

10 OCTOBER 2000

Mr. Paul Hubbell, Acting Deputy C/s For
Installations and Logistics, HQMC (Code IL)

Lt. Silvia M. Riechel, JAGC, USNR
Office of the Judge Advocate General (034635)

SUBJ: Navy Environmental Health Center

Ref: (a) My letter to Hubbell & Riechel, same subject, of 24 Sept 00

Dear Mr. Hubbell, Lt. Riechel,

Reference (a) passed on some correspondence between NEHC and the undersigned and asked three questions formally and one in a non-formal sense with the hope that one or both of you with your unit contacts re: MCB/CLWC and their IIRP would clear the air about NEHC.

As noted before I have found correspondence between NEHC and LAUSDIV so CAPT. SACK's portrayal of NEHC as being un-involved in MCB/CLWC health and safety / hazardous waste operations and emergency response rings rather hollow.

My last letter to CAPT. SACK of 18 September has obviously entered the dark void of naval activities associated with MCB/CLWC. I have no pre-conceived notions of NEHC's role re the remediation at CLWC, actually I am more interested in NEHC's role given to NPL status, if that occurred.

Why CAPT. SACK responded in the manner he did seems rather strange given the innocuous nature of the inquiry. Perhaps a telephone call from HQMC or O346 might unravel the mystery.

Regards,

CC: HQMC (LFL) (IL)

O34635

CG, MCB/CLWC (Ac/s, EMD)

MAJOR CLW (Retired)
