

8/25

Jim - Does LAUTDU have any records left that may relate to the instructions given by either DoD or Dept. of the Navy to start the TTHM monitoring program?

Perhaps the orders came directly from EPA 4; however, I doubt that given the command system in place.

If Aberdeen or LAUTDU doesn't have the records of the data base summary developed after the inspection team toured LAUTDU facilities I don't know who else to ask.
