SUBCHAPTER CVII—WINDING STAIR MOUNTAIN NATIONAL RECREATION AND WILDERNESS AREA

§ 460vv. Findings and purposes

(a) Findings

The Congress finds that—

(1) select areas of undeveloped National Forest System lands in the State of Oklahoma possess outstanding natural characteristics which give them high values as wilderness and will, if properly preserved, contribute as an enduring resource of wilderness for the benefit of the American people;

(2) the Department of Agriculture's second roadless area review and evaluation (RARE II) and other studies of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have identified areas which, on the basis of their landform, ecosystem, associated wildlife, and location, will help to fulfill the National Forest System's share of a quality National Wilderness Preservation System;

(3) the Department of Agriculture's second roadless area review and evaluation, of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have also identified areas which do not possess outstanding wilderness attributes or which possess outstanding energy, mineral, timber, grazing, dispersed recreation and other values, and which should not be designated as components of the National Wilderness Preservation System but should be available for nonwilderness multiple uses under the land management planning process and other applicable laws;

(4) many areas of the Ouachita National Forest possess qualities that can only be ex-

pressed and utilized in such a manner that designation of such areas as a national recreation area is appropriate for the maximum potential and enjoyment of the area by the American people;

(5) select areas possess unique plant and tree species and plant communities that are significant in their occurrence, variety and location and warrant designation as botanical areas; and

(6) select areas possess unique scenic and wildlife qualities that designation of such areas as a national scenic area and a national scenic and wildlife area is appropriate for the preservation of the natural beauty and wildlife habitat for the enjoyment of the American people.

(b) Purposes

The purposes of this subchapter are to—

(1) designate certain National Forest System lands in the State of Oklahoma as components of the National Wilderness Preservation System, in order to promote, perpetuate, and preserve the wilderness character of the lands, protect watersheds and wildlife habitat, preserve scenic and historic resources, and promote scientific research, primitive recreation, solitude, physical and mental challenge, and inspiration for the benefit of all the American people, to a greater extent than is possible in the absence of wilderness designation; and to ensure that certain other National Forest System lands in the State of Oklahoma be available for nonwilderness multiple uses; and

(2) designate certain National Forest System lands in the State of Oklahoma as a national recreation area, 2 botanical areas, a national scenic area, and a national scenic and wildlife area in order to enhance and further certain natural resources characteristics.

§ 460vv-4. Wilderness review

(a) Findings

The Congress finds that—

(1) the Department of Agriculture has completed the second roadless area review and evaluation program (RARE II); and

(2) the Congress has made its own review and examination of National Forest System roadless areas in Oklahoma and of the environmental impacts associated with alternative allocations of such areas.

(b) Congressional determination and direction

On the basis of such review, the Congress hereby determines and directs that—

(1) without passing on the questions of the legal and factual sufficiency of the RARE II Final Environmental Impact Statement (dated January 1979) with respect to National Forest System lands in States other than Oklahoma, such statement shall not be subject to judicial review with respect to National Forest System lands in the State of Oklahoma;

(2) with respect to the National Forest System lands in the State of Oklahoma which were reviewed by the Department of Agriculture in the second roadless area review and evaluation (RARE II) and those lands referred to in subsection (d) of this section, that review and evaluation or reference shall be deemed for the purposes of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, to be an adequate consideration of the suitability of such lands for inclusion in the National Wilderness Preservation System and the Department of Agriculture shall not be required to review the wilderness option prior to the revision of the plans, but shall review the wilderness option when the plans are revised, which revisions will ordinarily occur on a ten-year cycle, or at least every fifteen years, unless, prior to such time the Secretary of Agriculture finds that conditions in a unit have significantly changed;

(3) areas in the State of Oklahoma reviewed in such final environmental statement or referenced in subsection (d) of this section and not designated wilderness upon enactment of this subchapter shall be managed for multiple use in accordance with land management plans pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, except that such areas need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of the initial land management plans;

(4) in the event that revised land management plans in the State of Oklahoma are implemented pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning

Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, and other applicable law, areas not recommended for wilderness designation need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of such plans, and areas recommended for wilderness designation shall be managed for the purpose of protecting their suitability for wilderness designation as may be required by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, and other applicable law; and

(5) unless expressly authorized by Congress, the Department of Agriculture shall not conduct any further statewide roadless area review and evaluation of the National Forest System lands in the State of Oklahoma for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

(c) Use of term

As used in this section, and as provided in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, the term "revision" shall not include an "amendment" to a plan.

§ 460vv-5. Adjacent management

Congress does not intend that designation of wilderness areas in the State of Oklahoma lead to the creation of protective perimeters or buffer zones around each wilderness area. The fact that nonwilderness activities or uses can be seen or heard from areas within the wilderness shall not, of itself, preclude such activities or uses up to the boundary of the wilderness area.

(f) Properties and facilities of Federal agencies

After consultation with any other Federal agency managing lands and waters within or contiguous to the recreation area, the Secretary shall enter into a memorandum of understanding with such other Federal agency to identify those areas within the recreation area which are (1) under the administrative jurisdiction of such other agency; (2) directly related to the operation of the Summersville project; and (3) essential to the operation of such project. CHANGE OF NAME

Committee on Interior and Insular Affairs of the House of Representatives changed to Committee on Natural Resources of the House of Representatives on Jan. 5, 1993, by House Resolution No. 5, One Hundred Third Congress. Committee on Natural Resources of House of Representatives treated as referring to Committee on Resources of House of Representatives by section 1(a) of Pub. L. 104-14, set out as a note preceding section 21 of Title 2, The Congress.

§ 460yy-1. Plan and management**(a) Development of plan**

To achieve the purpose of this subchapter, the Secretary, acting through the National Park Service, in cooperation with appropriate State and Federal agencies, local units of government and local residents shall formulate a comprehensive plan for the protection, preservation, and interpretation of the reserve. The plan shall identify those areas or zones within the reserve which would most appropriately be devoted to—

- (1) public use and development;
- (2) historic and natural preservation; and
- (3) private use subject to appropriate local ordinances designed to protect the historic rural setting.

(b) Transmittal of plan to Congress and State

Within eighteen months following November 18, 1988, the Secretary shall transmit the plan to the President of the Senate and the Speaker of the House of Representatives and to the Governor of the State of Idaho.

(c) Transfer of management and administration to State or local units of government

At such time as the State or appropriate units of local government having jurisdiction over land use within the reserve have enacted ordinances or established regulations which in the judgment of the Secretary will protect and preserve the historic and natural features of the area in accordance with the comprehensive plan, the Secretary shall, pursuant to cooperative agreement—

- (1) transfer management and administration over all or any part of the property acquired under subsection (d) of this section to the State or appropriate units of local government;
- (2) provide technical assistance to such State or units of local government in the management, protection, and interpretation of the reserve; and
- (3) make periodic grants, which shall be supplemental to any other funds to which the grantee may be entitled under any other provision of law, to such State or local unit of government to carry out the purposes of this subchapter.

(d) Acquisition of land

(1) The Secretary is authorized to acquire such lands and interests as he determines are necessary to accomplish the purposes of this subchapter by donation, purchase with donated funds, or appropriated funds, or exchange, except that the Secretary may not acquire the fee simple title to any land without the consent of the owner. The Secretary shall, in addition, give prompt and careful consideration to any offer made by an individual owning property within the reserve to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

(2) Lands and waters, and interests therein, within the boundaries of the reserve which were administered by the Forest Service, United States Department of Agriculture or the Bureau of Land Management, Department of the Inte-

rior prior to November 18, 1988, are hereby transferred to the administrative jurisdiction of the Secretary to be administered by the National Park Service in accordance with this subchapter.

(3) Lands and interest therein so acquired shall, so long as responsibility for management and administration remains with the United States, be administered by the Secretary subject to the provisions of sections 1, 2, 3, and 4 of this title, and in a manner consistent with the purpose of this subchapter.

(e) Withdrawal of management and administration from State or local units of government

If, after the transfer of management and administration of any lands pursuant to subsection (c) of this section, the Secretary determines that the reserve is not being managed in a manner consistent with the purposes of this subchapter, he shall so notify the appropriate officers of the State or local unit of government to which such transfer was made and provide for a one hundred and eighty-day period in which the transferee may make such modifications in applicable laws, ordinances, rules, and procedures as will be consistent with such purposes. If, upon the expiration of such one hundred and eighty-day period, the Secretary determines that such modifications have not been made or are inadequate, he shall withdraw the management and administration from the transferee and he shall manage such lands in accordance with the provisions of this subchapter.

(f) Water rights

Congress finds that there are unique circumstances with respect to the water and water related resources within the Reserve¹ designated by this subchapter. The Congress recognizes that the management of this area may be transferred to the State of Idaho, that the State has committed to providing the water necessary to fulfill the purposes of this subchapter, and that there is little or no water or water-related resources that require the protection of a Federal reserved water right. Nothing in this subchapter, nor any action taken pursuant thereto, shall constitute either an express or implied reservation of water or water right for any purpose: *Provided*, That the United States shall retain that reserved water right which is associated with the initial establishment and withdrawal of the national forest lands which will be transferred to the Reserve¹ under this subchapter.

(g) Withdrawal of lands from disposition under other laws

Subject to valid existing rights, Federal lands and interests therein, within the reserve, are hereby withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970, as amended [30 U.S.C. 1001 et seq.].

(h) Authorization of appropriations

There is hereby authorized to be appropriated not to exceed \$2,000,000 to carry out the provisions of this subchapter.

§ 460zz-3. Federal lands and developments

(a) Lands

Notwithstanding any other provision of law, any Federal property located within the boundaries of the Area as identified on the map referred to in section 460zz-1 of this title, is hereby transferred without consideration to the administrative jurisdiction of the Secretary for use by him in implementing the purposes of this part, except as follows:

(b) Federal agency activities

(1) In general

Before any department, agency, or instrumentality of the United States issues or approves any license or permit for any facility or undertaking within the Area and before any such department, agency, or instrumentality commences any undertaking or provides any Federal assistance to the State or any local governmental jurisdiction for any undertaking

within the Area, the department, agency, or instrumentality shall notify the Secretary. The Secretary shall review the proposed facility or undertaking to assess its compatibility with the plan approved under section 460zz-2 of this title. The Secretary shall make a determination with respect to the compatibility or incompatibility of a proposed facility or undertaking within 60 days of receiving notice under this subsection. If the Secretary determines that the proposed facility or undertaking is incompatible with the plan, he shall immediately notify such Federal department, agency, or instrumentality and request such department, agency, or instrumentality to take the actions necessary to conform the proposed facility or undertaking to the plan. The Federal department, agency, or instrumentality shall, within 60 days after receiving the Secretary's request, notify the Secretary of the specific decisions made in response to the request. (B) In planning for the development and public use of the Area, the Secretary shall consult with the Secretary of the Army to assure that public use of adjacent or related water resource developments or flood control projects and that of the Area are compatible.

(a) Authorities

The Secretary shall administer the Area in accordance with this part. Only those lands within the Area under the direct jurisdiction of the Secretary shall be administered in accordance with the provisions of law generally applicable to units of the National Park System. Other lands and waters within the Area shall be administered under State and local laws. In the case of any conflict between the provisions of this part and such generally applicable provisions of law, the provisions of this part shall govern.

(b) State and local authorities

The Secretary shall consult and cooperate with the State of Minnesota and its political subdivisions concerning the development and management of Federal lands within the Area.

(c) Land acquisition

Within the boundaries of the Area, the Secretary is authorized, in consultation with the State of Minnesota and the affected local governmental unit, to acquire land and interests therein by donation, purchase with donated or appropriated funds, exchange or transfer, except as provided in paragraphs (1) and (2).

(1) Any lands or interests therein owned by the State of Minnesota or any political subdivision thereof may be acquired only by donation.

(2) Privately owned lands or interests therein may be acquired only with the consent of the owner thereof unless the Secretary makes a determination pursuant to subsection (d)(2) of this section. In no event may the Secretary use the authority provided in subsection (d)(3) of this section to acquire land or interests in land without the owner's consent for any use exercised prior to January 1, 1987, that is consistent with the plan under section 460zz-2 of this title.

(d) Review of local plans

(1) Authority

For the purpose of protecting the integrity of the Area the Secretary shall cooperate and consult with the State and the appropriate political subdivisions to review all relevant local plans, laws and ordinances to determine whether they substantially conform to the plan approved pursuant to section 460zz-2 of this title. Additionally the Secretary shall in consultation with the State and its political subdivisions determine the adequacy of enforcement of such plans, laws, and ordinances, including review of building permits and zoning variances granted by local governments, and amendments to local laws and ordinances. The Secretary shall enter into agreements with the State or its political subdivisions to provide, on behalf of the Secretary, professional services necessary for the review of such local plans, laws, and ordinances, and of amendments thereto and variances therefrom, and for the monitoring or the enforcement thereof by local governments having jurisdiction over any areas to which the management plan applies.

(2) Purpose

The purpose of review under paragraph (1) shall be to determine the degree to which actions by local governments are compatible with the purposes of this subchapter. Following the approval of the plan under section 460zz-2 of this title and after a reasonable period of time has elapsed, upon a finding by the Secretary that such plans, laws and ordinances are nonexistent, are otherwise not in conformance with the plan or are not being enforced in a manner consistent with the plan, and if the Secretary determines that there is no feasible alternative available to prevent

uses which would be substantially incompatible with the plan, the Secretary may exercise the authority available to him under the provisions of paragraph (3).

(3) Enforcement

In those sections of the Area where local plans, laws and ordinances, or amendments thereto or variances therefrom are found by the Secretary not to be in conformance with the plan approved pursuant to section 460zz-2 of this title, or are not being enforced in a manner consistent with the plan, the Secretary shall notify the local government authority concerned. The Secretary may withhold from the local government authority concerned or, require reimbursement of, (A) Federal funds made available for implementation of the plan, or (B) any grant under section 460zz-5(a) of this title if the local plan, law, ordinance, amendment, or variance is not modified to conform with the plan and enforced in such manner as will carry out the purposes of this part. If the State has not initiated, within a 60-day period, such judicial or other action as necessary to ensure conformity with the plan, and if noncompliance with the plan or failure to enforce the plan continues after the end of such 60-day period, the Secretary may acquire, subject to appropriations, land or interests in land under this subsection without the consent of the owner thereof. Land and interests in land acquired pursuant to this subsection shall be restricted to the geographical area of the local government unit failing to conform with the plan and shall be limited to those lands clearly and directly required, in the judgment of the Secretary, for the protection of the Area in a manner compatible with the plan.

(e) Retention by owner of use and occupancy

The Secretary may permit the owner or owners of any improved residential property acquired by the Secretary under this part to retain a right of use and occupancy of the property for noncommercial¹ residential uses not incompatible with the plan approved under section 460zz-2 of this title. The provisions of subsection (c), (d), and (e) of section 460ii-1 of this title shall apply to the retention of such rights, except that for purposes of this part, the applicable date shall be January 1, 1987 in lieu of January 1, 1975 and the purposes of this part shall be substituted for the purposes referred to in section 460ii-1(d) of this title.

(Pub. L. 100-696, title VII, §705, Nov. 18, 1988, 102 Stat. 4605; Pub. L. 101-40, §4(1), June 20, 1989, 103 Stat. 82.)

Subject to valid existing rights, the Secretary of Agriculture (hereafter in this subchapter referred to as the “Secretary”) shall administer the national recreation area in accordance with the laws, rules, and regulations applicable to the National Forest System in furtherance of the purposes for which the national recreation area was established.

(b) Special management requirements

The national recreation area also shall be administered according to the following special management requirements:

(1) Subject to such terms and conditions as may be prescribed by the Secretary, including the protection of threatened and endangered species and the protection of other natural, cultural, and scenic values, owners of privately owned land and homes within the national recreation area shall be afforded access across National Forest System lands.

Such use shall be regulated to protect the resources of the national recreation area in a way that minimizes the degradation of these resources.

(4) Timber management shall be utilized only as a tool to enhance public recreation, scenic quality, game and nongame wildlife species, and the protection and enhancement of threatened, endangered, or sensitive species. Trees damaged or downed due to fire, insects, disease, or blowdown may be utilized, salvaged, or removed from the recreation area as authorized by the Secretary to further the purposes of the national recreation area.

(5) The Secretary shall, after acquiring fee title to at least 10,000 acres of land on Grand Island, provide reasonable water transportation from the mainland to Grand Island. Transportation may be provided through concession, permit, or other means, and a reasonable charge may be imposed. Transportation shall be subject to reasonable regulation by the Secretary and shall not be required when the Secretary deems it to be unsafe because of factors such as weather and water conditions.

Any expansion, remodeling, or reconstruction shall be consistent with the criteria developed pursuant to section 460aaa-6(b)(4) of this title and shall be subject to such other terms and conditions as the Secretary may prescribe.

(E) Any such home may be purchased at the fair market value of the structure and improvements by the Secretary on a willing seller basis.

(F) The permit may be terminated at any time for failure to comply with its terms and conditions and applicable regulations without cost to the Federal Government in accordance with the permit.

(G) After termination of any such permit, if any improvements or property are not removed by their owner within one year of the termination, they shall become the property of the Federal Government.

(9) Solely for purposes of payments pursuant to section 6904 of title 31, lands on Grand Island acquired by the United States after January 1, 1990 shall be considered to have been acquired for addition to a National Forest Wilderness Area (national forest portion of the National Wilderness Preservation System).

SUBCHAPTER CXIII—SMITH RIVER
NATIONAL RECREATION AREA

§ 460bbb. Findings

The Congress finds that—

(1) the Smith River, undammed and free-flowing from its headwaters to the Pacific Ocean, represents one of the last wholly intact vestiges of an invaluable legacy of wild and scenic rivers;

(2) the Smith River watershed, from the diverse conifer forests of the Siskiyou Mountains and unique botanical communities of the North Fork serpentine to the ancient redwoods along the river's lower reaches, exhibits a richness of ecological diversity unusual in a basin of its size;

(3) the Smith River watershed's scenic beauty, renowned anadromous fisheries, exceptional water quality, and abundant wildlife combine with its ready accessibility to offer exceptional opportunities for a wide range of recreational activities, including wilderness, water sports, fishing, hunting, camping, and sightseeing;

(4) careful development and utilization at mutually compatible levels of recreation, fisheries, and timber resources on public lands will ensure the continuation of the Smith River watershed's historic role as a significant contributor to the region's local economy; and

(5) protection of the Smith River's unique values can be enhanced by a cooperative effort by Federal, State and local governments to coordinate land-use planning, management, and development of Federal and non-Federal lands throughout the watershed.

§ 460bbb-2. Establishment

(a) In general

For the purposes of ensuring the preservation, protection, enhancement, and interpretation for present and future generations of the Smith River watershed’s outstanding wild and scenic rivers, ecological diversity, and recreation opportunities while providing for the wise use and sustained productivity of its natural resources, there is hereby established the Smith River National Recreation Area.

(b) Boundaries

(1) The recreation area shall consist of those lands within the area generally depicted on the map entitled “Proposed Smith River National Recreation Area” and dated July 1990. The map shall be on file and available for public inspection in the Office of the Chief, Forest Service, Department of Agriculture. The Secretary may, by publication of availability of a revised map and after public comment, make corrections or minor changes to the boundary of the recreation area.

(2) The exterior boundary of the recreation area, as generally depicted on the map, shall encompass the recreation area and the four excluded areas.

(c) Boundary modification

The boundaries of the Six Rivers National Forest are hereby modified as generally depicted on the map referred to in subsection (b) of this section. A map and legal description of the boundary of the Six Rivers National Forest as

modified by this subsection shall be on file and available for public inspection in the Office of the Chief, Forest Service, and the Office of the Forest Supervisor of the Six Rivers National Forest.

(d) Transfer

The federally owned lands within the recreation area administered by the Secretary of the Interior on November 16, 1990, comprising approximately 20 acres, are hereby transferred to the jurisdiction of the Secretary of Agriculture and shall be managed in accordance with the laws applicable to the National Forest System and this subchapter.

(Pub. L. 101-612, §4, Nov. 16, 1990, 104 Stat. 3210.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 460bbb-1, 460bbb-3 of this title.

§ 460bbb-3. Administration

(a) In general

The Secretary shall administer the recreation area in accordance with this subchapter and the laws, rules, and regulations applicable to the National Forest System in furtherance of the purposes for which the recreation area was established. In administering the recreation area, the Secretary shall, consistent with the applicable area management emphasis provided under subsection (b) of this section, undertake the following:

(1) Provide for a broad range of recreation uses and provide recreational and interpretive services and facilities (including trails and campgrounds) for the public.

(2) Provide and maintain adequate public access, including vehicular roads for general recreational activities such as camping, hiking, hunting, and fishing.

(3) Improve the anadromous fishery and water quality, including (but not limited to) stabilizing landslides, improving fish spawning and rearing habitat, and placing appropriate restrictions or limitations on soil disturbing activities.

(4) Permit the use of off-road vehicles only on designated routes.

(5) Provide for public health and safety and for the protection of the recreation area in the event of fire or infestation of insects or disease.

(6) Permit programmed timber harvest only in those management areas where timber harvest is specifically authorized by subsection (b) of this section. Timber management in these areas shall incorporate the use of strategies to reduce habitat fragmentation and employ silvicultural prescriptions designed to maintain or enhance biological diversity and wildlife habitats (such as retention of standing green trees, snags, and other coarse woody debris) by providing for a high level of structural and compositional diversity in managed stands.

(7) Permit removal of trees within stream-side protection zones along those rivers and river segments specified in section 460bbb-8 of this title only when necessary for human

health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat.

(8) Consistent with applicable requirements of law, permit removal of trees in those management areas where timber harvest is not specifically authorized by subsection (b) of this section when necessary for human health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat. Timber damaged or down in these areas as a result of fire, insects, disease, blowdown or other natural events shall otherwise be retained in its natural condition, with removal permitted only upon a written determination by the Secretary, based upon written findings, that such removal is necessary to provide for or maintain or enhance biological and ecological diversity, without regard for the commodity value of the timber. Such a decision shall not be delegable by the Secretary but shall be subject to administrative appeal and judicial review.

(9) Provide for the long-term viability and presence of Port-Orford-cedar and ensure its continued present economic and noneconomic uses through implementation of management strategies developed by the Forest Service.

(10) Except where timber harvest is specifically authorized by subsection (b) of this section protect, preserve, and increase old growth forest habitat in the recreation area.

(11) Provide for the restoration of landscapes damaged by past human activity consistent with the purposes of this subchapter.

(12) Develop a monitoring program to consistently gather water quality, air quality, wildlife, and fisheries data from representative Smith River subwatersheds.

(13) Develop and implement a management plan to maintain, protect, and promote habitat for native resident trout species in the recreation area.

(14) Cooperate with other Federal, State, and local government agencies in coordinating planning efforts throughout the Smith River watershed.

(b) Management areas

(1) The recreation area shall contain eight management areas, as generally depicted on the map referred to in section 460bbb-2(b) of this title. The Secretary may, pursuant to section 460bbb-2(b) of this title, make minor revisions or amendments to the boundaries of the management areas.

(2) The Secretary shall administer each management area within the recreation area in accordance with the following:

(A) The management emphasis for the North Fork management area shall be on back-country and whitewater recreation, while recognizing unique botanic communities, outstanding whitewater, and historic and scenic values.

(B) The management emphasis for the Upper Middle Fork management area shall be on providing and maintaining ecologic and biologic

diversity. Timber harvest shall be permitted, consistent with subsection (a)(6) of this section, only in existing plantations.

(C) The management emphasis for the Middle Fork-Highway 199 management area shall be on maintaining wildlife values and providing for a full range of recreation uses, with particular emphasis on the scenic and recreation values associated with the Smith River, old growth redwoods, and California State Highway 199.

(D) The management emphasis for the Upper South Fork management area shall be on wild river and roadless back-country recreation.

(E) The management emphasis for the Lower South Fork management area shall be on maintaining and protecting natural scenic values in the river canyon while providing for traditional and compatible river sports, including white water rafting, angling, sightseeing, and developed and dispersed recreation. Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of the scenic values of the recreation area.

(F) The management emphasis for the Lower Hurdygurdy Creek management area shall be on maintenance of wildlife values while providing rustic family and group recreation facilities for fishing, swimming, hunting, and camping. Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of scenic and wildlife values.

(G) The management emphasis for the prescribed timber management area shall be on providing a sustained yield of wood products while maintaining biological and ecological diversity.

(H) The management of the Siskiyou Wilderness management area shall be pursuant to the provisions of the Wilderness Act (16 U.S.C. 1131 et seq.). The Gasquet-Orleans Road corridor between the eastern edge of section 36, T. 14 N., R. 3 E, and the corridor's eastern terminus in the middle of section 26, T. 14 N., R. 4 E. shall be added to the Siskiyou Wilderness.

(c) Wild and scenic rivers

The river segments designated as wild and scenic rivers by the amendments made by section 10(b) of this Act shall be administered in accordance with this subchapter and the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.). In case of conflict between the provisions of these Acts, the more restrictive provision shall apply.

(c) Map

As soon as practicable after November 28, 1990, a map and legal description of the conservation area shall be filed by the Secretary with the Committee on Natural Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. Such map shall have the same force and effect as if included in this section. Copies of such map shall be on file and available for public inspection in the Office of the Director of the Bureau of Land Management, Department of the Interior, and in the appropriate office of the Bureau of Land Management in Arizona.

(i) No buffer zones

The Congress does not intend for the establishment of the conservation area to lead to the creation of protective perimeters or buffer zones around the conservation area. The fact that there may be activities or uses on lands outside the conservation area that would not be permitted in the conservation area shall not preclude such activities or uses on such lands up to the boundary of the conservation area to the extent consistent with other applicable law.

SUBCHAPTER CXX—SNAKE RIVER BIRDS OF PREY NATIONAL CONSERVATION AREA

§ 460iii. Findings

The Congress finds the following:

(1) The public lands managed by the Bureau of Land Management in the State of Idaho within the Snake River Birds of Prey Area contain one of the densest known nesting populations of eagles, falcons, owls, hawks, and other birds of prey (raptors) in North America.

(2) These public lands constitute a valuable national biological and educational resource since birds of prey are important components of the ecosystem and indicators of environmental quality, and contribute significantly to the quality of wildlife and human communities.

(3) These public lands also contain important historic and cultural resources (including significant archaeological resources) as well as other resources and values, all of which should be protected and appropriately managed.

(4) A military training area within the Snake River Birds of Prey Area, known as the Orchard Training Area, has been used since 1953 by reserve components of the Armed Forces. Military use of this area is currently governed by a Memorandum of Understanding between the Bureau of Land Management and the State of Idaho Military Division, dated May 1985. Operating under this Memorandum of Understanding, the Idaho National Guard has provided valuable assistance to the Bureau of Land Management with respect to fire control and other aspects of management of the Orchard Training Area and the other lands in the Snake River Birds of Prey Area. Military use of the lands within the Orchard Training Area should continue in accordance with such

Memorandum of Understanding (or extension or renewal thereof), to the extent consistent with section 460iii-3(e) of this title, because this would be in the best interest of training of the reserve components (an important aspect of national security) and of the local economy.

