on two sides tied into the concrete island slab and pump house with reinforcement per the specifications.

j. Provide waste tank vent installed up to and above the roof of the pump house attached to the Government furnished waste fuel container.

k. Provide high level cutoff switch for the new 8500 gallon sump recirculation tank wired to the pumphouse with alarm.

- 72. Defense Acquisition Regulations (DAR) 7-602.37; Subcontractors (1979 MAR)
- 73. FAR 52.247-64, Preference For Privately Owned U.S. Flag Commercial Vessels (APR 1984)

(a) when ocean transportation is required to bring supplies, materials, or equipment to the construction site from the United States either for use in performance of, or for incorporation in, the work called for by this contract, the Contractor shall use privately owned U.S.-flag commercial vessels to the extent that such vessels are available at rates that are fair and reasonable for privately owned U.S.-flag commercial vessels.

(b) The Contractor shall not make any shipment exceeding 10 measurement tons (400 cubic feet) by vessels other than privately owned U.S.-flag commercial vessels without (1) notifying the Contracting Officer that U.S.-flag commercial vessels are not available at rates that are fair and reasonable for such vessels and (2) obtaining permission to ship in other vessels. If permission is granted, the contract price shall be equitably adjusted to reflect the difference in cost.

(c) (1) The Contractor shall submit one legible copy of a rated on-board ocean bill of lading for each shipment to both (i) the Contracting Officer and (ii) the Division of National Cargo, Office of Market Development, Maritime Administration, U.S. Department of Transportation, Washington, DC 20590. Subcontractor bills of lading shall be submitted through the Prime Contractor.

(2) The Contractor shall furnish these bill of lading copies (i) within 20 working days of the date of loading for shipments originating in the United States or (ii) within 30 working days for shipments originating outside the United States. Each bill of lading copy shall contain the following information:

(A) Sponsoring U.S. Government agency.

(B) Name of vessel.

(C) Vessel flag of registry.

(D) Date of loading.

(E) Port of loading.

(F) Port of final discharge.

(G) Description of commodity.

(H) Gross weight in pounds and cubic feet if available.

(I) Total ocean freight revenue in U.S. dollars.

(d) Except for small purchases as described in 48 CFR 13, the Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts or purchase orders under this contract.
