Dear Senator Crapo:

The supervisors of the Bruneau River Soil and Water Conservation District, representing the land owners of the district, support the Owyhee Initiative Implementation Act of "2006" known as Senate bill No. S.3794. We believe this Act establishes realistic and acceptable compromises in addressing the needs of all local stakeholders.

We commend you for your belief in and use of the collaborative decision-making process in resolving natural resource and environmental issues. We hope Congress agrees with its importance and takes the appropriate action for it to become law.

Chairman: *Mark P. Host*