(5) Protection of the conservation area as a home for raptors can best and should be accomplished by the Secretary of the Interior, acting through the Bureau of Land Management, under a management plan that—

(A) emphasizes management, protection, and rehabilitation of habitat for these raptors and of other resources and values of the area;

(B) provides for continued military use, consistent with the requirements of section 460iii-3(e) of this title, of the Orchard Training Area by reserve components of the Armed Forces;

(C) addresses the need for public educational and interpretive opportunities;

(D) allows for diverse appropriate uses of lands in the area to the extent consistent with the maintenance and enhancement of raptor populations and habitats and protection and sound management of other resources and values of the area; and

(E) demonstrates management practices and techniques that may be useful to other areas of the public lands and elsewhere.

(6) There exists near the conservation area a facility, the World Center for Birds of Prey operated by The Peregrine Fund, Inc., where research, public education, recovery, and reestablishment operations exist for endangered raptor species. There also exists at Boise State University a raptor study program which attracts national and international graduate and undergraduate students.

(7) The Bureau of Land Management and Boise State University, together with other State, Federal, and private entities, have formed the Raptor Research and Technical Assistance Center to be housed at Boise State University, which provides a unique adjunct to the conservation area for raptor management, recovery, research, and public visitation, interpretation, and education.

(8) Consistent with requirements of sections 1712 and 1732 of title 43, the Secretary has developed a comprehensive management plan and, based on such plan, has implemented a management program for the public lands included in the conservation area established by this subchapter.

(9) Additional authority and guidance must be provided to assure that essential raptor habitat remains in public ownership, to facilitate sound and effective planning and management, to provide for effective public interpretation and education, to ensure continued study of the relationship of humans and these raptors, to preserve the unique and irreplaceable habitat of the conservation area, and to conserve and properly manage the other natural resources of the area in concert with maintenance of this habitat.

(10) An ongoing research program funded by the Bureau of Land Management and the National Guard is intended to provide informa-

tion to be used in connection with future decisionmaking concerning management of all uses, including continued military use, of public lands within the Snake River Birds of Prey Area.

(11) Public lands in the Snake River Birds of Prey Area have been used for domestic livestock grazing for more than a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of raptor habitat and the other resource values of these lands; therefore, subject to the determination provided for in section 460iii-3(f) of this title, it is expected that such grazing will continue in accordance with applicable regulations of the Secretary and the management plan for the conservation area.

(12) Hydroelectric facilities for the generation and transmission of electricity exist within the Snake River Birds of Prey Area pursuant to a license(s) issued by the Federal Energy Regulatory Commission, or its predecessor, the Federal Power Commission.

(Pub. L. 103-64, §1, Aug. 4, 1993, 107 Stat. 302.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 460iii-1, 460iii-3 of this title.

§ 460iii-3. Management and use

(a) In general

(1)(A) Within 1 year after August 4, 1993, the Secretary shall make any revisions in the existing management plan for the conservation area as necessary to assure its conformance with this subchapter, and no later than January 1, 1996, shall finalize a new management plan for the conservation area.

(B) Thereafter, the Secretary shall review the plan at least once every 5 years and shall make

such revisions as may be necessary or appropriate.

(C) In reviewing and revising the plan, the Secretary shall provide for appropriate public participation.

(2) Except as otherwise specifically provided in section 460iii-2(d) of this title and subsections (d), (e), and (f) of this section, the Secretary shall allow only such uses of lands in the conservation area as the Secretary determines will further the purposes for which the Conservation¹ Area¹ is established.

(b) Management guidance

After each review pursuant to subsection (a) of this section, the Secretary shall make such revisions as may be needed so that the plan and management program to implement the plan include, in addition to any other necessary or appropriate provisions, provisions for—

(1) protection for the raptor populations and habitats and the scientific, cultural, and educational resources and values of the public lands in the conservation area;

(2) identifying levels of continued military use of the Orchard Training Area compatible with paragraph (1) of this subsection;

(3) public use of the conservation area consistent with the purposes of this subchapter;

(4) interpretive and educational opportunities for the public;

(5) a program for continued scientific investigation and study to provide information to support sound management in accordance with this subchapter, to advance knowledge of raptor species and the resources and values of the conservation area, and to provide a process for transferring to other areas of the public lands and elsewhere this knowledge and management experience;

(6) such vegetative enhancement and other measures as may be necessary to restore or enhance prey habitat;

(7) the identification of levels, types, timing, and terms and conditions for the allowable nonmilitary uses of lands within the conservation area that will be compatible with the protection, maintenance, and enhancement of raptor populations and habitats and the other purposes for which the conservation area is established; and

(8) assessing the desirability of imposing appropriate fees for public uses (including, but not limited to, recreational use) of lands in the conservation area, which are not now subject to fees, to be used to further the purposes for which the conservation area is established.

(c) Visitors center

The Secretary, acting through the Director of the Bureau of Land Management, is authorized to establish, in cooperation with other public or private entities as the Secretary may deem appropriate, a visitors center designed to interpret the history and the geological, ecological, natural, cultural, and other resources of the conservation area and the biology of the raptors and their relationships to man.

(d) Visitors use of area

In addition to the Visitors¹ Center¹, the Secretary may provide for visitor use of the public

¹ So in original. Probably should not be capitalized.

lands in the conservation area to such extent and in such manner as the Secretary considers consistent with the protection of raptors and raptor habitat, public safety, and the purposes for which the conservation area is established. To the extent practicable, the Secretary shall make available to visitors and other members of the public a map of the conservation area and such other educational and interpretive materials as may be appropriate.

(e) National Guard use of area

(1) Pending completion of the ongoing research concerning military use of lands in the conservation area, or until the date 5 years after August 4, 1993, whichever is the shorter period, the Secretary shall permit continued military use of those portions of the conservation area known as the Orchard Training Area in accordance with the Memorandum of Understanding, to the extent consistent with the use levels identified pursuant to subsection (b)(2) of this section.

(2) Upon completion of the ongoing research concerning military use of lands in the conservation area, the Secretary shall review the management plan and make such additional revisions therein as may be required to assure that it meets the requirements of this subchapter.

(3) Upon completion of the ongoing research concerning military use of lands in the conservation area, the Secretary shall submit to the Committees on Natural Resources and Merchant Marine and Fisheries of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report of the results of such research.

(4) Nothing in this subchapter shall preclude minor adjustment of the boundaries of the Orchard Training Area in accordance with provisions of the Memorandum of Understanding.

(5) After completion of the ongoing research concerning military use of lands in the Orchard Training Area or after the date 5 years after August 4, 1993, whichever first occurs, the Secretary shall continue to permit military use of such lands, unless the Secretary, on the basis of such research, determines such use is not compatible with the purposes set forth in section 460iii-2(a)(2) of this title. Any such use thereafter shall be permitted in accordance with the Memorandum of Understanding, which may be extended or renewed by the Secretary so long as such use continues to meet the requirements of subsection (b)(2) of this section.

(6) In accordance with the Memorandum of Understanding, the Secretary shall require the State of Idaho Military Division to insure that military units involved maintain a program of decontamination.

(7) Nothing in this subchapter shall be construed as by itself precluding the extension or renewal of the Memorandum of Understanding, or the construction of any improvements or buildings in the Orchard Training Area so long as the requirements of this subsection are met.

(f) Livestock grazing

(1) So long as the Secretary determines that domestic livestock grazing is compatible with the purposes for which the conservation area is

established, the Secretary shall permit such use of public lands within the conservation area, to the extent such use of such lands is compatible with such purposes. Determinations as to compatibility shall be made in connection with the initial revision of management plans for the conservation area and in connection with each plan review required by subsection (a)(1)(B) of this section.

(2) Any livestock grazing on public lands within the conservation area, and activities the Secretary determines necessary to carry out proper and practical grazing management programs on such lands (such as animal damage control activities) shall be managed in accordance with the Act of June 28, 1934 (43 U.S.C. 315 et seq.; commonly referred to as the "Taylor Grazing Act"), section 1752 of title 43, other laws applicable to such use and programs on the public lands, and the management plan for the conservation area.

(g) Cooperative agreements

The Secretary is authorized to provide technical assistance to, and to enter into such cooperative agreements and contracts with, the State of Idaho and with local governments and private entities as the Secretary deems necessary or desirable to carry out the purposes and policies of this subchapter.

(h) Agricultural practices

Nothing in this subchapter shall be construed as constituting a grant of authority to the Secretary to restrict recognized agricultural practices or other activities on private land adjacent to or within the conservation area boundary.

(i) Hydroelectric facilities

Notwithstanding any provision of this subchapter, or regulations and management plans undertaken pursuant to its provisions, the Federal Energy Regulatory Commission shall retain its current jurisdiction concerning all aspects of the continued and future operation of hydroelectric facilities, licensed or relicensed under the Federal Power Act (16 U.S.C. 791a et seq.), located within the boundaries of the conservation area.

(b) Release

The Congress finds and directs that the public lands within the Snake River Birds of Prey Natural Area established as a natural area in October 1971 by Public Land Order 5133 have been adequately studied and found unsuitable for wilderness designation pursuant to section 1782 of title 43. (3) it is in the public interest that such corridor be located in the recreation area; and

(4) a plan to minimize harm to the resources of the recreation area has been developed.

(m) Scientific investigations

The Secretary may permit scientific investigations within the recreation area upon the Secretary’s determination that such investigations are in the public interest and are compatible with the purposes of this subchapter.

§ 469l. Findings and purposes

(a) Findings

The Congress finds the following:

(1) The Underground Railroad, which flourished from the end of the 18th century to the end of the Civil War, was one of the most significant expressions of the American civil rights movement during its evolution over more than three centuries.

(2) The Underground Railroad bridged the divides of race, religion, sectional differences, and nationality; spanned State lines and international borders; and joined the American ideals of liberty and freedom expressed in the Declaration of Independence and the Constitution to the extraordinary actions of ordinary men and women working in common purpose to free a people.

(3) Pursuant to title VI of Public Law 101-628 (16 U.S.C. 1a-5 note; 104 Stat. 4495), the Underground Railroad Advisory Committee conducted a study of the appropriate means of establishing an enduring national commemorative Underground Railroad program of education, example, reflection, and reconciliation.

(4) The Underground Railroad Advisory Committee found that—

(A) although a few elements of the Underground Railroad story are represented in existing National Park Service units and other sites, many sites are in imminent danger of being lost or destroyed, and many important resource types are not adequately represented and protected;

(B) there are many important sites which have high potential for preservation and visitor use in 29 States, the District of Columbia, and the Virgin Islands;

(C) no single site or route completely reflects and characterizes the Underground Railroad, since its story and associated resources involve networks and regions of the country rather than individual sites and trails; and

(D) establishment of a variety of partnerships between the Federal Government and other levels of government and the private sector would be most appropriate for the protection and interpretation of the Underground Railroad.

(5) The National Park Service can play a vital role in facilitating the national commemoration of the Underground Railroad.

(6) The story and significance of the Underground Railroad can best engage the American people through a national program of the National Park Service that links historic buildings, structures, and sites; routes, geographic areas, and corridors; interpretive centers, museums, and institutions; and programs, activities, community projects, exhibits, and multimedia materials, in a manner that is both unified and flexible.

(b) Purposes

The purposes of this section and section 4691-1 of this title are the following:

(1) To recognize the importance of the Underground Railroad, the sacrifices made by those who used the Underground Railroad in search of freedom from tyranny and oppression, and the sacrifices made by the people who helped them.

(2) To authorize the National Park Service to coordinate and facilitate Federal and non-Federal activities to commemorate, honor, and interpret the history of the Underground Railroad, its significance as a crucial element in the evolution of the national civil rights movement, and its relevance in fostering the spirit of racial harmony and national reconciliation.

§ 4691-1. National Underground Railroad Network to Freedom program

(a) In general

The Secretary of the Interior (in this section and section 4691 of this title referred to as the "Secretary") shall establish in the National Park Service a program to be known as the "National Underground Railroad Network to Freedom" (in this section and section 4691 of this

title referred to as the "national network"). Under the program, the Secretary shall—

(1) produce and disseminate appropriate educational materials, such as handbooks, maps, interpretive guides, or electronic information;

(2) enter into appropriate cooperative agreements and memoranda of understanding to provide technical assistance under subsection (c) of this section; and

(3) create and adopt an official, uniform symbol or device for the national network and issue regulations for its use.

(b) Elements

The national network shall encompass the following elements:

(1) All units and programs of the National Park Service determined by the Secretary to pertain to the Underground Railroad.

(2) Other Federal, State, local, and privately owned properties pertaining to the Underground Railroad that have a verifiable connection to the Underground Railroad and that are included on, or determined by the Secretary to be eligible for inclusion on, the National Register of Historic Places.

(3) Other governmental and nongovernmental facilities and programs of an educational, research, or interpretive nature that are directly related to the Underground Railroad.

(c) Cooperative agreements and memoranda of understanding

To achieve the purposes of this section and section 4691 of this title and to ensure effective coordination of the Federal and non-Federal elements of the national network referred to in subsection (b) of this section with National Park Service units and programs, the Secretary may enter into cooperative agreements and memoranda of understanding with, and provide technical assistance to—

(1) the heads of other Federal agencies, States, localities, regional governmental bodies, and private entities; and

(2) in cooperation with the Secretary of State, the governments of Canada, Mexico, and any appropriate country in the Caribbean.

(d) Appropriations

There are authorized to be appropriated to carry out this section and section 4691 of this title not more than \$500,000 for each fiscal year. No amounts may be appropriated for the purposes of this section and section 4691 of this title except to the Secretary for carrying out the responsibilities of the Secretary as set forth in subsection (a) of this section.

SUBCHAPTER II—NATIONAL HISTORIC PRESERVATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 398f, 410nn-1, 410pp-5, 410tt-3, 430g-7, 460uu-41, 460ccc-3, 460hhh-4, 460iii-5, 460jjj-1, 1247, 5408 of this title; title 20 sections 4424, 7902; title 42 sections 5320, 12204; title 43

section 1457a; title 45 sections 1116, 1212; title 48 section 1905.

§ 470. Short title; Congressional finding and declaration of policy

(a) This subchapter may be cited as the “National Historic Preservation Act”.

(b) The Congress finds and declares that—

(1) the spirit and direction of the Nation are founded upon and reflected in its historic heritage;

(2) the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people;

(3) historic properties significant to the Nation’s heritage are being lost or substantially altered, often inadvertently, with increasing frequency;

(4) the preservation of this irreplaceable heritage is in the public interest so that its vital legacy of cultural, educational, aesthetic, inspirational, economic, and energy benefits will be maintained and enriched for future generations of Americans;

(5) in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation;

(6) the increased knowledge of our historic resources, the establishment of better means of identifying and administering them, and the encouragement of their preservation will improve the planning and execution of Federal and federally assisted projects and will assist economic growth and development; and

(7) although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

EX. ORD. NO. 11593. PROTECTION AND ENHANCEMENT OF THE CULTURAL ENVIRONMENT

Ex. Ord. No. 11593, May 13, 1971, 36 F.R. 8921, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purposes and policies of the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321 et seq.), the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et seq.), the Historic Sites Act of 1935 (49 Stat. 666, 16 U.S.C. 461 et seq.), and the Antiquities Act of 1906 (34 Stat. 225, 16 U.S.C. 431 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Federal Government shall provide leadership in preserving, restoring and maintaining the historic and cultural environment of the Nation. Agencies of the executive branch of the Government (hereinafter referred to as “Federal agencies”) shall (1) administer the cultural properties under their control in a spirit of stewardship and trusteeship for future generations, (2) initiate measures necessary to direct their policies, plans and programs in such a way that federally owned sites, structures, and objects of historical, architectural or archaeological significance are preserved, restored and maintained for the inspiration and benefit of the people, and (3), in consultation with the Advisory Council on Historic Preservation (16 U.S.C. 470i), institute procedures to assure that Federal plans and programs contribute to the preservation and enhancement of non-federally owned sites, structures and objects of historical, architectural or archaeological significance.

SEC. 2. *Responsibilities of Federal agencies.* Consonant with the provisions of the acts cited in the first paragraph of this order, the heads of Federal agencies shall:

(a) no later than July 1, 1973, with the advice of the Secretary of the Interior, and in cooperation with the liaison officer for historic preservation for the State or territory involved, locate, inventory, and nominate to the Secretary of the Interior all sites, buildings, districts, and objects under their jurisdiction or control that appear to qualify for listing on the National Register of Historic Places.

(b) exercise caution during the interim period until inventories and evaluations required by subsection (a) are completed to assure that any federally owned property that might qualify for nomination is not inadvertently transferred, sold, demolished or substantially altered. The agency head shall refer any questionable actions to the Secretary of the Interior for an opinion respecting the property’s eligibility for inclusion on the National Register of Historic Places. The Secretary shall consult with the liaison officer for historic preservation for the State or territory involved in arriving at his opinion. Where, after a reasonable period in which to review and evaluate the property, the Secretary determines that the property is likely to meet the criteria prescribed for listing on the National Register of Historic Places, the Federal agency head shall reconsider the proposal in light of national environmental and preservation policy. Where, after such reconsideration, the Federal agency head proposes to transfer,

sell, demolish or substantially alter the property he shall not act with respect to the property until the Advisory Council on Historic Preservation shall have been provided an opportunity to comment on the proposal.

(c) initiate measures to assure that where as a result of Federal action or assistance a property listed on the National Register of Historic Places is to be substantially altered or demolished, timely steps be taken to make or have made records, including measured drawings, photographs and maps, of the property, and that copy of such records then be deposited in the Library of Congress as part of the Historic American Buildings Survey or Historic American Engineering Record for future use and reference. Agencies may call on the Department of the Interior for advice and technical assistance in the completion of the above records.

(d) initiate measures and procedures to provide for the maintenance, through preservation, rehabilitation, or restoration, of federally owned and registered sites at professional standards prescribed by the Secretary of the Interior.

(e) submit procedures required pursuant to subsection (d) to the Secretary of the Interior and to the Advisory Council on Historic Preservation no later than January 1, 1972, and annually thereafter, for review and comment.

(f) cooperate with purchasers and transferees of a property listed on the National Register of Historic Places in the development of viable plans to use such property in a manner compatible with preservation objectives and which does not result in an unreasonable economic burden to public or private interests.

SEC. 3. *Responsibilities of the Secretary of the Interior.*
The Secretary of the Interior shall:

(a) encourage State and local historic preservation officials to evaluate and survey federally owned historic properties and, where appropriate, to nominate such properties for listing on the National Register of Historic Places.

(b) develop criteria and procedures to be applied by Federal agencies in the reviews and nominations required by section 2(a). Such criteria and procedures shall be developed in consultation with the affected agencies.

(c) expedite action upon nominations to the National Register of Historic Places concerning federally owned properties proposed for sale, transfer, demolition or substantial alteration.

(d) encourage State and Territorial liaison officers for historic preservation to furnish information upon request to Federal agencies regarding their properties which have been evaluated with respect to historic, architectural or archaeological significance and which as a result of such evaluations have not been found suitable for listing on the National Register of Historic Places.

(e) develop and make available to Federal agencies and State and local governments information concerning professional methods and techniques for preserving, improving, restoring and maintaining historic properties.

(f) advise Federal agencies in the evaluation, identification, preservation, improvement, restoration and maintenance of historic properties.

(g) review and evaluate the plans of transferees of surplus Federal properties transferred for historic monument purposes to assure that the historic character of such properties is preserved in rehabilitation, restoration, improvement, maintenance and repair of such properties.

(h) review and comment upon Federal agency procedures submitted pursuant to section 2(e) of this order.

PART A—PROGRAMS

§ 470a. Historic preservation program

(a) **National Register of Historic Places; designation of properties as historic landmarks; properties deemed included; criteria; nomination of properties by States, local governments or individuals; regulations; review of threats to properties**

(1)(A) The Secretary of the Interior is authorized to expand and maintain a National Register of Historic Places composed of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture. Notwithstanding section 1125(c) of title 15, buildings and structures on or eligible for inclusion on the National Register of Historic Places (either individually or as part of a historic district), or designated as an individual landmark or as a contributing building in a historic district by a unit of State or local gov-

ernment, may retain the name historically associated with the building or structure.

(B) Properties meeting the criteria for National Historic Landmarks established pursuant to paragraph (2) shall be designated as “National Historic Landmarks” and included on the National Register, subject to the requirements of paragraph (6). All historic properties included on the National Register on December 12, 1980, shall be deemed to be included on the National Register as of their initial listing for purposes of this subchapter. All historic properties listed in the Federal Register of February 6, 1979, as “National Historic Landmarks” or thereafter prior to the effective date of this Act are declared by Congress to be National Historic Landmarks of national historic significance as of their initial listing as such in the Federal Register for purposes of this subchapter and sections 461 to 467 of this title; except that in cases of National Historic Landmark districts for which no boundaries have been established, boundaries must first be published in the Federal Register.

(2) The Secretary in consultation with national historical and archaeological associations, shall establish or revise criteria for properties to be included on the National Register and criteria for National Historic Landmarks, and shall also promulgate or revise regulations as may be necessary for—

(A) nominating properties for inclusion in, and removal from, the National Register and the recommendation of properties by certified local governments;

(B) designating properties as National Historic Landmarks and removing such designation;

(C) considering appeals from such recommendations, nominations, removals, and designations (or any failure or refusal by a nominating authority to nominate or designate);

(D) nominating historic properties for inclusion in the World Heritage List in accordance with the terms of the Convention concerning the Protection of the World Cultural and Natural Heritage;

(E) making determinations of eligibility of properties for inclusion on the National Register; and

(F) notifying the owner of a property, any appropriate local governments, and the general public, when the property is being considered for inclusion on the National Register, for designation as a National Historic Landmark or for nomination to the World Heritage List.

(3) Subject to the requirements of paragraph (6), any State which is carrying out a program approved under subsection (b) of this section, shall nominate to the Secretary properties which meet the criteria promulgated under subsection (a) of this section for inclusion on the National Register. Subject to paragraph (6), and any property nominated under this paragraph or under section 470h-2(a)(2) of this title shall be included on the National Register on the date forty-five days after receipt by the Secretary of the nomination and the necessary documentation, unless the Secretary disapproves such nomination within such forty-five day period or unless an appeal is filed under paragraph (5).

(4) Subject to the requirements of paragraph (6) the Secretary may accept a nomination directly from any person or local government for inclusion of a property on the National Register only if such property is located in a State where there is no program approved under subsection (b) of this section. The Secretary may include on the National Register any property for which such a nomination is made if he determines that such property is eligible in accordance with the regulations promulgated under paragraph (2). Such determination shall be made within ninety days from the date of the nomination unless the nomination is appealed under paragraph (5).

(5) Any person or local government may appeal to the Secretary a nomination of any historic property for inclusion on the National Register and may appeal to the Secretary the failure or refusal of a nominating authority to nominate a property in accordance with this subsection.

(6) The Secretary shall promulgate regulations requiring that before any property or district may be included on the National Register or designated as a National Historic Landmark, the owner or owners of such property, or a majority of the owners of the properties within the district in the case of an historic district, shall be given the opportunity (including a reasonable period of time) to concur in, or object to, the nomination of the property or district for such inclusion or designation. If the owner or owners of any privately owned property, or a majority of the owners of such properties within the district in the case of an historic district, object to such inclusion or designation, such property shall not be included on the National Register or designated as a National Historic Landmark until such objection is withdrawn. The Secretary shall review the nomination of the property or district where any such objection has been made and shall determine whether or not the property or district is eligible for such inclusion or designation, and if the Secretary determines that such property or district is eligible for such inclusion or designation, he shall inform the Advisory Council on Historic Preservation, the appropriate State Historic Preservation Officer, the appropriate chief elected local official and the owner or owners of such property, of his determination. The regulations under this paragraph shall include provisions to carry out the purposes of this paragraph in the case of multiple ownership of a single property.

(7) The Secretary shall promulgate, or revise, regulations—

(A) ensuring that significant prehistoric and historic artifacts, and associated records, subject to section 470h-2 of this title, the Act of June 27, 1960 (16 U.S.C. 469c) [16 U.S.C. 469 et seq.], and the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa and following) are deposited in an institution with adequate long-term curatorial capabilities;

(B) establishing a uniform process and standards for documenting historic properties by public agencies and private parties for purposes of incorporation into, or complementing, the national historical architectural and engineering records within the Library of Congress; and

(C) certifying local governments, in accordance with subsection (c)(1) of this section and for the allocation of funds pursuant to section 470c(c) of this title.

(8) The Secretary shall, at least once every 4 years, in consultation with the Council and with State Historic Preservation Officers, review significant threats to properties included in, or eligible for inclusion on, the National Register, in order to—

(A) determine the kinds of properties that may be threatened;

(B) ascertain the causes of the threats; and

(C) develop and submit to the President and Congress recommendations for appropriate action.

(b) Regulations for State Historic Preservation Programs; periodic evaluations and fiscal audits of State programs; administration of State programs; contracts and cooperative agreements with nonprofit or educational institutions and State Historic Preservation Officers; treatment of State programs as approved programs

(1) The Secretary, in consultation with the National Conference of State Historic Preservation Officers and the National Trust for Historic Preservation, shall promulgate or revise regulations for State Historic Preservation Programs. Such regulations shall provide that a State program submitted to the Secretary under this section shall be approved by the Secretary if he determines that the program—

(A) provides for the designation and appointment by the Governor of a “State Historic Preservation Officer” to administer such program in accordance with paragraph (3) and for the employment or appointment by such officer of such professionally qualified staff as may be necessary for such purposes;

(B) provides for an adequate and qualified State historic preservation review board designated by the State Historic Preservation Officer unless otherwise provided for by State law; and

(C) provides for adequate public participation in the State Historic Preservation Program, including the process of recommending properties for nomination to the National Register.

(2)(A) Periodically, but not less than every 4 years after the approval of any State program under this subsection, the Secretary, in consultation with the Council on the appropriate provisions of this subchapter, and in cooperation with the State Historic Preservation Officer, shall evaluate the program to determine whether it is consistent with this subchapter.

(B) If, at any time, the Secretary determines that a major aspect of a State program is not consistent with this subchapter, the Secretary shall disapprove the program and suspend in whole or in part any contracts or cooperative agreements with the State and the State Historic Preservation Officer under this subchapter, until the program is consistent with this subchapter, unless the Secretary determines that the program will be made consistent with this subchapter within a reasonable period of time.

(C) The Secretary, in consultation with State Historic Preservation Officers, shall establish oversight methods to ensure State program consistency and quality without imposing undue review burdens on State Historic Preservation Officers.

