# CONGRESSMAN KEN CALVERT...

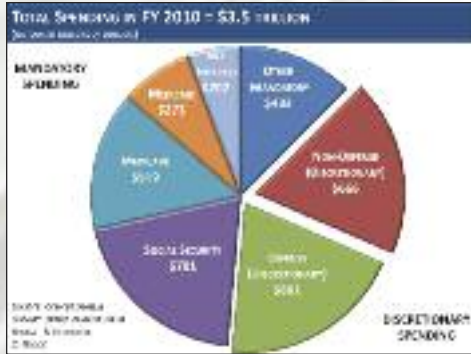

## Cutting the Budget and Reducing the Size of Government

**“There is widespread agreement that our federal government is on an unsustainable path. We must focus on spending restraint and creating an environment for economic growth that will jumpstart job creation in the private sector. Creating more government jobs is not job creation and printing more money does not create wealth.”**

**– Rep. Ken Calvert**

# The Federal Government Must Live Within Its Means...

Actual spending for FY2010; the share of mandatory spending (Social Security, Medicare, Interest on Debt, etc.) is roughly 60% of all outlays.

The Republican/Ryan Budget Plan that will gradually pull the cost curve down vs. the Obama Plan that radically increases U.S. debt.

Since President Obama took office, we are on a course to almost triple our debt by 2021.

*Go to [www.house.budget.gov](http://www.house.budget.gov) for more graphs and charts.*

As a Member of both the Budget and Appropriations Committees, Rep. Calvert will work to set strict spending limits and to enforce those limits.

REP. CALVERT meets with a local Chamber of Commerce to discuss the local economy and how the federal government can best help struggling businesses.

## Rep. Calvert Supports Policies that CREATE Jobs:

- Original author of the E-Verify program which ensures jobs go to American workers and legal residents.
- Introduced the ON TIME Act, a self-funding bill to ensure transportation dollars go to improve infrastructure in the areas most impacted by freight traffic.
- Supports an “all-of-the-above” national energy strategy that utilizes our own natural resources while moving away from an economy that is based on fossil fuels.
- Supports simplifying the regulatory environment in which wasteful duplicative processes are imposed to the detriment of businesses and local governments.
- Consistently supports lower taxes, fewer regulations and a smaller government that allows free enterprise to grow, invest and hire.