(D) At the discretion of the Secretary, a State system of fiscal audit and management may be substituted for comparable Federal systems so long as the State system—

(i) establishes and maintains substantially similar accountability standards; and

(ii) provides for independent professional peer review.

The Secretary may also conduct periodic fiscal audits of State programs approved under this section as needed and shall ensure that such programs meet applicable accountability standards.

(3) It shall be the responsibility of the State Historic Preservation Officer to administer the State Historic Preservation Program and to—

(A) in cooperation with Federal and State agencies, local governments, and private organizations and individuals, direct and conduct a comprehensive statewide survey of historic properties and maintain inventories of such properties;

(B) identify and nominate eligible properties to the National Register and otherwise administer applications for listing historic properties on the National Register;

(C) prepare and implement a comprehensive statewide historic preservation plan;

(D) administer the State program of Federal assistance for historic preservation within the State;

(E) advise and assist, as appropriate, Federal and State agencies and local governments in carrying out their historic preservation responsibilities;

§ 470aa. Congressional findings and declaration of purpose

(a) The Congress finds that—

(1) archaeological resources on public lands and Indian lands are an accessible and irreplaceable part of the Nation's heritage;

(2) these resources are increasingly endangered because of their commercial attractiveness;

(3) existing Federal laws do not provide adequate protection to prevent the loss and destruction of these archaeological resources and sites resulting from uncontrolled excavations and pillage; and

(4) there is a wealth of archaeological information which has been legally obtained by private individuals for noncommercial purposes and which could voluntarily be made available to professional archaeologists and institutions.

(b) The purpose of this chapter is to secure, for the present and future benefit of the American people, the protection of archaeological resources and sites which are on public lands and Indian lands, and to foster increased cooperation and exchange of information between governmental authorities, the professional archaeological community, and private individuals having collections of archaeological resources and data which were obtained before October 31, 1979.

(Pub. L. 96-95, §2, Oct. 31, 1979, 93 Stat. 721.)

(6) The term “person” means an individual, corporation, partnership, trust, institution, association, or any other private entity or any officer, employee, agent, department, or instrumentality of the United States, of any Indian tribe, or of any State or political subdivision thereof.

§ 470ff. Civil penalties

(a) Assessment by Federal land manager

(1) Any person who violates any prohibition contained in an applicable regulation or permit issued under this chapter may be assessed a civil penalty by the Federal land manager concerned. No penalty may be assessed under this subsection unless such person is given notice and opportunity for a hearing with respect to such violation. Each violation shall be a separate offense. Any such civil penalty may be remitted or mitigated by the Federal land manager concerned.

(2) The amount of such penalty shall be determined under regulations promulgated pursuant to this chapter, taking into account, in addition to other factors—

(A) the archaeological or commercial value of the archaeological resource involved, and

(B) the cost of restoration and repair of the resource and the archaeological site involved.

Such regulations shall provide that, in the case of a second or subsequent violation by any person, the amount of such civil penalty may be double the amount which would have been assessed if such violation were the first violation by such person. The amount of any penalty assessed under this subsection for any violation shall not exceed an amount equal to double the cost of restoration and repair of resources and archaeological sites damaged and double the fair market value of resources destroyed or not recovered.

(3) No penalty shall be assessed under this section for the removal of arrowheads located on the surface of the ground.

The court shall hear such action on the record made before the Federal land manager and shall sustain his action if it is supported by substantial evidence on the record considered as a whole.

(2) If any person fails to pay an assessment of a civil penalty—

(A) after the order making the assessment has become a final order and such person has not filed a petition for judicial review of the order in accordance with paragraph (1), or

(B) after a court in an action brought under paragraph (1) has entered a final judgment upholding the assessment of a civil penalty,

the Federal land managers may request the Attorney General to institute a civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty and such court shall have jurisdiction to hear and decide any such action. In such action, the validity and amount of such penalty shall not be subject to review.

(c) Hearings

Hearings held during proceedings for the assessment of civil penalties authorized by subsection (a) of this section shall be conducted in accordance with section 554 of title 5. § 471i. Pine Barrens Area, New Jersey

(a) Congressional findings

The Congress finds that—

(1) the Pinelands area in New Jersey, containing approximately 1,000,000 acres of pine-oak forest, extensive surface and ground water resources of high quality, and a wide diversity of rare plant and animal species, provides significant ecological, natural, cultural, recreational, educational, agricultural, and public health benefits;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area;

(3) a primary responsibility for protecting and enhancing these benefits resides with the State of New Jersey and the various local units of government having jurisdiction over the area;

(4) in view of the longstanding Federal practice of assisting the States in creating, protecting, preserving, and enhancing areas of significant regional and urban importance, and in view of the national significance of this resource, the Federal Government has an interest in assisting the State of New Jersey and its local units of government in fulfilling their responsibilities and in avoiding adverse Federally approved or assisted impacts before these responsibilities can be undertaken;

(5) the State of New Jersey and its local units of government have authority to prevent

or minimize adverse uses of the land and water resources of the Pinelands area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority; and

(6) there is a demonstrated need to protect, preserve and enhance the land and water resources of the Pinelands area through a new program which combines the capabilities and resources of the local, State and Federal governments and the private sector and provides an alternative to large-scale direct Federal acquisition and management in cases where such acquisition and management is inappropriate.

(b) Purposes

The purposes of this section are—

(1) to protect, preserve and enhance the significant values of the land and water resources of the Pinelands area;

(2) to encourage and assist the State of New Jersey and its units of local government in the development of a comprehensive management plan for the Pinelands area in order to assure orderly public and private development in the area consistent with the findings of this section;

(3) to provide, during the development of this comprehensive plan, Federal financial assistance for the acquisition of lands in the Pinelands area that have critical ecological values which are in immediate danger of being adversely affected or destroyed;

(4) to encourage and assist the State and its units of local government in developing a governmental mechanism to implement this comprehensive plan, and to provide Federal financial assistance for the acquisition of lands consistent with the comprehensive plan;

(5) to encourage adequate coordination of all government programs affecting the land and water resources of the Pinelands area.

(c) Pinelands National Reserve and Federal Project Review Area; establishment; map, availability

There is hereby established the Pinelands National Reserve which shall consist of the approximately 1,000,000-acre area generally depicted on the map entitled "Pinelands National Reserve Boundary Map" numbered NPS/80,011A and dated September 1978. Within the Pinelands National Reserve, there is hereby established the Federal Project Review Area, which shall consist of the approximately 486,000 acre area also depicted on the map. In order to carry out the purposes of this section, such planning entity shall be composed of fifteen members to be appointed as follows: one member appointed by the Secretary; one member from each of the seven counties in the Pinelands National Reserve to be appointed by the respective governing bodies of each county; and seven members to be appointed by the Governor. The membership of the planning entity shall include residents of the Pinelands National Reserve who represent economic activities such as agriculture in the area, as well as residents of New Jersey who represent conservation interests. The Secretary shall provide technical assistance and grants to the State for the development of the plan or revisions thereof: *Provided*, That such grants shall not exceed 75 percent of the cost of developing the plan, shall be made only upon application of the Governor, on behalf of the planning entity, and shall be subject to such other conditions as the Secretary may deem appropriate to assure State and local interim protection of the area.

A local jurisdiction or the State shall obtain the approval of the Secretary prior to any modification of the approved plan. The Secretary shall consider a plan revision in accordance with the procedure set forth in paragraph (2). Such revisions must be consistent with the purposes of this section. Any jurisdiction that implements changes to the approved management plan, or adopts or acquiesces in changes to laws, regulations, or policies adopted to implement such plan, without approval of the Secretary, may be liable for reimbursement or offset of all Federal funds previously granted to it under this section without regard to such additional terms and conditions or other requirements of law that may be applicable to such grants.

(h) Grants for State acquisition of property; Secretary's acquisition and administration of property; conveyance by Secretary, terms and conditions; State reimbursement; grant authorization and applications; limitation

If the planning entity finds that such application or proposed action would have no adverse impact on the resources and ecological values of the Federal Project Review Area, the planning entity shall so notify the Clearinghouse. If the planning entity does not so find, Congress authorizes the planning entity to notify the Clearinghouse and other affected parties that such application or proposed action shall not proceed pending further review, and the planning entity shall forward such application or notice of proposed action to the Secretary. § 471j. Headwaters Forest and Elk River Property acquisition

(a) Authorization

Subject to the terms and conditions of this section, up to \$250,000,000 from the Land and Water Conservation Fund is authorized to be appropriated to acquire lands referenced in the Agreement of September 28, 1996, which consist of approximately 4,500 acres commonly referred to as the “Headwaters Forest”, approximately 1,125 acres referred to as the “Elk Head Forest”, and approximately 9,600 acres referred to as the “Elk River Property”, which are located in Humboldt County, California. This section is the sole authorization for the acquisition of such property, which is the subject of the Agreement dated September 28, 1996 between the United States of America (hereinafter “United States”), the State of California, MAXXAM, Inc., and the Pacific Lumber Company. Of the entire Elk River Property, the United States and the State of California are to retain approximately 1,845 acres and transfer the remaining approximately 7,755 acres of Elk River Property to the Pacific Lumber Company. The property to be acquired and retained by the United States and the State of California is that property that is the subject of the Agreement of September 28, 1996 as generally depicted on maps labeled as sheets 1 through 7 of Township 3 and 4 North, Ranges 1 East and 1 West, of the Humboldt Meridian, California, titled “Dependent Resurvey and Tract Survey”, as approved by Lance J. Bishop, Chief Cadastral Surveyor—California, on August 29, 1997. Such maps shall be on file in the Office of the Chief Cadastral Surveyor, Bureau of Land Management, Sacramento, California. The Secretary of the Interior is authorized to make such typographical and other corrections to this description as are mutually agreed upon by the parties to the Agreement of September 28, 1996. The land retained by the United States and the State of California (approximately 7,470 acres) shall hereafter be the “Headwaters Forest”. Any funds appropriated by the Federal Government to acquire lands or interests in lands that enlarge the Headwaters Forest by more than five acres per each acquisition shall be subject to specific authorization enacted subsequent to this Act, except that such funds may be used pursuant to existing authorities to acquire such lands up to five acres per each acquisition or interests in lands that may be necessary for roadways to provide access to the Headwaters Forest.

(b) Effective period of authorization

The authorization in subsection (a) of this section expires March 1, 1999 and shall become effective only—

- (1) when the State of California provides a \$130,000,000 contribution for the transaction;
- (2) when the State of California approves a Sustained Yield Plan covering Pacific Lumber Company timber property;
- (3) when the Pacific Lumber Company dismisses the following legal actions as evidenced

by instruments in form and substance satisfactory to each of the parties to such legal actions: Pacific Lumber Co. v. United States, No. 96-257L (Fed. Cls.) and Salmon Creek Corp. v. California Board of Forestry, No. 96-CS-1057 (Cal. Super. Ct.);

(4) when the incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] (based upon a multispecies Habitat Conservation Plan covering Pacific Lumber Company timber property, including applicable portions of the Elk River Property) is issued by the United States Fish and Wildlife Service and the National Marine Fisheries Service;

(5) after an appraisal of all lands and interests therein to be acquired by the United States has been undertaken, such appraisal has been reviewed for a period not to exceed 30 days by the Comptroller General of the United States, and such appraisal has been provided to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate;

(6) after the Secretary of the Interior issues an opinion of value to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate for the land and property to be acquired by the Federal Government. Such opinion of value shall also include the total value of all compensation (including tax benefits) proposed to be provided for the acquisition;

(7) after an Environmental Impact Statement for the proposed Habitat Conservation Plan has been prepared and completed in accordance with the applicable provisions of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]; and

(8) when adequate provision has been made for public access to the property.

(c) Acquisition

Notwithstanding any other provision of law, the amount paid by the United States to acquire identified lands and interests in lands referred to in subsection (a) of this section may differ from the value contained in the appraisal required by subsection (b)(5) of this section if the Secretary of the Interior certifies, in writing, to Congress that such action is in the best interest of the United States.

(d) Habitat conservation plan

(1) Applicable standards

Within 60 days after November 14, 1997, the Secretary of the Interior and the Secretary of Commerce shall report to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives on the scientific and legal standards and criteria for threatened, endangered, and candidate species under the Endangered Species Act [16 U.S.C. 1531 et seq.] and any other species used to develop the habitat conservation plan (hereinafter “HCP”) and the section 10(a) [16 U.S.C. 1539(a)] incidental take permit for the Pacific Lumber Company land.

(2) Report

If the Pacific Lumber Company submits an application for an incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] for the transaction authorized by subsection (a) of this section, and the permit is not issued, then the United States Fish and Wildlife Service and the National Marine Fisheries Service shall set forth the substantive rationale or rationales for why the measures proposed by the applicant for such permit did not meet the issuance criteria for the species at issue. Such report shall be submitted to the Congress within 60 days of the decision not to issue such permit or by May 1, 1999, whichever is earlier.

(3) HCP standards

If a section 10(a) permit for the Pacific Lumber Company HCP is issued, it shall be deemed to be unique to the circumstances associated with the acquisition authorized by this section and shall not establish a higher or lesser standard for any other multispecies HCPs than would otherwise be established under existing law.

(e) Payment to Humboldt County

Within 30 days of the acquisition of the Headwaters Forest, the Secretary of the Interior shall provide a \$10,000,000 direct payment to Humboldt County, California.

(f) Payment in lieu of taxes

The Federal portion of the Headwaters Forest acquired pursuant to this section shall be entitlement land under section 6905 of title 31.

(g) Out-year budget limitations

The following funding limitations and parameters shall apply to the Headwaters Forest acquired under subsection (a) of this section—

(1) At least 50 percent of the total funds for management of such lands above the annual level of \$100,000 shall (with the exception of law enforcement activities and emergency activities) be from non-Federal sources.

(2) Subject to appropriations, the authorized annual Federal funding for management of such land is \$300,000 (with the exception of law enforcement activities and emergency activities).

(3) The Secretary of the Interior or the Headwaters Forest Management Trust referenced in subsection (h) of this section is authorized to accept and use donations of funds and personal property from the State of California, private individuals, and other non-governmental entities for the purpose of management of the Headwaters Forest.

(h) Headwaters Forest Management Trust

The Secretary of the Interior is authorized, with the written concurrence of the Governor of the State of California, to establish a Headwaters Forest Management Trust (“Trust”) for the management of the Headwaters Forest as follows:

(1) Management authority

The Secretary of the Interior is authorized to vest management authority and responsibility in the Trust composed of a board of

five trustees each appointed for terms of three years. Two trustees shall be appointed by the Governor of the State of California. Three trustees shall be appointed by the President of the United States. The first group of trustees shall be appointed within 60 days of exercising the authority under this subsection and the terms of the trustees shall begin on such day. The Secretary of the Interior, the Secretary of Resources of the State of California, and the Chairman of the Humboldt County Board of Supervisors shall be nonvoting, ex officio members of the board of trustees. The Secretary is authorized to make grants to the Trust for the management of the Headwaters Forest from amounts authorized and appropriated.

(2) Operations

The Trust shall have the power to develop and implement the management plan for the Headwaters Forest.

(i) Management plan**(1) In general**

A concise management plan for the Headwaters Forest shall be developed and periodically amended as necessary by the Secretary of the Interior in consultation with the State of California (and in the case that the authority provided in subsection (h) of this section is exercised, the trustees shall develop and periodically amend the management plan), and shall meet the following requirements:

(A) Management goals for the plan shall be to conserve and study the land, fish, wildlife, and forests occurring on such land while providing public recreation opportunities and other management needs.

(B) Before a management structure and management plan are adopted for such land, the Secretary of the Interior or the board of trustees, as the case may be, shall submit a proposal for the structure and plan to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives. The proposed management plan shall not become effective until the passage of 90 days after its submission to the Committees.

(C) The Secretary of the Interior or the board of trustees, as the case may be, shall report annually to the Committee on Energy and Natural Resources of the Senate, the Committee on Resources of the House of Representatives, and the House and Senate Committees on Appropriations concerning the management of lands acquired under the authority of this section and activities undertaken on such lands.

(2) Plan

The management plan shall guide general management of the Headwaters Forest. Such plan shall address the following management issues—

(A) scientific research on forests, fish, wildlife, and other such activities that will be fostered and permitted on the Headwaters Forest;

(B) providing recreation opportunities on the Headwaters Forest;

- (C) access to the Headwaters Forest;
- (D) construction of minimal necessary facilities within the Headwaters Forest so as to maintain the ecological integrity of the Headwaters Forest;
- (E) other management needs; and
- (F) an annual budget for the management of the Headwaters Forest, which shall include a projected revenue schedule (such as fees for research and recreation) and projected expenses.

(3) Compliance

The National Environmental Policy Act [42 U.S.C. 4321 et seq.] shall apply to the development and implementation of the management plan.

(j) Cooperative management

(1) The Secretary of the Interior may enter into agreements with the State of California for the cooperative management of any of the following: Headwaters Forest, Redwood National Park, and proximate State lands. The purpose of such agreements is to acquire from and provide to the State of California goods and services to be used by the Secretary and the State of California in cooperative management of lands if the Secretary determines that appropriations for that purpose are available and an agreement is in the best interests of the United States; and

(2) an assignment arranged by the Secretary under section 3372 of title 5 of a Federal or State employee for work in any Federal or State of California lands, or an extension of such assignment, may be for any period of time determined by the Secretary or the State of California, as appropriate, to be mutually beneficial.

§ 472a. Timber sales on National Forest System lands

(a) Authorization; rules and regulations; appraised value as minimum sale price

For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528-531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476) [16 U.S.C. 1600 et seq.], the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) Designation on map; prospectus

All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) Terms and conditions of contract

The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended [16 U.S.C. 1604]. Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the

¹ See References in Text note below.

provisions of the Multiple-Use Sustained-Yield Act of 1960 [16 U.S.C. 528-531]) will result, sales contracts shall be for a period not to exceed ten years: *Provided*, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

(d) Advertisement of sales; exceptions

The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than \$10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) Bidding methods; purposes; oral auction procedures; monitoring and enforcement for prevention of collusive practices

(1) In the sale of trees, portions of trees, or forest products from National Forest System lands (hereinafter referred to in this subsection as "national forest materials"), the Secretary of Agriculture shall select the bidding method or methods which—

(A) insure open and fair competition;

(B) insure that the Federal Government receive not less than the appraised value as required by subsection (a) of this section;

(C) consider the economic stability of communities whose economies are dependent on such national forest materials, or achieve such other objectives as the Secretary deems necessary; and

(D) are consistent with the objectives of this Act and other Federal statutes.

The Secretary shall select or alter the bidding method or methods as he determines necessary to achieve the objectives stated in clauses (A), (B), (C), and (D) of this paragraph.

(2) In those instances when the Secretary selects oral auction as the bidding method for the sale of any national forest materials, he shall require that all prospective purchasers submit written sealed qualifying bids. Only prospective purchasers whose written sealed qualifying bids are equal to or in excess of the appraised value of such national forest materials may participate in the oral bidding process.

(3) The Secretary shall monitor bidding patterns involved in the sale of national forest materials. If the Secretary has a reasonable belief that collusive bidding practices may be occurring, then—

(A) he shall report any such instances of possible collusive bidding or suspected collusive

bidding practices to the Attorney General of the United States with any and all supporting data;

(B) he may alter the bidding methods used within the affected area; and

(C) he shall take such other action as he deems necessary to eliminate such practices within the affected area.

(f) Research and demonstration projects

The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking, and supervision of harvesting; personnel

Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) Utilization standards, methods of measurement, and harvesting practices; monetary deposits by purchasers of salvage harvests; nature, purposes and availability of designated fund; return of surplus to Treasury

The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of this title: *And provided further*, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i) Purchaser credit for permanent road construction; right of election of small business concerns; estimated cost; date of completion; use of funds for construction; effective date

(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of \$20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as “small business concerns” under the Small Business Act, as amended [15 U.S.C. 631 et seq.], and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

§ 478a. Townsites

When the Secretary of Agriculture determines that a tract of National Forest System land in Alaska or in the eleven contiguous Western States is located adjacent to or contiguous to an established community, and that transfer of such land would serve indigenous community objectives that outweigh the public objectives and values which would be served by maintaining such tract in Federal ownership, he may, upon application, set aside and designate as a townsite an area of not to exceed six hundred and forty acres of National Forest System land for any one application. After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: *Provided, however,* That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands.

BULL RUN WATERSHED MANAGEMENT UNIT

Pub. L. 95-200, Nov. 23, 1977, 91 Stat. 1425, as amended by Pub. L. 104-208, div. B, title VI, §§ 601 to 604, Sept. 30, 1996, 110 Stat. 3009-541; Pub. L. 104-333, div. I, title X, § 1026(a), Nov. 12, 1996, 110 Stat. 4228, provided that:

“PREAMBLE

“The Congress finds that an area of land in the State of Oregon known variously as the Bull Run National Forest and the Bull Run Forest Reserve is presently the source of the sole domestic water supply for the city of Portland, Oregon (hereinafter called the ‘city’) and other local governmental units and persons in the Portland metropolitan area, reserved for the city by a Presidential proclamation issued in 1892 and furnishing an extremely valuable resource of pure clear raw potable water, the continued production of which should be the principal management objective in the area hereinafter referred to as ‘the unit’; that the said area is now managed under terms of a Federal court decree issued pursuant to turn of the century law which does not ap-

propriately address present and future needs and opportunities for the protection, management, and utilization of the resources contained therein.

“DESIGNATION OF UNIT

“SECTION 1. There is hereby established, subject to valid existing rights, a special resources management unit within the Mount Hood National Forest, State of Oregon, comprising approximately 95,382 acres as depicted on a map dated April 1977, and entitled ‘Bull Run Watershed Management Unit, Mount Hood National Forest’, which is on file and available for public inspection in the offices of the Chief, and the Regional Forester—Pacific Northwest Region, Forest Service, Department of Agriculture, minor adjustments in the boundaries of which may be made from time to time by the Secretary of Agriculture (hereinafter the ‘Secretary’) after consultation with the city and appropriate public notice and hearings.

“MANAGEMENT

“SEC. 2. (a) The unit and the renewable resources therein, shall be administered as a watershed by the Secretary of Agriculture in accordance with the laws, rules, and regulations applicable to National Forest System lands except to the extent that any management plan or practice is found by the Secretary to have a significant adverse effect on compliance with the water quality standards referred to in section 2(c) hereof or on the quantity of the water produced thereon for the use of the city, and other local government units and persons using such water under agreements with the city (and the Secretary shall take into consideration the cumulative effect of individually insignificant degradations), in which case, and notwithstanding any other provision of law, the management plan and all relevant leases, permits, contracts, rights-of-way, or other rights or authorizations issued pursuant thereto shall forthwith be altered by the Secretary to eliminate such adverse effect by application of different techniques or prohibitions of one or more such practices or uses: *Provided, however*, That use of such water for the production of energy and the transmission of such energy through and over the unit are deemed consistent with the purposes of this Act and the rights-of-way heretofore granted to Bonneville Power Administration by the Forest Service through and over the unit are validated and confirmed and deemed consistent with the purposes of this Act.

“(b) TIMBER CUTTING.—

“(1) IN GENERAL.—Subject to paragraph (2), the Secretary of Agriculture shall prohibit the cutting of trees in that part of the unit consisting of the hydrographic boundary of the Bull Run River Drainage, including certain lands within the unit and located below the headworks of the city of Portland, Oregon’s water storage and delivery project, and as depicted in a map dated July 22, 1996, and entitled ‘Bull Run River Drainage’.

“(2) PERMITTED CUTTING.—

“(A) IN GENERAL.—Subject to subparagraph (B), the Secretary of Agriculture shall prohibit the cutting of trees in the area described in subparagraph (1).

“(B) PERMITTED CUTTING.—Subject to subparagraph (C), the Secretary may only allow the cutting of trees in the area described in subparagraph (1)—

“(i) for the protection or enhancement of water quality in the area described in subparagraph (1); or

“(ii) for the protection, enhancement, or maintenance of water quantity available from the area described in subparagraph (1); or

“(iii) for the construction, expansion, protection or maintenance of municipal water supply facilities; or

“(iv) for the construction, expansion, protection or maintenance of facilities for the transmission of energy through and over the unit or previously

authorized hydroelectric facilities or hydroelectric projects associated with municipal water supply facilities.

“(C) SALVAGE SALES.—The Secretary of Agriculture may not authorize a salvage sale in the area described in subparagraph (1).

“(c) The policy set forth in subsection [sic] (a) and (b) shall be attained through the development, maintenance, and periodic revision of land management plans in accordance with procedures set forth in section 5 [6] of the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 477, as amended; 16 U.S.C. 1604), through the maintenance of systems for monitoring and evaluating water quality, and through supporting scientific research as the Secretary may deem necessary after consultation and in coordination with the city. In the development and revision of land management plans for the unit, the Secretary, except as otherwise provided in section 2(a) hereof, shall provide for public participation and shall consult and coordinate with appropriate officials and advisors of the city, and shall consider such data and research as the city may collect through its own monitoring systems and scientific efforts, if any. Such plans shall be prepared by an interdisciplinary team; be embodied in appropriate written material, including maps and other descriptive documents; shall contain water quality standards developed by the Secretary after consultation and in cooperation with the city, which standards shall be substantially based on and shall reflect a quality of water not significantly less than the quality reflected by percentile curves developed from data collected from 1967 through 1975 and, if none, from data collected in the first three years of record thereafter; and be available to the public at convenient locations. The initial plan or plans shall be completed as soon as practicable after the enactment of this Act [Nov. 23, 1977], but not later than September 30, 1979. Current data shall be compared to historical data at least annually for the purpose of determining compliance with the standards and the significance of any deviation therefrom. Deviations occurring from operation, maintenance, alteration, or construction of water storage, or electrical generation and transmission facilities, seasonal fluctuations, variations in climate, and other natural phenomena, fire, or acts of God, shall not be considered in determining the historical or current percentile curves.

“(d) The Secretary or his representative shall, upon request, and at least annually, meet with appropriate officials of the city for the purpose of reviewing planned management programs and the impact thereof on the quality and quantity of the water produced on the unit and assuring that their respective management and operational activities within the unit are appropriately coordinated. The Secretary shall negotiate in good faith cooperative agreements with appropriate officials of the city to effectuate activity coordination.

“(e) In the event there is disagreement between the city and the Secretary with respect to the development or revision of the water quality standards provided for herein, or with respect to the effect or the significance of such effect of one or more proposed or existing programs, practices, uses, regulations, or boundary adjustments (except as otherwise specifically provided for herein), on the quantity of the water produced on said unit, or on compliance with the water quality standards referred to in section 2(a) and (b) [now (c)] hereof and, therefore, with respect to the necessity for an alteration or prohibition of any such program, practice, use, regulation, or boundary adjustment as required in section 2(a) hereof, an arbitration board for resolving such disagreements shall be established. The Secretary and the city shall, each, forthwith appoint one member to such board and those two members shall select a third. § 484a. Exchange of lands in national forests; public schools; deposit of funds by school authority with insufficient exchange land; limitations on use

Whenever an exchange of land is proposed by a State, county, or municipal government or public school district or other public school authority under sections 485 and 486 of this title or other authority under which the Secretary of Agriculture is authorized to exchange national forest lands or other lands administered by the Forest Service, if the State, county, or municipal government or public school authority proposing the exchange has insufficient land to offer, the exchange may be completed upon deposit with the Secretary of Agriculture of a portion or all of the value of the selected land. § 485. Exchange of lands in national forests; cutting timber in national forests in exchange for lands therein

When the public interests will be benefited thereby, the Secretary of Agriculture is authorized in his discretion to accept on behalf of the United States title to any lands within the exterior boundaries of the national forests which, in his opinion, are chiefly valuable for national-forest purposes, and in exchange therefor may patent not to exceed an equal value of such national-forest land, in the same State, surveyed and nonmineral in character, or he may authorize the grantor to cut and remove an equal value of timber within the national forests of the same State; the values in each case to be determined by him. Before any such exchange is effected notice of the contemplated exchange reciting the lands involved shall be published once each week for four successive weeks in some newspaper of general circulation in the county or counties in which may be situated the lands to be accepted, and in some like newspaper published in any county in which may be situated any lands or timber to be given in such exchange. Timber given in such exchanges shall be cut and removed under the laws and regulations relating to the national forests, and under the direction and supervision and in accordance with the requirements of the Secretary of Agriculture. Lands conveyed to the United States under this section and section 486 of this title shall, upon acceptance of title, become parts of the national forest within whose exterior boundaries they are located.

TRANSFER OF LANDS IN CALAVERAS BIG TREES NATIONAL FOREST TO STATE OF CALIFORNIA

Pub. L. 101-436, Oct. 17, 1990, 104 Stat. 993, provided that:

"SECTION 1. FINDINGS AND PURPOSE.

"(a) FINDINGS.—The Congress finds and declares that—

"(1) in order to protect certain outstanding examples of ponderosa pine, sugar pine, and giant sequoia trees located in the North and South Calaveras Groves, on the western slope of the Sierra Nevada Mountains, the State of California has established the Calaveras Big Trees State Park;

"(2) for similar purposes, the United States has designated certain adjacent Federal lands, amounting to approximately 379 acres, as the Calaveras Big Trees National Forest; and

"(3) this National Forest (managed as part of the Stanislaus National Forest) is the smallest National Forest in the United States and could be more appropriately and efficiently managed as part of the Calaveras Big Trees State Park.

"(b) PURPOSE.—The purpose of this Act is to improve the management of the lands located in the Calaveras Big Trees National Forest, and to protect certain examples of ponderosa pine, sugar pine, and giant sequoia trees, by unifying the management of the lands in such National Forest and in the California Calaveras Big Trees State Park.

"SEC. 2. LAND CONVEYANCE.

"(a) CONVEYANCE.—Subject to valid existing rights and the provisions of this Act, the Secretary of Agriculture (hereinafter in this Act referred to as the 'Secretary') is authorized and directed to convey all right, title, and interest of the United States in and to lands and interests therein within the Calaveras Big Trees National Forest, as generally depicted on a map numbered 20435 and dated June 5, 1989, prepared by the California Department of Parks and Recreation, to the State of California for inclusion within the Calaveras Big Trees State Park.

"(b) MAP AND DESCRIPTION.—As soon as practicable after the enactment of this Act [Oct. 17, 1990], the Secretary shall submit a map and legal description of the lands referred to in subsection (a) to the Committee on Interior and Insular Affairs [now Committee on Natural Resources] of the United States House of Representatives, and the Committee on Energy and Natural Resources of the Senate. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary shall place such map and legal descrip-

tion on file, and make them available for public inspection, in the Office of the Chief of the Forest Service.

“(C) CONDITIONS OF CONVEYANCE.—Conveyance of the lands and interests described in subsection (a) of this section shall be subject to the following conditions:

“(1) The conveyance shall take place only if within two years after the date of enactment of this Act [Oct. 17, 1990], there is concluded an agreement between the State of California and the Secretary whereby the State of California agrees to provide to the United States, in exchange for the lands described in subsection (a) and pursuant to terms and conditions which the Secretary finds acceptable, consideration of approximately equal value. Such consideration shall include either lands in California that the Secretary finds suitable for addition to, and are contiguous to, one or more units of the National Forest System, cash payment, or monetary grants awarded to the United States after June 1, 1990, or any combination thereof.

“(2) No harvest of timber (except as may be necessary for the control of fire, insects, or disease) and no mining, mineral leasing, or geothermal exploration or development shall be permitted on such lands;

“(3) Any action by the State of California to convey any portion of such lands or interests to any entity other than the United States shall be void ab initio and shall result in the reversion to the United States of all right, title, and interest in such lands;

“(4) Any action by the State of California to permit the use of any portion of such lands for any purpose prohibited by this subsection or any purpose incompatible with the continued ability of such lands to support ponderosa pine, sugar pine, or giant sequoia trees, shall result in the reversion of all right, title, and interest in such lands to the United States. Any such lands which revert to the United States shall be incorporated into the Stanislaus National Forest and managed to preserve and protect the stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

“(5) The Secretary, acting through the Forest Service, shall be afforded by appropriate officials of the State of California reasonable opportunities to collect seeds from trees located on such lands for scientific or silvicultural purposes.

“(6) The Secretary, upon prior notification to the State of California, shall be entitled at any time to enter upon such lands for the purpose of monitoring the management of such lands and the compliance of the State of California with the provisions of this subsection.

“(7) The conveyance shall be subject to the following reservations or exceptions:

“(A) existing ditches and canals as authorized by the Act of August 30, 1890 (43 U.S.C. 945); and

“(B) any existing rights-of-way to provide the United States and its assigns access to federally owned lands.

“(d) ENFORCEMENT.—Upon the request of the Secretary, the Attorney General shall bring any action or take any other steps necessary to enforce the provisions of subsection (c) of this section.

“(e) TIMING, VALUE, AND STATUS.—(1) Conveyance of lands to the State of California pursuant to this Act shall occur when the agreement described in paragraph (1) of subsection (c) has been reached. The restrictions and conditions specified in paragraphs (2), (3), (4), (5), (6), and (7) of subsection (c) shall be included in the instruments of conveyance of lands to the State of California.

“(2) Effective upon the conveyance to the State of California of lands described in subsection (a) of this section, or two years after the date of enactment of this Act [Oct. 17, 1990], whichever is sooner, the National Forest designation of such lands shall terminate. Any such lands not conveyed to the State of California shall thereupon be incorporated into the Stanislaus National Forest and managed to preserve and protect the

stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

“(3) Any lands conveyed to the United States pursuant to this Act shall be deemed national forest lands and managed according to the laws governing the management of the National Forest System. If any such lands are outside existing boundaries of one or more National Forests, the Secretary shall modify such boundaries as he deems appropriate to include such lands.

“(4) Values of the respective lands exchanged between the United States and the State of California pursuant to this Act shall be of ‘approximately equal value’ as that term is defined by regulations implementing the Act of January 12, 1983, known as the Small Tracts Act (16 U.S.C. 521c–521i).”

§ 495. Leases of lands for sanitariums or hotels

The Secretary of Agriculture is authorized, under such rules and regulations as he from time to time may make, to rent or lease to responsible persons or corporations applying therefor suitable spaces and portions of ground near, or adjacent to, mineral, medicinal, or other springs, within any national forest established within the United States, or hereafter to be established, and where the public is accustomed or desires to frequent, for health or pleasure, for the purpose of erecting upon such leased ground sanitariums or hotels, to be opened for the reception of the public. And he is further authorized to make such regulations, for the convenience of people visiting such springs, with reference to spaces and locations, for the erection of tents or temporary dwelling houses to be erected or constructed for the use of those visiting such springs for health or pleasure. “(a) The Secretary of Agriculture shall develop and implement a pilot program for the purpose of enhancing forest service administration of rights-of-way and

other land uses. The authority for this program shall be for fiscal years 2000 through 2004. Prior to the expiration of the authority for this pilot program, the Secretary shall submit a report to the House and Senate Committees on Appropriations, and the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives that evaluates whether the use of funds under this section resulted in more expeditious approval of rights-of-way and special use authorizations. This report shall include the Secretary’s recommendation for statutory or regulatory changes to reduce the average processing time for rights-of-way and special use permit applications.

“(b) DEPOSIT OF FEES.—Subject to subsections (a) and (f), during fiscal years 2000 through 2004, the Secretary of Agriculture shall deposit into a special account established in the Treasury all fees collected by the Secretary to recover the costs of processing applications for, and monitoring compliance with, authorizations to use and occupy National Forest System lands pursuant to section 28(l) of the Mineral Leasing Act (30 U.S.C. 185(l)), section 504(g) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764(g)), section 9701 of title 31, United States Code, and section 110(g) of the National Historic Preservation Act (16 U.S.C. 470h-2(g)).

“(c) USE OF RETAINED AMOUNTS.—Amounts deposited pursuant to subsection (b) shall be available, without further appropriation, for expenditure by the Secretary of Agriculture to cover costs incurred by the Forest Service for the processing of applications for special use authorizations and for monitoring activities undertaken in connection with such authorizations. Amounts in the special account shall remain available for such purposes until expended.

“(d) REPORTING REQUIREMENT.—In the budget justification documents submitted by the Secretary of Agriculture in support of the President’s budget for a fiscal year under section 1105 of title 31, United States Code, the Secretary shall include a description of the purposes for which amounts were expended from the special account during the preceding fiscal year, including the amounts expended for each purpose, and a description of the purposes for which amounts are proposed to be expended from the special account during the next fiscal year, including the amounts proposed to be expended for each purpose.

“(e) DEFINITION OF AUTHORIZATION.—For purposes of this section, the term ‘authorizations’ means special use authorizations issued under subpart B of part 251 of title 36, Code of Federal Regulations.

(b) Authority

The Secretary of Agriculture (hereinafter referred to as “the Secretary”) is authorized to issue permits (hereinafter referred to as “ski area permits”) for the use and occupancy of suitable lands within the National Forest System for nordic and alpine skiing operations and purposes. A ski area permit—

(1) may be issued for a term not to exceed 40 years;

(2) shall ordinarily be issued for a term of 40 years (unless the Secretary determines that the facilities or operations are of a scale or nature as are not likely to require long-term financing or operation), or that there are public policy reasons specific to a particular permit for a shorter term;

(3) shall encompass such acreage as the Secretary determines sufficient and appropriate to accommodate the permittee’s needs for ski operations and appropriate ancillary facilities;

(4) may be renewed at the discretion of the Secretary;

(5) may be cancelled by the Secretary in whole or in part for any violation of the permit terms or conditions, for nonpayment of permit fees, or upon the determination by the Secretary in his planning for the uses of the national forests that the permitted area is needed for higher public purposes;

(6) may be modified from time to time by the Secretary to accommodate changes in plans or operations in accordance with the provisions of applicable law;

(7) shall be subject to such reasonable terms and conditions as the Secretary deems appropriate; and

(8) shall be subject to a permit fee based on fair market value in accordance with applicable law.

(c) Rules and regulations

Within one year after October 22, 1986, the Secretary shall promulgate rules and regulations to implement the provisions of this section, and shall, to the extent practicable and with the consent of existing permit holders, convert all existing ski area permits or leases on National Forest System lands into ski area permits which conform to the provisions of this section within 3 years of October 22, 1986.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 497c of this title.

§ 497c. Ski area permit rental charge

(a) In general

The Secretary of Agriculture shall charge a rental charge for all ski area permits issued pursuant to section 3 of the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b), the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), or the 9th through 20th paragraphs under the heading “SURVEYING THE PUBLIC LANDS” under the heading “UNDER THE DEPARTMENT OF THE INTERIOR” in the Act of June 4, 1897 (30 Stat. 34, chapter 2), on National Forest System lands. Permit rental charges for permits issued pursuant to the National Forest Ski Area Permit Act of 1986 shall be calculated as set forth in subsection (b) of this section. Permit rental charges for existing ski area permits issued pursuant to the Act of March 4, 1915, and the Act of June 4, 1897, shall be calculated in accordance with those existing permits: *Provided*, That a permittee may, at the permittee’s option, use the calculation method set forth in subsection (b) of this section.

(b) Formula

(1) The ski area permit rental charge (SAPRC) shall be calculated by adding the permittee’s gross revenues from lift ticket/year-round ski area use pass sales plus revenue from ski school operations (LT+SS) and multiplying such total by the slope transport feet percentage (STFP) on National Forest System land. That amount shall be increased by the gross year-round revenue from ancillary facilities (GRAF) physically located on national forest land, including all permittee or subpermittee lodging, food service, rental shops, parking and other ancillary operations, to determine the adjusted gross revenue (AGR) subject to the permit rental charge. The final rental charge shall be calculated by multiplying the AGR by the following percentages for each revenue bracket and adding the total for each revenue bracket:

(A) 1.5 percent of all adjusted gross revenue below \$3,000,000;

(B) 2.5 percent for adjusted gross revenue between \$3,000,000 and \$15,000,000;

(C) 2.75 percent for adjusted gross revenue between \$15,000,000 and \$50,000,000; and

(D) 4.0 percent for the amount of adjusted gross revenue that exceeds \$50,000,000.

Utilizing the abbreviations indicated in this subsection the ski area permit fee (SAPF) formula can be simply illustrated as:

$$\text{SAPF} = (\text{LT} + \text{SS}) \times \text{STFP} + \text{GRAF} = \text{AGR};$$

$$\text{AGR} \times \% \text{ BRACKETS}$$

(2) In cases where ski areas are only partially located on national forest lands, the slope transport feet percentage on national forest land re-

ferred to in this subsection shall be calculated as generally described in the Forest Service Manual in effect as of January 1, 1992. Revenues from Nordic ski operations shall be included or excluded from the rental charge calculation according to the percentage of trails physically located on national forest land.

(3) In order to ensure that the rental charge remains fair and equitable to both the United States and the ski area permittees, the adjusted gross revenue figures for each revenue bracket in paragraph (1) shall be adjusted annually by the percent increase or decrease in the national Consumer Price Index for the preceding calendar year. No later than 3 years after November 12, 1996, and every 5 years thereafter the Secretary shall submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives a report analyzing whether the ski area permit rental charge legislated by this Act is returning a fair market value rental to the United States together with any recommendations the Secretary may have for modifications of the system.

(c) Payment

The rental charge set forth in subsection (b) of this section shall be due on June 1 of each year and shall be paid or prepaid by the permittee on a monthly, quarterly, annual or other schedule as determined appropriate by the Secretary in consultation with the permittee. Unless mutually agreed otherwise by the Secretary and the permittee, the payment or prepayment schedule shall conform to the permittee’s schedule in effect prior to November 12, 1996. To reduce costs to the permittee and the Forest Service, the Secretary shall each year provide the permittee with a standardized form and worksheets (including annual rental charge calculation brackets and rates) to be used for rental charge calculation and submitted with the rental charge payment. Information provided on such forms shall be compiled by the Secretary annually and kept in the Office of the Chief, United States Forest Service.

(d) Effective date

The ski area permit rental charge set forth in this section shall become effective on June 1, 1996 and cover receipts retroactive to June 1, 1995: *Provided*, That if a permittee has paid rental charges for the period June 1, 1995, to June 1, 1996, under the graduated rate rental charge system formula in effect prior to November 12, 1996, such rental charges shall be credited toward the new rental charge due on June 1, 1996. In order to ensure increasing rental charge receipt levels to the United States during transition from the graduated rate rental charge system formula to the formula of this Act, the rental charge paid by any individual permittee shall be—

(1) for the 1995–1996 permit year, either the rental charge paid for the preceding 1994–1995 base year or the rental charge calculated pursuant to this Act, whichever is higher;

(2) for the 1996–1997 permit year, either the rental charge paid for the 1994–1995 base year or the rental charge calculated pursuant to this Act, whichever is higher; and

(3) for the 1997–1998 permit year, either the rental charge for the 1994–1995 base year or the

rental charge calculated pursuant to this Act, whichever is higher.

If an individual permittee's adjusted gross revenue for the 1995–1996, 1996–1997, or 1997–1998 permit years falls more than 10 percent below the 1994–1995 base year, the rental charge paid shall be the rental charge calculated pursuant to this Act.

(e) Non-national forest land operations

Under no circumstances shall revenue, or sub-permittee revenue (other than lift ticket, area use pass, or ski school sales) obtained from operations physically located on non-national forest land be included in the ski area permit rental charge calculation.

(f) "Revenue" and "sales" defined; limitations

To reduce administrative costs of ski area permittees and the Forest Service the terms "revenue" and "sales", as used in this section, shall mean actual income from sales and shall not include sales of operating equipment, refunds, rent paid to the permittee by sublessees, sponsor contributions to special events or any amounts attributable to employee gratuities or employee lift tickets, discounts, or other goods or services (except for bartered goods and complimentary lift tickets) for which the permittee does not receive money.

(g) Minimum rental charge

In cases where an area of national forest land is under a ski area permit but the permittee does not have revenue or sales qualifying for rental charge payment pursuant to subsection (a) of this section, the permittee shall pay an annual minimum rental charge of \$2 for each national forest acre under permit or a percentage of appraised land value, as determined appropriate by the Secretary.

(h) Five-year phase-in of increase

Where the new rental charge provided for in subsection (b)(1) of this section results in an increase in permit rental charge greater than one-half of 1 percent of the permittee's adjusted gross revenue as determined under subsection (b)(1) of this section, the new rental charge shall be phased in over a five-year period in a manner providing for increases of approximately equal increments.

(i) Construction with National Environmental Policy Act of 1969

To reduce Federal costs in administering the provisions of this Act, the reissuance of a ski area permit to provide activities similar in nature and amount to the activities provided under the previous permit shall not constitute a major Federal action for the purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4331 et seq.).

(j) Withdrawal from mining laws

Subject to valid existing rights, all lands located within the boundaries of ski area permits issued prior to, on or after November 12, 1996, pursuant to authority of the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), and the Act of June 4, 1897, or the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b) are hereby and henceforth automatically withdrawn

from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto. Such withdrawal shall continue for the full term of the permit and any modification, reissuance, or renewal thereof. Unless the Secretary requests otherwise of the Secretary of the Interior, such withdrawal shall be canceled automatically upon expiration or other termination of the permit and the land automatically restored to all appropriation not otherwise restricted under the public land laws.

Payment for work undertaken pursuant to this section may be made from any appropriation of the Forest Service that is available for similar work if a written agreement so provides and reimbursement will be provided by a cooperator in the same fiscal year as the expenditure by the Forest Service. A reimbursement received from a cooperator that covers the proportionate share of the cooperator of the cost of the work shall be deposited to the credit of the appropriation of the Forest Service from which the payment was initially made or, if the appropriation is no longer available, to the credit of an appropriation of the Forest Service that is available for similar work. CODIFICATION

Section is a combination provision the basis for which is Act Mar. 4, 1907, which superseded previous provisions relating to the disposal of money received from sale of products or use of any land or resources of the forest reserves, contained in Act Feb. 1, 1905, ch. 288, § 5, 33 Stat. 628.

Act Mar. 4, 1911, is the source of the last portion of the section beginning with the words, "and also so much as may be necessary," etc. That Act provides that so much of the former Act "which provides for refunds by the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much:"

The words of this section reading, "including moneys received from sale of products from or use of lands in national forests created under section 471(b) of this title" were derived from the fourth sentence of section 9 of Act of June 7, 1924, which reads as follows: "All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law." Section 471(b) of this title, referred to in text, was based on the first and fifth sentences of section 9 of the 1924 act, and was repealed by section 704(a) of Pub. L. 94-579. Section 505 of this title is based on the second and third sentences of section 9 of the 1924 act.

The words "and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title," are from a provision of Act Mar. 4, 1917, which reads, "Hereafter, all moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of said Act [Act Mar. 1, 1911, ch. 186, 36 Stat. 961] or any Amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests."

AMENDMENTS

1928—Act May 29, 1928, struck out provision which required the Secretary of Agriculture to make an annual report to Congress of the amounts refunded under this section.

§ 531. Definitions

As used in sections 528 to 531 of this title the following terms shall have the following meanings:

(a) "Multiple use" means: The management of all the various renewable surface resources of the national forests so that they are utilized in the combination that will best meet the needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; that some land will be used for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(b) "Sustained yield of the several products and services" means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the national forests without impairment of the productivity of the land.

§ 532. Roads and trails system; Congressional findings and declaration of policy

The Congress hereby finds and declares that the construction and maintenance of an adequate system of roads and trails within and near the national forests and other lands administered by the Forest Service is essential if increasing demands for timber, recreation, and other uses of such lands are to be met; that the existence of such a system would have the effect, among other things, of increasing the value of timber and other resources tributary to such roads; and that such a system is essential to enable the Secretary of Agriculture (hereinafter called the Secretary) to provide for intensive use, protection, development, and management of these lands under principles of multiple use and sustained yield of products and services.

§ 535. Forest development roads; acquisition, construction, and maintenance; maximum economy; methods of financing; cost arrangements for construction standards; transfer of unused effective purchaser credit for road construction

The Secretary is authorized to provide for the acquisition, construction, and maintenance of

forest development roads within and near the national forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof, and for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of national forest timber and other products, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: *Provided*, That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the national forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate. The Secretary is authorized, under such rules and regulations as he shall prescribe, to permit the transfer of unused effective purchaser credit for road construction earned after December 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

(Pub. L. 88-657, §4, Oct. 13, 1964, 78 Stat. 1089; Pub. L. 94-154, Dec. 16, 1975, 89 Stat. 823.)

AMENDMENTS

1975—Pub. L. 94-154 authorized the Secretary to permit the transfer of unused effective purchaser credit for road construction earned after Dec. 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

FINANCING OF FOREST DEVELOPMENT ROADS

Financing of forest development roads authorized by cl. (2) of this section deemed "budget authority" and "budget outlays" as defined in section 621(a) of Title 2, The Congress, and effective for purpose specified in section 651(a) of Title 2, see section 1608 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 533, 534, 535a, 536, 1608 of this title.

§ 535a. Forest development roads: prohibition on credits; inclusion of construction costs in notice of sale; special election by small business concerns; construction standards; authorization of harvesting; treatment of road value

(a) Prohibition on timber purchaser road credits

In financing any forest development road pursuant to section 535 of this title, the Secretary

of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

(b) Construction of roads by timber purchasers

(1) Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) of this section shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) Special election by small business concerns

(1) A notice of sale referred to in subsection (b) of this section containing specified road construction of \$50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a "small business concern" under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of the national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest products, an amount equal to the estimated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) Authorization of harvesting

In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest of the timber or other forest

products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) Construction standard

For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or maintenance of the road) to a standard higher than the standard, consistent with applicable environmental laws and regulations, that is sufficient for the harvesting and removal of the timber or other forest products, unless the Secretary bears that part of the cost necessary to meet the higher standard.

(f) Treatment of road value

For any forest development road that is constructed or paid for by a purchaser of national forest timber or other forest products, the estimated cost of the road construction, including subsequent design changes, shall be considered to be money received for purposes of the payments required to be made under section 500 of this title. To the extent that the appraised value of road construction determined under this subsection reflects funds contributed by the Secretary of Agriculture to build the road to a higher standard pursuant to subsection (e) of this section, the Secretary shall modify the appraisal of the road construction to exclude the effect of the Federal funds.

(g) Effective date

(1) This section and the requirements of this section shall take effect (and apply thereafter) upon the earlier of—

(A) April 1, 1999; or

(B) the date that is the later of—

(i) the effective date of regulations issued by the Secretary of Agriculture to implement this section; and

(ii) the date on which new timber sale contract provisions designed to implement this section, that have been published for public comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of national forest timber or other forest products for which notice of sale is provided before the effective date of this section, and any effective purchaser road credit earned pursuant to a contract resulting from such a notice of sale or otherwise earned before that effective date shall remain in effect, and shall continue to be subject to section 535 of this title and section 472a(i) of this title, and rules issued thereunder, as in effect on the day before October 21, 1998.

(Pub. L. 105-277, div. A, §101(e) [title III, §329], Oct. 21, 1998, 112 Stat. 2681-231, 2681-292.)

§ 537. Maintenance and reconstruction by road users; funds for maintenance and reconstruction; availability of deposits until expended, transfer of funds, and refunds

The Secretary may require the user or users of a road under the control of the Forest Service, including purchasers of Government timber and other products, to maintain such roads in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a road to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purpose for which deposited: *Provided*, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: *And provided further*, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

connection with, the national forests and other lands administered by the Forest Service a right-of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government's grantor, any fees or other collections received by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

"(2) Notwithstanding any other provision of law, the Secretary of the Interior shall delegate, as necessary, to the Secretary of Agriculture the authority to renew or reissue the authorizations described in paragraph (1). § 539b. Fisheries on national forest lands in Alaska

(a) Regulations for protection and maintenance of habitats

The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Approved plan for mining operations; requirements; review; modification; suspension of activities

Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

(A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and

(B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—

(A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;

(B) fishery habitat, including but not limited to water quality and water quantity; and

(C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—

(A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and

(B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;

(4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;

(B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and

(5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.

(c) Authority of State of Alaska to manage fish and wildlife

Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and wildlife or to exercise its other responsibilities under applicable law.

(d) Authority of Secretary of Agriculture to manage national forests

Except as specifically provided in subsection (b)(5) of this section nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

(Pub. L. 96-487, title V, §505, Dec. 2, 1980, 94 Stat. 2405.)

§ 539c. Cooperative fisheries planning; report to Congress

(a) The Secretary of Agriculture is directed to implement a cooperative planning process for

the enhancement of fisheries resources through fish hatchery and aquaculture facilities and activities in the Tongass National Forest. Participation in this process shall include but not be limited to the State of Alaska and appropriate nonprofit aquaculture corporations. The Secretary may contract with private, nonprofit associations for services in such planning.

(b) Each subsequent revision of National Forest management plans under the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.] and the National Forest Management Act of 1976 shall contain a report on the status of the planning process undertaken under this paragraph, including, but not limited to, a description of current hatchery and aquaculture projects, an analysis of the success of these projects, and a prioritized list of projects anticipated for the duration of the management plan. The report shall be submitted by the Secretary to the Congress with recommendations for any legislative action which the Secretary may deem necessary to implement the proposed hatchery and aquaculture projects. § 539d. National forest timber utilization program

(a) Tongass National Forest timber supply; satisfaction of certain market demands

Subject to appropriations, other applicable law, and the requirements of the National Forest Management Act of 1976 (Public Law 94-588), except as provided in subsection (d) of this section, the Secretary shall, to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest which (1) meets the annual market demand for timber from such forest and (2) meets the market demand from such forest for each planning cycle.

(b) Insured and guaranteed loan program for purchasers of national forests materials in Alaska; authorization of appropriations

(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of equipment and the implemen-

tation of new technologies which lead to the utilization of wood products which might otherwise not be utilized. The Secretary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated \$5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. Repayments of principal and interest and other recoveries on loans authorized by this section shall be credited to this fund and shall remain available until expended in order to carry out the purposes of this section.

(c) Study on increase of timber yields on national forest lands in Alaska; transmittal to Congress

Within three years after December 2, 1980, the Secretary shall prepare and transmit to the Senate and House of Representatives a study of opportunities (consistent with the laws and regulations applicable to the management of the National Forest System) to increase timber yields on national forest lands in Alaska.

(d) Identification of lands not suited for timber production; consideration of economic factors unnecessary

All provisions of section 6(k) of the National Forest Management Act of 1976 (16 U.S.C. 1604(k)) shall apply to the Tongass National Forest except that the Secretary need not consider economic factors in the identification of lands not suited for timber production.

(e) Protection of riparian habitat; maintenance of buffer zones in Tongass National Forest; relocation of prior independent sale or released volume

In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone of no less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12-11-010-1545 and A10fs-1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation

handbook¹ (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms “Class I streams” and “Class II streams” mean the same as they do in the Region 10 Aquatic Habitat Management Handbook (FSH 2609.24), June 1986.

(f) Timber supply from Tongass National Forest for purchasers qualifying as “small business concerns”

Subject to appropriations, the provisions of this Act and other applicable law (including but not limited to the requirements of the National Forest Management Act of 1976 (Public Law 94-588)) and in order to assure the continuation of the Small Business Administration timber sale program, the Secretary shall, in consultation with the Administrator of the Small Business Administration and to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as “small business concerns” under the Small Business Act as amended (15 U.S.C. 631 et seq.).

§ 539g. Kings River Special Management Area

(a) Establishment

In order to provide for public outdoor recreation use and enjoyment of certain areas within the Sierra National Forest and the Sequoia National Forest, to protect those areas’ natural, archaeological, and scenic resources, and to provide for appropriate fish and wildlife management of those areas, there is hereby established the Kings River Special Management Area (hereinafter in this Act referred to as the “special management area”). The special management area shall be administered by the Secretary of Agriculture (hereinafter in this Act referred to as “the Secretary”) through the Sierra National Forest.

(b) Area included

The special management area shall consist of the lands, waters, and interests therein within the area generally depicted on the map entitled “Boundary Map, Kings River Special Management Area”, dated April 1987. The map shall be on file and available for public inspection in the offices of the National Forest Service, Department of Agriculture. The Secretary of Agriculture may from time to time make minor revisions of the boundary of the special management area.

(c) Administration

The Secretary shall administer the special management area in accordance with this Act and with the provisions of law generally applicable to units of the National Forest System. In

the case of any conflict between the provisions of such Acts, the provisions of this Act shall govern. In the administration of the special management area the Secretary may utilize such statutory authority as may be available to him for the conservation of wildlife and natural resources as he deems necessary to carry out the purposes of this Act. Nothing in this Act shall be construed to prohibit grazing within the special management area to the same extent, and in accordance with the same rules and regulations as applicable in the absence of this Act. The Secretary may permit the cutting of timber within the special management area only in those cases where in the judgment of the Secretary the cutting of such timber is required in order to control the attacks of fire, insects, or diseases or to otherwise conserve the scenery or the natural or historical objects in the area.

(d) Mining and mineral leasing

Subject to valid existing rights, lands within the special management area are withdrawn from location, entry, and patent under the mining laws of the United States, from the operation of the mineral leasing laws of the United States and from operation of the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

(e) Hunting and fishing

The Secretary shall permit hunting and fishing on lands and waters within the special management area in accordance with applicable Federal and State law. The Secretary may designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife management or public use and enjoyment. Except in emergencies, regulations issued by the Secretary under this subsection shall be put into effect only after consultation with the appropriate State agencies responsible for hunting and fishing activities.

(f) Management plan

After consultation with the State of California, the Secretary shall publish a management plan for the special management area within three years after November 3, 1987. The plan shall provide for public outdoor recreation use and enjoyment of the special management area, protect the area's natural, archeological, and scenic resources, and provide for appropriate fish and wildlife management within the area. The plan shall contain provisions for management of vegetation within the area designed to enhance the wildlife carrying capacity of the area. The plan shall permit off-road vehicular use of off-road trails to the same extent and in the same locations as was permitted before November 3, 1987. The plan shall provide for the development of hiking trails in the special management area and shall include a trail from Garlic Creek to Little Tehipite Valley.

(g) Access to private lands

If any State or privately owned land or any valid mining claim or other valid occupancy is within the special management area, or if State or private subsurface rights underlie public lands within the special management area, the Secretary shall provide the State or private

owner, claimant, or occupier and their successors in interest such rights as may be necessary to assure adequate and feasible access for economic and other purposes to the site concerned. Such rights shall be subject to reasonable regulations issued by the Secretary to protect the natural and other values of the special management area, taking into account the traditional and customary means of access used prior to November 3, 1987.

(h) Specific protections

In recognition of the dispute that exists over whether a dam project should be constructed in the segment of the Main Stem of the Kings River from the point at elevation 1,595 feet above mean sea level downstream to the point at elevation 990 feet above mean sea level, Congress declares its intention at this time not to designate that segment of the Kings River as a component of the Wild and Scenic Rivers System. Notwithstanding any other provision of law, no Federal lands may be used for the construction of any dam or diversion within the boundaries of the special management area without specific authority of the Congress. In order to protect the natural, cultural, recreational, fishery, and wildlife values of the river segment referred to in this subsection, that segment shall be subject to the provisions of section 1278(a) of this title, in the same manner as if it were designated. Nothing in this Act shall preclude the Kings River Conservation District from conducting studies as it may deem appropriate.

“SEC. 601. SHORT TITLE.

“This Act [probably should be “this title” meaning Pub. L. 105-277, div. A, § 101(e) [title VI]] may be cited as the ‘Interstate 90 Land Exchange Act of 1998’.

“SEC. 602. FINDINGS AND PURPOSE.

“(a) FINDINGS.—Congress finds that—

“(1) certain parcels of private land located in central and southwest Washington are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as parts of the Mt. Baker-Snoqualmie National Forest, Wenatchee National Forest, and Gifford Pinchot National Forest;

“(2) the private land surface estate and some subsurface is owned by the Plum Creek Timber Company, L.P. in an intermingled checkerboard pattern, with the United States or Plum Creek owning alternate square mile sections of land or fractions of square mile sections;

“(3) the checkerboard land ownership pattern in the area has frustrated sound and efficient land management on both private and National Forest lands by complicating fish and wildlife habitat management, watershed protection, recreation use, road construc-

tion and timber harvest, boundary administration, and protection and management of threatened and endangered species and old growth forest habitat;

“(4) acquisition by the United States of certain parcels of land that have been offered by Plum Creek for addition to the Mt. Baker-Snoqualmie National Forest and Wenatchee National Forest will serve important public objectives, including—

“(A) enhancement of public access, aesthetics and recreation opportunities within or near areas of very heavy public recreational use including—

“(i) the Alpine Lakes Wilderness Area;

“(ii) the Pacific Crest Trail;

“(iii) Snoqualmie Pass;

“(iv) Cle Elum Lake, Kachess Lake and Keechulus Lake; and

“(v) other popular recreation areas along the Interstate 90 corridor east of the Seattle-Tacoma Metropolitan Area;

“(B) protection and enhancement of old growth forests and habitat for threatened, endangered and sensitive species, including a net gain of approximately 28,500 acres of habitat for the northern spotted owl;

“(C) consolidation of National Forest holdings for more efficient administration and to meet a broad array of ecosystem protection and other public land management goals, including net public gains of approximately 283 miles of stream ownership, 14 miles of the route of the Pacific Crest Trail, 20,000 acres of unroaded land, and 7,360 acres of riparian land; and

“(D) a significant reduction in administrative costs to the United States through—

“(i) consolidation of Federal land holdings for more efficient land management and planning;

“(ii) elimination of approximately 300 miles of boundary identification and posting;

“(iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and

“(iv) other administrative cost savings;

“(5) Plum Creek has selected certain parcels of National Forest System land that are logical for consolidation into Plum Creek ownership utilizing a land exchange because the parcels—

“(A) are intermingled with parcels owned by Plum Creek; and

“(B)(i) are generally located in less environmentally sensitive areas than the Plum Creek offered land; and

“(ii) have lower public recreation and other public values than the Plum Creek offered land;

“(6) time is of the essence in consummating a land exchange because delays may force Plum Creek to road or log the offered land and thereby diminish the public values for which the offered land is to be acquired; and

“(7) it is in the public interest to complete the land exchange at the earliest practicable date so that the offered land can be acquired and preserved by the United States for permanent public management, use, and enjoyment.

“(b) PURPOSE.—It is the purpose of this Act to further the public interest by authorizing, directing, facilitating, and expediting the consummation of the Interstate 90 land exchange so as to ensure that the offered land is expeditiously acquired for permanent public use and enjoyment.

“SEC. 603. DEFINITIONS.

“(b) CONVEYANCE OF SELECTED LAND BY THE UNITED STATES.—Upon receipt of acceptable title to the offered land, as provided in section 604(a), and placement in escrow of acceptable title to Township 22 North, Range 11 East, Section 3, W.M., Township 22 North, Range 11 East, Section 19, W.M., Township 21 North, Range 12 East, Section 15, W.M., Township 21 North, Range 12 East, Section 23, W.M., Township 21 North, Range 12

“(a) FINDING.—The Congress finds that certain lands which were identified for exchange to the United States in the I-90 Land Exchange process have been, or may be, deleted from the final exchange under this Act due to value equalization or other reasons. However, some or all of such deleted lands, or other Plum Creek lands, may possess attributes that merit their conveyance to the United States in a follow-up land exchange, including lands in or around the Carbon River, the Yakima River, the Pacific Crest Trail, Watch Mountain and

Goat Mountain on the Gifford Pinchot National Forest, the Green River and the Manastash late successional reserve.

“(b) FUTURE EXCHANGE.—In furtherance of subsection (a), the Secretary is authorized and directed to consult with Plum Creek in examining opportunities for the United States to acquire such deleted lands, or other Plum Creek lands in the State of Washington, in a future exchange.

The Secretary should identify the most urgent acquisitions for purchase or exchange in the report.

“SEC. 610. WILDERNESS STUDY AREA.

“In furtherance of the purposes of the Wilderness Act [16 U.S.C. 1131 et seq.], if the land exchange directed by this Act is consummated, the area of land comprising approximately 15,000 acres, as generally depicted on a map entitled ‘Alpine Lakes Wilderness Study Area’, dated October 1998, shall be reviewed by the Secretary of Agriculture as to its suitability for preservation as wilderness. The Secretary shall submit a report and findings to the President, and the President shall submit his recommendations to the United States House of Representatives and United States Senate no later than three years after the first date on which deeds are exchanged to consummate the land exchange. SUBCHAPTER II—SCENIC AREAS

§ 541. Cascade Head Scenic-Research Area; establishment

In order to provide present and future generations with the use and enjoyment of certain ocean headlands, rivers, streams, estuaries, and forested areas, to insure the protection and encourage the study of significant areas for research and scientific purposes, and to promote a more sensitive relationship between man and his adjacent environment, there is hereby established, subject to valid existing rights, the Cascade Head Scenic-Research Area (hereinafter referred to as “the Area”) in the Siuslaw National Forest in the State of Oregon.

(Pub. L. 93-535, § 1, Dec. 22, 1974, 88 Stat. 1732.)

§ 541a. Administration, protection, development, and regulation of use

The administration, protection, development, and regulation of use of the Area shall be by the Secretary of Agriculture (hereinafter referred to as the “Secretary”) in accordance with the laws, rules, and regulations applicable to national forests, in such manner as in his judgment will best contribute to attainment of the purpose of this subchapter.

(Pub. L. 93-535, § 2, Dec. 22, 1974, 88 Stat. 1732.)

§ 541b. Boundaries of scenic-research area; adjustments to subarea boundaries; development of management plan; establishment of subareas; management objectives

(a) Boundaries; adjustments to boundaries of subareas

The boundaries of the Area, and the boundaries of the subareas included therein, shall be those shown on the map entitled “Proposed Cascade Head Scenic-Research Area”, dated June 1974, which is on file and available for public inspection in the office of the Chief, Forest Service, United States Department of Agriculture: *Provided*, That, from time to time, the Secretary may, after public hearing or other appropriate means for public participation, make adjustments in the boundaries of subareas to reflect changing natural conditions or to provide for more effective management of the Area and each of the subareas in accordance with the purposes and provisions of this subchapter.

(b) Management plan; development; time; contents

As soon as practicable after December 22, 1974, the Secretary shall, with provisions for appropriate public participation in the planning process, develop a comprehensive management plan for the Area. Within the Area, the following subareas shall be established and shall be managed in accord with the following primary management objectives which shall be supplemental to the general management objectives applicable to the entire Area:

(1) Estuary and Associated Wetlands Subarea: An area managed to protect and perpetuate the fish and wildlife, scenic, and research-education values, while allowing dispersed recreation use, such as sport fishing, nonmotorized pleasure boating, waterfowl hunting, and other uses which the Secretary determines are compatible with the protection and perpetuation of the unique natural values of the subarea. After appropriate study, breaching of existing dikes may be permitted within the subarea.

(2) Lower Slope-Dispersed Residential Subarea: An area managed to maintain the scenic, soil and watershed, and fish and wildlife val-

ues, while allowing dispersed residential occupancy, selective recreation use, and agricultural use.

(3) Upper Timbered Slope and Headlands Subareas: Areas managed to protect the scenic, soil and watershed, and fish and wildlife values while allowing selective recreation and extensive research-educational activities. Timber harvesting activity may occur in these subareas only when the Secretary determines that such harvesting is to be conducted in connection with research activities or that the preservation of the timber resource is imminently threatened by fire, old age, infestation, or similar natural occurrences.

(4) Coastline and Sand Dune-Spit Subareas: Areas managed to protect and maintain the scenic and wildlife values while allowing selective recreation and extensive research-educational activities.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 544 to 544e, 544g to 544i, 544l to 544p of this title.

§ 544g. Land acquisition

(a) Acquisition authorized

(1) The Secretary is authorized to acquire any lands or interests therein within the special management areas and the Dodson/Warrendale Special Purchase Unit which the Secretary determines are needed to achieve the purposes of sections 544 to 544p of this title: *Provided*, That any lands, waters, or interests therein owned by either State or any political subdivision thereof may be acquired only by donation or exchange.

(2) Lands within the State of Oregon acquired by the Secretary pursuant to sections 544 to 544p of this title shall become part of the Mount Hood National Forest. Lands within the State of Washington acquired by the Secretary pursuant to this section shall become part of the Gifford Pinchot National Forest. All lands acquired by the Secretary pursuant to sections 544 to 544p of this title shall be subject to the laws and regulations pertaining to the National Forest System and sections 544 to 544p of this title.

(b) Limitations on eminent domain

(1) Where authorized in subsection (a) of this section to acquire land or interests therein without the consent of the owner, the Secretary shall—

(A) acquire only such land or interests therein as is reasonably necessary to accomplish the purposes of sections 544 to 544p of this title; and

(B) do so only in cases where all reasonable efforts to acquire with the consent of the owner such lands, or interests therein, have failed.

(2) Notwithstanding the provisions of subsection (a) of this section, the Secretary may

not acquire without the consent of the owner lands or interests therein which—

(A) on November 17, 1986, were used primarily for educational, religious, or charitable purposes, single-family residential purposes, farming, or grazing so long as the existing character of that use is not substantially changed or permitted for change;

(B) are located in counties with land use ordinances in which the Secretary has concurred pursuant to section 544f of this title, unless such lands are being used, or are in imminent danger of being used, in a manner incompatible with such ordinances;

(C) are within the boundaries of the Dodson/Warrendale Special Purchase Unit; or

(D) are owned by an Indian tribe, held in trust by the United States for an Indian tribe or member of an Indian tribe, or otherwise administered by the United States for the benefit of an Indian tribe or member of an Indian tribe.

(c) Hardship cases

In exercising authority to acquire lands pursuant to this section the Secretary shall give prompt and careful consideration to any offer made by any person or entity owning any land, or interest in land, within the boundaries of a special management area. In considering such offer, the Secretary shall take into consideration any hardship to the owner which might result from any undue delay in acquiring the property.

(d) Land exchanges

(1) The Secretary is authorized and directed, in conformance with the provisions of this subsection, to acquire by exchange any parcel of unimproved forest land at least forty acres in size within the boundaries of the special management areas which is owned by any private forest land owner if, after November 17, 1986, but within one hundred and eighty days after final adoption of the management plan, such private forest land owner offers to the United States such parcel of forest land.

(2) In exercising this authority to acquire forest lands pursuant to this subsection, the Secretary may accept title to such lands and convey to the owner federally owned lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located. Forest lands exchanged pursuant to this subsection shall be of approximately equal value: *Provided*, That the Secretary may accept cash from or pay cash to the grantor in such an exchange in order to equalize minor differences in the values of the properties exchanged: *Provided further*, That the Secretary may reserve in any conveyance pursuant to this subsection such easements, subsurface rights, and any other interests in land deemed necessary or desirable: *Provided further*, That the valuation of lands exchanged shall be determined in terms of forest uses for timber.

(3) It is the intention of Congress that land exchanges pursuant to this subsection shall be completed no later than five years after November 17, 1986.

(4) In the event that exchanges authorized by this section leave any private forest land owner

with ownership of an uneconomic remnant of forest land contiguous to a special management area, the Secretary is authorized to acquire such forest lands as if they were within the boundaries of a special management area.

(5) The following-described Federal lands and interests therein are hereby identified as candidate lands for exchanges conducted pursuant to this section: *Provided*, That the determination of which candidate lands will be exchanged, and in what sequence, shall be at the discretion of the Secretary. Subject to valid existing rights, such lands are hereby withdrawn from all forms of entry or appropriation or disposal under the public land laws, and from location, entry, and patent under the United States mining law, and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto until the Secretary determines such lands are no longer needed to complete exchanges authorized by this section: *Provided*, That such period shall not extend beyond five years:

AMENDMENTS

1995—Subsec. (d)(3). Pub. L. 104-66 struck out provision at end requiring Secretary to report to Congress on status of negotiations with owners of non-Federal lands regarding land exchanges.

CONVEYANCE OF LANDS BETWEEN SKAMANIA COUNTY AND THE UNITED STATES

Pub. L. 105-277, div. A, §101(e) [title III, §341], Oct. 21, 1998, 112 Stat. 2681-231, 2681-296, provided that:

“Upon the condition that Skamania County conveys title acceptable to the Secretary of Agriculture to all right, title and interest in lands identified on a map dated September 29, 1998 entitled ‘Skamania County Lands to be Transferred’, such lands being located on Table Mountain lying within the Columbia River Gorge National Scenic Area, there is hereby conveyed to Skamania County, notwithstanding any other provision of law, the Wind River Nursery Site lands and facilities and all interests therein, except for the corridor of the Pacific Crest National Scenic Trail, as depicted on a map dated September 29, 1998, entitled ‘Wind River Conveyance’, which is on file and available for public inspection in the Office of the Chief, USDA Forest Service, Washington, D.C.

“The conveyance of lands to Skamania County shall become automatically effective upon a determination by the Secretary that Skamania County has conveyed acceptable title to the United States to the Skamania County lands. Lands conveyed to the United States shall become part of the Gifford Pinchot National Forest and shall have the status of lands acquired under the Act of March 1, 1911, (commonly called the Weeks Act) [see Short Title note set out under section 552 of this title] and shall be managed in accordance with the laws and regulations applicable to the National Forest System.”

LAND EXCHANGES

Pub. L. 105-83, title III, §336, Nov. 14, 1997, 111 Stat. 1602, provided that: “To facilitate priority land exchanges through which the United States will receive land within the White Salmon Wild and Scenic River boundaries and within the Columbia River Gorge National Scenic Area, the Secretary of Agriculture may, until September 30, 2000, accept title to such lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located, following existing exchange authorities.”

WIND RIVER NURSERY

Pub. L. 105-83, title III, §340, Nov. 14, 1997, 111 Stat. 1603, provided that:

“(a) The Secretary of Agriculture is authorized and directed to negotiate with Skamania County for the exchange of lands or interests in lands constituting the Wind River Nursery Site within the Gifford Pinchot National Forest, Washington.

“(b) In return for the Nursery Site properties, Skamania County is authorized and directed to negotiate with the Forest Service the conveyance of approximately 120 acres of high biodiversity, special management lands located near Table Mountain within the Columbia River Gorge National Scenic Area, title to which must be acceptable to the Secretary of Agriculture.

“(c) Before this exchange can occur, it must be of equal value and the Secretary and the Skamania County Board of Commissioners must agree on the exact parcels of land to be included in the exchange. An agreement signed by the Secretary of Agriculture and

the Skamania County Board of Commissioners describing the properties involved and a certification that the exchange is of equal value must be completed no later than September 30, 1999.

“(d) During this two-year negotiating period, the Wind River Nursery property shall not be conveyed to another party. The Forest Service shall maintain the site in a tenable condition.

“(e) Except as provided herein, the exchange shall be for equal value in accordance with land exchange authorities applicable to the National Forest System.

“(f) The Secretary is directed to equalize values by not only cash and exchange of lands, easements, reservations, and other interests in lands, but also by full value credit for such services as Skamania County provides to the Gifford Pinchot and Columbia River Gorge National Scenic Area and as the Secretary and Skamania County deem appropriate. The Secretary may accept services in lieu of cash when the Secretary can discern cash value for the services and when the Secretary determines such services would provide direct benefits to lands and resources and users of such lands and resources under the jurisdiction of the Secretary.

“(g) Any cash equalization which Skamania County elects to make may be made up to 50 percent of the fair market value of the Federal property, and such cash equalization may be made in installments over a period not to exceed 25 years. Payments received as partial consideration shall be deposited into the fund in the Treasury established under the Act of December 4, 1967 [16 U.S.C. 484a], commonly known as the Sisk Act, and shall be available for expenditure as provided in the Act except that the Secretary may not use those funds to purchase lands within Skamania County.

“(h) In defining the Federal estate to be conveyed, the Secretary may require such additional terms and conditions as deemed necessary in connection with assuring equal value and public interest considerations in this exchange including, but not limited to, continued research use of the Wind River Experimental Forest and protection of natural, cultural, and historic resources, existing administrative sites, and a scenic corridor for the Pacific Crest National Scenic Trail.

“(i) This authorization is predicated on Skamania County’s Board of Commissioners commitment to give foremost consideration to preservation of the overall integrity of the site and conservation of the educational and research potential of the site, including providing for access to and assurance of the continued administration and operation of forestry research on the adjacent Thornton Munger Research Natural Area.

“(j) The Secretary is further directed to cooperate with Skamania County to address applicable Federal and State environmental laws.

“(k) Notwithstanding the processes involved with the National Environmental Policy Act [of 1969, 42 U.S.C. 4321 et seq.] and the State Environmental Policy Act, should the Secretary of Agriculture and the Skamania County Board of Commissioners fail to reach an agreement on an equal value exchange defined under the terms of this legislation by September 30, 1999, the Wind River Nursery Site shall remain under Forest Service ownership and be maintained by the Forest Service in a tenable condition.”

(1)¹ Within one hundred eighty days after November 17, 1986, the Secretary shall develop interim guidelines for the scenic area outside urban areas to identify land use activities which

¹ So in original. No par. (2) has been enacted.

are inconsistent with sections 544 to 544p of this title and to govern the authority to acquire land without the consent of the owner provided by subsection (b) of this section. The Secretary shall promptly notify the public of adoption of the interim guidelines and transmit the guidelines to each county. Guidelines adopted by the Secretary pursuant to this subsection shall remain in effect for each county until the Secretary has developed guidelines for the special management areas pursuant to section 544f of this title and the land use ordinances prescribed by section 544e of this title are in effect.

(b) Interim acquisition authority and injunctive relief

Prior to the concurrence by the Secretary of land use ordinances prescribed by section 544f of this title and the approval by the Commission of land use ordinances prescribed by section 544e of this title, the following authorities are granted:

(1) The Secretary may acquire by condemnation any land or interest which is being used or threatened to be used in a manner inconsistent with the purposes for which the scenic area was established and which will cause or is likely to cause impacts adversely affecting the scenic, cultural, recreation, and natural resources of the scenic area: *Provided*, That no lands or interests therein can be acquired by condemnation pursuant to this section if used in the same manner and for the same purposes as used on November 17, 1986, unless such land is used for or interest is in the development of sand, gravel, or crushed rock, or the disposal of refuse: *Provided further*, That within thirty days of the filing by the Secretary of a complaint for condemnation of any land or interest in the scenic area, outside of the special management areas and urban areas, the Commission, by a vote of two-thirds of its membership including a majority of the members appointed from each State, or if the Commission is not in existence the Governor of the State in which the land or interest is located, may disapprove such proposed complaint.

(2) Upon or after the commencement of any action for condemnation pursuant to this subsection, the Secretary, acting through the Attorney General of the United States, may apply to the appropriate United States District Court for a temporary restraining order or injunction to prohibit the use of any property within the scenic area, but outside of urban areas, which will cause or is likely to cause impacts adversely affecting the scenic, cultural, recreation and natural resources of the scenic area or is otherwise inconsistent with the purposes for which the scenic area was established. During the period of such order or injunction, the Secretary shall diligently and in good faith negotiate with the owner of the property to assure that, following termination of the order or injunction, the inconsistent use is abated or the adverse effect is mitigated.

(c) Review of development action

Prior to the effective date of a land use ordinance for each county pursuant to section 544e of this title, and concurrence of the Secretary on a land use ordinance for each county pursu-

ant to section 544f of this title, the Commission shall review all proposals for major development actions and new residential development in such county in the scenic area, except urban areas. The Commission shall allow major development actions and new residential development only if it determines that such development is consistent with the standards contained in section 544d of this title and the purposes of sections 544 to 544p of this title.

§ 567a. Cooperation by Secretary of Agriculture with States in acquisition and administration of State forests

For the purpose of stimulating the acquisition, development, and proper administration and management of State forests and of insuring coordinated effort by Federal and State agencies in carrying out a comprehensive national program of forest-land management, the Secretary of Agriculture is authorized to enter into cooperative agreements with appropriate officials of any State or States for acquiring in the name of the United States, by purchase or otherwise, such forest lands within the cooperating State as in his judgment the State is adequately prepared to administer, develop, and manage as State forests in accordance with the provisions of sections 567a to 567c of this title and with such other terms not inconsistent therewith as he shall prescribe, such acquisition to include the mapping, examination, appraisal, and sur-

veying of such lands and the doing of all things necessary to perfect title thereto in the United States: *Provided*, That, since it is the declared policy of Congress to maintain and, where it is in the national interest to extend the national-forest system, nothing herein shall be construed to modify, limit, or change in any manner whatsoever the future ownership and administration by the United States of existing national forests and related facilities, or hereafter to restrict or prevent their extension through the acquisition by purchase or otherwise of additional lands for any national-forest purpose: *Provided further*, That sections 567a to 567c of this title shall not be construed to limit or repeal any legislation authorizing land exchanges by the Federal Government, and private lands acquired by exchange within the limits of any area subject to a cooperative agreement of the character herein authorized shall hereafter be subject to the provisions of sections 567a to 567c of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 567b, 567c of this title.

§ 567b. Conditions and requirements for cooperation in acquisition and management of State forests

No cooperative agreement shall be entered into or continued in force under the authority of sections 567a to 567c of this title or any land acquired hereunder turned over to the cooperating State for administration, development, and management unless the State concerned, as a consideration for the benefits extended to it thereunder, complies in a manner satisfactory to the Secretary of Agriculture with the following conditions and requirements which shall constitute a part of every such agreement:

(a) In order to reduce the need for public expenditures in the acquisition of lands which may be brought into public ownership through the enforcement of appropriate tax delinquency laws, and, by bringing about the handling of such lands upon a sound social and economic basis, to terminate a system of indeterminate and unsound ownership injurious to the private and public interest alike, no additional lands shall be acquired within any State by the United States under sections 567a to 567c of this title after June 30, 1942, unless the State concerned has prior thereto provided by law for the reversion of title to the State or a political unit thereof of tax-delinquent lands and for blocking into State or other public forests the areas which are more suitable for public than private ownership, and which in the public interest should be devoted primarily to the production of timber crops and/or the maintenance of forests for watershed protection, and for the enforcement of such law: *Provided*, That in the administration of sections 567a to 567c of this title prior to June 30, 1942, preference will be given to States applying for cooperation hereunder which provided by law for such reversion of title under tax delinquency laws.

(b) In order to insure a stable and efficient organization for the development and administra-

tion of the lands acquired under sections 567a to 567c of this title, the State shall provide for the employment of a State forester, who shall be a trained forester of recognized standing.

(c) The Secretary of Agriculture and the appropriate authorities of each cooperating State shall work out a mutually satisfactory plan defining forest areas within the State which can be most effectively and economically administered by said State, which plan shall constitute a part of the cooperative agreement between the United States and the State concerned: *Provided*, That nothing herein shall be held to prevent the Secretary of Agriculture from later agreeing with the proper State authorities to desirable modifications in such plan.

(d) No payment of Federal funds shall be made for land selected for purchase by the United States under sections 567a to 567c of this title until such proposed purchase has been submitted to and approved by the National Forest Reservation Commission created by section 513 of this title.

(e) Subject to the approval of the National Forest Reservation Commission, the Secretary of Agriculture is authorized to pay out of any available money appropriated for carrying out the purposes of sections 567a to 567c of this title any State, county, and/or town taxes, exclusive of penalties, due or accrued on any forest lands acquired by the United States under donations from the owners thereof and which lands are to be included in a State or other public forest pursuant to said sections.

(f) The State shall prepare such standards of forest administration, development, and management as are necessary to insure maximum feasible utility for timber production and watershed protection, and are acceptable to the Secretary of Agriculture and shall apply the same to lands acquired and placed under the jurisdiction of the State pursuant to sections 567a to 567c of this title.

(g) That with the exception of such Federal expenditures as may be made for unemployment relief, the State shall pay without assistance from the Federal Government the entire future cost of administering, developing, and managing all forest lands acquired and over which it has been given jurisdiction under sections 567a to 567c of this title.

(h) During the period any cooperative agreement made under sections 567a to 567c of this title remains in force, one-half of the gross proceeds from all lands covered by said agreement and to which the United States holds title shall be paid by the State to the United States and covered into the Treasury. All such payments shall be credited to the purchase price the State is to pay the United States for said land, such purchase price to be an amount equal to the total sum expended by the United States in acquiring said lands. Upon payments of the full purchase price, either as herein provided or otherwise, title to said lands shall be transferred from the Federal Government to the State, and the Secretary of Agriculture is authorized to take such action and incur such expenditures, as may be necessary to effectuate such transfer.

(i) Upon the request of the State concerned, any agreement made pursuant to sections 567a

to 567c of this title may be terminated by the Secretary of Agriculture. The Secretary of Agriculture may, with the consent and approval of the National Forest Reservation Commission, after due notice given the State and an opportunity for hearing by said Commission, terminate any such agreement for violations of its terms and/or the provisions of said sections of this title. If such agreement is terminated, the United States shall reimburse the State for so much of the State funds as have been expended in the administration, development, and management of the lands involved as the Secretary of Agriculture may decide to be fair and equitable.

(j) The State shall furnish the Secretary of Agriculture with such annual, periodic, or special reports as he may require respecting the State's operations under its agreement with him.

(k) When a State or political unit thereof acquires under tax delinquency laws title to forest lands without cost to the United States and which lands are included within a State or other public forest, the Secretary of Agriculture, on behalf of the Federal Government, may contribute annually out of any funds made available under sections 567a to 567c of this title not to exceed one-half the cost of administering, developing, and managing said lands.

§ 581j. Congressional declaration of policy on reforestation and revegetation

It is the declared policy of the Congress to accelerate and provide a continuing basis for the needed reforestation and revegetation of national-forest lands and other lands under administration or control of the Forest Service of the Department of Agriculture in order to obtain the benefits hereinbefore enumerated.

(Oct. 11, 1949, ch. 674, §1, 63 Stat. 763.)

REFERENCES IN TEXT

The benefits hereinbefore enumerated, referred to in text, means the benefits enumerated in the preamble to Joint Res. 53, Oct. 11, 1949, ch. 674, 63 Stat. 762. The preamble is set out as a note below.

TRANSFER OF FUNCTIONS

Functions of all officers, agencies, and employees of Department of Agriculture transferred with certain exceptions, to Secretary of Agriculture by Reorg. Plan No. 2 of 1953, §1, eff. June 4, 1953, 18 F.R. 3219, 67 Stat. 633, set out as a note in Appendix to Title 5, Government Organization and Employees.

PREAMBLE

The preamble to act Oct. 11, 1949, provided that:

“Whereas the national forests of the United States contain approximately eighty million acres of the Nation’s commercial timber lands and approximately eighty-three million acres of the Nation’s important grazing lands; and

“Whereas these national-forest lands comprise the principal source of water supply for domestic, irrigation, and industrial purposes for thousands of communities, farms, and industries, and good forest and other vegetative cover is essential for watershed protection; and

“Whereas these lands annually supply approximately four billion board-feet of forest products through twenty-seven thousand sales transactions and the demand for national forest timber is steadily increasing; and

“Whereas these lands are the sole or main source of summer range for ten million cattle and sheep grazed by thirty thousand livestock permittees whose liveli-

hood is wholly or partially dependent upon livestock grazed on national-forest ranges; and

“Whereas these lands contain over four million acres of denuded and unsatisfactorily stocked timberlands and an additional four million acres of seriously depleted range lands; and

“Whereas all of these lands are potentially capable of producing an important part of the timber and forage needs of local communities, and contributing to the protection of watersheds, thereby alleviating flood damage and insuring a continuing water supply, increasing opportunity for local employment, bringing greater stability to local communities, and increasing returns to counties in the national forests from their share of national forests receipts, together with other benefits; and

“Whereas these lands will not restock or revegetate satisfactorily or within a reasonable time except through reforestation and revegetation or other measures to induce restocking or revegetation; and

“Whereas it is practical to reforest these denuded and unsatisfactorily stocked timber lands and revegetate these seriously depleted range lands in a period of fifteen years; and

“Whereas it is necessary to provide reasonable continuity of reforestation and revegetation programs in order to insure effective, efficient, and economical operations: Therefore be it”.

§ 581k. Authorization of appropriations for reforestation and revegetation

For the purpose of carrying out the provisions of this joint resolution on national-forest lands and other lands under the administration or control of the Forest Service of the Department of Agriculture, including the acquisition of land or interests therein for nurseries, there is authorized to be appropriated to remain available until December 31 of the ensuing fiscal year, \$3,000,000 for the fiscal year ending June 30, 1951; \$5,000,000 for the fiscal year ending June 30, 1952; \$7,000,000 for the fiscal year ending June 30, 1953; \$8,000,000 for the fiscal year ending June 30, 1954; \$10,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for reforestation; and \$1,500,000 for the fiscal year ending June 30, 1951; \$1,750,000 for the fiscal year ending June 30, 1952; \$2,000,000 for the fiscal year ending June 30, 1953; \$2,500,000 for the fiscal year ending June 30, 1954; \$3,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for range revegetation.

SUBCHAPTER III—RESEARCH PROGRAMS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 1672, 1673 of this title; title 7 sections 4501, 3103, 3124a, 3311; title 40 section 483.

§ 582a. Congressional findings

It is recognized that research in forestry is the driving force behind progress in developing and utilizing the resources of the Nation's forest and related rangelands. The production, protection, and utilization of the forest resources depend on strong technological advances and continuing development of the knowledge necessary to increase the efficiency of forestry practices and to extend the benefits that flow from forest and related rangelands. It is recognized that the total forestry research efforts of the several State colleges and universities and of the Federal Government are more fully effective if there is close coordination between such programs, and it is further recognized that forestry schools are especially vital in the training of research workers in forestry. It is also recognized that the provisions of this subchapter are essential to assist in providing the research background that undergirds the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], the Renewable Resources Extension Act of 1978 [16 U.S.C. 1671 et seq.], and the Soil and Water Resources Conservation Act of 1977 [16 U.S.C. 2001 et seq.].

§ 582a-2. Authorization of appropriations; other allotments and grants

To enable the Secretary to carry out the provisions of this subchapter there are authorized to be appropriated such sums as the Congress may from time to time determine to be necessary but not exceeding in any one fiscal year one-half the amount appropriated for Federal forestry research conducted directly by the Department of Agriculture for the fiscal year preceding the year in which the budget is presented for such appropriation. Funds appropriated and made available to the States under this subchapter shall be in addition to allotments or grants that may be made under other authorizations.

therefor and, if there be none, the Secretary shall reapportion such differences to the qualifying colleges and universities of other States participating in the forestry research program. If in any year the amount made available by a State from its own funds (including any revenue-sharing funds) to a State-certified institution eligible for assistance under this subchapter is reduced because of an increase in the allotment made available under this subchapter, the allotment of such State-certified institution from the next succeeding appropriation shall be reduced in an equivalent amount. The Secretary shall reapportion the amount of such reduction to other eligible colleges and universities of the same State if there be any that qualify therefor and, if there be none, the Secretary shall reapportion such amount to the qualifying colleges and universities of other States participating in the forestry research program.

FOREST MANAGEMENT

§ 583. Establishment of sustained-yield units to stabilize forest industries, employment, communities and taxable wealth

In order to promote the stability of forest industries, of employment, of communities, and of taxable forest wealth, through continuous supplies of timber; in order to provide for a continuous and ample supply of forest products; and in order to secure the benefits of forests in maintenance of water supply, regulation of stream flow, prevention of soil erosion, amelioration of climate, and preservation of wildlife, the Secretary of Agriculture and the Secretary of the Interior are severally authorized to establish by formal declaration, when in their respective judgments such action would be in the public interest, cooperative sustained-yield units which shall consist of federally owned or administered forest land under the jurisdiction of the Secretary establishing the unit and, in addition thereto, land which reasonably may be expected to be made the subject of one or more of the cooperative agreements with private landowners authorized by section 583a of this title.

(Mar. 29, 1944, ch. 146, § 1, 58 Stat. 132.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 583a, 583d of this title.

§ 583a. Cooperative agreements with private owners; privileges of private owners; recordation of agreements

The Secretary of Agriculture, with respect to forest land under his jurisdiction, and the Secretary of the Interior, with respect to forest land under his jurisdiction, are severally authorized, for the purposes specified in section 583 of this title, to enter into cooperative agreements with private owners of forest land within a cooperative sustained-yield unit, established pursuant to said section, providing for the coordinated management of such private forest land and of federally owned or administered forest lands within the sustained-yield unit involved. Each cooperative agreement may give the cooperating private landowner the privilege of purchasing without competitive bidding at prices not less than their appraised value, sub-

ject to periodic readjustments of stumpage rates and to such other conditions and requirements as the Secretary may prescribe, timber and other forest products from federally owned or administered forest land within the unit, in accordance with the provisions of sustained-yield management plans formulated or approved by the Secretary for the unit; shall limit the time, rate, and method of cutting or otherwise harvesting timber and other forest products from the land of the cooperating private landowner, due consideration being given to the character and condition of the timber, to the relation of the proposed cutting to the sustained-yield plan for the unit, and to the productive capacity of the land; shall prescribe the terms and conditions, but not the price, upon which the cooperating private landowner may sell to any person timber and other forest products from his land, compliance by the purchaser with such conditions to be required by the contract of sale; shall contain such provisions as the Secretary deems necessary to protect the reasonable interest of other owners of forest land within the unit; and shall contain such other provisions as the Secretary believes necessary to carry out the purposes of this subchapter.

Each cooperative agreement shall be placed on record in the county or counties in which the lands of the cooperating private landowner covered thereby are located, and the costs incident to such recordation may be paid out of any funds available for the protection or management of federally owned or administered forest land within the unit. When thus recorded, the agreement shall be binding upon the heirs, successors, and assigns of the owner of such land, and upon purchasers of timber or other forest products from such land, throughout the life of such cooperative agreement.

(Mar. 29, 1944, ch. 146, § 2, 58 Stat. 132.)

§ 583b. Establishment of sustained-yield units to stabilize sale of timber and forest products

The Secretary of Agriculture and the Secretary of the Interior are further severally authorized, whenever in their respective judgments the maintenance of a stable community or communities is primarily dependent upon the sale of timber or other forest products from federally owned or administered forest land and such maintenance cannot effectively be secured by following the usual procedures in selling such timber or other forest products, to establish by formal declaration for the purpose of maintaining the stability of such community or communities a sustained-yield unit consisting of forest land under the jurisdiction of the Secretary establishing such unit, to determine and define the boundaries of the community or communities for whose benefit such unit is created, and to sell, subject to such conditions and requirements as the Secretary believes necessary, federally owned or administered timber and other forest products from such unit without competitive bidding at prices not less than their ap-

by publication once weekly for four consecutive weeks in one or more newspapers of general circulation in the vicinity of the place where the timber is located, and the costs incident to such publication may be paid out of any funds available for the protection or management of federally owned or administered forest land within the unit concerned. Such requests need be considered only if received at the place designated in the notice not later than fifteen days after the first publication of such notice. If a request for a hearing is received within the time designated, notice of the holding of the hearing shall be given not less than ten days before the time set for such hearing, in the same manner as provided for the original notice.

(B) Establishment of county, area, or local committees

(i) In each county or area in which activities are carried out under this section, the Secretary shall establish a county or area committee.

(ii) Any such committee shall consist of not fewer than 3 nor more than 5 members who are fairly representative of the agricultural producers in the county or area and who shall be elected by the agricultural producers in such county or area under such procedures as the Secretary may prescribe.

(iii) The Secretary may designate local administrative areas within the county or larger area covered by a committee established under clause (i). Only agricultural producers within a local administrative area who participate or cooperate in programs administered within their area shall be eligible for nomination and election to the local committee for that area, under such regulations as the Secretary may prescribe.

(iv) The Secretary shall solicit and accept nominations from organizations representing the interests of socially disadvantaged

groups (as defined in section 355(e)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2003(e)(1)).

(v) Members of each county, area, or local committee shall serve for terms not to exceed 3 years.

(D) Use of committees

The Secretary shall use the services of such committees in carrying out programs under this section and the agricultural credit programs under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) and in considering administrative appeals as provided by section 6932(d) of title 7. The Secretary may use the services of such committees in carrying out programs under other authorities administered by the Secretary.

(E) Regulations

The Secretary shall issue such regulations as the Secretary considers necessary relating to the selection and exercise of the functions of the respective committees, and to the administration through such committees of the programs described in subparagraph (D). Pursuant to such regulations, each county and area committee shall select an executive director for the area or county. Such selection shall be made in the same manner as provided for the selection of the county executive director under section 7.21(b)(2) of title 7, Code of Federal Regulations, as in effect on January 1, 1994. Regulations governing payments or grants under this subsection shall be as simple and direct as possible, and, whenever practicable, they shall be classified on the following two bases:

- (i) Soil-depleting practices.
- (ii) Soil-building practices.

(F) Mandatory duties of Secretary

In carrying out this section, the Secretary shall—

(i) insofar as practicable, protect the interests of tenants and sharecroppers;

(ii) accord such encouragement to producer-owned and producer-controlled cooperative associations as will be in harmony with the policy toward cooperative associations set forth in Federal laws and as will tend to promote efficient methods of marketing and distribution;

(iii) in every practicable manner, protect the interests of small producers; and

(iv) in every practical way, encourage and provide for soil-conserving and soil-rebuilding practices.

(G) Discretionary authorities of Secretary

In carrying out this section, the Secretary may use other approved agencies.

(H) Limitations

In carrying out this section, the Secretary shall not have the authority to acquire any land or any right or interest in land.

(c) Apportionment of acreage allotments

(1) In apportioning acreage allotments under this section in the case of wheat and corn, the National and State allotments and the allotments to counties shall be apportioned annually on the basis of the acreage seeded for the production of the commodity during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

(2) In the case of wheat, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per centum of such county allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made. Notwithstanding any other provision of this section, the allotments established, or which would have been established, for any farm acquired in 1940 or thereafter by the United States for national-defense purposes shall be placed in an allotment pool and shall be used only to establish allotments for other farms owned or acquired by the owner of the farm so acquired by the United States. The allotments so made for any farm, including a farm on which wheat has not been planted during any of the three marketing years preceding the marketing year in which the allotment is made, shall compare with the allotments established for other farms in the same area which are similar except for the past acreage of wheat.

(3) In the case of corn, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acreage, type of soil, topography, and crop rotation practices.

(4) Repealed. Apr. 10, 1939, ch. 48, 53 Stat. 573.

(5) In determining normal yield per acre for any county under this section in the case of wheat or corn, the normal yield shall be the average yield per acre therein for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any reason there is no actual yield, or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used.

If, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield in any year of such ten-year period is less than 75 per centum of the average (computed without regard to such year), such year shall be eliminated in calculating the normal yield per acre. Such normal yield per acre for any county need be redetermined only when the actual average yield for the ten calendar years immediately preceding the calendar year in which such yield is being reconsidered differs by at least 5 per centum from the actual average yield for the ten years upon which the existing normal yield per acre for the county was based.

(6) In determining normal yield per acre for any farm under this section in the case of wheat or corn, the normal yield shall be the average yield per acre thereon for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any such year the data are not available, or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

(d) to (f) Repealed. Pub. L. 104-127, title III, § 336(a)(1)(A)(ii), Apr. 4, 1996, 110 Stat. 1004

(g) Assignment of payments

A payment that may be made to a producer under this section may be assigned only in accordance with regulations issued by the Secretary. This subsection shall not authorize any suit against or impose any liability on the Secretary, any disbursing agent, or any agency of the United States if payment is made to the producer without regard to the existence of any such assignment.

§ 590q-3. Critical lands resource conservation program in Great Plains area

Notwithstanding any other provision of law—

(a) Authorization for program

The Secretary of Agriculture is authorized to formulate and carry out a program with owners and operators of land in the Great Plains area as described in section 590p(b)¹ of this title to reduce runoff, soil and water erosion, and otherwise to promote the conservation of soil and water resources in such area through the conversion of cropland from soil depleting uses to conserving uses including the production of soil conserving cover crops.

(b) Terms of agreements with owners or operators

To effectuate the purposes of the program, the Secretary may enter into an agreement for a two-year period with an owner or operator as described in subsection (a) of this section whereby the owner or operator shall agree to devote to a soil conserving cover crop a specifically designated acreage of cropland on the farm up to 50 per centum of the acreage which had been planted to any soil depleting crop or crops in any of the two years preceding the date of the agreement. The agreement shall be renewable for annual periods thereafter subject to the mutual agreement of the owner or operator and the Secretary. In such agreement, the owner or operator shall agree (1) to plant a legume, or if not adapted to such area, an annual, biennial, or a perennial cover crop, as specified in the agreement; (2) to divert from production such portion of one or more crops designated by the Secretary as the Secretary determines necessary to effectuate the purpose of the program; (3) not to harvest any crop from or graze the designated acreage during the agreement period, unless the Secretary determines that it is necessary to permit grazing or harvesting in order to alleviate damage, hardship, or suffering caused by severe drought, flood, or other natural disaster, and consents to such grazing or harvesting subject to an appropriate reduction in the rate of payment; (4) to give adequate assurance, as specified by the Secretary, that the land was not acquired for the purpose of placing it in the program: *Provided*, That the foregoing provision shall not prohibit the continuation of an agreement by a new owner if an agreement has once been entered into under this section nor prevent an owner or operator from placing a farm in the program if the farm was acquired by the owner to replace an eligible farm from which he was displaced because of its acquisition by any Fed-

eral, State, or other agency having the right of eminent domain; (5) to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder upon his violation of the agreement at any stage during the time he has control of the land if the Secretary determines that such violation is of such a nature as to warrant termination of the agreement, or to make refunds or accept such payment adjustments as the Secretary may deem appropriate if the Secretary determines that the violation by the owner or operator does not warrant termination of the agreement; (6) upon transfer of his right and interest in the farm, during the agreement period, to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder unless the transferee of any such land agrees with the Secretary to assume all obligations of the agreement; (7) not to adopt any practice specified by the Secretary in the agreement as a practice which would tend to defeat the purposes of the agreement; and (8) to such additional provisions as the Secretary determines are desirable to effectuate the purposes of the program or to facilitate the practical administration of the program, including such measures as the Secretary may deem appropriate to keep the designated acreage from eroding and free from weeds and rodents in accordance with good conservation systems.

(c) Annual adjustment payments

In consideration for such agreement, the Secretary shall make annual adjustment payments to the owner or operator for the period of the agreement at such rate or rates not in excess of \$30 per acre as the Secretary determines to be fair and reasonable. The Secretary may use an advertising and bid procedure in determining the lands in any area to be covered by agreements and the payment rate therefor. The Secretary and the owner or operator may agree that the annual adjustment payments for the agreement period shall be made either upon approval of the agreement or in such installments as they may agree to be desirable: *Provided*, That for each year any annual adjustment payment is made in advance of performance, the annual adjustment payment shall be reduced by 5 per centum.

(d) Termination of agreements

The Secretary may terminate any agreement under the program, by mutual agreement with the owner or operator, if the Secretary determines that such termination would be in the public interest, and may agree with the owner or operator to such modification of agreements as the Secretary may determine to be desirable to carry out the purposes of the program or facilitate its administration.

(e) Preservation of cropland, crop acreage, and allotment history

The Secretary may, to the extent the Secretary deems it desirable, provide by appropriate regulations for preservation of cropland, crop acreage, and allotment history applicable to acreage diverted from the production of crops to establish vegetative cover for the purpose of

any Federal program under which such history is used as a basis for an allotment or other limitation or for participation in such program.

(f) Utilization of Federal and non-Federal offices

In carrying out the program, the Secretary shall utilize the services of local, county, and State committees established under section 590h of this title and the technical services of the Soil Conservation Service and soil and water conservation districts.

(g) Program payments

In case any producer who is entitled to any payment under the program dies, becomes incompetent, or disappears before receiving such payment, or is succeeded by another who renders or completes the required performance, the payment shall, without regard to any other provisions of law, be made as the Secretary may determine to be fair and reasonable.

(h) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing, on a fair and equitable basis, in payments under the program.

(i) Rules and regulations

The Secretary shall prescribe such regulations as the Secretary determines necessary to carry out the provisions of this section.

(j) Authorization of appropriations; utilization of Commodity Credit Corporation

There are authorized to be appropriated for the period beginning October 1, 1977, and ending September 30, 1981, such sums as may be necessary to carry out the program provided for in this section. The Secretary is authorized to utilize the facilities, services, and authorities of the Commodity Credit Corporation in discharging the Secretary's functions and responsibilities under the program, including payment of costs of administration: *Provided*, That the Commodity Credit Corporation shall not make any expenditures for such purposes unless the Corporation has received funds to cover such expenditures from appropriations made to carry out this section.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 590z-1, 590z-2 of this title.

§ 590z-1. Prerequisites for construction of project
(a) Investigation and report to President

No construction of a project may be undertaken pursuant to the authority of this subchapter unless and until the Secretary has made an investigation thereof and has submitted to the President his report and findings on—

- (i) the engineering feasibility of the proposed construction;
- (ii) the estimated cost of the proposed construction;
- (iii) the part of the estimated cost which properly can be allocated to irrigation;
- (iv) the part of the estimated cost which probably can be repaid by the water users in accordance with the requirements of section 590z-2 of this title;
- (v) the part of the estimated cost which can properly be allocated to municipal or miscellaneous water supplies or power and probably be returned to the United States in revenues therefrom;
- (vi) the part of the estimated cost which can properly be allocated to the irrigation of Indian trust and tribal lands, and be repayable in accordance with existing law relating to Indian lands;
- (vii) the part of the estimated cost which can properly be allocated to flood control as recommended by the Secretary after consultation with the Chief of Engineers, Department of the Army.

In connection with each such investigation, report, and finding, the Secretary shall consult with the Secretary of Agriculture regarding participation in the proposed project by the Department of Agriculture under the authority of sec-

tions 590z-3 and 590z-4 of this title; and the Secretary shall also transmit to the President a report by the Secretary of Agriculture to the President on the participation, if any, proposed by the Department of Agriculture. The project shall be deemed authorized and may be undertaken pursuant to this subchapter if (1) the Secretary finds and certifies to the President that the project has engineering feasibility and that the water users probably can repay, in accordance with the requirements of section 590z-2 of this title an amount equal to or in excess of that part of the estimated cost allocated by him to irrigation to be met by expenditure of moneys appropriated pursuant to section 590z-10(1) of this title; and (2) the President has approved said report and findings and has found that services, labor, materials, easements, and other property, including money, for the construction of the project, should be made available to the Department of the Interior by the Works Projects Administration or other Federal agencies, to the extent found necessary by the Secretary to make up the difference between the estimated cost of project construction and (i) the part thereof to be met by expenditure of moneys appropriated pursuant to section 590z-10(1) of this title, together with (ii) such services, materials, money, easements, and other property as non-Federal agencies or parties have agreed to contribute and the Secretary has found acceptable under section 590z of this title.

(b) Construction of physical features

No actual construction of the physical features of a project shall be undertaken unless and until (1) the Secretary has found that lands, or interests in lands, deemed necessary for the construction and operation of the major features of the projects have been secured, or sufficient progress made in their procurement to indicate the probability that all these lands or interests in lands can be secured, with titles and at prices satisfactory to him; and (2) the Secretary has found (i) that water rights adequate for the purposes of the project have been acquired with titles and at prices satisfactory to him, or that such water rights have been initiated and in his judgment can be perfected in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him; and (ii) that such water rights can be utilized for the purposes of the project in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him.

(c) Division of project

Any part of a project hereunder may be designated as a division of the project by the Secretary if he, after consultation with the Secretary of Agriculture, deems this desirable for orderly and efficient construction or administration. The term "project", as used in subsection (b) of this section and section 590z-2 of this title, shall be deemed to mean also "division of a project", designated as provided in this subsection. Any project authorized for construction from appropriations under the head "Water Conservation and Utility Projects" in the Interior Department Appropriation Act, 1940 [ch. 119] (53 Stat. 685), hereinafter called the 1940 water conservation appropriation, may be des-

ignated by the Secretary, upon agreement with the Secretary of Agriculture, a project under this subchapter, and shall thereupon be subject to all the provisions and requirements thereof, except those of subsections (a) and (b) of this section.

§ 590z-2. Repayment contracts

(a) Necessity

No water for irrigation may be delivered from the works of any project constructed under the authority of this subchapter until after the repayment contract or contracts required by this section have been executed. Where practicable in the judgment of the Secretary, the repayment contract shall be with a water users' organization or organizations satisfactory in form and powers to the Secretary; and otherwise the repayment contract shall be with the individual landowners. The contract or contracts shall contain such provisions as the Secretary deems necessary to carry out the purposes of this sub-

chapter and to protect the interests of the United States.

(b) "Reimbursable construction cost" defined

The term "reimbursable construction costs" as used in this subchapter means that part of the costs of investigating, constructing, and operating and maintaining the project, which are allocated by the Secretary to irrigation, and which are met by expenditures of moneys therefor appropriated under the authority of section 590z-10(1) of this title, plus such amounts as the President, under section 590z(1) of this title, may determine to be reimbursable: *Provided*, That administrative expenses incurred in the District of Columbia in connection with the investigation construction, or operation and maintenance of a project shall not be included in the reimbursable construction costs nor shall they be charged to the water users in any way.

(c) Terms

The repayment contract or contracts for a project shall, in their aggregate, provide for repayment to the United States of the total amount of the reimbursable construction costs of the project allocated to irrigation. Each such contract shall provide, among other things, that—

(1) The Secretary shall fix a development period for each project of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said project; and during the development period water shall be delivered to the lands in the project involved at a charge per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water. Such charges shall be fixed with a view of returning such amounts as in the Secretary's judgment are justified by the rate of project development, including as a minimum the return over the full development period of that part of the cost of operating and maintaining the project, during said period, allocated by the Secretary to irrigation; and collections of such charges in excess of the cost of the operation and maintenance during the development period, as thereafter determined by the Secretary, shall be credited to the reimbursable construction costs of the project in the manner determined by the Secretary.

(2) The United States shall operate and maintain the project during the development period fixed for it. After the development period, the United States shall operate and maintain the project or any part thereof as long as is deemed necessary by the Secretary, and shall be paid in advance for each year that part of the estimated cost of operating and maintaining the project for such year allocated by the Secretary to irrigation. In the event charges due the United States are not paid when due the United States may, at its election, suspend operations in whole or in part.

(3) The repayment of the reimbursable construction costs, except as to Indian lands which shall be repayable in accordance with existing law relating to Indian lands, shall be spread in not to exceed forty annual installments, of the number and amounts fixed by

the Secretary; and the first annual installment under each contract shall become due and payable on the date fixed by the Secretary, in the year next following the last year of the development period fixed under subsection (c)(1) of this section: *Provided*, That the provisions of this subsection shall not be construed to modify the provisions of special legislation pertaining to any particular project.

(4) The water users or their organization will take such measures as the Secretary deems proper to secure the adoption of proper accounting, to protect the condition of project works, and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Delinquencies in any payments due to the United States shall be penalized by a penalty of not less than one-half of 1 per centum per month. No water shall be delivered to or for any land or party while either said land or the organization in which it is located or said party is in arrears in the advance payment of operation and maintenance charges or development period charges under subsection (c)(1) of this section, or in arrears for more than twelve months in the payment of an installment of the reimbursable construction costs.

(5) The Secretary shall establish the size of farm units of irrigable lands on each project in accordance with his findings of the area sufficient in size for the support of a family on the lands to be irrigated. No water may be delivered to or for more than the farm unit area of irrigable lands in the project owned by a single landowner: *Provided*, That this subsection shall not apply to the United States or any agency or instrumentality thereof, corporate or otherwise. No water shall be delivered to or for any land, in a project area, transferred or disposed of subsequent to approval of the project by the President, and within three years from the time water becomes available, unless and until it has been shown to the satisfaction of the Secretary or his duly authorized representative that the land has been transferred or disposed of at a price not exceeding the appraised value as determined by the Secretary or his duly authorized representatives, and upon proof of fraudulent representation as to the true consideration involved the Secretary is authorized to cancel the water right attaching to the land involved: *Provided further*, That nothing herein shall be construed to create authority to interfere with the delivery of water under prior rights.

CODIFICATION

The first sentence of this section is from section 1 of act June 3, 1878.

The words of this section reading "bona fide residents of the States of Colorado, Nevada, New Mexico, Arizona, Utah, Wyoming, North Dakota, South Dakota, Idaho, or Montana," read in the original section, "bona fide residents of the State of Colorado, or Nevada, or either of the Territories of New Mexico, Arizona, Utah, Wyoming, Dakota, Idaho, or Montana."

A proviso at the close of section 1 of act June 3, 1878, was combined with a similar proviso in act Jan. 11, 1921, to form the last sentence of this section.

Act of Jan. 11, 1921, is the source of the remainder of the section.

As originally enacted that act began with the following language: "Section 1 of an Act entitled 'An Act authorizing the citizens of Colorado, Nevada, and the Territories to fell and remove timber on the public domain for mining and domestic purposes,' approved June 3, 1878, chapter 150, page 88, volume 20, United States Statutes at Large, and section 8 of an Act entitled 'An Act to repeal timber-culture laws, and for other purposes,' approved March 3, 1891, as amended by an Act approved March 3, 1891, chapter 559, page 1093, volume 26, United States Statutes at Large, and the several Acts amendatory thereof, be, and the same are hereby, extended so that," etc.

This language was omitted as having been given effect by the combination of the remaining language of the act with section 1 of act June 3, 1878, to form this section, by section 612 of this title.

§ 616. Exportation of timber cut on national forest or public land in Alaska

Timber lawfully cut on any national forest, or on the public lands in Alaska, may be exported from the State or Territory where grown if, in the judgment of the Secretary of the department administering the national forests, or the public lands in Alaska, the supply of timber for local use will not be endangered thereby, and the respective Secretaries concerned are authorized to issue rules and regulations to carry out the purposes of this section.

(Apr. 12, 1926, §1, ch. 117, 44 Stat. 242.)

ADMISSION OF ALASKA AS STATE

Admission of Alaska into the Union was accomplished Jan. 3, 1959, on issuance of Proc. No. 3269, Jan. 3, 1959, 24 F.R. 81, 73 Stat. c16, as required by sections 1 and 8(c) of Pub. L. 85-508, July 7, 1958, 72 Stat. 339, set out as notes preceding section 21 of Title 48, Territories and Insular Possessions.

§ 617. Exportation of unprocessed timber from Federal lands

(a) Limitation of quantity available for export

For each of the calendar years 1969 through 1973, inclusive, not more than 350 million board feet, in the aggregate, of unprocessed timber may be sold for export from the United States from Federal lands located west of the 100th meridian.

(b) Surplus quantities and species available for export; public hearing; administrative finding

After public hearing and a finding by the appropriate Secretary of the department administering Federal lands referred to in subsection (a) of this section that specific quantities and

species of unprocessed timber are surplus to the needs of domestic users and processors, such quantities and species may be designated by the said Secretary as available for export from the United States in addition to that quantity stated in subsection (a) of this section.

(c) Rules and regulations; prevention of substitution of Federal for non-Federal timber

The Secretaries of the departments administering lands referred to in subsection (a) of this section may issue rules and regulations to carry out the purposes of this section, including the prevention of substitution of timber restricted from export by this section for exported non-Federal timber.

(d) Limitations inapplicable to sales of prescribed minimum value

In issuing rules and regulations pursuant to subsection (c) of this section, the appropriate Secretaries may include therein provisions authorizing the said Secretaries, in their discretion, to exclude from the limitations imposed by this section sales having an appraised value of less than \$2,000.

§ 618. Timber contract payment modification

(a) Statement of purpose, authorization, scope, qualifications, financial requirements, etc., for buy-out

(1) Notwithstanding any other provisions of law, in order to retain jobs, to preserve free competition, to utilize the potential productive capacity of plants, to preserve small communities dependent on a single economic sector to assure an open and competitive market for future sales of Government timber, and to lessen the impact of unemployment, the Secretary of Agriculture for national forest lands and the Secretary of the Interior for public lands under their respective jurisdictions are authorized and directed to permit a requesting purchaser to return to the Government a volume of the purchaser's timber contracts as determined under paragraph (2) upon payment of a buy-out charge from such purchaser in an amount as determined under paragraph (3). The purchaser shall be released from further obligation to cut, remove, and pay for timber under such contract upon payment, or arrangement for payment as provided under paragraph (3)(E), of such buy-out charge and completion of any obligation required pursuant to paragraph (4)(B). The Government does not hereby surrender any other claim against a purchaser which arose under a contract prior to effectuation of this release and not in connection with this release from obligation to cut, harvest and pay for timber.

(2)(A) To qualify for buy-out under this section, a timber sales contract must have been bid prior to January 1, 1982, for an original contract

period of 10 years or less, and be held as of June 1, 1984: *Provided*, That any such contract that was defaulted after January 1, 1981 may qualify for buy-out under this section so long as (i) settlement for damages has not been reached between the purchaser and the United States; and (ii) the purchaser's loss on all of its qualifying timber sales contracts, as determined in paragraph (3)(A), is in excess of 50 per centum of the net book worth of the purchaser. A contract is qualified for buy-out notwithstanding the fact that it was reformed after October 1, 1983, pursuant to Bureau of Land Management Instructional Memorandum 83-743 or is included in a Forest Service multisale plan pursuant to the President's program of July 28, 1983.

(B) A purchaser holding more than twenty-seven million three hundred thousand board feet of net merchantable sawtimber as of January 1, 1982, in qualifying contracts as provided in subparagraph (A) shall be entitled to buy out up to 55 per centum of such timber volume up to a maximum of two hundred million board feet.

(C) A purchaser holding twenty-seven million three hundred thousand or less board feet of net merchantable sawtimber as of January 1, 1982, in qualifying contracts as provided in subparagraph (A) shall be entitled to buy out up to fifteen million board feet of such timber volume or one contract, whichever is greater in volume.

(D) So long as the volume limitation of two hundred million board feet is not exceeded, the percentage limitation of subparagraph (B) or the volume limitation of subparagraph (C) may be exceeded by a volume amount not to exceed the volume of the smallest volume contract bought out by the purchaser if the purchaser could not otherwise attain his percentage or volume entitlement.

(E) Timber returned to the Government pursuant to this subsection shall be available for resale by the Government upon payment, or arrangement for payment, of the buy-out charge and completion of obligations, if any, under paragraph (4)(B).

(3)(A) Sums collected by the appropriate Secretary in connection with the buy-out of contracts pursuant to this subsection shall be deposited in and paid from the Treasury in the same manner as moneys received from timber sales from such lands and shall be determined as follows: The purchaser's loss on any qualifying timber sales contracts shall be determined by the Forest Service or the Bureau of Land Management by subtracting the current delivered log value (as determined by such agency) from the delivered log cost based on the current contract return (as determined by such agency) of any such contracts. If such loss is—

(i) in excess of 100 per centum of the net book worth of the purchaser, the buy-out cost shall be \$10 per one thousand board feet of currently held volume bought out;

(ii) in excess of 50 per centum up to 100 per centum of the net book worth of the purchaser, the buy-out cost shall be 10 per centum of the contract overbid but at least \$10 per one thousand board feet of currently held volume bought out; or

(iii) up to 50 per centum or less of the net book worth of the purchaser, the buy-out cost

shall be 15 per centum for the purchaser's first one hundred twenty-five million board feet, 20 per centum for additional board feet above one hundred twenty-five million up to one hundred fifty million, 25 per centum for additional board feet above one hundred fifty million up to one hundred seventy-five million, and 30 per centum for additional board feet above one hundred seventy-five million up to two hundred million, of the contract overbid but at least \$10 per one thousand board feet of currently held volume bought out.

(B) For purposes of this paragraph, the term "net book worth" does not include the value of any outstanding uncut Federal timber sales contracts.

(C) Net book worth shall be, subject to agency verification, as determined by an independent certified public accountant in accordance with generally accepted accounting standards for the timber industry.

(D) A purchaser may elect to pay the buy-out cost imposed by subparagraph (A)(iii) in lieu of utilizing loss and net book worth determinations.

(E) Where a purchaser is not able to obtain sufficient credit elsewhere to finance the buy-out charge at reasonable rates and terms, purchaser may, upon payment of 5 per centum of the buy-out charge, pay the remainder of the buy-out charge in equal quarterly payments over a period not to exceed 5 years at an interest rate adjusted with each payment equal to the average market yield of outstanding Treasury obligations with remaining years to maturity of five years payment must be secured by bond, deposited securities or other forms of security acceptable to the appropriate Secretary in an amount sufficient to cover the entire buy-out payment.

(F) For purposes of this paragraph, the term "contract overbid" is the difference between the advertised contract rate and the rate the purchaser bid.

(4)(A) Contracts returned pursuant to this subsection under which no harvest has begun shall be returned in full.

(B) Contracts returned to the appropriate Secretary pursuant to this subsection under which harvest has begun, shall be returned conditionally and shall not be considered as part of the outstanding volume of timber under contract for the purposes of this Act. The return shall become final after the purchaser has completed stages of contractual obligations for the units on which the harvest has begun, including work on roads, to logical stopping points as determined by the Secretary after consultation with the purchaser. All remaining unharvested units must be returned.

(C) The appropriate Secretary may reject return of a contract on which harvest has begun if he determines, in his discretion, that the remaining unharvested portion is substantially unrepresentative of the original sale as a whole in terms of species, logging methods, or other appropriate criteria, and that accepting the return of such contract would seriously disadvantage the Government.

(5)(A) Timber from returned or defaulted contracts shall be offered for resale in an orderly

fashion as part of, and not in addition to, the normal congressionally authorized timber sales program, and in a manner which does not disrupt regional markets or artificially depress domestic timber prices. Timber from returned or defaulted contracts shall be given preference for resale in the Forest Service timber sales programs.

(B) Timber sales in Forest Service region 6 shall not exceed four billion three hundred million board feet of net merchantable sawtimber in fiscal year 1984.

(C) Beginning in fiscal year 1985 and continuing through fiscal year 1991 or the fiscal year in which timber contract extensions in region 6 granted under the President's program of July 28, 1983 (as constituted on October 16, 1984), are completed, whichever is later, the Secretary of Agriculture shall set, and periodically adjust as necessary, the maximum annual timber sale volume in region 6. Such maximum sale volume shall be set so as to achieve a volume of region 6 net merchantable sawtimber under contract at the end of each fiscal year which does not exceed twelve billion three hundred million board feet: *Provided, however,* That such maximum annual sale volume shall not exceed five billion two hundred million board feet of net merchantable sawtimber. The sale of timber within region 6 shall be made in such a manner as not to result in discriminatory treatment as between different forests in the region.

(6)(A) The Secretary of the Interior and the Secretary of Agriculture shall publish final rules for the implementation of this subsection in the Federal Register within ninety days after October 16, 1984.

(B) Such final rules shall require purchasers to submit buy-out requests to the appropriate Secretary within ninety days after the publication of such rules.

(7)(A) For purposes only of determining a purchaser's buy-out limitation under paragraph (2) and net worth in connection with buy-out cost under paragraph (3), concerns which are affiliates as defined under subparagraph (B) of this paragraph shall be treated as a single entity.

(B) Definition of affiliates: Concerns are affiliates of each other when either directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. In determining whether or not affiliation exists, consideration shall be given to all appropriate factors, including, but not limited to, common ownership, common management, and contractual relationships.

(C) Definition of purchaser: For the purposes of this Act, a purchaser is the holder of a contract to purchase timber from the Secretary of Agriculture or the Secretary of the Interior.

(b) Extension of time for performance of contracts; covered contracts; damages for default

(1) Timber contracts bid prior to January 1, 1982, not bought out pursuant to subsection (a) of this section and included in the President's program of July 28, 1983, shall not be subject to any further extension of time for performance except as permitted under the President's pro-

gram of July 28, 1983, as implemented by the Secretary of Agriculture and the Secretary of the Interior, providing for the extension of certain timber sale contracts and requiring the phased harvesting of such extended contracts, which program is hereby ratified except as modified by paragraph (2).

(2) Notwithstanding any other provision of law, timber contracts extended pursuant to the President's program of July 28, 1983, as implemented by the Secretary of Agriculture shall not be subject to inclusion of additional provisions for calculating damages for default.

(c) Monitoring of bidding patterns on timber sale contracts; discouragement of bids; reporting requirements

The Secretary of Agriculture and the Secretary of the Interior shall monitor bidding patterns on timber sale contracts and take action to discourage bidding at such a rate as would indicate that the bidder, if awarded the contract, would be unable to perform the obligations as required, or that the bid is otherwise for the purpose of speculation. Each Secretary shall include in the annual report to Congress information concerning actions taken under this subsection.

(d) Cash down-payment and periodic payments for contracts; effective date

Effective January 1, 1985, in any contract for the sale of timber from the National Forests, the Secretary of Agriculture shall require a cash down-payment at the time the contract is executed and periodic payments to be made over the remaining period of the contract.

ADMINISTRATIVE APPEALS OF TIMBER SALES

Pub. L. 99-500, § 101(h) [title III, § 320], Oct. 18, 1986, 100 Stat. 1783-242, 1783-286, and Pub. L. 99-591, § 101(h) [title III, § 320], Oct. 30, 1986, 100 Stat. 3341-242, 3341-287, provided that: "To assure that National Forest and Bureau of Land Management timber included in sales defaulted by the purchaser, or returned under the Federal Timber Contract Payment Modification Act (Public Law 98-478) [see Short Title note above], is available for resale in a timely manner, such sales shall be subject only to one level of administrative appeal. § 619. Emergency stumpage rate redeterminations in Alaska

(a) Application; applicable period

Emergency stumpage rate redetermination shall be made upon the written application of the purchaser of National Forest timber in Alaska, bid after January 1, 1974, and rates established as a result thereof shall be effective for timber scaled during a period between January 1, 1981, and five years from October 16, 1984.

(b) Competitive effect of modification of contracts

In making the emergency rate redeterminations the Secretary may modify existing contract terms, including the amount of the bid premium, in order to provide rates which will permit the holders of contracts bid after January 1, 1974, to be competitive with other purchasers of National Forest timber.

(c) Excepted contracts

The provisions of this section shall not apply to contracts held by the holders of 50-year timber sale contracts in Alaska.

§ 620. Findings and purposes

(a) Findings

The Congress makes the following findings:

(1) Timber is essential to the United States.

(2) Forests, forest resources, and the forest environment are exhaustible natural resources that require efficient and effective conservation efforts.

(3) In the interest of conserving those resources, the United States has set aside millions of acres of otherwise harvestable timberlands in the western United States, representing well over 100,000,000,000 board feet of otherwise harvestable timber.

(4) In recent years, administrative, statutory, or judicial action has been taken to set aside an increased amount of otherwise harvestable timberlands for conservation purposes.

(5) In the next few months and years, additional amounts of otherwise harvestable timberlands may be set aside for conservation purposes, pursuant to the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.], the National Forest Management Act of 1976, or other expected statutory, administrative, and judicial actions.

(6) There is evidence of a shortfall in the supply of unprocessed timber in the western United States.

(7) There is reason to believe that any shortfall which may already exist may worsen unless action is taken.

(8) In conjunction with the broad conservation actions expected in the next few months and years, conservation action is necessary with respect to exports of unprocessed timber.

(b) Purposes

The purposes of sections 620 to 620j of this title are—

(1) to promote the conservation of forest resources in conjunction with State and Federal

resources management plans, and other actions or decisions, affecting the use of forest resources;

(2) to take action essential for the acquisition and distribution of forest resources or products in short supply in the western United States;

(3) to take action necessary, to meet the goals of Article XI 2.(a) of the GATT 1994 (as defined in section 3501(1)(B) of title 19), to ensure sufficient supplies of certain forest resources or products which are essential to the United States;

(4) to continue and refine the existing Federal policy of restricting the export of unprocessed timber harvested from Federal lands in the western United States; and

(5) to effect measures aimed at meeting these objectives in conformity with the obligations of the United States under the WTO Agreement and the multilateral trade agreements (as such terms are defined in paragraphs (9) and (4), respectively, of section 3501 of title 19).

This section is referred to in sections 620b, 620c, 620d, 620e, 620f, 620g, 620h, 620j of this title.

§ 620a. Restrictions on exports of unprocessed timber originating from Federal lands

(a) Prohibition on export of unprocessed timber originating from Federal lands

No person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export such timber from the United States, or sell, trade, exchange, or otherwise convey such timber to any other person for the purpose of exporting such timber from the United States, unless such timber has been determined under subsection (b) of this section to be surplus to the needs of timber manufacturing facilities in the United States.

(b) Surpluses

(1) Determinations by Secretary concerned

The prohibition contained in subsection (a) of this section shall not apply to specific quantities of grades and species of unprocessed timber originating from Federal lands which the Secretary concerned determines to be surplus to domestic manufacturing needs.

(2) Procedures

Any determination under paragraph (1) shall be made in regulations issued in accordance with section 553 of title 5. Any such determination shall be reviewed at least once in every 3-year period. The Secretary concerned shall publish notice of such review in the Federal Register, and shall give the public an opportunity to comment on such review.

(Pub. L. 101-382, title IV, §489, Aug. 20, 1990, 104 Stat. 715.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 620d, 620f of this title.

§ 620b. Limitations on substitution of unprocessed Federal timber for unprocessed timber exported from private lands

(a) Direct substitution

(1) Except as provided in paragraph (3) and subsection (c) of this section, no person may purchase directly from any department or agency of the United States unprocessed timber orig-

inating from Federal lands west of the 100th meridian in the contiguous 48 States if—

(A) such unprocessed timber is to be used in substitution for exported unprocessed timber originating from private lands; or

(B) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands.

(2) Notwithstanding paragraph (1)—

(A) Federal timber purchased pursuant to a contract entered into between the purchaser and the Secretary concerned before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary concerned in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands;

(B) in the 1-year period beginning on August 20, 1990, any person who operates under a Cooperative Sustained Yield Unit Agreement, and who has an historic export quota shall be limited to entering into contracts under such a quota to a volume equal to not more than 66 percent of the person’s historic export quota used during fiscal year 1989;

(C) a person referred to in subparagraph (B) shall reduce the person’s remaining substitution volume by an equal amount each year thereafter such that no volume is substituted under such a quota in fiscal year 1995 or thereafter; and

(D) the 24-month period referred to in paragraph (1)(B) shall not apply to any person who—

- (i) before August 20, 1990, has, under an historic export quota approved by the Secretary concerned, purchased unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States in substitution for exported unprocessed timber originating from private lands;
- (ii) certifies to the Secretary concerned, within 3 months after August 20, 1990, that the person will, within 6 months after August 20, 1990, cease exporting unprocessed timber originating from private lands; and
- (iii) ceases exports in accordance with such certification.

(3) APPLICABILITY.—In the case of the purchase by a person of unprocessed timber originating from Federal lands west of the 119th meridian in the State of Washington, paragraph (1) shall apply only if—

(A) the private lands referred to in paragraph (1) are owned by the person; or

(B) the person has the exclusive right to harvest timber from the private lands described in paragraph (1) during a period of more than 7 years, and may exercise that right at any time of the person’s choosing.

(b) Indirect substitution

(1) In general

Except as provided in paragraph (2), no person may, beginning 21 days after August 20, 1990, purchase from any other person unprocessed timber originating from Federal lands

west of the 100th meridian in the contiguous 48 States if such person would be prohibited from purchasing such timber directly from a department or agency of the United States. Acquisitions of western red cedar which are domestically processed into finished products to be sold into domestic or international markets are exempt from the prohibition contained in this paragraph.

(2) Exceptions

(A) The Secretary of Agriculture shall, as soon as practicable but not later than 9 months after August 20, 1990, establish, by rule, a limited amount of unprocessed timber originating from Federal lands described in subparagraph (B) which may be purchased by a person otherwise covered by the prohibition contained in paragraph (1). Such limit shall equal—

- (i) the amount of such timber acquired by such person, based on the higher of the applicant's actual timber purchasing receipts or the appropriate Federal agency's records, during fiscal years 1988, 1989, and 1990, divided by 3, or
- (ii) 15 million board feet,

whichever is less, except that such limit shall not exceed such person's proportionate share, with respect to all persons covered under this paragraph, of 50 million board feet.

(B) The Federal lands referred to in subparagraph (A) are Federal lands administered by the United States Forest Service Region 6 that are located north of the Columbia River from its mouth and east to its first intersection with the 119th meridian, and from that point north of the 46th parallel and east.

(C) Any person may sell, trade, or otherwise exchange with any other person the rights obtained under subparagraph (A), except that such rights may not be sold, traded, or otherwise exchanged to persons already in possession of such rights obtained under subparagraph (A).

(D) Federal timber purchased from Federal lands described in subparagraph (B) pursuant to a contract entered into between the purchaser and the Secretary of Agriculture before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary of Agriculture in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands.

(c) Sourcing areas

(1) In general

The prohibitions contained in subsections (a) and (b) of this section shall not apply with respect to the acquisition of unprocessed timber originating from Federal lands within a sourcing area west of the 100th meridian in the contiguous 48 States approved by the Secretary concerned under this subsection by a person who—

- (A) in the previous 24 months, has not exported unprocessed timber originating from private lands within the sourcing area; and

- (B) during the period in which such approval is in effect, does not export unprocessed timber originating from private lands within the sourcing area.

The Secretary concerned may waive the 24-month requirement set forth in subparagraph (A) for any person who, within 3 months after August 20, 1990, certifies that, within 6 months after August 20, 1990, such person will, for a period of not less than 3 years, cease exporting unprocessed timber originating from private lands within the sourcing area.

(2) Requirements for application for sourcing areas for processing facilities located outside the northwestern private timber open market area

The Secretaries concerned shall, not later than 3 months after August 20, 1990, prescribe procedures to be used by a person applying for approval of a sourcing area under paragraph (1). Such procedures shall require, at a minimum, the applicant to provide—

- (A) information regarding the location of private lands (except private land located in the northwestern private timber open market area) from which such person has, within the previous year, harvested or otherwise acquired unprocessed timber which has been exported from the United States; and

- (B) information regarding the location of each timber manufacturing facility owned or operated by such person within the proposed sourcing area boundaries at which the applicant proposes to process timber originating from Federal lands.

The prohibition contained in subsection (a) of this section shall not apply to a person before the date which is 1 month after the procedures referred to in this paragraph are prescribed. With respect to any person who submits an application in accordance with such procedures by the end of the time period set forth in the preceding sentence, the prohibition contained in subsection (a) of this section shall not apply to such person before the date on which the Secretary concerned approves or disapproves such application.

(3) Grant of approval for sourcing areas for processing facilities located outside of the northwestern private timber open market area

(A) In general

For each applicant, the Secretary concerned shall, on the record and after an opportunity for a hearing, not later than 4 months after receipt of the application for a sourcing area, either approve or disapprove the application. The Secretary concerned may approve such application only if the Secretary determines that the area that is the subject of the application, in which the timber manufacturing facilities at which the applicant desires to process timber originating from Federal lands are located, is geographically and economically separate from any geographic area from which that person harvests for export any unprocessed timber originating from private lands.

(B) For timber manufacturing facilities located in Idaho

Except as provided in subparagraph (D), in making a determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the private and Federal timber sourcing patterns for the applicant's timber manufacturing facilities, as well as the private and Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such private and Federal timber sourcing patterns.

(C) For timber manufacturing facilities located in States other than Idaho

Except as provided in subparagraph (D), in making the determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the Federal timber sourcing patterns for the applicant's timber manufacturing facilities, as well as the Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such Federal timber sourcing patterns. Private timber sourcing patterns shall not be a factor in such determinations in States other than Idaho.

(D) Area not included

In deciding whether to approve or disapprove an application, the Secretary shall not—

- (i) consider land located in the northwestern private timber open market area; or
- (ii) condition approval of the application on the inclusion of any such land in the applicant's sourcing area, such land being includable in the sourcing area only to the extent requested by the applicant.

(4) Denial of application for sourcing areas for processing facilities located outside the northwestern private timber open market area

(A) Subject to subparagraph (B), and notwithstanding any other provision of law, in the 9-month period after receiving disapproval of an application submitted pursuant to this subsection, the applicant may purchase unprocessed timber originating from Federal lands in the area which is the subject of the application in an amount not to exceed 75 percent of the annual average of such person's purchases of unprocessed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application. In the subsequent 6-month period, such person may purchase not more than 25 percent of such annual average, after which time the prohibitions contained in subsection (a) of this section shall fully apply.

(B) If a person referred to in subparagraph (A) certifies to the Secretary concerned, within 90 days after receiving disapproval of such application, that such person shall, within 15 months after such disapproval, cease the ex-

port of unprocessed timber originating from private lands from the geographic area determined by the Secretary for which the application would have been approved, such person may continue to purchase unprocessed timber originating from Federal lands in the area which is the subject of the application, without being subject to the restrictions of subparagraph (A), except that such purchases during that 15-month period may not exceed 125 percent of the annual average of such person's purchases of unprocessed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application which was denied.

(C) Any person to whom subparagraph (B) applies may not, during the 15-month period after the person's application for sourcing area boundaries is denied, export unprocessed timber originating from private lands in the geographic area determined by the Secretary concerned for which the application would have been approved in amounts that exceed 125 percent of the annual average of such person's exports of unprocessed timber from such private lands during the 5 full fiscal years immediately prior to submission of the application.

(5) Review of determinations for sourcing areas for processing facilities located outside the northwestern private timber open market area

Determinations made under paragraph (3) shall be reviewed, in accordance with the procedures prescribed in sections 620 to 620j of this title, not less often than every 5 years.

(6) Sourcing areas for processing facilities located in the northwestern private timber open market area**(A) Establishment**

In the northwestern private timber open market area—

- (i) a sourcing area boundary shall be a circle around the processing facility of the sourcing area applicant or holder;
- (ii) the radius of the circle—

(I) shall be the furthest distance that the sourcing area applicant or holder proposes to haul Federal timber for processing at the processing facility; and

(II) shall be determined solely by the sourcing area applicant or holder;

- (iii) a sourcing area shall become effective on written notice to the Regional Forester for Region 6 of the Forest Service of the location of the boundary of the sourcing area;
- (iv) the 24-month requirement in paragraph (1)(A) shall not apply;
- (v) a sourcing area holder—

(I) may adjust the radius of the sourcing area not more frequently than once every 24 months; and

(II) shall provide written notice to the Regional Forester for Region 6 of the adjusted boundary of its sourcing area before using the adjusted sourcing area; and

- (vi) a sourcing area holder that relinquishes a sourcing area may not reestab-

lish a sourcing area for that processing facility before the date that is 24 months after the date on which the sourcing area was relinquished.

(B) Transition

With respect to a portion of a sourcing area established before November 14, 1997, that contains Federal timber under contract before November 14, 1997, and is outside the boundary of a new sourcing area established under subparagraph (A)—

(i) that portion shall continue to be a sourcing area only until unprocessed Federal timber from the portion is no longer in the possession of the sourcing area holder; and

(ii) unprocessed timber from private land in that portion shall be exportable immediately after unprocessed timber from Federal land in the portion is no longer in the possession of the sourcing area holder.

(7) Relinquishment and termination of sourcing areas

(A) In general

A sourcing area may be relinquished at any time.

(B) Effective date

A relinquishment of a sourcing area shall be effective as of the date on which written notice is provided by the sourcing area holder to the Regional Forester with jurisdiction over the sourcing area where the processing facility of the holder is located.

(C) Exportability

(i) In general

On relinquishment or termination of a sourcing area, unprocessed timber from private land within the former boundary of the relinquished or terminated sourcing area is exportable immediately after unprocessed timber from Federal land from within that area is no longer in the possession of the former sourcing area holder.

(ii) No restriction

The exportability of unprocessed timber from private land located outside of a sourcing area shall not be restricted or in any way affected by relinquishment or termination of a sourcing area.

(d) Domestic transportation and processing of private timber

Nothing in this section restricts or authorizes any restriction on the domestic transportation or processing of timber harvested from private land, except that the Secretary may prohibit processing facilities located in the State of Idaho that have sourcing areas from processing timber harvested from private land outside of the boundaries of those sourcing areas.

§ 620c. Restriction on exports of unprocessed timber from State and other public lands

(a) Order to prohibit export of unprocessed timber originating from State or other public lands

Except as provided in subsection (g) of this section, the Secretary of Commerce shall issue orders to prohibit the export from the United States of unprocessed timber originating from public lands, as provided in subsection (b) of this section.

(b) Schedule for determination to prohibit export of unprocessed timber originating from State or other public lands

(1) States with annual sales of 400,000,000 board feet or less

With respect to States with annual sales volumes of 400,000,000 board feet or less, the Secretary of Commerce shall issue an order referred to in subsection (a) of this section to prohibit, notwithstanding any other provision of law, the export of unprocessed timber originating from public lands, effective June 1, 1993.

(3) Prohibition on substitution

(A) Prohibition

Subject to subparagraph (B), each order of the Secretary of Commerce under paragraph (1) or (2) shall also prohibit, notwithstanding any other provision of law, any person from purchasing, directly or indirectly, unprocessed timber originating from public lands in a State if—

(i) such unprocessed timber would be used in substitution for exported unprocessed timber originating from private lands in that State; or

(ii) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands in that State.

(B) Exemption

The prohibitions referred to in subparagraph (A) shall not apply in a State on or after the date on which—

(i) the Governor of that State provides the Secretary of Commerce with notification of a prior program under subparagraph (C) of subsection (d)(2) of this section,

(ii) the Secretary of Commerce approves a program of that State under subparagraph (A) of subsection (d)(2) of this section, or

(iii) regulations of the Secretary of Commerce issued under subsection (c) of this section to carry out this section take effect,

whichever occurs first.

(4) Report to Congress

Not later than June 1, 1995, the Secretary of Commerce, in conjunction with the Secretaries of Agriculture and Interior, shall issue a report to the Congress on the effects of the reallocation, as a result of the enactment of sections 620 to 620j of this title, of public lands timber resources to the domestic timber processing sector, the ability of the domestic timber processing sector to meet domestic demand for forest products, the volume of transshipment of timber originating from public lands across State borders, the effectiveness of rules issued and administered by the Secretary of Commerce pursuant to sections 620 to 620j of this title and the effectiveness of State programs authorized under subsection (d) of this section, and trends in growth and productivity in the domestic timber processing sector.

(c) Federal program

(1) Administration by the Secretary of Commerce

(A) In general

Subject to subparagraph (B), the Secretary of Commerce shall, as soon as possible after July 1, 1993—

(i) determine the species, grades, and geographic origin of unprocessed timber to be prohibited from export in each State that is subject to an order issued under subsection (a) of this section;

(ii) administer the prohibitions consistent with sections 620 to 620j of this title;

(iii) ensure that the species, grades, and geographic origin of unprocessed timber prohibited from export within each State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State; and

(iv) issue such regulations as are necessary to carry out this section.

(B) Exemption

The actions and regulations of the Secretary under subparagraph (A) shall not apply with respect to a State that is administering and enforcing a program under subsection (d) of this section.

The Secretary of Commerce is authorized to enter into agreements with Federal and State agencies with appropriate jurisdiction to assist the Secretary in carrying out sections 620 to 620j of this title.

(d) Authorized State programs

(1) Authorization of new State programs

Notwithstanding subsection (c) of this section, the Governor of any State may submit a program to the Secretary of Commerce for approval that—

(A) implements, with respect to unprocessed timber originating from public lands in that State, the prohibition on exports set forth in the Secretary's order under subsection (a) of this section; and

(B) ensures that the species, grades, and geographic origin of unprocessed timber prohibited from export within the State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State.

(2) Approval of State programs

(A) Program approval

Not later than 30 days after the submission of a program under paragraph (1), the Secretary of Commerce shall approve the program unless the Secretary finds that the program will result in the export of unprocessed timber from public lands in violation of sections 620 to 620j of this title and publishes that finding in the Federal Register.

(B) State program in lieu of Federal program

If the Secretary of Commerce approves a program submitted under paragraph (1), the Governor of the State for which the program was submitted, or such other official of that State as the Governor may designate, may administer and enforce the program, which shall apply in that State in lieu of the regulations issued under subsection (c) of this section.

(C) Prior State programs

Not later than 30 days after July 1, 1993, the Governor of any State that had, before

May 4, 1993, issued regulations under this subsection as in effect before May 4, 1993, may provide the Secretary of Commerce with written notification that the State has a program that was in effect on May 3, 1993, and that meets the requirements of paragraph (1). Upon such notification, that State may administer and enforce that program in that State until the end of the 9-month period beginning on the date on which the Secretary of Commerce issues regulations under subsection (c) of this section, and that program shall, during the period in which it is so administered and enforced, apply in that State in lieu of the regulations issued under subsection (c) of this section. Such Governor may submit, with such notification, the program for approval by the Secretary under paragraph (1).

(e) Prior contracts

Nothing in this section shall apply to—

(1) any contract for the purchase of unprocessed timber originating from public lands that was entered into before—

(A) September 10, 1990, with respect to States with annual sales volumes of 400,000,000 board feet or less; or

(B) January 1, 1991, with respect to States with annual sales volumes greater than 400,000,000 board feet; or

(2) any contract under which exports of unprocessed timber were permitted pursuant to an order of the Secretary of Commerce in effect under this section before October 23, 1992.

(f) Western red cedar

Nothing in this section shall be construed to supersede section 2406(i) of title 50, Appendix.

(g) Presidential authority

The President is authorized, after suitable notice and a public comment period of not less than 120 days, to suspend the provisions of this section if a panel of experts has reported to the Dispute Settlement Body of the World Trade Organization (as the term “World Trade Organization” is defined in section 3501(8) of title 19), or a ruling issued under the formal dispute settlement proceeding provided under any other trade agreement finds, that the provisions of this section are in violation of, or inconsistent with, United States obligations under that trade agreement.

(h) Removal or modifications of State restrictions

Based upon a determination that it is in the national economic interest, the President may remove or modify any prohibition on exports from public lands in a State if that State petitions the President to remove or modify such prohibition.

(i) Effect of prior Federal law

No provision of Federal law which imposes requirements with respect to the generation of revenue from State timberlands and was enacted before August 20, 1990, shall be construed to invalidate, supersede, or otherwise affect any action of a State or political subdivision of a State pursuant to sections 620 to 620j of this title.

(j) Surplus timber

The prohibitions on exports contained in orders of the Secretary of Commerce issued under subsection (a) of this section shall not apply to specific quantities of grades and species of unprocessed timber originating from public lands which the Secretary concerned determines by rule to be surplus to the needs of timber manufacturing facilities in the United States. Any such determination may, by rule, be withdrawn by the Secretary concerned if the Secretary determines that the affected timber is no longer surplus to the needs of timber manufacturing facilities in the United States.

(k) Suspension of prohibitions

Notwithstanding any other provision of this section, beginning on January 1, 1998, and annually thereafter, if the President finds, upon review of the purposes and implementation of sections 620 to 620j of this title, that the prohibitions on exports required by subsection (a) of this section no longer promote the purposes of sections 620 to 620j of this title, then the President may suspend such prohibitions, except that such suspension shall not take effect until 90 days after the President notifies the Congress of such finding.

(l) Existing authority not affected

Nothing in sections 620 to 620j of this title shall be construed to limit the authority of the President or the United States Trade Representative to take action authorized by law to respond appropriately to any measures taken by a foreign government in connection with sections 620 to 620j of this title.

(5) Reporting

(A) In general

Subject to subparagraph (B), the Secretary concerned shall issue regulations that impose reasonable documentation and reporting requirements if the benefits of the requirements outweigh the cost of complying with the requirements.

POLICY CONCERNING DISTRIBUTION OF EAGLE FEATHERS FOR NATIVE AMERICAN RELIGIOUS PURPOSES

Memorandum of President of the United States, Apr. 29, 1994, 59 F.R. 22953, provided:

Memorandum for the Heads of Executive Departments and Agencies

Eagle feathers hold a sacred place in Native American culture and religious practices. Because of the feathers' significance to Native American heritage and consistent with due respect for the government-to-government relationship between the Federal and Native American tribal governments, this Administration has undertaken policy and procedural changes to facilitate the collection and distribution of scarce eagle bodies and parts for this purpose. This memorandum affirms and formalizes executive branch policy to ensure that progress begun on this important matter continues across the executive branch.

Today, as part of an historic meeting with all federally recognized tribal governments, I am directing executive departments and agencies (hereafter collectively “agency” or “agencies”) to work cooperatively with tribal governments and to reexamine broadly their practices and procedures to seek opportunities to accommodate Native American religious practices to the fullest extent under the law.

As part of these efforts, agencies shall take steps to improve their collection and transfer of eagle carcasses and eagle body parts (“eagles”) for Native American religious purposes. The success of this initiative requires the participation, and is therefore the responsibility, of all Federal land managing agencies, not just those within the Department of the Interior. I therefore direct each agency responsible for managing Federal lands to diligently and expeditiously recover salvageable eagles found on lands under their jurisdiction and ensure that the eagles are promptly shipped to the National Eagle Repository (“Repository”). To assist agencies in this expanded effort, the Secretary of the Interior shall issue guidelines to all relevant agencies for the proper shipment of eagles to the Repository. After receiving these guidelines, agencies shall immediately adopt policies, practices, and procedures necessary in accordance with these guidelines to recover and transfer eagles to the Repository promptly.

I support and encourage the initial steps taken by the Department of the Interior to improve the distribution of eagles for Native American religious purposes. In particular, the Department of the Interior shall continue to adopt policies and procedures and take those actions necessary to:

(a) ensure the priority of distribution of eagles, upon permit application, first for traditional Native American religious purposes, to the extent permitted by law, and then to other uses;

(b) simplify the eagle permit application process quickly and to the greatest extent possible to help achieve the objectives of this memorandum;

(c) minimize the delay and ensure respect and dignity in the process of distributing eagles for Native American religious purposes to the greatest extent possible;

(d) expand efforts to involve Native American tribes, organizations, and individuals in the distribution process, both at the Repository and on tribal lands, consistent with applicable laws;

(e) review means to ensure that adequate refrigerated storage space is available to process the eagles; and

(f) continue efforts to improve the Repository's ability to facilitate the objectives of this memorandum.

The Department of the Interior shall be responsible for coordinating any interagency efforts to address continuing executive branch actions necessary to achieve the objectives of this memorandum.

We must continue to be committed to greater inter-governmental communication and cooperation. In addition to working more closely with tribal governments, we must enlist the assistance of, and cooperate with, State and local governments to achieve the objectives of this memorandum. I therefore request that the Department of the Interior work with State fish and game agencies and other relevant State and local authorities to facilitate the objectives of this memorandum.

With commitment and cooperation by all of the agencies in the executive branch and with tribal governments, I am confident that we will be able to accomplish meaningful progress in the distribution of eagles for Native American religious purposes.

The Director of the Office of Management and Budget is authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

(c) Customs laws applied

§ 668dd. National Wildlife Refuge System

(a) Designation; administration; continuance of resources-management-programs for refuge lands in Alaska; disposal of acquired lands; proceeds

(1) For the purpose of consolidating the authorities relating to the various categories of areas that are administered by the Secretary for the conservation of fish and wildlife, including species that are threatened with extinction, all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas are hereby designated as the “National Wildlife Refuge System” (referred to herein as the “System”), which shall be subject to the provisions of this section, and shall be administered by the Secretary through the United States Fish and Wildlife Service. With respect to refuge lands in the State of Alaska, those programs relating to the management of resources for which any other agency of the Federal Government exercises administrative responsibility through cooperative agreement shall remain in effect, subject to the direct supervision of the United States Fish and Wildlife Service, as long as such agency agrees to exercise such responsibility.

(2) The mission of the System is to administer a national network of lands and waters for the conservation, management, and where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans.

(3) With respect to the System, it is the policy of the United States that—

(A) each refuge shall be managed to fulfill the mission of the System, as well as the specific purposes for which that refuge was established;

(B) compatible wildlife-dependent recreation is a legitimate and appropriate general public use of the System, directly related to the mission of the System and the purposes of many refuges, and which generally fosters refuge management and through which the American public can develop an appreciation for fish and wildlife;

(C) compatible wildlife-dependent recreational uses are the priority general public uses of the System and shall receive priority consideration in refuge planning and management; and

(D) when the Secretary determines that a proposed wildlife-dependent recreational use is

a compatible use within a refuge, that activity should be facilitated, subject to such restrictions or regulations as may be necessary, reasonable, and appropriate.

(4) In administering the System, the Secretary shall—

(A) provide for the conservation of fish, wildlife, and plants, and their habitats within the System;

(B) ensure that the biological integrity, diversity, and environmental health of the System are maintained for the benefit of present and future generations of Americans;

(C) plan and direct the continued growth of the System in a manner that is best designed to accomplish the mission of the System, to contribute to the conservation of the ecosystems of the United States, to complement efforts of States and other Federal agencies to conserve fish and wildlife and their habitats, and to increase support for the System and participation from conservation partners and the public;

(D) ensure that the mission of the System described in paragraph (2) and the purposes of each refuge are carried out, except that if a conflict exists between the purposes of a refuge and the mission of the System, the conflict shall be resolved in a manner that first protects the purposes of the refuge, and, to the extent practicable, that also achieves the mission of the System;

(E) ensure effective coordination, interaction, and cooperation with owners of land adjoining refuges and the fish and wildlife agency of the States in which the units of the System are located;

(F) assist in the maintenance of adequate water quantity and water quality to fulfill the mission of the System and the purposes of each refuge;

(G) acquire, under State law, water rights that are needed for refuge purposes;

(H) recognize compatible wildlife-dependent recreational uses as the priority general public uses of the System through which the American public can develop an appreciation for fish and wildlife;

(I) ensure that opportunities are provided within the System for compatible wildlife-dependent recreational uses;

(J) ensure that priority general public uses of the System receive enhanced consideration over other general public uses in planning and management within the System;

(K) provide increased opportunities for families to experience compatible wildlife-dependent recreation, particularly opportunities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;

(L) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the System by other Federal agencies, including those necessary to facilitate military preparedness;

(M) ensure timely and effective cooperation and collaboration with Federal agencies and State fish and wildlife agencies during the course of acquiring and managing refuges; and

(N) monitor the status and trends of fish, wildlife, and plants in each refuge.

(5) No acquired lands which are or become a part of the System may be transferred or otherwise disposed of under any provision of law (except by exchange pursuant to subsection (b)(3) of this section) unless—

(A) the Secretary determines with the approval of the Migratory Bird Conservation Commission that such lands are no longer needed for the purposes for which the System was established; and

(B) such lands are transferred or otherwise disposed of for an amount not less than—

(i) the acquisition costs of such lands, in the case of lands of the System which were purchased by the United States with funds from the migratory bird conservation fund, or fair market value, whichever is greater; or

(ii) the fair market value of such lands (as determined by the Secretary as of the date of the transfer or disposal), in the case of lands of the System which were donated to the System.

The Secretary shall pay into the migratory bird conservation fund the aggregate amount of the proceeds of any transfer or disposal referred to in the preceding sentence.

(6) Each area which is included within the System on January 1, 1975, or thereafter, and which was or is—

(A) designated as an area within such System by law, Executive order, or secretarial order; or

(B) so included by public land withdrawal, donation, purchase, exchange, or pursuant to a cooperative agreement with any State or local government, any Federal department or agency, or any other governmental entity,

shall continue to be a part of the System until otherwise specified by Act of Congress, except that nothing in this paragraph shall be construed as precluding—

(i) the transfer or disposal of acquired lands within any such area pursuant to paragraph (5) of this subsection;

(ii) the exchange of lands within any such area pursuant to subsection (b)(3) of this section; or

(iii) the disposal of any lands within any such area pursuant to the terms of any cooperative agreement referred to in subparagraph (B) of this paragraph.

(b) Administration; public accommodations contracts; acceptance and use of funds; exchange of properties; cash equalization payments

In administering the System, the Secretary is authorized to take the following actions:

(1) Enter into contracts with any person or public or private agency through negotiation for the provision of public accommodations when, and in such locations, and to the extent that the Secretary determines will not be inconsistent with the primary purpose for which the affected area was established.

(2) Accept donations of funds and to use such funds to acquire or manage lands or interests therein.

(3) Acquire lands or interests therein by exchange (A) for acquired lands or public lands,

or for interests in acquired or public lands, under his jurisdiction which he finds to be suitable for disposition, or (B) for the right to remove, in accordance with such terms and conditions as he may prescribe, products from the acquired or public lands within the System. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(4) Subject to standards established by and the overall management oversight of the Director, and consistent with standards established by this Act, to enter into cooperative agreements with State fish and wildlife agencies for the management of programs on a refuge.

(5) Issue regulations to carry out this Act.

(c) Prohibited and permitted activities; application of mining and mineral leasing laws, hunting or fishing regulations, and State laws or regulations

No person shall disturb, injure, cut, burn, remove, destroy, or possess any real or personal property of the United States, including natural growth, in any area of the System; or take or possess any fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof within any such area; or enter, use, or otherwise occupy any such area for any purpose; unless such activities are performed by persons authorized to manage such area, or unless such activities are permitted either under subsection (d) of this section or by express provision of the law, proclamation, Executive order, or public land order establishing the area, or amendment thereof: *Provided*, That the United States mining and mineral leasing laws shall continue to apply to any lands within the System to the same extent they apply prior to October 15, 1966, unless subsequently withdrawn under other authority of law. With the exception of endangered species and threatened species listed by the Secretary pursuant to section 1533 of this title in States wherein a cooperative agreement does not exist pursuant to section 1535(c) of this title, nothing in this Act shall be construed to authorize the Secretary to control or regulate hunting or fishing of resident fish and wildlife on lands not within the system. The regulations permitting hunting and fishing of resident fish and wildlife within the System shall be, to the extent practicable, consistent with State fish and wildlife laws and regulations.

(d) Use of areas; administration of migratory bird sanctuaries as game taking areas; rights of way, easements, and reservations; payment of fair market value

(1) The Secretary is authorized, under such regulations as he may prescribe, to—

(A) permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations, and access whenever he determines that such uses are compatible with the major purposes for which such areas were established: *Provided*, That not to exceed 40

per centum at any one time of any area that has been, or hereafter may be acquired, reserved, or set apart as an inviolate sanctuary for migratory birds, under any law, proclamation, Executive order, or public land order may be administered by the Secretary as an area within which the taking of migratory game birds may be permitted under such regulations as he may prescribe unless the Secretary finds that the taking of any species of migratory game birds in more than 40 percent of such area would be beneficial to the species; and

(B) permit the use of, or grant easements in, over, across, upon, through, or under any areas within the System for purposes such as but not necessarily limited to, powerlines, telephone lines, canals, ditches, pipelines, and roads, including the construction, operation, and maintenance thereof, whenever he determines that such uses are compatible with the purposes for which these areas are established.

(2) Notwithstanding any other provision of law, the Secretary may not grant to any Federal, State, or local agency or to any private individual or organization any right-of-way, easement, or reservation in, over, across, through, or under any area within the system in connection with any use permitted by him under paragraph (1)(B) of this subsection unless the grantee pays to the Secretary, at the option of the Secretary, either (A) in lump sum the fair market value (determined by the Secretary as of the date of conveyance to the grantee) of the right-of-way, easement, or reservation; or (B) annually in advance the fair market rental value (determined by the Secretary) of the right-of-way, easement, or reservation. If any Federal, State, or local agency is exempted from such payment by any other provision of Federal law, such agency shall otherwise compensate the Secretary by any other means agreeable to the Secretary, including, but not limited to, making other land available or the loan of equipment or personnel; except that (A) any such compensation shall relate to, and be consistent with, the objectives of the National Wildlife Refuge System, and (B) the Secretary may waive such requirement for compensation if he finds such requirement impracticable or unnecessary. All sums received by the Secretary pursuant to this paragraph shall, after payment of any necessary expenses incurred by him in administering this paragraph, be deposited into the Migratory Bird Conservation Fund and shall be available to carry out the provisions for land acquisition of the Migratory Bird Conservation Act (16 U.S.C. 715 et seq.) and the Migratory Bird Hunting Stamp Act (16 U.S.C. 718 et seq.).
